In the opinion of Bond Counsel, interest on the Bonds will be exempt from personal income taxes imposed by the State of New York or any political subdivision thereof, including the City. Assuming continuing compliance with the provisions of the Internal Revenue Code of 1986, as amended, as described herein, interest on the Bonds will not be includable in the gross income of the owners thereof for Federal income tax purposes. See "SECTION IX: OTHER INFORMATION—Tax Exemption" herein for certain provisions of the Code that may affect the tax treatment of interest on the Bonds for certain Bondholders.

\$195,690,000

The City of New York General Obligation Bonds, Fiscal 1994 Series B

\$119,220,000 FIXED RATE BONDS, SUBSERIES B-1
\$14,600,000 INVERSE FLOATING RATE NOTES, SUBSERIES B-1
\$11,870,000 INDEXED INVERSE FLOATER SECURITIES, SUBSERIES B-1
\$50,000,000 ADJUSTABLE RATE BONDS, SUBSERIES B-2

Dated: Date of Delivery

Due: August 15, as shown inside this cover page

The Bonds will be issued as registered bonds and, when issued, will be registered in the name of Cede & Co., as nominee of The Depository Trust Company, New York, New York, which will act as securities depository for the Bonds. See "SECTION II: THE BONDS—Bond Certificates".

Interest on the Fixed Rate Bonds, the Inverse Floating Rate Notes and the Indexed Inverse Floater Securities will be payable semi-annually, beginning February 15, 1994 and on each August 15 and February 15 thereafter. The Fixed Rate Bonds can be purchased in principal amounts of \$5,000 or any integral multiple thereof. The Inverse Floating Rate Notes and the Indexed Inverse Floater Securities can be purchased in principal amounts of \$100,000 or any integral multiple thereof prior to their Conversion Dates (as more fully described herein) and thereafter in denominations of \$5,000 or any integral multiple thereof. The Fixed Rate Bonds, the Inverse Floating Rate Notes and the Indexed Inverse Floater Securities are subject to redemption prior to maturity as described herein. A detailed schedule of the Bonds is set forth inside this cover page.

\$145,690,000 General Obligation Bonds, Subseries B-1

August 15	Amount	Interest Rate	Price or Yield	August 15	Amount	Interest Rate	Price or Yield

(1) Indexed Inverse Floater Securities. See "Appendix H — INDEXED INVERSE FLOATER SECURITIES" and table inside this cover page.

(2) Inverse Floating Rate Notes. See "Appendix F — Inverse Floating Rate Notes" and table inside this cover page.

The Adjustable Rate Bonds will bear interest from their date of issuance at a Daily Rate until converted. Interest on each maturity of a Subseries of Adjustable Rate Bonds may be converted at the option of the City to or from a Daily Rate, a Weekly Rate, a Monthly Rate, a Quarterly Rate, a Semiannual Rate, a Term Rate or a Money Market Municipal Rate or to a Fixed Rate until maturity. See "APPENDIX C—ADJUSTABLE RATE BONDS". Interest accruing on the Adjustable Rate Bonds will be payable initially on the first day of each month. Adjustable Rate Bonds will be issuable initially in Authorized Denominations of \$100,000 or any integral multiple thereof. The Adjustable Rate Bonds bearing interest at a Variable Rate, including a Daily Rate, may be tendered to the Tender Agent for purchase at the option of the owner thereof under the circumstances described herein. The Adjustable Rate Bonds are also subject to mandatory tender and to redemption prior to maturity, as described herein. Payment of the Purchase Price equal to the principal of and up to 185 days' accrued interest at a maximum rate of 9% per annum on \$50,000,000 Subseries B-2 Bonds tendered for purchase as described herein will be made pursuant and subject to the terms of the Credit Facility described herein provided by The Dai-Ichi Kangyo Bank, Limited, New York Branch. The Credit Facility will expire as set forth herein.

The Bonds are offered subject to prior sale, when, as and if issued by the City and accepted by the Underwriters, subject to the approval of the legality of the Bonds by Brown & Wood, New York, New York, and Barnes, McGhee, Neal, Poston & Segue, New York, New York, Bond Counsel to the City, and subject to certain other conditions. Certain legal matters in connection with the preparation of this Official Statement will be passed upon for the City by Lord Day & Lord, Barrett Smith, New York, New York. Certain legal matters will be passed upon for the Underwriters by Rogers & Wells, New York, New York, and Wood, Williams, Rafalsky & Harris, New York, New York. It is expected that the Bonds will be available for delivery in New York, New York, on or about August 18, 1993.

The information in this Rate Period Table is provided for the convenience of the Bondholders and is not meant to be comprehensive. See "APPENDIX C—ADJUSTABLE RATE BONDS" for a description of the Adjustable Rate Bonds.

No dealer, broker, salesperson or other person has been authorized by the City or the Underwriters to give any information or to make any representations in connection with the Bonds or the matters described herein, other than those contained in this Official Statement, and, if given or made, such other information or representations must not be relied upon as having been authorized by the City or the Underwriters. This Official Statement does not constitute an offer to sell or the solicitation of an offer to buy, nor shall there be any sale of the Bonds by any person in any jurisdiction in which it is unlawful for such person to make such offer, solicitation or sale. The information set forth in Appendix E has been supplied by the Banks, and the Underwriters and the City make no representation as to the adequacy or accuracy of such information. The information and expressions of opinion contained herein are subject to change without notice, and neither the delivery of this Official Statement, nor any sale made hereunder, shall, under any circumstances, create any implication that there has been no change in the matters described herein since the date hereof. This Official Statement is submitted in connection with the sale of the Bonds referred to herein and may not be reproduced or used, in whole or in part, for any other purpose. The Underwriters may offer and sell Bonds to certain dealers and others at prices lower than the offering prices stated on the Cover Page hereof. The offering prices may be changed from time to time by the Underwriters. No representations are made or implied by the City as to any offering by the Underwriters or others of any derivative instruments.

The factors affecting the City's financial condition are complex. This Official Statement should be considered in its entirety and no one factor considered less important than any other by reason of its location herein. Where agreements, reports or other documents are referred to herein, reference should be made to such agreements, reports or other documents for more complete information regarding the rights and obligations of parties thereto, facts and opinions contained therein and the subject matter thereof.

OFFICIAL STATEMENT

OF

THE CITY OF NEW YORK

This Official Statement provides certain information concerning The City of New York (the "City") in connection with the sale of \$410,000,000 aggregate principal amount of the City's General Obligation Bonds, Fiscal 1994 Series B (the "Bonds") consisting of \$273,530,000 of fixed-rate bonds (the "Fixed Rate Bonds"), \$14,600,000 of Inverse Floating Rate Notes (the "Inverse Floating Rate Notes"), \$11,870,000 of Indexed Inverse Floater Securities (the "Indexed Inverse Floater Securities") and \$110,000,000 of adjustable rate bonds (the "Adjustable Rate Bonds").

INTRODUCTORY STATEMENT

The Bonds will be general obligations of the City for the payment of which the City will pledge its faith and credit. All real property subject to taxation by the City will be subject to the levy of *ad valorem* taxes, without limitation as to rate or amount, to pay the principal of, applicable redemption premium, if any, and interest on the Bonds.

The City, with a population of approximately 7.3 million, is an international center of business and culture. Its non-manufacturing economy is broadly based, with the banking and securities, life insurance, communications, publishing, fashion design, retailing and construction industries accounting for a significant portion of the City's total employment earnings. Additionally, the City is the nation's leading tourist destination. Manufacturing activity in the City is conducted primarily in apparel and printing.

The national economic downturn which began in July 1990 adversely affected the local economy, which had been declining since late 1989. As a result, the City experienced job losses in 1990 and 1991 and real Gross City Product (GCP) fell in those two years. Beginning in 1992, the improvement in the national economy helped stabilize conditions in the City. Employment losses moderated toward year-end and real GCP increased, boosted by strong wage gains. The City now projects, and its current four-year financial plan assumes, that the City's economy will continue to improve during calendar year 1993 and that a modest employment recovery will begin during the second half of this calendar year.

For each of the 1981 through 1992 fiscal years, the City achieved balanced operating results as reported in accordance with generally accepted accounting principles ("GAAP"), and the City's 1993 fiscal year results are projected to be balanced in accordance with GAAP. The City was required to close substantial budget gaps in its 1990, 1991 and 1992 fiscal years in order to maintain balanced operating results. There can be no assurance that the City will continue to maintain a balanced budget, or that it can maintain a balanced budget without additional tax or other revenue increases or reductions in City services, which could adversely affect the City's economic base.

Pursuant to the laws of the State, the City prepares a four-year annual financial plan, which is reviewed and revised on a quarterly basis and which includes the City's capital, revenue and expense projections and outlines proposed gap-closing programs for years with projected budget gaps. For information regarding the current financial plan, see "SECTION I: RECENT FINANCIAL DEVELOPMENTS" and "SECTION VII: 1994-1997 FINANCIAL PLAN". The City is required to submit its financial plans to review bodies, including the New York State Financial Control Board ("Control Board"). For further information regarding the Control Board and State laws which provide for oversight and, under certain circumstances, control of the City's financial and management practices, see "SECTION III: GOVERNMENT AND FINANCIAL CONTROLS—City Financial Management, Budgeting and Controls—Financial Emergency Act"

The City depends on the State for State aid both to enable the City to balance its budget and to meet its cash requirements. As a result of the national and regional economic recession, the State's tax revenues for its 1991 and 1992 fiscal years were substantially lower than projected. The State completed its 1993 fiscal year with a cash-basis positive balance of \$671 million in the State's General Fund (the major operating fund of the State). The State's 1994 fiscal year budget, as enacted, projects a balanced General Fund. There can be

no assurance that State budgets in future fiscal years will be adopted by the April 1 statutory deadline and that there will not be adverse effects on the City's cash flow and additional City expenditures as a result of such delays. See "SECTION I: RECENT FINANCIAL DEVELOPMENTS—The State".

The Mayor is responsible for preparing the City's four-year financial plan. The City Council adopted a budget for the City's 1994 fiscal year on June 14, 1993. On July 2, 1993 the Mayor announced additional expenditure reductions in the amount of approximately \$131 million for the City's 1994 fiscal year beyond those incorporated in the adopted budget. Based on the adopted budget and the additional reductions announced by the Mayor on July 2, 1993, the City submitted to the Control Board the current financial plan for the 1994 through 1997 fiscal years (the "1994-1997 Financial Plan" or "Financial Plan"). The City's projections set forth in the Financial Plan are based on various assumptions and contingencies which are uncertain and which may not materialize. Changes in major assumptions could significantly affect the City's ability to balance its budget as required by State law and to meet its annual cash flow and financing requirements. Such assumptions and contingencies are described throughout this Official Statement and include the timing of any regional and local economic recovery, the impact on real estate tax revenues of the current downturn in the real estate market, wage increases for City employees consistent with those assumed in the Financial Plan, employment growth, provision of State and Federal aid and mandate relief, the impact on the New York City region of the tax increases contained in President Clinton's economic plan and adoption of City budgets by the New York City Council. See "SECTION VII: 1994-1997 FINANCIAL PLAN".

Implementation of the Financial Plan is also dependent upon the City's ability to market its securities successfully in the public credit markets. The City's financing program for fiscal years 1994 through 1997 contemplates the issuance of \$10.8 billion of general obligation bonds primarily to reconstruct and rehabilitate the City's infrastructure and physical assets and to make capital investments. In addition, the City issues revenue and tax anticipation notes to finance its seasonal working capital requirements. The success of projected public sales of City bonds and notes will be subject to prevailing market conditions, and no assurance can be given that such sales will be completed. If the City were unable to sell its general obligation bonds and notes, it would be prevented from meeting its planned capital and operating expenditures.

The City Comptroller and other agencies and public officials have issued reports and made public statements which, among other things, state that projected revenues may be less and future expenditures may be greater than those forecast in the Financial Plan. In addition, the Control Board staff and others have questioned whether the City has the capacity to generate sufficient revenues in the future to provide the level of services included in the Financial Plan. It is reasonable to expect that such reports and statements will continue to be issued and to engender public comment. See "SECTION VII: 1994-1997 FINANCIAL PLAN—Certain Reports". For information concerning the City's credit rating, see "SECTION IX: OTHER INFORMATION—Ratings".

The factors affecting the City's financial condition and the Bonds described throughout this Official Statement are complex and are not intended to be summarized in this Introductory Statement. This Official Statement should be read in its entirety.

SECTION I: RECENT FINANCIAL DEVELOPMENTS

Fiscal Years 1992 and 1993

The City achieved balanced operating results as reported in accordance with GAAP for the 1992 fiscal year. For further information, see "SECTION VI: FINANCIAL OPERATIONS". In order to achieve a balanced budget for the 1992 fiscal year, the City implemented various actions during the 1991 fiscal year to close a projected gap of \$3.3 billion in the 1992 fiscal year. This \$3.3 billion gap resulted from, among other things, projected tax revenue shortfalls of approximately \$1.4 billion; proposed State aid for the City which was \$564 million less than the amount projected by the City; and approximately \$400 million of projected increases in legally mandated expenditures, including public assistance and Medicaid expenditures. The gap-closing measures for the 1992 fiscal year included receipt of \$605 million from tax increases; approximately \$1.5 billion of proposed service reductions; and proposed productivity savings of \$545 million.

On June 23, 1993 the City submitted to the Control Board a fourth quarter modification to the 1993-1996 financial plan (the "1993 Modification") which adjusts projections for the 1993 fiscal year only. The City projects a balanced budget in accordance with GAAP for the 1993 fiscal year after taking into account a discretionary transfer of \$280 million to the 1994 fiscal year as the result of a 1993 fiscal year surplus. For changes in forecasted revenues and expenditures since the financial plan submitted to the Control Board on June 11, 1992 (the "June Financial Plan"), see "SECTION VI: FINANCIAL OPERATIONS—Forecast of 1993 Results".

1994-1997 Financial Plan

On August 6, 1993, the City submitted to the Control Board the 1994-1997 Financial Plan, which relates to the City, the Board of Education ("BOE") and the City University of New York ("CUNY"). The 1994-1997 Financial Plan projects revenues and expenditures for the 1994 fiscal year balanced in accordance with GAAP. The 1994-1997 Financial Plan sets forth actions to close a previously projected gap of approximately \$2.0 billion in the 1994 fiscal year. The gap-closing actions for the 1994 fiscal year include agency actions aggregating \$666 million, including productivity savings and savings from restructuring the delivery of City services; service reductions aggregating \$274 million; the sale of delinquent real property tax receivables for \$215 million; discretionary transfers from the 1993 fiscal year of \$110 million; reduced debt service costs aggregating \$187 million, resulting from refinancings and other actions; \$150 million in proposed increased Federal assistance; a continuation of the personal income tax surcharge, resulting in revenues of \$143 million; \$80 million in proposed increased State aid, of which approximately \$35 million may be subject to approval by the Governor and State Legislature; and revenue actions aggregating \$173 million. The projected expenditures for the 1994 fiscal year reflect the \$131 million of expenditure reductions announced subsequent to the adoption of the budget on June 14, 1993, including a \$50 million reduction in BOE expenditures, a \$30 million reduction in personal service costs and a \$25 million reduction in other than personal services.

The Financial Plan also sets forth projections for the 1995 through 1997 fiscal years and outlines a proposed gap-closing program to close projected budget gaps of \$1.3 billion, \$1.8 billion and \$2.0 billion for the 1995 through 1997 fiscal years, respectively. The projections include \$150 million of increased Federal assistance in each of the 1995 through 1997 fiscal years and \$131 million, \$291 million and \$291 million of increased State assistance in the 1995, 1996 and 1997 fiscal years, respectively, which could include savings from the proposed State assumption of certain Medicaid costs or various proposed mandate relief measures and include the continuation of the personal income tax surcharge, resulting in revenues of \$420, \$446 and \$471 million in the 1995, 1996 and 1997 fiscal years, respectively. The proposed gap-closing actions include City actions aggregating \$287 million, \$564 million and \$645 million in the 1995 through 1997 fiscal years, respectively; \$100 million and \$200 million in proposed additional Federal assistance in the 1996 and 1997 fiscal years, respectively; savings from various proposed mandate relief measures and the proposed reallocation of State education aid among various localities, aggregating \$175 million, \$325 million and \$475 million in the 1995 through 1997 fiscal years, respectively; and other unspecified Federal, State or City actions of \$800 million, \$800 million and \$700 million in the 1995 through 1997 fiscal years, respectively.

Various actions proposed in the Financial Plan, including the proposed continuation of the personal income tax surcharge beyond December 31, 1995 and the proposed increase in State aid, are subject to

approval by the Governor and the State Legislature, and the proposed increase in Federal aid is subject to approval by Congress and the President. The State Legislature has in previous legislative sessions failed to approve proposals for the State assumption of certain Medicaid costs, mandate relief and reallocation of State education aid, thereby increasing the uncertainty as to the receipt of the State assistance included in the Financial Plan. If these actions cannot be implemented, the City will be required to take other actions to decrease expenditures or increase revenues to maintain a balanced financial plan. The Financial Plan has been the subject of extensive public comment and criticism particularly regarding the sale of delinquent property tax receivables, the sale of the New York City Off-Track Betting Corporation ("OTB"), the amount of State and Federal aid included in the Financial Plan, the implementation of proposed BOE expenditure reductions and the inclusion of non-recurring actions. See "SECTION VII: 1994-1997 FINANCIAL PLAN—Certain Reports".

On August 4, 1993, the City Comptroller issued a report on the Financial Plan that identified risks of \$340 million, \$1.5 billion, \$2.0 billion and \$2.2 billion in fiscal years 1994 through 1997, respectively. See "SECTION VII: 1994-1997 FINANCIAL PLAN—Certain Reports".

Collective Bargaining Agreements

On January 11, 1993, the City announced a settlement with a coalition of municipal unions, including Local 237 of the International Brotherhood of Teamsters ("Local 237"), District Council 37 of the American Federation of State, County and Municipal Employees ("District Council 37") and other unions covering approximately 44% of the City's workforce. The settlement, which has been ratified by the unions, includes a total net expenditure increase of 8.25% over a 39-month period, ending March 31, 1995 for most of these employees. On April 9, 1993 the City announced an agreement with the Uniformed Fire Officers Association (the "UFOA") which is consistent with the coalition agreement. The agreement has been ratified. The Financial Plan reflects the costs associated with these settlements and provides for similar increases for all other City-funded employees.

The Financial Plan provides no additional wage increases for City employees after their contracts expire in the 1995 fiscal year. Each 1% wage increase for all employees commencing in the 1995 fiscal year would cost the City an additional \$56 million for the 1995 fiscal year and \$152 million for the 1996 fiscal year and each year thereafter above the amounts provided for in the Financial Plan.

In the event of a collective bargaining impasse, the terms of wage settlements could be determined through the impasse procedure in the New York City Collective Bargaining Law, which can impose a binding settlement. See "SECTION VII: 1994-1997 FINANCIAL PLAN—Assumptions—Expenditure Assumptions—1. Personal Service Costs".

The State

As a result of the national and regional economic recession, the State's tax receipts for its 1991 and 1992 fiscal years were substantially lower than projected. In addition, the Governor's Executive Budget for the State's 1993 fiscal year (commencing April 1, 1992) identified a potential budgetary imbalance for the State's 1993 fiscal year of \$4.8 billion (after providing for repayment of \$531 million of short-term deficit notes, but without giving effect to any remedial actions reflected in the State's budget). To correct such potential imbalance, the State took various actions for its 1992 and 1993 fiscal years, which included reductions in State aid to localities from amounts previously projected. The State completed its 1993 fiscal year with a positive margin of \$671 million in the General Fund which was deposited into a tax refund reserve account.

The 1993-94 State Financial Plan, which is based upon the enacted State budget, projects a balanced General Fund. The first quarterly update of the 1993-94 State Financial Plan was released on July 30, 1993. The Division of the Budget has cautioned, however, that its projections are subject to the risk that actual economic growth may be weaker than projected. The State Legislature failed to enact a proposed takeover of local Medicaid costs, other significant mandate relief items, and certain Medicaid cost containment items proposed by the Governor, which would have provided the City with savings. For further information concerning the State, including the State's credit ratings, see "SECTION VII: 1994-1997 FINANCIAL PLAN—Assumptions".

SECTION II: THE BONDS

General

The Bonds will be general obligations of the City issued pursuant to the Constitution and laws of the State and the New York City Charter (the "City Charter") and in accordance with a certificate of the Deputy Comptroller for Finance. The Bonds will mature and bear interest as described on the cover and inside cover pages of this Official Statement and will contain a pledge of the City's faith and credit for the payment of the principal of, redemption premium, if any, and interest on the Bonds. All real property subject to taxation by the City will be subject to the levy of ad valorem taxes, without limitation as to rate or amount, to pay the principal of, redemption premium, if any, and interest on the Bonds.

The terms of the Bonds provide for their defeasance prior to maturity by the deposit in trust with a bank or trust company of sufficient cash or cash equivalents to pay when due all principal of, applicable redemption premium, if any, and interest on the Bonds to be defeased.

Adjustable Rate Bonds

Certain of the Bonds are being issued as Adjustable Rate Bonds. For a discussion of the terms of the Adjustable Rate Bonds, see "APPENDIX C—ADJUSTABLE RATE BONDS".

Inverse Floating Rate Notes

Certain of the Bonds are being issued as Inverse Floating Rate Notes. For a discussion of the terms of the Inverse Floating Rate Notes, see "APPENDIX F—INVERSE FLOATING RATE NOTES".

Indexed Inverse Floater Securities

Certain of the Bonds are being issued as Indexed Inverse Floater Securities. For a discussion of the terms of the Indexed Inverse Floater Securities, see "APPENDIX H—INDEXED INVERSE FLOATER SECURITIES".

Payment Mechanism

Pursuant to the New York State Financial Emergency Act for the City of New York (the "Financial Emergency Act" or the "Act"), a general debt service fund (the "General Debt Service Fund" or the "Fund") has been established for City bonds and certain City notes. Pursuant to the Act, payments of the City real estate tax must be deposited upon receipt in the Fund, and retained under a statutory formula, for the payment of debt service (with exceptions for debt service, such as principal of seasonal borrowings, that is set aside under other procedures). While the statutory formula has recently resulted in retention of sufficient real estate taxes to comply with the City Covenants (as defined in "SECTION II: THE BONDS—Certain Covenants and Agreements"), the statutory formula may not necessarily result in retention of sufficient real estate taxes to comply with the City Covenants, in part because most real estate taxes are now due on different dates from those in effect when the formula was adopted. The City will comply with the City Covenants either by providing for retention of real estate taxes in excess of the statutory requirements or by making payments into the Fund from other cash resources. The principal of and interest on the Bonds will be paid from a separate fund or funds maintained in accordance with the City Covenants. Since its inception in 1978, the Fund has been fully funded at the beginning of each payment period.

If the Control Board determines that retentions in the Fund are likely to be insufficient to provide for the debt service payable therefrom, it must require that additional real estate tax revenues be retained or other cash resources of the City be paid into the Fund. In addition, the Control Board is required to take such action as it determines to be necessary so that the money in the Fund is adequate to meet debt service requirements.

The rights of the owners of Bonds to receive interest, principal and redemption premium, if any, from the City could be adversely affected by a restructuring of the City's debt under Chapter 9 of the Federal Bankruptcy Code. No assurance can be given that any priority of holders of City securities (including the Bonds) to payment from money retained in the Fund or from other cash resources would be recognized if a petition were filed by or on behalf of the City under the Federal Bankruptcy Code or pursuant to other subsequently enacted laws relating to creditors' rights; such money might, under such circumstances, be

available for the payment of all City creditors generally. Judicial enforcement of the City's obligation to make payments into the Fund, of the obligation to retain certain money in the Fund, of the rights of holders of bonds and notes of the City to money in the Fund, of the obligations of the City under the City Covenants and of the State under the State Pledge and Agreement and the State Covenant (in each case, as defined in "SECTION II: THE BONDS—Certain Covenants and Agreements") may be within the discretion of a court. For further information concerning certain rights of owners of Bonds against the City, see "SECTION VIII: INDEBTEDNESS—City Indebtedness".

Enforceability of City Obligations

As required by the State Constitution and applicable law, the City pledges its faith and credit for the payment of the principal of and interest on all City indebtedness. Holders of City debt obligations have a contractual right to full payment of principal and interest at maturity. If the City fails to pay principal or interest, the holder has the right to sue and is entitled to the full amount due, including interest to maturity at the stated rate and at the rate authorized by law thereafter until payment. Under the General Municipal Law, if the City fails to pay any money judgment, it is the duty of the City to assess, levy and cause to be collected amounts sufficient to pay the judgment. Decisions indicate that judicial enforcement of statutes such as this provision in the General Municipal Law is within the discretion of a court. Other judicial decisions also indicate that a money judgment against a municipality may not be enforceable against municipal property devoted to public use.

Certain Covenants and Agreements

The City will covenant that: (i) a separate fund or funds for the purpose of paying principal of and interest on bonds and interest on notes of the City (including required payments into, but not from, City sinking funds) shall be maintained by an officer or agency of the State or by a bank or trust company; and (ii) not later than the last day of each month, there shall be on deposit in a separate fund or funds an amount sufficient to pay principal of and interest on bonds and interest on notes of the City due and payable in the next succeeding month. The City currently uses the debt service payment mechanisms described above to perform these covenants. The City will further covenant to comply with the financial reporting requirements of the Act, as in effect from time to time.

The State pledges and agrees in the Financial Emergency Act that the State will not take any action that will impair the power of the City to comply with the covenants described in the preceding paragraph (the "City Covenants") or any right or remedy of any owner of the Bonds to enforce the City Covenants (the "State Pledge and Agreement"). The City will include in the Fixed Rate Bonds, the Inverse Floating Rate Notes and the Indexed Inverse Floater Securities the covenant of the State (the "State Covenant") to the effect, among other things, that the State will not substantially impair the authority of the Control Board in specified respects to be the independent monitor of the fiscal affairs of the City. In the opinion of Bond Counsel, the enforceability of the City Covenants, the State Pledge and Agreement and the State Covenant may be subject to bankruptcy, insolvency, reorganization, moratorium and other similar laws affecting creditors' rights heretofore or hereafter enacted and may also be subject to the exercise of the State's police powers and of judicial discretion in appropriate cases.

Optional Redemption

The Fixed Rate Bonds, the Inverse Floating Rate Notes and the Indexed Inverse Floater Securities will be subject to redemption at the option of the City on or after August 15, 2003, in whole or in part, by lot within each maturity, on any date, at the following redemption prices, plus accrued interest to the date of redemption:

Redemption Dates	as Percentage of Par
August 15, 2003 through August 14, 2004	101½%
August 15, 2004 through August 14, 2005	100¾
August 15, 2005 and thereafter	100

D. J. D. ...

The Adjustable Rate Bonds will be subject to redemption and optional and mandatory tender prior to maturity as described in "APPENDIX C—ADJUSTABLE RATE BONDS—Redemption".

