

Open Data For All

The City of New York
Mayor Bill de Blasio

Anthony Shorris,
First Deputy Mayor

NYC[®]

COMMISSIONER ANNE ROEST

Department of Information
Technology & Telecommunications

“ At the Department of Information Technology and Telecommunications we work to deliver IT solutions for the people of the greatest city in the world. Few of our initiatives hold the transformative potential of open data – not only to make City government more transparent, but to empower New Yorkers to use open data – their data – to improve their lives.

We’ve seen this in action. From the 170 City data sets DoITT opened for the inaugural NYC BigApps competition in 2009 to the more than 1,350 available today, a thriving ecosystem has grown up around the City’s efforts – students, journalists, businesses and others use City data daily for projects of their own. With our City Council partners we passed the City’s Open Data Law, codifying these gains – and committing to build upon them – for future generations of New Yorkers. This law, and the spirit of collaboration that led to it, continues to inspire our efforts.

Open Data For All represents the next phase in this movement. True engagement, equitable engagement, isn’t only about releasing data, it’s about expanding opportunities for collaboration to all corners of the five boroughs, and providing the public – the tech-savvy and the layperson alike – tools and know-how to fully participate in a data-informed City.

Come join us.

DR. AMEN RA MASHARIKI

Chief Analytics Officer
and Chief Open Platform Officer,
Mayor’s Office of Data Analytics

“ While I was a student at Brooklyn Tech, I majored in computer science. My love for the subject and my ability to succeed in the field were due to the unusual opportunities afforded to me – opportunities not typically extended to folks in my community. My mother introduced me and my siblings to technology early. She was a HR manager at an IBM plant in Brooklyn and had access to the first ever IBM personal computers. Additionally, when I started high school, my mother invested in internet access. Having dial-up service at home was a big deal in the late 1980s. With access to a personal computer and the internet, I was able to engage my curiosity and grow my capabilities in computer science.

These investments opened up a new world to me. As the Chief Analytics Officer and Director of the Mayor’s Office of Data Analytics, I want to help open up new worlds to all New Yorkers. With Open Data for All, we are introducing our vision for Open Data and how it can shape the City and the lives of New Yorkers.

**Open Data
is an invitation for
anyone
anywhere
anytime
to engage
with New York City**

Open Data For All

THE VISION FOR NYC OPEN DATA

Every day, New Yorkers look for NYC Open Data.

Data is created every day by New York City government in the normal course of business. New Yorkers can use this data to make informed decisions, become more engaged in their communities, solve tough problems, or turn their dreams into a reality.

When an entrepreneur decides between opening her dream business on one corner or another, she's looking for a list of business licenses newly issued by DCA and DOHMH, Alt-1 job plan submissions and construction permits from DOB, range hood inspections from FDNY, and zoning shapefiles from DCP. When a journalist searches for information on a tight deadline, he's looking for data sets like collisions from NYPD that quantify results of City initiatives like Vision Zero. When a community board member considers common neighborhood complaints to decide where to invest funds or recommend renewal of a license – she's looking for a list of noise complaints from 311, parking tickets from DOT, and discretionary funding of previous years from City Council.

NYC Open Data is an invitation for anyone, anytime, anywhere to engage with New York City.

NYC Open Data is an invitation for anyone, anytime, anywhere to engage with New York City.

Some of these data sets may have never been released outside a City agency before – or may have previously been available only to those who could pay for particular services – but they are now open to everyone.

The promise of Open Data is transparent, free, accessible data. Data is more than just numbers – it's information that can create new opportunities and level the playing field for New Yorkers. It's the illumination that changes frameworks, the insight that turns impenetrable issues into solvable problems. It's the invitation for more voices to join critical conversations.

Open Data is the commitment that all of these benefits are not confined to only a select few who are in the know, or who can pay for information – they are for everyone.

New York City is dedicated to putting this power into the hands of all New Yorkers.

In conjunction with this year's Open Data Plan release, Open Data for All establishes the City's vision to deliver on the promise of the NYC Open Data initiative to the benefit of all New Yorkers. Open Data for All is our vision of what we can do and what we aim to achieve with Open Data.

Why Open Data?

Data is valuable.

