Dear fellow New Yorkers,

As I have said many times before, food is fundamental to individual, community, and planetary health. Food plays a critical role in everyday life and makes New York City the vibrant and diverse place that we know and love. Under the leadership of Mayor Eric Adams, the City of New York is centering food as a key priority across a range of City policies, from climate action to chronic disease prevention with an emphasis on ensuring that all New Yorkers have access to healthy, delicious, and plant-forward foods.

The Food Metrics Report 2022 provides a snapshot of food and nutrition programs provided by City agencies to communities across all five boroughs. It also measures agency compliance to the City’s Standards for Meals and Snacks Purchased and Served by City agencies. Fiscal Year 2022, spanning from July 1, 2021, through June 30, 2022, marked the return of in-person programming and meal provision for many City agencies and partners. It also marked the end of one Mayoral administration and the start of another. Similar to prior reports, it should be noted that the Food Metrics Report captures outputs rather than outcomes.

Every New York City agency and mayoral office is committed to reaching a more equitable, sustainable, and healthy food system over the coming years. From the first days of this Administration, the City has been on a path to advance the goals of Food Forward NYC, the City’s 10 Year Food Policy Plan.
We are reducing the City’s food-related carbon emissions by increasing the supply of plant-based meals for all New Yorkers served by City programs. We have introduced expanded and improved plant-powered options in all public schools; made plant-based meals the default in our public hospitals; reimagined the City’s emergency food distribution program based on community feedback to include fresh produce for the first time in its history; and we are rolling out six new NYC Health + Hospital Plant-Based Lifestyle Medicine clinics. And we are just warming up!

I would like to thank Mayor Eric Adams, our Deputy Mayors, and the many Commissioners and agency staff that support the policies and services that advance our food system to better promote the health of all New Yorkers and our planet.

KATE MACKENZIE MS RD
EXECUTIVE DIRECTOR,
NYC MAYORS OFFICE OF FOOD POLICY
Food insecurity is the lack of access, at times, to enough nutritionally adequate food for an active, healthy life for all members of a household. Food insecure families may worry that food will run out before they have enough money to buy more, eat less than they should, or be unable to afford to eat balanced meals. New York City is working towards becoming a city where everyone has enough nutritious food to eat, through a range of initiatives in partnership with community-based and nonprofit organizations. Understanding that poverty is the root cause of food insecurity, New York City has taken action to increase New Yorkers’ earning potential. Each year, the City designates tax-levied dollars for the City’s own emergency food program, making New York City a leader in prioritizing food access for those most in need.
## Indicator: Food Insecurity

Prior to the COVID-19 pandemic, the City’s food insecurity rate had steadily declined over the past several years and in 2019 the number of food insecure New Yorkers was just over 1M individuals. However, much of this progress was upended by the pandemic. The latest data available from Feeding America indicates that **14.6% or over 1.2M New Yorkers experience food insecurity**.¹

More recent data from the New City Department of Health and Mental Hygiene’s 2021 Community Health Survey shows that **more than a third of NYC adults (approximately 2.2 million people) lived in a household at risk for food insecurity in 2021**.² Prevalence of household food insecurity risk, measured by the 2-item Hunger Vital Sign,³ was higher among females, non-White New Yorkers, and those born outside the US.²

³ Prevalence of household food insecurity risk, measured by the 2-item Hunger Vital Sign, was higher among females, non-White New Yorkers, and those born outside the US.
Supply Gap

Several years ago, the Mayor's Office of Food Policy (MOFP) partnered with emergency food providers to develop a more robust metric, the “Supply Gap,” that tracks neighborhood-by-neighborhood levels of unmet food need, alongside the various supplies of food going into each neighborhood. At a high-level the Supply Gap is simply the difference between the raw neighborhood need for emergency food and the supply of emergency food going into a neighborhood.

When the pandemic hit, MOFP enhanced the Supply Gap metric to meet the moment, by adding new COVID-specific supplies of food and layering in data on critical nuances, such as real-time neighborhood-level unemployment rates and the presence of undocumented populations that were ineligible for or afraid to access public aid.

The City uses this data to inform policymakers and food distributors about where additional food is most needed, how much is needed, and how incremental deliveries could help to close the gap. The Supply Gap map can be found at nyc.gov/supplygap.

*darker shading indicates higher level of need*
Emergency Food Assistance Program

The Human Resources Administration’s (HRA) Emergency Food Assistance Program* (EFAP) seeks to improve the nutrition of New Yorkers who are experiencing food insecurity. It does this by providing nutritious food to emergency food programs (food pantries and community kitchens). Food items meet the NYC Food Standards and are selected based on the nutritional, cultural, and dietary needs of the diverse communities of NYC.

The City of New York has made it a priority to invest City Tax-Levied dollars into emergency food assistance, thereby continuing to support the provision of food and funding to providers. We remain committed to supporting the city’s emergency food providers with purchases of nutritious food and are working to connect food insecure New Yorkers with food assistance benefits. In FY 2022, EFAP distributed 17,755,087 lbs. of shelf stable and frozen foods. Through the City’s Pandemic Food Reserved Emergency Distribution (PFRED) program the City also distributed 55,551,690 lbs. of food including fresh fruits and vegetables and a culturally relevant food.

Since the start of FY 2023, the City is now factoring in results of the Supply Gap analysis into allocations for pantries participating in Community Food Connection (formerly known as EFAP). This will allow for more equitable distribution of emergency food across the city.

SNAP

The Supplemental Nutrition Assistance Program (SNAP) program serves over 1.6 million New York City, or 20 percent of the population on average each month.

SNAP Recipients FY 2022 Monthly Average
Source: NYC Human Resources Administration

* As September 2022, the Emergency Food Assistance Program was relaunched and re-branded as Community Food Connection (CFC)
SNAP Benefits for Older Adults

Since September 2014, the Benefits Data Trust (BDT) and DSS partnership has sought to create systemic changes for public benefits access, focusing on widely available benefit programs across the five boroughs of NYC and those that research has shown improve health, education, employment and/or mobility. While the program has expanded to support people of all ages with SNAP application assistance, the focus of helping low-income, older New Yorkers access multiple benefits such as health insurance, rent freeze programs and heating assistance, remains a priority. The Department for the Aging (NYC Aging) also includes a SNAP evaluation in their intake form. The average monthly number of SNAP recipients aged 65 and older for FY 2022 is 368,224.

SNAP Outreach Programs

HRA’s Supplemental Nutrition Assistance Program (SNAP) Support Services educates the public about SNAP benefits to maximize the City’s use of available federal programs to increase the purchasing power of low-income New Yorkers. SNAP Support Services provides SNAP trainings and presentations, prescreens potentially eligible applicants, and assists with the SNAP application process.

