

Recent West Nile Virus Activity* in Mosquito Populations of New York City, by Zip Code, October 1 to October 18, 2023

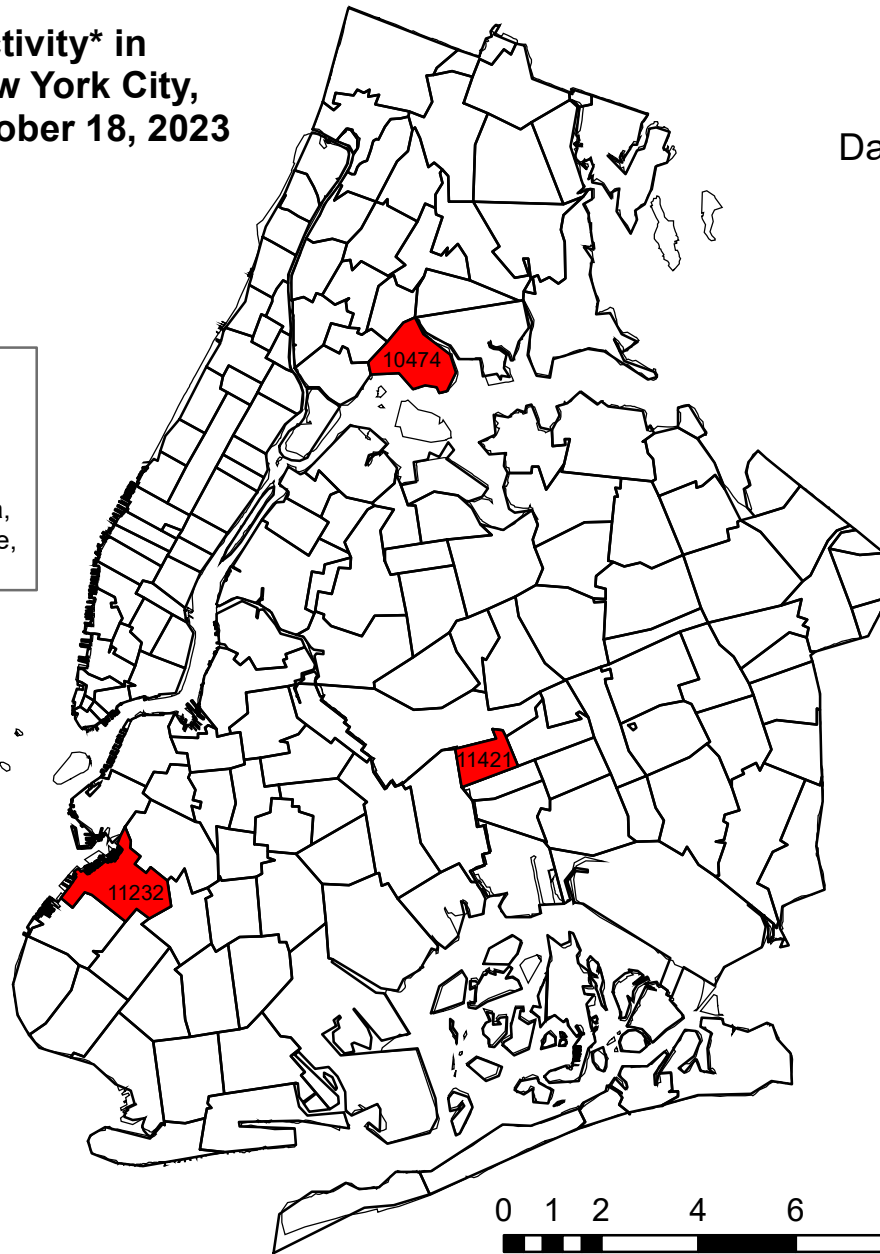

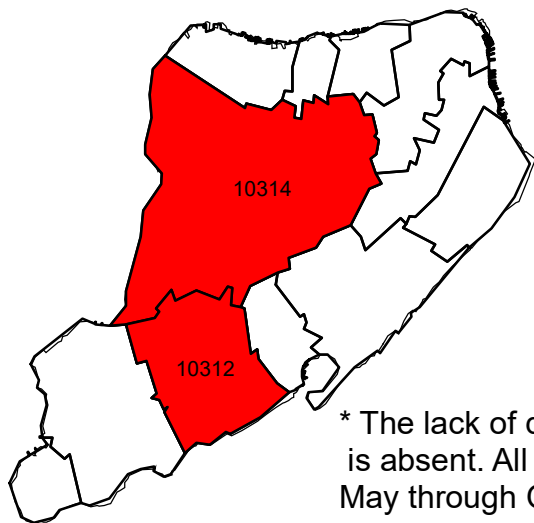

Date: 10/18/2023

Legend

 West Nile virus detected

Source: West Nile virus surveillance data, Department of Health and Mental Hygiene, New York City

* The lack of detection of West Nile virus in a ZIP code does NOT mean that West Nile virus is absent. All New Yorkers should take precautions to avoid mosquito bites, especially May through October, when mosquitoes are most active.
