

Project # SANDRESPC | Borough: Manhattan | Issue Date: 7/11/2023

The East Side Coastal Resiliency (ESCR) Project is an initiative to provide long-term flood protection on the east side of Manhattan.

Subsurface Investigation begins in the Northern area of ESCR's Parallel Conveyance Project

Starting on or about Week of July 24, 2023.

The contractor will begin their subsurface investigation to prepare for upcoming construction activities in the northern portion of the project on E. 20th St between Avenue C and E 20th St. Loop. More details to follow. Temporary street and sidewalk closures may be necessary to accommodate construction equipment and crews.

The Parallel Conveyance project will protect inland flooding areas within the project limits from Montgomery Street to E 25th Street. Work includes installation of watermain, upgrades to existing sewer capacity and relocation of utilities. Advisories and Bulletins will be posted on-site and on the ESCR website's [PC Construction Notices](#) page.