New York City has long recognized this reality. The city's vibrant industries – from fashion to financial services, clean technology to healthcare – leverage data to stay competitive. New York City academic institutions use data to conduct world-class research, develop cutting-edge technology, and train the next generation of innovators and entrepreneurs. Within City government, data sharing across different agencies supports critical operations, improves service delivery, and saves lives.

Open Data is the bold idea that data created by government – and the enormous value contained therein – should be freely accessible to everyone. New York City emerged early as a leader in Open Data and enshrined its commitment in law in 2012, when it passed Local Law 11. This legislation – commonly referred to as New York City's Open Data Law – laid out a vision for Open Data in New York that continues to be unprecedented in its reach.

By law, each City entity must identify and ultimately publish all of its digital public data for citywide aggregation and publication by 2018. The legislation also defines an additional commitment – transparency in process. Every year on July 15th, the NYC Open Data Plan provides an update of the City's progress by listing pertinent City-managed “public data sets” yet to be published along with their anticipated publication dates.

Since its inception, the Mayor's Office of Data Analytics (MODA) has partnered with the Department of Information Technology and Telecommunications (DoITT) to make the Open Data law a reality. Drawing on DoITT's experience in building citywide IT infrastructure, and MODA's leadership in civic analytics, they initiated the identification and release of public data sets, engaged and grew the user base, and kept NYC at the forefront of the international Open Data movement.

Today, the NYC Open Data Portal holds more than 1,350 data sets available for public use. At least 90 new data sets are scheduled to be added to the portal by the end of 2015. There are over 250 remaining data sets on the Open Data Plan. Since the last Open Data Plan update, nearly 170 new data sets were added to the Open Data Portal and more than 400 were updated.

These numbers represent a great start – but we can do more. The same belief in the power of data that drove NYC to become an international pacesetter in Open Data is pushing us to set our sights even higher. This year marks three years of the Open Data initiative. As we look to the future, we're setting our sights beyond only compliance with the law, and driving toward reaching all New Yorkers.

We Believe...

Every New Yorker can benefit from Open Data.

This is your city – Open Data belongs to you. The ultimate success of the Open Data initiative will not be measured in the number of data sets that are published on the Open Data Portal – it will be in the number of New Yorkers who use Open Data in their daily lives. And that’s not just the tech-savvy New Yorkers – it’s all New Yorkers, in all five boroughs.

Open Data can benefit from every New Yorker.

Whether you are a civic technologist who uses programming and data professionally, or an advocate with detailed knowledge of your community, Open Data is stronger with your involvement. We’re looking for New Yorkers to bring their experience, curiosity, and skills to turn data into insight for New York City’s most pressing issues.

Achieving Our Vision

To deliver on the promise of NYC Open Data, we are doing things differently this year. These strategies represent our vision for making Open Data more expansive and more accessible as we move forward to 2018.

Beginning today, this is what you can expect from us in making Open Data for All.

Going forward, we will:

Talk and meet with New Yorkers regularly and often.

Talk and meet with New Yorkers regularly and often. The most important thing for getting us to where we want to be is knowing where you – New Yorkers – want to be.

Fully engaging with New Yorkers means giving them the forum and opportunity to ask questions and provide feedback. A more sustained, consistent method of communication with potential and current Open Data users increases transparency while also inviting stakeholders to engage smartly by suggesting specific opportunities for improvement. Engagement sets the stage for fostering a community of learning and best practices, as well as tapping into the experience and interest of the experts in the Open Data community.

Most immediately, we are committing to making the Open Data Plan a true living document. Previously, the plan was released once yearly, as required by law. Going forward, we will be releasing monthly updates so you know what's going on and clearly see what's new, what's different, and what's coming up.

DoITT and MODA will be conducting a Citywide Engagement Tour to better understand common needs, priorities, gaps, issues, and opportunities across user types and domain areas. We'll engage New Yorkers who want to use Open Data but aren't sure how, while also talking with current users about how to make Open Data better, and what matters most to them.

The Citywide Engagement Tour will culminate in an Open Data Summit in the late fall, where we'll bring together everything that we learned, and set the stage for future strategic initiatives.

Continue to release new data sets, and identify opportunities to provide for all types of users.

Continue to release new data sets, and identify opportunities to provide data for all types of users.

