NYCHA, under the oversight of its Responsible Entity, HPD, shall ensure that the following measures are carried out to satisfy NYCHA's Section 106 responsibilities for all applicable HUD- assisted Undertakings.

I. General

3	RED HOOK EAST	BROOKLYN	mural	Marian Greenwood	ca. 1940	Painted mural in the style of social realism, depicting community building
4	RED HOOK WEST	BROOKLYN	mural			2,500-square-foot mural with scenes representing the waterfront community, wildlife and trees, a reimagined Statue of Liberty, and faces that represent the diversity of Red Hook
5	WILLIAMSBURG	BROOKLYN	mural	Ilya Bolotowsky	ca. 1937	Abstract mural painting, on canvas. Restored in 1990's; ensconced at Brooklyn Museum. Ilya Bolotowsky's Williamsburg mural was, in his words, "designed to improve proportions in a very shallow day room." He achieved this with a light-colored background against which vibrantly colored geometric and biomorphic shapes hover in the air in tension with one another. The horizontal emphasis, punctuated by strong diagonals, suggests an expansive space not limited by the actual proportions of the room.
6	WILLIAMSBURG	BROOKLYN	mural	Paul Kelpé	ca. 1937	Abstract mural painting, on canvas. Restored in 1990's; ensconced at Brooklyn Museum. Paul Kelpé's Williamsburg murals were conceived as entirely non-objective compositions. However, they reveal a distinctly different approach to abstraction. Kelpé is unique for his strikingly unusual color combinations, his decorative patterning of selected fields of color, and his sculptural forms suggesting axial rotation.

8	WILLIAMSBURG	BROOKLYN	mural	Albert Swinden	ca. 1937	Abstract mural painting, on canvas. Restored in 1990's; ensconced at Brooklyn Museum. This abstract mural painting features balanced and disciplined composition of rectangular shapes punctuated by occasional biomorphic forms. Swinden seldom wrote about his art, but his brief essay "On Simplification," published in the 1938 American Abstract Artists Yearbook, provides a succinct comment on the aesthetic concerns embodied in this mural. "We are moved not only by particular, or individual forms," he wrote, "but by the relationships between the particular forms and their significance as a unity."
9	WILLIAMSBURG	BROOKLYN	mural	Balcomb Greene	ca. 1937	Abstract mural painting, on canvas. Restored in 1990's; ensconced at Brooklyn Museum.

Human Remains Discovery Protocol

New York State Office of Parks, Recreation and Historic Preservation **Human Remains Discovery Protocol** (October 2025)

In the event that human remains are encountered during construction or archaeological investigations, the New York State Historic Preservation Officer (SHPO) recommends that the following protocol be implemented:

- Human remains must be treated with the utmost dignity and respect at all times. Should human remains or *suspected* human remains be encountered, work in the general area of the discovery will stop immediately and the location will be secured and protected from damage and disturbance.
- Notify local law enforcement and the New York City Chief Medical Examiner's Office immediately.
- If skeletal remains are identified and the archaeologist is not able to conclusively determine whether they are human, the remains and any associated materials must be left in place. A qualified forensic anthropologist, bio archaeologist or physical anthropologist will assess the remains *in situ* to help determine if they are human.
- No skeletal remains or associated materials will be collected or removed until appropriate consultation has taken place and a plan of action has been developed.
- The SHPO, the appropriate Indian Nations, the involved state and federal agencies, the coroner, and local law enforcement will be notified immediately. Requirements of the coroner and local law enforcement will be adhered to. A qualified forensic anthropologist, bio-archaeologist or physical anthropologist will assess the remains *in situ* to help determine if the remains are Native American or non-Native American.
- If human remains are determined to be Native American, they will be left in place and protected from further disturbance until a plan for their avoidance or removal can be generated. Please note that avoidance is the preferred option of the SHPO and the Indian Nations. The involved agency will consult SHPO and the appropriate Indian Nations to develop a plan of action that is consistent with the Native American Graves Protection and Repatriation Act (NAGPRA) guidance. Photographs of Native American human remains and associated funerary objects should not be taken without consulting with the involved Indian Nations.
- If human remains are determined to be non-Native American, the remains will be left in place and protected from further disturbance until a plan for their avoidance or removal can be generated. Please note that avoidance is the preferred option of the SHPO. Consultation with the SHPO and other appropriate parties will be

required to determine a plan of action.

