This package describes the New York City (NYC) Acceptance Testing System procedures for software developers participating in the NYC Business Tax e-File Program (BTeFile).

WHO MUST TEST

All software developers participating in the NYC BTeFile Program must test.

WHAT TO TEST

The tests verify that the e-file software creates a complete return, carries appropriate values from one line/form to another, formats and transmits NYC returns according to the XML specifications.

Software developers must test all the NYC Business Corporation Tax forms that they support. Before testing you should inform NYC which Business Corporation Tax forms you support by email to <u>BTeFile@finance.nyc.gov</u>.

TEST CASES TO SUBMIT

All vendors participating in GCT Business Tax e-File must submit the following test scenarios:

| Test Case | Taxpayer Name | EIN | Primary Form | Associated Forms |
|--------------|------------------|------------|--------------|--------------------|
| 1 | NYC DOF TC ONE | 00-0000021 | NYC-2 | None |
| 2 | NYC DOF TC TWO | 00-0000022 | NYC-2 | NYC-2.1 NYC-2.5 |
| 3 | NYC DOF TC THREE | 00-0000023 | NYC-2 | NYC-2.2 NYC-2.5 |
| 4 | NYC DOF TC FOUR | 00-0000024 | NYC-2 | NYC-2.3 NYC-2.5 |

- If you do not support primary form, do not submit these tests.
- If you do not support one or more of the forms associated with a specific test case, submit the test with the unsupported form(s) as a PDF attachment(s). If this is done, an email must be sent to BTeFile@finance.nyc.gov indicating the forms sent as PDF attachments.
- Contact BTeFile@finance.nyc.gov if you desire to send additional test returns not covered in this test package.

WHEN TO TEST

Testing for Business Corporation Tax (Form NYC-2 and attachments) filers is scheduled to begin February 17, 2016. To ensure adequate time for testing, software developers should submit their initial NYC test files as soon as possible. There is no cutoff date for testing with NYC, as long as the IRS is still accepting test returns. We do not require software developers to pass federal testing before testing with NYC. Software developers may conduct federal and City testing concurrently if the IRS allows it.

TRANSMITTING TEST FILES

Software developers must transmit NYC test file through the IRS MeF system. You will get an acknowledgment from the IRS. If your test file is accepted by the IRS, NYC will retrieve your test file. If your test file is rejected by the IRS, you must correct the error and re-transmit. You may transmit an incomplete set of test cases during testing. However, a final set of acceptable test returns must be submitted in order to be accepted into the NYC BTeFile Program.

When your test file has been transmitted to the IRS, you must send an email to <u>BTeFile@Finance.nyc.gov</u>. This email must include the test case(s) being submitted, and any deviation from the test data.

COMMUNICATING TEST RESULTS

Software Developers will be given confirmation by telephone and email from the New York City Business Tax e-File Coordinator when software has been successfully tested and approved. Only approved software may be released and distributed by the developer. NYC will make every effort to provide test results to software developers within 48 hours, Monday through Friday.

TEST ACKNOWLEDGMENT

For each submission a software developer sends through the IRS, DOF will acknowledge. The acknowledgment they receive will be either positive (ACK) or negative (NACK). The acknowledgment will be sent back to the IRS system for the vendor to pick up.

APPROVAL OF E-FILE SOFTWARE

To be accepted into the NYC Business Tax e-file program, software developers are required to successfully complete the NYC testing, in addition to completing the IRS testing. Once software developers successfully complete the NYC test, NYC will inform them by email that their e-file software has been approved for NYC BTeFile. A list of approved BTeFile software packages will be posted on NYC Department of Finance's Web site, with a link to the software Web site (if provided by the software developers).
