COMMUNITY ENGAGEMENT SESSION: WATERFRONT CONNECTIONS MAY 20 & 28, 2015

TABLE 1 WORKSHEET

CORLEARS HOOK PEDESTRIAN BRIDGE

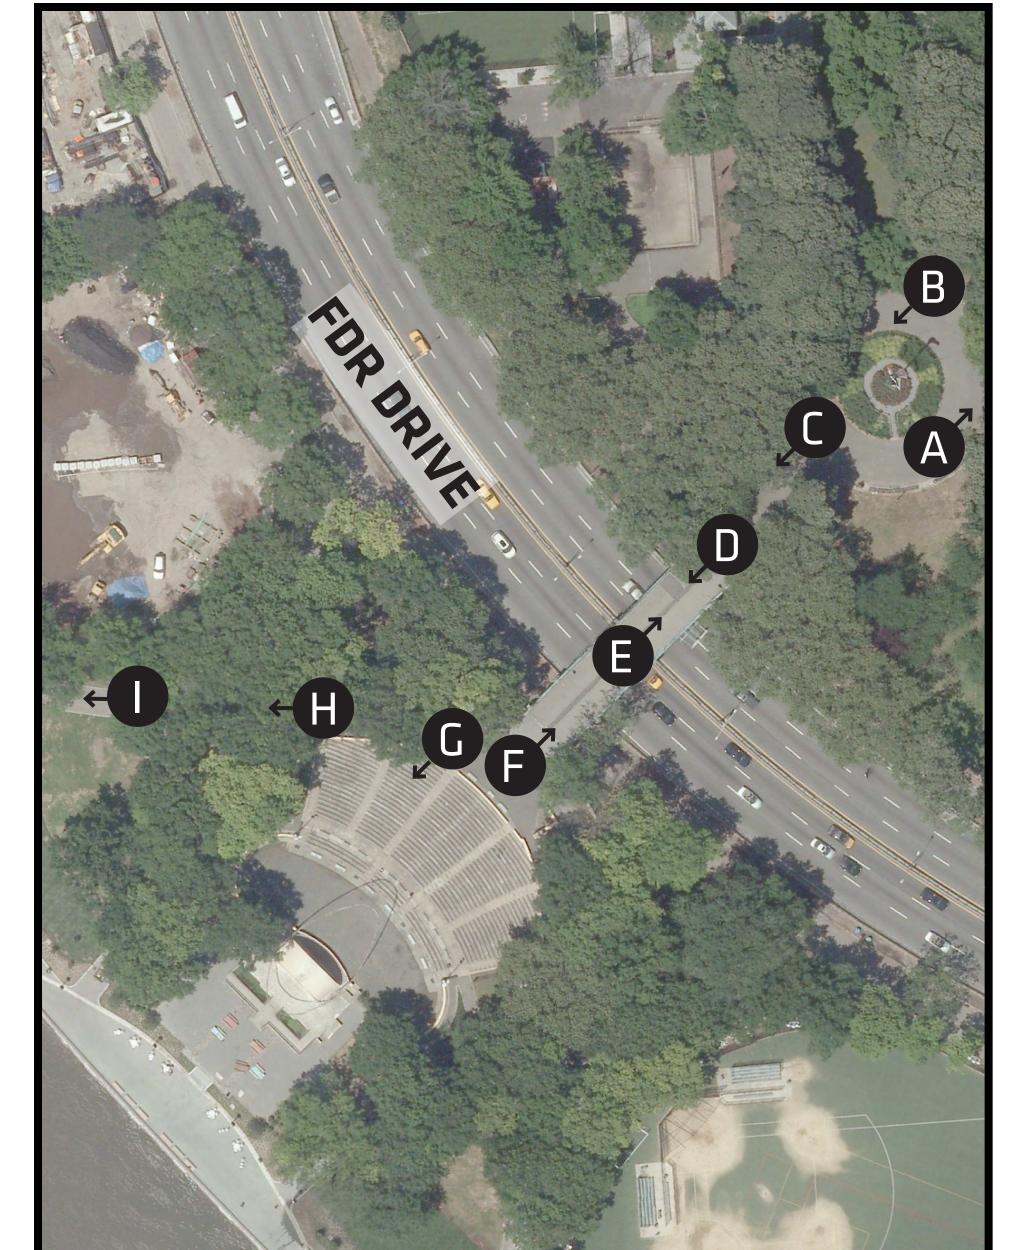

Corlears Hook Bridge 1. Existing Conditions

Use this sheet to discuss the Corlears Hook pedestrian bridge with other participants at your table. What do you like and dislike about the bridge? Do you prefer the east or west side approach? Why?

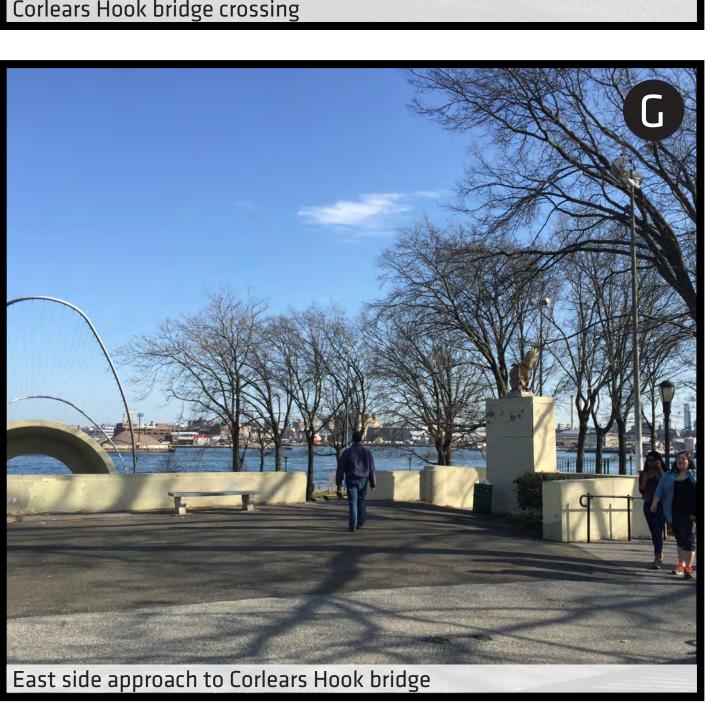

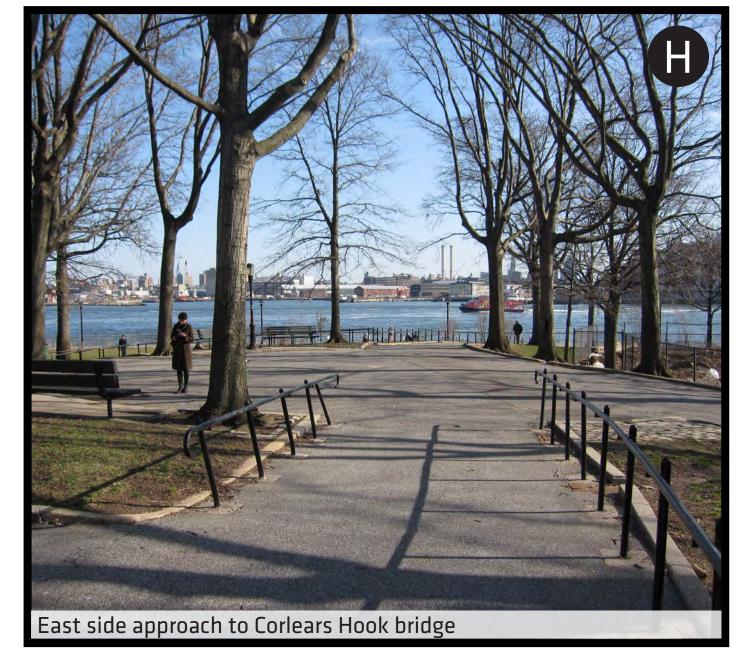

Corlears Hook Bridge 1. Existing Conditions

Use this sheet to discuss with other participants at your table. Do you regularly use the amenities that are located in proximity to the Corlears Hook bridge?

KEY

Housing

Parking

Baseball fields

Dog run

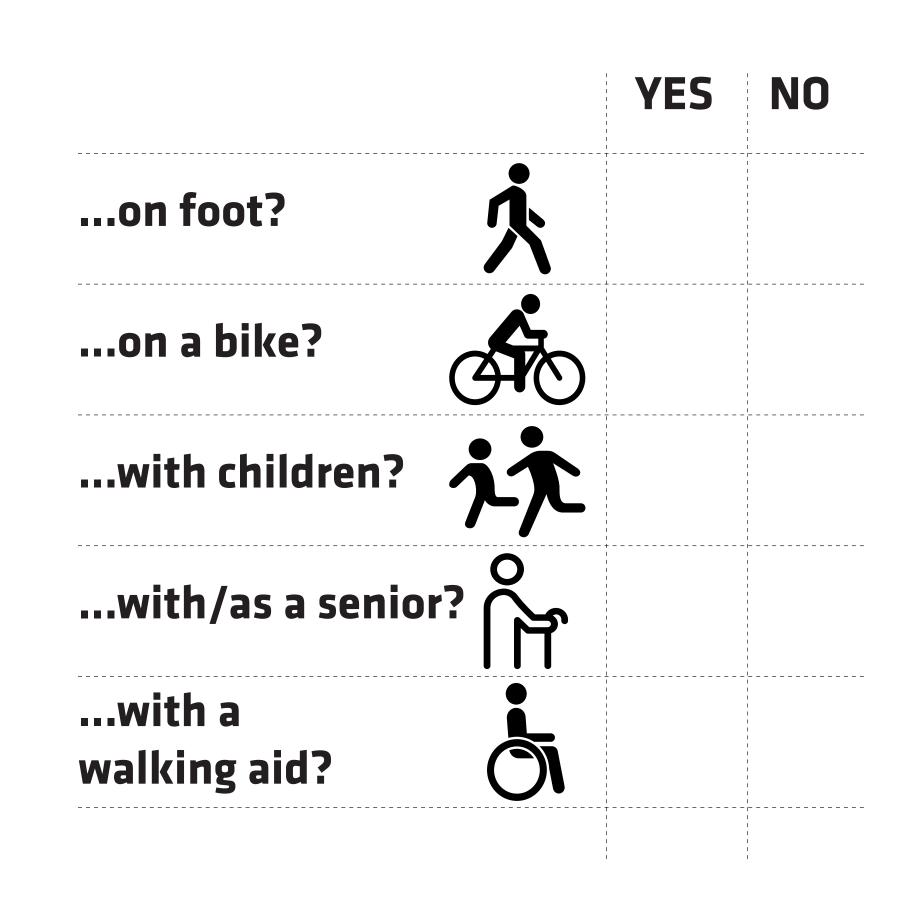

Corlears Hook Bridge

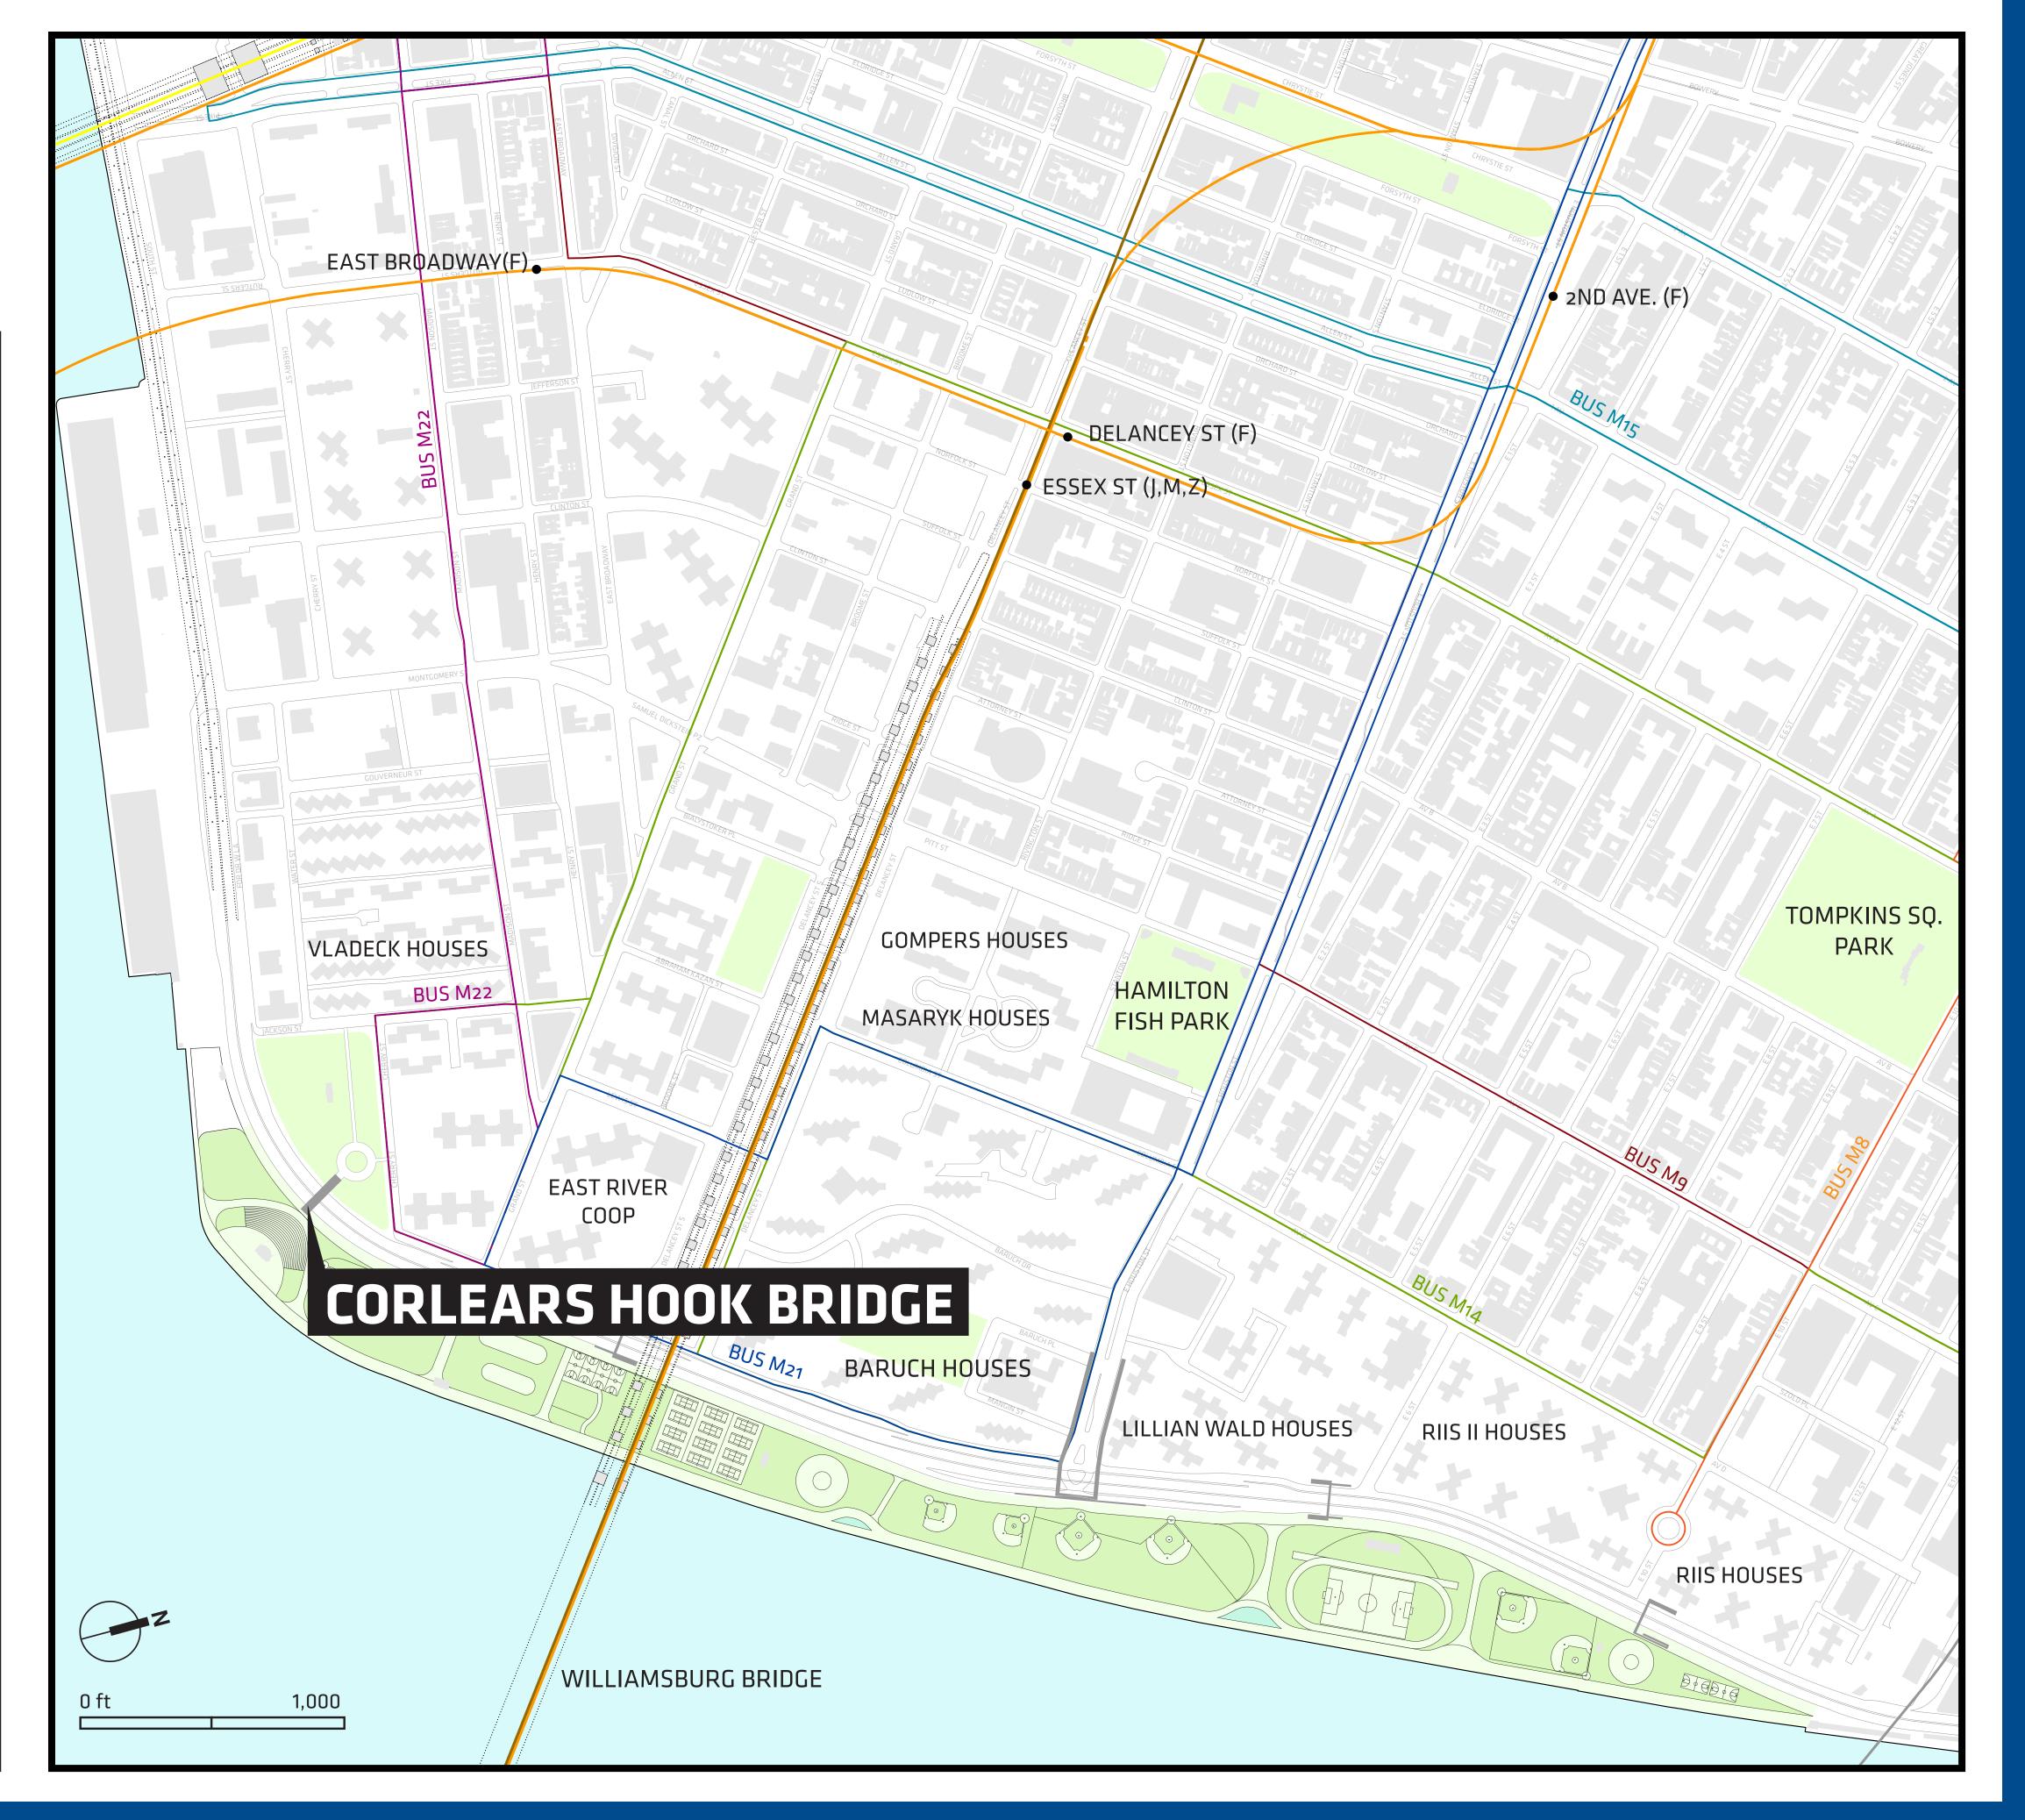

2. Access Routes

Use the map to the right to indicate how you usually get to the Corlears Hook bridge.

Do you usually cross the Corlears Hook bridge...

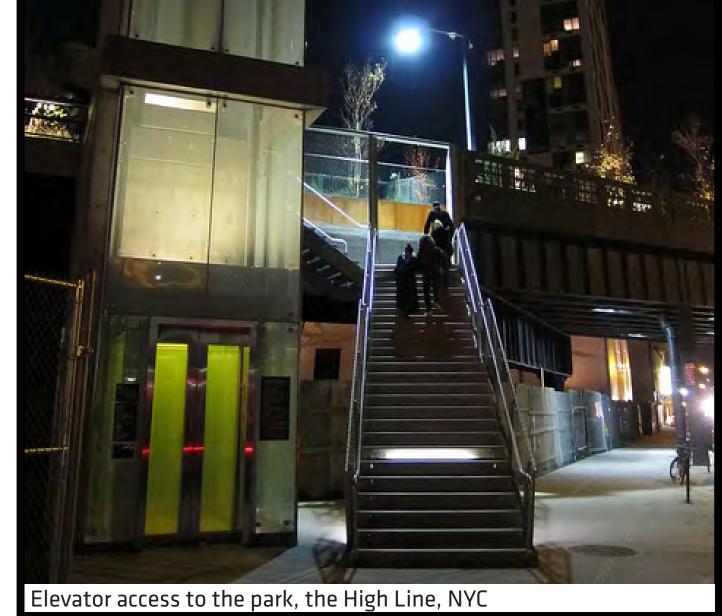

If you don't use the Corlears Hook bridge, please use the post it notes to tell us why.

Corlears Hook Bridge 3. Precedents

What do you think about the examples pictured below? In your opinion, which of these elements (e.g. lighting, landscaping, etc.) would improve access to East River Park via the Corlears Hook bridge?

