Form NYC-3360 must be filed within 90 days after a final federal and/or New York State determination is issued, or as required by the Department of Finance. Attach a copy of the final determination. If you disagree with the results of a final determination in a federal or State audit reported on this form, complete the form reporting the changes in accordance with the final determination and attach a statement explaining why you believe the adjustments are erroneous. Do not attach it to any tax return.**

An amended New York City return Form NYC-3L, 3A or 4S must be filed within 90 days after filing an amended federal or New York State return.

If you are filing this form to report a change in filing status of the taxpayer from filing on a separate basis on a Form NYC-4S or NYC-3L to filing as a member of a combined group on Form NYC-3A or from filing on a combined basis to filing on a separate basis, check the box marked "YES" on the top of the form and check the appropriate box for the new filing status.

LINE 1

For information regarding depreciation deductions for property placed in service outside New York after 1984 and before 1994, see the separate "Addendum to Instructions for Forms Relating to Depreciation for Property Placed in Service Outside New York After 1984 and Before 1994" included with these materials.

If the increase (decrease) in taxable income includes an adjustment to the depreciation of property on which optional depreciation has been claimed, the federal or New York State depreciation adjustment should be eliminated and the deduction for optional depreciation corrected.

If the corporation disposed of property on which optional depreciation has been claimed and a federal or New York State adjustment was made to either the cost basis or the selling price, a recomputation of the New York City capital gain must be submitted.

Submit schedule showing computation and enter the correct amount of allocated increase or decrease at column 2. Enter in column 3 the difference between the amount in column 1 and the amount in column 2.

Submit schedule of allocation percentages (if any) utilized in making entries in column 2 of this report.

Note: For years beginning on or after July 1, 1996, a corporation without a regular place of business outside the city may allocate its income within and without the city. Additionally, a manufacturing corporation may elect to calculate its allocation percentage using a four-factor formula by double-weighting the receipts factor. Certain restrictions apply in the case of corporations filing a combined report. See Administrative Code section 11-604 (3) (a) (8) and instructions to form NYC-3L.

LINES 2, 4, 5b, 6, 8 and 10

If this form is being filed with respect to a corporation filing a combined report, on line 10 enter the total minimum tax of each corporation included in the combined report with the exception of any corporation not otherwise subject to the tax.

LINE 5a - ALTERNATIVE TAX BASE

Submit schedule showing computation of alternative tax base. To compute the alternative tax base:

- add to the amount of corrected taxable net income (loss), column 3, all salaries and compensation paid to officers and to every stockholder owning more than five percent of the issued capital stock. For taxable years beginning on or after July 1, 1996 and before July 1, 1998, the amount of officer compensation added is reduced to 75% (50% for years beginning on or after July 1, 1998 and before July 1, 1999, and 0% for years beginning after June 30, 1999) of the salaries and compensation paid, unless the officer was a more than five percent stockholder at any time during the taxable year.
- deduct from such total the statutory exemption amount, which is \$15,000 for taxable years beginning before July 1, 1997, \$30,000 for taxable years beginning on or after July 1, 1997 and before July 1, 1998, and \$40,000 for taxable years beginning on or after July 1, 1998 (a proportionate part is deducted in the case of a return for less than a year);
- multiply the resulting total by 30%. (Apply allocation percentage where applicable.)

The alternative tax base is computed based on revised entire net income (entire net income per original return plus or minus change in taxable income).

LINE 5b - ALTERNATIVE TAX

To determine the alternative tax, apply the appropriate tax rate shown in the schedule above to the tax base determined in line 5a.