HRA has worked to make applying for benefits programs easy and accessible to all New Yorkers through the ACCESS HRA. Clients and members of the public interacting with HRA and the Department of Social Services (DSS) can access information and services in multiple languages online, in person, or telephonically. The Access HRA mobile app is also available in seven languages and provides access to clients’ HRA cases.

The Department of Social Services (DSS) Office of Advocacy and Outreach (OAO) conducts targeted outreach campaigns to organizations serving specific populations, including older adults, LGBTQI, persons with disabilities and immigrant communities, to expand benefits access to SNAP benefits through ACCESS HRA. OAO conducts presentations and attends resource fairs, farmers markets, and other events to promote SNAP awareness and increase engagement. In Federal FY 2022, the budget for the SNAP Outreach Services was $3.8 million.
PART 2.
IMPROVING CITY FOOD PROCUREMENT AND SERVICE
Agency Meals and Food Standards

Each year New York City spends over $300 million dollars on food expenditures. The City of New York uses the scale of its food procurement and food service programs to purchase and provide food that meets high nutrition standards, and wherever possible, aligns with the Good Food Purchasing framework.

The Mayor’s Office of Food Policy oversees a Good Food Purchasing initiative for City agencies that procure and serve food to improve the institutional plate through the values set forth in the Good Food Purchasing framework. The value categories for procurement action include nutrition, environmental sustainability, valued workforce, animal welfare, and local economies. New York City has existing frameworks, including the NYC Food Standards, through which City agencies have been working for many years to advance healthy procurement practices. The Good Food Purchasing framework continues to be integrated into ongoing strategies to further advance our values of healthy food for people and the planet through procurement and provision to New Yorkers.

The Agency Standards for Meals and Snacks Purchased and Served (NYC Food Standards) are evidence-based nutrition criteria mandated by Mayoral Executive Order since 2008 for all City agencies and their sub-contractors. Mayor Adams signed Executive Order 8 on February 10, 2022, reaffirming the NYC Food Standards and committing the City to the Good Food Purchasing framework. The NYC Food Standards are an integral part of the City’s effort to increase access to healthy foods by improving the nutritional quality of food served in City programs. They help to combat some of the structural inequities that make healthy eating inaccessible for those with limited resources by ensuring that any New Yorker accessing meals or snacks from City agencies and their sub-contractors will be served more nutritious foods.
To keep abreast with emerging guidelines, research and nutritional science, the NYC Food Standards are reviewed and revised at least once every three years. The last round of revisions took place in 2017 and due to the COVID-19 pandemic, the revision process was delayed. The City released updated NYC Food Standards on April 1, 2022 which include: a new added sugar limit requiring less than 10% of calories served daily come from added sugars, a lower daily sodium limit for youth, a new requirement for half of all grains served daily to be whole grain, a new requirement for offering whole or minimally processed plant-proteins, a new limit for beef and processed meat, and a new requirement for agencies to solicit client feedback regarding cultural preferences, taste, and food quality. Compliance with the updated NYC Food Standards will go into effect on July 1, 2023.

Prior to the COVID-19 pandemic, the NYC Food Standards applied to approximately 230 million meals and snacks served per year in 11 City agencies, and across a variety of settings, including schools, older adult centers, homeless shelters, public hospitals and care facilities, childcare centers, after school programs, and correctional facilities. From July 2021 to June 2022, City agencies served over 192 million meals and snacks including more than 144 million meals and snacks in schools. Due to COVID-19, program closures and shifts in meal service continue to be reported across agencies. As a result, the number of meals and snacks served continues to be lower than prior to the pandemic, though has steadily increased since FY 2020.

From July 2021 through June 2022, agencies had an average compliance of 94% with the NYC Food Standards. See Appendix G for full data on Agency Food Standards.
DOE Food Service

The Department of Education, Office of Food and Nutrition Services (OFNS) ended emergency community feeding at the beginning of school year in September 2021. All students returned to school for in-person instruction and remote learning options ended. In addition, all Department of Education offices were reopened in preparation for the students to return to the school. A modified meal service occurred for all food programs, from September 2021 until April 2022, to maintain social distancing rules and minimize the spread of the COVID-19 infections. Almost all schools had meals served in classrooms or from multiple grab and go stations in hallways, so students could consume their meal at desks during instructional time. School schedules were adjusted to allow for students to eat in the classroom under the supervision of their teacher. This meant virtually none of the schools utilized the cafeterias for meal service. Fully packaged grab and go meals were being delivered to students in their classrooms, daily.

Despite the various service models, OFNS continued to offer meals that exceeded the USDA standards and strive to meet all NYC Food Standards. OFNS did not ask for meal pattern waivers offered by the State Department of Education and continued working on enhancing meal service throughout the year. OFNS offered composed salads weekly, reduced and eventually eliminated juice being offered, maintained the City’s commitment to reduce beef and increase whole grain rich breads and grains. OFNS upgraded its two vegetarian days (Mondays and Fridays) to one vegetarian day (Monday) and one Plant Powered menu day (Friday). These Friday plant based recipes were made from scratch in each of our kitchens helping to further the goal of increasing scratch cooking whenever feasible. OFNS also continued its work towards differentiating the meal experience for our Elementary students from Secondary (JH/MS and HS) students with the expansion of the Cafeteria Experience Enhancement program. Six Secondary schools received a cafeteria and service line makeover allowing for a more sophisticated meal experience including self-service lines that dramatically reduce wait times.

Towards the end of the 2021/22 school year the pandemic became more manageable, and rules were updated to allow for students to return to the cafeterias in April 2022. Returning to the serving line and eating in the cafeterias was presented as an option to principals.
Many principals took advantage of this opportunity to allow students to experience a hot meal service from the line. This was because some schools could not adjust their overall staff programs and schedules to allow for students to have a traditional, supervised, lunch period in the cafeteria. From April to June, OFNS introduced more menu options and implemented the first city wide Plastic Free Lunch Day on May 16, 2022.

Regardless of the challenges faced by OFNS such as; staffing shortages, difficulty recruiting and hiring talented staff, continued supply chain disruptions and transitions in leadership at the mayoral and Department of Education levels, OFNS maintained high quality service, innovated service models, and served over 44 million breakfasts, 86 million lunches and 13 million after-school meals for a total of over 144 million meals this year. *

**Bottled Water Expenditures**

DCAS purchases bottled water primarily for routine service to agency offices in multiple City-owned or leased facilities throughout the city. DCAS expenditures on water for FY 2022 were $638,773 for bottled water in 5-gallon demijohn (including cooler rental) and $185,086 for single serve bottles.

