

# Recent West Nile Virus Activity\* in Mosquito Populations of New York City, by Zip Code, September 24 to October 13, 2023

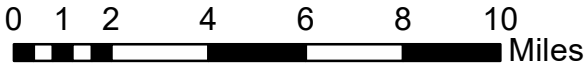

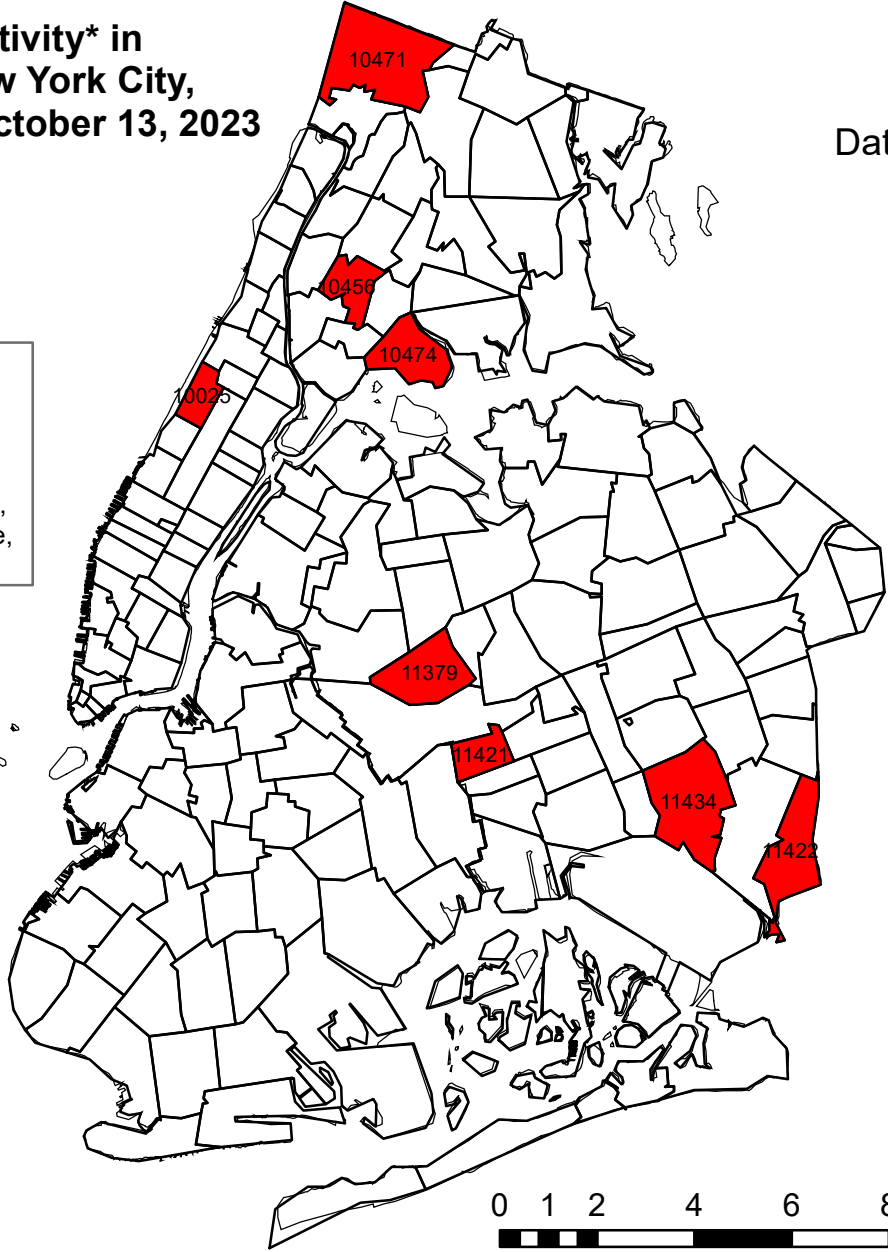

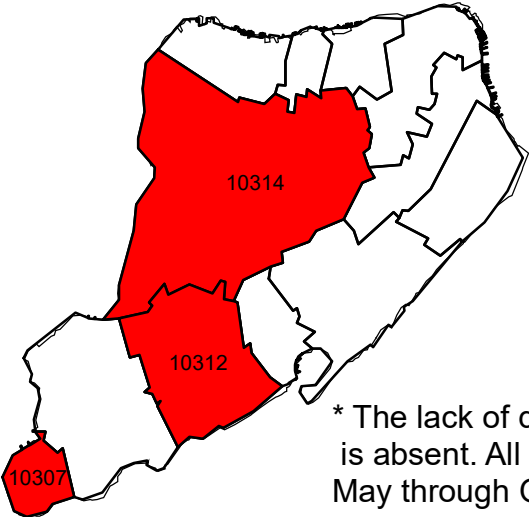

Date: 10/13/2023

**Legend**

 West Nile virus detected

Source: West Nile virus surveillance data, Department of Health and Mental Hygiene, New York City

\* The lack of detection of West Nile virus in a ZIP code does NOT mean that West Nile virus is absent. All New Yorkers should take precautions to avoid mosquito bites, especially May through October, when mosquitoes are most active.