The City may select amounts and maturities of Bonds for redemption in its sole discretion.

On and after any redemption date, interest will cease to accrue on the Bonds called for redemption.

Use of Proceeds

The proceeds from the sale of the Bonds will be used for various municipal capital purposes. For further information concerning the City's capital projects, see "SECTION V: CITY SERVICES AND EXPENDITURES—Capital Expenditures" and "SECTION VII: 1994-1997 FINANCIAL PLAN—Long-Term Capital and Financing Program". Certain expenses of the City incurred in connection with the issuance and sale of the Bonds, preliminary costs of surveys, maps, plans, estimates and hearings in connection with capital improvements and costs incidental to such improvements may be included in the above purposes.

Bond Certificates

Book-Entry Only System

The Depository Trust Company ("DTC"), New York, New York, will act as securities depository for the Bonds. The Bonds will be issued as fully-registered bonds registered in the name of Cede & Co. (DTC's partnership nominee). One fully-registered Bond certificate will be issued for each maturity of the Bonds, each in the aggregate principal amount of such maturity, and will be deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds securities that its direct participants ("Direct Participants") deposit with DTC. DTC also facilitates the settlement among Participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in Participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct Participants include securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is owned by a number of its Direct Participants and by the New York Stock Exchange, Inc., the American Stock Exchange, Inc., and the National Association of Securities Dealers, Inc. Access to the DTC system is also available to others such as securities brokers and dealers, banks, and trust companies that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). The Rules applicable to DTC and its Participants are on file with the Securities and Exchange Commission.

Purchases of Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the Bonds on DTC's records. The ownership interest of each actual purchaser of each Bond ("Beneficial Owner") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase, but Beneficial Owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Bonds are to be accomplished by entries made on the books of Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in Bonds, except in the event that use of the book-entry system for the Bonds is discontinued.

To facilitate subsequent transfers, all Bonds deposited by Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of Bonds with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Bonds; DTC's records reflect only the identity of the Direct Participants to whose accounts such Bonds are credited, which may or may not be the Beneficial Owners. The Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Redemption notices shall be sent to Cede & Co. If less than all of the Bonds within a maturity are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such maturity to be redeemed.

Neither DTC nor Cede & Co. will consent or vote with respect to Bonds. Under its usual procedures, DTC mails an omnibus proxy (the "Omnibus Proxy") to the City as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Principal, redemption premium, if any, and interest payments on the Bonds will be made to DTC. DTC's practice is to credit Direct Participants' accounts on the payment date in accordance with their respective holdings shown on DTC's records unless DTC has reason to believe that it will not receive payment on the payment date. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, the Fiscal Agent, or the City, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, redemption premium, if any, and interest to DTC is the responsibility of the City or the Fiscal Agent, disbursement of such payments to Direct Participants shall be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners shall be the responsibility of Direct and Indirect Participants.

A Beneficial Owner shall give notice to elect to have its Adjustable Rate Bonds purchased or tendered, through its Participant, to the Tender Agent, and shall effect delivery of such Adjustable Rate Bonds by causing the Direct Participant to transfer the Participant's interest in the Adjustable Rate Bonds, on DTC's records to the Tender Agent. The requirement for physical delivery of Adjustable Rate Bonds in connection with a demand for purchase or a mandatory purchase will be deemed satisfied when the ownership rights in the Adjustable Rate Bonds are transferred by Direct Participants on DTC's records.

DTC may discontinue providing its services as securities depository with respect to the Bonds at any time by giving reasonable notice to the City or the Fiscal Agent. Under such circumstances, in the event that a successor securities depository is not obtained, Bond certificates are required to be printed and delivered.

The City may decide to discontinue use of the system of book-entry transfers through DTC (or a successor securities depository). In that event, Bond certificates will be printed and delivered.

The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that the City believes to be reliable, but the City takes no responsibility for the accuracy thereof.

Payments and Transfers

No assurance can be given by the City that DTC will make prompt transfer of payments to the Participants or that Participants will make prompt transfer of payments to Beneficial Owners. The City is not responsible or liable for payment by DTC or Participants or for sending transaction statements or for maintaining, supervising or reviewing records maintained by DTC or Participants.

For every transfer and exchange of the Bonds, the Beneficial Owners may be charged a sum sufficient to cover any tax, fee or other charge that may be imposed in relation thereto.

Discontinuance of the Book-Entry Only System

In the event that the book-entry only system is discontinued, the City will authenticate and make available for delivery Bonds in the form of registered certificates. In addition, the following provisions would apply: principal of the Bonds and redemption premium, if any, will be payable in lawful money of the United States of America at the office of the Fiscal Agent, The Chase Manhattan Bank, N.A., if by hand, One Chase Manhattan Plaza—Level 1B, New York, New York 10081, Attn: Municipal Bond Redemption Window; if by mail, 4 Chase Metrotech Center, Brooklyn, New York 11245, Attn: Box 2020, or any successor fiscal agent designated by the City and interest on the Bonds will be payable by wire transfer or by check mailed to the respective addresses of the registered owners thereof as shown on the registration books of the City as of the close of business on the last business day of the calendar month immediately preceding the applicable interest payment date except as set forth in "Appendix C—Adjustable Rate Bonds".

SECTION III: GOVERNMENT AND FINANCIAL CONTROLS

Structure of City Government

The City of New York is divided into five counties, which correspond to its five boroughs. The City, however, is the only unit of local government within its territorial jurisdiction with authority to levy and collect taxes, and is the unit of local government primarily responsible for service delivery. Responsibility for governing the City is currently vested by the City Charter in the Mayor, the City Comptroller, the City Council, the President of the Council and the Borough Presidents.

- —The Mayor. David N. Dinkins, the Mayor of the City, took office on January 1, 1990. The Mayor is elected in a general election for a four-year term and is the chief executive officer of the City. The Mayor has the power to appoint the commissioners of the City's various departments. The Mayor is responsible for preparing and administering the City's annual Expense and Capital Budgets (as defined below) and financial plan. The Mayor has the power to veto local laws enacted by the City Council, but such a veto may be overridden by a two-thirds vote of the Council. The Mayor has powers and responsibilities relating to land use and City contracts and all residual powers of the City government not otherwise delegated by law to some other public official or body. The Mayor is also a member of the Control Board.
- —The City Comptroller. Elizabeth Holtzman, the Comptroller of the City, took office on January 1, 1990. The City Comptroller is elected in a general election for a four-year term and is the chief fiscal officer of the City. The City Comptroller has extensive investigative and audit powers and responsibilities which include keeping the financial books and records of the City. The City Comptroller's audit responsibilities include a program of performance audits of City agencies in connection with the City's management, planning and control of operations. In addition, the City Comptroller is required to evaluate the Mayor's budget, including the assumptions and methodology used in the budget. The City Comptroller is also a member of the Control Board and is a trustee, the custodian and the delegated investment manager of the City's five pension systems.
- —The City Council. The City Council is the legislative body of the City and consists of the President of the Council and 51 members elected for two-year terms commencing January 1, 1992, and four-year terms thereafter who represent various geographic districts of the City. Under the Charter, the City Council must annually adopt a resolution fixing the amount of the real estate tax and approve the City's capital and expense budgets. The City Council does not, however, have the power to enact local laws imposing other taxes, unless such taxes have been authorized by State legislation. The City Council has powers and responsibilities relating to franchises and land use.
- —The President of the Council. Andrew J. Stein, the President of the Council, took office on January 1, 1986, and was re-elected to a second term which commenced on January 1, 1990. The President of the Council is elected in a general election for a four-year term. The President of the Council may preside at meetings of the City Council without voting power, except in the case of a tie vote. The President of the Council is first in the line of succession to the Mayor in the event of the disability of the Mayor or a vacancy in the office. The President of the Council appoints a member of the City Planning Commission and has various responsibilities relating to, among other things, monitoring the activities of City agencies, the investigation and resolution of certain complaints made by members of the public concerning City agencies and ensuring appropriate public access to government information and meetings. The title of the office of the President of the City Council will be changed to Public Advocate, effective January 1, 1994, pursuant to Local Law No. 19 for the year 1993. The powers and duties of the office will remain the same.
- —The Borough Presidents. Each of the City's five boroughs elects a Borough President who serves for a four year term concurrent with other City elected officials. The Borough Presidents consult with the Mayor in the preparation of the City's annual Expense Budget and Capital Budget (as defined below). Five percent of discretionary increases proposed by the Mayor in the Expense Budget and, with certain exceptions, five percent of the appropriations supported by funds over which the City has substantial discretion proposed by the Mayor in the Capital Budget, must be based on appropriations

proposed by the Borough Presidents. Each Borough President also appoints one member to BOE and has various responsibilities relating to, among other things, reviewing and making recommendations regarding applications for the use, development or improvement of land located within the borough, monitoring and making recommendations regarding the performance of contracts providing for the delivery of services in the borough, and overseeing the coordination of a borough-wide public service complaint program.

On November 6, 1990, the voters of the borough of Staten Island voted to establish a charter commission for the purpose of proposing a charter under which Staten Island would secede from The City of New York to become a separate City of Staten Island. A subsequent referendum of the voters of Staten Island will be held in 1993 or thereafter to determine whether the proposed charter should be approved, and if such referendum is approved, the charter commission will submit to the State Legislature proposed legislation enabling Staten Island to separate from the City. The charter would take effect upon approval of such enabling legislation by the State Legislature. Any such legislation would be subject to legal challenge by the City and would require approval by the United States Department of Justice under the Federal Voting Rights Act.

City Financial Management, Budgeting and Controls

The Mayor is responsible under the City Charter for preparing the City's annual expense and capital budgets (as adopted, the "Expense Budget" and the "Capital Budget", respectively, and collectively, the "Budgets"). The Expense Budget covers the City's annual operating expenditures for municipal services, while the Capital Budget covers expenditures for capital projects, as defined in the City Charter. Operations under the Expense Budget must reflect the aggregate expenditure limitations contained in financial plans. The City Council is responsible for adopting the Expense Budget and the Capital Budget. The Mayor has the power to veto any increase or addition to the Budgets approved by the City Council and the power to determine the non-property tax revenue forecast on which the City Council must rely in adopting a balanced City budget. The City Council, acting by a two-thirds vote, may override any Mayoral veto.

The City, through the Office of Management and Budget ("OMB") and the Office of the Comptroller, has developed and implemented sophisticated accounting, reporting, forecasting and internal control systems.

OMB

OMB, with a staff of approximately 340 professionals, is the Mayor's primary advisory group on fiscal issues and is also responsible for the preparation, monitoring and control of the City's Budgets and four-year financial plans. In addition the City prepares a Ten-Year Capital Strategy.

State law requires the City to maintain its Expense Budget balanced when reported in accordance with GAAP. In addition to the City's annual Expense and Capital Budgets, the City prepares a four-year financial plan which encompasses the City's revenue, expenditure, cash flow and capital projections. All Covered Organizations, as hereinafter defined, are also required to maintain budgets that are balanced when reported in accordance with GAAP. From time to time certain Covered Organizations have had budgets providing for balanced operations on a cash basis but not balanced under GAAP.

To assist in achieving the goals of the financial plan and budget, the City reviews its financial plan periodically and, if necessary, prepares modifications to incorporate actual results and revisions to projections and assumptions to reflect current information. The City's revenue projections are continually reviewed and periodically updated with the benefit of discussions with a panel of private economists analyzing the effects of changes in economic indicators on City revenues and information from various economic forecasting services. The City conforms aggregate expenditures to the limitations contained in the financial plan.

The Mayor's Executive Budget for each of the 1986 through 1993 fiscal years received the Government Finance Officers Association (the "GFOA") Award for Distinguished Budget Presentation.

Office of the Comptroller

The City Comptroller is the City's chief fiscal officer and is responsible under the City Charter for reviewing and commenting on the City's Budgets and financial plans, including the assumptions and methodologies used in their preparation. The City Comptroller, as an independently elected public official, is required to report annually to the City Council on the state of the City's economy and finances and periodically to the Mayor and the City Council on the financial condition of the City and to make recommendations, comments and criticisms on the operations, fiscal policies and financial transactions of the City. Such reports, among other things, have differed with certain of the economic, revenue and expenditure assumptions and projections in the City's financial plans and Budgets. See "Section VII: 1994-1997 FINANCIAL PLAN—Certain Reports".

The Office of the Comptroller, with a professional staff of approximately 620, establishes the City's accounting and financial reporting practices and internal control procedures. The City Comptroller is also responsible for the preparation of the City's annual financial statements, which, since 1978, have been required to be reported in accordance with GAAP.

The Comprehensive Annual Financial Report of the Comptroller for the 1992 fiscal year, which includes, among other things, the City's financial statements for the 1992 fiscal year, has received the GFOA award of the Certificate of Achievement for Excellence in Financial Reporting, the thirteenth consecutive year the Comprehensive Annual Financial Report of the Comptroller has won such award.

All contracts for goods and services requiring the expenditure of City moneys must be registered with the City Comptroller. No contract can be registered unless funds for its payment have been appropriated by the City Council or otherwise authorized. The City Comptroller also prepares vouchers for payments for such goods and services and cannot prepare a voucher unless funds are available in the Budgets for its payment.

The City Comptroller is also required by the City Charter to audit all City agencies and has the power to audit all City contracts. The Office of the Comptroller conducts both financial and management audits and has the power to investigate corruption in connection with city contracts or contractors.

The Mayor and City Comptroller are responsible for the issuance of City indebtedness. The City Comptroller oversees the payment of such indebtedness and is responsible for the custody of certain sinking funds.

Financial Reporting and Control Systems

Since 1978, the City's financial statements have been required to be audited by independent certified public accountants and to be presented in accordance with GAAP. The City has completed twelve consecutive fiscal years with a General Fund surplus when reported in accordance with GAAP. The Governmental Accounting Standards Board ("GASB") issued Statement No. 11, Measurement Focus and Basis of Accounting—Governmental Fund Operating Statements, in May 1990. Statement No. 11 was scheduled to take effect in the City's 1995 fiscal year. In June 1993, GASB issued Statement No. 17, "Measurement Focus and Basis of Accounting—Governmental Fund Operating Statements: Amendment of the Effective Dates of GASB Statement No. 11 and Related Statements," which had the effect among other things of delaying indefinitely the implementation of Statement No. 11.

Both OMB and the Office of the Comptroller utilize financial monitoring, reporting and control systems, including the Integrated Financial Management System and a comprehensive Capital Projects Information System, which provide comprehensive current and historical information regarding the City's financial condition. This information, which is independently evaluated by each office, provides a basis for City action required to maintain a balanced budget and continued financial stability.

The City's operating results and forecasts are analyzed, reviewed and reported on by each of OMB and the Office of the Comptroller as part of the City's overall system of internal control. Internal control systems are reviewed regularly, and the City Comptroller requires an annual report on internal control and accountability from each agency. Comprehensive service level and productivity targets are formulated and monitored for each agency by the Mayor's Office of Operations and reported publicly in a semiannual management report.

The City has developed and utilizes a cash forecasting system which forecasts its daily cash balances. This enables the City to predict more accurately its short-term borrowing needs and maximize its return on the investment of available cash balances. Monthly statements of operating revenues and expenditures, capital revenues and expenditures and cash flow are reported after each month's end, and major variances from the financial plan are identified and explained.

Financial Emergency Act

The Financial Emergency Act requires that the City submit to the Control Board, at least 50 days prior to the beginning of each fiscal year (or on such other date as the Control Board may approve), a financial plan for the City and certain State governmental agencies, public authorities or public benefit corporations ("PBCs") which receive or may receive monies from the City directly, indirectly or contingently (the "Covered Organizations") covering the four-year period beginning with such fiscal year. The BOE, the New York City Transit Authority and the Manhattan and Bronx Surface Transit Operating Authority (collectively, the "Transit Authority" or the "TA"), the New York City Health and Hospitals Corporation ("HHC") and the New York City Housing Authority (the "Housing Authority" or "HA") are examples of Covered Organizations. The Act requires that the City's four-year financial plans conform to a number of standards. Unless otherwise permitted by the Control Board under certain conditions, the City must prepare and balance its budget covering all expenditures other than capital items so that the results of such budget will not show a deficit when reported in accordance with GAAP. Provision must be made, among other things, for the payment in full of the debt service on all City securities. The budget and operations of the City and the Covered Organizations must be in conformance with the financial plan then in effect.

From 1975 to June 30, 1986, the City was subject to a Control Period, as defined in the Financial Emergency Act, which was terminated upon the satisfaction of the statutory conditions for termination, including the termination of all Federal guarantees of obligations of the City, a determination by the Control Board that the City had maintained a balanced budget in accordance with GAAP for each of the three immediately preceding fiscal years and a certification by the State and City Comptrollers that sales of securities by or for the benefit of the City satisfied its capital and seasonal financing requirements in the public credit markets and were expected to satisfy such requirements in the 1987 fiscal year. With the termination of the Control Period, certain Control Board powers were suspended including, among others, its power to approve or disapprove certain contracts (including collective bargaining agreements), long-term and short-term borrowings, and the four-year financial plan and modifications thereto of the City and the Covered Organizations. After the termination of the Control Period but prior to the statutory expiration date of the Financial Emergency Act on July 1, 2008, the City will still be required to develop a four-year financial plan each year and to modify the plan as changing circumstances require. During this period, the Control Board will also continue to have certain review powers and must reimpose a Control Period upon the occurrence or substantial likelihood of the occurrence of any one of certain events specified in the Act. These events are (i) failure by the City to pay principal of or interest on any of its notes or bonds when due or payable, (ii) the existence of a City operating deficit of more than \$100 million, (iii) issuance by the City of notes in violation of certain restrictions on short-term borrowing imposed by the Act, (iv) any violation by the City of any provision of the Act which substantially impairs the ability of the City to pay principal of or interest on its bonds or notes when due and payable or its ability to adopt or adhere to an operating budget balanced in accordance with the Act, or (v) joint certification by the State and City Comptrollers that they could not at that time make a joint certification that sales of securities in the public credit market by or for the benefit of the City during the immediately preceding fiscal year and the current fiscal year satisfied its capital and seasonal financing requirements during such period and that there is a substantial likelihood that such securities can be sold in the general public market from the date of the joint certification through the end of the next succeeding fiscal year in amounts that will satisfy substantially all of the capital and seasonal financing requirements of the City during such period in accordance with the financial plan then in effect.

Financial Control Board Oversight

The Control Board, with the Municipal Assistance Corporation For The City of New York ("MAC") and the State Deputy Comptroller for The City of New York ("OSDC" or "State Deputy Comptroller"), who is appointed by the State Comptroller, reviews and monitors revenues and expenditures of the City and the Covered Organizations.

The Control Board is required to: (i) review the four-year financial plan of the City and of the Covered Organizations and modifications thereto; (ii) review the operations of the City and the Covered Organizations, including their compliance with the financial plan; and (iii) review long-term and short-term borrowings and certain contracts, including collective bargaining agreements, of the City and the Covered Organizations. The requirement to submit four-year financial plans and budgets for review was in response to the severe financial difficulties and loss of access to the credit markets encountered by the City in 1975. The Control Board must reexamine the financial plan on at least a quarterly basis to determine its conformance to statutory standards.

During a Control Period, in addition to the requirements described above, the Control Board is required to establish procedures with respect to the disbursement of monies to the City and the Covered Organizations from the Control Board Fund created by the Act.

The members of the Control Board are Mario M. Cuomo, Governor of the State of New York (Chairman); H. Carl McCall, Comptroller of the State of New York; David N. Dinkins, Mayor of The City of New York; Elizabeth Holtzman, Comptroller of The City of New York; and three members appointed by the Governor, currently Heather L. Ruth, President of the Public Securities Association; Stanley S. Shuman, Executive Vice President of Allen & Company, Incorporated; and Robert R. Kiley, President and Chief Executive Officer of Fischbach Corporation. The Executive Director of the Control Board, who is appointed jointly by the Governor and the Mayor, is Allen Proctor. The Control Board is assisted in the exercise of its responsibilities and powers under the Financial Emergency Act by the State Deputy Comptroller. Cornelius F. Healy had served as State Deputy Comptroller on an interim basis, and the position of State Deputy Comptroller is currently vacant. Rosemary Scanlon has been nominated for the position of State Deputy Comptroller, and her appointment is subject to approval by the State Senate.

SECTION IV: SOURCES OF CITY REVENUES

The City derives its revenues from a variety of local taxes, user charges and miscellaneous revenues, as well as from Federal and State unrestricted and categorical grants. State aid as a percentage of the City's revenues has remained relatively constant over the period from 1980 to 1993, while unrestricted Federal aid has been sharply reduced. The City projects that local revenues will provide approximately 68.1% of total revenues in the 1994 fiscal year while Federal aid, including categorical grants, will provide 12.0%, and State aid, including unrestricted aid and categorical grants, will provide 19.9%. Adjusting the data for comparability, local revenues provided approximately 60.6% of total revenues in 1980, while Federal and State aid each provided approximately 19.7%. A discussion of the City's principal revenue sources follows. For information regarding assumptions on which the City's revenue projections are based, see "SECTION VII: 1994-1997 FINANCIAL PLAN—Assumptions". For information regarding the City's tax base, see "APPENDIX A—ECONOMIC AND SOCIAL FACTORS".

Real Estate Tax

The real estate tax, the single largest source of the City's revenues, is the primary source of funds for the City's General Debt Service Fund. The City expects to derive approximately 42.4% of its total tax revenues and 24.5% of its total revenues for the 1994 fiscal year from the real estate tax. For information concerning tax revenues and total revenues of the City for prior fiscal years, see "SECTION VI: FINANCIAL OPERATIONS—1989-1993 Statement of Operations".

The State Constitution authorizes the City to levy a real estate tax without limit as to rate or amount (the "debt service levy") to cover scheduled payments of the principal of and interest on indebtedness of the City. However, the State Constitution limits the amount of revenue which the City can raise from the real estate tax for operating purposes (the "operating limit") to 2.5% of the average full value of taxable real estate in the City for the current and the last four fiscal years. The table below sets forth the percentage of the debt service levy to the total levy. The most recent calculation of the operating limit does not reflect the current downturn in the real estate market, which could substantially lower the operating limit in the future. The City Council has adopted a distinct tax rate for each of the four categories of real property established by State legislation. The rate per \$100 of full valuation for the 1989 through 1994 fiscal years is based on the average of the full value for the current fiscal year and the last four fiscal years.

COMPARISON OF REAL ESTATE TAX LEVIES, TAX LIMITS AND TAX RATES

Fiscal Year	Total Levy(1)	Levy Within Operating Limit	Debt Service Levy(2)	Percent of Debt Service Levy to Total Levy	Operating Limit	Percent of Levy Within Operating Limit to Operating Limit	Rate Per \$100 of Full Valuation(3)	Weighted Average Tax Rate Per \$100 of Assessed Valuation
				(Dolla	ırs i n Mil lion	ıs)		
1989	\$6,233.0	\$4,996.3	\$1,236.7	19.8%	\$ 6,808.5	73.4%	\$2.29	\$ 9.74
1990	6,872.4	5,401.3	1,471.1	21.4	7,789.1	69.3	2.21	9.91
1991(4)	7,681.3	6,154.7	1,526.6	19.9	9,109.3	67.6	2.11	10.25
1992`	8,318.8	6,262.8	2,056.0	24.7	10,631.8	58.9	1.96	10.64

1994	8,113.2	5,920.9	2,192.2	27.0	13,853.8	42.7	1.46	10.44

⁽¹⁾ As approved by the City Council.

Assessment

The City has traditionally assessed real property at less than market (full) value. The State Board of Equalization and Assessment (the "State Board") is required by law to determine annually the relationship between taxable assessed value and market value which is expressed as the "special equalization ratio". The special equalization ratio is used to compute full value for the purpose of measuring the City's compliance

⁽²⁾ The debt service levy includes a portion of the total reserve for uncollected real estate taxes.

⁽³⁾ Full valuation is based on the special equalization ratios (discussed below) and the billable assessed valuation. Special equalization ratios and full valuations are revised periodically as a result of surveys by the State Board of Equalization and Assessment.

⁽⁴⁾ Does not include supplemental levy of \$61.7 million raised in mid-year for the Criminal Justice Fund.

with the operating limit and general debt limit. For a discussion of the City's debt limit, see "SECTION VIII: INDEBTEDNESS—City Indebtedness—Limitations on the City's Authority to Contract Indebtedness". The ratios are calculated by using either a market value survey or a projection of market value growth based on recent surveys. Ratios, and therefore full values, may be revised when new surveys are completed. The ratios and full values used to compute the 1994 fiscal year operating limit, which are shown in the table below, have been established by the State Board and include the results of the calendar year 1989 market value survey. For information concerning litigation asserting that the special equalization ratios calculated by the State Board in the 1991 calendar year violate state law because they substantially overestimate the full value of City real estate for the purposes of calculating the operating limit for the 1992 fiscal year, and that the City's real estate tax levy for operating purposes in the 1992 fiscal year exceeded the State Constitutional limit, see "SECTION IX: OTHER INFORMATION—Litigation—Taxes".

BILLABLE ASSESSED AND FULL VALUE OF TAXABLE REAL ESTATE(1)

Fiscal Year	Billable Assessed Valuation of Taxable Real Estate(2)	÷	Special Equalization Ratio	=	Full Valuation(2)
1990	\$70,252,467,843		0.1741		\$403,517,908,346
1991	76,528,438,709		0.1637		467,491,989,670
1992	78,660,903,551		0.1441		545,877,193,276
1993	79,370,561,446		0.1254		632,939,086,491
1994	78,364,554,204		0.1087		720,925,061,674

⁽¹⁾ Also assessed by the City, but excluded from the computation of taxable real estate, are various categories of property exempt from taxation under State law. For the 1994 fiscal year, the billable assessed value of real estate categorized by the City as exempt is \$59.3 billion, or 42.8% of the \$138.7 billion billable assessed value of all real estate (taxable and exempt).

State law provides for the classification of all real property in the City into one of four statutory classes, of which class one primarily includes one-, two-, and three-family homes. Class two includes certain other residential property not included in class one, class three includes most utility real property and all other real property is in class four. These laws have no effect upon the constitutional limitations on the City's taxing power. Once the tax levy is determined, the tax rate for each class is then fixed by the City Council after taking into account physical changes in properties, the return of exempt properties to the tax rolls, and any changes in classification. Any class's share of the total tax levy is subject to limited adjustment to reflect market value changes among the four classes since 1989. This adjustment was limited to a five percent increase in class share for fiscal year 1994. Individual assessments on class one parcels cannot increase by more than six percent per year or twenty percent over a five-year period. Market value increases and decreases in classes two and four are generally phased in over a period of five years to determine the transition assessed value. The phase-in of market value increases in class three was eliminated in the 1986 fiscal year.

