

# Sample Storyboard – The Necklace

Two friends watch a movie together.

One girl gets up to retrieve a necklace and intimately puts it around her friend's neck.

The girl receiving the necklace takes this as a romantic gesture, and starts kissing her. It is a beautiful moment and the two girls are happy.

We rewind the scene to the point just as the girl receiving the necklace approaches for a kiss, but this time the girl who gave her the necklace makes it clear that it was **ONLY** a gesture of friendship.

The girl who received the necklace is very embarrassed.

We rewind the scene to the moment just **before** the girl who received the necklace tries to kiss the girl who gave the necklace. This time, instead of moving toward her immediately, she looks into the other girl's eyes and asks if she can kiss her.
