# **Implementing The Undetectables Program to Support Viral Load Suppression for Vulnerable Populations in NYC**

**Ending the Epidemic Summit  
Albany, NY  
December 5, 2018**

**Gina Gambone, MPH**  
NYC Department of Health and Mental Hygiene

**Greg Wersching, MA**  
Housing Works

# UNDETECTABLES

---

# Overview

- **Program Background**
- **Scaling Up in New York City: ETE-Funded Implementation**
- **Sustainability**

# Program Background

**UNDETECTABLES**

---

# How It All Began

- Housing Works launched The Undetectables in March 2014 with support from the Robin Hood Foundation
- Goals:
  - 1) Help each client achieve and maintain **durable viral suppression**
  - 2) Celebrate the **heroic** actions of our clients
  - 3) Create an agency-wide **culture shift** around ending AIDS

---

# Notable Features

- Integrated: **Dual enrollment** in primary care and at least 1 form of case management
- Innovative: **\$100 financial incentive** for viral suppression (<50 copies/mL) every quarter
- Creative: Empowering and visible **social marketing** using The Undetectables superhero theme

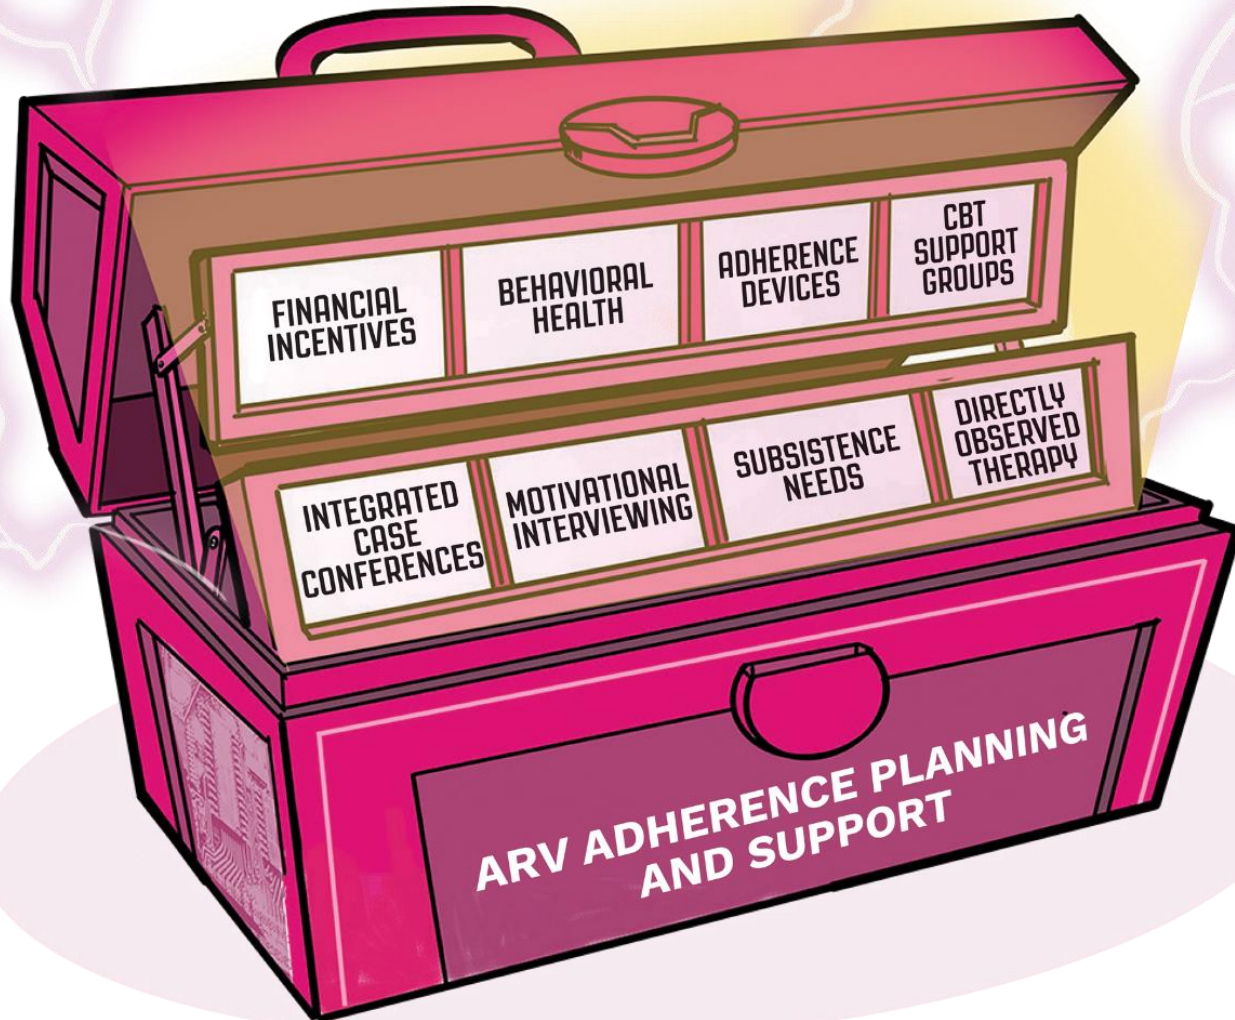

# Program Model

# Inside the Tool Kit

# UNDETECTABLES

1  
SPIN  
804

I HAVE TO BE QUICK! JUST THE MONSTER'S TOUCH UNLEASHES MASSIVE FEELINGS OF REMORSE.