The Open Data Law mandates full coverage of all City public data by 2018. The value is clear – every time a new data set is published on the NYC Open Data Portal, there are new opportunities for users to find insight. In addition to quantity, NYC is committed to finding the most flexible form of data to support the greatest number of options for users.

There is an incredible amount of data to use. New York City government gathers and reports data collected through a wide variety of government operations. This is reflected in the diversity of the data available – there is data from 311 and other agency service requests, as well as enforcement actions such as inspections, tickets, and violations. There is data on the health of the environment around us – the water, air, and urban landscape.

From agencies focused on service delivery, there is information on outcomes, affiliated service providers, and usage. Agencies may report the locations of services, investments, and facilities. Agencies that provide services or specialized education may provide class listings and resource catalogs. There may be aggregated statistics on populations served, and their respective outcomes upon service delivery.

Along with data set releases, the form and modeling of the data itself can have large impacts on what is achievable using Open Data. Application developers are often con-

cerned with having the most current, up-to-date data, while academic researchers may be more interested in seeing the same indicator or information over a long period of time to understand trends. Advocates for a particular community or geography may be focused on publicizing existing services or providing suggestions for targeted classes or benefits, while policy-makers may be interested in the ultimate outcomes and public impact.

Focus on delivering value through use.

Focus on delivering value through use.

When a community member takes Open Data and uses it to make his or her case to an elected official about neighborhood priorities, when a researcher uses it to write a research paper, or when an agency official makes a decision about resource allocation, they are placing their trust in data. No data set is perfect, but in order to make informed decisions about how to interpret results from an analysis or a summary snapshot, users must have information about the data to make an informed choice about how the data can be responsibly used. More credible and robust data translates in bolder, bigger, more significant uses, with results to match.

In the spirit that the strongest proof of quality data is using it, the Mayor's Office of Data Analytics – as the City's civic analytics incubator – is committed to using Open Data themselves whenever possible for City-focused operations. We will continue to identify use cases, and incubate new ideas for applying data to New York City's tough questions. We'll be engaging with potential users to understand what questions they want to answer, and what uses are most important to them.

Open Data for All redefines the value of Open Data from total number of data sets to user-focused, actionable insight and impact.

Continue to improve and enhance the technical infrastructure that provides the foundation of the entire initiative, and increase responsiveness and flexibility for user needs.

Continue to improve and enhance the technical infrastructure that provides the foundation of the entire initiative, and increase responsiveness and flexibility for user needs.

Each type of data user has distinct needs and requirements when using City data and the NYC Open Data platform's tools effectively. Users engage with the NYC Open Data Portal in many different ways, whether it is a dynamically updated map embedded on an external website, or through downloading longitudinal data sets to run statistical analysis for academic research. Some users have computing power available to run complex calculations on their own computers, while others may want to use the portal's visualization capabilities directly.

Among the primary goals of the Open Data initiative is to meet users where they are. We'll be gathering feedback from the Citywide Engagement Tour to best meet the needs of all New Yorkers. Open Data use should be bounded only by one's imagination, not by technology.

Focus on one number: 8.4 million.

Focus on one number: 8.4 million. That's the total number of New Yorkers, each with their own interests, needs, plans, and passions.

We hope you'll join us as we turn Open Data into Open Data for All.

The Vision of Open Data In Action

What Open Data looks like in a future where Open Data is for All

You're walking down the street when it starts to rain, so you duck into a bus shelter.

Near the bus shelter is a coffee shop. The owner of the coffee shop decided on its location after using free market research information on neighborhood demographics and localized business conditions. When the owner's bank wanted foot traffic numbers to support her loan application, her niece, a master's student at a local university, made block-level estimates of pedestrian volume.

Inside the coffee shop, a group of high school students is hard at work on a paper for their environmental science class. They're analyzing the effects of climate change on different tree species. The data they're using isn't comparing far-off conditions – it's from trees planted in their neighborhood. If their paper is the best in the class, they'll meet with City agencies to put their recommendations into action.

Construction is going on in the park across the street. Community members used data on the neighborhood to decide where they wanted to spend a discretionary grant. The construction company saw the bid through an app that uses machine learning and City data to suggest business opportunities specifically matched to the size and expertise of the company. The company is small, and had never considered working with the City – now it's planning on bidding on two more contracts next year.