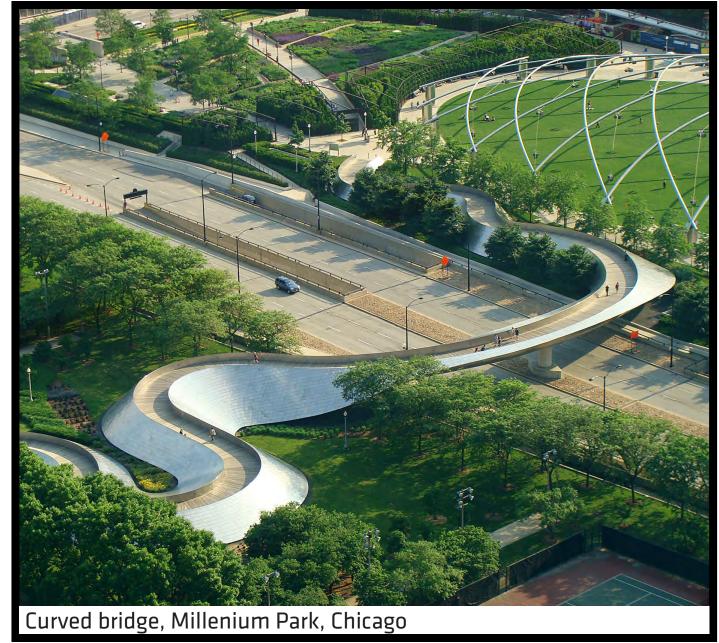

TABLE 2 WORKSHEET

DELANCEY STREET PEDESTRIAN BRIDGE

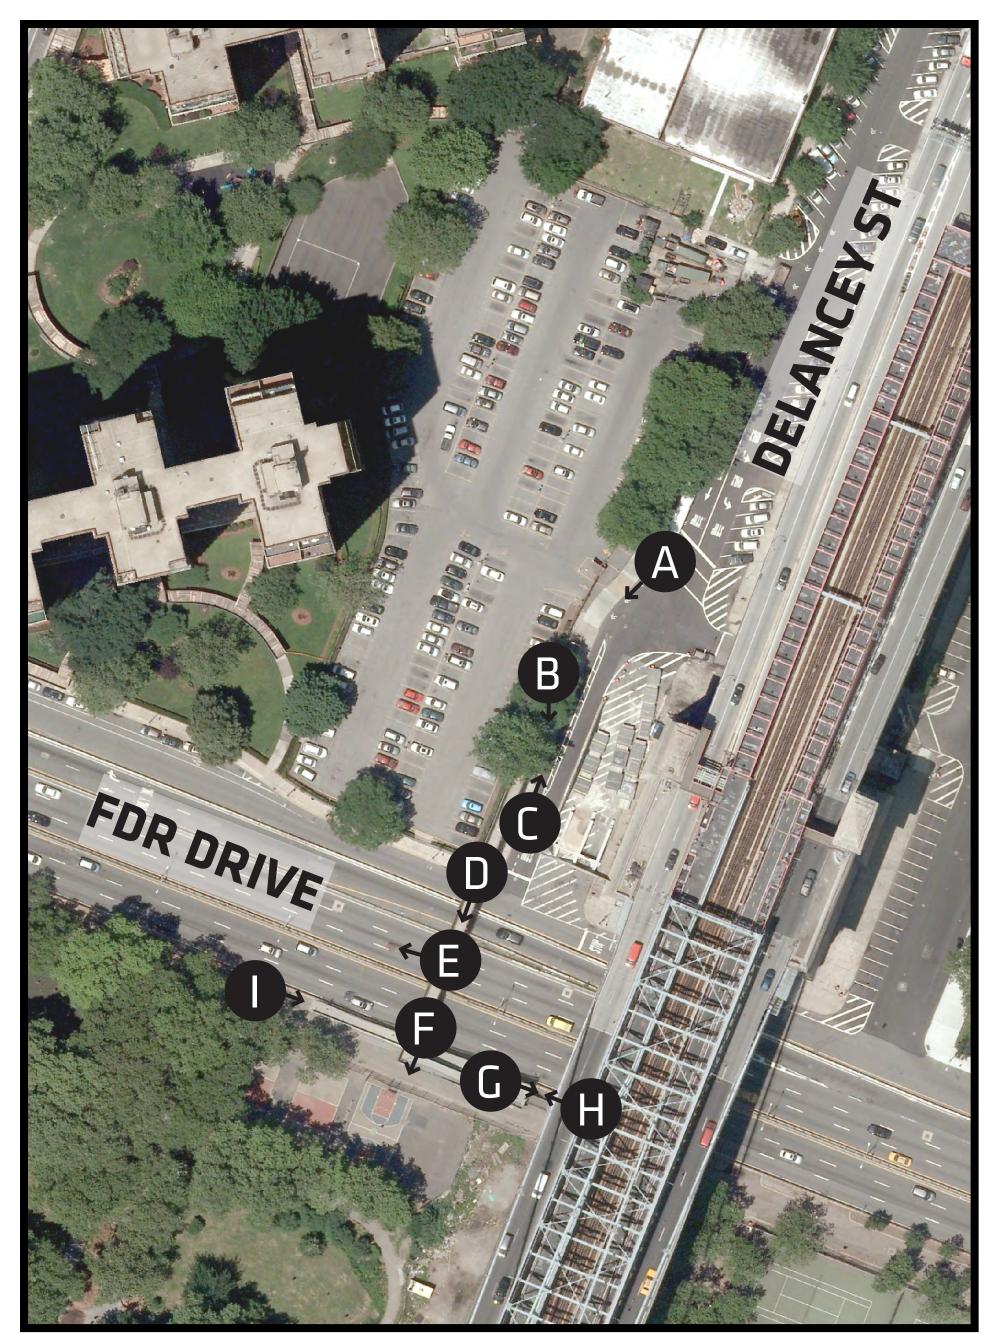

Delancey St Bridge 1. Existing Conditions

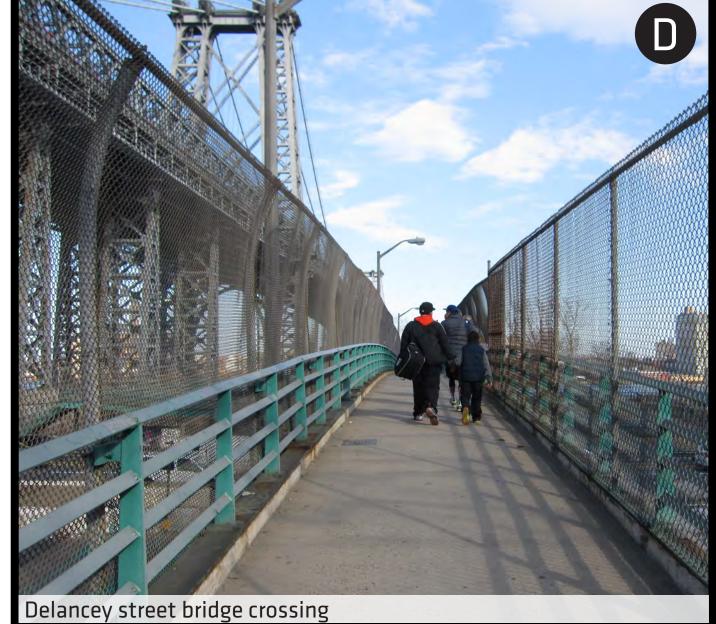

Use this sheet to discuss the Delancey street pedestrian bridge with other participants at your table. What do you like and dislike about the bridge? Do you prefer the east or west side approach? Why?

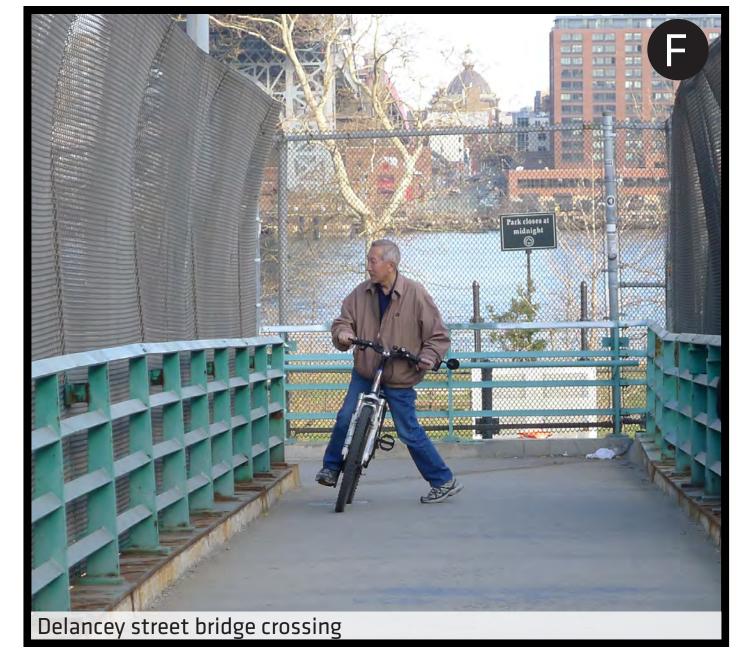

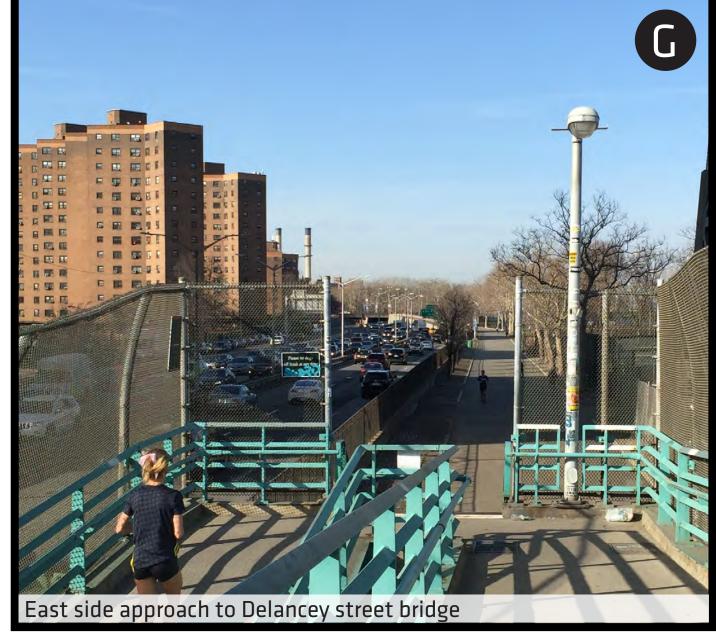

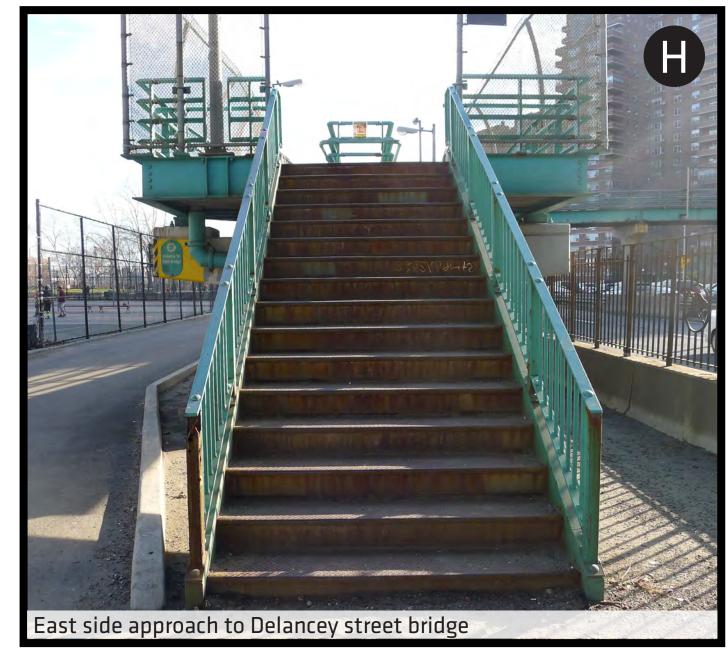

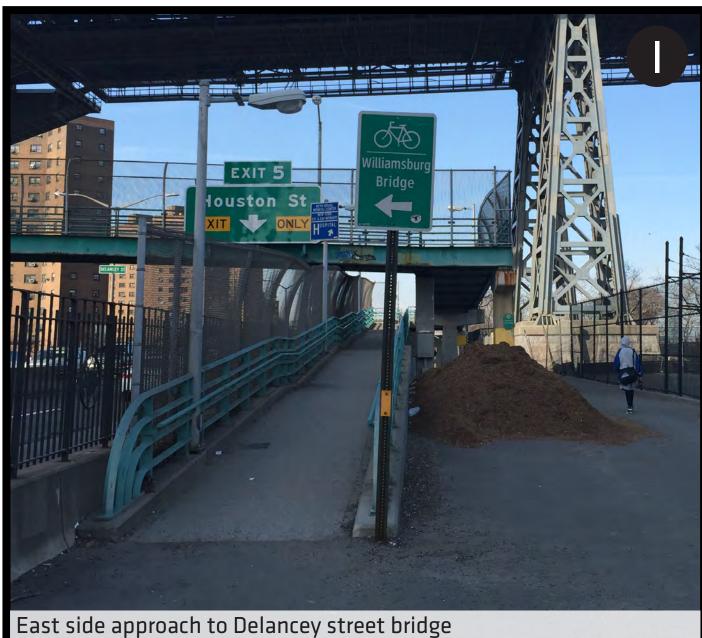

Delancey St Bridge 1. Existing Conditions

Use this sheet to discuss with other participants at your table. Do you regularly use the amenities that are located in proximity to the Delancey street bridge?

