

Opioid Settlement Funds Report

Total Amount of Opioid Funds Received as of the End of Fiscal Year 2024	
	Total
Funds Received	\$154.3 million

Total Amount of Opioid Funds Appropriated in the Prior Fiscal Year (Fiscal Year 2024)	
	Fiscal Year 2024
Funds Appropriated	\$33 million

Total Amount of Opioids Appropriated for the Next Four Fiscal Years (Fiscal Year 2025 to Fiscal Year 2028)				
	Fiscal Year 2025	Fiscal Year 2026	Fiscal Year 2027	Fiscal Year 2028
Funds Appropriated	\$41 million	\$48 million	\$50 million	\$50 million

Syringe Service Programs

The NYC Department of Health and Mental Hygiene has provided funding for sustaining and expanding hours and services at the City's existing syringe service programs (SSPs) that operate overdose prevention centers (OPCs) to reduce the risk of overdose among people who use drugs and offer them connections to other services and supports, such as treatment.

Provider: OnPoint NYC, with administration via Public Health Solutions (PHS)

OnPoint NYC is a community-based nonprofit organization that offers a wide range of services to people who use drugs, experience homelessness, or engage in sex work in order to improve the quality of life for program participants. OnPoint NYC provides social services that include drop-in centers, harm-reduction services, on-site medical and mental health services, community outreach and syringe litter cleanup, and supportive services along with overdose prevention services. OnPoint NYC, through its parent organizations (New York Harm Reduction Educators and Washington Heights Corner Project), has been providing services in the Bronx and Manhattan since 1992.

Data

In fiscal year 2023, OnPoint NYC provided:

- 20,612 harm reduction services to 5,214 participants. Services included provision of naloxone, health education, buprenorphine prescription, rapid hepatitis C virus (HCV) tests, and referrals to outside organizations for care.
- 138,996 services addressing participants' basic needs, such as respite, meals, laundry, and bathroom, and shower use in their drop-in center

In fiscal year 2024, OnPoint NYC provided:

- 25,862 harm reduction services to 6,685 participants. Services included provision of naloxone, health education, buprenorphine prescription, rapid HCV tests, and referrals to outside organizations for care.
- 194,943 services addressing participants' basic needs, such as respite, meals, laundry, and bathroom, and shower use in their drop-in center

In fiscal year 2025, between July 2024 and January 2025, OnPoint NYC provided:

- 21,660 harm reduction services to 4,720 participants. Services included provision of naloxone, health education, buprenorphine prescription, rapid HCV tests, and referrals to outside organizations for care.
- 132,423 services addressing participants' basic needs, such as respite, meals, laundry, and bathroom, and shower use in their drop-in center

Demographic Characteristics of Participants Receiving Harm Reduction Services at OnPoint NYC, July 2024 Through January 2025

Source: eSHARE | **Extraction Date:** January 30, 2025

	Number	Percentage of Total
Total Participants Receiving Harm-Reduction Services		
	4,720	100%
Gender Identity		
Man	3,246	68.8%
Woman	1,375	29.1%
Transgender man	11	0.2%
Transgender woman	32	0.7%
Other*	56	1.2%
Race and Ethnicity[†]		
Latino	2,445	51.8%
White	685	14.5%
Black	1,398	29.6%
Asian or Pacific Islander	49	1.0%
Other	122	2.6%
Declined	21	0.4%

* Other includes people who are gender nonconforming, nonbinary, or questioning.

[†] Latino/a includes people of Hispanic origin based on ancestry reported in eSHARE demographics, regardless of reported race. White, Black, and Asian or Pacific Islander do not include people of Latino/a origin.

Number of Harm Reduction Services at OnPoint NYC, July 2024 Through January 2025

Source: eSHARE | Extraction Date: January 30, 2025

SND Extraction Date: July 26, 2024

	Number
Total Harm Reduction Services	
Basic needs*	132,423
Identified and confidential services [†]	17,684
Anonymous and group services [‡]	3,976

* Services included respite, meals, laundry, and bathroom, and shower use in their drop-in center.

[†] Identified and confidential services require a program intake and include infectious diseases testing, harm reduction education, and naloxone distribution.

[‡] Anonymous events do not require an individual program enrollment and include services such as targeted case finding and group health education.

