Why should I create an ACCESS NYC account? Creating an account will allow you to save your screening information and submit applications directly online. Though you can screen for eligibility anonymously, if you create an account, you can also apply or recertify online for certain programs (such as SNAP) through ACCESS NYC.

Do I need to create an account to screen for benefits? Account Creation is NOT required to screen for the benefit programs on ACCESS NYC, but an account lets you save your eligibility information.

When you have an account, you can quickly access your in-progress applications and screening, and also view and print your submission forms.