- To protect human remains from possible damage, the SHPO recommends that burial information not be released to the public

Unanticipated Discoveries Protocol

Unanticipated Discoveries Protocol for the New York City Housing Authority

To assist HPD and NYCHA in meeting the requirements of Section 106 of the National Historic Preservation Act as defined in the Advisory Council on Historic Preservation (Council) regulations “Protection of Historic Properties” (36 CFR Part 800), HPD and NYCHA will implement the following Unanticipated Discovery Protocol should new or additional historic properties [cultural resources] be found after construction has begun on [PROJECT NAME]. This protocol has been developed through reference to the regulations embodied in “Protection of Historic Properties” issued by the Council (revised August 2004, www.achp.gov/regs-rev04.pdf) and consultation with the New York State Historic Preservation Officer (SHPO) [New York Office of Parks, Recreation, and Historic Preservation (OPRHP)].

Termed “unanticipated discovery” or “post-review discovery,” the identification of new or additional historic properties [cultural resources] during implementation of an Undertaking can occur in the case of projects that involve excavation or ground-disturbing activities. This Protocol will be implemented by NYCHA if previously undiscovered archaeological resources and/or human remains are identified. Archaeological resources include man-made objects (pre-contact and historic period artifacts such as stone tools, pottery, glass, nails, bones, etc.) and features (e.g. stone or brick walls or pavements, pits, fireplaces, other evidence of burning, or other remnants of human activity).

Environmental inspectors and construction contractors and subcontractors will receive training regarding the identification and preliminary treatment of unanticipated discoveries and their responsibilities for protecting discoveries and initiating implementation of the Protocol. Training will occur as part of the pre-construction on-site training program for foremen, company inspectors, and construction supervisors and will be given by a qualified cultural resource specialist. During construction, the Environmental Inspectors (EI) will be responsible for advising construction contractor personnel on the procedure to follow in the event that an unanticipated discovery is made. The EI will advise all operators of equipment involved in grading, stripping, or trenching activities to stop work immediately if they observe any indications of the presence of cultural materials, contact the EI as soon as possible, comply with the unanticipated discovery procedures (outlined below), and treat human remains with dignity and respect (see Human Remains Discovery Protocol).

Procedure When Cultural Materials Are Observed

The following measures will be implemented should an unanticipated historic property / cultural resource discovery be made by an inspector, a contractor, or subcontractor during construction of the proposed Undertaking:

- 1) Construction activities within the immediate area of an unanticipated discovery will be halted (“immediate area” is a context-specific measure, however 30 to 50

feet is generally adequate, although special attention should be given to the possible extension of a new find beyond this buffer zone), and the discovery protected from further disturbance;

- 2) NYCHA will notify by telephone HPD and SHPO / OPRHP and, local law enforcement and the Office of the Chief Examiner (the latter parties will be notified only in case of a finding of human remains). These notifications will take place within 24 hours of an unanticipated discovery;
- 3) HPD and SHPO / OPRHP instructions concerning an unanticipated discovery resulting from the notification as described above will be followed and may require, archaeological work be performed on the unanticipated discovery location to stabilize deposits, protect deposits from scavengers or looters, and to collect readily available samples (e.g. for radiocarbon dating) which may help pinpoint the age of deposits; and
- 4) NYCHA will further consult HPD and SHPO / OPRHP to determine and implement any additional measures necessary subsequent to the initial archaeological work. This may involve further archaeological study or consultation with Native American nations or other parties with established cultural affiliation. Construction activities will remain halted until HPD and SHPO / OPRHP indicate to NYCHA that it may proceed in the area of a specified unanticipated discovery.

In the case of an unanticipated discovery of human remains, NYCHA will follow all relevant state and federal law and recommendations regarding treatment of human remains. NYCHA recognizes the importance of providing careful and respectful treatment of human remains recovered as an unanticipated discovery or as part of an archaeological investigation.