Drug Intelligence and Intervention Group

The Drug Intelligence and Intervention Group (DIIG) at the NYC Office of Chief Medical Examiner (OCME) is involved in multiple local efforts related to overdose surveillance, prevention, and response. During fiscal year 2023, the DIIG relaunched a pilot with opioid settlement funds to serve New Yorkers who had lost a loved one to drug overdose.

This initiative is intended to reach highly vulnerable New Yorkers, as research suggests that individuals who witness overdoses are at higher risk of overdose than the general population.^{1,2,3} Overdose bereaved individuals are also at higher risk of depression, post-traumatic stress disorder, and prolonged grief than other bereaved populations.⁴ Oftentimes, individuals who have lost a loved one to overdose have intense feelings of shame and isolation due to the stigma associated with drug use.^{5,6}

DIIG social workers check in with overdose bereaved New Yorkers multiple times in the weeks and months after their loss, connecting survivors with long- and short-term mental health care, emergency financial support services, harm reduction and substance use treatment, housing support programs, and immigration services. Additionally, the Family Support Team helps families navigate common administrative issues related to the sudden and unexpected passing of a loved one, including benefits transfers and applications, financing of funeral arrangements, and retrieval of the decedent's property.

The OCME takes a person-centered approach to care, meeting the needs identified by the client as the most urgent and important, whether they are material or socioemotional. Whenever possible, any referrals to other agencies or social service providers are done using a warm handoff approach.

Data: New Clients Only (Between July 1, 2024, Through January 12, 2025)

Gender	Individuals Contact	Individuals Successfully Engaged
Male	606	379
Female	1076	732
Other	1	1
Total	1,683	1,112

Note: The DIIG does not currently collect ZIP code, ethnicity, or languages spoken data from clients.

Emergency Department Leads

Since 2017, NYC Health + Hospitals (H+H) has been provided funding to engage with medical emergency department (ED) patients who may be at risk for a substance use disorder (SUD), including opioid use disorder (OUD). ED leads teams consist of social workers or licensed counselors and certified peer counselors in all 11 NYC H+H acute care facility emergency departments who provide screening, brief intervention and referral to treatment (SBIRT), peer support, and counseling services, including to people who have co-occurring mental health conditions or are experiencing homelessness. In 2022, NYC H+H was provided additional funding via New York State (NYS) opioid settlement funds to expand ED leads coverage to 24/7 (in progress) across all facilities. This allows ED leads to increase patient engagement, as well as provide coverage in NYC H+H hospital service areas outside of the medical ED, as per service need. This “roving” model allows for further continuity of care from hospital admission to discharge and beyond. With regards to combatting the opioid epidemic, ED leads play an integral role in supporting NYC H+H medical providers with medication assisted treatment (MAT) care coordination. Once initiated into MAT, ED leads assist in connecting patients to long-term MAT services post-discharge. In addition, ED leads provides patients with harm reduction resources and connections to community-based services and supports, as well as supporting a warm hand off to a treatment or recovery center’s transportation services.

Services include:

- SBIRT for SUD (including OUD) treatment post-discharge
- Individual counseling
- Peer support
- Naloxone education and kit distribution (offered to all ED leads patients, including those who have experienced a nonfatal opioid overdose or have an OUD)
- Fentanyl test strip and xylazine test strip distribution (offered to patients who have experienced a nonfatal opioid overdose or have an OUD)

Data: Fiscal Year 2025, First and Second Quarters (July 1, 2024, Through December 31, 2024)

Location	Fiscal Year 2025, First and Second Quarters	
	Number	Percentage of Total
Outside of NYC (five boroughs)	314	2%

Street Health Outreach and Wellness Mobile Harm Reduction

NYC H+H's Street Health Outreach and Wellness (SHOW) program utilizes mobile units to provide health screenings, vaccinations, wound care, basic material necessities such as socks and bottled water, mental health and recovery support service referrals, and harm reduction services to New Yorkers who are unsheltered. A further goal of the program is to connect patients to NYC H+H facility-based Primary Care Safety-Net clinics, where they can receive ongoing medical care, including primary and preventive care and treatment for physical, behavioral, or mental health needs. NYC H+H is utilizing opioid settlement funding to create Mobile Harm Reduction roving teams consisting of a social worker, an addiction counselor, and a peer recovery counselor. With a focus on MAT and building

patient trust, the goal of the program is to offer low-barrier health care and meet patients who are unsheltered where they are at.

