

Children And Youth With Special Health Care Needs Program

NYCTM
Health

We serve children and young adults (age 21 and younger) who:

- Live in a New York City (NYC) borough
- Have been diagnosed with or may have a serious or chronic health condition or disability, or a physical, developmental, intellectual, emotional or behavioral condition
- Need extra health care and assistance

Referrals: Staff refer families with children and youth who have special health care needs to the NYC Department of Health and Mental Hygiene’s Certified Application Counselors. The Certified Application Counselors help families apply for low- or no-cost health insurance and connect families to community resources to meet their children’s unique medical needs.

Information Services: Staff help families find out about and choose health care options and services to best meet their children’s needs.

Resources: Staff provide educational materials and web-based resources on health insurance and medical topics.

For more information, scan the QR code, visit nyc.gov/health/children-youth-special-health-needs, or call **311** or 347-396-4600.

Funded by the New York State Department of Health using federal Health Resources and Services Administration Title V funding.
