

## New York City Department of Correction

### Monthly Report on Medical Appointment Non-Production December 2021

*Pursuant to Local Law 132 of 2019, the Department is required to report on a monthly basis an aggregate report on non-production of individuals in custody to scheduled medical appointments. Individuals in custody can refuse an appointment at any time. The Department recognizes the importance of medical care for incarcerated individuals but does not use force to compel them to go to their appointment.*

*Individuals seeking the medical care provided by Correctional Health Services (CHS) can use the Sick Call Triage phoneline to request a medical appointment. Individuals with chronic conditions or those requiring a close follow up appointment frequently have appointments automatically scheduled for them by CHS. The below data represents the non-unique number of incarcerated individuals who were not produced to their CHS scheduled medical appointment for December 2021.*

<sup>4</sup> The Department aims to produce as many individuals to the clinic as possible. The Department's current staffing level is contributing to the increase in overall non-production numbers.

<sup>5</sup> In some instances, appointments are requested by incarcerated individuals, while in others, CHS schedules follow-up appointments based off their initial assessment. If an individual requests an appointment but no longer wants the service, an additional appointment is scheduled at the discretion of CHS.