Services include:

- SBIRT for SUD
- Peer recovery counselor support
- Linkage to NYC H+H, community SUD, or mental health treatment
- Support NYC H+H staff with patients experiencing co-occurring SUD or other mental health disorders and homelessness
- Naloxone, fentanyl, and xylazine education and kit and test strip distribution

Data: Fiscal Year 2025, First and Second Quarters (July 1, 2024, Through December 31, 2024)

Location	ZIP Code	Launch Date	Encounters
Bellevue	10002	January 1, 2023	1,028
Woodhull	11221	March 23, 2023	1,112
Elmhurst	11373	May 23, 2023	1,168
Bellevue	10027	September 23, 2023	1,238
Lincoln	10451	June 25, 2024	3,615

Substance Use Disorder Workforce Training Program

NYC H+H's Office of Behavioral Health (OBH) has been allocated opioid settlement funds to implement the Substance Use Disorder Workforce Training Program (SUD WTP), a pivotal initiative aimed at enhancing the quality of care for individuals with opioid use disorder seeking treatment at NYC H+H. The mission of the SUD WTP is to drive a transformative cultural and clinical shift, fostering a more compassionate, evidence-based, and patient-centered approach to OUD treatment. Through a comprehensive series of educational initiatives, the program seeks to equip behavioral health providers, medical professionals, and support staff with the necessary skills and knowledge to deliver high-quality care that is both anti-stigmatic and aligned with best practices. By focusing on improving clinical competence and cultural sensitivity, the SUD WTP aims to create a supportive, inclusive, and effective environment for individuals living with OUD across the NYC H+H system.

Training initiatives include:

- Emergency department OUD simulations: Synchronous training with simulated patients.
- E-learning (Relias): Asynchronous modules on an electronic learning platform for behavioral health providers and staff.
- Lunch and learn: Synchronous interactive modules for social workers and peers.
- Community learning: Synchronous, case-based learning for acute care providers, social workers, and peers.

Enhanced services for patients include:

- Grant-funded buprenorphine
- Sober socialization events

Goals and Benefits

- To provide easy-to-access and evidence-based information on medical treatment, special populations (women, perinatal patients, families, and patients with co-occurring disorders), harm reduction, destigmatized language for behavioral health and non-behavioral health providers and staff that interact with patients living with OUD.
- To provide facility-determined, enhanced services for patients living with OUD.

Data: Fiscal Year 2025, First and Second Quarters (July 1, 2024, Through December 31, 2024)

Metric	Fiscal Year 2025, First Quarter	Fiscal Year 2025, Second Quarter
Number of Phase 1 emergency medicine providers trained in OUD simulation	82	26
Total percentage of Phase 1 emergency medicine providers trained in OUD simulation	8%	11%
Number of participants in non-simulation, synchronous trainings	13	116
Number of patients receiving enhanced services*	195	283**
Number of participants enrolled in asynchronous training platform	-	17

* Enhanced services include grant-funded buprenorphine produce (156 patients) and sober socialization events (39 patients). Demographic data will be collected moving forward and reported in line with NYC H+H cell suppression rules.

**Number reflects total number of patient attendees at Sober Socialization events; data reflecting grant-funded buprenorphine will be reported in Q3.

Q2 Programmatic Updates
The ED OUD Simulation program finalized simulated patient and faculty payment and recruitment processes.
The WTP lead social work educator and peer implemented in-person training on Motivational Interviewing and Narcan distribution.
Planning for acute care addiction and peer synchronous, case-based training series began.
Asynchronous training platform was implemented at one facility.
Creation of NYCHHC-specific, addiction-focused training videos to be uploaded to the asynchronous platform began.

Addiction Response Team

The Addiction Response Team (ART) is a multidisciplinary pilot program at three NYC H+H acute care facilities: Jacobi, Harlem, and Queens. ART expands the existing SUD acute care service team (ED leads) to include addiction-trained medical providers and community health workers and extends service delivery beyond the emergency department to inpatient units and SUD walk-in and bridge clinics. Under the direction of the ART associate medical director, the team provides comprehensive SUD

treatment care, including provision of MAT, SBIRT, peer support, care coordination, post-discharge bridging services, and harm reduction.

