Additional Resources

Continuing Education, Webinars and Educational Modules

The following webinars, online trainings and other online resources can help you improve adult immunization practice and coverage in your facility. For many of these resources, continuing medical education (CME) or continuing education (CE) credit is available. All courses with CME/CE credit are indicated with a double asterisk (**).

Centers for Disease Control and Prevention (CDC)

Current Issues in Immunization NetConference

Description: This online series provides clinicians with up-to-date information on immunization. Presented by the National Center for Immunization and Respiratory Diseases, the hour-long presentations are scheduled four to five times per year. Specific topics are announced prior to each event and are archived online after the event.

Format: Webinar (live and archived)

Link: cdc.gov/vaccines/ed/ciinc

Pink Book Webinar Series**

Description: This online series of 15 webinars provides an overview of the principles of vaccination, general vaccination recommendations, immunization strategies for providers and information about specific vaccines and the diseases they prevent. Each hour-long webinar explores a chapter from "Epidemiology and Prevention of Vaccine-Preventable Diseases," also known as "The Pink Book."

Format: Webinar (live and archived)

Medscape

Adult Immunization CME Learning Center**

Description: This is an online repository of all adult immunization CME/CE activities.

Format: Various, including webinars and articles

Link: medscape.org/resource/vaccines/cme

Credit: CE credits vary by activity

National Foundation for Infectious Diseases

Adult Immunization Awareness Webinar Series**

Description: These monthly webinars educate health care professionals about the importance of adult vaccination and strong provider recommendations to patients. The series covers a variety of topics, including vaccines for younger adults, older adults and health care professionals; maternal immunization and flu and pneumococcal vaccines.