**Salad in Public Hospitals**

NYC Health + Hospitals offers prepackaged and prepared salads to order at on-site food vendors in nine facilities: in Manhattan at Bellevue Hospital; in the Bronx at Jacobi Hospital, Lincoln Hospital, and North Central Bronx; in Queens at Queens and Elmhurst Hospitals; and in Brooklyn at Kings County, Coney Island, and Woodhull Hospitals.

*Note: OFNS metrics for this FY 2022 continued to be affected by the many variables described above and is not comparable to prior years. The last stable service year was in School Year 2018/19.*
PART 3. INCREASING HEALTHY FOOD ACCESS AND AWARENESS

Historical and ongoing racist and discriminatory policies and practices on the part of government among others, have created deep inequities that shape where New Yorkers live and go to school, what jobs they have, and what their neighborhoods look like, including their access to affordable healthy food. This inequitable distribution of resources and opportunities for health influences New Yorkers’ consumption of fruits, vegetables, and sugary drinks, contributing to unfair differences in diet-related disease outcomes among the New York City population. The COVID-19 pandemic may have further exacerbated differences in consumption since 2020. New York City’s work to improve healthy food access and lower consumption of unhealthy products like sugary drinks aims to address the differences in health outcomes and opportunities between neighborhoods and groups of people.
Indicator: Fruit and Vegetable Consumption

The City’s work to improve access to nutritious food includes initiatives to increase healthy options at retail stores, increase New Yorkers’ purchasing power for fruits and vegetables at farmers markets and grocery stores, and provide education and resources for preparing balanced meals at home. Eating fruits and vegetables every day can lower the risk of heart disease and possibly some cancers. In 2021, mean adult fruit and vegetable consumption was 2.0 cups, less than half of the recommended 5 cups daily. Cost remains one of the biggest barriers to shopping for and preparing foods that are part of a healthy diet for people with lower incomes. New York City adults residing in households with the highest income levels (400+% of the federal poverty level [FPL]) consumed significantly more fruits and vegetables (2.1 cups) than those residing in households with low income (<200% FPL: 1.8 cups).

Indicator: Sugary Drink Consumption

The New York City Department of Health and Mental Hygiene (DOHMH) has implemented many strategies aimed at reducing sugary drink consumption among New Yorkers, including media campaigns, nutrition education, programs to make healthy beverages more accessible and unhealthy beverages less ubiquitous, and policies to ensure sugary drinks are not served to children in schools and child care centers.

As part of Take Care New York 2020, the DOHMH set a goal to reduce the percent of adult New Yorkers who consume one or more sugary drinks per day to 19% by 2020. Among New York City adults, there was a steady decline in sugary drink consumption (defined as one or more sugary drinks per day) between 2007 (36%) and 2013 (23%); however, the prevalence stagnated in more recent years (22% in 2020). In 2021, 22% of NYC adults consumed one or more sugary drinks per day. Sugary drink consumption is influenced by a variety of systemic practices including disproportionate, targeted marketing of unhealthy foods and beverages to Black and Hispanic populations and policies that divest from communities of color and result in unequal access to healthy foods. Together these racist, unjust, and avoidable practices and policies create environments that disproportionately advantage White and higher income populations in opportunities to achieve and maintain health and contribute to inequities in consumption. Sugary drink consumption was higher among Black and Latino adult New Yorkers than among White and Asian/Pacific Islander residents 2021, Black: 28%, Latino: 32%, White: 12%, Asian/Pacific Islander: 16%).
There are also inequities in sugary drink consumption among children in NYC with higher rates among Black and Latino children than White children (In 2021, Black: 29%, Latino: 26%, White: 12%). Among the youngest New Yorkers (ages 1 to 4 years), Black and Latino children had about three times higher rates of sugary drink consumption than White children (In 2021, Black: 18%, Latino: 17%, White: 6%).

These differences in fruit and vegetable and sugary drink consumption, as well as inequities in associated diet-related diseases are not the result of personal responsibility alone. Racist and socially unjust policies and practices shape the food supply and environment and thus the resources for healthy eating to which New Yorkers have access.

**City-Sponsored Nutrition Education Programs**

The New York City Department of Health and Mental Hygiene (DOHMH) aims to promote and make easier healthy dietary behaviors, particularly in communities at risk for poorer health outcomes. DOHMH’s programs combine direct education to build on New Yorkers’ nutrition and culinary knowledge and skills with environmental supports to make choosing healthy foods easier.

**Farmers Market Based Nutrition Education**

DOHMH’s Stellar Farmers Market program provides free, bilingual nutrition workshops and cooking demonstrations for adults at select farmers markets that serve low-income communities across the city. These activities promote the benefits of a diet rich in fruits and vegetables and empower New Yorkers to prepare healthy meals using fresh produce. Over 16,380 workshops and cooking demonstrations have been held, reaching nearly 390,700 participants since the program’s inception in 2009. Starting in 2020, all in-person workshops at farmers markets were canceled due to the COVID-19 pandemic. In place of in-person programming, the Stellar Farmers Market program conducted 66 virtual nutrition workshops and cooking demonstrations reaching 1,084 participants in FY 2022.
Stellar Farmers Market program funding for FY 2022 was $487,535 and was provided by the United States Department of Agriculture’s (USDA) SNAP Nutrition Education and Obesity Prevention program (SNAP-Ed), through a contract with the New York State Department of Health.

In addition, to build capacity among community-based organizations for conducting nutrition education programming, DOHMH provided support and technical assistance to community organizations to conduct nutrition education at farmers markets and other food distribution sites. Four community organizations conducted 127 workshops collectively for over 6,800 participants. $50,000 in funding for this program was obtained through City Tax Levy dollars.

**Child Care-Based Nutrition Education**

Eat Well Play Hard in Child Care Settings (EWHCCS) employs registered dietitians from DOHMH to support childcare centers with creating and enhancing environments that support healthy eating and physical activity practices. Dietitians provide technical assistance on menu improvements and nutrition policy development. They also provide nutrition training and workshops to childcare staff, parents, and children in centers serving families with low incomes.

EWHCCS has worked with 610 childcare centers and has reached over 101,560 children, parents, and staff since its inception in 2008. Funding for FY 2022 was $1,288,800 and was provided by the United States Department of Agriculture’s (USDA) SNAP Nutrition Education and Obesity Prevention program (SNAP-Ed), through a contract with the New York State Department of Health.
EWPHCCS also implements the Farm to Preschool Program, which connects childcare centers to sites selling fresh, locally grown fruits and vegetables. This allows families to purchase local produce and gives childcare centers the opportunity to purchase local produce wholesale to incorporate into meals and snacks served to children more easily. The program also helps young children develop healthy eating habits early on, by supporting gardening at the centers and by providing on-site nutrition education and cooking demonstrations for parents, staff, and community members. In FY 2022, DOHMH provided over 120 workshops to 328 participants. Seven preschools participated from across the city in FY 2022.

