^A Prior to June 2013, some "60 Month Converted" cases that were changed by New York State programming directives to the Family Assistance category continued to be reported as 60 Month Converted cases. Beginning in June 2013, these cases are reported correctly in the Family Assistance category. While month to month and year to year changes in total cases and total persons are not affected by the recategorization, the changes do not permit May to June 2013 and year to year comparisons between the three case types.

^B Emergency Assistance excludes the category "Safety Net Emergency Assistance" due to systems limitations.

^C Cash Assistance Recipients Unduplicated (12 months) reports the unduplicated number of recipients of Cash Assistance within the current and previous 11 months and allows for a more precise representation of the total number of recipients served by HRA over time.

^D As of January 2014, the indicator HRA Assisted Entries into Employment replaced the prior indicator for reporting Job Placements. The new indicator only reports entries into employment for recipients who participated in an HRA program or obtained employment independently while receiving HRA benefits.

^E Beginning February 2015, all data for Homelessness: Prevention or Diversion will be published with a one month lag. This is due to the increase in service volume which requires more time for the program to collect, analyze and report data.

^F As of December 2025, HRA Assisted Entries into Employment data from July to November 2025 placement counts have been adjusted.
