

Project # SANDRESPC | Borough: Manhattan | Issue Date: 3/09/2023

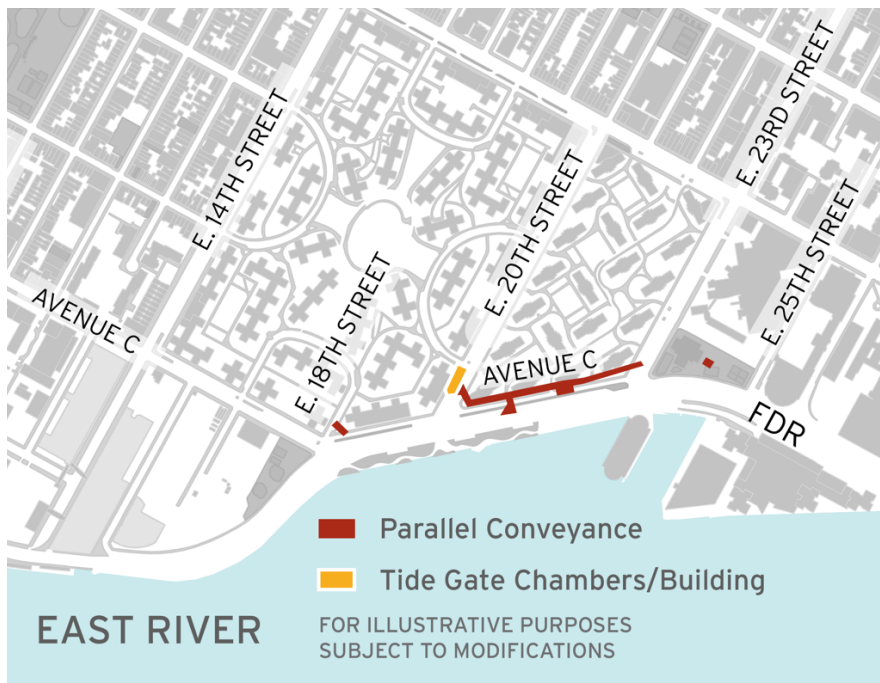

The East Side Coastal Resiliency (ESCR) Project is an initiative to provide long-term flood protection on the east side of Manhattan.

Subsurface investigation begins in the northern area of ESCR's Parallel Conveyance Project

Starting on or about March 20th, 2023

Contractor will begin subsurface investigation to prepare for future construction activities in the northern portion of the project on E. 18th St. & Ave C, and Ave C between E 20th St. & E 23rd St. More details to follow. Temporary street and sidewalk closures may be necessary to accommodate construction equipment and crews.

The Parallel Conveyance project will protect inland areas from flooding within the from Montgomery Street to E 25th Street. Work includes installation of watermains, upgrades to existing sewer capacity and relocation of utilities. Advisories and Bulletins will be posted on-site and on the ESCR website: www.nyc.gov/escr
