<sup>4</sup> The sick call triage hotline is always available to people during all lock out hours. Nevertheless, emergency lock ins do not prevent medical services and anyone with a medical need can still access the clinic during an emergency lock in.

Facility	HA Type	Lock-In Reasons	# Exceeds 24 Hour
----------	---------	-----------------	-------------------

<sup>5</sup> Pursuant to Local Law 164, a continuous lock-in as used in this report refers to any period of time during which incarcerated individuals are confined to their cells or beds due to the combination of an emergency lock-in and either a scheduled lock-in or a lock-in extension, or both. For the purposes of this data metric, these 24-hour lock-in periods are continuous lock-ins, including both scheduled lock-ins and emergency-lock-in periods.

The number of facility emergency lock-ins, the number of partial facility emergency lock-ins and the number of mandated services affected by an emergency lock-in increased. The number of housing area emergency lock-ins and the number of continuous lock-ins exceeding 24 hours decreased.