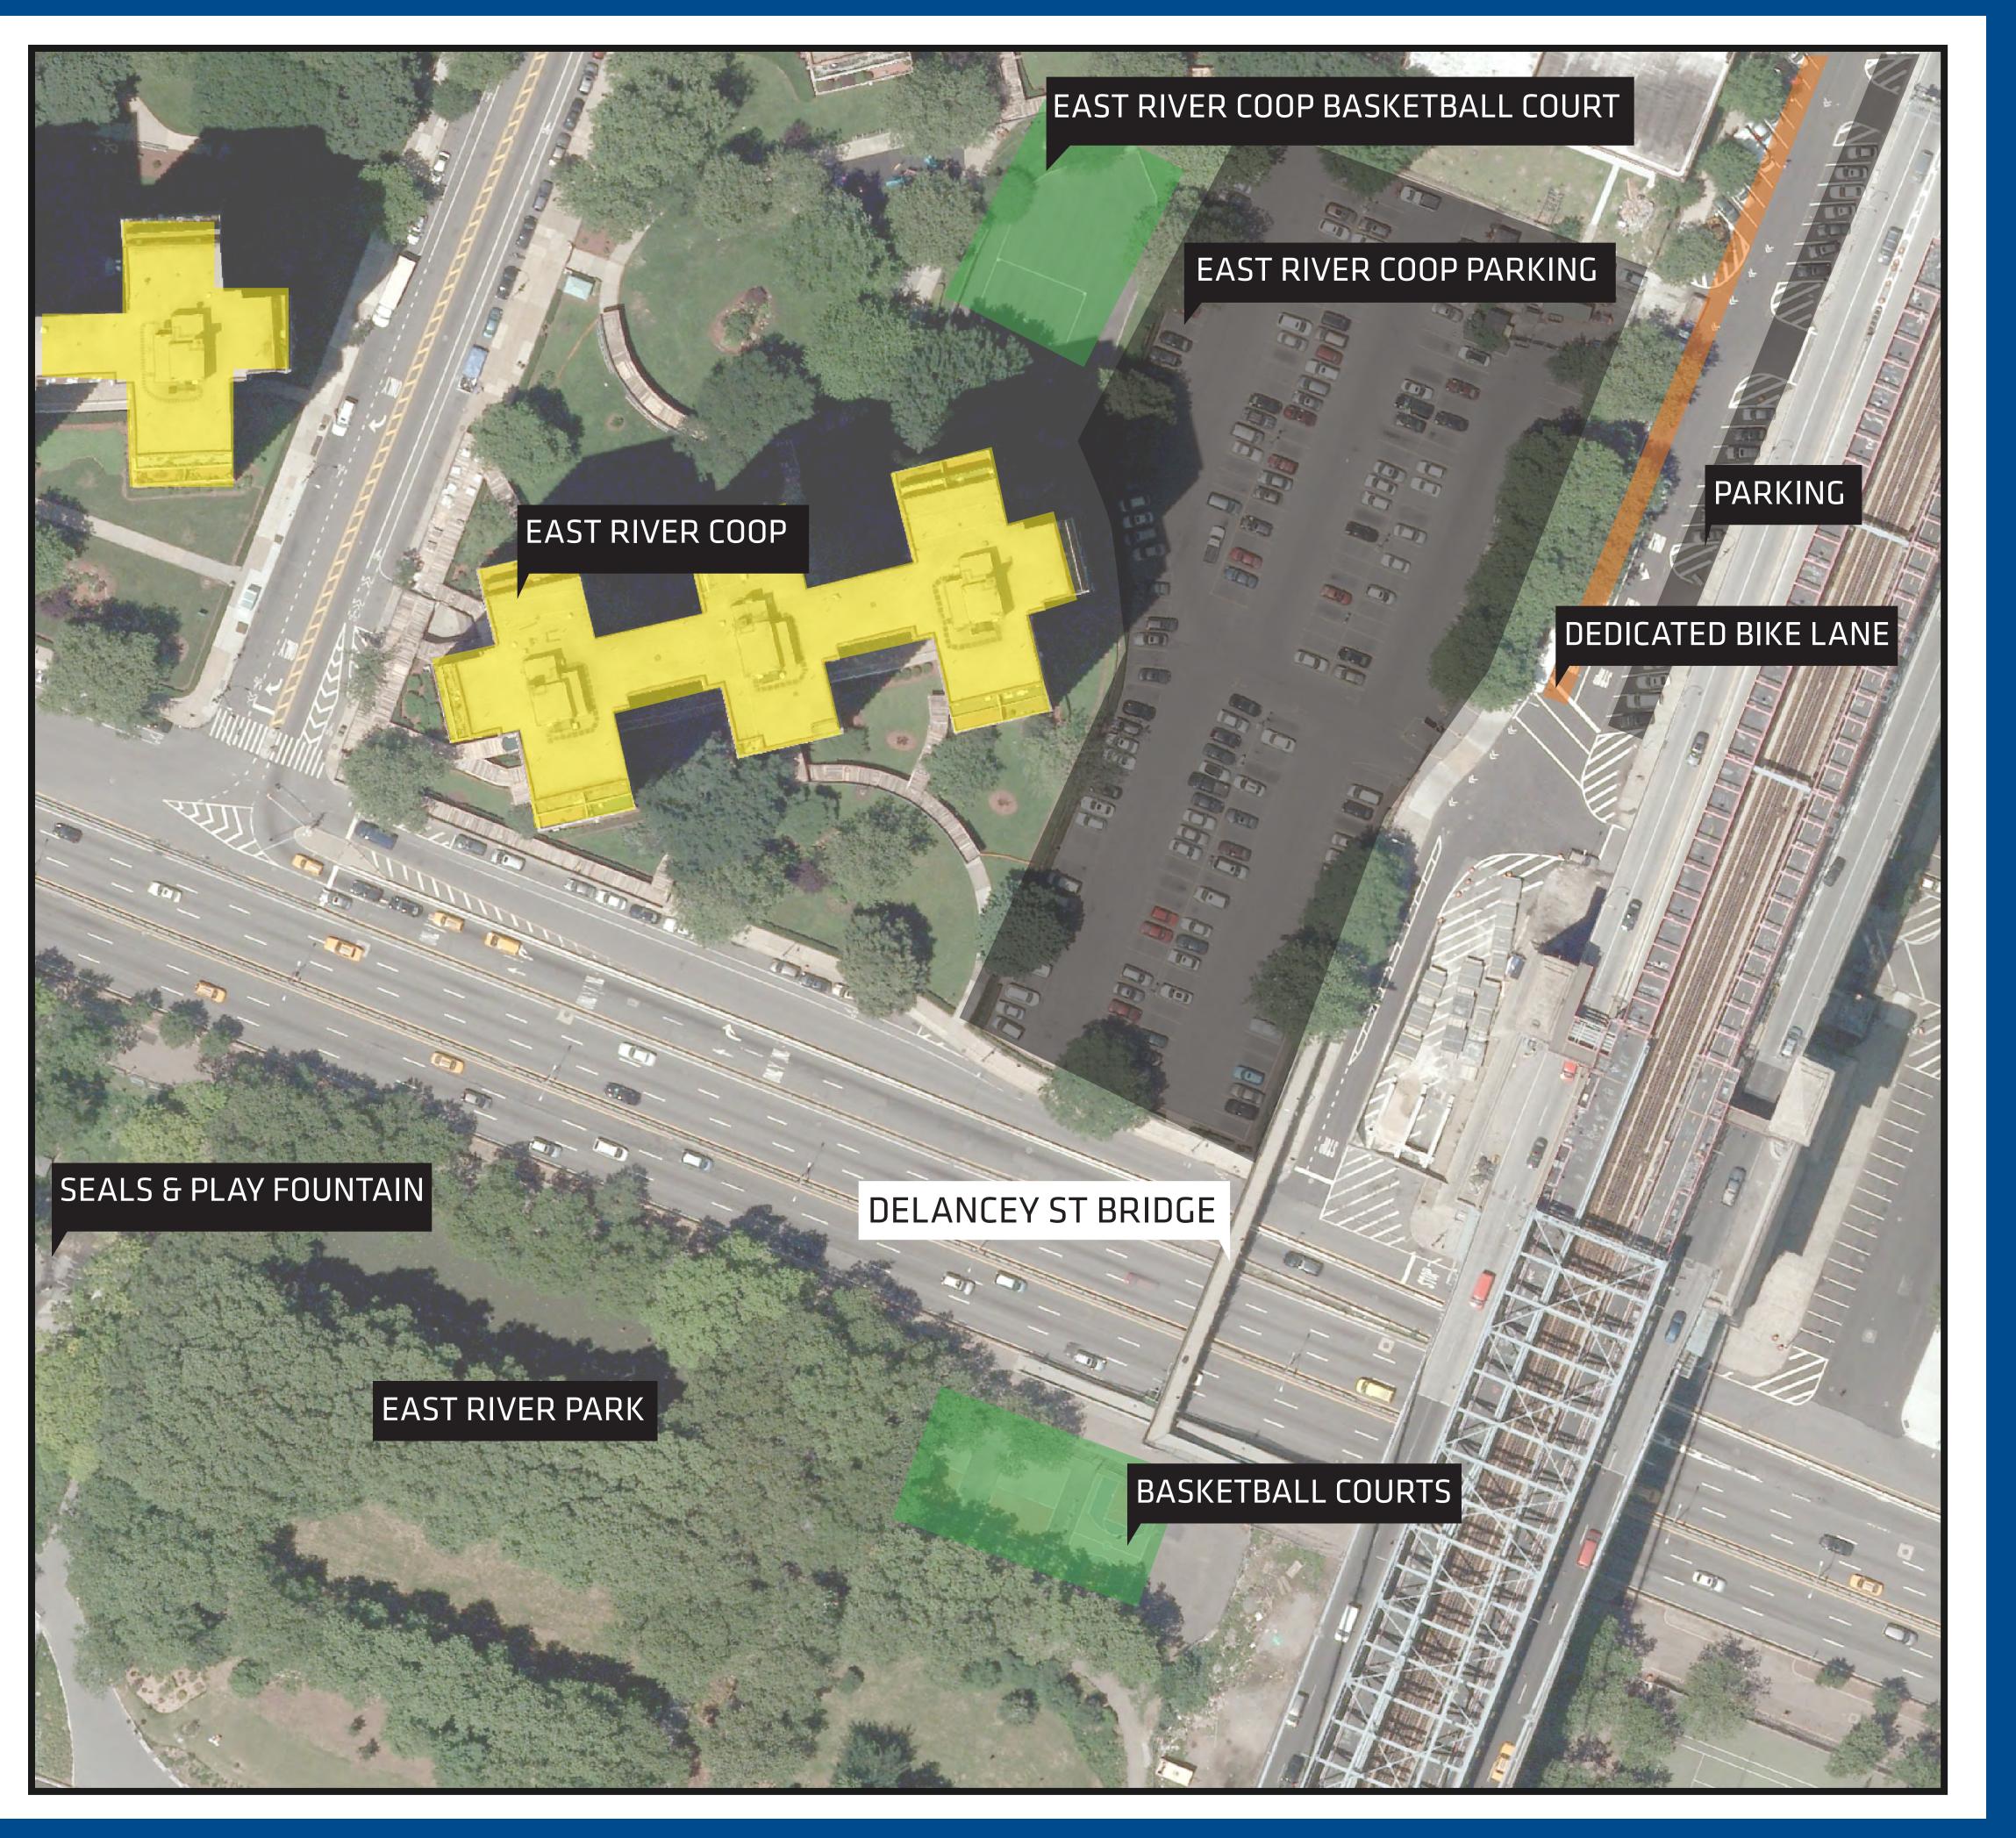

KEY

Housing

Parking

Basketball courts

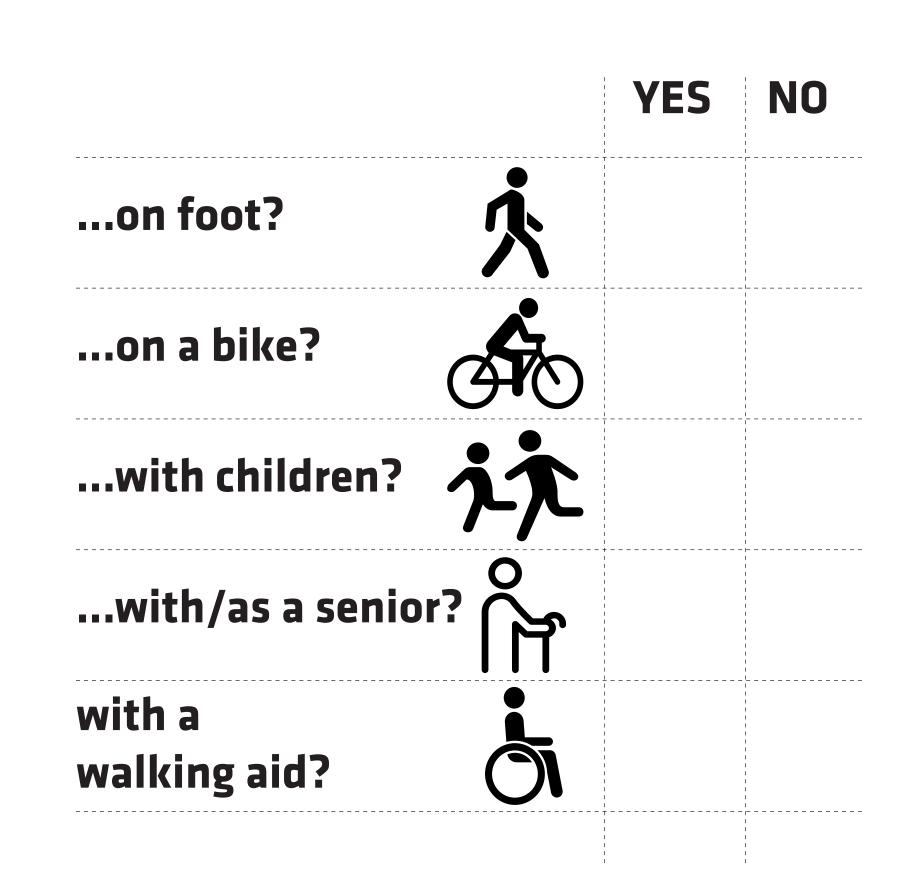

Dedicated bike lane

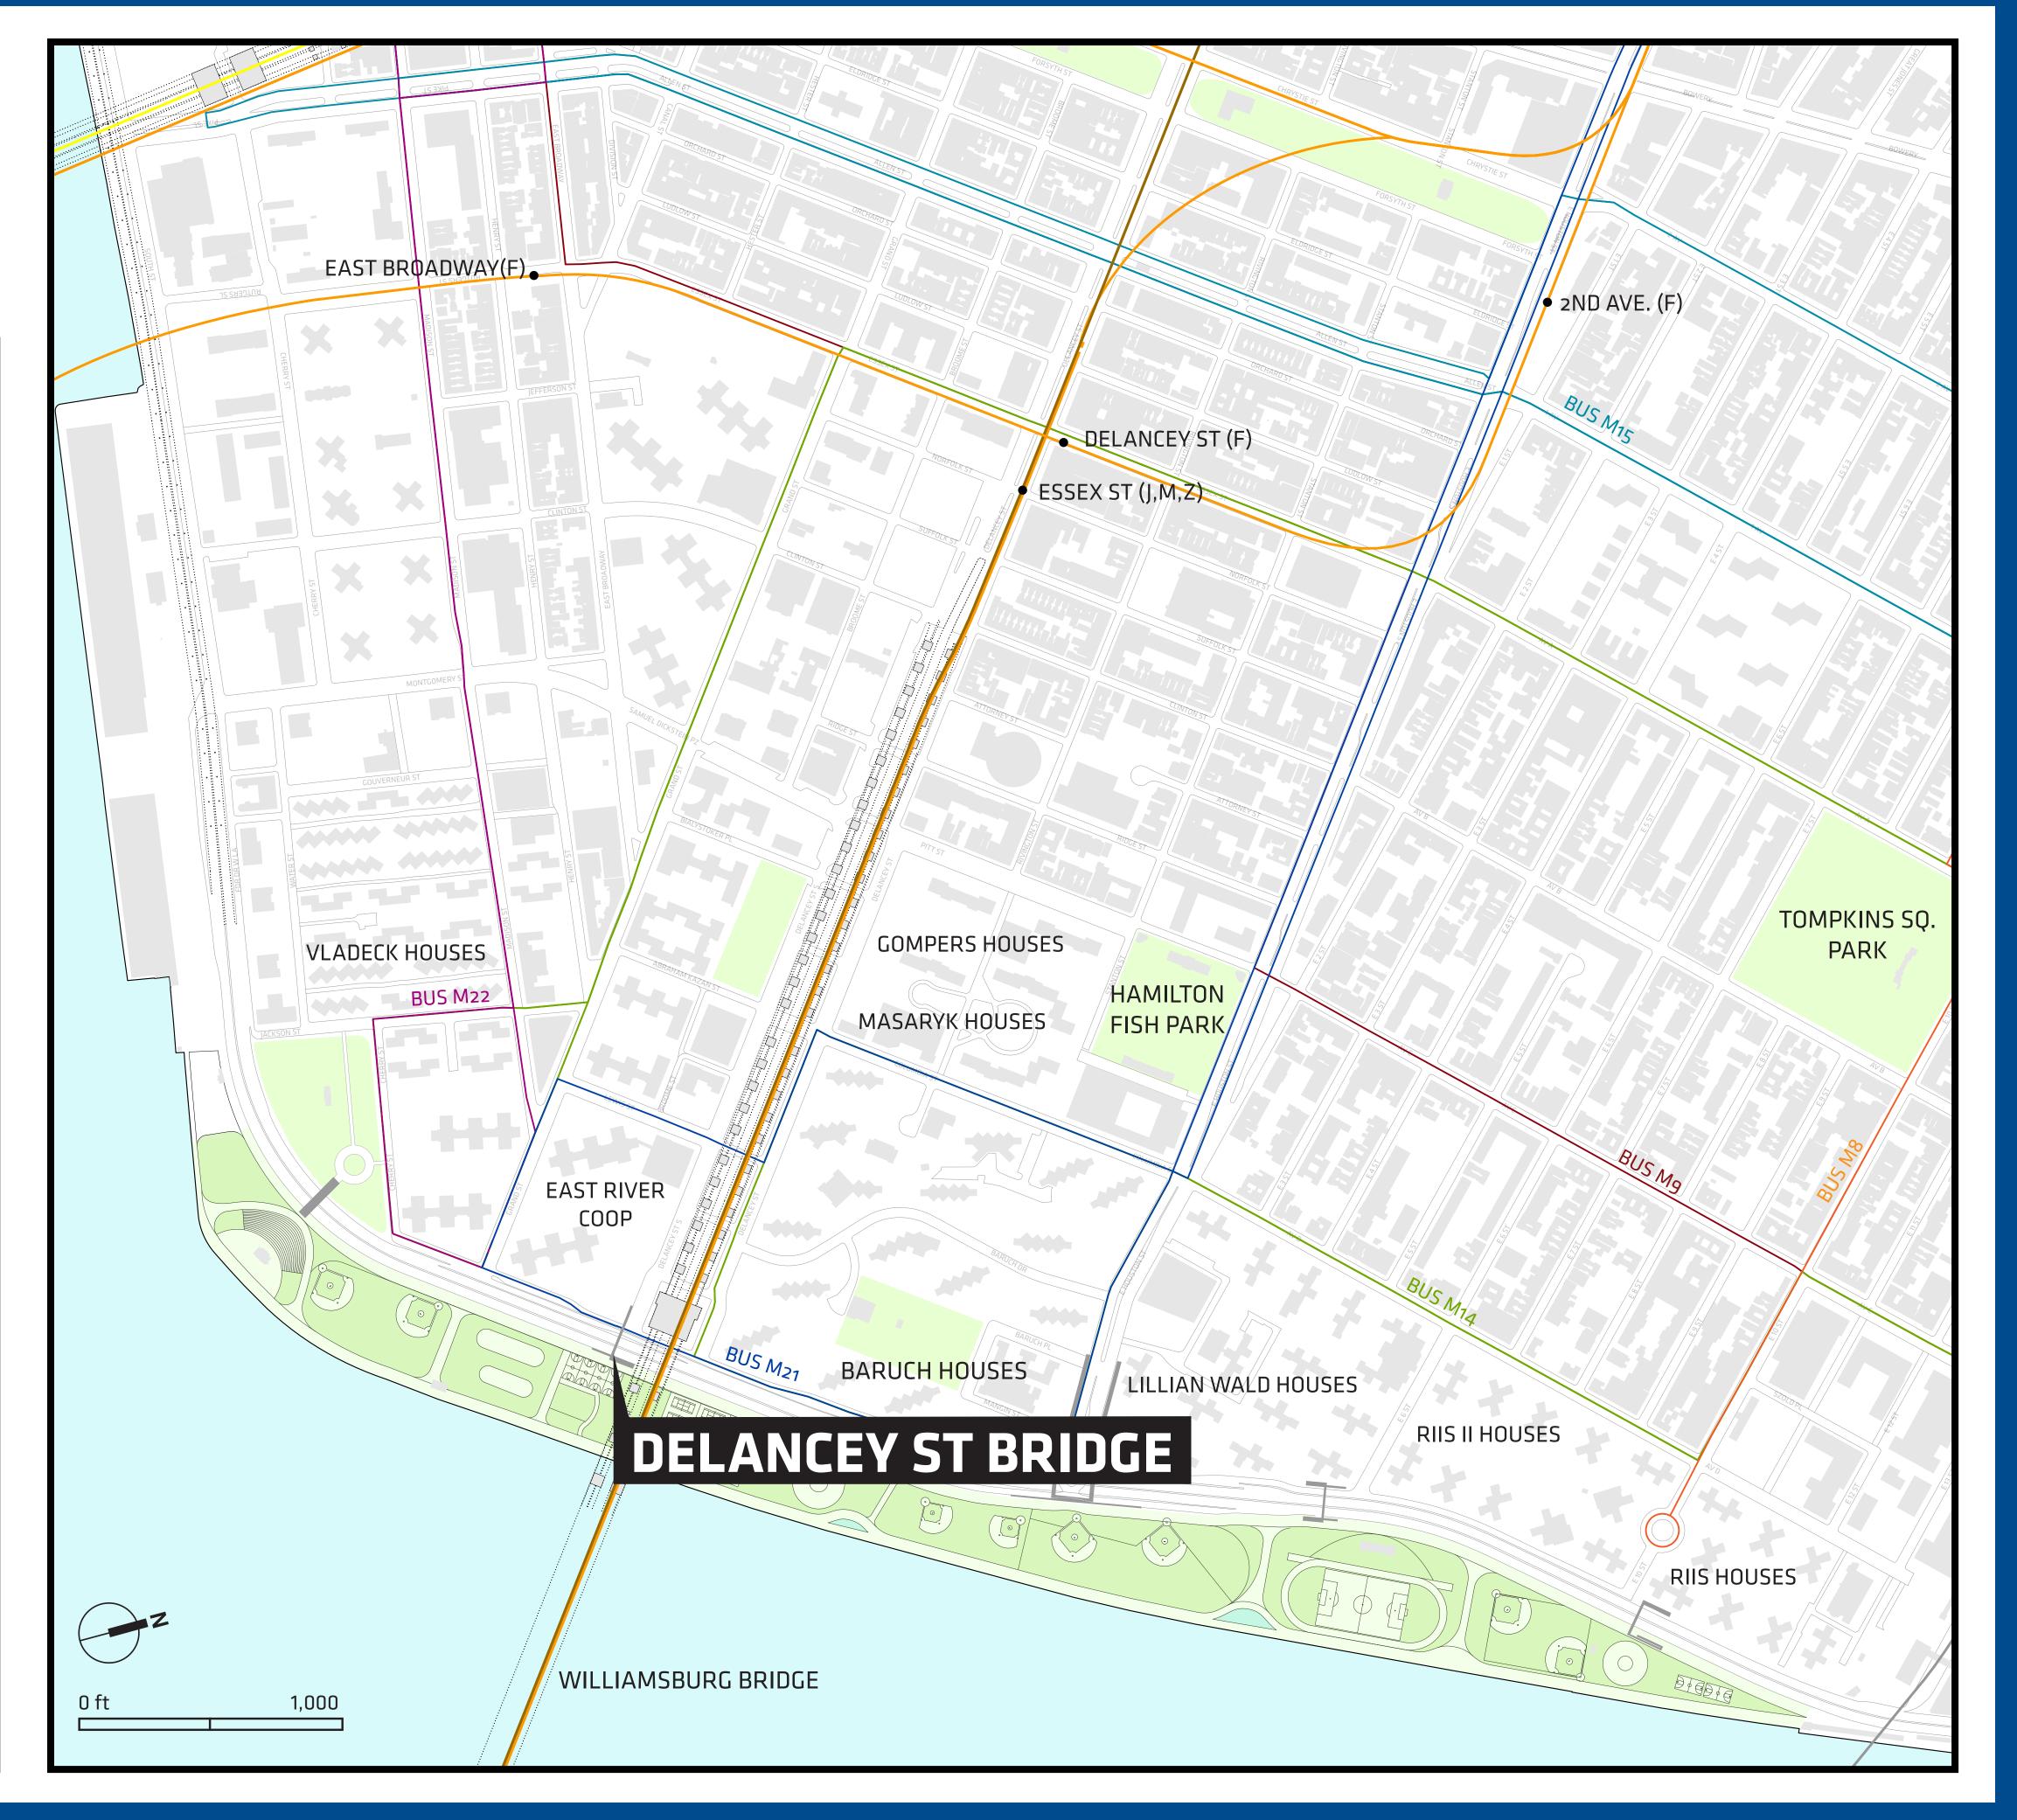

Delancey St Bridge 2. Access Routes

Use the map to the right to indicate how you usually get to the Delancey street bridge.

Do you usually cross the Delancey street bridge...

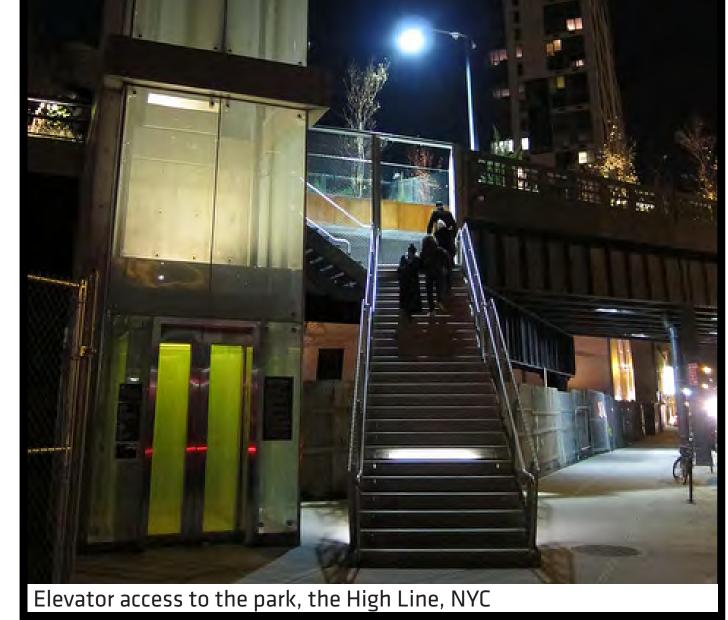

If you don't use the Delancey street bridge, please use the post it notes to tell us why.

Delancey St Bridge 3. Precedents

What do you think about the examples pictured below? In your opinion, which of these elements (e.g. lighting, landscaping, etc.) would improve access to East River Park via the Delancey street bridge?

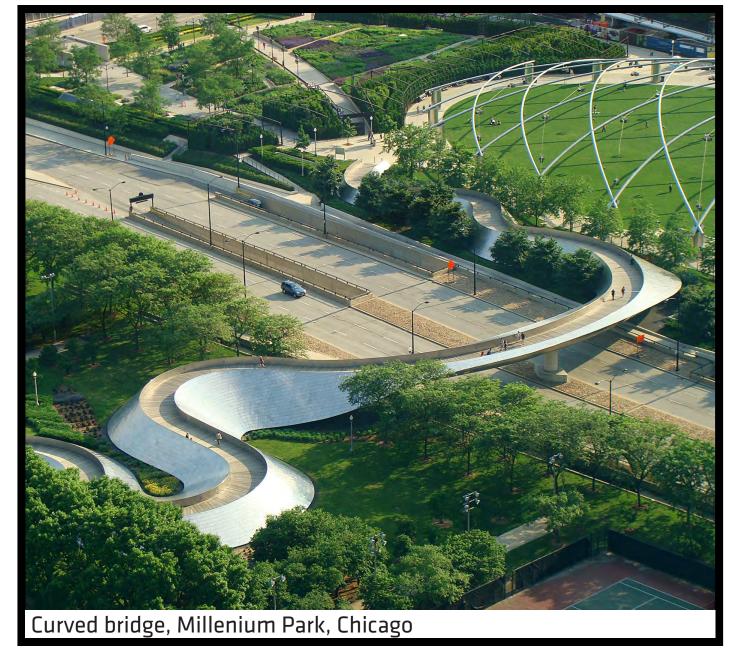

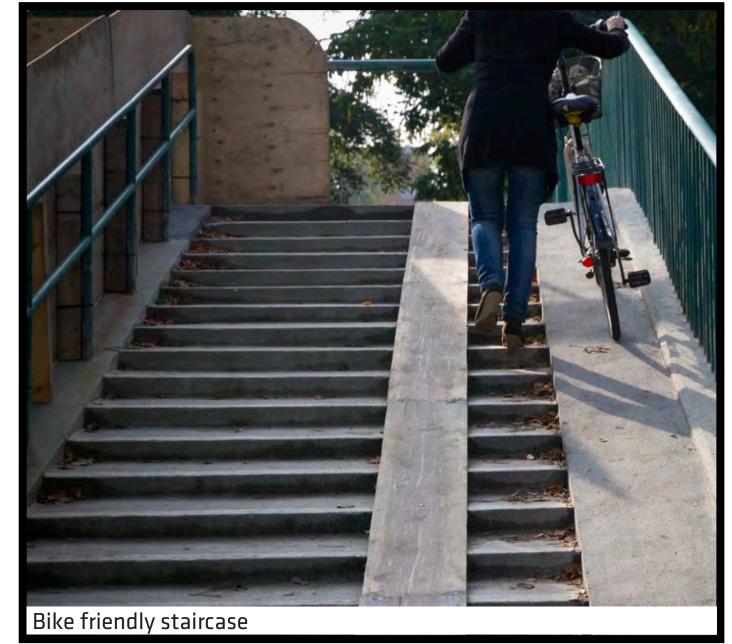

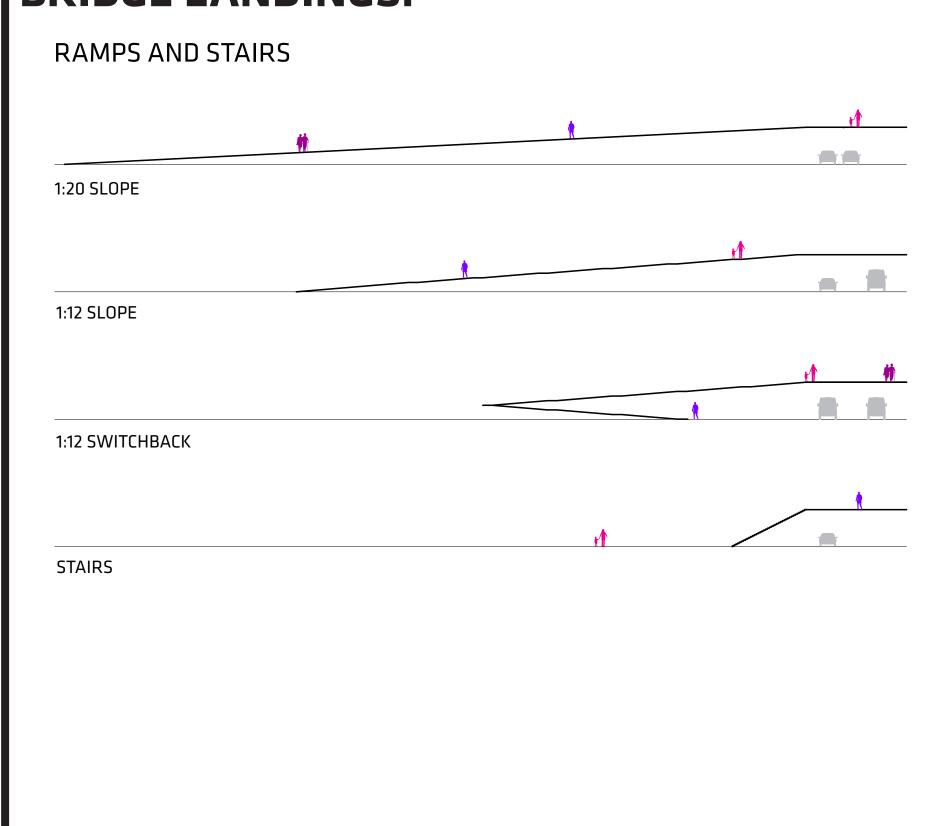

Delancey St Bridge 4. Ideas

Use the bridge cut-outs provided by your facilitator to compare the different bridge landing options. Place the cut-outs on the map to the right to understand how each option would fit into the neighborhood.

The diagrams below provide information about the differences between a 1:20 slope, a 1:12 slope, a 1:12 switchback and stairs.

