<sup>(1)</sup> This measure includes actively charging and arrears only cases. However, if we consider only actively charging cases (cases with an ongoing obligation) the Total Cases with a Collection percentage remains stable at 61% this month.

<sup>(2)</sup> We continue to observe the effects of ongoing cleanup projects aiming at closing account level cases that are appropriate for closure. This contributes to the large decrease in Current Support Due and in the percentage of "Current Distributed – Former."

<sup>(3)</sup> The State carried out a one-time clean up project in 2012 with the Department of Health to identify cases that received Medicaid at any time and moved the collection data from Never to Former, leaving the cases in place.
