

Project # SANDRESM1 | Borough: Manhattan | Issue Date: 06/16/2025

The East Side Coastal Resiliency (ESCR) Project is an initiative to provide long-term flood protection on the east side of Manhattan.

Nightwork: Removal of the E. 10th Street Bridge

Beginning Sunday, June 29th, 2025 at 12:01 am, ongoing for 2-3 months

Activities related to the removal of the E. 10th Street Bridge will necessitate overnight work. **This operation can be disruptive and loud.** Because this work includes full and partial FDR Drive closures, we are required to perform it at night to minimize traffic disruptions. **Noise, vibration, and air quality monitors are in place.** We apologize for the disturbance and thank you for your patience as we make these critical upgrades. Separate advisories detailing the pedestrian and FDR Drive detours are available on the ESCR website.