Services include:

- Expert evaluation, diagnosis, and treatment of patients with SUD (including alcohol use disorder and OUD) within any acute care service area
- Withdrawal management support
- MAT
- Individual counseling
- Peer support
- Referral to SUD (including OUD) treatment as part of the discharge plan
- Care coordination and navigation to care
- Naloxone education and kit distribution (offered to all acute care patients, including those who have experienced a nonfatal opioid overdose or have an OUD)
- Fentanyl and xylazine test strip distribution (offered to people who have experienced a nonfatal opioid overdose or have an OUD)
- SUD bridging, including for patients who have experienced a nonfatal opioid overdose

ART Program Planning Accomplishments: Fiscal Year 2025, First Quarter (July 1, 2024, Through September 30, 2024)

Progress to date:[†]

- Identified ART sites: Harlem, Jacobi, and Queens.
- Confirmed the ART staffing model at each site.
- Finalized the ART table of organization at each site.
- Developed ART staff functional job descriptions.
- Established and held a weekly work group to begin ART program planning.

[†] Data will be available once program is implemented.

ART Program Planning Accomplishments: Fiscal Year 2025, Second Quarter (October 1, 2024, Through December 31, 2024)

Progress to date:[†]

- Finalized facility budgets
- Met with executive suite at ART facilities for updates, buy in, and support
- Distributed hiring memos and job descriptions to hiring managers
- Launched monthly facility workgroups for service implementation
- Formed internal workgroup to identify electronic medical record optimizations for service delivery goals

[†] Data will be available once program is implemented.

Obstetrics Addiction Counselors

This initiative supports one dedicated obstetrics addiction counselor at each of the 11 NYC H+H acute care facilities to prioritize perinatal patients experiencing SUD. Working as part of the ART, the obstetrics addiction counselor will support perinatal patients with SUD in birthing units, emergency departments, inpatient units, and bridging outpatient clinics and improve linkages to ongoing addiction care.

Services include:

- Referral to SUD (including OUD) treatment as part of the discharge plan
- Care coordination and navigation to care
- Screening, identification, and assessment of patient needs for SUD support
- Ongoing support, counseling, and connection to internal and external SUD resources for pregnant and postpartum patients and families
- Collaboration with SUD team members, as well as local behavioral health, social work, medical, nursing, and other care team staff
- Enhancement of the care team's education and knowledge around topics of SUD and available supports
- Naloxone education and kit distribution
- Fentanyl and xylazine test strip distribution

Obstetrics Addiction Counselor Program Planning Accomplishments: Fiscal Year 2025, First Quarter (July 1, 2024, Through September 30, 2024)

Progress to date:[†]

- Drafted obstetrics addiction counselor functional job descriptions.
- Identified sites who will be receiving an obstetrics addiction counselor — all 11 NYC H+H acute care facilities.
- Presented the obstetrics addiction counselor program to internal stakeholders to obtain buy-in and support.
- Established a weekly work group for obstetrics addiction counselor program planning.
- Drafted electronic medical record optimization for the current addiction consult order to include an obstetrics addiction counselor workflow.

[†] Data will be available once program is implemented.

Obstetrics Addiction Counselor Program Planning Accomplishments: Fiscal Year 2025, Second Quarter (October 1, 2024, Through December 31, 2024)

Progress to date:[†]

- Job descriptions for OB Addiction Counselor were created
- Presented OB Addiction Counselor program to internal stakeholders to obtain buy in and support
- Launched interdepartmental addiction service and OB workgroups

- Submitted electronic medical record optimization for current Addiction Consult order to include an OB Addiction Counselor workflow

[†] Data will be available once program is implemented.

Naloxone Distribution

BADUPCT's naloxone distribution strategy is implemented through our Overdose Education and Naloxone Distribution Unit (OENDU), who develops and implements initiatives to reduce and prevent opioid overdose deaths in New York City. The Unit provides naloxone, fentanyl test strips, training, and technical assistance to over 311 Opioid Overdose Prevention Programs (OOPPs) across New York City. OOPPs provide community-based overdose prevention, recognition, and response education and distribute naloxone directly to community members. DOHMH has its OOPP and provides in-person and virtual overdose prevention training and naloxone via mail-based distribution. In addition, OENDU provides contract management, fiscal, technical, and programmatic support to 27 contracted OOPPs for strategic naloxone distribution and 3 contracted OOPPs for implementation and management of Public Health Vending Machines in NYC.

Program Outcomes:

- FY24 : 314,564 naloxone kits purchased and 126 trainings

3.14