**Neighborhood-Based Nutrition Education**

Funding for the Bronx Neighborhood Action Centers in FY 2022 was $186,072 (CTL). Funding for the Brooklyn Neighborhood Action Centers in FY 2022 was $53,285 (CTL) and $70,200 (Grants). Funding for the Harlem Neighborhood Health Action Centers in FY 2022 was $116,502 (CTL) and $150,451 (Grants).

**Nutrition Programs for the Older Adults**

The NYC Department for the Aging (NYC Aging) funds 276 older adult centers, 40-plus affiliated sites, and 22 home delivered meal programs. NYC Aging nutritionists review and approve menus served at these programs, ensuring that meals are nutritious and compliant with city, state, and federal nutrition guidelines. NYC Aging nutritionists also oversee the food safety of meals served at these programs and provide technical assistance. This year NYC Aging’s home delivered meal programs increased the number of cultural meal options offered to clients.

NYC Aging provides individual nutrition counseling to clients referred by NYC Aging-funded older adult centers and home delivered meal programs. From July 1, 2021, to June 30, 2022, nearly 800 hours of nutrition counseling were provided via telephone.

In July 2021, through its partnership with the annual Senior Farmer’s Market Nutrition Program, NYC Aging distributed approximately 46,000 coupons valued at $920,000 in total. 350 older adult centers and NORCs throughout the five boroughs served as coupon distribution sites.
According to the NYS Department of Agriculture, which oversees the program, NYC Aging’s redemption rate for 2021 was approximately 67%, meaning more than 30,000 eligible older New Yorkers received the coupons and redeemed them for locally grown fruits, vegetables, honey and herbs at farmers markets and stands across the City.

NYC Aging was awarded the SNAP-Ed (SHINE) Grant for the 4th year. The grant year runs from October 1, 2021, to September 30, 2022. As of June 2022, a total of 134 virtual nutrition education workshops were conducted with a total of 800 unduplicated participants. In the summer of 2021, the grant implemented a Pot Gardening Project whereby 1,200 older adults received an herbal plant to grow at home and attended virtual workshops to learn how to grow and use the plant for healthy cooking. A total of 4 live cooking demonstrations were held via Zoom this year with a total of 70 live participants. The recipes were: Summer Rolls (in Cantonese), Pasta Salad (in Spanish) and Mediterranean Chicken (in English) and White Bean Salad (in English). The grant also created a quarterly Nutrition Education Newsletter which were distributed to all NYC Aging providers and members. Topics included Health Benefits of Nuts, Winter Squash, Spring Produce, and Summer Produce. Nutrition counseling was provided to 98 older adults, covering topics such as healthy proteins, the benefits of fruits and veggies, hydration, and reducing sodium.

In September of 2020, NYC Aging received a 3-year grant award from ACL for innovative programming. Services of the Virtual Smart Living Initiative include virtual individual nutrition counseling, nutrition education groups, virtual live cooking demonstrations, Senior Tech Watch (a virtual group which teaches older adults how to use technology to manage their health and to lead a healthy lifestyle), and Do More Feel Better (a virtual mental health intervention led by peer coaches). Through FY 2022, a total of 316 unduplicated clients received nutrition counseling sessions via Zoom; 13 live cooking demonstrations were held with a total of 2,890 live participants and 917 views of recorded sessions; 4 nutrition workshop sessions were held with 174 participants; 13 older adults completed a 10-week series of Senior Tech Watch group in which participants learned how to use the My Plate app to achieve healthy eating; and 15 clients received mental health intervention in the Do More Feel Better program.
Farmers Markets

Farmers markets play an important role in addressing inequities in access to healthy foods by providing an additional healthy retail outlet in the neighborhoods they serve. They connect consumers to local and regional farmers and producers that provide farm fresh produce, dairy, meats, and other goods. In New York City, there are a number of programs that help consumers increase their purchasing power at farmers markets, such as SNAP, WIC, the Senior Farmers Market Nutrition Program at the federal level, and Health Bucks at the local level. There were 135 farmers markets across the five boroughs in FY 2022. Approximately 130* of these markets accepted EBT.

GrowNYC is the largest operator of farmers markets in the city. Its 50 Greenmarkets are located throughout the five boroughs. A list of the number of Greenmarkets in NYC, as well as the average number of producers at each market sorted by borough, see appendix J.

Beginning February 2021, all GrowNYC Greenmarkets, Farmstands, and Fresh Food Box sites began accepting the Healthfirst Over the Counter (OTC) Healthy Food benefits. This program, designed for people with Medicare and Medicaid who require long-term care services, provides eligible members with a monthly benefit to spend on approved food items such as fresh fruits, vegetables, meats, poultry, seafood, eggs, beans, and dairy. In FY 2022, GrowNYC sites had 5,814 OTC transactions, totaling $225,848 in OTC sales. In partnership with the City University of New York (CUNY), GrowNYC operated 6 brand new sites that disturbed over 13,500 free bags of fresh fruits and vegetables to college students and staff.

* Note: The total number of open markets fluctuates throughout the season,
GrowNYC Emergency Food Access Report

During the COVID-19 pandemic, GrowNYC was funded by DSNY to perform essential food access services to protect the health and safety of all New Yorkers. GrowNYC was provided with the resources to operate all their food access programs (Greenmarket, Farmstand, Fresh Food Box) with COVID-19 safety measures such as line control, sanitizing stations, and greater access to free local produce. They also opened more Farmstands and established an Emergency Fresh Food Box program that serviced low income New Yorkers who were unemployed or struggling with the pandemic in high need neighborhoods.

Greenmarket Program, 7/1/2021 – 6/30/2022
• 50 Greenmarket Sites Operating
• 2,743 Greenmarkets Open Days
• 151,249 Greenmarket SNAP Transactions

Farmstand Program, 7/1/2021 – 6/30/2022
• 16 Farmstands Operating
• 371 Farmstand Open Days
• 4,691 Farmstand SNAP Transactions

Farmstand Produce Distributed, 7/1/2021 – 6/30/2022
• 350 Donations to Emergency Feeding Programs
• 45,917 Pounds Donated to Emergency Feeding Programs

Fresh Food Box Program, 7/1/2021 – 6/30/2022
• 8 Fresh Food Box Distribution Sites Operating
• 301 Fresh Food Box Distributions Days
• 24,729 Fresh Food Boxes Distributed
• 5,407 Fresh Food Box SNAP Transactions

CUNY Fresh Food Box Program, 5/1/2022 – 6/29/2022
• 6 Fresh Food Box Distribution Sites Operating at CUNY Locations
• 19 Fresh Food Box Distributions Days at CUNY Locations
• 1771 Fresh Food Boxes Distributed at CUNY Locations

Governors Island Farm Program, 7/1/2021 – 6/30/2022
• 10,351 pounds of Governors Island Produce Distributed (Free)
Health Bucks

Health Bucks are two-dollar coupons that are redeemable for fresh fruits and vegetables at all NYC farmers markets year-round. They provide New Yorkers with low incomes additional purchasing power to buy fresh, locally grown produce at all 135 farmers markets across NYC. In 2021, Health Bucks were distributed as a SNAP incentive, through community-based organizations as part of nutrition and health programming, as part of a fruit and vegetable prescription program, and by elected officials and organizations that purchased the coupons. In September 2020, the Health Department was awarded a $5.5M grant through the United States Department of Agriculture’s Gus Schumacher Nutrition Incentive Program (GusNIP). As of January 2021, customers receive $2 in Health Bucks for every $2 spent in SNAP benefits up to $10 in Health Bucks per day.

