## HNTB PARTNERS WEBINAR

October 27, 2020 8:00am

Part Three: Create a Compelling RFP Narrative

[https://zoom.us/webinar/register/WN\\_IUEHS3-fSxy2uuCIOLhj4w](https://zoom.us/webinar/register/WN_IUEHS3-fSxy2uuCIOLhj4w)

You're Invited

Join us on **October 27, 2020, at 8:00 a.m.** for the second installment of our HNTB Partners Webinar Series!

### Part Three: Create A Compelling RFP Narrative

Learn from HNTB's Marketing Professionals:

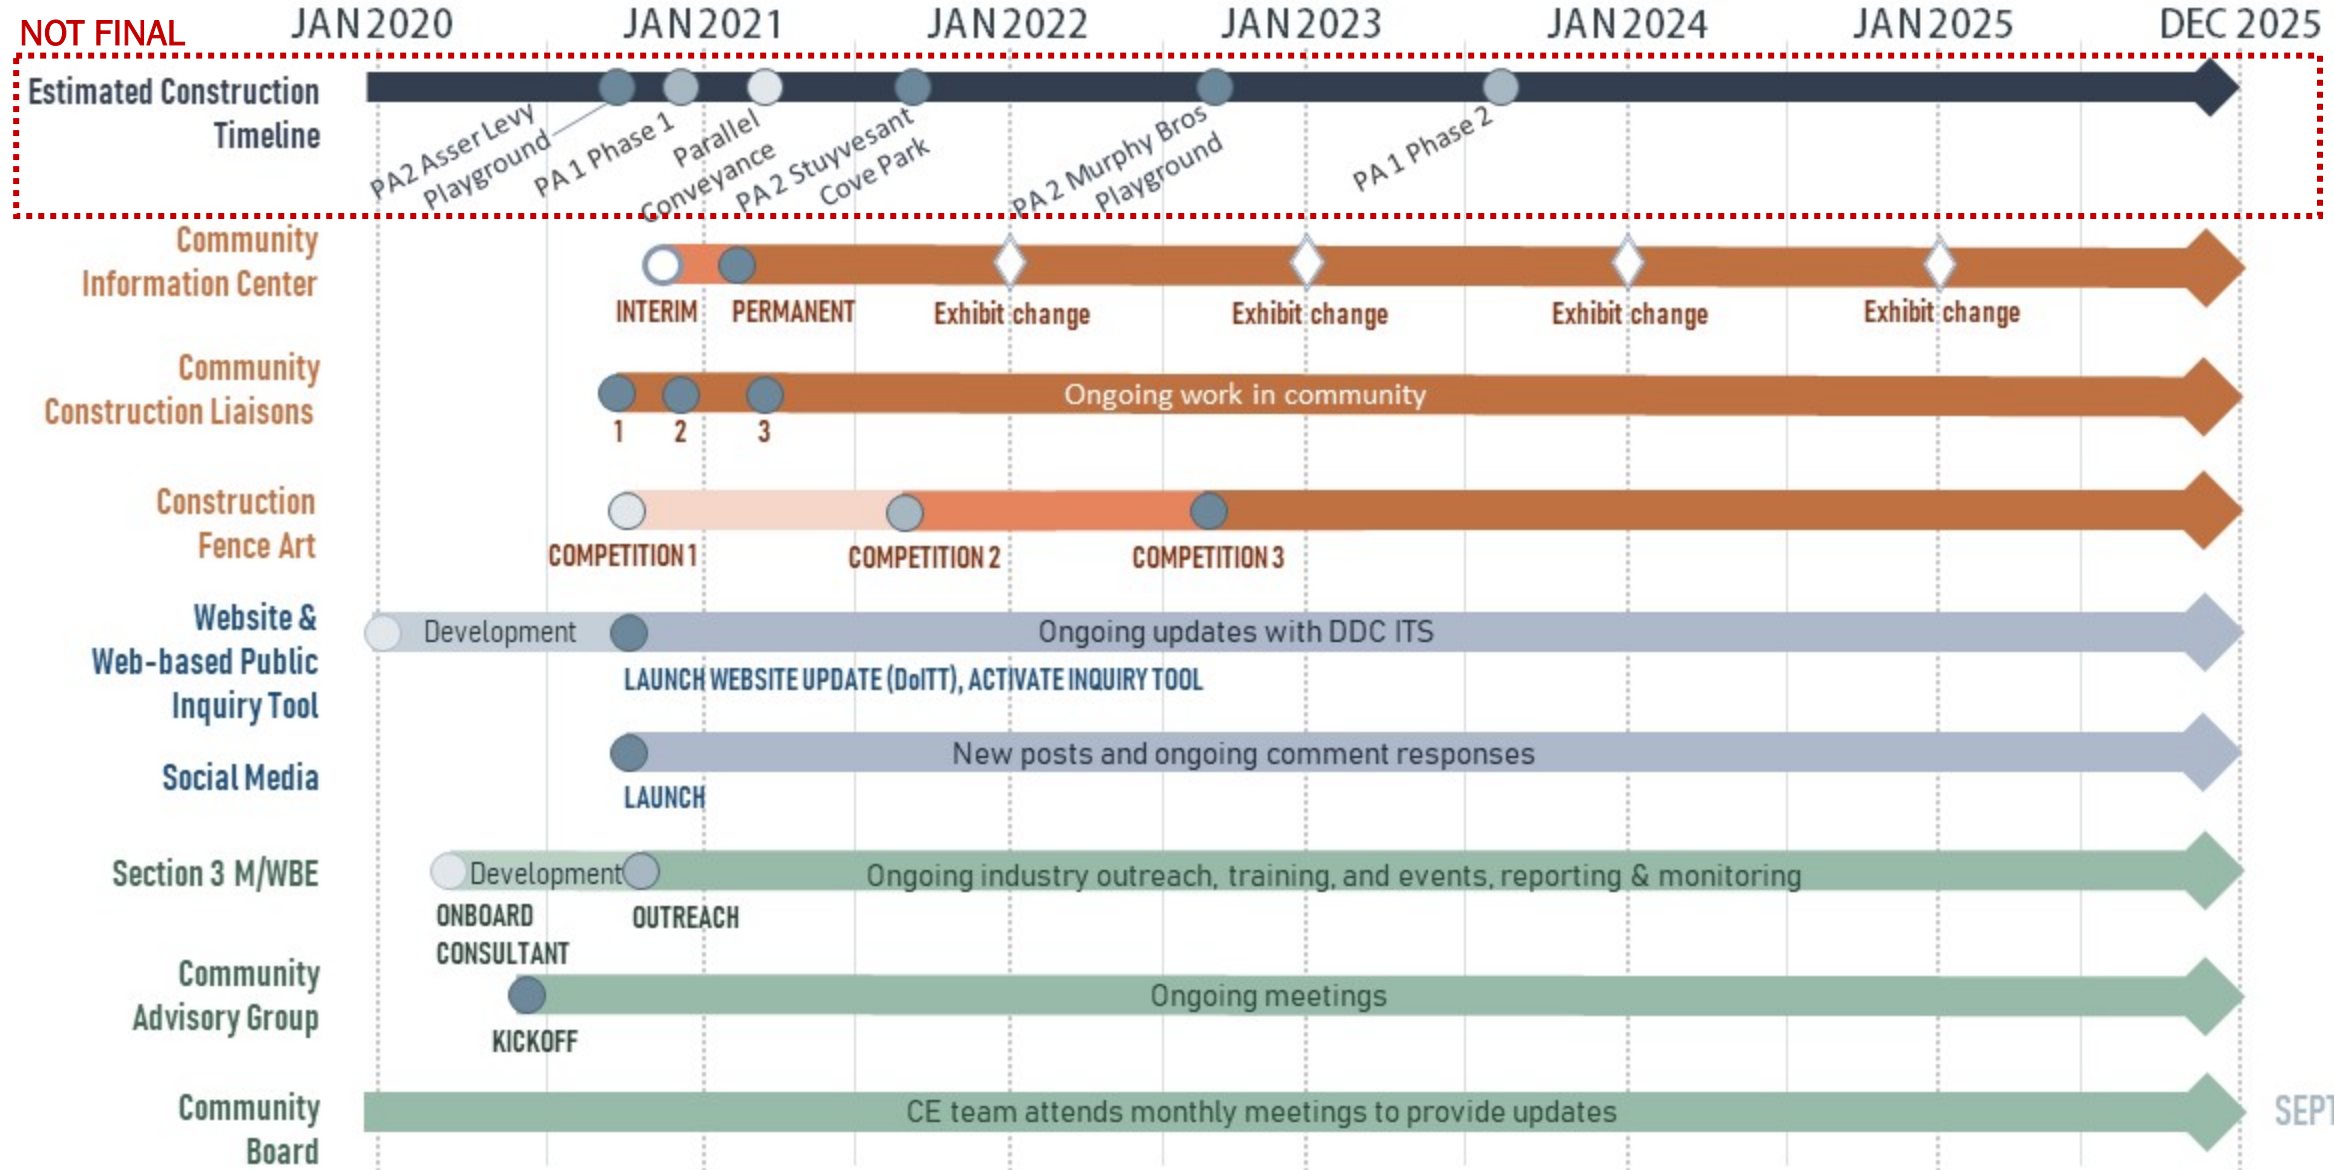

- Steps to writing a winning narrative
- How to present your best work
  - RFP best practices

Network and ask questions!

# COMMUNITY ENGAGEMENT | 2020-2025

East Side Coastal Resiliency

Mayors Office of Resiliency | NYC Department of Design and Construction  
 NYC Parks | NYC Department of Transportation | NYC Department Economic Development

**DRAFT**  
 SEPTEMBER 2020

**LEARN MORE**  
Construction on the East Side Coastal Resiliency project will begin in Fall 2020. Learn more about where construction will occur and how to receive updates throughout the project.

**Flood Risk Reduction  
Improved Access  
Enhanced Open Spaces**

### East Side Coastal Resiliency

The East Side Coastal Resiliency (ESCR) Project is a coastal protection initiative, jointly funded by the City of New York and the federal government, aimed at reducing flood risk due to coastal storms and sea level rise on Manhattan's East Side from East 25th Street to Montgomery Street. The boundaries of this project correspond with the natural "pinch-points" in the 100-year floodplain: areas where the land is higher along the coastline, making it easier to close the system off from water entering from the north and south. The project design integrates flood protection into the community fabric, improving waterfront open spaces and access, rather than walling off the neighborhood. Construction on the East Side Coastal Resiliency project will begin in Fall 2020 and continue through 2025.

#### Construction Notices

View our most recent community presentations for updates as we prepare for upcoming construction activities.

#### Resiliency and Flood Protection

Learn more about ESCR's resiliency and the forward-thinking flood protection measures being implemented to protect 110,000 New Yorkers from the impacts of climate change.

#### Project Background and Goals

Read about the history and background of ESCR, and the goals driving this technically complex infrastructure project.

#### Project Design

From flood protection measures to bike lanes and ball fields, the ESCR project is improving open spaces and access in the Lower East Side while strengthening the city's coastline.
