

Health Effects of Smoking and Vaping on Pets

Dogs that live with people who smoke are at higher risk of nasal and lung cancer.

Cats that live with people who smoke are at higher risk of lymphoma (cancer of the lymphatic system).

Birds that live with people who smoke can develop pneumonia, lung cancer, and eye, skin, heart, and fertility issues.

Pets may be at risk of deadly nicotine toxicity within 15 to 30 minutes of swallowing vape cartridge contents.

If you are ready to quit smoking or vaping, visit nysmokefree.com or call 866-NY-QUITS (866-697-8487) to talk to a quit coach.

For other treatment resources, including options to help you cut back or avoid smoking or vaping at home, visit nyc.gov/nycquits.