In 2021, nearly 750,000 Health Bucks were distributed at 113 farmers markets as a SNAP incentive, over 129,000 Health Bucks were distributed by more than 530 programs at community-based organizations and over 10,000 Health Bucks were distributed through a pharmacy-based fruit and vegetable prescription pilot program. Over 163,000 Health Bucks were purchased and distributed by 18 organizations and elected officials. In total, over 1,052,000 Health Bucks, worth more than $2,104,000 in fruits and vegetables, were distributed, putting fresh, locally grown produce into the hands of thousands of New Yorkers with low incomes. Health Bucks have continued to be distributed as a SNAP incentive at participating farmers markets since the beginning of and throughout the COVID-19 pandemic in NYC.

Half Off Farm Box

Half Off Farm Box offers a 50% discount on SNAP purchases of preassembled boxes of fresh, locally grown fruits and vegetables. Customers order their box one week in advance at participating food box and farm share sites and receive a 50% discount when they pay with their EBT card. In FY 2022, over 9,000 discounted boxes were distributed across 24 sites, providing more than $54,000 in discounts to New Yorkers with low incomes.

Get the Good Stuff

The Get the Good Stuff program offers a dollar-for-dollar match on purchases of eligible fruits, vegetables, and beans by New Yorkers with SNAP benefits at participating stores. For every $1 spent in SNAP benefits on eligible fresh, frozen, canned, and dried fruits, vegetables, and beans, customers enrolled in the program get $1 added to a program loyalty card, up to $10 per day, to purchase more eligible foods. In FY 2022, customers participating in the program redeemed over $798,000 worth of fruits, vegetables, and beans.
**Green Carts**

Green Carts are food carts and trucks that offer fresh fruits and vegetables and other healthy foods in neighborhoods that lacked access to fresh produce. As of December 2022, there were almost 200 Green Carts authorized to operate in the City, of which 5 may be using EBT machines. The Local Law allows up to 1,000 Green Carts, and the Department is currently offering permits to people on a waiting list established in Fall 2022. For a full list of information on Green Cart permits and EBT machines, see Appendix H. For a list of information on Green Cart violations by location, see Appendix I.

**FRESH**

The Food Retail Expansion to Support Health program (FRESH) was established in 2009 and is administered by the New York City Economic Development Corporation (NYCEDC) and the Department of City Planning.

Every New Yorker deserves access to affordable, healthy food. Food access is also an essential component of neighborhood development. Nonetheless, many low-income areas continue to be underserved by full-scale grocery stores, due to high acquisition, development, and operating costs. The FRESH program can offset these costs by providing zoning and/or financial incentives to eligible grocery store operators and developers.

Between 2009 and July 2022, a total of 48 FRESH zoning and incentives projects have been certified or closed, comprising of 24 projects receiving financial incentives, 20 projects receiving zoning incentives, and 5 projects receiving both financial and zoning incentives. A total of 34 of these projects have been completed and are now open to the public. These approved projects provide, or will provide, over one million square feet of new or renovated grocery store space to New York City. In FY 2022, FRESH supermarkets receiving financial benefits had 1,738 full-time equivalent employees.

For a full list of stores receiving financial benefits through FRESH, see Appendix F.
PART 4. SUPPORTING A RESILIENT AND SUSTAINABLE FOOD SYSTEM

The City of New York is committed to building a more sustainable, resilient, and just food system, in which more of our food comes from regional and local growers, producers, and manufacturers. To achieve those goals, the City is investing in infrastructure to strengthen our regional food system, supporting community-based gardening and greening efforts, healthy eating, community development, and encouraging the growth of local food producers and manufacturers to create good job opportunities in the food sector.
NYC Watershed Agricultural Program

Much of New York City’s drinking water comes from basins in upstate watersheds that include productive farmland. To preserve the quality of its source water, the City’s Department of Environmental Protection (DEP), in partnership with the Watershed Agricultural Council (WAC), promotes the planning and implementation of agricultural best management practices (BMPs) on farms throughout the watershed. The goal of the Watershed Agricultural Program (WAP) is to support well-managed family farms through the development of Whole Farm Plans (WFP) and the implementation of BMPs that advance water quality protection while also promoting rural, economic viability.

Since 1992, the program has developed more than 460 WFPs on watershed farms and implemented over 8,500 BMPs on farms that reduce runoff from agricultural pollution to protect water quality. These management practices are funded by the City in the form of technical and financial assistance to watershed farmers. In FY 2022, farmers received approximately $603,656 in City financial support, which was used to fund the installation of BMPs such as covered barnyards, manure storage facilities and fencing used to exclude livestock from watercourses on 31 farms covering approximately 10,215 acres of watershed farmland across three counties. For a list of participating farms by county and type, see Appendix B.

Community and School Gardens

NYC Parks GreenThumb

Established in 1978, NYC Parks GreenThumb is proud to be the nation’s largest urban gardening program, assisting over 550 gardens and tens of thousands of volunteer community gardeners throughout New York City. GreenThumb supports and educates community gardens and urban farms through the provision of free land access, materials, technical assistance, public programming, and community engagement while preserving 100 acres of open space across the five boroughs. GreenThumb also serve thousands of New Yorkers who are interested in community-led environmental stewardship through public programming, as well as hundreds of thousands of annual visitors to GreenThumb gardens who enjoy these cherished public open spaces.
The continued success of community gardens is at the forefront of GreenThumb’s mission, and it is proud to continue supporting gardeners and farmers as we recover from the ongoing global pandemic. In 2021, GreenThumb added three new gardens to its portfolio and completed significant upgrades and renovations at community gardens. During the course of the year, GreenThumb delivered more than 300,000 seeds and 100,000 plants to gardens across the five boroughs and assisted in the renovation of 24 community gardens, adding hundreds of raised garden beds, and more than 7,000 cubic yards of compost and soil. In addition, more than 20 gardens have registered to be part of the GreenThumb Community Gardens at NYCHA partnership.