Class two and class four real property have three assessed values: actual, transition and billable. Actual assessed value is established for all tax classes without regard to the five-year phase-in requirement for most class two and all class four properties. The transition assessed value reflects this phase-in. Billable assessed value is the basis for tax liability, and is the lower of actual or transition assessments. Taxable assessed value excludes any billable assessments of properties that are exempt from the real property tax. For class one and class three real property, actual assessed value is equal to billable assessed value. Increases in class one market value in excess of applicable limitations are not phased in over subsequent years.

City real estate tax revenues may be reduced in future fiscal years as a result of tax refund claims asserting overvaluation, inequality of assessment and illegality. For a discussion of various proceedings challenging assessments of real property for real estate tax purposes, see "SECTION IX: OTHER INFORMATION—Litigation—Taxes". For further information regarding the City's potential exposure in certain of these proceedings, see "APPENDIX B—FINANCIAL STATEMENTS—Notes to Financial Statements—Note G. LONG-TERM OBLIGATIONS—Judgments and Claims".

⁽²⁾ These figures are derived from official City Council Tax Resolutions. These figures differ from the assessed and full valuation of taxable real estate reported in the Annual Financial Report of the City Comptroller which excludes veteran's property subject to tax for school purposes (the value of such property is approximately \$200 million in each year).

The State Board has certified class equalization rates and class ratios for the 1991 assessment roll and special equalization ratios for the 1993 fiscal year. The City believes that the State Board has overestimated market values for class two and class four properties in calculating these rates and ratios. The City has commenced a proceeding challenging the class equalization rates and class ratios. If the City prevails, and the market values determined by the State Board for classes two and four are reduced, the City's real property tax levy would be affected in three ways. First, the operating limit would be lower for fiscal year 1993 and thereafter. This is not expected to affect the level of property tax levy forecast during the period covered by the Financial Plan. Second, "class ratios", which are determined by the State Board and measure the ratio of assessed value to market value, would change for class two and class four. These ratios are used in real property tax certiorari proceedings involving allegations of inequality of assessments. Finally, "class equalization rates", also determined by the State Board, would also change. These rates are used to determine the proportion of the total real property tax levy in a given year which is to be paid by each of the four classes of real property in the City. A lowering of the market value determination by the State Board for classes two and four could result in a substantial increase in tax refunds required to be paid by the City to taxpayers in these classes. However, the City expects that it would seek to collect additional taxes from classes one and three in an amount sufficient to pay for the refunds. Class ratios for the 1992 assessment roll and the special equalization ratios for the 1994 fiscal year have also been established by the State Board and are also considered by the City to be improperly calculated. The City may also challenge these ratios. For further information regarding the City's proceeding, see "SECTION IX: OTHER INFORMATION—Litigation— Taxes".

Trend in Taxable Assessed Value

Over the past decade, real property tax revenues grew substantially. Because State law provides for increases in assessed values of most properties to be phased into property tax bills over five-year periods, these revenues increased and billable assessed values continued to grow through fiscal year 1993 even as actual assessed real property values declined during the local recession. For the 1994 fiscal year, billable assessed valuation for taxable property decreased by approximately 1.25% over the \$79.3 billion final valuation for fiscal year 1993. Actual assessed valuation decreased approximately 3.0% in such year from the prior fiscal year valuation of \$81.7 billion. For the 1994 assessment year, a change was made to the assessment percentages for Class 3 property, resulting in a 46% increase in Class 3 billable assessed value. This change did not yield additional revenue to the City because the Class 3 tax rate fell from \$12.79 per hundred dollars of assessed valuation in 1993 to \$7.40 in 1994. After adjusting for the change in assessment percentages, Class 3 billable assessed values grew 2.7% in 1994 and assessed values for all classes declined by 3.6%. Classes 1 and 2 declined approximately 1.0% and 2.0%, respectively, and Class 4 declined nearly 6.0% reflecting the fall-off in valuations of commercial properties.

The City forecasts growth in billable assessed values of 1.3% and 2.3% for fiscal years 1995 and 1996, respectively. The forecasts assume a real estate market improvement that will be reflected in a stable assessment in 1995 and a renewed phase-in of billable assessed values thereafter.

Collection of the Real Estate Tax

Real estate tax payments are due each July and January, with the exception of payments by owners of real property assessed at \$40,000 or less and cooperatives whose individual units on average are valued at \$40,000 or less which are paid in quarterly installments. An annual interest rate of 9% is imposed upon late prior year payments on properties for which the annual tax bill does not exceed \$2,750 and an interest rate of 18% is imposed upon late payments on all other properties. Payments for settlement of delinquencies are required on a quarterly schedule.

The real estate tax is accounted for on a modified accrual basis. Revenue accrued is limited to prior year payments received or refunds made within the first two months of the following fiscal year. In deriving the real estate tax revenue estimate, a reserve is provided for cancellations or abatements of taxes and for nonpayment of current year taxes owed and outstanding as of the end of the fiscal year.

The City is entitled to foreclose delinquent tax liens by *in rem* proceedings after one year of delinquency with respect to properties other than one and two-family dwellings and condominium apartments for which the annual tax bills do not exceed \$2,750, as to which a three-year delinquency rule is in effect.

The following table sets forth the amount of delinquent real estate taxes (owed and outstanding as of the end of the fiscal year of levy) for each of the fiscal years indicated. Delinquent real estate taxes do not include real estate taxes subject to cancellation or abatement under various exemption or abatement programs. The City believes that delinquent real estate taxes have increased recently compared to prior fiscal years as a result of the recession and the deterioration of the real estate market. The City anticipates that delinquent real estate taxes will decrease as the City's economy and real estate market recover.

REAL ESTATE TAX COLLECTIONS AND DELINQUENCIES AS OF END OF FISCAL YEAR OF LEVY

Fiscal Year	Tax Levy(1)	Cancellations and Abatements	Current Year Tax Collections(2)	Collections as a Percentage of Tax Levy	Delinquent as of end of Fiscal Year(3)	Delinquency as a Percentage of Tax Levy
			(Dollars in	Millions)		
1987	\$5,141.7	\$ 69.0	\$4,975.5	96.8%	\$ 97.2	1.89%
1988	5,586.0	72.7	5,382.4	96.4	130.9	2.34
1989	6,233.0	175.0	5,942.9	95.3	115.0	1.84
1990	6,872.4	153.0	6,542.6	95.2	176.9	2,57
1991(4)	7,681.3	223.4	7,195.2	93.7	262.6	3.42
1992	8,318.8	161.8	7,817.8	94.0	339.2	4.08
1993(5)	8,392.5	136.8	7,908.7	94.2	347.0	4.13
1994(5)	8,113.2	133.7	7,670.0	94.5	309.6	3.82

⁽¹⁾ As approved by the City Council.

Other Taxes

The City expects to derive approximately 57.6% of its total tax revenues for the 1994 fiscal year from a variety of taxes other than the real estate tax, such as: (i) the 4% sales and compensating use tax, in addition to the State 4¼% retail sales tax imposed by the State upon receipts from retail sales of tangible personal property and certain services in the City; (ii) the personal income tax on City residents and the earnings tax on non-residents; (iii) a general corporation tax levied on the income of corporations doing business in the City; (iv) a banking corporation tax imposed on the income of banking corporations doing business in the City; (v) the State-imposed stock transfer tax (while the economic effect of the stock transfer tax was eliminated as of October 1, 1981, the City's revenue loss is, to some extent, mitigated by State payments to a stock transfer tax incentive fund); and (vi) a number of other taxes.

For local taxes other than the real property tax, the City may adopt and amend local laws for the levy of local taxes to the extent authorized by the State. This authority can be withdrawn, amended or expanded by State legislation. Without State authorization, the City may locally impose property taxes to fund general operations in an amount not to exceed $2\frac{1}{2}$ % of property values in the City as determined under a State mandated formula. In addition, the State cannot restrict the City's authority to levy and collect real estate taxes outside of the $2\frac{1}{2}$ % limitation in the amount necessary to pay principal of and interest on City indebtedness. For further information concerning the City's authority to impose real property taxes, see "SECTION IV: SOURCES OF CITY REVENUES—Real Estate Tax". Payments by the State to the City of sales tax and stock transfer tax revenues are subject to appropriation by the State and are made available first to MAC for payment of MAC debt service, reserve fund requirements and operating expenses, with the balance, if any, payable to the City.

Revenues from other taxes, including Audits and Criminal Justice Fund in the 1993 fiscal year increased by \$515 million or approximately 5.6% over the 1992 fiscal year, primarily due to increases in the personal

⁽²⁾ Based on real property tax collections for each fiscal year, including the accrual period of July and August.

⁽³⁾ These figures include taxes due on certain publicly owned property.

⁽⁴⁾ Does not include supplemental levy of \$61.7 million raised in mid-year for the Criminal Justice Fund.

Total	\$8,454	\$8,513	\$8,642	\$9,264	\$9,779

⁽¹⁾ Forecast.

Miscellaneous Revenues

Miscellaneous revenues include revenue sources such as charges collected by the City for the issuance of licenses, permits and franchises, interest earned by the City on the investment of City cash balances, tuition fees at the Community Colleges and fees for various other services, reimbursement to the City from the proceeds of water and sewer rates charged by the New York City Water Board (the "Water Board") for delivery of water and sewer services and paid to the City by the Water Board for the water and sewer system, rents collected from tenants in City-owned property and from the Port Authority of New York and New Jersey (the "Port Authority") with respect to airports, and the collection of fines. The following table sets forth amounts of miscellaneous revenues for each of the City's 1989 through 1993 fiscal years.

	1989	<u>1990</u>	<u>1991</u> In Millions	<u>1992</u>	1993(1)
Licenses, Permits and Franchises	\$ 193	\$ 189	\$ 201	\$ 210	\$ 207
Interest Income	194	194	167	133	86
Charges for Services	286	299	337	369	392
Water and Sewer Payments(2)	546	571	596	644	723
Rental Income	187	207	169	158	164
Fines and Forfeitures	297	310	366	404	391
Other	367	464	426	411	579
Total	\$2,070	\$2,234	\$2,262	\$2,329	\$2,542

⁽¹⁾ Forecast.

The increase in miscellaneous revenues in the 1989 fiscal year was primarily due to a transfer of \$102 million from the Police Officers and Firefighters Variable Supplement Funds to the General Fund in accordance with a revised statutory formula for payments to such Funds and a transfer from the New York City Educational Construction Fund ("ECF") of \$83 million in repayment of loans previously made by the City. The increase in miscellaneous revenues for the 1990 fiscal year included \$205 million made available to

⁽²⁾ Personal Income Tax includes \$110 of Criminal Justice Fund revenues in the 1993 fiscal year.

All Other includes, among others, the stock transfer tax, OTB net revenues, cigarette, beer and liquor taxes, the hotel tax, the automobile use tax and, for the 1993 fiscal year, \$.8 million of Criminal Justice Fund revenues.

Beginning July 1, 1985, fees and charges collected from the users of the water and sewer system of the City became revenues of the Water Board which holds a lease interest in the water and sewer system. The New York City Municipal Water Finance Authority (the "Water Authority") is empowered to issue debt to finance capital investment in the City's water and sewer system. After providing for debt service on Water Authority obligations and certain administrative costs, the Water Board pays the City for operating the water and sewer system and restal for the system in an amount corresponding to debt service. operating the water and sewer system and rental for the system in an amount corresponding to debt service on outstanding general obligation bonds issued to finance water and sewer infrastructure.

the City as a result of a bond sale by the Battery Park City Authority and a debt refinancing by the New York State Housing Finance Agency ("HFA"). The increase in miscellaneous revenues for the 1991 fiscal year was due primarily to a sale of property by the City to the Federal Government for \$104 million and transfers of surplus funds from the Public Development Corporation and the New York City Housing Development Corporation ("HDC") amounting to \$62 million. The increase in miscellaneous revenues for the 1992 fiscal year is mainly due to the one time collections from audits of \$50 million and the sale of mortgages of \$35 million. The increase in miscellaneous revenues for the 1993 fiscal year is mainly due to a one time collection from the transfer of surplus funds from the Rehabilitation Mortgage Insurance Corporation amounting to \$23 million, a litigation settlement amounting to \$46 million and on-going payments from HHC amounting to \$159 million.

Unrestricted Intergovernmental Aid

Unrestricted Federal and State aid has consisted primarily of per capita aid from the State government. These funds, which are not subject to any substantial restriction as to their use, are used by the City as general support for its Expense Budget. State general revenue sharing (State per capita aid) is allocated among the units of local government by statutory formulas which take into account the distribution of the State's population and the full valuation of taxable real property. In recent years, however, such allocation has been based on prior year levels in lieu of the statutory formula. For a further discussion of unrestricted State aid, see "SECTION VII: 1994-1997 FINANCIAL PLAN—Assumptions—Revenue Assumptions—5. Unrestricted Intergovernmental Aid".

The following table sets forth amounts of unrestricted Federal and State aid received by the City in each of its 1989 through 1993 fiscal years.

	1989	1990	1991	1992	1993(1)
			In Millio	ns)	
State Per Capita Aid	\$535	\$535	\$535	\$534	\$535
State Shared Taxes(2)	47	47	20	27	8
Other(3)	131	105	145		157
Total	\$713	\$687	\$700	\$826	\$700

⁽¹⁾ Forecast.

Federal and State Categorical Grants

The City makes certain expenditures for services required by Federal and State mandates which are then reimbursed through Federal and State categorical grants. State categorical grants are received by the City primarily in connection with City welfare, education, higher education, health and mental health expenditures. The City also receives substantial Federal categorical grants in connection with the Federal Community Development ("Community Development") and the Job Training and Partnership Act ("JTPA"). The Federal government also provides the City with substantial public assistance, social service and education grants as well as reimbursement for costs incurred by the City in maintaining programs in a number of areas, including housing, criminal justice and health. All City claims for Federal and State grants are subject to subsequent audit by Federal and State authorities. Federal grants are also subject to audit under the Single Audit Act of 1984 by the City's independent auditors. The City provides a reserve for disallowances resulting from these audits which could be asserted in subsequent years. For a further discussion of Federal and State categorical grants, see "SECTION VII: 1994-1997 FINANCIAL PLAN—Assumptions—Revenue Assumptions—6. Federal and State Categorical Grants".

⁽²⁾ State Shared Taxes are taxes which are levied by the State, collected by the State and which, pursuant to aid formulas determined by the State Legislature, are returned to various communities in the State. Beginning on April 1, 1982, these payments were replaced by funds appropriated pursuant to the Consolidated Local Highway Assistance Program, known as "CHIPS".

⁽³⁾ Included in the 1989, 1990, 1991, 1992 and 1993 fiscal years are \$50 million, \$58 million, \$69 million, \$75 million and \$81 million, respectively, of aid associated with the State takeover of long-term care Medicaid costs.

The following table sets forth amounts of Federal and State categorical grants received by the City for each of the City's 1989 through 1993 fiscal years.

⁽¹⁾ Forecast.

⁽²⁾ Amounts represent actual funds received and may be lower or higher than the appropriation of funds actually provided by the Federal government for the particular fiscal year due either to underspending or the spending of funds carried forward from prior fiscal years.

SECTION V: CITY SERVICES AND EXPENDITURES

Expenditures for City Services

Three types of governmental agencies provide public services within the City's borders and receive financial support from the City. One category is the mayoral agencies established by the City Charter which include, among others, the Police, Fire and Sanitation Departments. Another is the independent agencies which are funded in whole or in part through the City Budgets but which have greater independence in the use of appropriated funds than the mayoral agencies. Included in this category are certain Covered Organizations such as HHC, the Transit Authority and BOE. A third category consists of certain PBCs which were created to finance the construction of housing, hospitals, dormitories and other facilities and to provide other governmental services in the City. The legislation establishing this type of agency contemplates that annual payments from the City, appropriated through its Expense Budget, may or will constitute a substantial part of the revenues of the agency. Included in this category are, among others, the HFA and the City University Construction Fund (the "CUCF"). For information regarding expenditures for City services, see "SECTION VI: FINANCIAL OPERATIONS—1989-1993 Statement of Operations".

Federal and State laws require the City to provide certain social services for needy individuals and families who qualify for such assistance. Aid to Families with Dependent Children ("AFDC") supports approximately 72.8% of the City's public assistance caseload and receives approximately 50% Federal and 25% State reimbursement. In addition, Home Relief provides support for those who do not qualify for AFDC but are in need of public assistance. The cost of Home Relief is borne equally by the City and the State.

The Federal Government fully funds and administers a program of Supplemental Security Income ("SSI") for the aged, disabled, and blind which provides recipients with a grant based on a nationwide standard. New York State law requires that this standard be supplemented with additional payments that vary according to an individual's living arrangement. Since September 30, 1978, the State has assumed responsibility for the entire cost of both the State and City shares of this SSI supplement. State assumption of the City's share has been extended through September 1995. The City also provides many other social services such as day care, foster care, family planning, services for the elderly and special employment services for welfare recipients.

The City's elementary and secondary school system is operated under the general supervision of BOE, with considerable authority over elementary and junior high schools also exercised by the 32 Community School Boards. BOE is responsible to the State on policy issues and to the City on fiscal matters. The number of pupils in the school system for the 1993-1994 school year is estimated to be 1,020,290. Actual enrollment in fiscal years 1989 through 1993 has been 937,248, 939,638, 956,658, 973,263 and 995,465, respectively. Between fiscal years 1989 and 1993, the percentage of the City's total budget allocated to BOE has remained relatively stable at approximately 25.25%; in fiscal year 1994 the percentage of the City's total budget allocated to BOE is projected to be 25.61%. See "SECTION VII: 1994-1997 FINANCIAL PLAN—Assumptions—Expenditure Assumptions—2. Other Than Personal Service Costs—Board of Education". The City's system of higher education, consisting of its Senior Colleges and Community Colleges, is operated under the supervision of CUNY. The City is projected to provide approximately 32.2% of the costs of the Community Colleges in the 1994 fiscal year. The State has full responsibility for the costs of operating the Senior Colleges, although the City is required initially to fund these costs.

The City administers health services programs for the care of the physically and mentally ill and the aged. HHC maintains and operates the City's eleven municipal hospitals, five long-term care facilities, a network of neighborhood health centers and the Emergency Medical Service. HHC is funded primarily by third party reimbursement collections from Medicare, Medicaid, Blue Cross-Blue Shield and commercial insurers, and also by direct patient payments and City appropriations.

Medicaid provides basic medical assistance to needy persons. The City is required by State law to furnish medical assistance through Medicaid to all City residents meeting eligibility requirements established by the State. The State's budget for the 1984 fiscal year reduced the City's share of Medicaid costs in 1983 from its previous level of 25% of the cost of all Medicaid eligible care. The State commenced on

January 1, 1984 to assume over a three-year period all but 20% of the non-Federal share of long-term care costs and all of the costs of providing medical assistance to the mentally disabled. The Federal government will continue to pay approximately 50% of Medicaid costs for Federally eligible recipients.

The City's expense budget has increased during the five-year period ended June 30, 1993, due to, among other factors, the costs of labor settlements, the growth in the number of full-time City employees, higher mandated costs, including increases in public and medical assistance, and the impact of inflation on various other than personal service costs.

Employees and Labor Relations

Employees

The following table presents the number of full-time employees of the City, including the mayoral agencies, BOE and CUNY, at the end of each of the City's 1989 through 1993 fiscal years.

	1989	1990	<u>1991</u>	1992	1993(1)
Education	84,754	86,224	86,071	83,863	86,981
Police	33,414	32,976	34,401	34,217	35,531
Social Services	29,227	31,491	31,404	28,890	28,810
City University	3,828	3,843	3,864	3,516	3,682
Environmental Protection and Sanitation	17,812	18,300	17,366	16,560	16,714
Fire	13,321	12,769	12,679	12,571	12,537
All Other	56,027	57,487	57,423	54,491	54,184
Total	238,383	243,090	243,208	234,108	238,439

⁽¹⁾ As of June 30, 1993.

The following table presents the number of full-time employees of certain Covered Organizations, as reported by such Organizations, at the end of each of the City's 1989 through 1993 fiscal years.

	<u>1989</u>	1990	1991	<u>1992</u>	1993(1)
Transit Authority	52,315	51,471	49,035	48,388	48,530
Housing Authority	14,747	15,253	15,106	15,271	16,149
HHC		46,194	45,717	45,498	47,156
Total(2)	112,177	112,918	109,858	109,157	111,835

⁽¹⁾ As of March 31, 1993.

The foregoing tables include persons whose salaries or wages are paid by certain public employment programs, principally programs funded under JTPA, which support employees in non-profit and State agencies as well as in the mayoral agencies and the Covered Organizations.

Labor Relations

Substantially all of the City's full-time employees are members of labor unions. The Financial Emergency Act requires that all collective bargaining agreements entered into by the City and the Covered Organizations be consistent with the City's current financial plan, except for certain awards arrived at through impasse procedures. During a Control Period, and subject to the foregoing exception, the Control Board would be required to disapprove collective bargaining agreements that are inconsistent with the City's current financial plan.

Under applicable law, the City may not make unilateral changes in wages, hours or working conditions under any of the following circumstances: (i) during the period of negotiations between the City and a union representing municipal employees concerning a collective bargaining agreement; (ii) if an impasse panel is appointed, then during the period commencing on the date on which such panel is appointed and ending sixty days thereafter or thirty days after it submits its report, whichever is sooner, subject to extension under

⁽²⁾ The definition of "full-time employees" varies among the Covered Organizations and the City.

certain circumstances to permit completion of panel proceedings; or (iii) during the pendency of an appeal to the Board of Collective Bargaining. Although State law prohibits strikes by municipal employees, strikes and work stoppages by employees of the City and the Covered Organizations have occurred.

For information regarding the City's most recently negotiated collective bargaining settlement, as well as assumptions with respect to the cost of future labor settlements and related effects on the 1994-1997 Financial Plan, see "SECTION VII: 1994-1997 FINANCIAL PLAN—Assumptions—Expenditure Assumptions—1. Personal Service Costs".

Pensions

The City maintains a number of pension systems providing benefits for its employees and employees of various independent agencies (including certain Covered Organizations). For further information regarding the City's pension systems and the City's obligations thereto, see "SECTION IX: OTHER INFORMATION—Pension Systems".

Capital Expenditures

The City makes substantial capital expenditures to reconstruct, rehabilitate and expand the City's infrastructure and physical assets, including City mass transit facilities, sewers, streets, bridges and tunnels, and to make capital investments that will improve productivity in City operations. For additional information regarding the City's infrastructure, physical assets and capital program, see "SECTION VII: 1994-1997 FINANCIAL PLAN—Long-Term Capital and Financing Program" and "APPENDIX A—ECONOMIC AND SOCIAL FACTORS".

The City utilizes a three-tiered capital planning process consisting of the Ten-Year Capital Strategy (previously, the Ten-Year Capital Plan), the Four-Year Capital Program and the current-year Capital Budget. The Ten-Year Capital Strategy, which is published biannually in conjunction with the Executive Budget, is a long-term planning tool designed to reflect fundamental allocation choices and basic policy objectives. The Four-Year Capital Program translates mid-range policy goals into specific projects. The Capital Budget defines specific projects and the timing of their initiation, design, construction and completion.

On May 3, 1993, the City published a Ten-Year Capital Strategy for fiscal years 1994 through 2003 (the "Ten-Year Capital Strategy"). The Ten-Year Capital Strategy totals \$51.6 billion, of which approximately 93% will be financed with City funds. The Ten-Year Capital Strategy includes an assumption that the debt service cost relating to \$2.9 billion of the educational capital program for the ten-year period will be paid from incremental building aid payments from the State, to which the City will be entitled as a result of the scope of its capital program authorized for educational facilities. This aid requires an annual allocation and appropriation from the State. Also, BOE is expected by the end of calendar year 1993 to propose a five-year capital program for fiscal years 1995 through 1999. The Ten-Year Capital Strategy provides for \$4.0 billion for BOE for that period, as compared with \$4.3 billion for the preceding five-year period. In addition, the State has approved a \$9.6 billion capital funding schedule for the Metropolitan Transportation Authority (the "MTA") for fiscal years 1992 through 1996, which contemplates a capital contribution by the City that is \$500 million higher than the amount provided for this purpose in the Ten-Year Capital Strategy.

The Ten-Year Capital Strategy also assumes that the debt service cost relating to approximately \$671 million of the future capital program for HHC through the 1997 fiscal year and \$1.3 billion over the ten-year period will be paid from incremental third party reimbursement to HHC as a result of capital improvements coming into service during the period.

The Ten-Year Capital Strategy includes (i) \$10.4 billion to construct new schools and improve existing educational facilities; (ii) \$5.0 billion for expanding and upgrading the City's housing stock; (iii) \$2.3 billion for reconstruction or resurfacing more than 12,000 lane miles of City streets; (iv) \$1.6 billion for continued City-funded investment in mass transit; (v) \$3.7 billion for the continued reconstruction of all four East River bridges and over 333 other bridge structures; (vi) \$1.4 billion for the major reconstruction of Elmhurst, Kings County and Queens Hospitals; (vii) \$758 million to expand current jail capacity; and (viii) \$2.3 billion for construction and improvement of court facilities.

The Financial Plan reduces the portion of the City's capital program to be funded from tax-levy-supported general obligation debt by approximately 25% in each of the four years covered by the Financial Plan. Such reductions are not reflected in the Ten-Year Capital Strategy described above.

Those programs in the Ten-Year Capital Strategy financed with City funds are currently expected to be funded primarily from the issuance of general obligation bonds. Debt service on such bonds is paid out of the City's operating revenues. As well as the reduction noted above, from time to time in the past, during recessionary periods when operating revenues have come under increasing pressure, funding levels for the earlier years of the Ten-Year Capital Strategy have been reduced from those previously contemplated in order to reduce debt service costs. For information concerning the City's long-term financing program for capital expenditures, see "Section VII: 1994-1997 Financial Plan—Long-Term Capital and Financing Program".

The City's capital expenditures, including expenditures funded by State and Federal grants, totaled \$18.7 billion during the 1989 through 1993 fiscal years. City-funded expenditures, which have been financed through the issuance of City and Water Authority bonds, totaled \$16.9 billion during the 1989 through 1993 fiscal years. The following table summarizes the major categories of capital expenditures in the past five fiscal years.

	1989	1990	1991 (In M	1992 (illions)	1993(1)	Total
Education	\$ 208	\$ 380	\$ 694	\$ 681	\$ 828	\$ 2,791

Sanitation	210	223	172	153	170	928
All Other(3)	724	1,039	877	678	706	4,024
Total Expenditures(4)	\$3,143	\$3,751	\$4,233	\$3,893	\$3,712	\$18,732
City-funded Expenditures(5)	\$2,690	\$3,213	\$3,946	\$3,582	\$3,432	\$16,863

⁽¹⁾ Forecast.

