

Project # SANDRESM1 | Borough: Manhattan | Issue Date: 03/27/2026

The East Side Coastal Resiliency (ESCR) Project is an initiative to provide long-term flood protection on the east side of Manhattan.

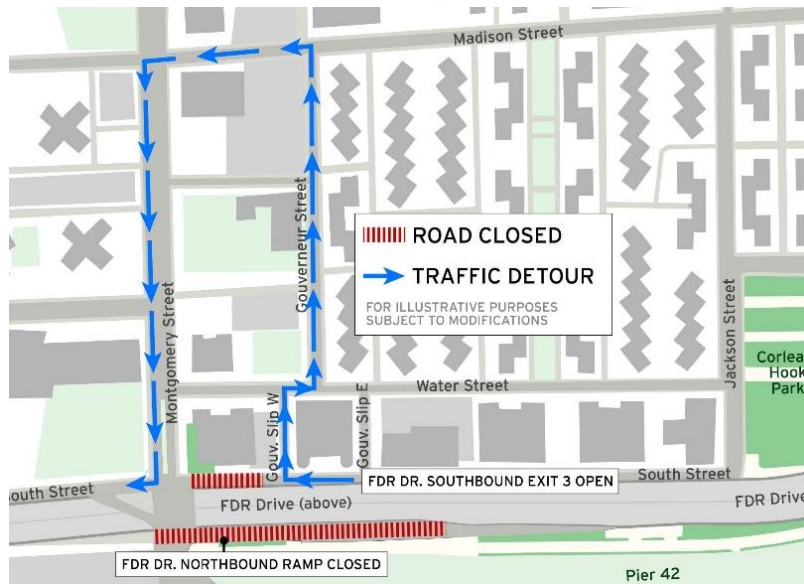

Nightwork: Closures at South St. & Montgomery St.

Beginning Monday, April 20th, 2026

10:00 pm to 7:00 am

Ongoing for approximately one week.

In addition to daytime maintenance of the Montgomery & Pier 42 Floodgates, a nighttime closure of South Street between Gouverneur Slip West & Montgomery Street, and of the FDR Drive NB Ramp at Montgomery Street, will be required for additional maintenance and testing. FDR Southbound Exit 3 will remain open, but traffic will follow the detour below. We are required to perform this work at night to minimize traffic disruptions. Please follow all posted signs, Traffic Enforcement Agents, and flaggers while this closure is in effect. Noise and air monitors are in place.