Through this partnership, GreenThumb will be able to make improvements and provide ongoing support to 50 community gardens in 50 developments. GreenThumb has revitalized approximately 5 acres of land by improving the layout, design and accessibility of gardens, reconstructing planting beds and expanding growing areas for food production, and engaging NYCHA residents as well as the broader community in urban agriculture and healthy living. By maximizing City’s land, this partnership benefits local residents by increasing the proximity to open and green space, food production, wellness education, and foster a deeper sense of community.

Our community gardens are protected, thriving community focal points, and GreenThumb continues to champion their success now and into the future in partnership with our volunteer gardeners. For a list of registered GreenThumb community gardens, see Appendix C.

**GrowNYC School Gardens**

GrowNYC School Gardens, in partnership with NYC Parks GreenThumb and the Department of Education, inspires, facilitates, and promotes the creation of a garden in every public school in New York City. Schools can work directly with GrowNYC School Gardens to ensure that their garden programs are sustainable, responsive to their communities, and transformative for student learning in the cafeteria, the classroom and beyond. The citywide school garden initiative provides material and financial support to get schools growing, provides technical and professional development support to school gardeners, and makes the scale of New York City manageable by bringing together partnerships and resources into one convenient central location. In FY 2022, over 800 schools had garden projects with GrowNYC School Gardens.

For a list of registered GrowNYC School Gardens, see Appendix D. It is important to note that this list includes only includes schools who have self-registered with GrowNYC since 2011 when the School Gardens program was founded. It does not document all school gardening initiatives citywide. The City is aware of and grateful to the many additional community partners and organizations who have helped to developed and supported these initiatives.
New York City Farm to School

With the support of the NYC DOE’s Office of Food and Nutrition Services, the NYC Farm to School Program (NYCFTS), formerly Garden to Café, helps develop a student’s curiosity about food, nutrition, and the various ways food can be grown, through school gardens, lunchtime tastings, and classroom lessons. The program currently has over 140 schools registered, serving 73,517 students. Farm to School works with NYC’s public and charter schools in all five boroughs, from elementary to high school, including students with special needs (D75 and those who are at-risk (D79).

Our work with the American Farmland Trust’s Farm to Institute New York State has also supported this initiative with the creation of a Farm to School team with the NYC Department of Education. The goals of the FTS team include: 1) increasing the volume and variety of local farm products procured by the Office of Food and Nutrition Services; 2) encouraging an ever-increasing demand of fresh fruits and vegetables from our students citywide; and 3) continue building a learning connection and partnerships between NYS farmers and NYC schools.

Farms at NYCHA

Farms at NYCHA is an urban agriculture initiative grounded in public housing resident leadership and community partnership. The program is a collaboration between NYCHA, citywide and neighborhood-based nonprofits, and City government partners including the Mayor’s Office of Urban Agriculture to expand healthy food access, provide youth workforce and leadership development, and create more sustainable and connected public housing communities. Farms at NYCHA has a network of nine farms on NYCHA land operated by four partners that engage residents (with a particular focus on youth and young adults) to design, build, cultivate and program farm sites.

Green City Force is the lead CBO partner and operates six urban farms as “Eco-Hubs.” These sites are constructed by 18-to 24-year-old NYCHA resident AmeriCorps Members who cultivate fresh produce and build sustainable green infrastructure. Since the project’s inception Green City Force has distributed over 150,000 pounds of organic fresh produce.
In 2022, Farms at NYCHA grew with the addition of new farms at Astoria and Castle Hill Houses. By 2025, NYCHA will establish six additional food production hubs to achieve the goal of 15 farms. Each farm will produce and distribute an average of 5,000 pounds of fresh produce a year and deliver layered health and wellness programming. To support these efforts, the City is investing $7.1 M over three fiscal years. Partners will leverage additional public and private funding sources to bolster the City’s investment in farm builds and activation.

NYCHA and its partners are at the vanguard of urban agriculture initiatives that are tied to affordable housing and grounded in equity.
Food Manufacturing

NYCEDC supports the role of the food importing, manufacturing, and distribution sectors in growing and diversifying New York City’s economy. With a huge market base, the nation’s largest food distribution center, a strong network of food incubators, and programs for training, funding, and space, these sectors create job opportunities for New Yorkers and are a vital part of our economy. The Brooklyn Army Terminal’s 4 million square foot modern industrial campus is home to established and growth-stage food companies, such as Jacques Torres Chocolate, The Konery, MOMO Dressing, City Saucery, Green Mustache, Luxury Gourmet Sweets, Saedico, Norwegian Baked, Li-Lac Chocolates, We Are the New Farmers, and RIND.

Additionally, NYCEDC provides financial incentives to businesses operating in the food importing, manufacturing, and distribution sectors through the New York City Industrial Development Agency (NYCIDA) and the Accelerated Sales Tax Exemption Program (ASTEP). These programs lower the cost of real estate and/or the purchasing of equipment and furnishings, allowing businesses to gain a foothold in the competitive New York market or expand their existing operations. For example, in FY 2022, the NYCIDA supported an Industrial Program Project to finance the acquisition, construction, renovation, furnishing and equipping of an existing 15,749 square foot building located in the East Williamsburg neighborhood of Brooklyn, operated by Best Choice Trading Corporation, a family-owned and operated wholesale distributor of frozen fish and seafood. Best Choice Trading Corporation was originally founded in the basement of a family member’s restaurant in 1991. The company has expanded four times since and the closing of this deal will mark their fifth expansion. The new facility allows Best Choice Trading Corporation to better serve as a “one-stop-shop” for its customers which include restaurants as well as other food distributors and wholesalers. The facility is projected to employ 16 full-time equivalent employees by its third year of operations. During FY 2021, NYCEDC also authorized Accelerated Sales Tax Exemption Program (ASTEP) benefits to Oven Artisans Inc., a bakery that makes a variety of artisanal and traditional breads, bagels and sandwich rolls. These benefits allowed Oven Artisans Inc. to save on sales and use taxes for purchases made towards the renovation and equipping of two adjacent production facilities in the Bronx.
During FY 2022, the NYCIDA directly supported 27 companies in the food and beverage manufacturing, distribution, and importing sectors, employing workers. These projects represent $122,469,216 of private investment into New York City. For a full list of projects, see Appendix E.

**Hunts Point Food Distribution Center**

Hunts Point is home to the Hunts Point Food Distribution Center (FDC), which dispenses over 4.5 billion pounds of food each year to 22 million customers in the New York metropolitan region and supports 8,500 direct jobs. The FDC is comprised of over 100 public and private wholesalers, including the Hunts Point Terminal Produce Market, the Hunts Point Cooperative Meat Market, and the New Fulton Fish Market. A food supply study completed by NYCEDC and MOR in 2016 found that the FDC is the largest single geographic cluster of food distribution in NYC by volume. Twenty-five percent of New York City’s produce, 35% of the City’s meat and 45% of the City’s fish through the FDC annually for distribution to independent restaurants, supermarkets, bodegas, and food markets across the five boroughs. The City and NYCEDC are committed to continuing to grow the Hunts Point FDC as a competitive 21st century industrial hub, delivering healthy food and living wage jobs to the City.