Two City inspectors enter a building further down the street. They have just spent the morning inspecting buildings to make sure that they are safely up to code. In order to increase the effectiveness of their inspection process, they use a predictive model developed by their agency's analytics team.

It continues to rain. Operational centers for different agencies use 311 service requests for street and building flooding to deploy immediate resources. They'll also overlay this rainstorm's data against past storm information to find hot spots to target infrastructure repairs and additional investment for long-term resiliency.

Acknowledgements

Open Data for All is a vision as much as it is call to action.

As we set out to engage New Yorkers in new ways, we want to thank the incredibly dedicated and hardworking teams across NYC government, without whom Open Data would not be possible. There are a number of individuals who inspired and contributed to this vision, and will be carrying it out. We would especially like to thank the following people for their dedication to this initiative:

Office of the Mayor

Mindy Tarlow, Director of the Mayor's Office of Operations

Jessie Singleton, Chief Digital Officer

Minerva Tantoco, Chief Technology Officer

The incredibly hardworking Open Data Coordinators citywide, as well as the staffs at the following offices and agencies: Department of Information Technology and Telecommunications, Mayor's Office of Data Analytics, the Law Department, Mayor's Office of Operations, and NYC Digital, and a special thanks to: Charles Aidinoff, Caty Bartholomew, Steven Bezman, Rafael Carvalho, Donald Chin, Alfred Eng, Charles Fraser, Natalie Grybauskas, Evan Hines, Lindsay Mollineaux, Nicholas Sbordone, Donald Sunderland, Albert Webber, Leocadie Welling, Logan Werschky, Katherine Wunningham, and James Xie.

Anne Roest
Commissioner

July 15, 2015

To the Mayor and the City Council:

Pursuant to the Open Data Law, section 23-506(c) of the Administrative Code of the City of New York, the Department of Information Technology and Telecommunications (DoITT) hereby submits the annual update to the NYC Open Data Plan.

The original NYC Open Data Plan included lists of public data sets submitted to DoITT by agencies covered by the Open Data Law. This report reflects updated information from those agencies. A summary description and anticipated date of publication for each public data set is included in the tables that are part of this update.

The NYC Open Data Plan and this update were created in compliance with the Open Data Law and with the Technical Standards Manual issued pursuant to the Open Data Law, and are available via the City's official website, *NYC.gov*. It is being submitted this year as part of *Open Data For All*, a strategy aimed at engaging New Yorkers across the five boroughs in dialogues about how the City's open data efforts might be enhanced to best meet the dynamics of our vibrant city.

Respectfully Submitted,

Anne M. Roest
Commissioner

c: Dr. Amen Ra Mashariki, Chief Analytics/Open Platform Officer

NYC Open Data Plan 2015

July 15, 2015

Scheduled Releases

This inventory includes all data sets scheduled for release between July 17, 2015 and December 31, 2018.

Agency Name	Data Set Title	Data Set Description	Update Frequency	Release Date	Date Status	Comment
Department of Transportation (DOT)	NYC DOT 10 Year Capital Projects Plan	Data related to proposed capital projects in DOT's 10 year Capital Plan	Annually	07/17/15	Updated	Under review – privacy or sensitivity considerations
Department of City Planning (DCP)	Roadbed Pointer List (RPL)	The Roadbed Pointer List (RPL) is a text file representing the relationships between generic and roadbed segments (or roadbed terminators – segments that represent the merging of divided roadbeds back into each other as a single roadbed or undivided street) by segment ID.	Quarterly	07/31/15	New	
Department of City Planning (DCP)	Public Use Microdata Areas (PUMA)	Shapefile of NYC Public Use Microdata Areas (PUMAs). PUMAs are statistical geographic areas defined for the dissemination of Public Use Microdata Sample (PUMS) data. PUMAs have a minimum population of 100,000, are aggregated from census tracts, and approximate Community Districts (CDs), or combinations of CDs (There are 59 CDs and only 55 NYC PUMAs because of such combinations). This geography is also used for disseminating American Community Survey (ACS) estimates.	As Needed	07/31/15	New	
Department of Health and Mental Hygiene (DOHMH)	Child Care Inspections	Dataset contains information on center-based child care and summer camp sites and inspections related to the sites	Annually	07/31/15	Updated	
Department of Parks and Recreation (DPR)	1995 Street Tree Census	Citywide street tree data from the 1995 Street Tree Census, conducted by volunteers organized by NYC Parks & Recreation. Trees were inventoried by address, and were collected from 1995-1996.	Historical Data	08/01/15	New	
Taxi and Limousine Commission (TLC)	Trip Data	Information on the millions of trips taken by New York City's yellow taxis on an annual basis	To Be Determined	08/01/15	New	