BRIDGE LANDINGS:

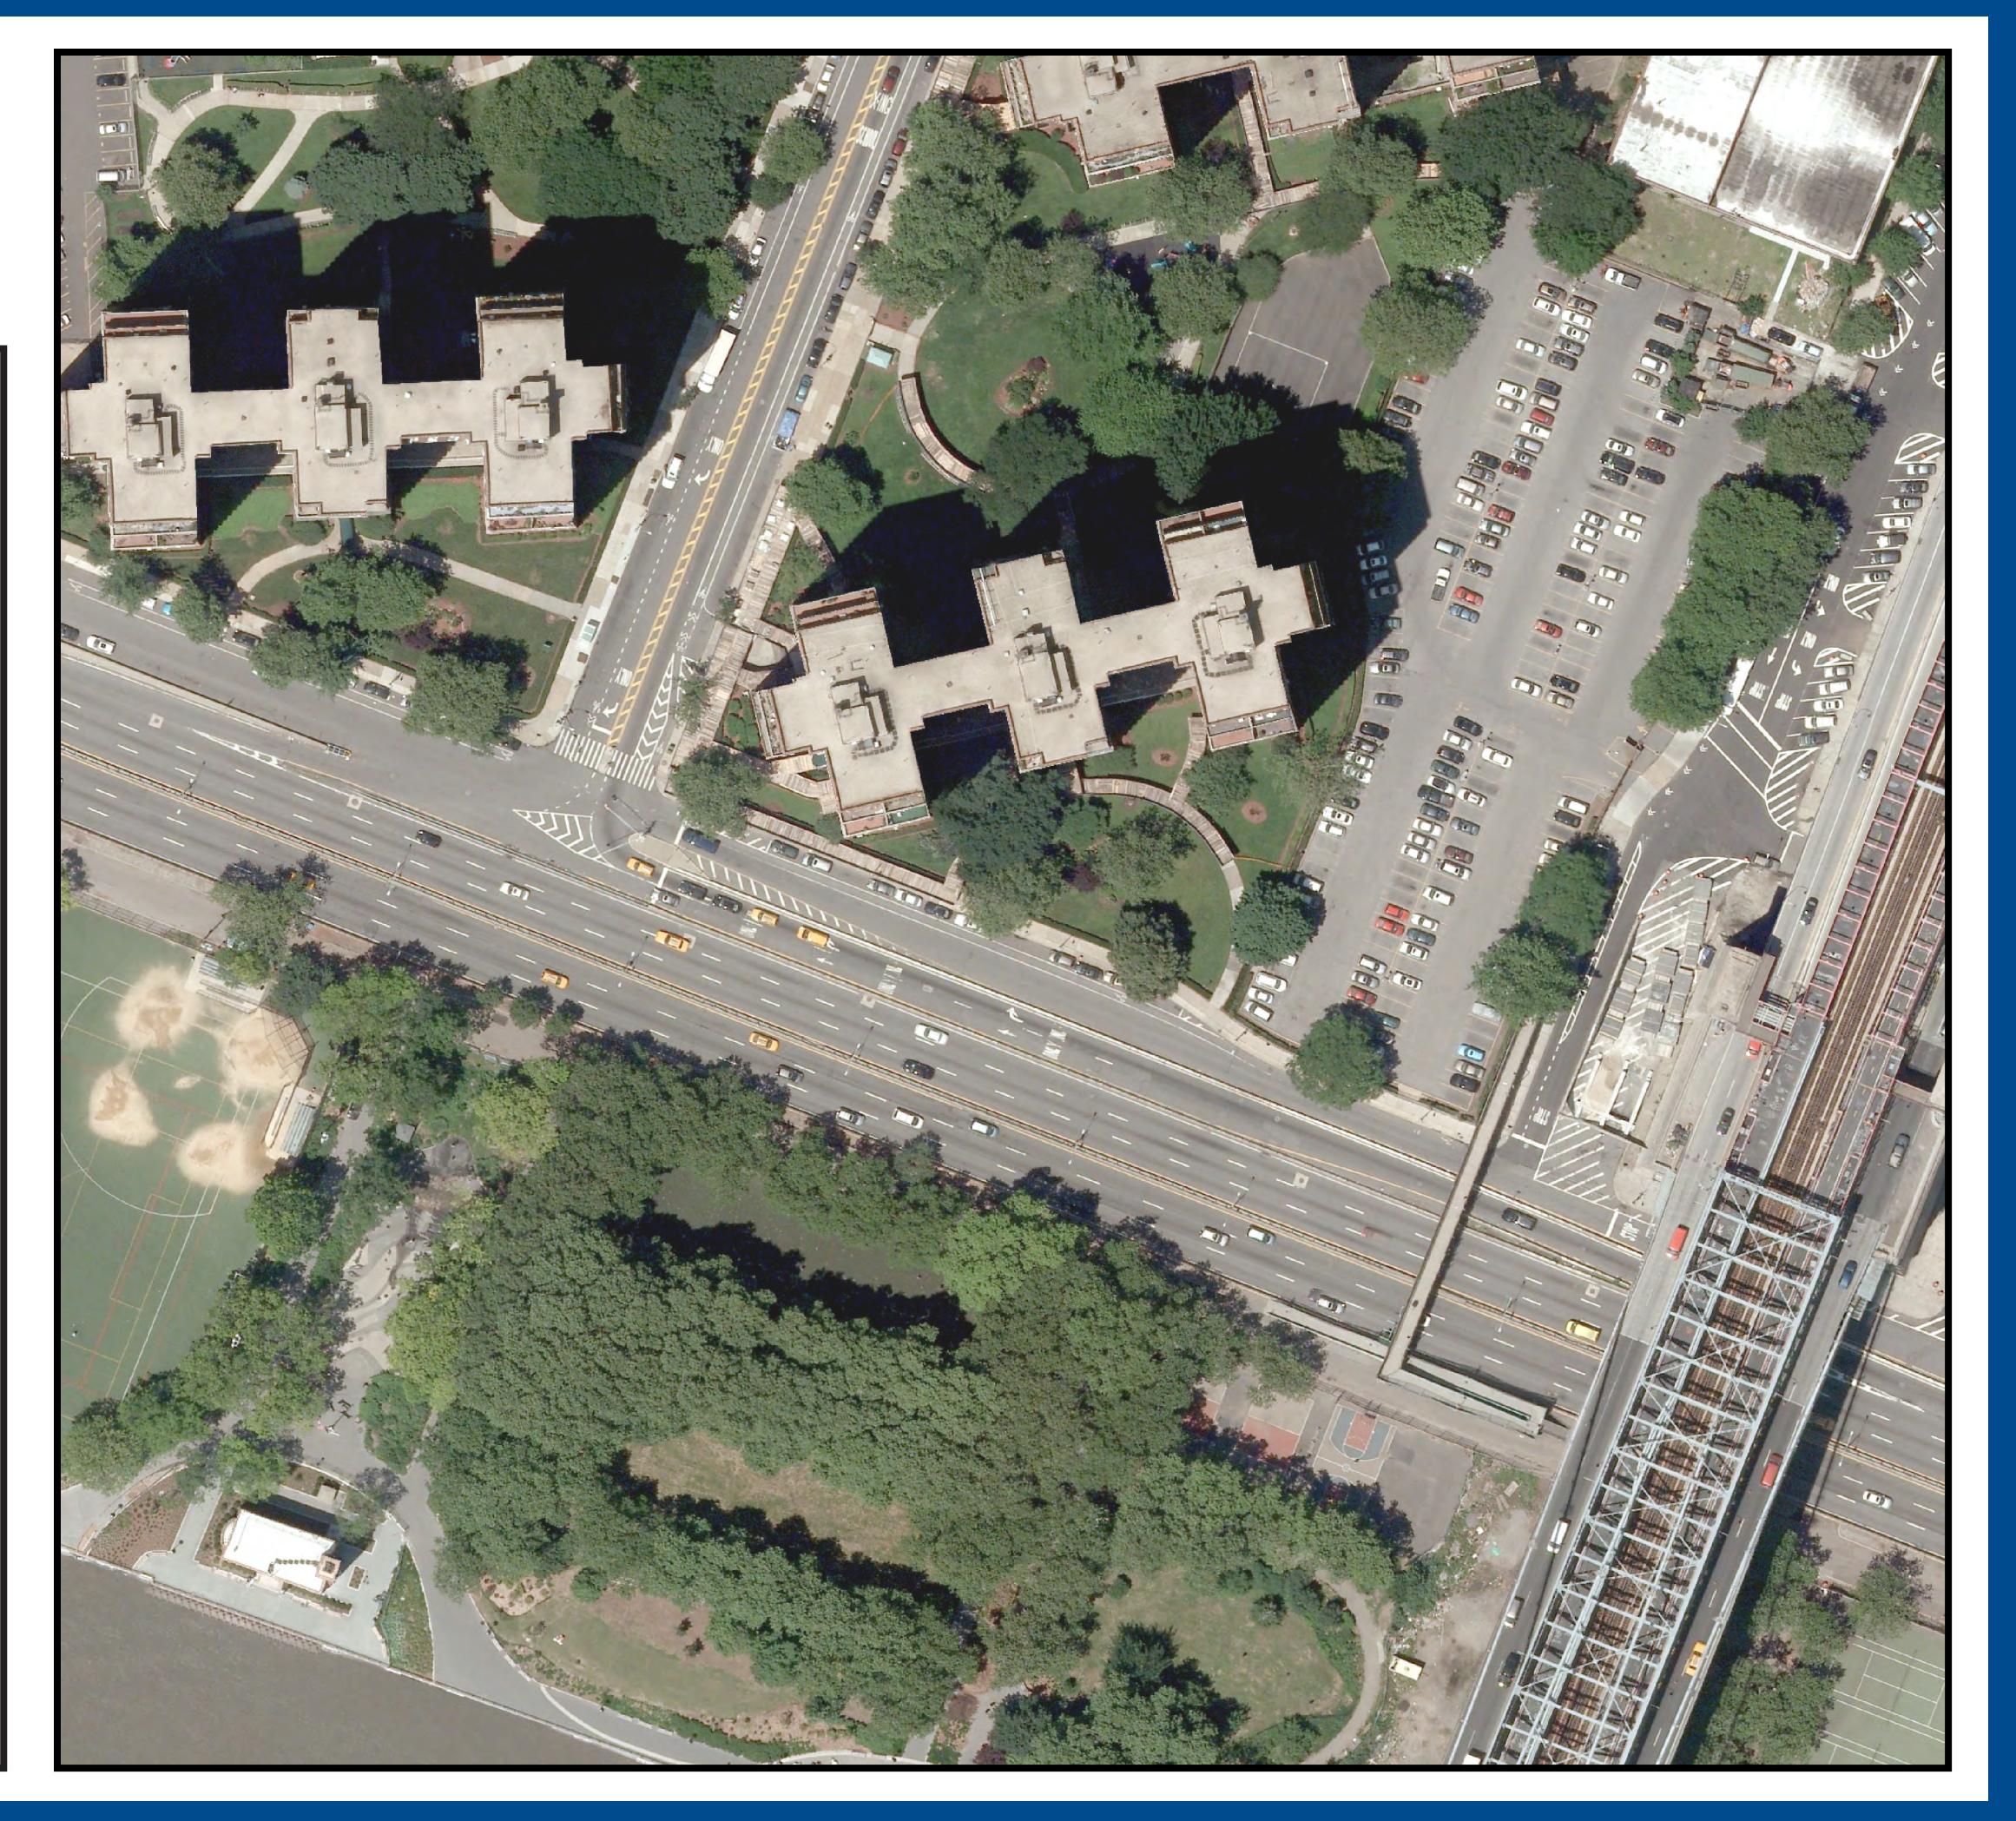

TABLE 3 WORKSHEET

HOUSTON STREET OVERPASS

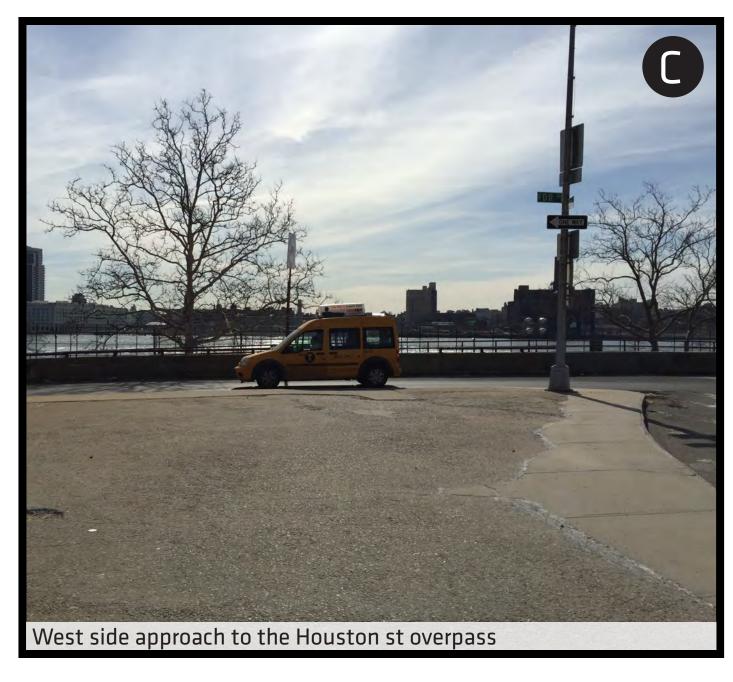

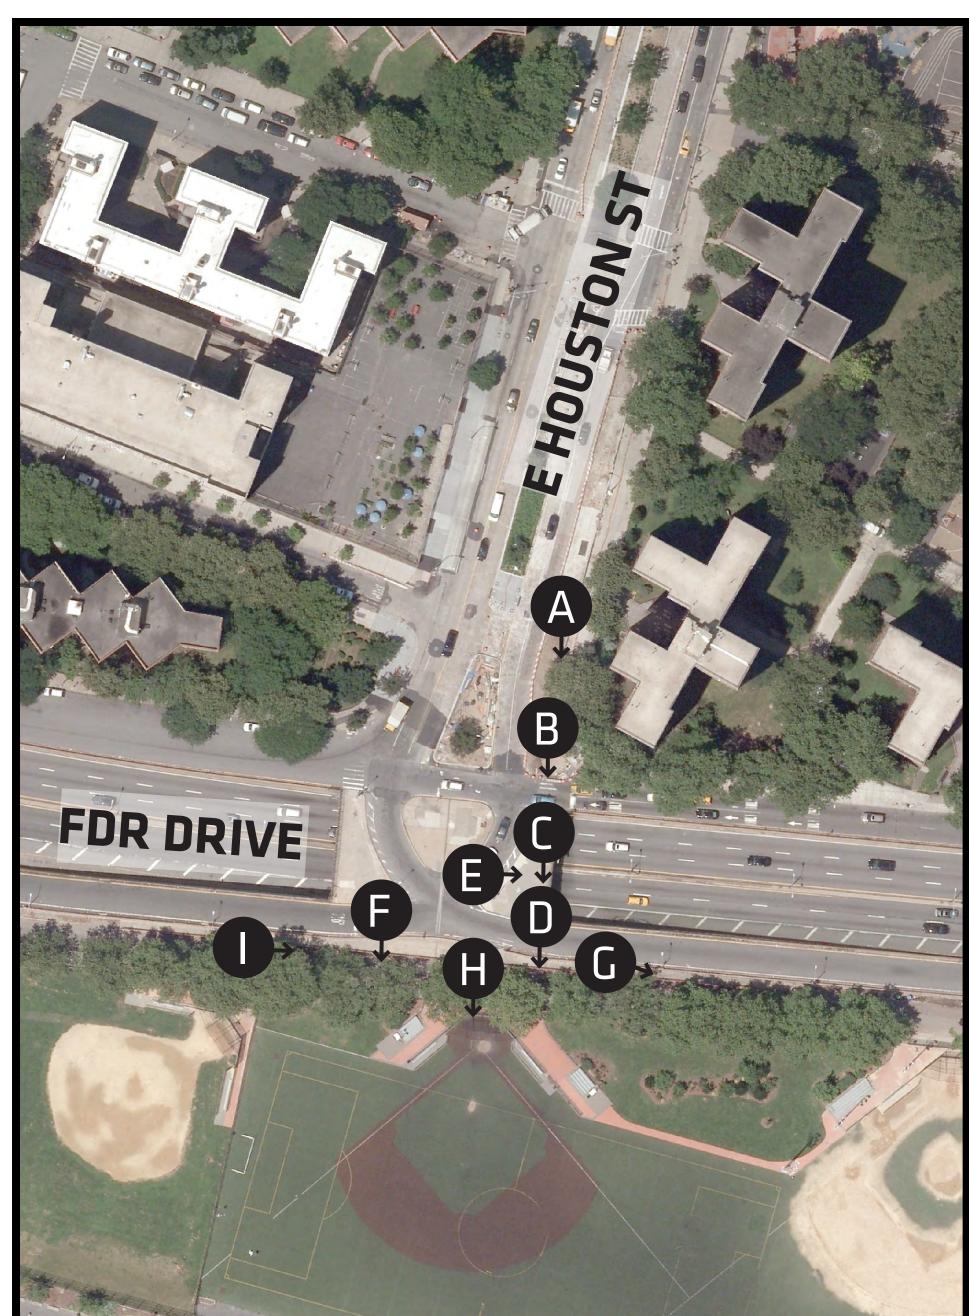

Houston St Overpass 1. Existing Conditions

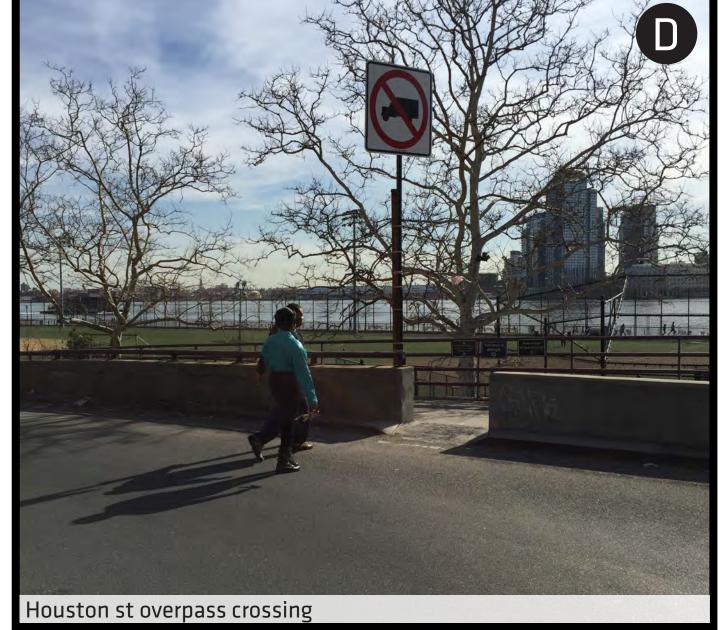

Use this sheet to discuss the Houston street overpass with other participants at your table. What do you like and dislike about the bridge? Do you prefer the east or west side approach? Why?

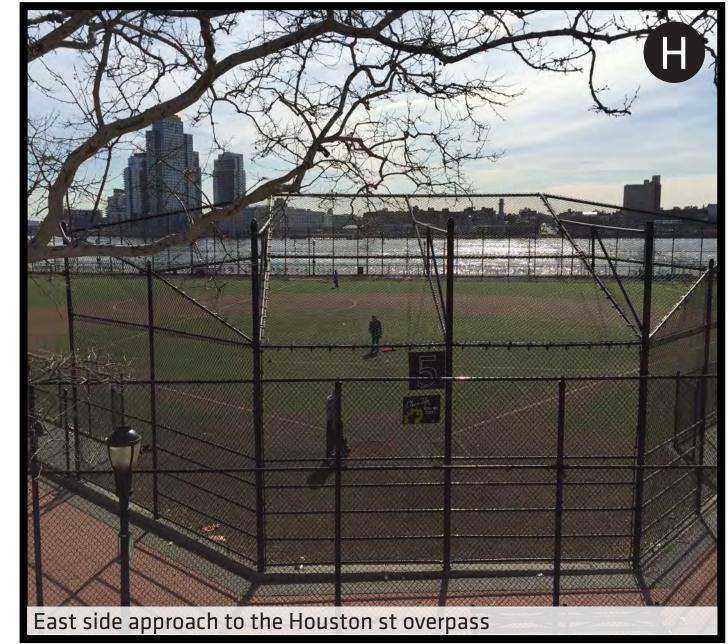

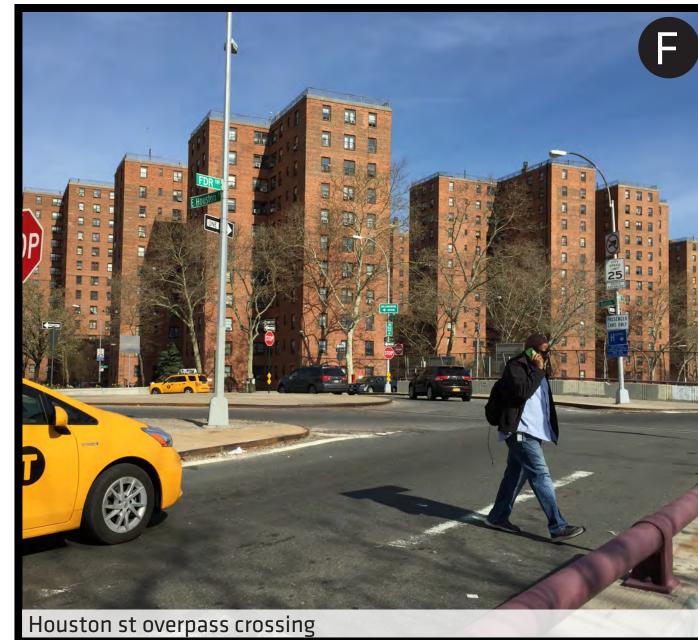

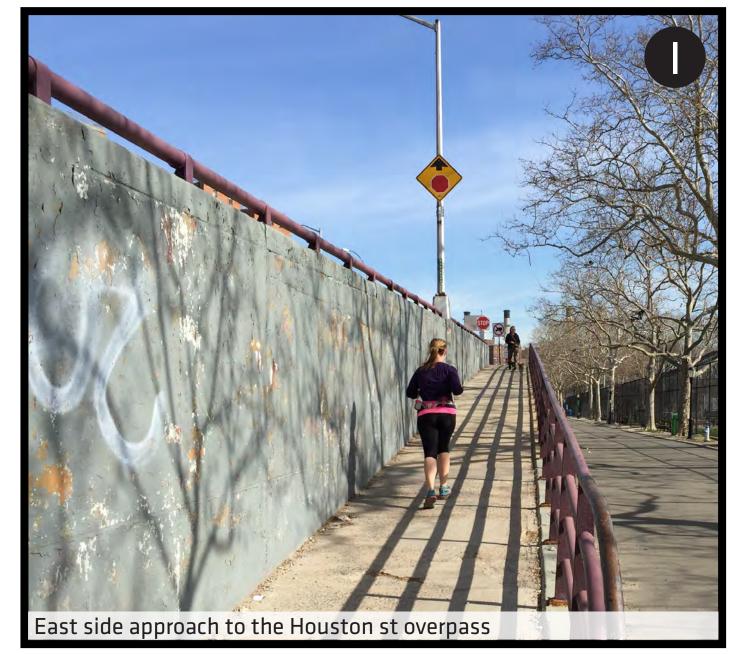

Houston St Overpass 1. Existing Conditions

Use this sheet to discuss with other participants at your table. Do you regularly use the amenities that are located in proximity to the Houston street overpass?

