INTRODUCTION

Making a safe and successful return back to the community can be challenging. Fortunately, you do not have to navigate this journey alone. There are many organizations throughout the five boroughs that provide reentry support.

Understanding what community-based services would be most helpful to you is an important element of making a successful return home. This resource booklet has contact information for organizations that provide a wide array of support services to help ease your transition. The providers are listed by borough and according to the specific services they offer, which includes assistance with housing, employment, education, mental health, substance use, benefit , immigration, and legal issues.

By taking advantage of available reentry resources following your release not only do you increase the likelihood of making a safe return home, you also establish a strong foundation of support that will help you become self-sufficient, reach important goals and reestablish bonds with your family, neighbors and loved ones.

Please utilize this booklet to locate critical reentry services. We also encourage you to participate in jail-based programming so you can receive support during your incarceration and after you return home.