Agency Name	Data Set Title	Data Set Description	Update Frequency	Release Date	Date Status	Comment
Department of Parks and Recreation (DPR)	Community Parks Initiative Zone Boundaries	CPI Zones are neighborhoods where NYC Parks will pursue a combination of capital investment and/or targeted physical improvements, enhanced programming, and public outreach efforts through the Community Parks Initiative. CPI Zones are boundaries based on the NYC Department of City Planning's Neighborhood Tabulation Areas.	Historical Data	08/15/15	New	
Department of Information Technology and Telecommunications (DoITT)	NYC.gov Web Analytics	Web traffic statistics	Monthly	08/17/15	New	
Department of Education (DOE)	Underutilized Space Report	The DOE has previously identified 594 schools located in 330 buildings as "under-utilized" based upon the 2010-2011 Enrollment-Capacity-Utilization Report (The Blue Book). The DOE is also identifying 25 school buildings (listed below) which contain schools proposed for full phase-out, grade truncation or immediate closure due to poor performance. These proposals are scheduled to be voted on by the Panel for Education Policy on February 9, 2012. Should these proposals be approved, there will be excess space available in the buildings. In many cases, the DOE has already made companion proposals on how to use this additional space	Annually	09/01/15	Updated	
Department of Parks and Recreation (DPR)	MillionTreesNYC Planting data	Street and reforestation trees planted by NYC Parks as part of the MillionTreesNYC initiative to date	Bi-Annually	09/01/15	New	
Department of Records (DORIS)	Government Publications Listing	Documents submitted to the Department of Records and Information Services in compliance with Section 1133 of the New York City Charter	Monthly	09/01/15	Updated	Additional data quality review required
Law Department (LAW)	Case information	Case-related information, such as parties to litigation	Semi-Annually	09/01/15	No Change	
NYC School Construction Authority (SCA)	DOE building space usage	List of DOE buildings schools housed within the building and with listing of rooms by size, usage.	To Be Determined	09/01/15	No Change	

Agency Name	Data Set Title	Data Set Description	Update Frequency	Release Date	Date Status	Comment
NYC School Construction Authority (SCA)	Inspection Observations	List of observations and status for construction project inspections	Monthly	09/01/15	No Change	
NYC School Construction Authority (SCA)	Inspections	List of Inspections requested for construction projects	Monthly	09/01/15	No Change	
Department of Education (DOE)	Annual Arts in School Reports Raw Data	The Annual Arts in Schools Report includes data about arts teachers, arts budgeting, space for the arts, partnerships with arts and cultural organizations, and parent involvement for elementary, middle, and high schools. These reports help school administrators, parents, and students understand how their schools are progressing towards offering universal arts education to all students	Annually	09/05/15	Updated	
Department of Education (DOE)	Location Information Report	Report of all DOE School Information including Principal and Superintendent names, Cluster, Network, addresses & phone numbers	Daily	09/05/15	Updated	
Department of Education (DOE)	Attendance 4pm report	Statistical report that provides daily school wide attendance each day for all schools at 4:00pm. Attendance figures are "accurate" as of 4:00pm, but not final as schools continue to submit data after preliminary report is generated.	Daily	09/05/15	New	Renamed - Daily School-wide Attendance
Department of City Planning (DCP)	Special Natural Waterfront Areas (SNWA) Boundaries	Shape file of SNWA boundaries that define the geographic scope of New York City's Waterfront Revitalization Program (WRP)	As Needed	09/20/15	New	
Department of City Planning (DCP)	Significant Maritime and Industrial Areas (SMIA) boundaries	Shape file of SMIA boundaries that define the geographic scope of New York City's Waterfront Revitalization Program (WRP)	As Needed	09/20/15	New	
Department of Education (DOE)	Bus delays and Breakdowns	Daily list of bus delays and breakdowns	daily	09/21/15	New	
Department of Education (DOE)	Audited Register Data	Official audited register by school	Annually	09/30/15	Updated	