KEY

High School

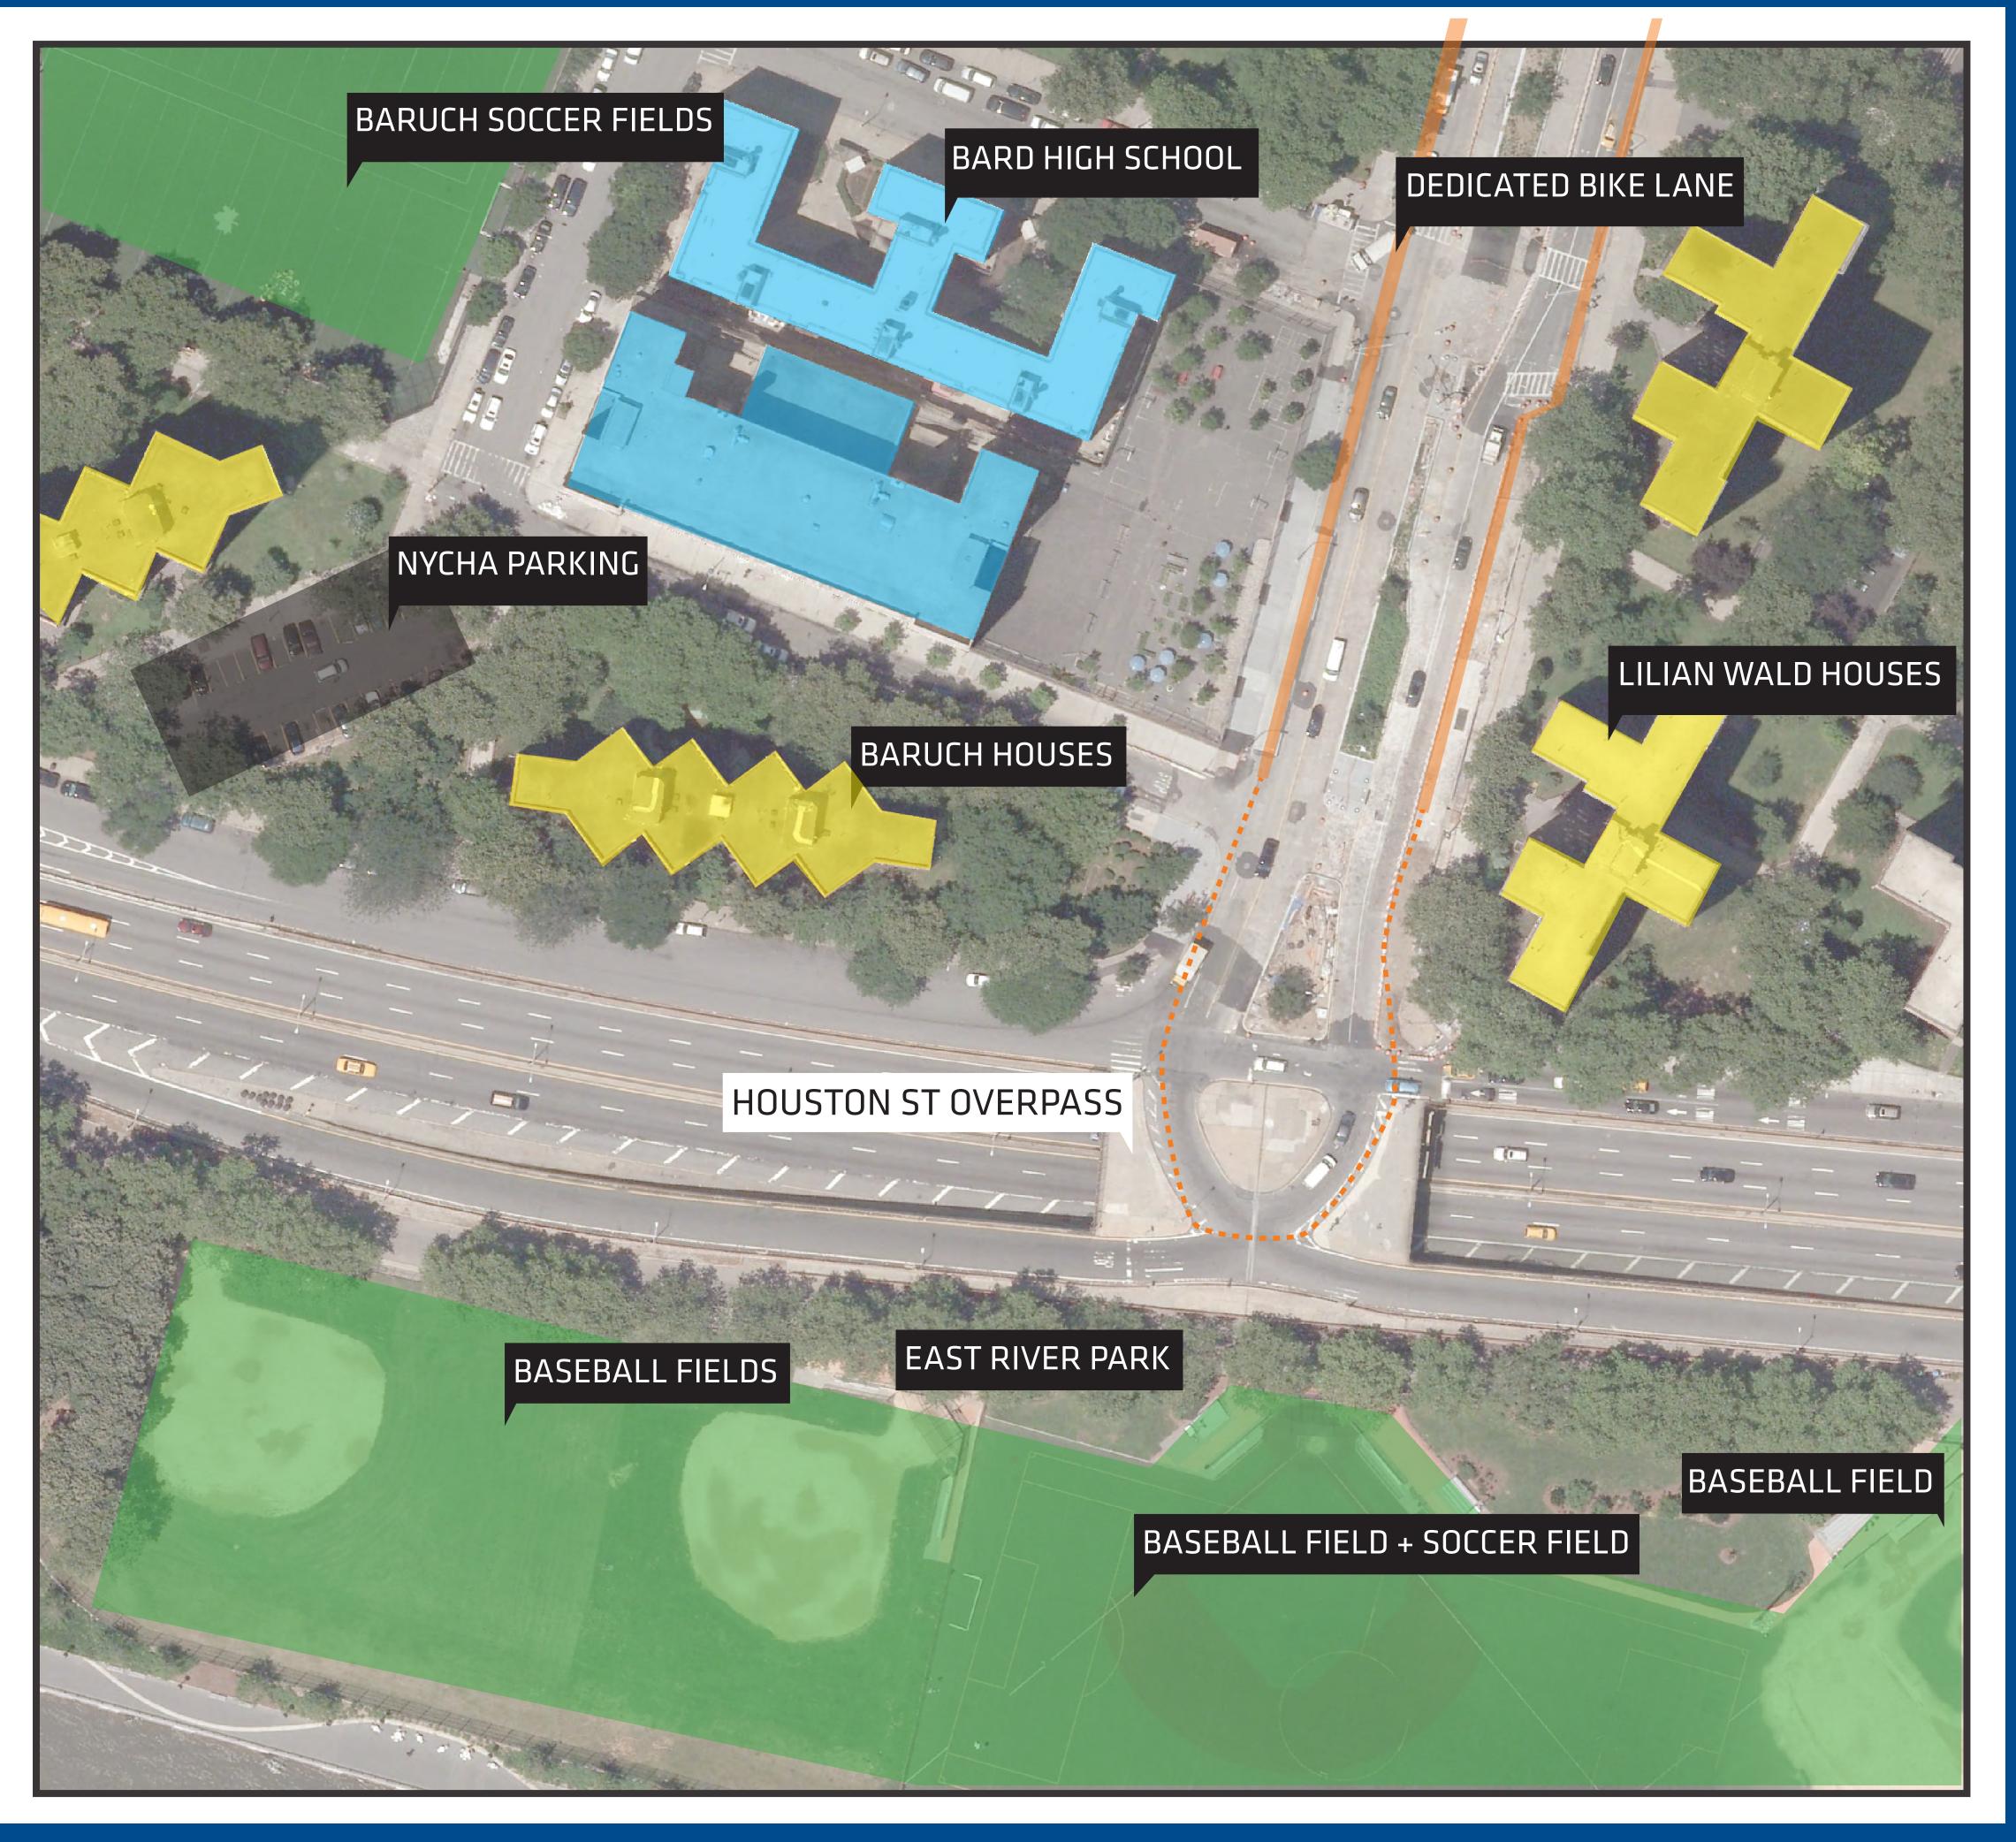

Housing

Parking

Sport fields and courts

Dedicated bike lane

Shared bike lane

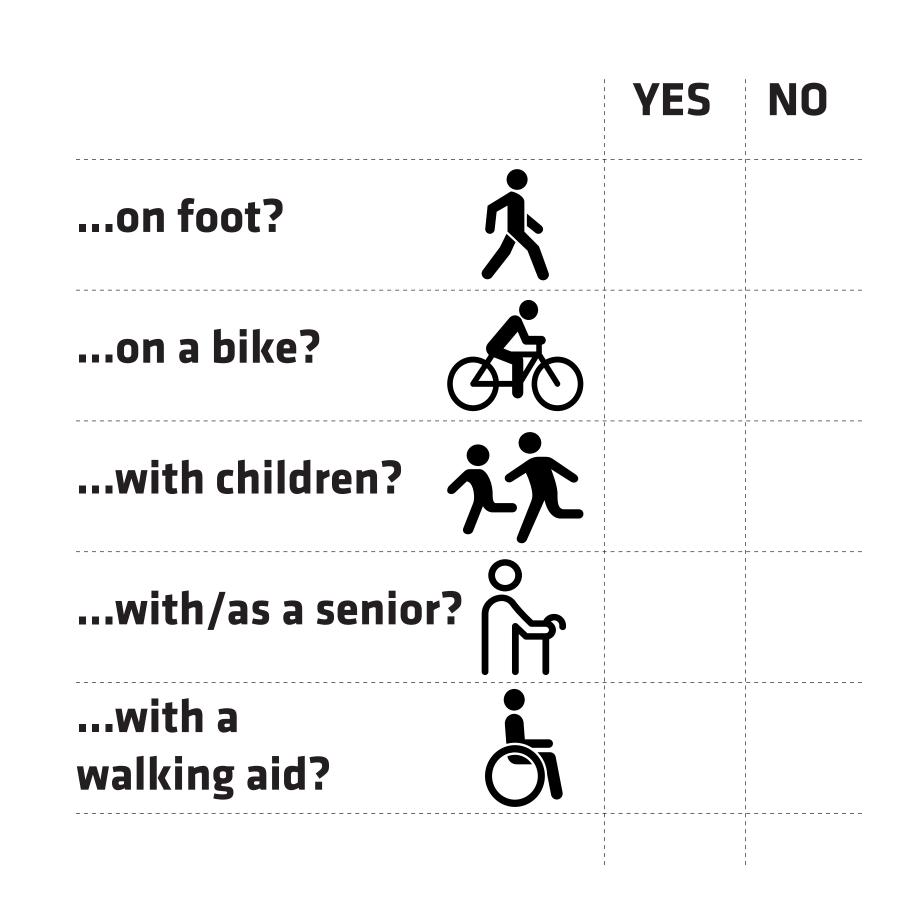

Houston St Overpass

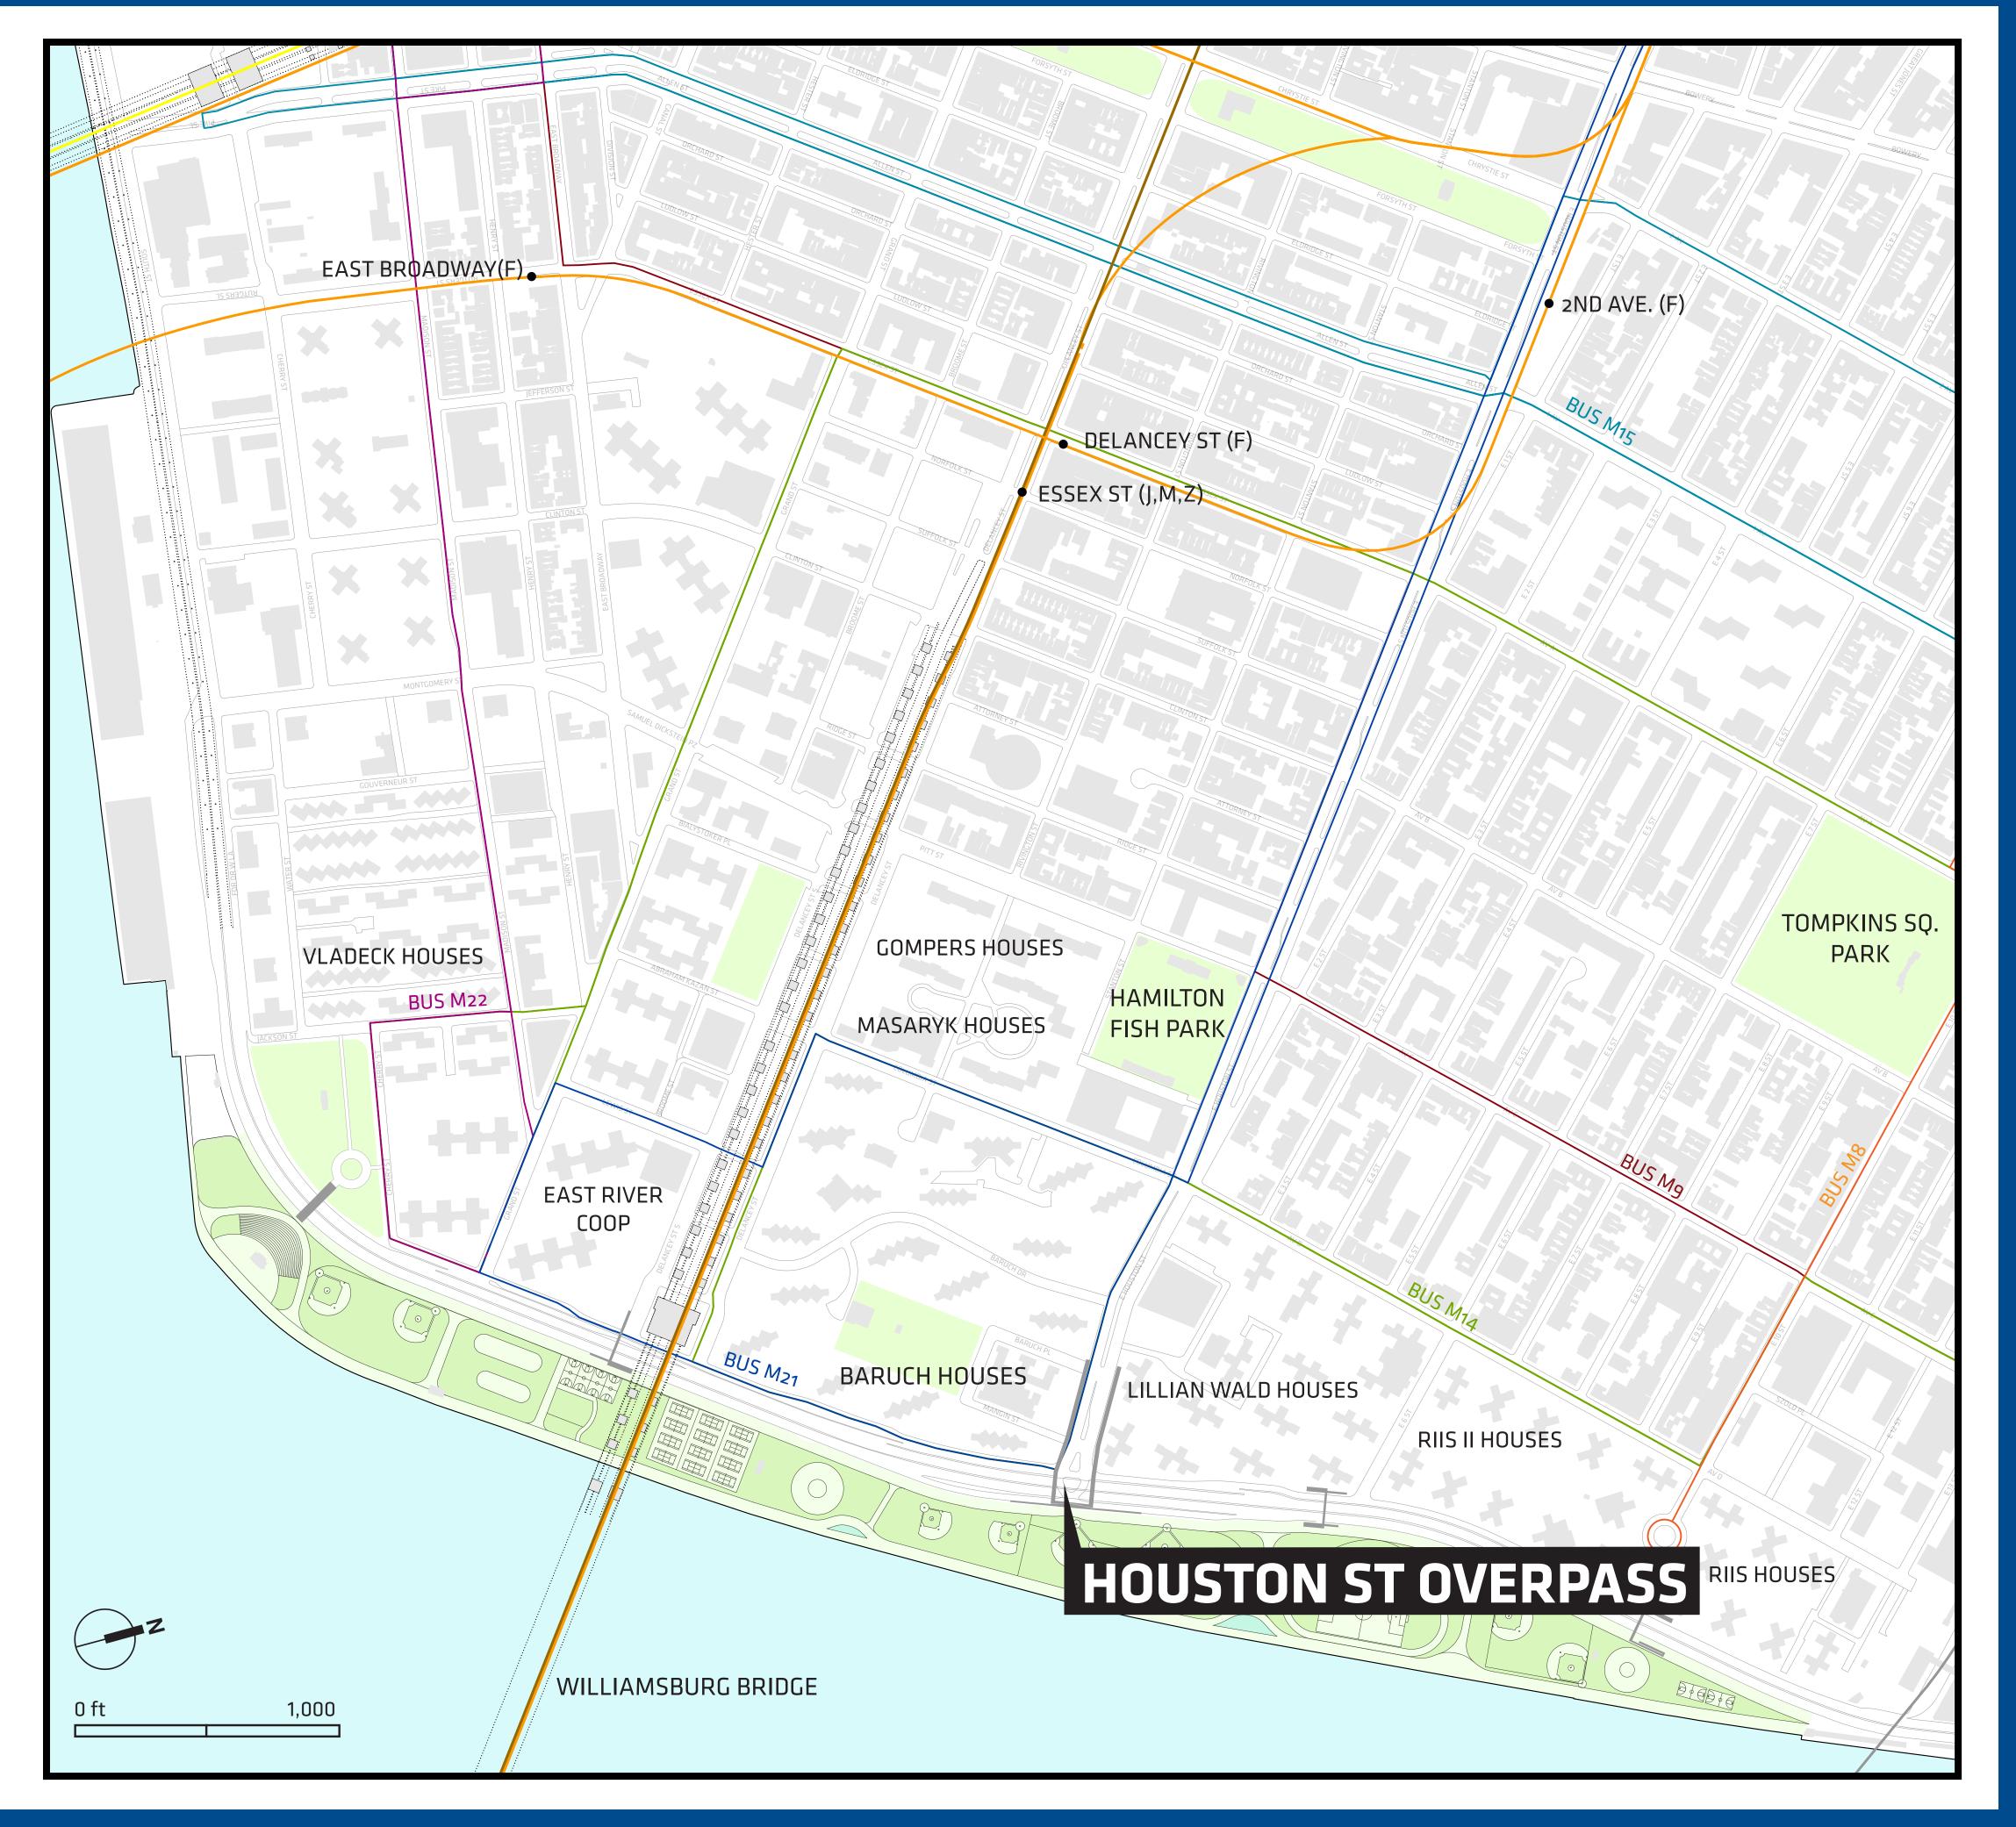

2. Access Routes

Use the map to the right to indicate how you usually get to the Houston street overpass.

Do you usually cross the Houston street overpass...

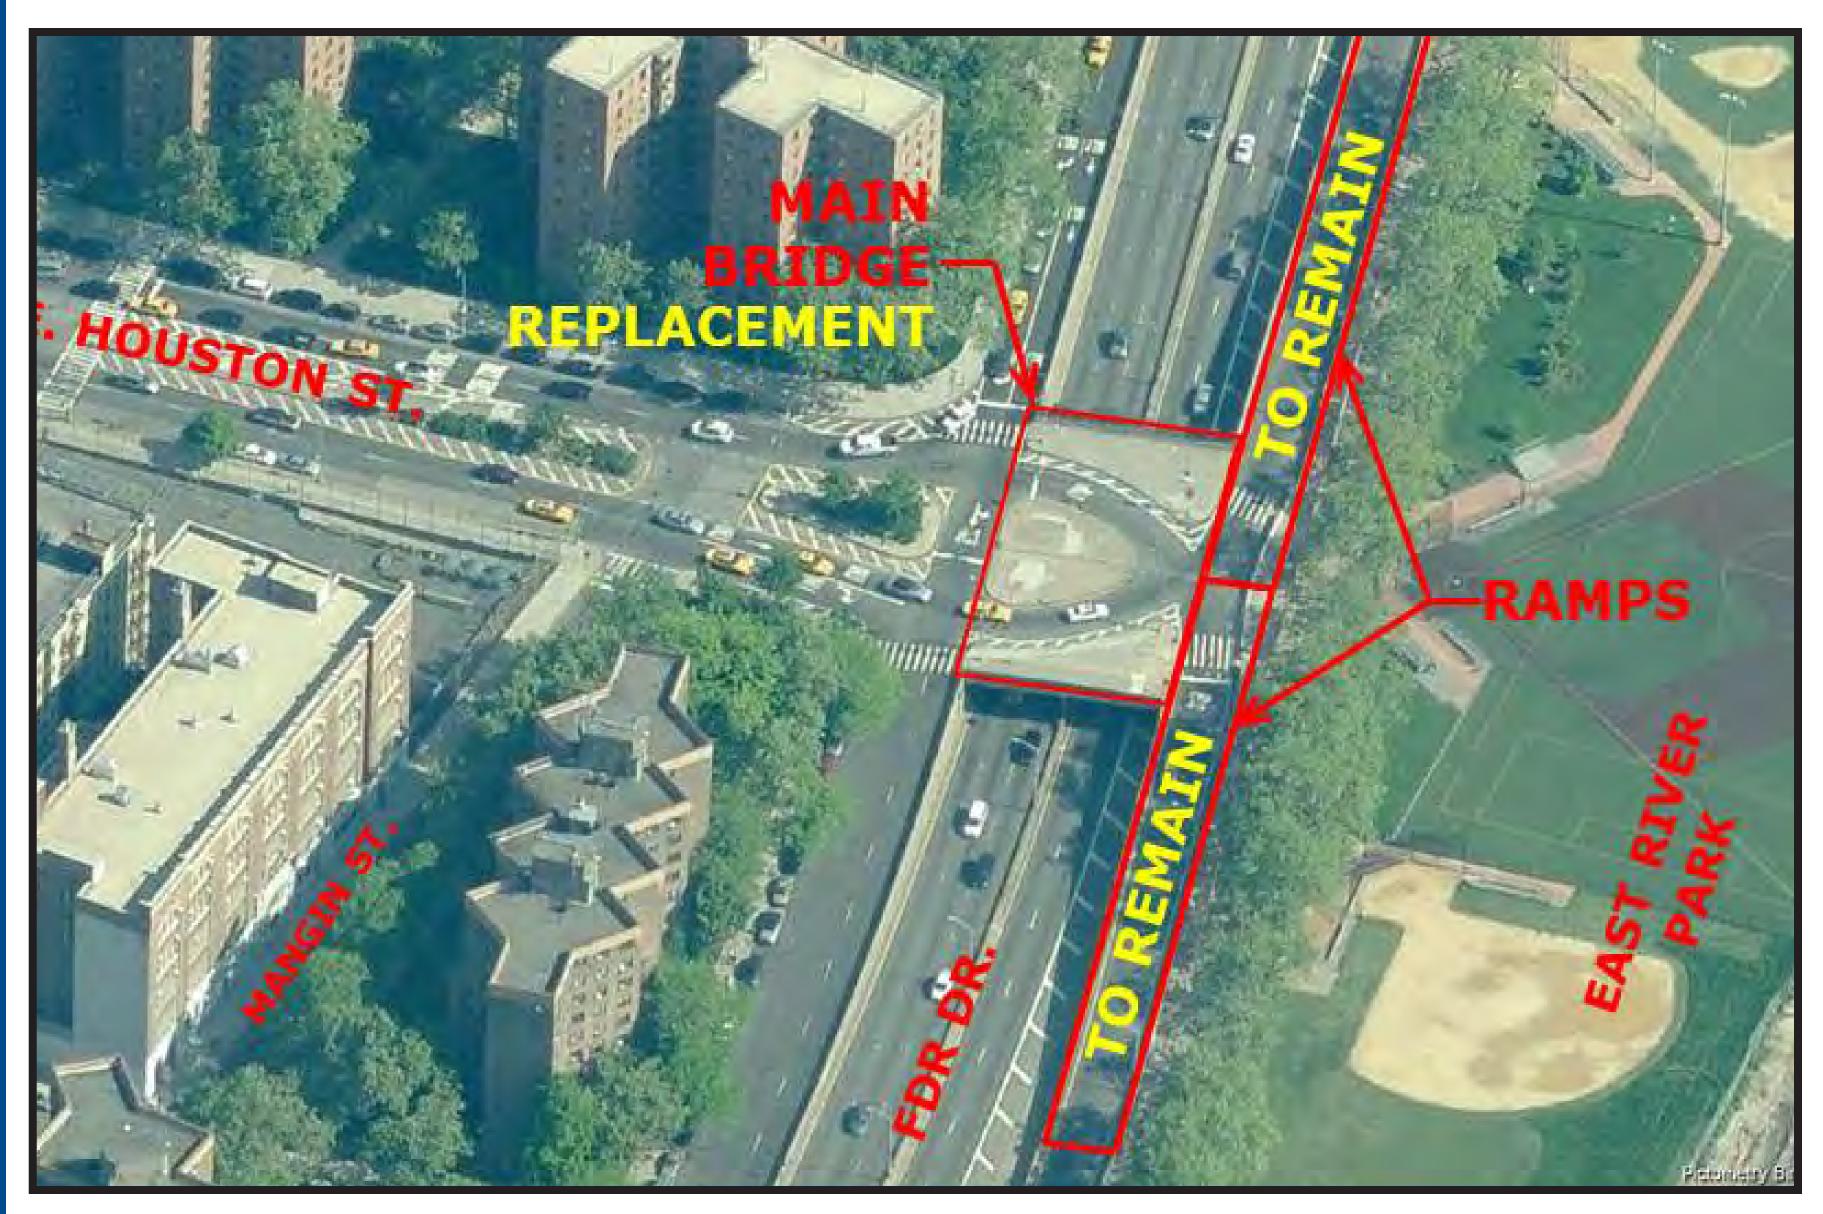

If you don't use the Houston street overpass, please use the post it notes to tell us why.