In October 1989, the City completed an inventory of the major portion of its assets and asset systems which have a replacement cost of \$10 million or more and a useful life of at least ten years, as required by the City Charter. In May 1993, the City issued an assessment of the asset condition and a proposed maintenance schedule for the inventoried assets. For information concerning a report which sets forth the recommended capital investment to bring certain identified assets of the City to a state of good repair, see "Section VII: 1994-1997 FINANCIAL PLAN—Long-Term Capital and Financing Program".

⁽²⁾ Excludes the Transit Authority's non-City portion of the MTA's Capital Program.

⁽³⁾ All Other includes, among other things, parks, correction facilities, public structures and equipment.

⁽⁴⁾ Total Expenditures for the 1989 through 1992 fiscal years include City, State and Federal funding and represent amounts which include an accrual for work-in-progress. The figures for the 1989 through 1992 fiscal years are derived from the Comprehensive Annual Financial Report of the Comptroller. Total expenditures for fiscal year 1993 include City, State, and Federal funding as reported in the Financial Plan.

⁽⁵⁾ City-funded Expenditures do not include an accrual and represent actual cash expenditures occurring during the fiscal year.

SECTION VI: FINANCIAL OPERATIONS

The City's General Purpose Financial Statements and the auditors' opinion thereon are presented in "APPENDIX B—FINANCIAL STATEMENTS". Further details are set forth in the Comprehensive Annual Financial Report of the Comptroller for the Fiscal Year Ended June 30, 1992, which is available for inspection at the Office of the Comptroller. For a summary of the City's significant accounting policies, see "APPENDIX B—FINANCIAL STATEMENTS—Notes to Financial Statements—Note A". For a summary of the City's operating results for the previous five fiscal years, see "SECTION VI: FINANCIAL OPERATIONS—1989-1993 Statement of Operations". Except as otherwise indicated, all of the financial data relating to the City's operations contained in this Official Statement, although derived from the City's books and records, are unaudited. In addition, the City's independent certified public accountants have not compiled or examined, or applied agreed upon procedures to, the forecast of 1993 results or the Financial Plan.

The estimates and projections contained in this Section and elsewhere in this Official Statement are based on, among other factors, evaluations of historical revenue and expenditure data, analyses of economic trends and current and anticipated Federal and State legislation affecting the City's finances. The City's financial projections are based upon numerous assumptions and are subject to certain contingencies and periodic revision which may involve substantial change. Consequently, the City makes no representation or warranty that these estimates and projections will be realized.

1989-1993 Statement of Operations

The following table sets forth the City's results of operations for its 1989 through 1992 fiscal years and the forecasted results for the 1993 fiscal year reported in accordance with GAAP. The information contained in this table regarding the City's 1993 fiscal year is unaudited and is the current financial plan forecast for the 1993 fiscal year. See "SECTION VI: FINANCIAL OPERATIONS— Forecast of 1993 Results". The City's operating results for the fiscal year which ended June 30, 1993 will not be finalized until audited results are available at the end of October 1993. However, included in the City's forecast of expenditures for the 1993 fiscal year is an unallocated General Reserve of \$40 million. The City believes that this reserve should be adequate to provide for any year-end adjustments and would form the basis for a GAAP surplus for the General Fund for the City's 1993 fiscal year. See "SECTION VI: FINANCIAL OPERATIONS—Forecast of 1993 Results".

The information regarding the 1989 through 1992 fiscal years has been derived from the City's audited financial statements and should be read in conjunction with the notes accompanying this table and the City's 1991 and 1992 financial statements included in "APPENDIX B—FINANCIAL STATEMENTS". The 1989 and 1990 financial statements are not separately presented in this Official Statement. For further information regarding the City's revenues and expenditures, see "SECTION IV: SOURCES OF CITY REVENUES" and "SECTION V: CITY SERVICES AND EXPENDITURES".

Surplus(5)	\$ 6	\$ 5	\$ 5	\$ 4	<u>\$ </u>	

⁽¹⁾ The City's results of operations refer to the City's General Fund revenues and transfers reduced by expenditures and transfers. The revenues and assets of PBCs included in the City's audited financial statements do not constitute revenues and assets of the City's General Fund, and, accordingly, the revenues of such PBCs, other than net OTB revenues, are not included in the City's results of operations. Expenditures required to be made by the City with respect to such PBCs are included in the City's results of operations. For further information regarding the particular PBCs included in the City's financial statements, see "APPENDIX B—FINANCIAL STATEMENTS—Notes to Financial Statements—Note A".

⁽²⁾ The forecasted results for the 1993 fiscal year exclude Interfund Revenues of \$226 million both in Revenues and Transfers and Expenditures and Transfers, while such amounts are included in the 1993 Modification in Revenues and Expenditures. See "SECTION VII: FINANCIAL OPERATIONS—Forecast of 1993 Results".

⁽³⁾ Real Estate Tax for the 1991, 1992 and 1993 fiscal years includes \$56 million, \$131 million and \$130 million, respectively, of Criminal Justice Fund revenues.

⁽⁴⁾ Revenues include amounts paid and expected to be paid to MAC by the State from sales tax receipts, stock transfer tax receipts and State per capita aid otherwise payable by the State to the City. Pursuant to State statute, these revenues flow directly from the State to MAC, and flow to the City only to the extent not required by MAC for debt service on MAC bonds and any MAC notes and for MAC operating expenses and reserve fund requirements. The City includes such revenues as City revenues and reports the amount retained by MAC from such revenues as "MAC Debt Service Funding", although the City has no control over the statutory application of such revenues to the extent MAC requires them. Estimates of City "Debt Service" include, and estimates of "MAC Debt Service Funding" are reduced by, payments by the City of debt service on City obligations held by MAC. Other Taxes include transfers of net OTB revenues. Other Taxes for the 1992 fiscal year includes \$1.5 million of Criminal Justice Fund lottery revenues. For further information regarding the City's revenues from Other Taxes, see "SECTION IV: SOURCES OF CITY REVENUES—Other Taxes".

(5) The General Fund surplus is the surplus after discretionary transfers and expenditures. The City had General Fund operating

⁽⁵⁾ The General Fund surplus is the surplus after discretionary transfers and expenditures. The City had General Fund operating surpluses of \$570 million, \$27 million, \$253 million, \$409 million before discretionary transfers and expenditures for the 1992, 1991, 1990 and 1989 fiscal years, respectively.

Forecast of 1993 Results

The following table compares the forecast for the 1993 fiscal year contained in the financial plan submitted to the Control Board on June 11, 1992 (the "June 1992 Forecast") with the 1993 Modification submitted to the Control Board on June 23, 1993 (the "June 1993 Forecast"). These forecasts were prepared on a basis consistent with GAAP.

GAP TO BE CLOSED	<u> </u>	<u>\$ —</u>	<u>\$ —</u>

⁽¹⁾ The forecasted increase of \$522 million in Other Taxes is primarily due to projected increases in collections of the personal income tax (\$337 million), the banking corporation tax (\$87 million), the general corporation tax (\$59 million), the sales tax (\$17 million), and the unincorporated business tax (\$35 million). These increases are offset by a forecasted decrease of \$32 million in the commercial rent tax.

⁽²⁾ The forecasted decrease of \$49 million in the Criminal Justice Fund is due to a reduction in the proceeds from the City lottery.

⁽³⁾ Excluding the increase in Intra-City Revenues, Miscellaneous Revenues declined by \$89 million, which is almost entirely due to a decrease of \$109 million in water and sewer revenues.

⁽⁴⁾ The increase in Federal and State Categorical Grants is due in part to modifications that were processed from July to March as well as adjustments to the expenditure forecast.

⁽⁵⁾ The increase in Personal Service is in part due to the cost of the labor settlement with the civilian coalition and the assumptions that all employees will settle for the same economic terms. The balance of the increase is due to revisions in the expenditure forecast.

⁽⁶⁾ The increase in Other Than Personal Service is primarily due to budget modifications that were processed from July to March as well as adjustments to the expenditure forecast.

⁽⁷⁾ The increase in Debt Service reflects an increase of \$158 million as a result of discretionary adjustments in debt service funding between 1993 and 1994, a decrease of \$77 million as a result of discretionary adjustments between 1992 and 1993, various reductions in long-term debt service of \$37 million and savings in short-term interest costs of \$26 million.

SECTION VII: 1994-1997 FINANCIAL PLAN

The following table sets forth the City's projected operations on a basis consistent with GAAP for the 1994 through 1997 fiscal years as contained in the 1994-1997 Financial Plan. This table should be read in conjunction with the accompanying notes, "Actions to Close the Gaps" and "Assumptions", below. For information regarding recent developments, see "SECTION I—RECENT FINANCIAL DEVELOPMENTS".

	1994-1997 Fiscal Years(1)(2)			
	1994	1995	1996	1997
		(In Mil	llions)	
Revenues				
Taxes		_		
General Property Tax	\$ 7,520	\$ 7,591	\$ 7,776	\$ 8,147

⁽¹⁾ The four-year financial plan for the 1993 through 1996 fiscal years, as submitted to the Control Board on June 11, 1992, contained the following projections for the 1993-1996 fiscal years: (i) for 1993, total revenues of \$29.508 billion and total expenditures of \$29.508 billion; (ii) for 1994, total revenues of \$29.895 billion and total expenditures of \$31.492 billion, with a gap to be closed of \$1.597 billion; (iii) for 1995, total revenues of \$30.395 billion and total expenditures of \$32.092 billion, with a gap to be closed of \$1.697 billion; (iv) for 1996, total revenues of \$31.430 billion and total expenditures of \$33.676 billion with a gap to be closed of \$2.246 billion.

(footnotes continued on next page)

(footnotes continued from previous page)

The four-year financial plan for the 1992 through 1995 fiscal years, as submitted to the Control Board on July 12, 1991, contained the following projections for the 1992-1995 fiscal years: (i) for 1992, total revenues of \$28.517 billion and total expenditures of \$28.517 billion; (ii) for 1993, total revenues of \$29.025 billion and total expenditures of \$30.076 billion with a gap to be closed of \$1.051 billion; (iii) for 1994, total revenues of \$29.756 billion and total expenditures of \$31.391 billion with a gap to be closed of \$1.635 billion; and (iv) for 1995, total revenues of \$30.226 billion and total expenditures of \$31.970 billion with a gap to be closed of \$1.744 billion.

The four-year financial plan for the 1991 through 1994 fiscal years, as submitted to the Control Board on July 11, 1990, contained the following projections for the 1991-1994 fiscal years: (i) for 1991, total revenues of \$27.922 billion and total expenditures of \$27.922 billion; (ii) for 1992, total revenues of \$29.142 billion and total expenditures of \$30.112 billion with a gap to be closed of \$970 million; (iii) for 1993, total revenues of \$30.705 billion and total expenditures of \$31.516 billion with a gap to be closed of \$811 million; and (iv) for 1994, total revenues of \$32.308 billion and total expenditures of \$33.180 billion with a gap to be closed of \$872 million.

- (2) The Financial Plan combines the operating revenues and expenditures of the City and certain Covered Organizations, including BOE and CUNY. The Financial Plan does not include the total operations of HHC, but does include the City's subsidy to HHC and the City's share of HHC revenues and expenditures related to HHC's role as a Medicaid provider. Certain other Covered Organizations which provide governmental services to the City, such as the Transit Authority, are separately constituted, and their accounts are not included; however, City subsidies and certain other payments to these organizations are included. Revenues and expenditures are presented net of intra-City items, which are revenues and expenditures arising from transactions between City agencies. Until fiscal year 1989, Covered Organizations' financial plans were required to be balanced on a cash basis. Starting with the 1989 fiscal year, Covered Organizations' financial plans are required by the Act to be balanced when reported in accordance with GAAP. For information concerning the Transit Authority, see "SECTION VII: 1994-1997 FINANCIAL PLAN—Assumptions—Expenditure Assumptions—2. Other Than Personal Service Costs—Transit Authority".
- (3) Revenues include amounts paid and expected to be paid to MAC by the State from sales tax receipts, stock transfer tax receipts and State per capita aid otherwise payable by the State to the City. Pursuant to State statute, these revenues flow directly from the State to MAC, and flow to the City only to the extent not required by MAC for debt service on MAC bonds and any MAC notes and for MAC operating expenses and reserve fund requirements. The City includes such revenues as City revenues and reports the amount retained by MAC from such revenues as "MAC Debt Service Funding", although the City has no control over the statutory application of such revenues to the extent MAC requires them. Estimates of City "Debt Service" include, and estimates of "MAC Debt Service Funding" are reduced by, anticipated payments by the City of debt service on City obligations held by MAC. Other Taxes include transfers of net OTB revenues.
- (4) Criminal Justice Fund revenues comprise \$150 million, \$150 million and \$150 million from the general property tax receipts projected for the 1994 through 1996 fiscal years, respectively; a city lottery which is expected to raise \$120 million for each of 1995 and 1996 fiscal years; and \$200 million, \$167 million and \$185 million projected to be received from personal income tax for the 1994 through 1996 fiscal years, respectively.
- (5) Inter-fund revenues represent General Fund expenditures, properly includable in the Capital Budget, made on behalf of the Capital Projects Fund pursuant to inter-fund agreements.
- (6) The City's operations refer to the City's General Fund revenues reduced by expenditures. The revenues and assets of PBCs included in the City's audited financial statements do not constitute revenues and assets of the City's General Fund, and, accordingly, the revenues of such PBCs, other than net OTB revenues, are not included in the City's operations. Expenditures required to be made by the City with respect to such PBCs are included in the City's operations. For further information regarding the particular PBCs included in the City's financial statements, see "APPENDIX B—FINANCIAL STATEMENTS—Notes to Financial Statements—Note A".
- (7) For an explanation of projected expenditures for personal service costs, see "SECTION V: CITY SERVICES AND EXPENDITURES— Employees and Labor Relations".

For fiscal year 1994, the Financial Plan includes \$80 million of Anticipated State Actions. The Financial Plan assumes \$131 million in 1995 and \$291 million in each of 1996 and 1997, in Anticipated State Actions which could include savings from the proposed State assumption of certain Medicaid costs or various proposed mandate relief measures. The Financial Plan also assumes the receipt of \$150 million of Anticipated Federal Actions in each of the 1994 through 1997 fiscal years. Except for approximately \$45 million of Anticipated State Actions for the 1994 fiscal year, all the Anticipated State Actions are subject to approval by Congress and the State Legislature, and all the Anticipated Federal Actions are subject to approval by Congress and the President. The State Legislature has failed to approve such Anticipated State Actions in previous sessions including the session ending July 8, 1993.

Actions to Close the Gaps

The 1994-1997 Financial Plan reflects a program of proposed actions by the City, State and Federal governments to close the gaps between projected revenues and expenditures of \$1.3 billion, \$1.8 billion and \$2.0 billion for the 1995, 1996 and 1997 fiscal years, respectively.

City gap-closing actions total \$287 million in the 1995 fiscal year, \$564 million in the 1996 fiscal year and \$645 million in the 1997 fiscal year. These actions include increased revenues and reduced expenditures from agency actions aggregating \$165 million, \$439 million and \$470 million in the 1995 through 1997 fiscal years, respectively, including productivity savings and savings from restructuring the delivery of City services and service reductions.

State actions proposed in the gap-closing program total \$175 million, \$325 million and \$475 million in each of the 1995, 1996 and 1997 fiscal years, respectively. These actions include savings from various proposed mandate relief measures and the proposed reallocation of State education aid among various localities.

The Federal actions proposed in the gap-closing program are \$100 million and \$200 million in increased Federal assistance in fiscal years 1996 and 1997, respectively.

Other Actions proposed in the gap-closing program represent Federal, State or City actions to be specified in the future.

Various actions proposed in the Financial Plan, including the proposed continuation of the personal income tax surcharge beyond December 31, 1995, and the proposed mandate relief, State assumption of Medicaid costs and reallocation of State education aid, are subject to approval by the Governor and the State Legislature, and the proposed increase in Federal aid is subject to approval by Congress and the President. State and Federal actions are uncertain and no assurance can be given that such actions will in fact be taken or that the savings that the City projects will result from these actions will be realized. The State Legislature failed to approve the proposed Medicaid and certain mandate relief programs in the last session. The Financial Plan assumes that these proposals will be approved by the State Legislature during the 1994 fiscal year. If these measures cannot be implemented, the City will be required to take other actions to decrease expenditures or increase revenues to maintain a balanced financial plan. The continuation of the personal income tax surcharge through December 31, 1995 has been approved. See "SECTION VII: 1994-1997 FINANCIAL PLAN—Certain Reports", "SECTION VII: 1994-1997 FINANCIAL PLAN—Assumptions" and "SECTION IX: OTHER INFORMATION—Ratings".

The City's projected budget gaps for the 1996 and 1997 fiscal years do not reflect the savings expected to result from prior years' programs to close the gaps set forth in the Financial Plan. Thus, for example, recurring savings anticipated from the actions which the City proposes to take to balance the 1995 budget are not taken into account in projecting the budget gaps for the 1996 and 1997 fiscal years.

Although the City has maintained balanced budgets in each of its last twelve fiscal years, and is projected to achieve balanced operating results for the 1993 fiscal year, there can be no assurance that the gap-closing actions proposed in the Financial Plan can be successfully implemented or that the City will maintain a balanced budget in future years without additional State aid, revenue increases or expenditure reductions. Additional tax increases and reductions in essential City services could adversely affect the City's economic base.

Assumptions

The 1994-1997 Financial Plan is based on numerous assumptions, including the recovery of the City's and the region's economy beginning by the end of calendar year 1993 and the concomitant receipt of economically sensitive tax revenues in the amounts projected. The 1994-1997 Financial Plan is subject to various other uncertainties and contingencies relating to, among other factors, the extent, if any, to which wage increases for City employees exceed the annual increases assumed for the 1994 through 1997 fiscal years; continuation of the 9% interest earnings assumptions for pension fund assets affecting the City's required pension fund contributions; the willingness and ability of the State, in the context of the State's current financial condition, to provide the aid contemplated by the Financial Plan and to take various other actions to assist the City, including the proposed State takeover of certain Medicaid costs and State mandate relief; the ability of HHC, BOE and other such agencies to maintain budget balance; the willingness of the Federal government to provide Federal aid; approval of the proposed continuation of the personal income tax surcharge and the State budgets; adoption of the City's budgets by the City Council; the ability of the City to implement contemplated productivity and service and personnel reduction programs and the success with which the City controls expenditures; additional expenditures that may be incurred due to the requirements of certain legislation requiring minimum levels of funding for education; the City's ability to market its securities successfully in the public credit markets; the level of funding required to comply with the Americans with Disabilities Act of 1990; and additional expenditures that may be incurred as a result of deterioration in the condition of the City's infrastructure. Certain of these assumptions have been questioned by the City Comptroller and other public officials. See "SECTION VII: 1994-1997 FINANCIAL PLAN— Certain Reports". For further information concerning certain legislation requiring minimum levels of funding for education, see "SECTION VII: 1994-1997 FINANCIAL PLAN—Assumptions—Expenditure Assumptions—2. Other than Personal Service Costs—Board of Education".

As a result of the national and regional economic recession, the State's tax revenues for its 1991 and 1992 fiscal years were substantially lower than projected. Consequently, the State took various actions for its 1992 fiscal year, which included increases in certain State taxes and fees, substantial decreases in certain expenditures from previously projected levels, including cuts in State operations and reductions in State aid to localities, and the sale of \$531 million of short-term deficit notes prior to the end of the State's 1992 fiscal year. The State's 1992-93 budget was passed on time, closing an estimated \$4.8 billion imbalance resulting primarily from the national and regional economic recession. Major budgetary actions included a freeze in the scheduled reduction in the personal income tax and business tax surcharge, adoption of significant Medicaid cost containment or revenue initiatives, and reductions in both agency operations and grants to local governments from previously anticipated levels. The State completed its 1993 fiscal year with a positive margin of \$671 million in the General Fund which was deposited into a tax refund reserve account.

The Governor released the recommended Governor's Executive Budget for the 1993-94 fiscal year on January 19, 1993. The recommended 1993-94 State Financial Plan projected a balanced General Fund. General Fund receipts and transfers from other funds were projected at \$31.6 billion, including \$184 million carried over from the State's 1993 fiscal year. Disbursements and transfers from other funds were projected at \$31.5 billion, not including a \$67 million repayment to the State's Tax Stabilization Reserve Fund. To achieve General Fund budgetary balance in the 1994 State fiscal year, the Governor recommended various actions. These included proposed spending reductions and other actions that would reduce General Fund spending (\$1.6 billion); continuing the freeze on personal income and corporate tax reductions and on hospital assessments (\$1.3 billion); retaining moneys in the General Fund that would otherwise have been deposited in dedicated highway and transportation funds (\$516 million); a 21-cent increase in the cigarette tax (\$180 million); and new revenues from miscellaneous sources (\$91 million). The recommended Governor's 1993-94 Executive Budget included reductions in anticipated aid to all levels of local government.

In comparison to the recommended 1993-94 Executive Budget, the 1993-94 State budget, as enacted, reflects increases in both receipts and disbursements in the General Fund of \$811 million.

The \$811 million increase in projected receipts reflects (i) an increase of \$487 million, from \$184 million to \$671 million, in the positive year-end margin at March 31, 1993, which resulted primarily from improving economic conditions and higher-than-expected tax collections, (ii) an increase of \$269 million in projected receipts, \$211 million resulting from the improved 1992-93 results and the expectation of an improving economy and the balance from improved auditing and enforcement measures and other miscellaneous items, (iii) additional payments of \$200 million from the Federal government to reimburse the State for the cost of providing indigent medical care, and (iv) the payment of an additional \$50 million of personal income tax refunds in the 1992-93 fiscal year which would otherwise have been paid in fiscal year 1993-94; offset by (v) \$195 million of revenue raising recommendations in the Executive Budget that were not enacted in the budget and thus are not included in the 1993-94 State Financial Plan.

The \$811 million increase in projected disbursements reflects (i) an increase of \$252 million in projected school-aid payments, after applying estimated receipts from the State Lottery allocated to school aid, (ii) an increase of \$194 million in projected payments for Medicaid assistance and other social service programs, (iii) additional spending on the judiciary (\$56 million) and criminal justice (\$48 million), (iv) a net increase in projected disbursements for all other programs and purposes, including mental hygiene and capital projects, of \$161 million, after reflecting certain re-estimates in spending, and (v) the transfer of \$100 million to a newly-established contingency reserve.

The first quarterly update of the 1993-94 State Financial Plan was released on July 30, 1993. The update included revisions to both the anticipated receipts and disbursements set forth in the 1993-94 State Financial Plan issued on April 16, 1993. The update also contained a revised national economic forecast reflecting less robust growth than had been anticipated for the first half of calendar year 1993 and continued modest growth for the balance of calendar year 1993 and early 1994. Slow growth is expected for the New York State economy for the balance of the 1993 fiscal year. The State Division of the Budget stated that notwithstanding the revisions reflected in the first quarterly update, the State will be able to maintain a balanced 1993-94 State Financial Plan, primarily because the State's enacted budget was based upon relatively conservative assumptions. The Division of the Budget has cautioned, however, that its projections are subject to the risk that actual economic growth may be even weaker than projected.

The 1993-94 State budget, as enacted, included \$400 million less in State actions than the City had anticipated. Reform of education aid formulas was achieved which brought an additional \$145 million education dollars to New York City. However, the State Legislature failed to enact a takeover of local Medicaid costs, other significant mandate relief items and certain Medicaid cost containment items proposed by the Governor, which would have provided the City with savings. The adopted State budget cut aid for probation services, increased sanctions on social service programs, eliminated the pass-through of a State surcharge on parking tickets, cut reimbursement for CHIPS transportation operating dollars, and required a large contribution in City funds to hold the MTA fare at the current level. In the event of any significant reduction in projected State revenues or increases in projected State expenditures from the amounts currently projected by the State, there could be an adverse impact on the timing and amounts of State aid payments to the City in the future. For further information concerning the State, including the State's credit ratings, see "SECTION VII: 1994-1997 FINANCIAL PLAN—Assumptions".

In certain prior fiscal years, the State has failed to enact a budget prior to the beginning of the State's fiscal year. A delay in the adoption of the State's budget beyond the statutory April 1 deadline and the resultant delay in the State's Spring borrowing has in certain prior years delayed the projected receipt by the City of State aid, and there can be no assurance that State budgets in future fiscal years will be adopted by the April 1 statutory deadline.

The State has noted that its forecasts of tax receipts have been subject to variance in recent fiscal years. As a result of these uncertainties and other factors, actual results could differ materially and adversely from the State's current projections and the State's projections could be materially and adversely changed from time to time.

On January 13, 1992, Standard & Poor's Corporation ("Standard & Poor's") reduced its ratings on the State's general obligation bonds from A to A— and, in addition, reduced its ratings on the State's moral obligation, lease purchase, guaranteed and contractual obligation debt. Standard & Poor's also continued its negative rating outlook assessment on State general obligation debt. On April 26, 1993, Standard & Poor's revised the rating outlook assessment to stable. On June 15, 1993, Standard & Poor's confirmed its January 1992 rating and continued its outlook as stable with respect to the State's general obligation bonds. On January 6, 1992, Moody's Investors Service, Inc. ("Moody's") reduced its ratings on outstanding limited-liability State lease purchase and contractual obligations from A to Baa1. On June 15, 1993, Moody's reconfirmed its A rating on the State's general long-term indebtedness.

The projections and assumptions contained in the 1994-1997 Financial Plan are subject to revision which may involve substantial change, and no assurance can be given that these estimates and projections, which include actions which the City expects will be taken but which are not within the City's control, will be realized. The principal projections and assumptions described below are based on information available in April 1993. For information regarding certain recent developments, see "SECTION I: RECENT FINANCIAL DEVELOPMENTS".

Revenue Assumptions

1. GENERAL ECONOMIC CONDITIONS

In recent years, forecasting business and individual income taxes has been complicated by the difficulty of estimating the effects of Federal tax reform and new State and local laws, as well as the difficulty of assessing the repercussions of the 1987 stock market crash and the declines in employment in the financial services industry since 1987 on the receipt of tax revenues. The Financial Plan now projects that the economy has stabilized and that there will be a modest recovery beginning by the end of the 1993 calendar year. However, there can be no assurance that the City will recover from the current recession at that time or to the extent assumed in the Financial Plan or that the economically sensitive tax revenues projected in the Financial Plan to be received will be received in the amounts anticipated.

The following table presents a forecast of the key economic indicators for the calendar years 1993 through 1997. This forecast is based upon information available in April 1993.

