

**NEW YORK CITY DEPARTMENT OF CORRECTION
Special Considerations Housing Application Report**

June 2019 – November 2019

Pursuant to Local Law 144 of 2019(b), the below chart outlines aggregate data related to applications for housing made by transgender, gender non-binary, and intersex individuals admitted into the Department’s custody from June 1, 2019 to November 30, 2019. Individuals who identify as transgender, gender non-binary, or intersex may apply to be housed in the female facility in the Special Considerations Unit (SCU), a housing area designated for the purpose of housing individuals who identify as transgender, intersex, and gender non-binary women; a general population unit in the female facility; or a general population unit in a male facility. During this reporting period, the Department approved 90% of housing applications that were considered.

If an individual does not agree with the initial housing determination or is removed from their housing placement for security reasons, they have the opportunity to request reconsideration of their housing placement.

Total Number of Applications Submitted	Number of Applications Approved	Number of Applications Denied	Number of Applications Reconsidered	Outcome of Reconsiderations Denied	Outcome of Reconsiderations Approved
80 ¹	63	7	3	1	2

¹ The total number of applications submitted includes applications which did not result in a final determination. For example, an application may not result in a final determination if the applicant withdrew their application, or the individual was released from custody prior to their application reaching final review.