NYCEDC is excited to redevelop the Hunts Point Terminal Produce Market, and has been working in partnership with the Hunts Point Terminal Produce Market Cooperative, Teamsters Local 202 Union, community groups, and electeds across all levels of government to redevelop a new facility that achieves the following goals: 1) Protect and strengthen New York City’s food supply chain; 2) Protect and grow the 2,000+ jobs at the produce market; 3) Significantly reduce emissions in the environmental justice neighborhood of Hunts Point; 4) Support the market’s growth and achieve more efficient land use; and 5) Create an archetype for a modern, resilient and compliant urban food distribution center in New York City.

In June 2022, the City and NYCEDC released the Hunts Point Forward vision plan, a community-driven effort to create a comprehensive plan for Hunts Point that represents the key priorities of the residential community and neighboring industrial area to guide future action. Key priorities of this plan include improving residential access to affordable, healthy, and fresh food and connecting FDC businesses to job seekers.
Food and Beverage Industry Partnership

NYC’s food and beverage industry is critical to the city’s economic strength, and vital to its social fabric and status as a global destination.

The NYC Food and Beverage Industry Partnership (F&B IP), at the NYC Department of Small Business Services (SBS), acts as a convener to drive alignment and collaboration among NYC food service sector leadership, operators, chefs, educators, workforce development organizations, service providers, innovators, philanthropy, and city agencies.

The F&B IP works directly with leading industry employers represented by members of its advisory groups - the NYC Hospitality Council and F&B Small Business Roundtable - and industry associations to guide the city’s investment in industry-informed programs and initiatives. They seek to identify new, actionable ways the city can demonstrate its commitment to support food and beverage businesses and workers.

As the city moves beyond the COVID-19 pandemic, the F&B IP continues to work with sister agencies to strengthen and revise much of the policy and coordination originating during that emergency. The team continues to lead monthly interagency meetings focusing on F&B business strength and resiliency. As the process moves forward to create a permanent version of the popular Open Restaurants outdoor dining program, the F&B IP represents the voices of NYC’s F&B owners and operators through each stage of policy and guideline planning.

The F&B IP team supports the business-facing work of SBS by ensuring that services and resources offered continually respond to the priority needs of sector businesses. They provide industry insight and feedback so that SBS teams can even more effectively support business owners in ways that are relevant and timely.

The FIRST COURSE NYC restaurant cook apprenticeship training program (originally developed by the F&B IP in 2018) relaunched in January 2022 after a pandemic-related hiatus. Six training cohorts were successfully delivered across 2022, with additional cohorts led by a new, highly respected program partner, scheduled in 2023. This program provides disadvantaged New Yorkers access to professional culinary training and good jobs and careers in the NYC restaurant industry. The program’s dual-focus approach addresses restaurants’ ongoing need for qualified entry-level cooks by developing the talent they seek, and drives improvements in employee onboarding, training, and development, creating a stronger workplace culture that reduces turnover and improve retention.
Zero Waste

Food scraps and yard waste continue to make up about a third of NYC’s waste and tackling this piece of the pie is critical to reaching the City’s zero waste goals. To fulfill this vision, the NYC Department of Sanitation (DSNY) is working to expand opportunities for food scrap and yard waste diversion for residents, schools, city agencies, and businesses.

Residential Composting

In April of 2021, the City announced the return of curbside composting and a doubling of food scrap drop off sites. In addition, the City announced that it would be doubling the number of food scrap drop off sites to provide more opportunities for New Yorkers to compost. Curbside composting returned as a sign-up model. The sign-up model allowed DSNY to identify where interest was for the program around the city, to create more efficient collection routes, and to improve communications with residents. A sign-up form went live in August 2021, and since then tens of thousands of New Yorkers used that form to express their interest and show their support for composting.

Curbside composting routes were established in 7 Community Boards around NYC, including Brooklyn 1, 2, 6, and 7, Manhattan 6 and 7, and Bronx 8. Residents in these community boards can continue to sign up online at nyc.gov/curbsidecomposting or by calling 311 to be added to the program.

Expansion of Curbside Composting outside of community boards currently receiving service is paused until further notice. DSNY is working with the City’s new Administration to evaluate the program and determine the best service model to help New Yorkers divert food waste from landfills.

In FY 2022, the following NYC Compost Project mid-scale compost educational facilities were operational: the Big Reuse Salt Lot and Queensbridge Compost Sites, Earth Matter’s Compost Learning Center, and the LES Ecology Center’s East River Park Compost Yard. These community compost sites processed food scraps and yard waste from the drop-offs. In October 2021, the East River Park Compost Yard closed for the East Side Coastal Resiliency construction project. DSNY initiated the procurement and design of a replacement site in Canarsie.
In FY 2022, DSNY’s network of Food Scrap Drop-off sites grew from 142 sites to 222 sites citywide with the support of funded partners, community organizations, and volunteers. Sites were opened so there was at least one drop-off site in each Community Board by the end of the fiscal year. Additionally, sites opened in FY 2022 were strategically placed across all five boroughs to ensure that there was at least 1 drop-off site/50,000 residents/borough.

In addition to the Food Scrap Drop-off sites, DSNY launched two Smart Compost pilot programs providing NYC residents with 24/7 access to composting, through managed access bins. The goals of this program are to test a new option for New Yorkers to compost their food scraps and food-soiled paper. DSNY is piloting the types of bins used and the model of service overall: 20 Smart Bins were installed in Astoria and 10 were installed in lower Manhattan. The program has shown to be a success, with bins filling daily and great participation. In six months of operation, the two programs have diverted over 70 tons of food waste from landfill.

**Zero Waste Schools**

DSNY’s Zero Waste Schools (ZWS) program, which aims to divert all recyclable and compostable waste in participating schools, has reached more than 140,000 students and over 10,000 teachers, administrators and kitchen and custodial staff. After the COVID-19 related suspension of school organics during the 2020-2021 School Year, school organics was brought back in September of 2021.

Now in its sixth year, the Zero Waste Schools website has continued to grow to include over 900 schools, or 50% of all DOE schools. DSNY’s interactive ZWS website, www.nyc.gov/zws, is a safe, online platform where teachers and students can share their recycling and sustainability projects and ideas. In June of 2021, DSNY provided $20,000 worth of grants to schools conducting sustainability and recycling projects. DSNY is currently working to expand school organics to all school in The Bronx in the 2022-2023 school year.