FORECAST OF KEY ECONOMIC INDICATORS

710 700000	Calendar Years				
U.S. ECONOMY	1993	<u>1994</u>	1995	1996	1997
Economic Activity and Income					
Real GDP (\$ billions of 1987 dollars)	5,075.5	5,243.8	5,382.1	5,501.9	5,637.1

Percent Change	3.7	3.9	4.2	3.9	3.9

SOURCE: OMB model for the City economy.

2. REAL ESTATE TAX

Projections of real estate tax revenues are based on a number of assumptions, including, among others, assumptions relating to the tax rate, the assessed valuation of the City's taxable real estate, the delinquency rate, debt service needs, a reserve for uncollectible taxes and the operating limit. See "SECTION IV: SOURCES OF CITY REVENUES—Real Estate Tax".

The delinquency rate for the 1992 fiscal year was 4.08% and is projected to be 4.13% for the 1993 fiscal year. The 1994-1997 Financial Plan projects delinquency rates of 3.82%, 3.24%, 2.85% and 2.80%, respectively, for the 1994 through 1997 fiscal years. For information concerning the delinquency rate for prior years, see "Section IV: Sources of City Revenues—Real Estate Tax—Collection of the Real Estate Tax". For a description of proceedings seeking real estate tax refunds from the City, see "Section IX: Other Information—Litigation—Taxes".

3. OTHER TAXES

The following table sets forth amounts of revenues (net of refunds) from taxes other than the real estate tax projected to be received by the City in the 1994-1997 Financial Plan. The amounts set forth below include projected tax program revenues and excludes the Criminal Justice Fund and audit revenues.

	1994	1995	1996	1997
		(In M	fillions)	
Personal Income(1)	\$3,375	\$3,595	\$ 3,807	\$ 4,224
General Corporation	1,061	1,126	1,182	1,248
Banking Corporation	410	370	385	400
Unincorporated Business Income	438	455	477	499
Sales	2,401	2,527	2,658	2,793
Commercial Rent	625	638	660	687
Real Property Transfer	136	147	161	176
Mortgage Recording	133	144	160	177
Utility	207	203	211	219
All Other(2)	653	596	625	725
Total	\$9,439	\$9,801	\$10,326	<u>\$11,148</u>

⁽¹⁾ Personal Income excludes amounts paid to the Criminal Justice Fund of \$200 million, \$167 million and \$185 million in the 1994 through 1996 fiscal years, respectively. Personal Income includes revenues which would be generated by extension of an existing personal income tax surcharge amounting to \$143 million, \$420 million, \$446 million and \$471 million in the 1994 through 1997 fiscal years, respectively. The Financial Plan assumes renewal of the surcharge, which requires enactment of State legislation.

The 1994-1997 Financial Plan reflects the following assumptions regarding projected baseline revenues from Other Taxes: (i) with respect to personal income tax revenues, declining employment and sluggish wage and non-wage income growth; (ii) with respect to the general corporation tax, stabilization in the outlook for the manufacturing, trade and business service sectors and continued strength in the securities industry in the 1993 fiscal year, with moderate growth thereafter; (iii) with respect to the banking corporation tax, earnings declining in the 1994 through 1996 fiscal years as an improving economy causes interest rate spreads to narrow; (iv) with respect to the unincorporated business tax, continued strength in the securities industry partially offset by further weakness in the service sector, and continued improvement in fiscal year 1994; (v) with respect to the sales tax, growth below the rate of inflation until the 1994 fiscal year based on the projections for local employment and wage income; (vi) with respect to the mortgage recording and real property transfer taxes, a slow recovery in the 1994 fiscal year and the proposed extension of the mortgage recording tax to cooperatives; (vii) with respect to the commercial rent tax, declines in asking rental rates and negotiated contract rents for office space due to the glut of available space resulting from business relocations, failures, mergers and general downsizing as well as the proposed increase in the taxable thresholds; and (viii) with respect to the All Other category, the current general economic forecast. The 1994-1997 Financial Plan also assumes the timely extension by the State Legislature of the current rate structures for the non-resident earnings tax, for the resident personal income tax, for the general corporation tax, for the two special sales taxes and for the cigarette tax. Legislation extending these taxes to December 31, 1995 has been approved. The City intends to seek additional extensions through at least the 1997 fiscal year.

⁽²⁾ All Other includes, among others, stock transfer tax, the OTB net revenues, cigarette, beer and liquor taxes, the hotel tax and the automobile use tax. Stock transfer tax is \$114 million in each of the 1994 through 1997 fiscal years. All Other excludes Criminal Justice Fund lottery revenues of \$120 million in each of the 1995 and 1996 fiscal years, respectively.

4. MISCELLANEOUS REVENUES

The following table sets forth amounts of miscellaneous revenues projected to be received by the City in the 1994-1997 Financial Plan.

	1994 1995 1996 (In Millions)		<u>1997</u>	
		(111 141	iiiioiis)	
Licenses, Permits and Franchises	\$ 210	\$ 207	\$ 209	\$ 207
Interest Income	77	91	105	112
Charges for Services	408	403	395	396
Water and Sewer Payments(1)	749	726	716	726
Rental Income	183	204	191	186
Fines and Forfeitures	524	484	416	411
Other	816	442	347	314
Intra-City Revenues	610	658	664	670
Total	\$3,577	\$3,215	\$3,043	\$3,022

⁽¹⁾ Received from the Water Board. For further information regarding the Water Board, see "SECTION VII: 1994-1997 FINANCIAL PLAN—Long-Term Capital and Financing Program".

The 1994-1997 Financial Plan projects that aggregate miscellaneous revenues except for the "Other" category will remain relatively stable with offsetting increases and declines. Rental Income is estimated to increase in the 1994 through 1997 fiscal years due to the anticipated renegotiation of the airport lease with the Port Authority. For the 1994 through 1997 fiscal years, the 1994-1997 Financial Plan provides that water and sewer payments levied and collected by the Water Board will fully reimburse the City for the debt service associated with general obligation bonds issued by the City for water and sewer system purposes. Other Revenues in the 1994 fiscal year include \$120 million from union contributions, \$55 million for the proposed restructuring of OTB and \$85 million from the recovery of prior year FICA overpayments.

5. Unrestricted Intergovernmental Aid

The following table sets forth amounts of unrestricted intergovernmental aid projected to be received by the City in the 1994-1997 Financial Plan.

	1994	1995	1996	1997
	(In Millions)			
State Revenue Sharing	\$293	\$293	\$293	\$293
Other Aid	158	158	168	168
Total	\$451	\$451	\$461	\$461

The "Other Aid" category mainly consists of \$10 million annually of Highway Assistance Program Aid, approximately \$88 to \$107 million from aid associated with the State takeover of long-term care Medicaid costs, \$27 to \$33 million of recoupment for welfare clients who were originally denied disability assistance and \$15 million annually from New York State fraud audits.

For information concerning recent shortfalls in projected State tax revenues and the possible impact on State aid to the City, see "SECTION VII: 1994-1997 FINANCIAL PLAN—Assumptions".

6. FEDERAL AND STATE CATEGORICAL GRANTS

The following table sets forth amounts of Federal and State categorical grants projected to be received by the City in the 1994-1997 Financial Plan.

	1994	1995 (In Mi	1996 illions)	1997
Federal				
JTPA	\$ 74	\$ 74	\$ 74	\$ 74
Community Development(1)	276	258	258	258
Welfare	2,306	2,201	2,206	2,210
Education	733	733	733	733
Other	177	178	184	189
Total	\$3,566	\$3,444	\$3,455	<u>\$3,464</u>
State				
Welfare	\$1,846	\$1,868	\$1,874	\$1,885
Education	3,322	3,403	3,482	3,570
Higher Education	127	126	128	122
Health and Mental Health	202	195	194	194
Other	235	251	261	292
Total	\$5,732	\$5,843	\$5,939	\$6,063

⁽¹⁾ This amount represents the projected annual level of new funds. Unspent Community Development grants from prior fiscal years could increase the amount actually received.

The 1994-1997 Financial Plan assumes that all existing Federal and State categorical grant programs will continue, unless specific legislation provides for their termination or adjustment, and assumes increases in aid where increased costs are projected for existing grant programs. For information concerning recent shortfalls in projected State tax revenues and the possible impact on State aid to the City, see "SECTION VII: 1994-1997 FINANCIAL PLAN—Assumptions".

A major component of Federal categorical aid to the City is the Community Development program. Pursuant to Federal legislation, Community Development grants are provided to cities primarily to aid low and moderate income persons by improving housing facilities, parks and other capital improvements, by providing certain social programs and by promoting economic development. These grants are based on a formula that takes into consideration such factors as population, housing overcrowding and poverty.

As of March 31, 1993, approximately 10.83% of the City's full-time employees (consisting of employees of the mayoral agencies and BOE) were paid by JTPA funds, Community Development funds and from other sources not funded by unrestricted revenues of the City.

The City's receipt of categorical aid is contingent upon the satisfaction of certain statutory conditions and is subject to subsequent audits and possible disallowances by the State or Federal governments. The general practice of the State and Federal governments has been to deduct the amount of any disallowances against the current year's payment. While it may be legally possible for substantial disallowances of aid claims to be asserted during the course of the 1994-1997 Financial Plan, the City believes, based on past administrative and legislative actions, that it is unlikely that substantial disallowances would occur. The amounts of such disallowances attributable to prior years declined from \$124 million in the 1977 fiscal year to \$62 million in the 1992 fiscal year. This decrease reflects improved claims control procedures and favorable experience with the level of disallowances in recent years. As of June 30, 1993, the City had an accumulated reserve of \$178 million for future disallowances of categorical aid. The 1994-1997 Financial Plan contains a provision for aid disallowances of \$15 million for each of the City's 1994 through 1997 fiscal years.

The Federal fiscal year 1993 budget process was completed late in the 1992 calendar year. The net impact on the City is positive, as several programs benefiting the City were increased. These increases included \$21.5 million in additional Community Development Block Grant funds and \$19 million for emergency and regular tuberculosis funding through the Center for Disease Control.

On April 8, 1993, President Clinton formally submitted to Congress a budget for Federal fiscal year 1994. The President's budget contains significantly higher funding for a number of programs which would benefit the City. These include additional transportation funds through the Intermodal Surface Transportation Efficiency Act Program, Community Development Block Grant funds, HOME Investment Partnership Program funds, Head Start funds and educational funding. Proposed increases for a number of grant programs could also yield substantially more Federal aid for the City. These programs include State Legalization Impact Assistance Grants, Emergency Medical Assistance for Undocumented Workers, a Supportive Housing Program, Tuberculosis Elimination Grants and HIV Education and Prevention Grants. The City will continue to monitor the Federal budget process and will make any necessary adjustments when the final Federal budget is enacted.

Expenditure Assumptions

1. Personal Service Costs

The following table sets forth projected expenditures for personal service costs contained in the 1994-1997 Financial Plan.

	1994	1995	1996	1997
		(In Mi	illions)	
Wages and Salaries		\$11,106	\$11,231	\$11,331
Pensions		1,431	1,508	1,426
Other Fringe Benefits	2,763	2,971	3,209	3,474
Reserve for Collective Bargaining(1)	301	851	957	1,007
Total	\$15,600	<u>\$16,359</u>	<u>\$16,905</u>	\$17,238

⁽¹⁾ The Reserve for Collective Bargaining is contained in the Miscellaneous Budget and provides funding for the prospective labor settlements for all agencies.

The 1994-1997 Financial Plan projects that the authorized number of City-funded employees whose salaries are paid directly from City funds, as opposed to Federal or State funds, will decrease from an estimated level of 209,640 on June 30, 1994 to an estimated level of 204,903 by June 30, 1997, assuming the gap-closing program contained in the Financial Plan is successfully implemented.

On January 11, 1993 the City announced a settlement with a coalition of 19 municipal unions for a 39-month period that will extend into fiscal year 1995. The coalition of 19 unions includes District Council 37 and Local 237 and represents approximately 44% of the City's workforce. This settlement, which has been ratified by the unions, provides that employees will receive no wage increase during the first 18 months of the agreement, a 2% increase in the 19th month of the agreement, another 2% increase in the 31st month of the agreement and a 3% increase in the 36th month of the agreement. Thus by the end of the term of the agreement the wage increase will total 7.16%. Other benefits include a one-time bonus of \$700, a one-time payment to union-administered welfare funds of \$125 per employee and retiree and annual increases to the welfare funds totalling \$200 per employee and retiree per year. As an offset to these costs, employees hired after the first wage increase will be hired at salaries that do not include any of the increases; they will remain at those salaries for one year. If the value of all of the benefits contained in the agreement are included, the total net increase by the end of the agreement period is 8.25%. Subsequently, the City reached similar agreements with the United Probation Officers Association which represents approximately 800 probation officers, the Professional Staff Congress ("PSC") which represents over 3,000 full-time and part-time professors at the community colleges of City University and the UFOA which represents approximately 2,500 fire officers. The PSC agreement is retroactive to November 1, 1990 and will extend through June 30, 1995. The UFOA agreement is retroactive to November 1, 1990 and will extend through April 30, 1995.

The 1994-1997 Financial Plan reflects the costs associated with these settlements and provides for similar increases for all other City-funded employees. The 1994-1997 Financial Plan also provides for the

cost of wage increases for those uniformed employees who have not reached agreement with the City for the 1991 and 1992 fiscal years, based on the framework established by the 1991 police officers arbitration. The Financial Plan provides no additional wage increases for City employees after the 1995 fiscal year. Each 1% wage increase for all employees commencing in the 1995 fiscal year would cost the City an additional \$56 million for the 1995 fiscal year and \$152 million for the 1996 fiscal year and each year thereafter above the amounts provided for in the Financial Plan. The terms of wage settlements could be determined through the impasse procedure in the New York City Collective Bargaining Law, which can impose a binding settlement.

The agreement with the coalition of municipal unions also calls for the implementation of at least six workforce productivity initiatives in mid-1993; the savings produced by these initiatives will be shared with the workers involved. A Productivity Advisory Council with members from business, academia and labor has been established to advise the City concerning these and other initiatives.

On August 4, 1992, the United Federation of Teachers (the "UFT") filed a declaration of impasse with the New York State Public Employment Relations Board ("PERB"). Hearings before a panel of fact-finders began on January 13 and concluded on February 7, 1993. The panel issued its non-binding recommendations on April 28, 1993. The panel gave great weight to the pattern established by the settlement with a coalition of municipal unions in January, which called for increases totaling 8.25 percent for a thirty-nine month period and included a freeze on starting salaries for new employees. In its report, the panel recommended the same increases for teachers, with the exception of the wage freeze for starting salaries (which would add an additional 0.25 percent onto the cost). Negotiations between the parties are ongoing.

On March 12, 1993, an impasse panel issued an interim award covering approximately 8,800 firefighters of the Uniformed Firefighters Association (the "UFA") for the fifteen month period beginning July 1, 1990. On May 17, 1993 the panel issued its final award. The award conforms to the pattern set by other uniformed unions for that fifteen month period and funding for the award is reflected in the 1994-1997 Financial Plan. On June 18, 1993, the New York City Board of Collective Bargaining affirmed the impasse panel's final award following an appeal by the UFA.

For a discussion of the City's pension costs, see "SECTION IX: OTHER INFORMATION—Pension Systems" and "APPENDIX B—FINANCIAL STATEMENTS—Notes to Financial Statements—Note Q".

2. OTHER THAN PERSONAL SERVICE COSTS

The following table sets forth projected OTPS expenditures contained in the 1994-1997 Financial Plan.

	1994	1995	1996	1997
Administrative OTPS		\$ 5,893		\$ 6,281
Public Assistance	3,125	3,190	3,202	3,231
Medical Assistance (Excluding City Medicaid Payments to HHC)	1,847	2,036	2,246	2,486
HHC Support	885	987	903	928
Other	1,499	1,602	1,642	1,671
Total	\$13,249	\$13,708	\$14,068	\$14,597

Administrative OTPS

The 1994-1997 Financial Plan contains estimates of the City's administrative OTPS expenditures for general supplies and materials, equipment and selected contractual services in the 1994 fiscal year. Thereafter, to account for inflation, selected OTPS expenditures are projected to rise by approximately 3.8% in fiscal year 1995, 4.1% in fiscal year 1996 and 4.0% in fiscal year 1997. However, it is assumed that the savings from a procurement initiative will offset the need for funding such projected increases in OTPS expenditures that result from the accounting for inflation.

Energy

The 1994-1997 Financial Plan assumes different rates of inflation for energy costs for each of the 1994 through 1997 fiscal years. Inflation rates for each of the 1994 through 1997 fiscal years are set forth in the following table.

	1994	1995	1996	1997
		\	(illions	
Gasoline and Fuel Oil	3.0%	5.0%	9.0%	10.0%
Electricity	3.0	3.0	5.0	7.0
Natural Gas	4.0	3.0	4.0	6.0

Total energy expenditures are projected at \$444 million in the 1994 fiscal year, rising to \$509 million in the 1997 fiscal year. These estimates assume a constant level of energy usage, with the exception of varying annual workload and consumption changes from additional buildings taken by the City through *in rem* tax proceedings, the privatization initiative in the In-Rem Program and the annualization of fiscal year 1994 adjustments, where applicable.

Public Assistance

The average number of persons receiving income benefits under public assistance is projected to be 1,087,698 per month in the 1994 fiscal year. The 1994-1997 Financial Plan projects that the average number of recipients will increase by 4.1% in the 1994 fiscal year from the average number of recipients in the 1993 fiscal year. The Financial Plan assumes that past trends of increases in the public assistance grant level will continue during the 1994 fiscal year, with a projected annual increase in the average grant of 4.4%. Of total public assistance expenditures in the City for the 1994 fiscal year, the City-funded portion is projected to be \$868.7 million. The City-funded portion of public assistance expenditures is projected to be \$882.1 million in the 1995 fiscal year, an increase of 1.5% from the 1994 fiscal year, decreasing to \$875.7 million in the 1997 fiscal year.

Medical Assistance

Medical assistance payments projected in the Financial Plan consist of payments to voluntary hospitals, skilled nursing facilities, intermediate care facilities, home care and physicians and other medical practitioners. The City-funded portion of medical assistance payments is estimated at \$1.771 billion for the 1994 fiscal year and is expected to increase to \$2.421 billion in the 1997 fiscal year. Such payments include, among other things, City-funded Medicaid payments, but exclude City-funded Medicaid payments to HHC, as discussed below. City Medicaid costs (including City-funded Medicaid payments to HHC) assumed in the 1994-1997 Financial Plan are reduced due to the State having assumed all Medicaid costs for the mentally disabled and all but 20% of the non-Federal share of long-term care costs. The 1994-1997 Financial Plan projects savings of \$548 million in the 1994 fiscal year due to the State having assumed such costs, and projects such savings will increase to \$609 million in the 1997 fiscal year.

Health and Hospitals Corporation

The 1994-1997 Financial Plan anticipates a decrease in the 1994 fiscal year of approximately \$63 million in the City subsidy portion of the total City funds provided to HHC from the 1993 fiscal year.

Support for HHC in the 1994-1997 Financial Plan includes City-funded Medicaid payments to HHC as well as other subsidies to HHC. City-funded Medicaid payments to HHC are estimated at approximately \$621 million in the 1993 fiscal year and are projected to be approximately \$620 million in the 1997 fiscal year.

HHC operates under its own section of the 1994-1997 Financial Plan as a Covered Organization. HHC's financial plan projects City-funded expenditures of \$885 million for the 1994 fiscal year (including debt service and lease payments), increasing to \$929 million in the 1997 fiscal year. The City-funded expenditures in the 1994 fiscal year include \$246 million of general City support, \$607 million of Medicaid payments to HHC and \$32 million for certain intra-city payments. The HHC plan projects total expenditures of \$3.161 billion in the 1994 fiscal year, increasing to \$3.362 billion in the 1997 fiscal year. The plan projects no gaps between revenues and expenditures in the 1994 through 1997 fiscal years. These projections assume: (i) an increase in wages of 2.0% in fiscal year 1994, and no increases in the 1995 through 1997 fiscal years; (ii) a 1.6% increase in each of the 1994 through 1997 fiscal years in the cost of contracts with affiliated

medical schools (which provide some of the supervisory and professional staff for City hospitals); (iii) increases in pension costs; (iv) an increase of 4.5% in fiscal year 1994, 4.7% in fiscal year 1995, 4.7% in fiscal year 1996 and 4.7% in fiscal year 1997 in other than personal service costs (excluding fuel and per diem nursing costs); and (v) a weighted Medicaid in-patient rate increase of 3.6%, 2.9%, 2.9% and 2.9% in fiscal years 1994 through 1997, respectively.

Other

The projections set forth the 1994-1997 Financial Plan for "Other" OTPS include the City's contributions to the Transit Authority, the Housing Authority, CUNY and subsidies to libraries and various cultural institutions. They also include projections for the cost of future judgments and claims which are discussed separately below under "Judgments and Claims". In the past, the City has provided additional assistance to certain Covered Organizations which had exhausted their financial resources prior to the end of the fiscal year. No assurance can be given that similar additional assistance will not be required in the future.

Transit Authority

The City submitted to the Control Board on August 6, 1993 a financial plan for the Transit Authority covering its 1993 through 1997 fiscal years (the "Transit Authority Financial Plan"). The TA's fiscal year is the calendar year. The Transit Authority Financial Plan projects for its 1993 fiscal year, among other things, a cash-basis surplus of \$1.7 million and operating expenses of approximately \$3.6 billion. City assistance to the TA is \$632.1 million for the TA's 1993 fiscal year. This plan includes an increase in the City's contribution over the previous plan of \$91 million in 1993 and \$65 million per year in the out-years in order to maintain the fare at \$1.25 until 1995.

For 1993, the TA originally projected a budget gap of approximately \$265.9 million in the TA's 1993 fiscal year operating budget proposal submitted to the MTA on November 9, 1992. This proposal included the assumption of the City's paratransit program, Access-a-Ride, on July 1, 1993 at an expected net cost of \$5.1 million. The budget adopted by the MTA Board on December 18, 1992 incorporated a 20% increase in Triborough Bridge and Tunnel Authority (the "TBTA") tolls effective January 31, 1993 which is expected to raise \$43.7 million. Combined with modifications to cash flow adjustments, the budget gap was reduced to \$229.1 million.

Subsequently the MTA revised the TA's 1993 budget in April, 1993 to reflect the State's 1994 fiscal year budget. The revised budget includes the additional City funds, a portion of the Petroleum Business Tax revenues in the amount of \$73.2 million, the restoration through November, 1995 of the Corporate Tax Surcharge and other MTA actions that will close the TA's budget gap in 1993.

The Transit Authority Financial Plan forecasts cash-basis gaps of \$29.8 million, \$471.9 million, \$613.4 million and \$764.2 million in its 1994 through 1997 fiscal years, respectively, before implementation of gap-closing actions. These gaps are not required to be funded in the City's own financial plans. The gaps projected for its 1994 to 1997 fiscal years in the Transit Authority Financial Plan occur, in part, because expenditures are expected to increase by 22.4 percent between fiscal years 1993 and 1997 while revenues are expected to increase by 1.7 percent during the same period. The plan assumes that the gaps beyond 1993 will be closed in part through restoration by the end of 1995 of certain State taxes (which were restored only through November, 1995 by the State legislature) which will be available to the MTA, additional Federal, State or local assistance, increased user charges, productivity measures, reduced service levels, additional management actions, or some combination of these actions.

On April 5, 1993, the State Legislature approved and the Governor subsequently signed into law, legislation authorizing a five-year \$9.56 billion capital plan for the MTA for 1992 through 1996 including approximately \$7.4 billion in projects for the TA, with the additional resources to be provided by additional Federal, State and City capital funds, MTA bonds and other MTA resources. The MTA has submitted a 1992-1996 Capital Program based on this legislation for the approval of the MTA Capital Program Review Board (the "CPRB"), as State law requires. The State has assumed a City capital contribution \$500 million greater than the amount funded in the City's Ten-year Capital Strategy. Unless the MTA identifies additional resources, parts of the 1992-1996 Capital Program may be deferred or reduced.

If approved, the 1992-1996 Capital Program would supersede a one-year program adopted in 1992. The 1992-1996 Capital Program would succeed two previous five-year capital programs for the periods covering 1982-1986 and 1987-1991. The 1987-1991 Capital Program totaled approximately \$8.0 billion, including \$6.2 billion for TA capital projects.

The MTA originally submitted its 1992-1996 Capital Program proposal to the CPRB for approval with projected total spending of \$10.0 billion, of which the TA portion was \$7.7 billion. Due to questions about how the funding gaps in the MTA's proposed 1992-1996 Capital Program would be closed, the CPRB disapproved the proposal "without prejudice" on December 27, 1991. Pending the approval of a 1992-1996 Capital Program, the MTA proceeded with first-half fiscal year 1992 capital projects for which funding was available under existing authority. On March 9, 1992 the MTA submitted revised 1992-1996 Capital Program proposals, which identified \$6.7 billion in potential funding, most of which required action by various levels of government. The resubmission included a funding gap of \$3.3 billion, for which sources were not identified. On April 10, 1992, the CPRB disapproved the resubmission "without prejudice." Subsequently, the MTA submitted to the CPRB a proposed one-year capital program for its 1992 fiscal year, consisting of \$1.635 billion of projects for the TA and the commuter systems combined, for which \$1.6 billion of related funding has been identified. The MTA's submission was deemed approved by the CPRB on May 28, 1992 and is consistent with the State's enacted 1993 budget. The State required the MTA to submit to the CPRB by October 1, 1992 a revised 1992-1996 Capital Program, and the MTA complied. This third submission reduced the overall program to \$9.6 billion, for which \$3.7 billion in funding sources was not identified. The submission was disapproved "without prejudice" on December 30, 1992, again due to the funding shortfalls.

Board of Education

The Stavisky-Goodman Act requires the City to allocate to BOE an amount of funds from the total budget either equal to the average proportion of the total budget appropriated for BOE in the three preceding fiscal years or an amount agreed upon by the City and BOE. In 1994, 25.6% of the City's total budget is allocated to BOE, exceeding the three-year average.

The 1993 Modification incorporates \$187 million in additional City, State and Federal funds for the BOE in the 1993 fiscal year. BOE has reached an agreement in principle with the City that, after taking into account the availability of such additional funds, the City has complied with the Stavisky-Goodman Act for the 1993 fiscal year.

The 1994-1997 Financial Plan assumes student enrollment to be 1,020,290, 1,044,088, 1,066,921, 1,086,993 in the 1994 through 1997 fiscal years, respectively.

