

Appendix F – NYPD Parking Specifications

NYPD Parking Threshold Requirements

- The parking space must include at minimum two Level 3 EV charging stations.
- The parking space must provide 24-hour lighting.
- The parking space must have a dedicated entrance/exit with mechanical arm.
- Physical separation of space between NYPD and building residents.
- Clear signage both inside and outside of the parking space to indicate police parking only.
- An audio and visual alarm system to alert that public vehicle is entering/exiting.
- Connections available for the connection of security cameras on site.
- Truncated domes on the sidewalk near entrance to aid the visually impaired.
