**INSTRUCTIONS FOR SCHEDULE A**

A corporation subject to the General Corporation Tax that has relocated to leased premises in New York City from a location outside New York State and has created at least 100 industrial or commercial employment opportunities in the City is allowed a credit against the General Corporation Tax for the amount of any additional lease payments actually made to the taxpayer's landlord that are based solely and directly upon increased real estate taxes imposed upon the relocation premises. Before a taxpayer can claim the credit, the taxpayer's eligibility must be approved and certified by the Industrial and Commercial Incentive Board. The credit can be claimed annually for the length of the lease term, or for a period not to exceed ten years from the date of relocation, whichever period is shorter.

"Employment opportunity" means the creation of a full-time position (not less than 30 hours per week of gainful employment) for an industrial employee (one engaged in the manufacturing or assembling of tangible goods or the processing of raw materials) or commercial employee (one engaged in the buying, selling or otherwise providing of goods or services other than on a retail basis directly to the ultimate user or consumer) and the actual hiring of such employee for that position.

"Basic rent" means the rent provided for under a written lease for the use or occupancy of premises, excluding separately stated amounts required to be paid under the lease for such items as real estate taxes, maintenance expenses or fuel

adjustments. If more than one premises is included in the computation of the credit, attach a separate rider in the form of Schedule A for each such premises, and enter the sum of the amounts shown on such separate riders on Schedule A.

**PART B, LINE 2a**

Since the real estate tax escalation credit is the amount of the increased payments actually made that are solely and directly attributable to an increase or addition to the real estate taxes imposed upon the leased premises, the basic rent originally to be paid under the lease for the premises must be determined. It should be computed as an amount due for one month, notwithstanding the manner in which it is expressed in the lease for the premises. The basic monthly rent as thus determined must then be multiplied by the number of months in the taxable period covered by this report so that the period covered by this report may be compared to a comparable period based upon the basic rent originally required to be paid.

**PART B, LINE 2b**

If, beginning with the inception of the term, the lease for the premises requires that an amount separate from the basic rent must be paid for real estate taxes attributable to the premises, you must enter on line 2b an amount to be determined by computing the amount that would be due per month, if such required payment were figured on a monthly basis, and multiplying such amount by the number of months in the period covered by this report.

**SCHEDULE B Employment opportunity relocation costs credit (Administrative Code Section 11-604.14)**

If the taxpayer did not both relocate from outside New York State and create a minimum of ten (10) industrial or commercial employment opportunities in New York City, **do not** complete Schedule B and make **no** entry on page 1, parts I and II, lines 2 and 5, respectively.

- c) "Commercial employee" means one engaged in the buying, selling or otherwise providing of goods or services other than on a retail basis.