Judgments and Claims

In the fiscal year ended on June 30, 1993, the City expended \$219 million for judgments and claims. The 1994-1997 Financial Plan includes provisions for judgments and claims of \$222 million, \$228 million, \$238 million and \$247 million for the 1994 through 1997 fiscal years, respectively. The City is a party to numerous lawsuits and is the subject of numerous claims and investigations. The City has estimated that its potential future liability on account of outstanding claims against it as of June 30, 1992 amounted to approximately \$2.3 billion. This estimate was made by categorizing the various claims and applying a statistical model, based primarily on actual settlements by type of claim during the preceding ten fiscal years, and by supplementing the estimated liability with information supplied by the City's Corporation Counsel. For further information regarding certain of these claims, see "SECTION IX: OTHER INFORMATION—Litigation".

In addition to the above claims, numerous real estate tax certiorari proceedings involving allegations of inequality of assessment, illegality and overvaluation are currently pending against the City. The City's 1992 Financial Statements estimate that the potential exposure to the City in the certiorari proceedings, as of June 30, 1992, could amount to approximately \$242 million. Provision has been made for the 1993 fiscal year and in the 1994-1997 Financial Plan for estimated refunds for overpayments of real estate taxes in the amounts of \$72 million in fiscal year 1993 and an average of \$139 million in each of the 1994 through 1997 fiscal years. For further information concerning these claims, certain remedial legislation related thereto and the City's estimates of potential liability, see "SECTION IX: OTHER INFORMATION—Litigation—Taxes" and "APPENDIX B—FINANCIAL STATEMENTS—Notes to Financial Statements—Note G".

The United States Environmental Protection Agency and the City have entered into a consent decree which includes the agreement by the City to have a permanent sewage sludge disposal plan by December 31, 1998. The 1994-1997 Financial Plan includes \$100 million in each of fiscal years 1994 through 1997 to cover the estimated cost of sludge disposal. The Ten-Year Capital Strategy includes over \$1.0 billion for the construction of long-term disposal facilities. The construction of sludge dewatering facilities, which are considered the first stage of land-based sludge disposal, was completed in fiscal year 1993 at a cost of approximately \$850 million. All costs associated with sludge disposal are expected to be funded by user charges paid by the users of the water and sewer systems of the City or the proceeds of revenue bonds secured by these fees. Such user charges are currently assumed in the 1994-1997 Financial Plan.

3. Debt Service

Debt service estimates for the 1994 through 1997 fiscal years include estimates of debt service costs on outstanding City bonds and notes and future debt issuances based on current and projected future market conditions.

4. MAC DEBT SERVICE FUNDING

MAC debt service funding estimates are reduced by anticipated payments by the City of debt service on City obligations held by MAC.

MAC refunded certain of its outstanding indebtedness in February 1992 and has agreed to make available to the City \$100 million of the savings generated by such refunding in fiscal year 1993 for operating purposes. The Financial Plan includes the receipt of these funds. City debt service costs for MAC debt may also be reduced as a result of interest cost savings achieved through the refunding.

The City estimates that MAC's February 1992 refunding will make available an additional \$200 million in the aggregate in fiscal years 1994 and 1995, which may be made available to the City if MAC, the City and the Governor agree on the use of such funds. The Governor has stated that the City should use these funds for education programs. The Mayor has stated that these funds should be utilized for programs that reduce the size of government, such as early retirement incentives and productivity initiatives. The Financial Plan does not include the receipt of these funds.

5. GENERAL RESERVE

The 1994-1997 Financial Plan includes a reserve of \$280 million in fiscal year 1994 and \$150 million in each of the 1995 through 1997 fiscal years.

Certain Reports

From time to time, the Control Board staff, MAC, OSDC, the City Comptroller, various Federal agencies and others issue reports and make public statements regarding the City's financial condition, commenting on, among other matters, the City's financial plans, projected revenues and expenditures and actions by the City to eliminate projected operating deficits. Some of these reports and statements have warned that the City may have underestimated certain expenditures and overestimated certain revenues and have suggested that the City may not have adequately provided for future contingencies. Certain of these reports have analyzed the City's future economic and social conditions and have questioned whether the City has the capacity to generate sufficient revenues in the future to meet the costs of its expenditure increases and to provide necessary services. It is reasonable to expect that such reports and statements will continue to be issued and to engender public comment. It is expected that the staff of the Control Board, OSDC and the City Comptroller will issue reports in the near future reviewing the 1994-1997 Financial Plan.

The City Comptroller issued a report on the state of the City's economy on December 15, 1992. The report projected that the City's economy would slowly follow the national economy out of recession. The report noted that, from the peak employment level in April 1989 through September 1992, the City lost more than 350,000 jobs. The report stated that job loss, while continuing, had decelerated and that the productivity of persons employed in the City had risen rapidly in 1992. The report also noted that Gross City Product had stopped declining in 1992. The report projected that job losses would continue to occur in the City in 1993, but that Gross City Product would rise. The report noted that increased productivity and Gross City Product had led to raises for those persons with jobs, but that new jobs were not being created for the unemployed. The City Comptroller warned that this phenomenon was increasing the disparity between the employed and the unemployed and that the City needed to stimulate job growth to allow the unemployed to become productive members of the economy.

In her previous economic reports, the City Comptroller had stated that the recession in the City's economy began earlier and was more devastating than the national recession. The reports stated that the local recession began in the wake of the October 1987 stock market crash and that the subsequent upheaval in the financial services sector had adverse effects on the rest of the City's economy. The national recession that followed emphasized the weaknesses in the local economy, especially the high cost of doing business in the City. Such weaknesses include inflation higher than the national average, reflected in both wages and rents, a higher state and local tax burden than the national average and concerns above the quality of life and quality of services in the City. The problems in the local economy have forced and will continue to force businesses seeking to lower costs to consider relocating out of the City, decisions that are made easier by improvements in telecommunications technology and declines in the real cost of air travel. The result was an acceleration of the loss of businesses and jobs from the City.

The reports forecast that overall employment in the City's export industries that provide goods and services to the rest of the country and the world, such as financial services, communications media, corporate headquarters and producers and distributors of goods, would decline in 1992. These job losses were expected to have a devastating effect on the City's local service industries. The combined effect was reduced personal income tax collections by the City and also reduced consumer spending, thereby affecting sales and business tax collections. At the same time, the local recession caused increased demand for social services provided by the City.

The Comptroller also noted that the City economy's reliance on the financial services sector would keep the City from participating fully in the increase in manufacturing and trading activity projected to lead the nation out of its recession. The report also noted that the loss of manufacturing jobs, and a decline in retailing jobs, means there are fewer entry-level jobs available for unskilled workers, putting greater burdens on the City's social services. The report concluded that the structural weaknesses in the City's economy would persist and affect tax collections adversely throughout the 1990s.

The City Comptroller's Office issued a report on September 30, 1992 detailing the causes of, and the effects on the City's economy from, the relocation of corporate headquarters away from the City. The report explained that each corporate headquarters has a multiplier effect on the City economy because such headquarters use services provided by the local economy, such as advertising, banking, communications and real estate. Therefore, a move by a corporate headquarters out of the City means the local economy suffers from the loss of not only the jobs of the persons employed by the corporation, but also the jobs of the persons who provided such services to the corporation. The report predicted that state and local tax increases in fiscal years 1991 and 1992 will continue to drive headquarters from the City.

On August 4, 1993, the City Comptroller issued a report on the Financial Plan that identified risks of \$340 million, \$1.5 billion, \$2.0 billion and \$2.2 billion in fiscal years 1994 through 1997, respectively. The City Comptroller's estimate of risks to the fiscal year 1994 budget is based on the uncertainty of (i) receiving all the Federal aid anticipated, (ii) completing the sale or reorganization of OTB in fiscal year 1994 and (iii) winning approval to eliminate preparation time for certain teachers and on higher projections of spending on overtime. Additional risks in the out years of the Financial Plan include unspecified State and Federal aid in the gap-closing program and lower projections from the Safe Streets/Safe City lottery.

In other reports, the City Comptroller has warned that State and local tax increases in a recession can have adverse effects on the local economy and can prolong the recession. She has also expressed concerns about the effects on the City's economy and budgets of rapidly increasing water and sewer rates, decreasing rental payments in future years from the Port Authority under the leases for LaGuardia and Kennedy airports, the dependence on increased aid from the State and Federal Governments for the gap-closing program, the escalating costs of judgments and claims, federal deficit reduction measures and the increasing percentage of future years' revenues projected to be consumed by debt service, even after reductions in the capital program.

In her reports, the City Comptroller has called for improved productivity, increased competition in the City contracting process, greater savings from attrition, the consolidation of agencies, the use of savings from reduced pension fund contributions and the consideration of furloughs and wage deferrals to close the budget gaps.

On August 10, 1993, OSDC released a report on the Financial Plan. The report stated that expenditures for the 1994 fiscal year could be higher by \$240 million, due primarily to higher City payments to HHC and overtime costs in the uniformed services, and that revenues could be lower by \$182 million, resulting primarily from lower estimated tax receipts, lower estimated revenues from the sale or restructuring of OTB and the need for additional reserves for disallowances for Federal and State aid. The report noted that additional uncertainties for the 1994 fiscal year included \$150 million of projected Federal aid and \$215 million from the sale of real estate tax receivables.

With respect to the 1995 through 1997 fiscal years, the report noted that the budget gaps projected in the Financial Plan could rise by \$556 million, \$561 million and \$515 million in the 1995, 1996 and 1997 fiscal years, respectively, primarily reflecting higher City payments to HHC, higher overtime costs in the uniformed services, increased spending for BOE and lower than anticipated tax receipts, principally from a City-run lottery, the personal income tax and general corporation tax. The report noted that additional uncertainties for the 1995 through 1997 fiscal years included the amount of projected State and Federal aid that would ultimately be received by the City. The report noted that these gaps will increase even further to the extent that the City incurs increased collective bargaining costs after the expiration of the current contracts in the middle of the 1995 fiscal year. The report further notes that the gap-closing program for the 1995 through 1997 fiscal years has not yet been fully developed by the City and relies heavily on Federal and State assistance. The report concluded that, with the growth in spending projected to exceed the growth in revenues, the City faces a formidable challenge as it seeks to maintain annual budget balance and moves towards recurring structural balance.

On May 25, 1993 the private members of the Control Board, Heather L. Ruth, Robert R. Kiley and Stanley S. Shuman, issued a statement which concluded that the City has a structural budget problem which has worsened into a permanent deficit and which must be resolved through permanent changes in the types of activities the City undertakes and the types of revenues the City raises. The private members stated that if the May Financial Plan had been submitted during a Control Period, they would not have been able to vote for its approval. The private members stated that the City needs to balance its budget with actions that are reasonably under its control and that have recurring benefits, and that too many actions presented in the May Financial Plan do neither. The statement noted that the budget for the 1994 fiscal year set forth in the May Financial Plan was proposed to be balanced by relying on over \$1 billion of non-recurring actions and actions which are unlikely to occur.

On August 5, 1993, the staff of the Control Board issued a report on the Financial Plan. The staff identified risks of \$687 million, \$1.9 billion, \$2.4 billion and \$2.5 billion in each of the 1994 through 1997 fiscal years, respectively. The major risks identified in the report include actions that require State and/or Federal approval and risks associated with the City's revenue and expenditure estimates, including higher than planned overtime costs, larger City subsidy payments to HHC and proposed BOE expenditure reductions. The staff noted that the \$131 million of expenditure reductions for the City's 1994 fiscal year announced on July 2, 1993 are largely unspecified and, accordingly, there is uncertainty over the ultimate value of these proposed reductions. The staff also noted that the Financial Plan does not fundamentally change the structural incompatibility between the City's revenues and expenditures, and that the vast majority of the gap-closing actions consist of unspecified actions expected to be taken by the City, State or Federal governments. In addition, the report concludes that enhanced monitoring and control systems are needed to insure that savings from the hiring freeze are achieved and that the City's reliance upon nonrecurring resources to balance budgets has allowed structural problems to persist and, in some cases, produced larger future gaps.

Long-Term Capital and Financing Program

The City makes substantial capital expenditures to reconstruct and rehabilitate the City's infrastructure and physical assets, including City mass transit facilities, sewers, streets, bridges and tunnels, and to make capital investments that will improve productivity in City operations. However, as discussed below, during recessionary periods when operating revenues have come under increasing pressure, funding levels for the earlier years of the City's capital program have been reduced from those previously forecast in order to reduce debt service costs. For additional information regarding the City's infrastructure and physical assets, see "APPENDIX A—ECONOMIC AND SOCIAL FACTORS".

The City utilizes a three-tiered capital planning process consisting of the Ten-Year Capital Strategy, the Four-Year Capital Program and the current-year Capital Budget. The Ten-Year Capital Strategy is a long-term planning tool designed to reflect fundamental allocation choices and basic policy objectives. The Four-Year Capital Program translates mid-range policy goals into specific projects. The Capital Budget defines specific projects and the timing of their initiation, design, construction and completion.

City-funded commitments, which were \$344 million in 1979, are projected to reach \$3.3 billion in 1994. City-funded expenditures, which more than tripled between fiscal years 1980 and 1985, are forecast at \$3.8 billion in the 1994 fiscal year; total expenditures are forecast at \$4.3 billion in 1994. For additional information concerning the City's capital expenditures and the Ten-Year Capital Strategy covering fiscal years 1994 through 2003, see "SECTION V: CITY SERVICES AND EXPENDITURES—Capital Expenditures".

The following table sets forth the major areas of capital commitment projected for the 1994 through 1997 fiscal years. See "SECTION V: CITY SERVICES AND EXPENDITURES—Capital Expenditures".

1994-1997 CAPITAL COMMITMENT PLAN

	1994		1995		1996		1997	
	City Funds	All Funds	City Funds	All Funds	City Funds	All Funds	City Funds	All Funds
				(In Mi	llions)			
Mass Transit(1)	\$ 222	\$ 222	\$ 547	\$ 547	\$ 107	\$ 107	\$ 106	\$ 106
Roadway, Bridges	440	539	519	736	616	806	373	423

⁽¹⁾ Excludes the Transit Authority's non-City portion of the MTA's five-year Capital Program.

⁽²⁾ Includes water supply, water mains, water pollution control, sewer projects and related equipment.

⁽³⁾ Commitments represent contracts registered with the City Comptroller, except for certain projects which are undertaken jointly by the City and State. Totals may not add due to rounding.

⁽⁴⁾ Expenditures represent cash payments and appropriations planned to be expended for financing costs, excluding amounts for original issue discount.

⁽⁵⁾ Total Commitments include \$928 million of commitments for court facilities during the 1994 through 1997 fiscal years. Total Expenditures do not include cash payments pursuant to such commitments for court facilities. These expenditures are currently expected to be funded by the proceeds of financings by the Dormitory Authority of the State of New York, with the debt service on such financings to be funded by lease payments from the City net of a State subsidy of a portion of the interest costs.

The following table which is based on the Financial Plan sets forth the planned sources and uses of City funds to be raised through issuances of long-term debt and transfers of monies from the City's General Fund during the City's 1994 through 1997 fiscal years.

1994-1997 FINANCING PROGRAM

	<u>1994</u>	1995	1996 (In Millions	1997	Total
SOURCES OF FUNDS:			(III WIIII)	•••

Reserve Funds and Other(3)	488	316	365	388	1,557
Total	\$4,374	\$3,667	\$3,992	\$4,199	\$16,232

⁽¹⁾ The financing program assumes that HHC will finance 100% of its capital commitments.

A Federal law, the Americans with Disabilities Act of 1990, generally requires that various facilities be made accessible to disabled persons. The City is currently analyzing what actions are required to comply with the law. The City may incur substantial additional capital expenditures, as well as additional operating expenses to comply with the law. Compliance measures which require additional capital measures are expected to be achieved through the reallocation of existing funds within the City's capital program.

The City is subject to statutory and regulatory standards relating to the quality of its drinking water. State and Federal regulations require the City water supply to meet certain standards to avoid filtration. The City's water supply now meets all technical standards and the City's current efforts are directed toward protection of the watershed area. The City has taken the position that increased regulatory, enforcement and other efforts to protect its water supply, relating to such matters as land use and sewage treatment, will preserve the high quality of water in the upstate water supply system and prevent the need for filtration. The City has estimated that if filtration of the upstate water supply system is ultimately required, the capital expenditures required could be between \$4 billion and \$5 billion. The U.S. Environmental Protection Agency has granted interim approval to the City filtration's avoidance plan and intends to issue a final decision before the end of 1993.

Currently, if all City capital project requests were implemented, expenditures would exceed the City's financing projections in the current fiscal year and subsequent years. The City has therefore established capital budgeting priorities to maintain capital expenditures within the available long-term financing. Due to the size and complexity of the City's capital program, it is difficult to forecast precisely the timing of capital project activity so that actual capital expenditures may vary from the planned annual amounts.

The City's current four-year financing program and capital program includes the issuance of water and sewer revenue bonds. The Water Authority is authorized to issue bonds to finance capital investment in the City's water and sewer system. Pursuant to State law, debt service on this indebtedness is secured by water and sewer fees paid by users of the water and sewer system. Such fees are revenues of the Water Board and

⁽²⁾ Other Sources consists primarily of changes in restricted cash balances and the amount of funds advanced from the general fund for capital expenditures which have not been reimbursed from the proceeds of long-term debt.

⁽³⁾ Reserve Funds and Other comprises amounts necessary to fund certain reserves in connection with the issuance of Water Authority revenue bonds, amounts to provide for certain costs of issuance of securities and allocations for original issue discounts in connection with the issuance of City bonds. The amounts allocated for original issue discounts are 9% of the capital cash needs in the 1994 through 1997 fiscal years.

the Water Board holds a lease interest in the City's water and sewer system. After providing for debt service on obligations of the Water Authority and certain incidental costs, the revenues of the Water Board are paid to the City to cover the City's cost for operating the water and sewer system or as rental for the system. The City's Ten-Year Capital Strategy covering fiscal years 1994 through 2003 projects City-funded water and sewer investment at approximately \$9.4 billion of the \$47.8 billion City-funded portion of the plan. The City retains the legal authorization to fund any portion of the \$10.0 billion strategy with the proceeds of sales of its general obligation bonds.

Implementation of the capital plan is dependent upon the City's ability to market its securities successfully in the public credit markets. The terms and the success of projected public sales of City general obligation bonds and Water Authority revenue bonds will be subject to prevailing market conditions at the times of sale. No assurance can be given that the credit markets will absorb the projected amounts of public bond sales. As a significant portion of bond financing is used to reimburse the City's General Fund for capital expenditures already incurred, if the City is unable to sell such amounts of bonds it would have an adverse effect on the City's cash position. In addition, the need of the City to fund future debt service costs from current operations may also limit the City's capital program. The Ten-Year Capital Strategy for fiscal years 1994 through 2003 totals \$51.6 billion, of which approximately 93% is to be financed with City funds. Changes in Federal tax law which place greater restrictions on the purposes for which tax-exempt bonds may be issued may limit the ability of the City to finance certain projects through the issuance of tax-exempt bonds. For information concerning litigation which, if determined against the City, could have an adverse impact on the amount of debt the City can have outstanding under the general debt limit (defined as 10% of the average full value of taxable real estate in the City for the most recent five years), see "Section IX: Other Information—Taxes".

In October 1989, the City completed an inventory of the major portion of its assets and asset systems which have a replacement cost of \$10 million or more and a useful life of at least ten years. In May 1993, the City issued an assessment of the asset condition and a proposed maintenance schedule for the inventoried assets. The City released a report which lists for each inventoried asset the capital investment needed from an engineering perspective to bring the asset to a state of good repair, and compares the recommended capital investment with the capital spending allocated by the City in the Four-Year Capital Program to the specifically identified inventoried assets. The report does not reflect any policy considerations which could affect the appropriate amount of investment, such as whether there is a continuing need for a particular facility or whether additional changes are necessary to meet current usage requirements. In addition, the recommended capital investment for each inventoried asset is not readily comparable to the capital spending allocated by the City in the Four-Year Capital Program and the Ten-Year Capital Strategy. Only a portion of the funding set forth in the Four-Year Capital Program is allocated to specifically identified assets, and funding in the subsequent years of the Ten-Year Capital Strategy is even less identifiable with individual assets. In large part because of the difficulties in comparability at a detailed asset-by-asset level, the report indicates a substantial difference between the amount of investment recommended in the report for all inventoried City assets and amounts allocated to the specifically identified inventoried assets in the Four-Year Capital Program. OMB estimates that amounts allocated in the Ten-Year Capital Strategy fund approximately 85% of the total \$4.76 billion investment recommended in the report, although the report concludes that the capital investment in the Four-Year Capital Program for the specifically identified inventoried assets funds 50% of the recommended investment. In addition, the report sets forth operating maintenance recommendations for the inventoried assets totalling \$174 million, \$111 million, \$118 million and \$118 million for the 1994 through 1997 fiscal years, respectively. OMB has estimated that approximately 40% of such maintenance activities for fiscal year 1994 are included in the 1994-1997 Financial Plan. The Financial Plan reduces the City's capital program by approximately 25% in each of the four years covered by the Financial Plan, and such reductions are not reflected in the Ten-Year Capital Strategy or the Four-Year Capital Program described above.

Seasonal Financing Requirements

The City since 1981 has fully satisfied its seasonal financing needs in the public credit markets, repaying all short-term obligations within their fiscal year of issuance. The Financial Plan projects that the City will issue from \$1.6 billion to \$1.9 billion of short-term obligations for the 1994 fiscal year, which amount is

preliminary and subject to change, to satisfy its seasonal financing requirements. The City met \$1.1 billion of this amount with the proceeds of revenue anticipation notes issued in August 1993. The City expects to satisfy the remainder of its seasonal financing requirements for the 1994 fiscal year with the proceeds of tax anticipation notes to be issued in October 1993. The amount of tax anticipation notes to be issued is expected to be between \$500 million and \$800 million. The actual amount of tax anticipation notes to be issued will be determined by the City's forecast in late September of its seasonal cash needs for the 1994 fiscal year in light of more complete information on the timing of the payment of certain collective bargaining increases relating to prior fiscal years, the timing of reimbursement of the City's general fund for advances for the payment of capital expenditures and other factors. Seasonal financing requirements for the 1993 fiscal year decreased to \$1.4 billion from \$2.25 billion in the 1992 fiscal year. The delay in the adoption of the State's budget for its 1992 fiscal year required the City to issue \$1.25 billion in short-term notes on May 7, 1991, and the delay in the adoption of the State's budget for its 1991 fiscal year required the City to issue \$900 million in short-term notes on May 15, 1990. See "SECTION VII: 1994-1997 FINANCIAL PLAN—Assumptions".

Seasonal financing requirements were \$3.65 billion, \$2.45 billion and \$1.2 billion in the 1991, 1990 and 1989 fiscal years, respectively.

At the time of the City's fiscal crisis in 1975, the City had approximately \$6 billion of short-term debt outstanding. As part of a program to deal with this crisis, the State passed the Moratorium Act. This law provided that, subject to certain conditions, for three years no judgments and liens could be enforced on account of outstanding City notes and no action could either be commenced or continued upon outstanding City notes which matured during 1975 or 1976. City notes in an aggregate principal amount of \$2.4 billion were subject to the Moratorium Act. In November 1976, the New York State Court of Appeals declared the Moratorium Act unconstitutional under the State Constitution. All of the City's short-term debt outstanding at the time of the Moratorium Act was either exchanged for MAC bonds or repaid by the City. In the 1975 through 1978 fiscal years, the City was assisted by the Federal and State Governments in meeting its seasonal financing needs.

SECTION VIII: INDEBTEDNESS

City Indebtedness

Outstanding Indebtedness

The following table sets forth outstanding indebtedness having an initial maturity greater than one year from the date of issuance of the City, MAC and the PBCs as of June 30, 1993.

(In Thousands)

Gross City Long-Term Indebtedness(1)	\$20,908,973 1,284,830	
Net City Long-Term Indebtedness Gross MAC Long-Term Indebtedness(3) Less: Assets Held for Debt Service(3)	5,303,635 833,706	\$19,624,143
Net MAC Long-Term Indebtedness PBC Indebtedness(4) Bonds Payable Capital Lease Obligations	563,953 384,986	4,469,929
Gross PBC Indebtedness(5)	948,939 179,641	
Net PBC Indebtedness		769,298
Combined Net City, MAC and PBC Indebtedness		\$24,863,370

⁽¹⁾ Amount does not reflect the issuance of \$832,705,000 principal amount of Fiscal 1994 Series A Bonds on August 2, 1993.

⁽²⁾ With respect to City long-term indebtedness, "Assets Held for Debt Service" consists of General Debt Service Fund assets, and \$1,278.9 million principal amount of City serial bonds held by MAC.

⁽³⁾ With respect to MAC indebtedness, "Assets Held for Debt Service" consists of assets held in MAC's debt service funds less accrued liabilities for interest payable on MAC long-term indebtedness plus amounts held in reserve funds for payment of principal of and interest on MAC bonds. Other MAC funds, while not specifically pledged for the payment of principal of and interest on MAC bonds, are also available for these purposes. For further information regarding MAC indebtedness and assets held for debt service, see "Municipal Assistance Corporation Indebtedness" below and "APPENDIX B—FINANCIAL STATEMENTS—Notes to Financial Statements—Notes C and G".

^{(4) &}quot;PBC Indebtedness" refers to City obligations to PBCs. For further information regarding the indebtedness of certain PBCs, see "Public Benefit Corporation Indebtedness" below and "APPENDIX B—FINANCIAL STATEMENTS—Notes to Financial Statements—Notes F and G". "PBC Indebtedness" does not include the indebtedness of individual PBCs which are Enterprise Funds. For further information regarding the indebtedness of Enterprise Funds PBCs, see "APPENDIX B—FINANCIAL STATEMENTS—Notes to Financial Statements—Notes I, J, K, L and M".

⁽⁵⁾ Amount does not include \$262.8 million principal amount of Housing Development Corporation bonds subject to capital reserve fund arrangements with the City.

Trend in Outstanding Net Indebtedness

The following table shows the trend in the outstanding net long-term and net short-term debt of the City and MAC and in net PBC indebtedness as of June 30 of each of the years 1988 through 1993, except for short-term debt information, which is as of August 11, 1993.

	City	City(1) MAC(2)			Unit and City	
	Long-Term Net Debt(3)	Short-Term Debt(4)	Long-Term Net Debt(5)	Short-Term Debt	Guaranteed Debt(3)	Total
		(In M	illions)	_		
1988	\$ 7,820		\$6,470	_	\$714	\$15,004
1989	9,332		6,082		780	16,194
1990	11,779	_	5,713	_	782	18,274
1991	15,293	_	5,265	_	803	21,361
1992	17,916	_	4,657	_	782	23,355
1993	19,624	1,100	4,470		769	25,963

⁽¹⁾ Amounts do not include debt of the City held by MAC. See "Outstanding Indebtedness—note 2". Amount does not reflect the issuance of \$832,705,000 principal amount of Fiscal 1994 Series A Bonds on August 2, 1993.