Agency Name	Data Set Title	Data Set Description	Update Frequency	Release Date	Date Status	Comment
Department of Education (DOE)	Statistical SummaryPeriod Attendance Reporting (PAR)	Statistical report on attendance by borough, grade. Alternate views of same data by grade level and enrollment (register). All students including YABC, adults, LYFE babies and charters, home instruction, home/hospital, CBO UPK.	Monthly	09/30/15	New	
Department of Health and Mental Hygiene (DOHMH)	Rodent Inspection	Dataset contains information on rat inspections	Annually	09/30/15	Updated	Additional data quality review required
Department of Health and Mental Hygiene (DOHMH)	Beach Water Quality	Dataset contains information on beach water quality	Annually	09/30/15	Updated	Additional data quality review required
Department of Education (DOE)	Vehicle	Summary of vendor,vehicletype for all active vehicles	Quarterly	10/01/15	New	
Department of Education (DOE)	Drivers & Attendants	Summary of vendor, School age/Pre-K, Job type for all active vendor employees	Quarterly	10/01/15	New	
Taxi and Limousine Commission (TLC)	SHL Vehicles – Brokers	This list contains information on taxicab brokers	Weekly	10/01/15	Updated	Under review – data may/may not apply to SHL entity
Taxi and Limousine Commission (TLC)	SHL Vehicles – Meter-shops	This list contains information on authorized SHL meter-shops	Weekly	10/01/15	Updated	Under review – data may/may not apply to SHL entity
Taxi and Limousine Commission (TLC)	SHL – LPEP Provider	This list contains information on LPEP providers that are authorized for NYC TLC licensed SHL vehicles	Monthly	10/01/15	Updated	Under review – data may/may not apply to SHL entity
Department of Education (DOE)	Route	List of all routes(special education and general education) used by OPT along with DBN information	Monthly	10/12/15	New	
Department of Education (DOE)	Route School	Route and schools	Monthly	10/12/15	New	
Department of Education (DOE)	School	List of all schools served by OPT along with DBN information	Monthly	10/12/15	New	

Agency Name	Data Set Title	Data Set Description	Update Frequency	Release Date	Date Status	Comment
Office of the Mayor (OTM)	Local Law 1 City Council Report	The M/WBE program is administered jointly by MOCS and the Department of Small Business Services (SBS). Pursuant to Local Law 1 of 2013, the Mayor's Office is required to publish quarterly reports on the progress of this program	Quarterly	10/15/15	New	
Office of the Mayor (OTM)	Annual Procurement Indicator Report	MOCS is responsible for publishing the Annual Procurement Indicator Report for the City of New York which is one of the largest contracting jurisdictions in the nation. The report provides statistics on such items as: Purchase and Procurement Methods; Competitiveness; Procurement Timeliness; Contract Administration; Vendor Responsibility; and Business Opportunities with the City	Annually	10/15/15	New	
Office of the Mayor (OTM)	LL 50 New York State Food Purchasing	Not later than October first of each year, the city chief procurement officer shall submit to the mayor and the speaker of the city council, and publish on the mayor's office of contract services website, a report detailing the city's efforts during the preceding fiscal year to implement the city guidelines for the purchase of New York state food, adopted pursuant to subdivision eight-a of New York general municipal law section one hundred three.	Annually	10/15/15	New	
Office of the Mayor (OTM)	EPP	There shall be a director of citywide environmental purchasing who shall: submit an annual report to the speaker of the council and the mayor by October 1 of each year detailing the city's progress in meeting the purposes of this chapter, as specified in subdivision a of this section, and the city's environmental purchasing standards, which report shall at a minimum include: (a long list)	Annually	10/15/15	New	