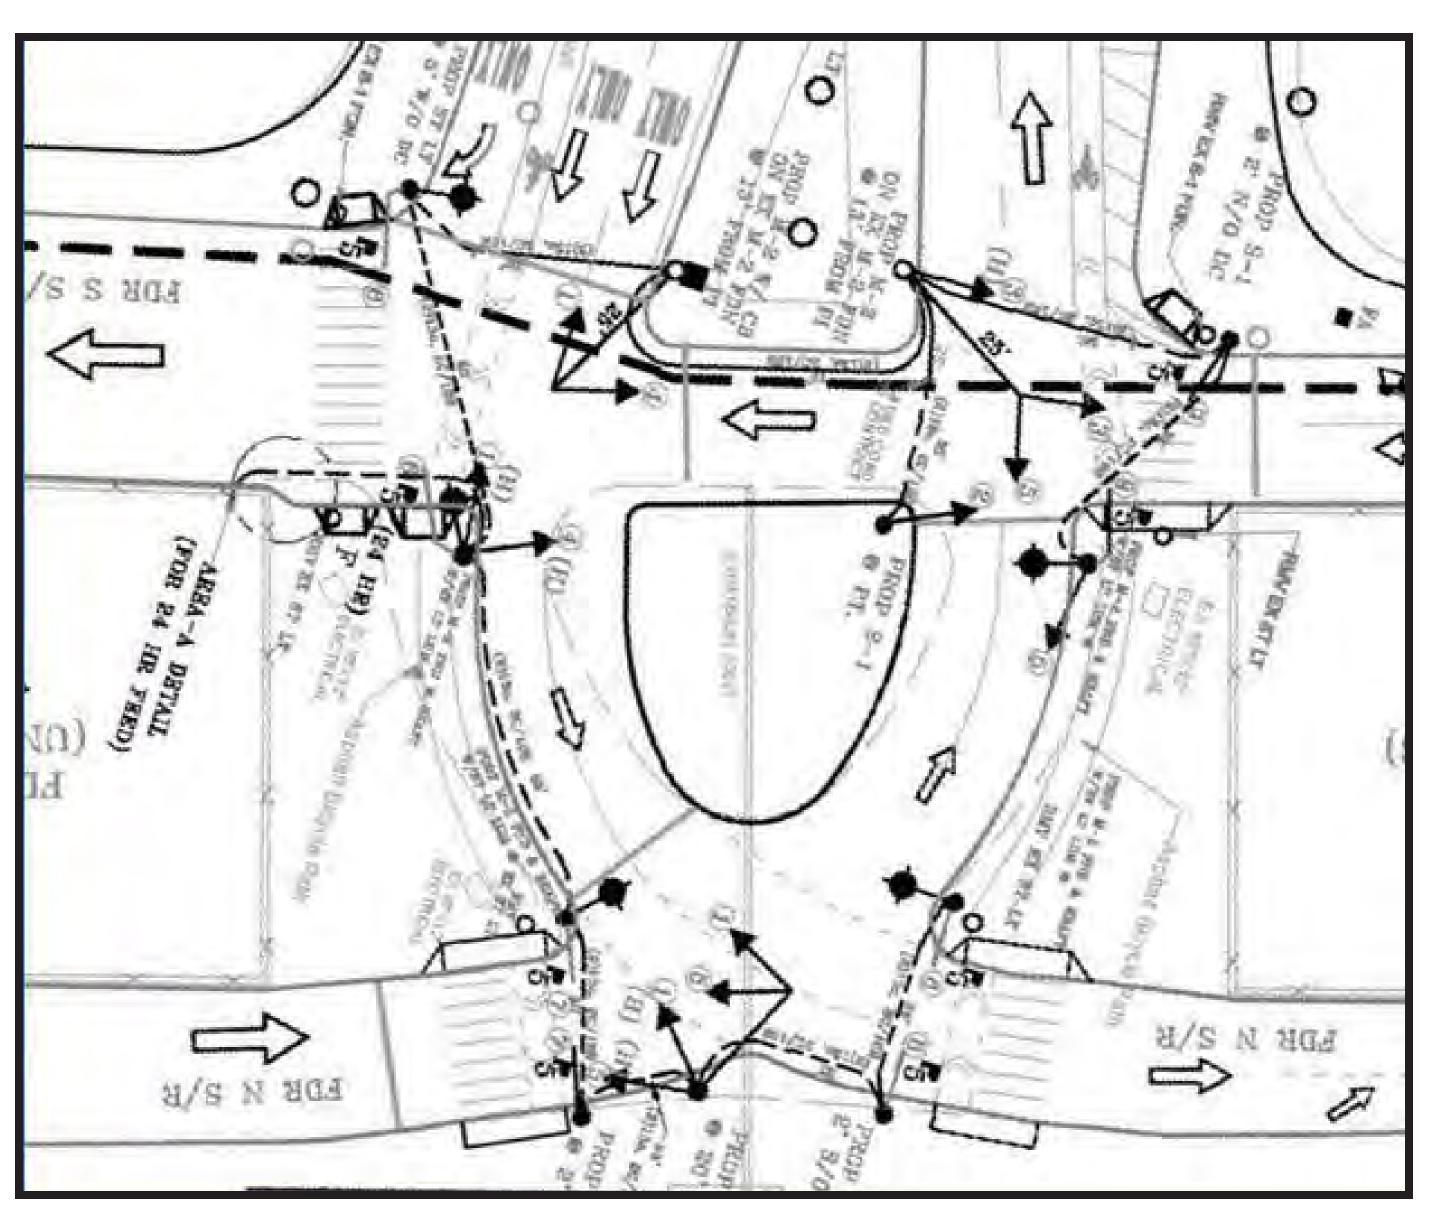

Houston St Overpass

3. Scheduled rehabilitation work (DOT)

DOT will replace the main bridge structure slab, rehabilitate the FDR Drive exit and entrance ramps, and introduce traffic signals on the bridge while minimizing impact to vehicular and pedestrian traffic during construction.

Limits of the Houston street overpass and proposed scope of work

Proposed plan with traffic signals

COMMUNITY ENGAGEMENT SESSION: WATERFRONT CONNECTIONS MAY 20 & 28, 2015

TABLE 4 WORKSHEET

E6TH ST PEDESTRIAN BRIDGE

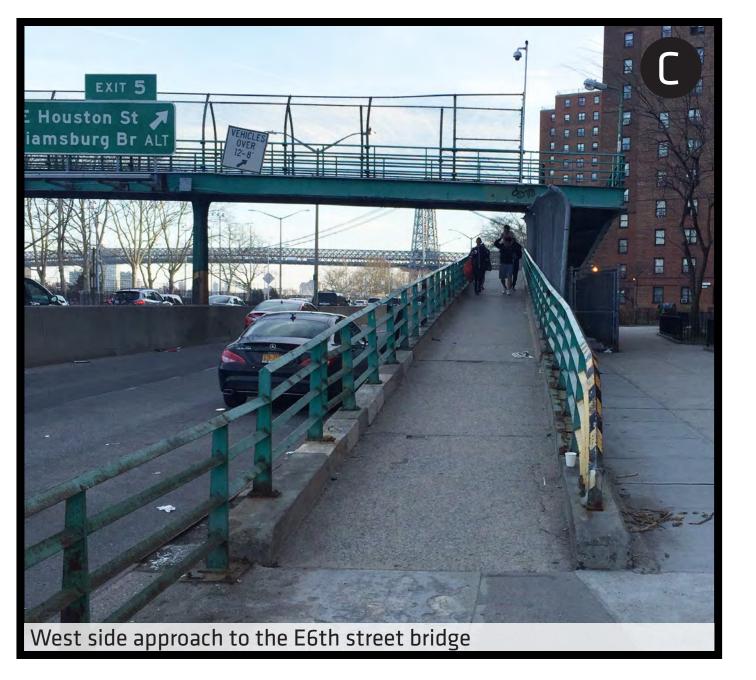

E6th St Bridge

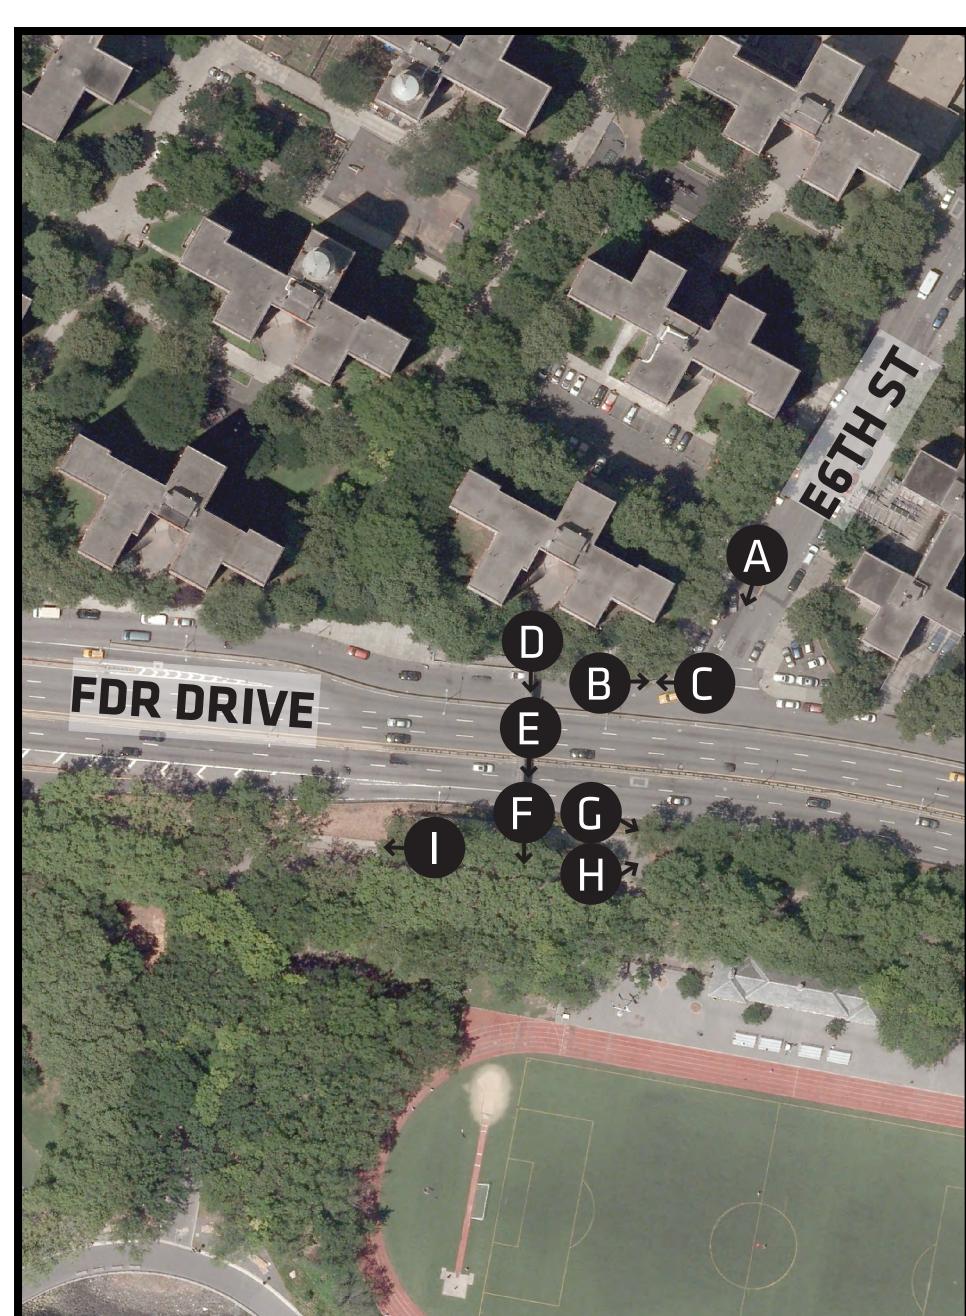

1. Existing Conditions

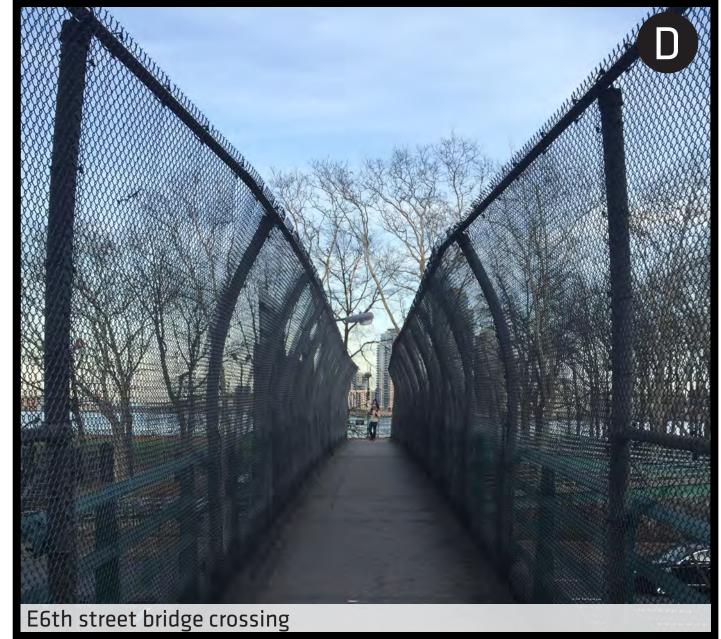

Use this sheet to discuss the E6th street bridge with other participants at your table. What do you like and dislike about the bridge? Do you prefer the east or west side approach? Why?

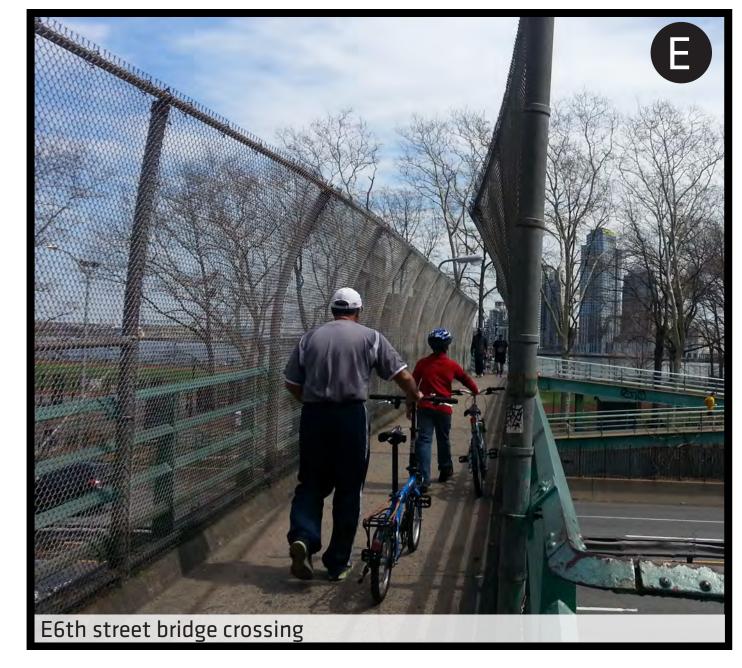

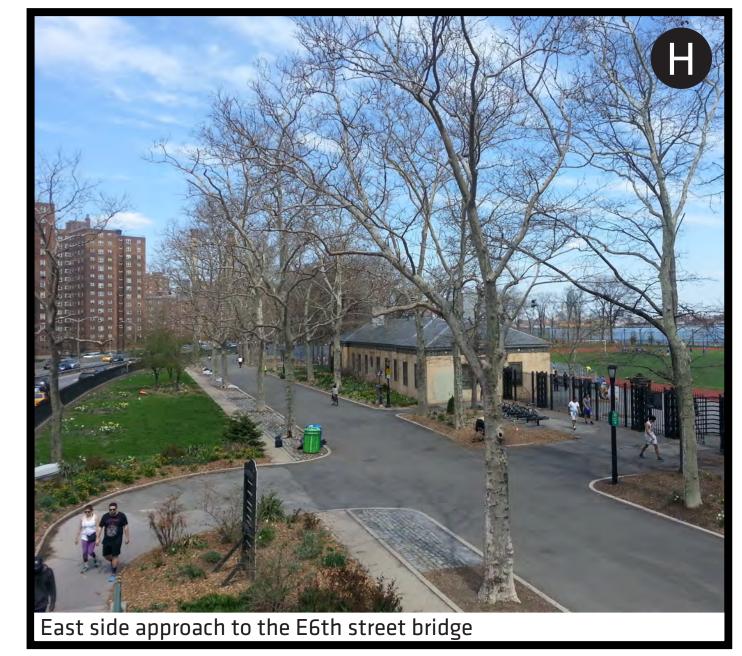

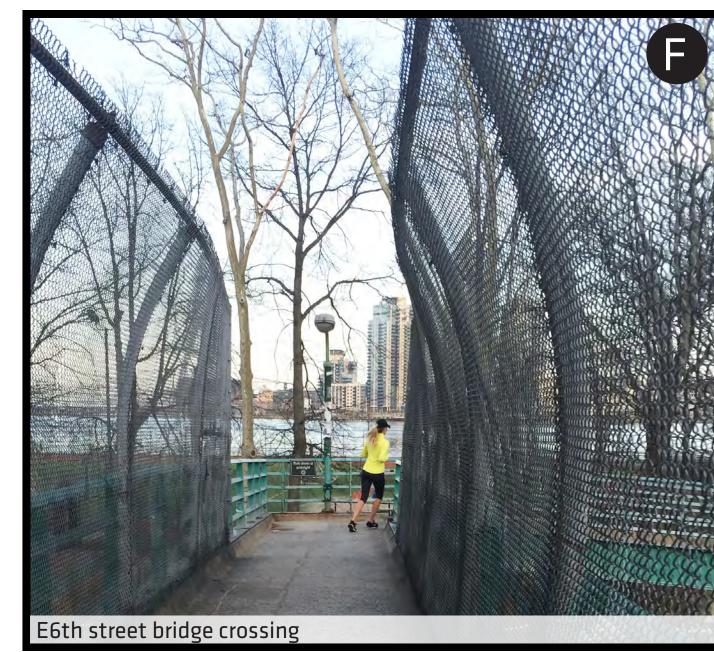

E6th St Bridge

1. Existing Conditions

Use this sheet to discuss with other participants at your table. Do you regularly use the amenities that are located in proximity to the E6th street bridge?