Rapidity of Principal Retirement

The following table details, as of June 30, 1993, the cumulative percentage of total City general obligation debt outstanding that is scheduled to be retired in accordance with its terms in each prospective five-year period.

Period	Cumulative Percentage of Debt Scheduled for Retirement
5 years	26.50%
10 years	48.85
15 years	67.57
20 years	82.32
25 years	94.03
30 years	99.93

⁽²⁾ MAC reported outstanding long-term indebtedness without reduction for reserves, as follows: \$7,636 million, \$7,307 million, \$6,901 million, \$6,471 million, \$5,559 million and \$5,304 million as of June 30 of each of the years 1988 through 1993.

⁽³⁾ Net of reserves. See "Outstanding Indebtedness—note 2". Component Units are PBCs included in the City's financial statements other than PBCs which are Enterprise Funds. For more information concerning Component Unit PBCs, see "Public Benefit Corporation Indebtedness" below and "APPENDIX B—FINANCIAL STATEMENTS—Notes to Financial Statements—Notes F and G". For more information concerning Enterprise Funds PBCs, see "APPENDIX B—FINANCIAL STATEMENTS—Notes to Financial Statements—Notes I, J, K, L and M".

⁽⁴⁾ Amount includes revenue anticipation notes issued on August 10, 1993, \$400 million of which mature on April 15, 1994, and \$700 million of which mature on June 30, 1994.

⁽⁵⁾ Calculations of net MAC indebtedness include the total bonds outstanding under MAC's Second and 1991 General Bond Resolutions and accrued interest on those bonds less the amounts held by MAC in its debt service and reserve funds.

City, MAC and City-guaranteed PBC Debt Service Requirements

The following table summarizes future debt service requirements, as of June 30, 1993, on City and MAC term and serial bonds outstanding and City-guaranteed debt of and capital lease obligations to certain PBCs.

City I ama Thurs Dale

	City Long-	Term Debt			
Fiscal Years	Principal Serial Bonds(1)	Interest(1)	Component Unit and City Guaranteed Debt(2) (In Thousands)	MAC Funding Requirements	Total
1994	\$ 906.596	6 1 200 777		. 500.004	
	+,	\$ 1,309,767	\$ 94,050	\$ 599,001	\$ 2,909,414
1995	1,029,876	1,261,165	94,021	525,423	2,910,485
1996	1,058,075	1,190,285	97,025	514,187	2,859,572
1997	1,090,646	1,121,524	99,402	577,010	2,888,582
1998	1,001,071	1,049,443	99,369	588,707	2,738,590
1999	954,151	983,660	99,708	607,226	2,644,745
2000	875,730	923,126	99,692	542,653	2,441,201
2001 through 2147	12,713,913	8,707,097	1,081,033	4,345,064	26,847,107
Total	\$19,630,058	\$16,546,067	\$1,764,300	\$8,299,271	\$46,239,696

⁽¹⁾ Amount does not reflect the issuance of \$832,705,000 principal amount of Fiscal 1994 Series A Bonds on August 2, 1993. Excludes debt service payments on \$1,278.9 million principal amount of serial bonds held by MAC.

Certain Debt Ratios

The following table sets forth information, as of December 31, for each of the fiscal years 1987 through 1992, with respect to the approximate ratio of the City's debt to certain economic factors. As used in this table, debt includes net City, MAC and PBC debt.

Debt as % of Total

Debt		
Per Capita	Assessed Valuation	Estimated Full Valuation
. \$1,893	25.1%	6.3%
2,041	25.3	6.0
2,202	25.4	4.6
2,485	26.1	4.5
2,917	28.0	4.5
	28.6	4.1
	Per Capita . \$1,893 . 2,041 . 2,202 . 2,485 . 2,917	Per Capita Assessed Valuation 1, \$1,893 25.1% 2,041 25.3 2,202 25.4 2,485 26.1 2,917 28.0

Component Units are PBCs included in the City's financial statements other than PBCs which are Enterprise Funds. For additional information concerning these PBCs, see "Public Benefit Corporation Indebtedness" below and "APPENDIX B—FINANCIAL STATEMENTS—Notes to Financial Statements—Notes F and G". For more information concerning Enterprise Funds PBCs, see "APPENDIX B—FINANCIAL STATEMENTS—Notes to Financial Statements—Notes I, J, K, L and M".

⁽³⁾ Amount shown is for fiscal years 2001 through 2009.

Ratio of Debt to Personal Income

The following table sets forth, for each of fiscal years 1983 through 1990, debt per capita as a percentage of personal income per capita in current dollars. As used in this table, debt includes net City, MAC and PBC debt.

Fiscal Year	Debt per Capita	Personal Income per Capita(1)	Debt per Capita as % of Personal Income per Capita
1983	\$1,698	\$13,895	12.22%
1984	1,695	15,188	11.16
1985	1,723	16,050	10.74
1986	1,833	16,902	10.84
1987	1,893	18,009	10.51
1988	2,041	19,669	10.38
1989	2,202	21,119	10.43
1990	2,485	22,454	11.07

Certain Provisions for the Payment of City Indebtedness

The State Constitution requires the City to make an annual appropriation for: (i) payment of interest on all City indebtedness; (ii) redemption or amortization of bonds; (iii) redemption of other City indebtedness (except bond anticipation notes ("BANs"), tax anticipation notes ("TANs"), revenue anticipation notes ("RANs"), and urban renewal notes ("URNs")) contracted to be paid in that year out of the tax levy or other revenues; and (iv) redemption of short-term indebtedness issued in anticipation of the collection of taxes or other revenues, such as TANs, RANs and URNs, and renewals of such short-term indebtedness which are not retired within five years of the date of original issue. If this appropriation is not made, a sum sufficient for such purposes must be set apart from the first revenues thereafter received by the City and must be applied for these purposes.

Under the Financial Emergency Act, the proceeds of each City bond issue are required to be used in the following order: (i) they are to be held for the payment at maturity of any BANs issued in anticipation thereof; (ii) they are to be paid into the City's General Fund in repayment of any advance made therefrom for purposes for which the bonds were issued; and (iii) any balance is to be held for future expenditures for the object or purpose for which the bonds were issued.

Pursuant to the Act, the General Debt Service Fund has been established for the purpose of paying Monthly Debt Service, as defined in the Act. For information regarding the Fund, see "Section II: THE BONDS—Payment Mechanism". In addition, as required under the Act, a TAN Account has been established by the State Comptroller within the Fund to pay the principal of outstanding City TANs. After notification by the City of the date when principal due or to become due on an outstanding issue of TANs will equal 90% of the "available tax levy", as defined in the Act, with respect to such issue, the State Comptroller must pay into the TAN Account from the collection of real estate tax payments (after paying amounts required to be deposited in the General Debt Service Fund for Monthly Debt Service) amounts sufficient to pay the principal of such TANs. Similarly, a RAN Account has been established by the State Comptroller within the Fund to pay the principal of outstanding City RANs. Revenues in anticipation of which RANs are issued must be deposited in the RAN Account. If revenue consists of State or other revenue to be paid to the City by the State Comptroller, the State Comptroller must deposit such revenue directly into the RAN Account on the date such revenue is payable to the City. Under the Act, after notification by the City of the date when principal due or to become due on an outstanding issue of RANs will equal 90% of the total amount of revenue against which such RANs were issued on or before the fifth day prior to the maturity date of the RANs, the State Comptroller must commence on such date to retain in the RAN Account an amount sufficient to pay the principal of such RANs when due. Revenues required to be deposited in the RAN Account vest immediately in the State Comptroller in trust for the benefit of the holders of notes issued in anticipation of such revenues. No person other than a holder of such RANs has any right to or claim against

⁽¹⁾ Personal income is measured before the deduction of personal income taxes and other personal taxes.

revenues so held in trust. Whenever the amount contained in the RAN Account or the TAN Account exceeds the amount required to be retained in such Account, the excess, including earnings on investments, is to be withdrawn from such Account and paid into the General Fund of the City.

All money paid from the General Debt Service Fund to the Fiscal Agent for the payment of the principal of or interest on any Bond that remains unclaimed at the end of two years after such principal or interest shall have become due and payable will be paid to the City, and the holder of such Bond shall thereafter look only to the City for payment.

Limitations on the City's Authority to Contract Indebtedness

The Financial Emergency Act imposes various limitations on the issuance of City indebtedness. No TANs may be issued by the City which would cause the principal amount of such issue of TANs to exceed 90% of the "available tax levy", as defined in the Act, with respect to such issue; TANs and renewals thereof must mature not later than the last day of the fiscal year in which they were issued. No RANs may be issued by the City which would cause the principal amount of RANs outstanding to exceed 90% of the "available revenues", as defined in the Act, for that fiscal year; RANs must mature not later than the last day of the fiscal year in which they were issued; and in no event may renewals of RANs mature later than one year subsequent to the last day of the fiscal year in which such RANs were originally issued. No BANs may be issued by the City in any fiscal year which would cause the principal amount of BANs outstanding, together with interest due or to become due thereon, to exceed 50% of the principal amount of bonds issued by the City in the twelve months immediately preceding the month in which such BANs are to be issued; BANs must mature not later than six months after their date of issuance and may be renewed for a period not to exceed six months. Budget Notes may be issued only to fund projected expense budget deficits; no Budget Notes, or renewals thereof, may mature later than sixty days prior to the last day of the fiscal year next succeeding the fiscal year during which the Budget Notes were originally issued.

The MAC Act contains two limitations on the amount of short-term debt which the City may issue. As of August 11, 1993, the maximum amount of additional short-term debt which the City could issue was approximately \$5.050 billion under the first limitation. The second limitation does not prohibit any issuance by the City of BANs or short-term debt issued and payable within the same fiscal year, such as TANs and RANs, but would currently prevent issuance of any City TANs, RANs or Budget Notes issued in a fiscal year and maturing in a subsequent fiscal year, including issuances and renewals of RANs or TANs in the current fiscal year to mature in the next fiscal year. This limitation, and other restrictions on maturities of City notes and other requirements described above, could be amended by State legislative action.

The State Constitution provides that, with certain exceptions, the City may not contract indebtedness in an amount greater than 10% of the average full value of taxable real estate in the City for the most recent five years (the "general debt limit"). For information concerning litigation which, if determined against the City, could have an adverse impact on the amount of debt the City can have outstanding under the general debt limit, see "Section IX: Other Information—Litigation—Taxes". Certain indebtedness ("excluded debt") is excluded in ascertaining the City's authority to contract indebtedness within the constitutional limit. TANs, RANs, BANs, URNs and Budget Notes and long-term indebtedness issued for certain types of public improvements and capital projects are considered excluded debt. The City's statutory authority for variable rate debt is limited to 10% of the general debt limit. The State Constitution also provides that the City may contract indebtedness for low-rent housing, nursing homes for persons of low income and urban renewal purposes in an amount not to exceed 2% of the average assessed valuation of the taxable real estate of the City for the most recent five years (the "2% debt limit"). Excluded from the 2% debt limit, after approval by the State Comptroller, is indebtedness for certain self-supporting programs aided by City guarantees or loans. Neither MAC indebtedness nor the City's commitments with other PBCs (other than certain guaranteed debt of the Housing Authority) are chargeable against the City's constitutional debt limits.

The following table sets forth the current calculation of the debt-incurring power of the City within the general debt limit and the 2% debt limit as of June 30, 1993.

GENERAL DEBT LIMIT Total Debt-Incurring Power	\$21,186,615,412	\$55,415,024,789
Gross Debt—Funded	1,251,833,568	
	19,934,781,844	
Less: Assets of Sinking Funds and General Debt Service Fund and Balance of Appropriations for Redemption of Debt	962,580,874	
Net Debt	18,972,200,970	22 670 500 722
Add: Net Contracts and Other Liabilities	4,707,299,762	23,679,500,732
Remaining Debt-Incurring Power Within Limit		\$31,735,524,057
TWO PERCENT DEBT LIMIT Total Debt-Incurring Power		\$ 1,532,707,703
Charges: Housing Authority Indebtedness Limited Profit Housing Program	15,999,879	
Housing and Industrial Urban Renewal Programs	123,852,846	140,660,725
Remaining Debt-Incurring Power Within Limit		<u>\$ 1,392,046,978</u>

The aggregate amount of the City's planned debt issues required to fund the Ten-Year Capital Strategy approaches the general debt limit estimated for the late 1990's. This estimate is strongly affected by projected real property values in the City.

The Comptroller's "Unencumbered Margin" Analysis

The City Comptroller traditionally reports not only on the general debt limit, but also on the "unencumbered margin". The unencumbered margin equals the general debt limit minus certain "reserves" of debt-incurring capacity for certain items, such as Capital Budget appropriations and commitments to certain PBCs which are not required to be charged against the general debt limit. At June 30, 1993, when the debt-incurring capacity under the general debt limit was \$31.736 billion, the unencumbered margin was \$19.7 billion. The unencumbered margin represents the amount available to the City for additional appropriations for capital expenditures that can be made by the City without exceeding the general debt limit. The unencumbered margin analysis has no impact on the City's legal debt-incurring capacity.

Federal Bankruptcy Code

Under the Federal Bankruptcy Code, a petition may be filed in the Federal bankruptcy court by a municipality which is insolvent or unable to meet its debts as they mature. The filing of such a petition would operate as a stay of any proceeding to enforce a claim against the City. The Code requires the municipality to file a plan for the adjustment of its debts, which may modify or alter the rights of creditors and may provide for the municipality to issue indebtedness, which could have priority over existing creditors and which could be secured. Any plan of adjustment confirmed by the court must be approved by the requisite majority of creditors. If confirmed by the bankruptcy court, the plan would be binding upon all creditors affected by it. Each of the City and the Control Board, acting on behalf of the City, has the legal capacity to file a petition under the Federal Bankruptcy Code.

Municipal Assistance Corporation Indebtedness

MAC was organized in 1975 to provide financing assistance for the City and also to exercise certain review functions with respect to the City's finances. Since its creation, MAC has provided, among other things, financing assistance to the City by refunding maturing City short-term debt and transferring to the City funds received from sales of MAC bonds and notes. MAC is authorized to issue bonds and notes payable from certain stock transfer tax revenues and the City's portion of the State sales tax derived in the City and State per capita aid otherwise payable by the State to the City. These revenues are paid, subject to appropriation, directly by the State to MAC to the extent they are needed for MAC debt service, MAC

reserve fund requirements or MAC operating expenses; revenues which are not needed by MAC are paid by the State to the City. MAC bonds and notes constitute general obligations of MAC and do not constitute an enforceable obligation or debt of either the State or the City. Failure by the State to continue the imposition of such taxes, the reduction of the rate of such taxes to rates less than those in effect on July 2, 1975, failure by the State to pay such aid revenues and the reduction of such aid revenues below a specified level are included among the events of default in the resolutions authorizing MAC's long-term debt. The occurrence of an event of default may result in the acceleration of the maturity of all or a portion of MAC's debt.

As of June 30, 1993, MAC had outstanding an aggregate of approximately \$5.304 billion of its bonds. MAC is authorized to issue bonds and notes to refund its outstanding bonds and notes and to fund certain reserves, without limitation as to principal amount, and to finance certain capital commitments to the Transit Authority and the New York City School Construction Authority for the 1992 through 1997 fiscal years in the event the City fails to provide such financing. For additional information regarding MAC indebtedness, see "APPENDIX B—FINANCIAL STATEMENTS—Notes to Financial Statements—Notes C and G".

As of June 30, 1993, the City had received an aggregate of approximately \$4.85 billion from MAC for certain authorized uses by the City exclusive of capital purposes. In addition, the City had received an aggregate of approximately \$2.352 billion from MAC for capital purposes in exchange for serial bonds in a like principal amount, of which \$1.180 billion was held by MAC as of June 30, 1993. MAC has also exchanged \$1.839 billion principal amount of MAC bonds for City debt, of which approximately \$99.0 million was held by MAC on June 30, 1993.

During fiscal years 1984 through 1988, MAC made \$1.075 billion of revenues available to the City, pursuant to an agreement among the City, MAC and the State in March 1984. In April 1986, MAC, the City and the State agreed to the availability and use of approximately \$1.6 billion in additional revenues in the 1987 through 1995 fiscal years, including \$925 million for capital improvements for the Transit Authority. In May 1989, MAC entered into an agreement with the City and the State which provides for an additional \$800 million, including \$600 million of revenues for capital projects relating to the City's public school system. In July 1990, the City, the State and MAC entered into an agreement amending the 1986 and 1989 agreements to permit the City to fund the capital commitments to the Transit Authority and the City's public school system, which total \$1.465 billion over the City's 1990 through 1997 fiscal years, with proceeds of City or MAC bonds rather than revenues made available by MAC. The State Legislature has authorized MAC to finance the capital commitments to the Transit Authority and the New York City School Construction Authority for the 1991 through 1997 fiscal years through the issuance of additional MAC bonds in the event and to the extent that the City fails to provide such financing from the issuance of City bonds. The revenues to be made available by MAC under the 1986 and 1989 agreements for the Transit Authority and the public school system will instead be used by the City for operating purposes. For fiscal years 1994 through 1997, the amounts that the City will receive for operating purposes under the agreements as amended are \$185 million, \$515 million, \$75 million and \$75 million, respectively.

Public Benefit Corporation Indebtedness

City Financial Commitments to PBCs

PBCs are corporate governmental agencies created by State law to finance and operate projects of a governmental nature or to provide governmental services. Generally, PBCs issue bonds and notes to finance construction of housing, hospitals, dormitories and other facilities and receive revenues from the collection of fees, charges or rentals for the use of their facilities, including subsidies and other payments from the governmental entity whose residents have benefited from the services and facilities provided by the PBC. These bonds and notes do not constitute debt of the City unless expressly guaranteed or assumed by the City.

The City has undertaken various types of financial commitments with certain PBCs which, although they generally do not represent City indebtedness, have a similar budgetary effect. During a Control Period as defined by the Financial Emergency Act, neither the City nor any Covered Organization may enter into

any arrangement whereby the revenues or credit of the City are directly or indirectly pledged, encumbered, committed or promised for the payment of obligations of a PBC unless approved by the Control Board. The principal forms of the City's financial commitments with respect to PBC debt obligations are as follows:

- 1. Guarantees—PBC indebtedness may be directly guaranteed by the City.
- 2. Capital Lease Obligations—These are leases of facilities by the City or a Covered Organization, entered into with PBCs, under which the City has no liability beyond monies legally available for lease payments. State law generally provides, however, that in the event the City fails to make any required lease payment, the amount of such payment will be deducted from State aid otherwise payable to the City and will be paid to the PBC.
- 3. Executed Leases—These are leases pursuant to which the City is legally obligated to make the required rental payments.
- 4. Capital Reserve Fund Arrangements—Under these arrangements, State law requires the PBC to maintain a capital reserve fund in a specified minimum amount to be used solely for the payment of the PBC's obligations. State law further provides that in the event the capital reserve fund is depleted, State aid otherwise payable to the City may be paid to the PBC to restore such fund.

The City's financial statements include MAC and certain PBCs, such as the ECF, the CUCF and the HDC. For further information regarding indebtedness of these PBCs, see "APPENDIX B—FINANCIAL STATEMENTS—Notes to Financial Statements—Notes F and G". Certain other PBCs appear in the financial statements as Enterprise Funds. For information regarding Enterprise Funds PBCs, see "APPENDIX B—FINANCIAL STATEMENTS—Notes to Financial Statements—Notes I, J, K, L and M".

New York City Educational Construction Fund

As of June 30, 1993, approximately \$126.6 million principal amount of ECF bonds to finance costs related to the school portions of combined occupancy structures was outstanding. Under ECF's leases with the City, debt service on the ECF bonds is payable by the City to the extent third party revenues are not sufficient to pay such debt service.

New York City Housing Authority

As of June 30, 1993, the City had guaranteed \$38.7 million principal amount of HA bonds. The Federal government has agreed to pay debt service on \$44.5 million principal amount of additional HA indebtedness guaranteed by the City. The City has also guaranteed the repayment of \$239.7 million principal amount of HA indebtedness to the State, of which the Federal government has agreed to pay debt service on \$119.4 million. The City also pays subsidies to the HA to cover operating expenses. Exclusive of the payment of certain labor costs, such subsidies are estimated to amount to \$131.6 million in the 1993 fiscal year and are projected to amount to approximately \$136.6 million in the 1994 fiscal year.

New York State Housing Finance Agency

As of June 30, 1993, \$318.5 million principal amount of HFA refunding bonds relating to hospital and family care facilities leased to the City was outstanding. HFA does not receive third party revenues to offset the City's capital lease obligations with respect to these bonds. Lease payments, which are made by the City seven months in advance of payment dates of the bonds, are intended to cover development and construction costs, including debt service, of each facility plus a share of HFA's overhead and administrative expenses.

City University Construction Fund

As of June 30, 1993, \$708.2 million principal amount of bonds, relating to Community College facilities, of the Dormitory Authority of the State of New York (the "Dormitory Authority") subject to capital lease arrangements was outstanding. The City and the State are each responsible for approximately one-half of the CUCF's annual rental payments to the Dormitory Authority for Community College facilities which are intended to cover debt service on the Dormitory Authority's bonds issued to finance the leased projects plus

related overhead and administrative expenses of the Dormitory Authority. As of June 30, 1993, approximately \$90.4 million was held in certain reserve funds to meet the reserve requirements of the Dormitory Authority for its bonds relating to Community College facilities. CUCF does not receive third party revenues to offset the City's obligations under the rental agreements.

New York State Urban Development Corporation

As of June 30, 1993, \$66.4 million principal amount of UDC bonds subject to executed or proposed lease arrangements was outstanding. This amount differs from the amount calculated by UDC (\$71.4 million) because UDC has included certain interest costs relating to Public School 50 and Intermediate School 229 in Manhattan in its calculation. The City leases schools and certain other facilities from UDC.

New York City Housing Development Corporation

As of June 30, 1993, \$262.8 million principal amount of HDC bonds was subject to a capital reserve fund arrangement with the City. This amount is not included in the amount of gross PBC indebtedness included in the table on Outstanding Indebtedness above. Of the total principal amount of outstanding HDC bonds, \$30.2 million relating to the 1982 Multi-Family Housing Bond Program is required to be secured by a separate \$4.78 million capital reserve fund, and \$232.6 million relating to the General Housing Program is required to be secured by a separate \$18.1 million capital reserve fund. The combined reserve requirement for both programs amounts to \$22.9 million. HDC receives substantial third party revenues, and to date the City has not been required to make any payment to HDC's capital reserve fund. Although no such payments are contemplated during the 1994 fiscal year, no assurance can be given that such payments will not be required as a result of shortfalls in mortgage payments, subsidies or otherwise. As of June 30, 1993, HDC's combined capital reserve funds amounted to approximately \$31.1 million.

SECTION IX: OTHER INFORMATION

Pension Systems

The City maintains a number of pension systems providing benefits for its employees and employees of various independent agencies (including certain Covered Organizations). The systems combine features of a defined benefit pension plan with those of a defined contribution pension plan. Membership in the City's five major actuarial systems on June 30, 1992 consisted of approximately 342,000 current employees, of whom approximately 90,000 were employees of certain independent agencies whose pension costs in some cases are provided by City appropriations. In addition, there are approximately 220,000 retirees and beneficiaries currently receiving benefits and other vested members terminated but not receiving benefits. The City also contributes to three other actuarial systems, maintains five non-actuarial retirement systems for approximately 10,000 retired individuals not covered by the five major actuarial systems, provides other supplemental benefits to retirees and makes contributions to certain union annuity funds.

Each of the City's five major actuarial pension systems is managed by a board of trustees which includes representatives of the City and the employees covered by such system. The City Comptroller is the custodian of, and has been delegated investment responsibilities for, the major actuarial systems, subject to the policies established by the boards of trustees of the systems and State law.

The City's pension expenditures for the 1994 fiscal year are expected to approximate \$1.5 billion. In fiscal years 1995 through 1997, these expenditures are expected to approximate \$1.4 billion, \$1.5 billion and \$1.4 billion, respectively. Certain of the systems provide pension benefits of 50% to 55% of "final pay" after 20 to 25 years of service with additional benefits for subsequent years of service. For the 1993 fiscal year, the City's total annual pension costs, including the City's pension costs not associated with the five major actuarial systems, plus Federal Social Security tax payments by the City for the year, are projected to be approximately 21% of total payroll costs. In addition, contributions are also made by certain component units of the City and other government units directly to the New York City Employees' Retirement System, one of the five major actuarial systems. The State Constitution provides that pension rights of public employees are contractual and shall not be diminished or impaired.

The City makes pension contributions to the five major systems in amounts equivalent to the pension costs as determined in accordance with GAAP. Pension costs incurred with respect to the other actuarial systems to which the City contributes and the City's non-actuarial retirement systems and supplemental pension programs for participants in these non-actuarial systems are recorded and paid currently.

The five major actuarial systems are not fully funded. The excess of the present value of future pension benefits accrued on account of services already rendered (with salary projections to retirement to determine final salary) over the value of the present assets of the pension systems for the five major actuarial pension systems (including that which is attributable to independent agencies) as calculated by the City's Chief Actuary, on the basis of the actuarial assumptions then in effect, are set forth in the following table.

June 30,	Amount(1)
	(In Billions)
1988	\$7.79
1989	6.51
1990	
1991	4.16
1992	2.67

⁽¹⁾ For purposes of making these calculations, accrued pension contributions receivable from the City were not treated as assets of the system.

The five major actuarial systems are now being funded on a basis which is designed to reduce gradually the unfunded accrued liability of those systems. Additionally, the City Actuary estimated that, as of June 30, 1992, there was approximately \$336 million of unfunded liability on account of the non-actuarial retirement systems and supplemental pension programs for participants in these non-actuarial programs.

For further information regarding the City's pension systems see "APPENDIX B—FINANCIAL STATE-MENTS—Notes to Financial Statements—Note O".

Litigation

The following paragraphs describe certain material legal proceedings and claims involving the City and Covered Organizations other than routine litigation incidental to the performance of their governmental and other functions and certain other litigation arising out of alleged constitutional violations, torts, breaches of contract and other violations of law and condemnation proceedings. While the ultimate outcome and fiscal impact, if any, on the City of the proceedings and claims described below are not currently predictable, adverse determinations in certain of them might have a material adverse effect upon the City's ability to carry out the 1994-1997 Financial Plan. The City has estimated that its potential future liability on account of outstanding claims against it as of June 30, 1992 amounted to approximately \$2.3 billion. See "SECTION VII: 1994-1997 FINANCIAL PLAN—Assumptions—Expenditure Assumptions—2. Other Than Personal Service Costs—Judgments and Claims".

