

Project # SANDRESM1 | Borough: Manhattan | Date: 06/12/2026

The East Side Coastal Resiliency (ESCR) Project is an initiative to provide long-term flood protection on the east side of Manhattan.

## Nightwork: E. 13th St. Flood Protection Construction

Beginning the week of June 22<sup>nd</sup>, 2026

Ongoing for approximately three months

Monday to Friday: 9pm to 5am

Friday into Saturday: 10pm to 10am

Saturday into Sunday: 10pm to 11am

To facilitate the construction of critical flood protection for the community, pile and sheet installation will begin adjacent to and across the FDR Drive. NYC DOT requires us to perform certain activities overnight, and it is expected to be noisy and disruptive. We apologize for the disturbance and appreciate your patience. Please follow detours and on-site signage to ensure safety. Noise, vibration, and air quality monitors are in place.

Please visit [nyc.gov/escr/nightwork](http://nyc.gov/escr/nightwork) for tentative nightwork schedules near Riis.
