EAST SIDE
COASTAL
RESILIENCY

The East Side Coastal Resiliency (ESCR) Project is an initiative to provide long-term flood protection on the east side of Manhattan.

Test Pit Work Resumes To be followed by test piles

On Avenue C between E. 23rd Street and E. 20th Street, on E. 20th Street between Avenue C and 20th Street Loop, AND on E. 18th Street between Avenue C and 18th Street Loop
Restarting Tuesday, August 13, 2024, ongoing for up to four weeks from 7:00 am - 4:00 pm

To identify the existing underground services, the contractor will make a series of excavations followed by test piles. A test pile is used to determine the integrity of the ground conditions and permanent piles will follow.