Agency Name	Data Set Title	Data Set Description	Update Frequency	Release Date	Date Status	Comment
Office of the Mayor (OTM)	LL63 of 2011 Plan	Pursuant to 312(a) of the City Charter, as amended by Local Law 63 of 2011, the Mayor's Office is required to publish a plan and schedule for each City agency detailing the anticipated contracting actions of each agency for the upcoming fiscal year for certain categories of procurement.	Annually	10/15/15	New	
Office of the Mayor (OTM)	Local Law 1 Plan	The commissioner, in consultation with the city chief procurement officer, shall, no later than July 31 of each year, publish on the division's website a plan and schedule for each agency detailing the anticipated contracting actions for the upcoming fiscal year that form the basis for the agency utilization plan of each such agency.	Annually	10/15/15	New	
Office of the Mayor (OTM)	LL 125 Preferred Source	Not later than October first of each year, the city chief procurement officer shall submit to the speaker of the city council and publish on the mayor's office of contract services website a report detailing the city's procurement of preferred source products during the prior fiscal year. Such report shall include the following information for contracts valued at twenty thousand dollars or more whose primary purpose is the purchase of preferred source products, disaggregated by agency: (1) the total dollar value of each preferred source product procured from preferred source vendors; (2) the total dollar value of each preferred source product procured from vendors not identified as preferred source vendors; and (3) the total dollar value of all preferred source products procured.	Annually	10/15/15	New	

Agency Name	Data Set Title	Data Set Description	Update Frequency	Release Date	Date Status	Comment
Office of the Mayor (OTM)	FCRC CCPO Annual Report	The Concession Rules require the City Chief Procurement Officer to produce an Annual Concession Report ("CCPO Annual Report") summarizing the currently effective concessions awarded under Title 12 of the Rules of the City of New York. The summary includes: the registration status of each concession; a brief description of each concession awarded; the method by which each concession was awarded; and the approximate gross revenues received by the City for each concession during the prior fiscal year.	Annually	10/15/15	New	
Procurement Policy Board (PPB)	Prompt Payment performance report	PPB shall coordinate and publish an annual prompt payment performance report detailing each agency's performance pursuant to Charter Section 332. PPB shall additionally make cumulative prompt payment performance statistics available upon request. All reports shall be distributed to the CCPO, OMB and Comptroller and shall be posted on the City's website in a location that is accessible by the public simultaneously with their publication.	Annually	10/15/15	New	
Administration for Children's Services (ACS)	Detention and Placement Incident Reports	Detention and Placement incident statistics reported in compliance with Introduction 153-A and 37-A passed by the New York City Council	Quarterly	10/30/15	Updated	
Administration for Children's Services (ACS)	Detention and Placement Demographic reports	Detention demographic statistics reported in compliance with Introduction 153-A and 37-A passed by the New York City Council	Annually	10/30/15	Updated	
Administration for Children's Services (ACS)	Detention and Placement Abuse/neglect reports	Detention abuse/neglect statistics reported in compliance with Introduction 153-A and 37-A passed by the New York City Council	Annually	10/30/15	Updated	
Department of Transportation (DOT)	Pothole work orders	Average time to close a pothole work order where repair was done (days)	To Be Determined	10/31/15	Updated	Under review – privacy or sensitivity considerations

Agency Name	Data Set Title	Data Set Description	Update Frequency	Release Date	Date Status	Comment
Department of Transportation (DOT)	Adopted Highway Service Ratings	NYC highways that receive a cleanliness rating of good (%)	To Be Determined	10/31/15	Updated	Additional data quality review required. Previously known as "Highway Cleanliness"
Department of Transportation (DOT)	Pedestrian volume	Pedestrian volume index	To Be Determined	10/31/15	Updated	Additional data quality review required
Department of Transportation (DOT)	Bridge ratings	Bridges rated good or very good (%) (calendar year)	To Be Determined	10/31/15	Updated	Additional data quality review required
Department of Transportation (DOT)	Staten Island Ferry Trips	Staten Island Ferry trips that are on time (%)	To Be Determined	10/31/15	Updated	Additional data quality review required
Department of Education (DOE)	PreK Ridership	Summary of documented students by school/site	Quarterly	11/01/15	New	
Department of Education (DOE)	School Age Ridership	Summary of documented students by OPT school code	Quarterly	11/01/15	New	
Office of Payroll Administration (OPA)	Citywide Fringe Benefits	Auto Fringe Benefits for all city employees	Annually	11/01/15	New	
Office of Payroll Administration (OPA)	Citywide Payroll Data	City employee Base and Overtime Salary for Fiscal Year	Annually	11/01/15	New	
Office of Payroll Administration (OPA)	Citywide Payroll Data	City employee Base and Overtime Salary for Calendar Year	Annually	11/01/15	New
