

**New York City Department of Correction**  
**Quarterly Report on TGNBI Individuals in Custody**  
**FY25 Q4**

*Pursuant to Local Law 115 of 2023, the Department is required to report on a quarterly basis an aggregate report on individuals in custody who identify as transgender, non-binary, and intersex (TGNBI). Per Department policy, gender identity is self-reported. TGNBI individuals may apply to be housed in the women's facility in the Special Considerations Unit (SCU), a housing area designated for TGNBI individuals; a general population unit in the women's facility; or placement in a men's facility. Housing applications are used strictly for the purpose of making housing determinations and not for the purpose of determining an individual's gender identity. Individuals in custody receive access to programming and services that align with their stated gender identity regardless of where they are housed. Final housing determinations are made on a case-by-case basis in a manner that ensures the individual's health and safety and abates any management or security concerns. If an individual who identifies to the Department as transgender, intersex, or gender non-binary does not agree with the initial housing determination made based on their application or is removed from their housing placement for security reasons, they can request reconsideration of their housing placement.*

*In order to prevent disclosure of identifying information, if any category contains between one and five persons, or contains an amount that would allow another category that contains between one and five persons to be deduced, the number has been replaced with a symbol.*
