

Neighborhood Development Area Profiles

Instructions & Guidance

OBJECTIVE

The goal of your Neighborhood Development Area profile is to help develop funding priorities in your NDA; inform DYCD policies and practices; and identify and connect with additional resources to strengthen your community.

Your profile is part of DYCD's Citywide Community Needs Assessment, which is one of the most important planning tools utilized by the agency for informing program development. To create your profile, we engaged key stakeholders and members in your community to yield invaluable data regarding needs, access to, and availability of resources.

To conduct this assessment, DYCD used a variety of methods for data collection, with the main device being a series of surveys and public hearings.

2 FORMULATION OF NEEDS

To determine needs in your community, we asked community members the following questions:

What programs and services did you and your household receive within the last 12 months? What are the programs or services that you and your household were unable to access for any reason within the last 12 months?

What are the programs or services you believe are most needed in your community?

3 PROGRAM & SERVICE RESPONSE OPTIONS

To answer these questions, respondents were provided with 29 program, service, and activity topics as response options:

Adult Education/Literacy Afterschool Programs Assistance Starting a Business Child care/Head Start College preparation Domestic violence assistance Education/Career Counseling Emergency Counseling English Classes (ESL) Eviction Prevention Family counseling Financial assistance Financial education/literacy Food and nutrition assistance Health Care Heating/Utility assistance Housing Assistance Income Tax Assistance Interpersonal Conflict Resolution/Mediation Job skills/Employment training Legal Services Other Parenting support Safety/Crime prevention Senior citizen services Substance abuse assistance Summer recreation services Transportation Veteran's Services

To make this data actionable, we the grouped these topics into categories as follows:

Veteran's Services

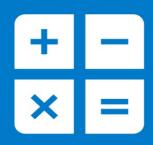

5

Upon completion of these categorizations, DYCD analyzed the frequency with which each stakeholder selected each program, service, and activity topic. Based on this analysis, we identified the top 10 topics selected by respondents. From there, points were attributed to each category based on the associated topic's ranking. The higher the topic was ranked, the more points were given.

6 Calculate Needs

Once the points were distributed, a sum was calculated to determine the needs you see in your profile!

Community Needs Assessment