KEY

Housing

Parking

Sport fields, playgrounds and community gardens

Outdoor gym

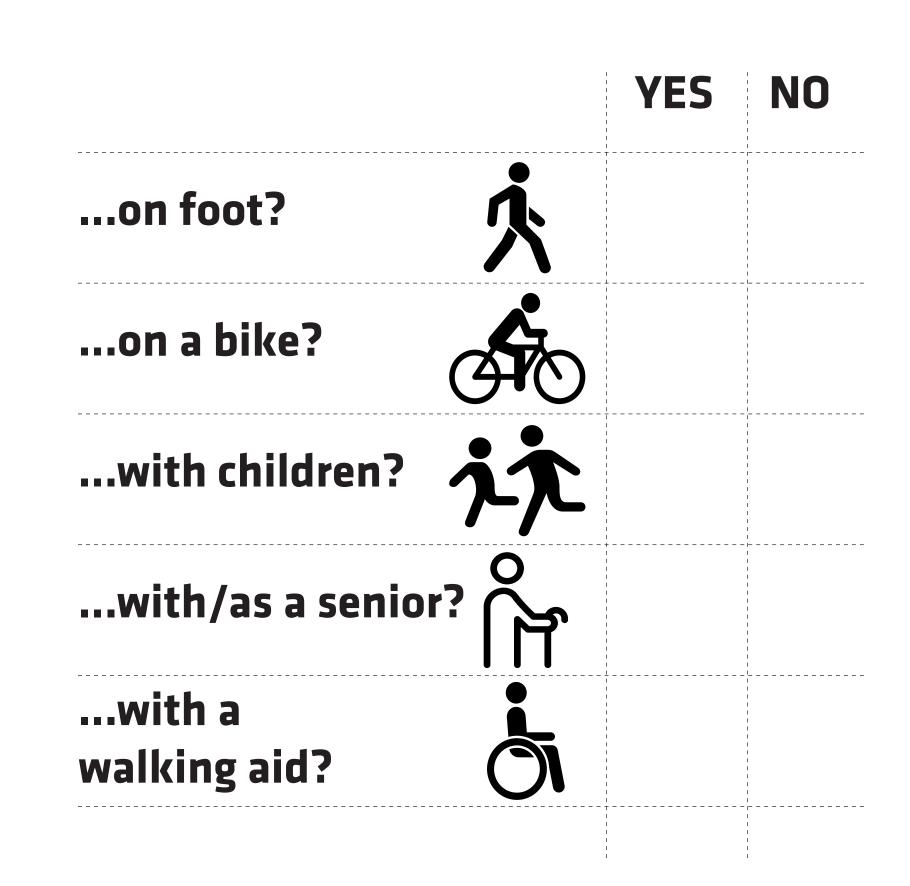

E6th St Bridge

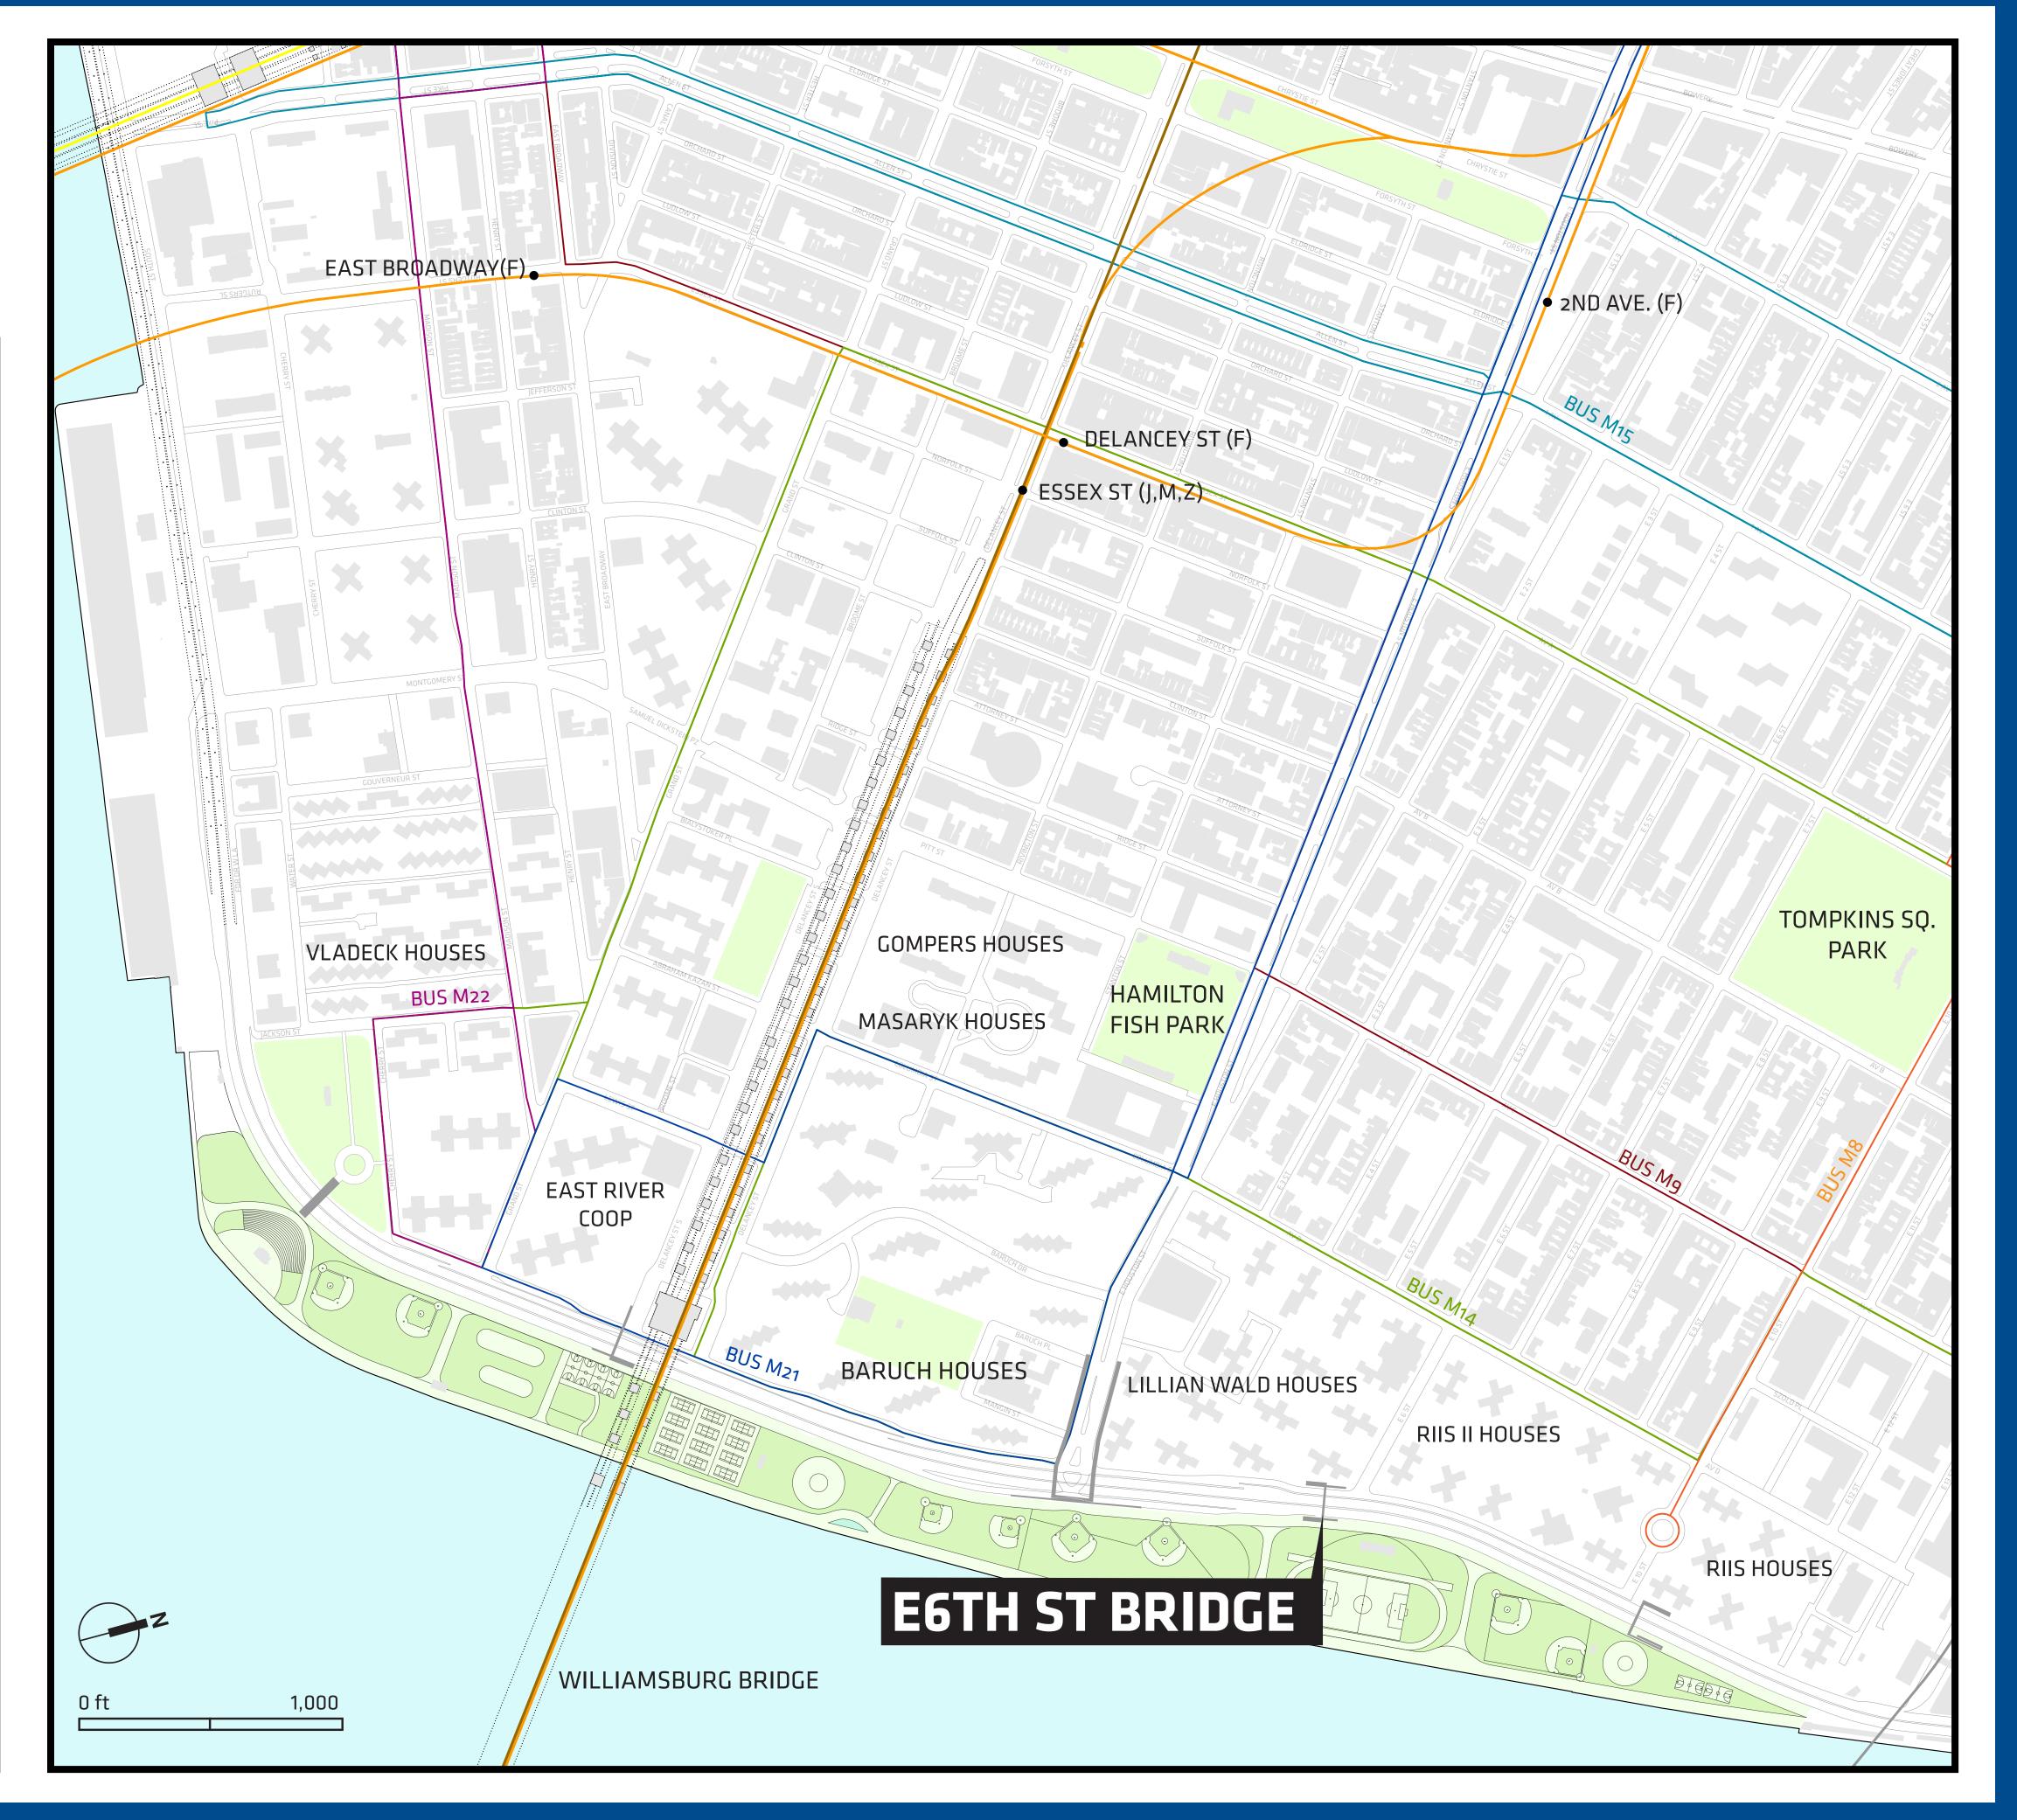

2. Access Routes

Use the map to the right to indicate how you usually get to the E6th street bridge.

Do you usually cross the E6th street bridge...

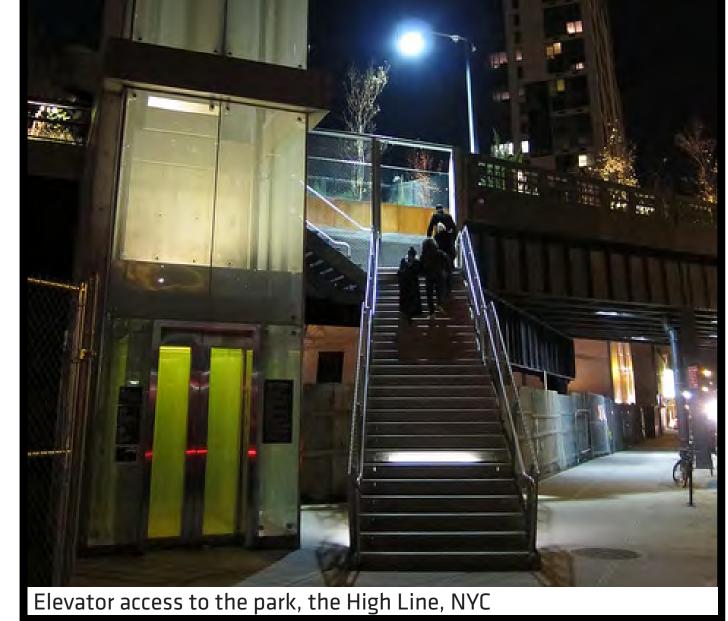

If you don't use the E6th street bridge, please use the post-it notes to tell us why.

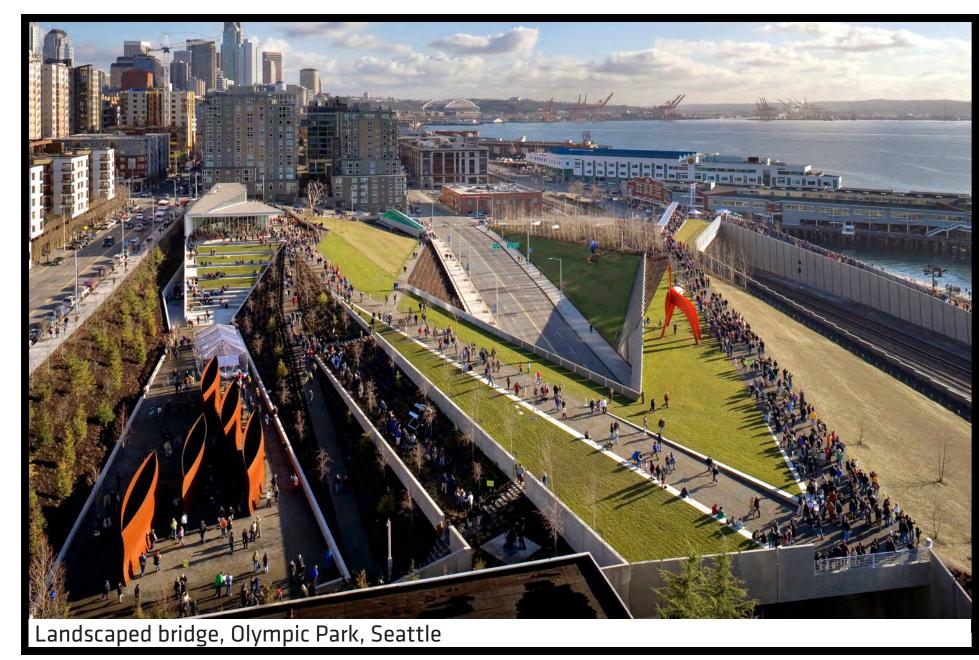

E6theStsHidge Bridge 3. Precedents

What do you think about the examples pictured below? In your opinion, which of these elements (e.g. lighting, landscaping, etc.) would improve access to East River Park via the E6th street bridge?

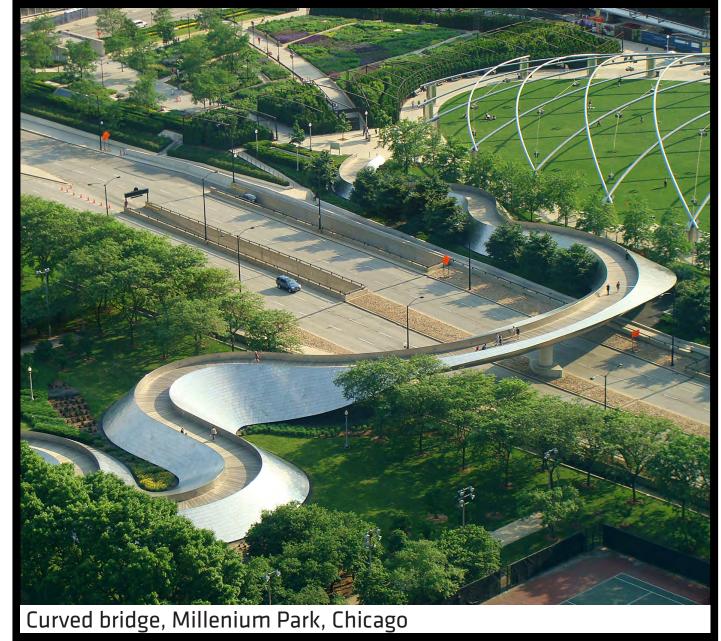

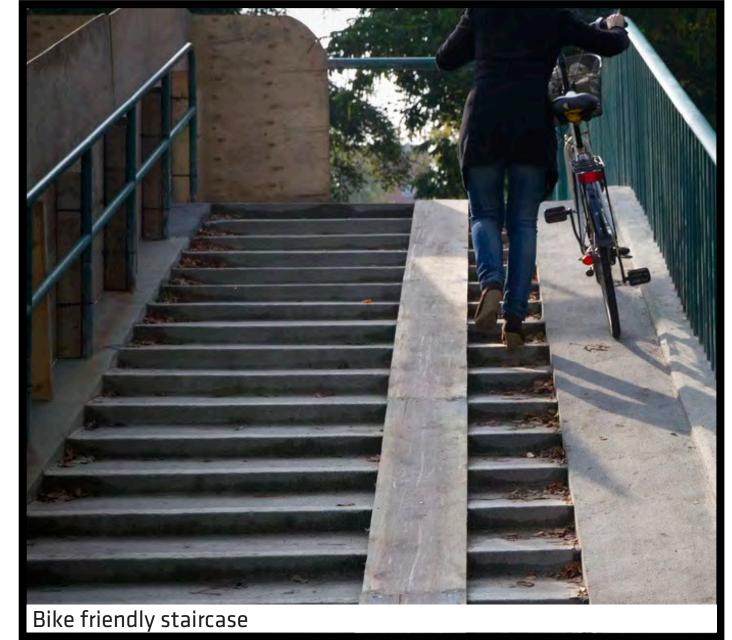

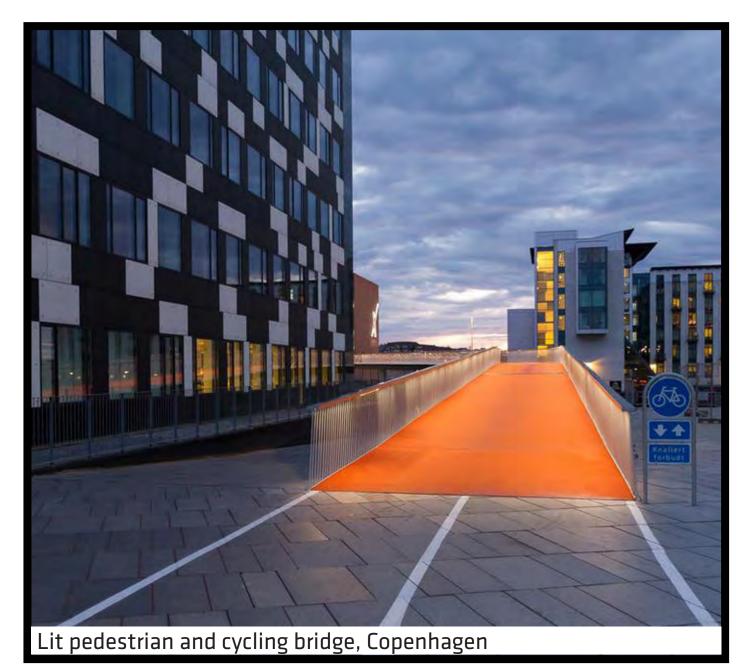

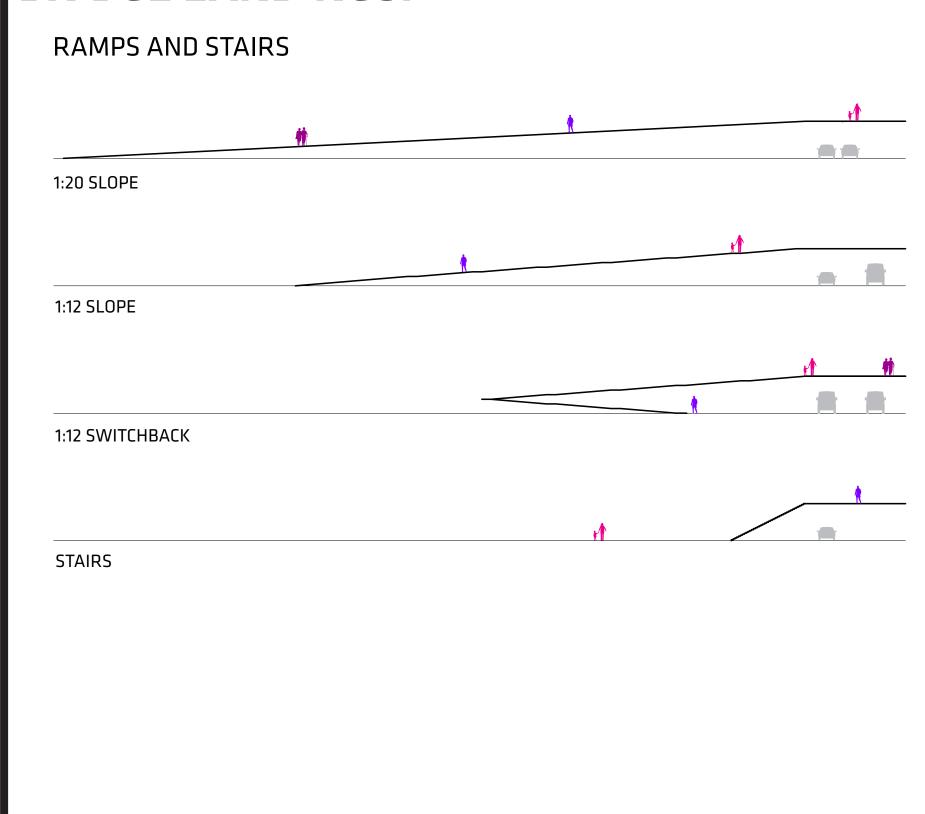

E6th St Bridge 4. Ideas

Use the bridge cut-outs provided by your facilitator to compare the different bridge landing options. Place the cut-outs on the map to the right to understand how each option would fit into the neighborhood.

The diagrams below provide information about the differences between a 1:20 slope, a 1:12 slope, a 1:12 switchback and stairs.

