

New York City Department of Correction
Monthly Report on Medical Appointment Non-Production October 2022

Pursuant to Local Law 132 of 2019, the Department is required to report on a monthly basis an aggregate report on non-production of individuals in custody to scheduled medical appointments (i.e., encounters). Individuals in custody can refuse an appointment at any time. The Department recognizes the importance of medical care for incarcerated individuals but does not use force to compel them to go to their appointment.

Individuals seeking the medical care provided by Correctional Health Services (CHS) can use the Sick Call Triage phoneline to request a medical appointment. Individuals with chronic conditions or those requiring a close follow up appointment frequently have appointments automatically scheduled for them by CHS. The Department tracks the number of medical appointments (i.e., encounters) scheduled by CHS at facility clinics, elsewhere on Rikers Island, or off-island for any number of reasons, including but not limited to medical, medication distribution, dental, mental health, Brad H discharge planning, and on-island/off-island specialist appointments. On a given day, individuals may have more than one scheduled appointment and they may not complete any or all appointments for a variety of reasons; production to each medical encounter is tracked and reported separately. The below data represents the number of CHS scheduled medical appointments for which an individual was not produced in the month of October 2022.

¹ Production Refusal is a term used to describe an instance of an incarcerated individual refusing to be escorted to the clinic for their CHS scheduled medical appointment. In such cases, CHS may reschedule the appointment for a later time or date.

² Walkout is a term used to describe an instance of an incarcerated individual leaving the clinic before being seen by a healthcare professional. In such cases, CHS may reschedule the appointment for a later time or date.

³ Other includes but is not limited to instances where an incarcerated individual chooses to instead attend a work assignment, law library, school, religious services, or commissary, when maximum clinic capacity has been reached, when no escort is available, or when movement is limited due to a lockdown, search, or alarm.