GUYS! REACH OUT TO ME!!!

I NEED YOUR POWERS!!!

HERE WE ARE TERRANCE

NOW LET'S SHOW THEM...

WHO THE UNDETECTABLES ARE!

MY HDV IS UNDETECTABLE...

...THAT MAKES ME IRREPRESSIBLE.

...AND THE VIRUS INTRANSMISSIBLE...

I AM AN UNDETECTABLE!!!

KE-RAAAAASHHHH!!!

---

# Evaluation Design

- **24-month pilot** evaluated by the University of Pennsylvania
- **Community-based participatory** approach and **intent-to-treat** analysis
- Each participant used as **their own control** to assess viral load and cumulative viral exposure pre- and post-enrollment
- Examining: **Feasibility, Efficacy, and Cost-Effectiveness**

---

# Key Pilot Findings

- Significant positive impact on time spent virally suppressed found in pre/post evaluation (n=502):
  - **17% increase** post-intervention in proportion of all time points undetectable ( $\leq 50$  copies/ml)\*
  - **20% increase** post-intervention in proportion of clients virally suppressed at all time points ( $\leq 50$  copies/mL)\*
- Significant social/racial disparities in viral suppression found at baseline disappeared post-enrollment

\*p<.0001 (paired t test)

# Scaling Up in New York City

---

ETE-Funded Implementation

**UNDETECTABLES**

---

# Preparing to Scale Up

- **June 2014**: Governor Cuomo announced New York State's plan to end the AIDS epidemic by 2020
- **Spring 2015**: The Ending the Epidemic Task Force introduced its *Blueprint to End AIDS*

# Ending the Epidemic

The Undetectables aligns with Pillar 2 of the ETE Blueprint:

THE  
**NEW YORK  
BLUEPRINT  
TO END AIDS**  
WILL

1

Identify persons  
with HIV who remain  
undiagnosed.

2

Link persons diagnosed  
with HIV to health  
care to achieve viral  
suppression and prevent  
further transmission.

3

Facilitate access to  
Pre-Exposure Prophylaxis  
(PrEP) and non-occupational  
post-exposure prophylaxis  
(nPEP) for high-risk persons  
to keep them HIV-negative.

---

# Scale-Up Process

- **Housing Works and NYC DOHMH prepared the model for replication with a VLS “Learning Lab” that included Amida Care and other stakeholders**
- **The VLS Learning Lab focused on Essential Elements, Organizational Readiness, Curriculum, Evaluation, and Social Marketing**
- **NYC DOHMH issued Ending the Epidemic RFP and awarded contracts to 7 agencies in July 2016, with Housing Work as TA provider**

# ETE-Funded Agencies

**HARLEM UNITED**

**BRIGHTPOINT  
HEALTH**

**HOUSING WORKS**

**Ryan Health**

## The Undetectables Program locations in relation to HIV prevalence in NYC

- 16 program sites as of December 2018

Source: HIV Epidemiology and Field Services Program. *HIV Surveillance Annual Report, 2016*.  
New York City Department of Health and Mental Hygiene: New York, NY. December 2017.

---

# ETE-Funded Implementation

- **Program model integrated into existing HIV care management programs**
  - Including: RWPA Care Coordination, RWPB Retention and Adherence Program, Health Homes, and ADHC
- **Start-up and ongoing training and TA by Housing Works**
- **Over 1870 people enrolled in The Undetectables as of June 30, 2018**

---

# ETE-Funded Implementation

- **Most common barriers to ART adherence documented at enrollment:**
  - Income below FPL (81%)
  - Food insufficiency (38%)
  - Unstable housing (24%)
  - Mental Health Symptoms (22%)
- **Suppression status of clients at program enrollment (n=1870)**
  - 67% virally suppressed\*
  - 11% unsuppressed
  - 22% unknown
- **As of June 30, 2018, 90% of clients engaged in care (n=1376) were virally suppressed**

\* VLS defined as <200 copies/mL

---

# Implementation Challenges

- Integrating the model into a range of existing HIV care management programs
  - Care management program capacity
  - Staff buy-in
- Advancing *agency-wide* organizational change with limited pilot funding
- Data collection and reporting

# Sustainability

**UNDETECTABLES**

---

# Program Expansion

- **November 2017: Community Care of Brooklyn (CCB) replicated The Undetectables in Brooklyn**
  - Supported through the DSRIP Program
  - 3 hospital sites and 3 FQHC sites
  - Currently serves 500+ clients and growing
- **November 2018: Amida Care announced their “Live Your Life Undetectable” viral suppression program**
  - Features key elements of The Undetectables
  - To be offered to all eligible Amida Care members
  - Set to go live in December 2018

---

# What's Next?

- Anticipated renewal of **NYC DOHMH** Undetectables contracts
- Sharing the digital **Undetectables Program Guide** to other agencies seeking to adopt the intervention
- Seeking continued expansion throughout **New York State** to advance Ending the Epidemic goals in all key regions
- Promoting The Undetectables to urge replication in other parts of the **United States**