TABLE 6 WORKSHEET

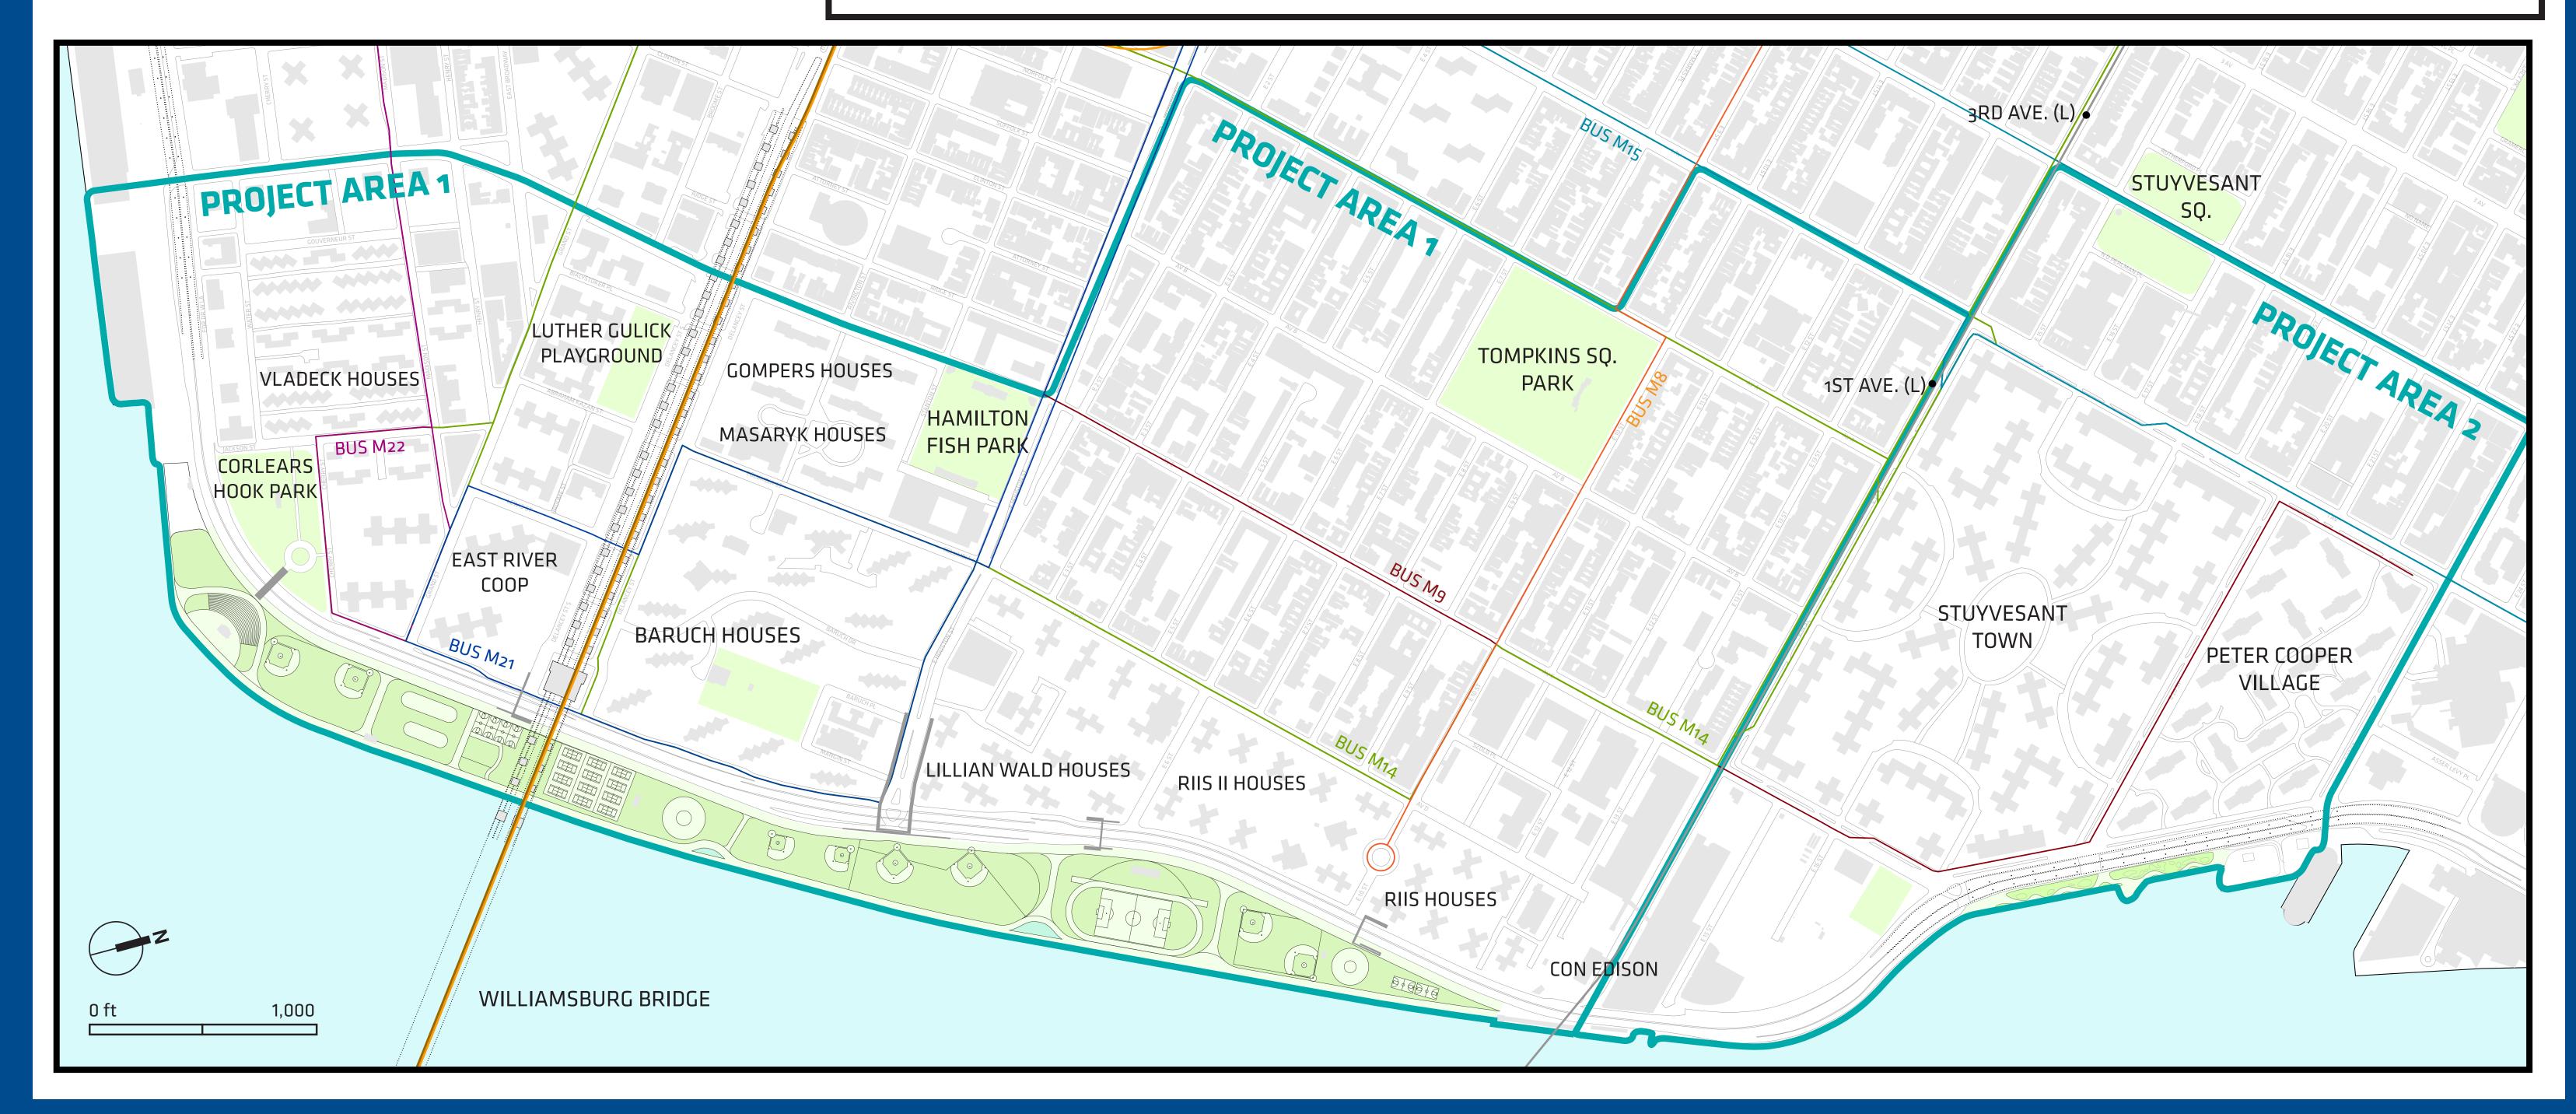

NEIGHBORHOOD CONNECTIONS

WORKSHEET FACILITATOR SET

NEIGHBORHOOD CONNECTIONS

Use this sheet to discuss neighborhood connections in Project Area one (from Montgomery St. to E14th St.) with other participants at your table. For example: What do you think about existing connections, access, safety, and programming in Project Area one? What other community concerns should the team keep in mind as we develop neighborhood sensitive coastal protection alternatives?

Please draw on the map or use the post-it notes to comment!

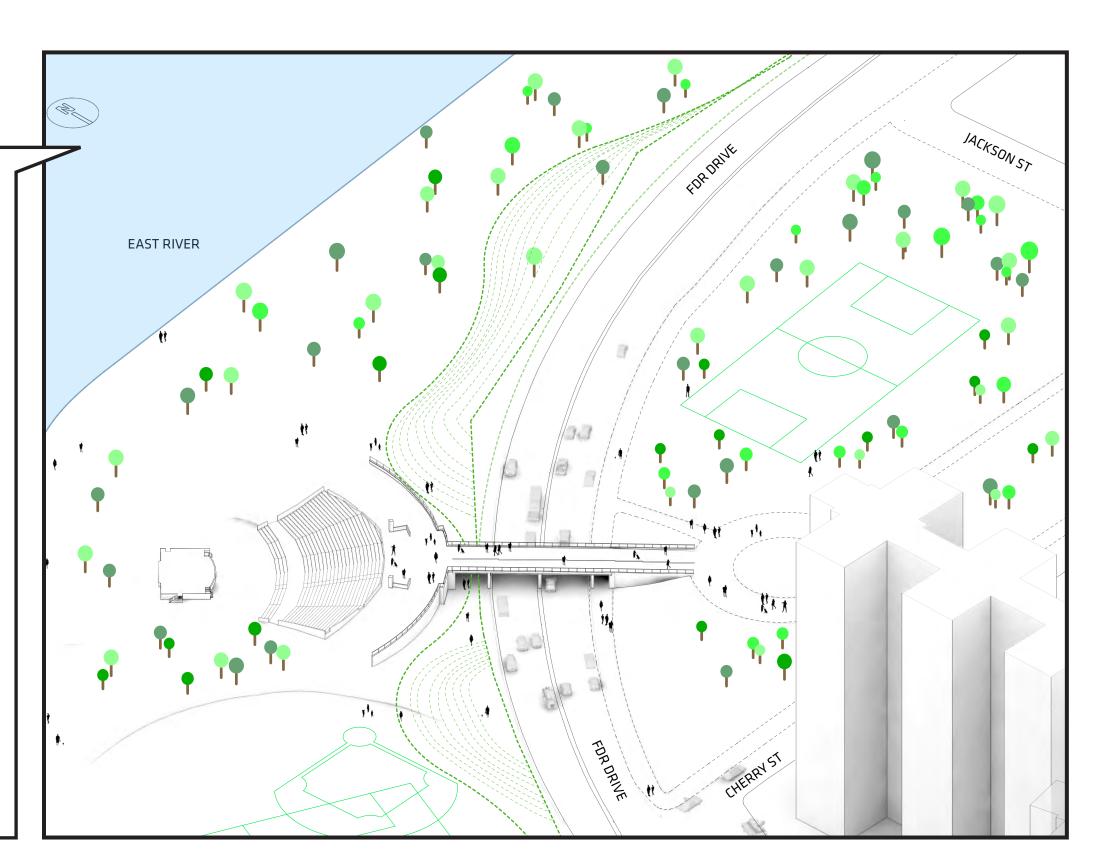

Corlears Hook Bridge

4. Ideas

Use this sheet to tell us how you would improve the Corlears Hook pedestrian bridge. What type of activities and spaces would you like to see near the Corlears Hook pedestrian bridge?

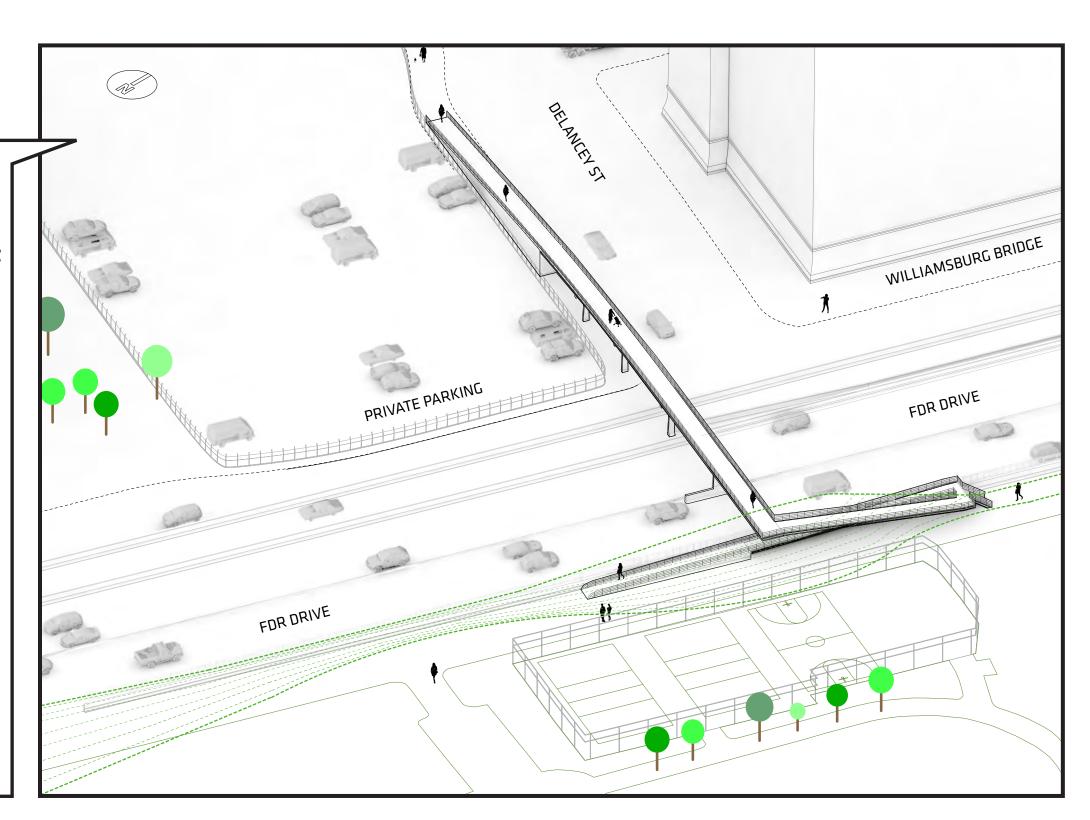

Please comment and draw on the image to the right.

Delancey St Bridge 4. Ideas

Use this sheet to tell us how you would improve the Delancey Street pedestrian bridge. What type of activities and spaces would you like to see near the Delancey street pedestrian bridge?

Please comment and draw on the image to the right.

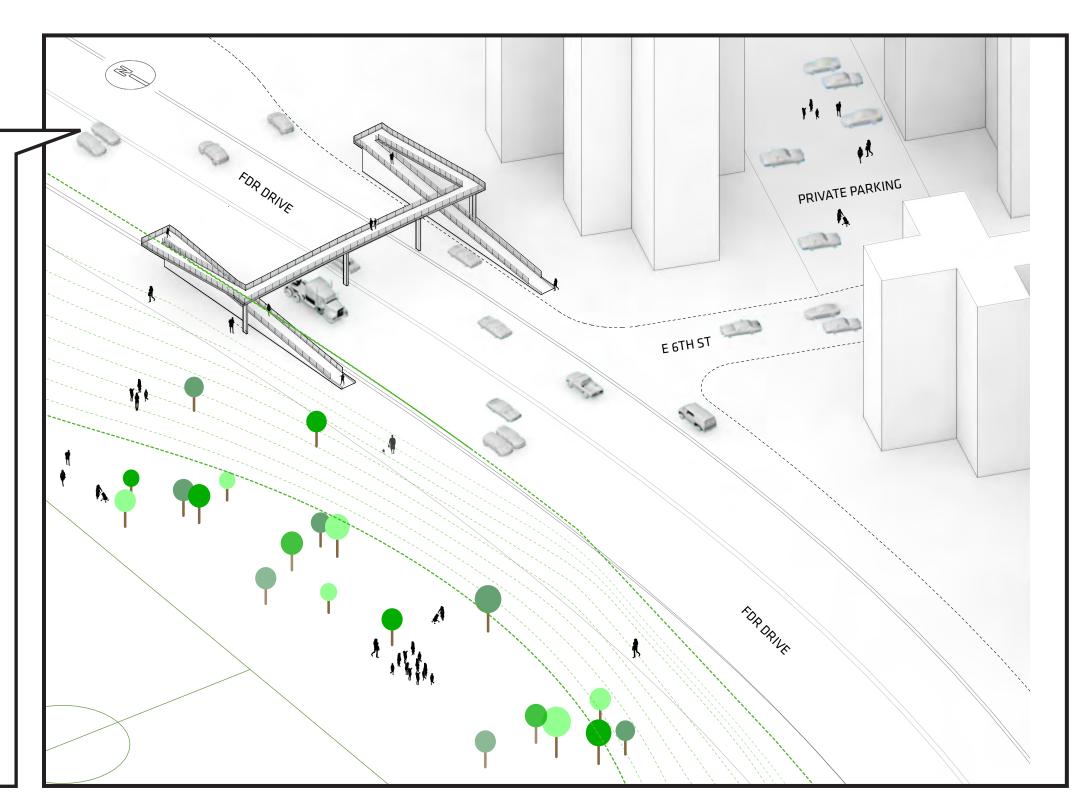

E6th St Bridge

4. Ideas

Use this sheet to tell us how you would improve the E6th street pedestrian bridge. What type of activities and spaces would you like to see near the E6th street pedestrian bridge?

Please comment and draw on the image to the right.

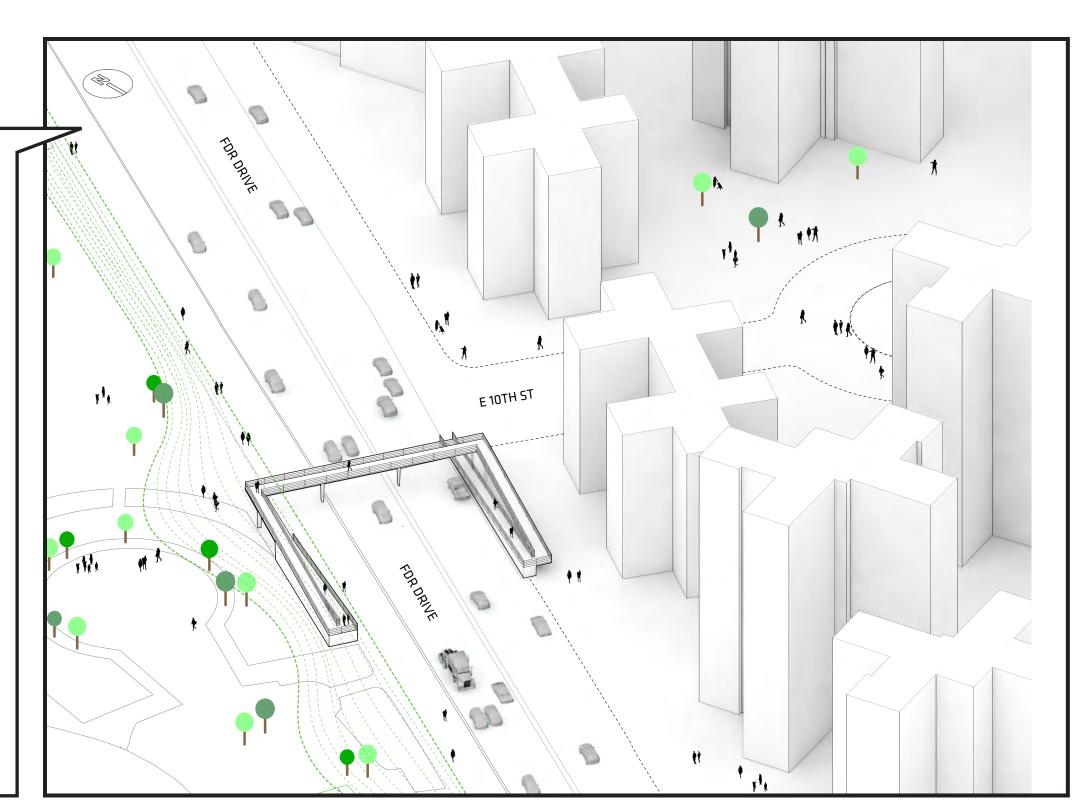

E10th St Bridge

4. Ideas

Use this sheet to tell us how you would improve the E10th street pedestrian bridge. What type of activities and spaces would you like to see near the E10th street pedestrian bridge?

Please comment and draw on the image to the right.

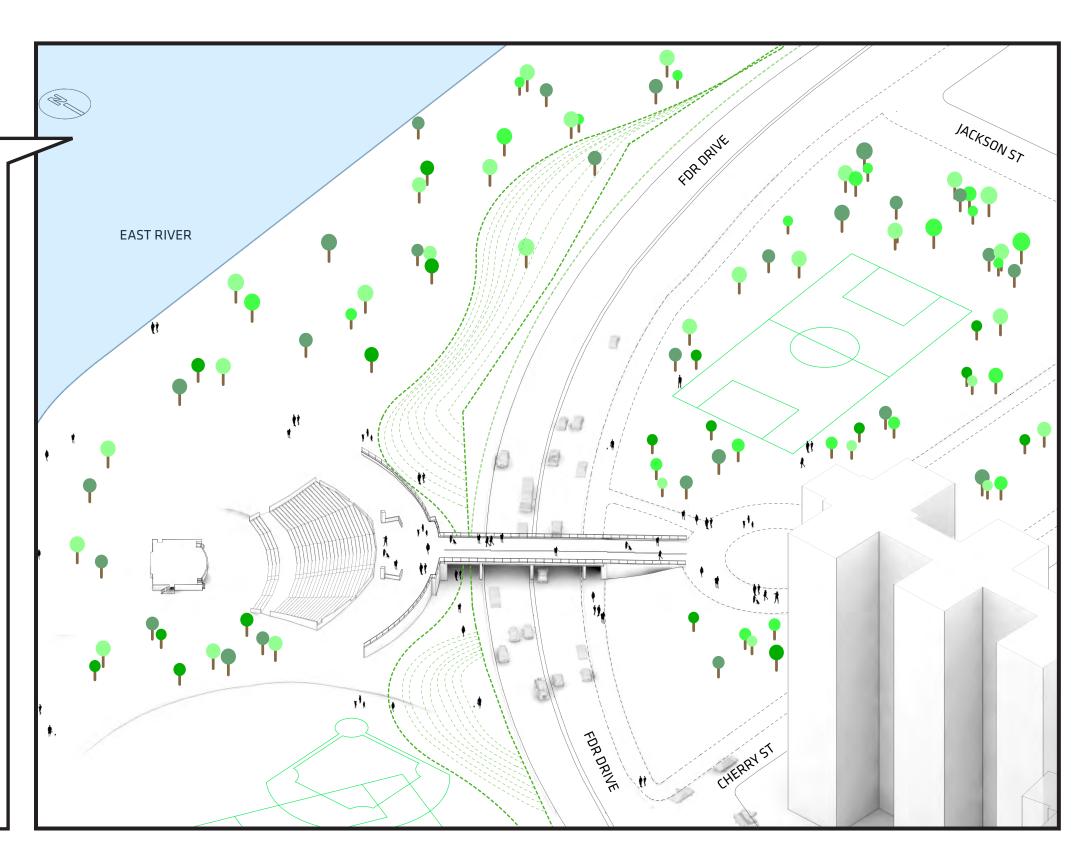

Corlears Hook 天橋

4. 想法

使用此頁寫下如何改善 Corlears Hook 人行天 橋的意見。您希望在 Corlears Hook 天橋附近 看到哪類活動及空間?

請於右側圖片上寫下或畫出您的意見。

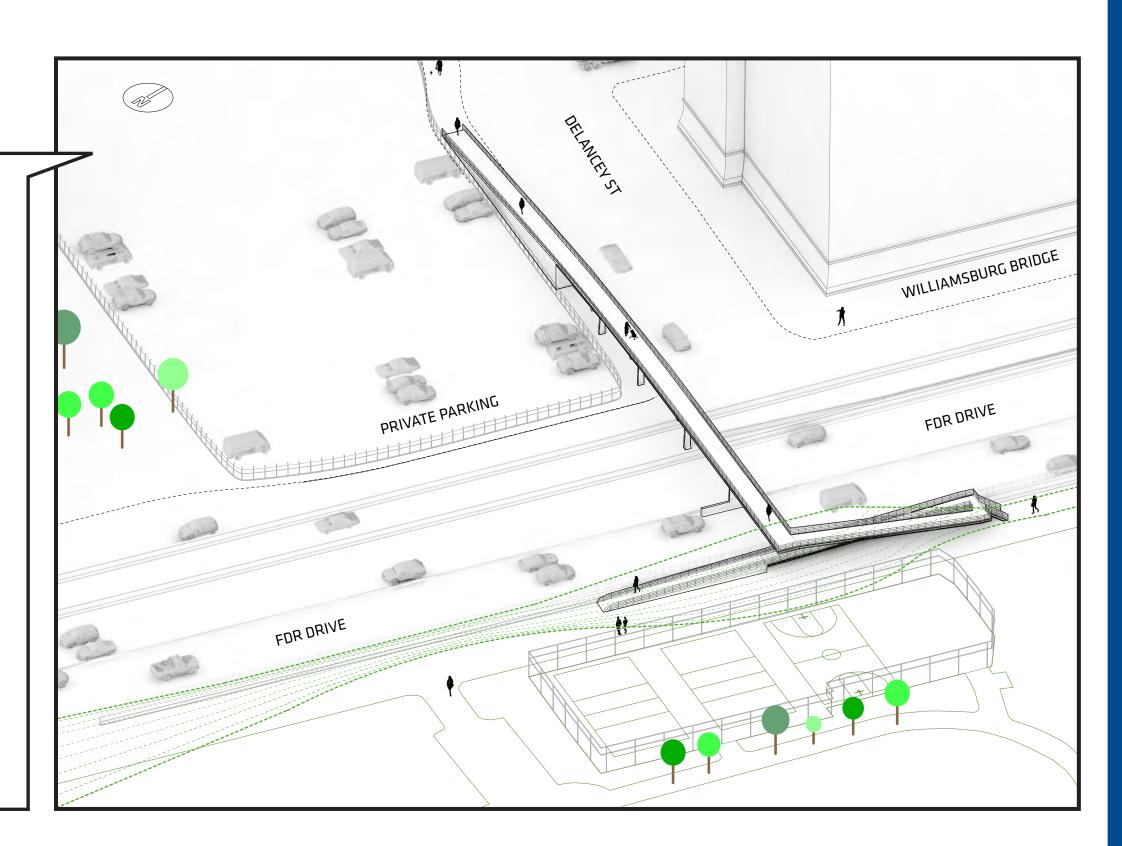

Delancey St 天橋
