INTRODUCTION

The Profile of Older New Yorkers is a comprehensive resource for anyone interested in information at Community District (CD), borough and/or city-wide levels about older New Yorkers. NYCAging has compiled the data to provide the aging community and the public with rich demographic information about this fastest-growing segment of the City's population and to support City and community planning.

The Profile of Older New Yorkers is divided by borough; a summary comparison of borough vs. New York City precedes each borough detailed table and highlights borough demographics "at a glance." In the borough detailed table, column headings indicate key demographics, and rows present the demographic data for each CD in the borough. For comparison, the last two rows of each table provide borough and city-wide data on the same demographics. A guide to *The Profile of Older New Yorkers* is in Appendix 1.

Among key demographic data, *The Profile of Older New Yorkers* includes:

- Information about mobility and self-care impairment, including the total number of persons 60 years of age or older in the CD who are mobility and/or self-care impaired;
- New York City Government (NYCgov) Poverty Measure (formerly New York City Center for Economic Opportunity Poverty Measure) and the Federal Poverty Level (FPL) data about poverty among older adults;
- The number of CD residents 60 years of age or older who have received Supplemental Nutrition Assistance Program (SNAP) benefits in the past 12 months;
- Educational attainment;
- Race/ethnicity and immigrant composition, and
- Mostly common primary languages spoken at home and those who speak English less than very well among older adults.

All data are taken from the American Community Survey (ACS) 2017-2021 PUMS Custom Data Tables, except for NYCgov Poverty Measure data as noted in the endnotes. ACS data are derived from a survey and are subject to sampling variability. Data shown in grey have poor statistic reliability. (Coefficient of Variation greater than or equal to 20%).

Citywide: Guide	There are 8,550,715 persons in NYC.	There are 499,994 persons ages 60 to 64 in NYC.	There are 741,478 persons ages 65 to 74 in NYC.	There are 375,438 persons ages 75 to 84 in NYC.	There are 158,873 persons ages 85 and over in NYC.	There are 1,775,783 persons 60 and over in NYC.	N/A	20.77% of all persons in NYC are 60 and over.	There are 1,275,789 person 65 and over in NYC.	N/A	14.92% of all persons who live in NYC are 65 and over.

ACS data are derived from a survey and are subject to sampling variability. Data shown in grey have poor statistic reliability. (Coefficient of Variation greater than or equal to 20%)

7 APPENDIX 2: CONTACT INFORMATION

The Profile of Older New Yorkers is presented by:

Bureau of Planning & Strategic Initiatives

Adam Wysocki, Deputy Commissioner

Jackie Berman, Director of Program Evaluation & Research

Rosemary Leahey, Senior Research & Data Analyst

Ryan Gardner-Cook, NYCAging Consultant

For answers to questions or more information about the Profile of Older New Yorkers, please e-mail:

Rosemary Leahey at rleahey@aging.nyc.gov

or write to:

Jackie Berman, Director of Program Evaluation & Research

NYC Department for the Aging

2 Lafayette Street, 7th Floor

New York, New York 10007

8 ENDNOTES

¹Population: All population estimates are for the civilian non-group quartered population, which is defined as all people living in group quarters instead of housing units. Group quarters can be institutional (e.g., correctional facilities, skilled-nursing facilities) or noninstitutional (e.g. military quarters, college student housing). Source: U.S. Census Glossary

²Some Other Race (Non-Hispanic) Alone: This includes all people identifying as a race other than White (alone, non-Hispanic), Black (alone, non-Hispanic), Asian (alone, non-Hispanic), or two or more races (non-Hispanic). For example, those identifying as American Indian or Alaska Native are included in "Some Other Race (Non-Hispanic) Alone."

³Measures of Poverty

- **Official (FPL):** The current official poverty measure was developed in the early 1960s. It consists of a set of thresholds that are based on three times the cost of minimum diet at that time. A family's pre-tax cash income is compared against the threshold to determine whether its members are poor. It is updated each year by the change in consumer prices and inflation. It is uniform across the United States. Source: "How the Census Bureau Measures Poverty", U.S. Census Bureau.
- **NYCgov Poverty Measure:** The NYCgov Poverty Measure is based on a New York City-specific threshold derived from the U.S.-wide threshold developed for the Federal Supplemental Poverty Measure (SPM). The threshold is based on what families spend on necessities: food, clothing, shelter, and utilities. It is adjusted to reflect the variation in housing costs across the United States. Source: "*New York City Government Poverty Measure 2019 – An Annual Report from the Office of the Mayor*", Chapter 3: *Measuring Poverty: The NYCgov Poverty Measure Compared to U.S. Official and U.S. Supplemental Poverty Measures*, pages 45-56. Mayor's Office of Operations, The City of New York, April 2021.