**Organic Waste from Businesses**

After conducting a survey of regional processing facilities in 2019, DSNY determined that sufficient processing capacity exists to manage the organic waste of the remaining businesses to be covered by rule under Local Law 146 of 2013. DSNY subsequently proposed new rules that were adopted on January 31, 2020.
As of July 31, 2020, the following NYC businesses are required to source separate their organic waste.

- **Food Service Establishments (such as restaurants, delis, coffee shops, cafeterias, etc.)**
  - Food Service Establishments having 7,000 to 14,999 square feet
  - Chain Food Service Establishments of 2 to 99 NYC locations with combined floor area 8,000 square feet or more
  - Food Service Establishments in Hotels having 100 to 149 guest rooms
  - Food Service Establishments with combined floor area 8,000 square feet or more in the same building or location
- **Retail Food Stores (such as supermarkets and grocery stores)**
  - Retail food Stores having 10,000 to 24,999 square feet
  - Chain Retail Food Stores of 3 or more NYC locations with combined floor area 10,000 square feet or more
- **Food Preparation Locations having 6,000 square feet or more**
- **Catering Establishments hosting on-site events to be attended by more than 100 people**
- **Temporary Public Events to be attended by more than 500 people**

**DonateNYC Food Portal**

Launched in March of 2019, the donateNYC Food Portal aims to reduce the amount of edible food sent to landfill by connecting businesses and nonprofits with excess food to organizations that can use or redistribute that food.

As of July 2022, there were 848 businesses, nonprofits, and agencies registered to donate or receive food on the platform. From June 2021 to July 2022, the donateNYC Food Portal successfully diverted 39.84 tons of edible food from landfill by facilitating its donation to recipient organizations across the City.

donateNYC also plays a crucial role in the City’s disaster response plan by assisting with donation coordination when other agencies and nonprofits receive influxes of unsolicited donations during an emergency. During the COVID-19 pandemic, donateNYC took on an even more active role in disaster response by facilitating food donations through the City’s GetFoodNYC Program. GetFoodNYC phased out operations in November 2021, and donateNYC returned to its work of reducing business’s food waste through donations to local community organizations.
ACKNOWLEDGEMENTS

We would like to thank the following City agencies that collected and analyzed data for the Food Metrics Report 2022. We also want to acknowledge and thank the many other external and community partners not covered in this report, including nonprofit-run community farms, school gardens not affiliated with GrowNYC, the hundreds of resident-led gardens, and the growing number of commercial farms and related food businesses and restaurants that provide jobs and high-quality, nutritious food across New York City.

About NYC Food Policy
The Mayor’s Office of Food Policy works to advance the City’s efforts to increase food security, promote access to and awareness of healthy food, and support economic opportunity and environmental sustainability in the food system. To do this, the office coordinates multiple City agencies and offices that work on food programs or policies, as well as partners with the many advocates and nonprofit organizations working in food. For more information about NYC Food Policy, visit nyc.gov/nycfood

### Nutrition Standards (Programs Serving a Majority of Children Under 18 Years of Age)

#### Programs serving 3 meals per day:

- **Serve 1800 – 2200 calories per day (or ≤ 2500 calories per day for agencies serving boys in youth detention facilities):**
  - Serve ≤ 2,200 mg sodium per day (or ≤ 1700 mg for agencies serving a majority of children 1-5 years of age)
  - Total fat ≤ 35% of calories per day
  - Saturated fat < 10% of calories per day
  - Serve ≥ 25 grams fiber per day (or ≥ 19 grams per day for agencies serving a majority of children 1 – 4 years of age)

- **Serve 1800 – 2200 calories per day (or ≤ 2500 calories per day for agencies serving boys in youth detention facilities):**
  - Serve ≤ 2,200 mg sodium per day (or ≤ 1700 mg for agencies serving a majority of children 1-5 years of age)
  - Total fat ≤ 35% of calories per day
  - Saturated fat < 10% of calories per day
  - Serve ≥ 25 grams fiber per day (or ≥ 19 grams per day for agencies serving a majority of children 1 – 4 years of age)

#### Programs serving 1 or 2 meals per day:

- **Breakfast**
  - Serve 450 – 660 calories per breakfast (or 350-600 for agencies participating in the NSLP and NSBP)
  - Serve ≤ 660 mg sodium per breakfast (or ≤ 510 mg for agencies serving a majority of children 1– 5 years of age)
  - Total fat ≤ 35% of calories per breakfast
  - Saturated fat < 10% of calories per breakfast
  - Serve ≥ 6.3 grams fiber per breakfast (or ≥ 4.8 grams for agencies serving a majority of children 1 – 4 years of age)

- **Lunch**
  - Serve 540 – 770 calories per lunch (or 550-850 for agencies participating in the NSLP and NSBP)
  - Serve ≤ 770 mg sodium per lunch (or ≤ 595 mg for agencies serving a majority of children 1– 5 years of age)
  - Total fat ≤ 35% of calories per lunch

</tbody>
</table>

**Average Agency Compliance** ⁵ ²* ⁹ ⁹% ¹ 00%

---

*While the Department of Citywide Administrative Services (DCAS) participates in the implementation of the Standards as purchaser of food for numerous agencies, it does not submit a compliance report as information on items procured by DCAS is captured in the reports of other agencies.

*Information is based on a review of food and beverages purchased and a one month sample of menus and nutrition analysis from any month in the year prior to the report’s publication. Agencies were asked to submit a copy of menus and nutrition analysis to the Health Department for verification. Specifics about each agency’s data source and collection are indicated in assigned footnotes.

1 Compliance data based on a combination of self-report survey and field visits or data collection coordinated by agency staff.
2 Compliance data based on field visits and menu reviews were conducted by agency nutritionists.
3 Compliance data largely based on information submitted by agency program sites and/or program caterers from a self-report survey tool and is not verified; agencies continue to work to enhance processes to assess accuracy of program site and/or caterer self-report and improve data quality going forward.
4 Methods of reporting on meals and snacks purchased/served changed this year, which accounts for the large increase from previous years in number of meals served.
5 All field visits were suspended due to COVID-19. Surveys were sent to providers purchasing and/or serving meals and/or snacks.
6 Agency utilizes centralized menu and food ordering process; information for all locations based on agency assessment of products purchased and menu analysis conducted by agency nutritionists.
7 Programs were exempt from reporting on the nutrient standards.
8 Programs serve meals that are reported by other agencies. Reporting only on meals not counted by other agencies to prevent duplication.
9 Compliance data based on Agency reporting on purchased foods. Agency does not serve meals or snacks.
10 Agency serves snacks only.
## APPENDIX H

### GREEN CARTS PERMITS

<table>
