

**West Nile Virus activity* detected recently in the following
Staten Island zip codes: 10301, 10302, 10303, 10304, 10305, 10306, 10307, 10308, 10309, 10310, 10312, 10314**

Neighborhoods: Annadale, Arden Heights, Bay Terrace, Bloomfield, Bulls Head, Castleton Corners, Chelsea, Dongan Hills, Elm Park, Eltingville, Graniteville, Grant City, Grasmere, Great Kills, Greenridge, Grymes Hill, Heartland Village, Huguenot, Livingston, Midland Beach, New Dorp, New Dorp Beach, New Springville, Oakwood, Old Town, Pleasant Plains, Port Richmond, Randall Manor, Richmond Valley, Rossville, Silver Lake, South Beach, Sunnyside, Tottenville, West Brighton, Westerleigh, Willowbrook, Woodrow

Now is the time for New Yorkers – especially people over 50 or with weakened immune systems – to take **personal precautions to prevent mosquito bites:**

- **Use repellents that contain 2-undecanone, DEET, Oil of Lemon Eucalyptus, IR3535, or Picaridin and ALWAYS follow label instructions.**
- **If outside from dusk to dawn, wear protective clothing** if possible, such as loose-fitting pants, long-sleeved shirts, and socks.
- **Make sure that your doors and windows have tight-fitting screens.**
Fix or replace screens that have tears or holes.

Reduce mosquito exposure around your home:

- Eliminate any standing water that collects on your property.
- Remind or help neighbors to eliminate standing water on their properties.
- Call **311** to report standing water.

For more information about West Nile virus, call 311, or go to www.nyc.gov/health.
