

Project # SANDRESM1 | Borough: Manhattan | Issue Date: 12/09/2025

The East Side Coastal Resiliency (ESCR) Project is an initiative to provide long-term flood protection on the east side of Manhattan.

Nightwork: E. 13th Street Floodwall Construction

Beginning December 15, 2025

10:00 pm to 5:30 am

Ongoing for approximately two weeks

To facilitate construction of the E. 13th Street Floodwall, activities for pile installation will necessitate overnight work with FDR lane closures. **This operation is expected to be disruptive and loud.** Noise, vibration, and air quality monitors are in place. Thank you for your patience as we construct this critical flood protection.