Taxes

- 1. Numerous real estate tax *certiorari* proceedings alleging overvaluation, inequality and illegality are pending against the City. In response to these actions, State legislation was enacted in December 1981 which, among other things, authorizes the City to assess real property according to four classes and provides for certain evidentiary changes in tax *certiorari* proceedings. Based on historical settlement activity, and including an estimated premium for inequality of assessment, the City estimates its potential future liability for outstanding *certiorari* proceedings to be \$242 million at June 30, 1992. For a discussion of the City's accounting treatment of its inequality and overvaluation exposure, see "APPENDIX B—FINANCIAL STATEMENTS—Notes to Financial Statements—Note G".
- 2. The State Board has certified final class ratios for the 1991 assessment roll. The City believes that the class ratios determined for class two and class four are invalid and has commenced an Article 78 proceeding challenging the class ratios. Class ratios are used in real property tax certiorari proceedings involving allegations of inequality of assessments of real property and low class ratios could lead to an increase in refunds for overpayment of real property taxes paid in the 1992 fiscal year. For additional information, including information with respect to the class ratios for the 1992 assessment roll, see "SECTION IV: SOURCES OF CITY REVENUES—Real Estate Tax—Assessment".
- 3. On October 11, 1991, an organization calling itself Taxpayers for an Affordable New York commenced an action with several other plaintiffs in State Supreme Court, Albany County, against the State Board, the State and the City seeking, among other things, a declaratory judgment that the Tax Resolution adopted by the City Council for fiscal year 1992, as it pertains to real property taxation, violates the State Constitution. Plaintiffs allege that the special equalization ratios calculated by the State Board in 1991 result in the overstatement of the actual full valuation of real property in the City by hundreds of billions of dollars with the result that the City's real estate tax levy for fiscal year 1992 is in excess of the State Constitution's real estate tax limit. This limit is based on a percentage of the average full valuation of taxable real property in the City for the most recent five years. Although plaintiffs do not specify the extent of the alleged real property overvaluation, an adverse determination significantly reducing such limit could subject the City to substantial liability for real property tax refunds and could have an adverse impact on the amount of debt the City can have outstanding under the general debt limit (defined as 10% of the average full value of taxable real estate in the City for the most recent five years). By motion dated June 10, 1993 plaintiffs moved for summary judgment. On or about July 2, 1993, the State and City defendants each cross-moved to dismiss the action and for summary judgment.
- 4. A number of petitions for administrative review of the Commissioner of Finance's denial of refund claims are pending in which the taxpayers claim they are due refunds under the Banking Corporation and General Corporation Tax Laws due to their payment of tax on interest from federal obligations in violation of 31 U.S.C. Section 3124(a). In addition, an action has been commenced by Astoria Federal Savings and Loan Association in New York Supreme Court, Nassau County, to which the City is not a party, seeking a declaratory judgment that, inter alia, interest on certain bonds issued pursuant to the Public Authorities Law

are exempt from the City's franchise taxes. If the taxpayers' positions are upheld, the City could become liable to pay substantial refunds and could experience a substantial decrease in revenues earned from such taxes.

Miscellaneous

- 1. Approximately 50 actions apparently seeking \$1.5 billion in damages, one of which purports to be a class action, are pending in the State Supreme Court, New York County, against the City alleging damages arising out of a water main break and electrical blackout that occurred on August 10, 1983. On December 18, 1990, the Court dismissed all claims which sought damages for purely economic loss unaccompanied by any claim for direct physical damage. Unless reversed or modified on appeal, if any, this decrease will significantly reduce the City's potential liability. Several notices of appeal have been filed from the Court's final order, issued March 6, 1991, by various plaintiffs and defendants, including the City. The City's appeal covers, *inter alia*, those parts of the Court's order which did not dismiss certain claims that alleged both economic loss and indirect physical damage.
- 2. On October 30, 1989, a lawsuit was commenced in State Supreme Court, New York County, against the City and others by 383 Madison Associates alleging, among other things, that the City's denial of plaintiff's application for a special permit to transfer development rights associated with Grand Central Terminal to a property owned by plaintiff is a taking without just compensation in violation of the United States and the State Constitutions. Plaintiff seeks declaratory and injunctive relief and damages in the amount of \$480 million. On August 7, 1991 the Court granted the City's motion for summary judgment and on May 20, 1993 the Appellate Division, First Department affirmed the decision. On June 21, 1993 plaintiff filed a notice of appeal to the New York State Court of Appeals.
- 3. Forty actions seeking in excess of \$364 million have been commenced in State Supreme Court, New York County, against the City seeking damages for personal injuries and property damage in connection with an explosion of a Con Edison steam pipe which occurred in Gramercy Park on August 19, 1989.
- 4. On April 3, 1990, the New York State Court of Appeals ruled, in a case brought by a group of New York City recipients of AFDC, that the New York Social Services Law requires that AFDC recipients receive for housing an adequate allowance that bears a reasonable relationship to the cost of housing and, if so, whether the law was being implemented properly. The Court remanded the case to the trial court. In a decision issued in 1988 granting plaintiffs a preliminary injunction pending a full trial, the trial court ruled that plaintiffs were likely to succeed on the merits of their claim that the shelter allowance was inadequate and awarded preliminary injunctive relief in the form of payments for rent in excess of the shelter allowance. The trial on the merits has been completed and the parties have submitted post trial briefs. The shelter allowance, while determined by the State Department of Social Services ("DSS"), is funded by contributions from the Federal, State and City governments. The City's contribution is 25% of the total allowance. If plaintiffs are ultimately successful in seeking substantial increases in the shelter allowance, it could result in substantial costs to the City.
- 5. Pursuant to regulations of the DSS, the New York City Human Resources Administration provides a limited number of medically disabled and/or physically handicapped persons with "sleep-in home attendants" who are assigned to live in the person's home on a 24-hour basis. In or about 1981, one union representing a number of sleep-in home attendants filed complaints with the New York State Department of Labor ("DOL"), alleging that they were paid below the state minimum wage for their services since they actually worked in excess of the 12 hours per day for which they were compensated. The DOL found that for the first seven months of 1981, the sleep-in attendants worked either 13 hours or, in a limited number of cases, 14½ hours per day. The City appealed to the New York State Industrial Board of Appeals ("IBA"). The IBA bifurcated the proceeding to determine, prior to any consideration of the actual number of hours worked, whether the attendants were excluded from the Minimum Wage Law. In February 1987, the IBA determined that the attendants were covered by the Minimum Wage Law. The City appealed, and on June 12, 1989, the Appellate Division, Second Department affirmed the IBA determination. Hearings on the issue of the number of hours actually worked by the attendants during the first seven months of 1981 were completed before the IBA on September 12, 1991, and post-hearing briefs were filed by February 14, 1992.

In May 1984, the union commenced a separate but related action in the Supreme Court, New York County on behalf of a number of sleep-in attendants claiming, *inter alia*, that since 1981 the attendants were entitled to compensation for a 24-hour day and at a rate in excess of the minimum wage. That action has been stayed pending the outcome of the present proceeding before the IBA.

While the potential cost to the City of adverse determinations in the two proceedings cannot be determined at this time, such findings could result in substantial costs to the City depending on the number of hours deemed worked by particular attendants, the extent of State and Federal reimbursements, the number of attendants actually covered by a final determination and the rate of pay to be applied.

- 6. On May 2, 1988, the Gay Teachers Association, three employees of BOE and the domestic partners of these employees commenced an action in State Supreme Court, New York County, against BOE, the City, the State and others, challenging the policy of BOE of providing health insurance benefits to its employees, their spouses and children, but not to the domestic partners of gay and lesbian employees. Plaintiffs claim that this policy is discriminatory and violates the equal protection and due process clauses of the State Constitution, as well as various provisions of State law, the City Administrative Code and State Executive Order No. 28. Plaintiffs seek injunctive relief and compensatory and punitive damages. On August 16, 1991, the Court denied all but one aspect of the City's motion to dismiss for failure to state a cause of action, but did strike plaintiffs' request for punitive damages. On May 12, 1992, the Appellate Division, First Department affirmed the lower court's decision. If plaintiffs were to prevail ultimately in this action, the City could become subject to substantially increased costs for health insurance benefits.
- 7. In an action brought by the New York City Coalition to End Lead Poisoning and other plaintiffs, against the City and other defendants, the Supreme Court, New York County, on August 2, 1990 ordered the City to promulgate regulations consistent with local law governing the removal of lead-based paint in residential buildings. On February 28, 1991, the Appellate Division, First Department affirmed the order and on May 30, 1991, the Appellate Division, First Department, denied the City's motion for leave to appeal to the Court of Appeals. On March 26, 1993, plaintiffs moved for partial summary judgement and a permanent injunction directing the City to adopt written procedures to ensure adequate enforcement of local law. On May 4, 1993 the Supreme Court issued a decision holding the City in contempt for failing to comply with its 1990 order and fined the City approximately \$14,000. The City could incur substantial costs if it is required to issue regulations implementing the law as currently interpreted by the courts. In addition, the litigation challenges other aspects of the City's lead poisoning prevention activities such as screening children for lead poisoning, the timeliness and adequacy of the City's enforcement programs and inspection of day care facilities. Adverse determinations on these issues could result in substantial additional costs to the City. Additionally, legislation was passed in the United States Congress that could impose substantial costs on municipalities, including the City, in connection with lead paint removal.
- 8. Numerous actions have been asserted against the City and the Covered Organizations alleging that the City and the Covered Organizations have failed to provide proper housing and services to homeless individuals and families. These actions have been brought on behalf of, among others, homeless persons with AIDS, homeless families, and homeless mentally ill and allege that the City has failed to provide such persons with adequate housing in violation of the State Constitution, the State Social Services Law, the State Mental Hygiene Law, and various related regulations. In one action brought by homeless mentally-ill patients released from City hospitals, the New York Court of Appeals has ruled that the City must, *inter alia*, assist in locating adequate and appropriate housing when such patients are discharged from in-patient care. It is unclear at present what costs the City may incur as a result of this ruling. Adverse determinations in the other actions could also result in substantial costs to the City.
- 9. A suit has been commenced in State Supreme Court, New York County, by tenants residing in housing acquired by the City through *in rem* tax proceedings challenging the City's right to vacate unsafe *in rem* buildings and asserting instead that they be maintained in accordance with the State's Multiple Dwelling Law and the City's Housing Maintenance Code. On June 9, 1992, the Court granted plaintiffs' motion for partial summary judgment and held that, under certain circumstances, the buildings must be maintained in

accordance with the Multiple Dwelling Law and the Housing Maintenance Code. The City filed a notice of appeal on November 10, 1992. In addition various plaintiffs have also filed notices of appeal. An adverse decision could result in substantial costs to the City.

- 10. On November 25, 1992, several self-insured employee welfare benefit plans commenced an action in the United States District Court for the Eastern District of New York against various State officials challenging provisions of the State Public Health Law which impose surcharges on certain hospital bills. Plaintiffs allege that imposition of the surcharges, which are used in part to fund State bad debt and charity care pools, violate provisions of Federal law which regulate employee benefit plans. In the event that such surcharges are held invalid and alternative funding sources are not identified, the City could incur substantial costs to replace a significant portion of the cost of uncompensated health care now covered by the bad debt and charity care pools.
- 11. On December 1, 1992, certain New York City Transit Police retirees filed an action in State Supreme Court, Queens County (later transferred to New York County) challenging legislation that provides, among other things, for the payment of variable supplemental pension benefits only to retired transit police officers who did not retire by reason of a disability or who retired after July 1, 1987 (the "Transit Police Variable Supplement Legislation"). Plaintiffs allege that the Transit Police Variable Supplement Legislation violates the United States and New York Constitutions as well as Federal and State statutes and seek either to have the legislation declared void or to obtain benefits equivalent to those to which the statutory beneficiaries are entitled. On December 15, 1992 the Court granted a temporary restraining order enjoining the payment of variable supplemental pension benefits to statutory beneficiaries pending a hearing. On July 16, 1993, however, the Court denied plaintiffs' motion for a preliminary injunction, thereby terminating the temporary restraining order. On April 23, 1993, plaintiffs filed a second lawsuit in State Supreme Court, Queens County, against the City, the Transit Authority and the unions representing certain City employees alleging a breach of duty of fair representation and other violations of law in the enactment of the Transit Police Variable Supplement Legislation and seeking damages of \$600 million of which \$300 million are sought from the City.

Tax Exemption

In the opinion of Brown & Wood, New York, New York, and Barnes, McGhee, Neal, Poston & Segue, New York, New York, as Bond Counsel, except as provided in the following sentence, interest on the Bonds will not be includable in the gross income of the owners of the Bonds for purposes of Federal income taxation under existing law. Interest on the Bonds will be includable in the gross income of the owners thereof retroactive to the date of issue of the Bonds in the event of a failure by the City to comply with applicable requirements of the Internal Revenue Code of 1986, as amended (the "Code"), and covenants regarding use, expenditure and investment of bond proceeds and the timely payment of certain investment earnings to the United States Treasury, and no opinion is rendered by either firm as to the exclusion from gross income of the interest on the Bonds for Federal income tax purposes on or after the date on which any action is taken under the certificate of the Acting Deputy Comptroller for Finance (under which the Bonds are being issued) upon the approval of counsel other than such firm.

Interest on the Bonds will be exempt from personal income taxes imposed by the State or any political subdivision thereof, including the City.

Interest on the Bonds will not be a specific preference item for purposes of the Federal individual or corporate alternative minimum tax. The Code contains other provisions that could result in tax consequences, upon which Brown & Wood and Barnes, McGhee, Neal, Poston & Segue render no opinion, as a result of ownership of such Bonds or the inclusion in certain computations (including without limitation those related to the corporate alternative minimum tax and environmental tax) of interest that is excluded from gross income. Interest on the Bonds owned by a corporation will be included in the calculation of the corporation's Federal alternative minimum tax liability and Federal environmental tax liability.

Ownership of tax-exempt obligations may result in collateral tax consequences to certain taxpayers, including, without limitation, financial institutions, property and casualty insurance companies, certain foreign corporations doing business in the United States, certain S Corporations with excess passive income,

individual recipients of Social Security or railroad retirement benefits and taxpayers who may be deemed to have incurred or continued indebtedness to purchase or carry tax-exempt obligations. Prospective purchasers of the Bonds should consult their tax advisors as to applicability of any such collateral consequences.

The initial public offering price of the Fixed Rate Bonds due in 1998 and thereafter (the "OID Bonds"), is less than the amount payable at maturity. The difference between the initial public offering price to the public (excluding bond houses and brokers) at which price a substantial amount of each maturity of the OID Bonds is sold and the amount payable at maturity constitutes original issue discount, which will be excludable from gross income to the same extent as interest on the Bonds for Federal, New York State and New York City income tax purposes. The Code provides that the amount of original issue discount accrues in accordance with a constant interest method based on the compounding of interest, and that a holder's adjusted basis for purposes of determining a holder's gain or loss on disposition of such OID Bonds will be increased by such amount. A portion of the original issue discount that accrues in each year to an owner of an OID Bond which is a corporation will be included in the calculation of the corporation's Federal alternative minimum tax liability and Federal environmental tax liability. Consequently, corporate owners of any OID Bond should be aware that the accrual of original issue discount in each year may result in an alternative minimum tax liability or an environmental tax liability although the owner of such OID Bond has not received cash attributable to such original issue discount in such year.

Owners of OID Bonds should consult their personal tax advisors with respect to the determination for Federal income tax purposes of the amount of original issue discount or interest properly accruable with respect to such OID Bonds, other tax consequences of owning OID Bonds and the other state and local tax consequences of holding such OID Bonds.

The Internal Revenue Service ("IRS") issued proposed regulations in 1992 concerning original issue discount (the "Proposed OID Regulations"). In addition, the IRS issued proposed regulations in 1986 (the "Proposed Regulations") concerning contingent payment debt instruments. Although it is uncertain, under the Proposed OID Regulations, which will only be effective 60 days after such regulations are finalized, a debt instrument with a floating interest rate followed by a fixed interest rate will be treated as a contingent payment debt obligation. There is no clear guidance on the applicability of these rules to optional conversion events of tax-exempt debt instruments such as the Inverse Floating Rate Notes and the Indexed Inverse Floater Securities that provide for optional interest rate conversions. Interest income ordinarily accrues periodically over time. Under that approach, which is consistent with the economic effect of the transaction, tax-exempt income resulting from the optional interest rate conversions would be recognized as it accrues. Although it is uncertain whether the Proposed Regulations apply to tax-exempt debt instruments, it is possible under a literal application of the Proposed Regulations that a holder of Inverse Floating Rate Notes or Indexed Inverse Floater Securities would be required to recognize tax-exempt income upon an optional conversion in an amount equal to the present value of the future interest payments fixed as a result of the optional conversion in advance of the receipt of the interest payments resulting in the front loading of tax-exempt income. Persons, particularly regulated investment companies (which are required under the Code to distribute at least 90 percent of their tax-exempt income each year) and corporations subject to alternative minimum tax and the environmental tax (or that could be subject to alternative minimum tax or environmental tax as a result of their ownership of the Inverse Floating Rate Notes or the Indexed Inverse Floater Securities), considering the purchase of Inverse Floating Rate Notes or Indexed Inverse Floater Securities should consult their own tax advisors concerning the timing or recognition of tax-exempt income upon optional conversion of the Inverse Floating Rate Notes and the Indexed Inverse Floater Securities and the application of related federal income tax provisions to their particular situations.

Legislation affecting municipal bonds is constantly being considered by the United States Congress. There can be no assurance that legislation enacted or proposed after the date of issuance of the Bonds will not have an adverse effect on the tax-exempt status or market price of the Bonds.

Ratings

Moody's has rated the Fixed Rate Bonds Baa1. Standard & Poor's has rated the Fixed Rate Bonds A-. Fitch Investors Service, Inc. ("Fitch") has rated the Fixed Rate Bonds A-. The City expects the Inverse Floating Rate Notes and the Indexed Inverse Floater Securities to be rated Baa1, A- and A- by Moody's,

Standard & Poor's and Fitch, respectively, and expects to receive such ratings on or prior to August 18, 1993. The ratings will not address the likelihood that holders of Indexed Inverse Floater Securities or Inverse Floating Rate Notes will be able successfully to convert the interest rate on their Indexed Inverse Floater Securities or Inverse Floating Rate Notes to the applicable Converted Rate each as provided therein. The City expects that ratings on the Adjustable Rate Bonds will be received on or prior to August 18, 1993. The Adjustable Rate Bonds, Subseries B-2, Subseries B-3 and Subseries B-4 are expected to be rated Aa3/VMIG1, Aa3/VMIG1, and Aaa/VMIG1, respectively, by Moody's and AA-/A-1+, AA-/A-1+, and AAA/A-1+ by Standard & Poor's, based upon the understanding that, with respect to such ratings for a Subseries, upon delivery of such Adjustable Rate Bonds of a Subseries, such Adjustable Rate Bonds of a Subseries will be entitled to the benefits of the applicable Credit Facility. Such ratings reflect only the views of Moody's and Standard & Poor's, from which an explanation of the significance of such ratings may be obtained. There is no assurance that such ratings will continue for any given period of time or that they will be revised downward or withdrawn entirely. Any such downward revision or withdrawal could have an adverse effect on the market prices of the Bonds.

In 1975, Standard & Poor's suspended its A rating of City bonds. This suspension remained in effect until March 1981, at which time the City received an investment grade rating of BBB from Standard & Poor's. On July 2, 1985, Standard & Poor's revised its rating of City bonds upward to BBB+ and on November 19, 1987, to A—. On July 2, 1993 Standard & Poor's reconfirmed its A— rating of City bonds, continued its negative rating outlook assessment and stated that maintenance of such rating depended upon the City's making further progress towards reducing budget gaps in the outlying years. Moody's ratings of City bonds were revised in November 1981 from B (in effect since 1977) to Ba1, in November 1983 to Baa, in December 1985 to Baa1, in May 1988 to A and again in February 1991 to Baa1. Since July 15, 1993, Fitch has rated City bonds A—.

Underwriting

The Bonds shown on the cover page are being purchased for reoffering by the Underwriters shown thereon.

The Bonds are being purchased at an underwriting discount of 0.68% from the aggregate initial public offering price. Each Contract of Purchase provides that the Underwriters will purchase all of the Bonds if any are purchased.

Certain of the Underwriters hold substantial amounts of City bonds and notes and MAC bonds and may, from time to time during and after the offering of the Bonds to the public, purchase and sell City bonds and notes (including the Bonds) and MAC bonds for their own accounts or for the accounts of others, or receive payment or prepayments thereon.

Legal Opinions

The legality of the authorization and issuance of the Bonds will be covered by the approving legal opinions of Brown & Wood, New York, New York, and Barnes, McGhee, Neal, Poston & Segue, New York, New York, Bond Counsel to the City. Reference should be made to the forms of such opinions set forth in Appendix J hereto for the matters covered by such opinions and the scope of Bond Counsel's engagement in relation to the issuance of the Bonds. Such firms are also acting as counsel for and against the City in certain other unrelated matters.

Certain legal matters will be passed upon for the City by its Corporation Counsel.

Lord Day & Lord, Barrett Smith, New York, New York, Special Counsel to the City, will pass upon certain legal matters in connection with the preparation of this Official Statement. A description of those matters and the nature of the review conducted by that firm is set forth in its opinion and accompanying memorandum which are on file at the office of the Corporation Counsel.

Certain legal matters will be passed upon by Rogers & Wells, New York, New York, and Wood, Williams, Rafalsky & Harris, New York, New York, Counsel for the Underwriters. Such firms are also acting as counsel for and against the City in certain other unrelated matters.

Financial Advisor

The City retains Public Resources Advisory Group ("PRAG") and P.G. Corbin & Company, Inc. to act as financial advisors with respect to the City's financing program. PRAG is acting as financial advisor for the issuance of the Bonds.

Further Information

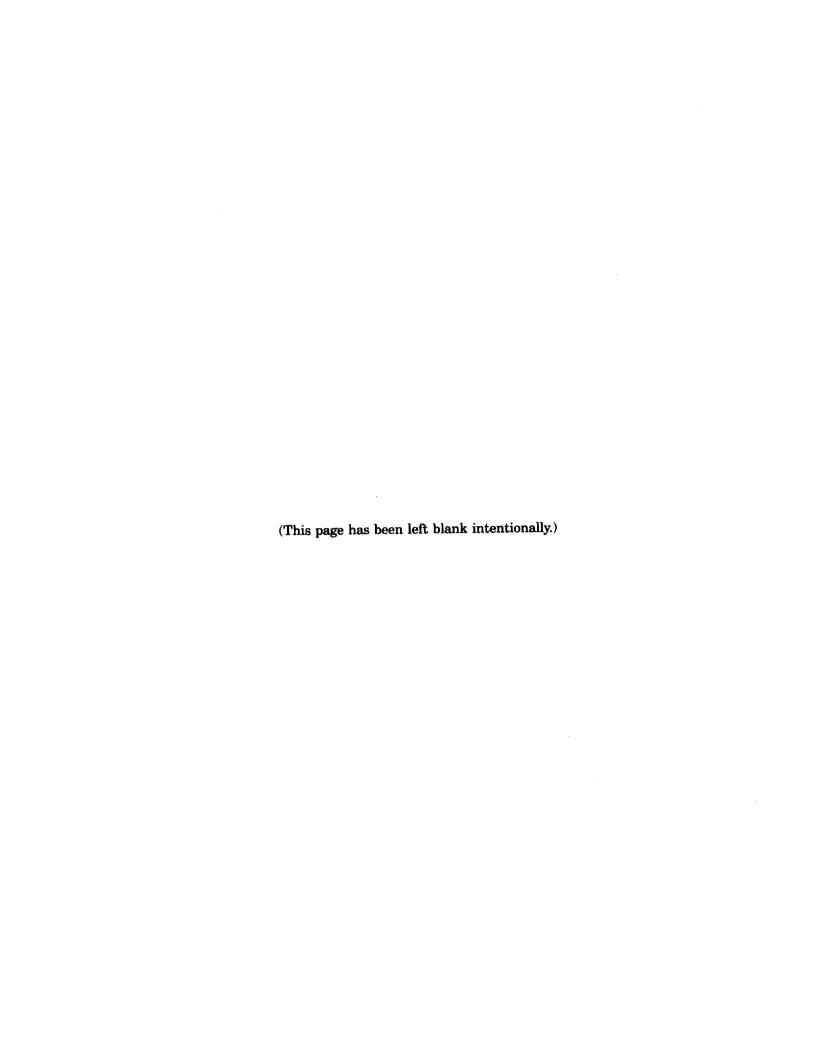

The references herein to, and summaries of, Federal, State and local laws, including but not limited to the State Constitution, the Financial Emergency Act, the Moratorium Act, the MAC Act and the City Charter, and documents, agreements and court decisions, including but not limited to the Financial Plan, are summaries of certain provisions thereof. Such summaries do not purport to be complete and are qualified in their entirety by reference to such acts, laws, documents, agreements or decisions, copies of which are available for inspection during business hours at the office of the Corporation Counsel.

Copies of the most recent financial plan submitted to the Control Board are available upon written request to the Office of Management and Budget, General Counsel, 6th Floor, 75 Park Place, New York, NY 10007, and copies of the most recent published Comprehensive Annual Report of the Comptroller are available upon written request to the Office of the Comptroller, Deputy Comptroller for Finance, 5th Floor, Municipal Building, One Centre Street, New York, NY 10007.

Neither this Official Statement nor any statement which may have been made orally or in writing shall be construed as a contract or as a part of a contract with the original purchasers or any holders of the Bonds.

THE CITY OF NEW YORK

ECONOMIC AND SOCIAL FACTORS

This section presents information regarding certain of the major economic and social factors affecting the City. All information is presented on a calendar year basis unless otherwise indicated. The data set forth are the latest available. Sources of information are indicated in the text or immediately following the charts and tables. Although the City considers the sources to be reliable, the City has made no independent verification of the information presented herein and does not warrant its accuracy.

Population Characteristics

New York City has been the most populous city in the United States since 1810. The City's population is almost as large as the combined population of the next three most populous cities in the United States.

The population of the City grew steadily through 1950, reaching 7,890,000, and remained relatively stable between 1950 and 1970. From 1970 to 1980, however, the City's population declined substantially, falling 10.4% over the decade. The final results of the 1990 census show a moderate increase in the City's population since 1980 due to an influx of immigrants primarily from Asia, the Caribbean and Latin America. The following table provides information concerning the City's population.

POPULATION OF NEW YORK CITY

Distribution	of	Population	By	County	(Borough)
		F	-,		(

Year	Total Population	1970=100	Bronx (The Bronx)	Kings (Brooklyn)	New York (Manhattan)	Queens (Queens)	Richmond (Staten Island)
1960	7,781,984	98.6	1,424,815	2,627,319	1,698,281	1,809,578	221,991
1970	7,895,563	100.0	1,471,701	2,602,012	1,539,233	1,987,174	295,443
1980(1)	7,071,639	89.6	1,168,972	2,231,028	1,428,285	1,891,325	352,029
1984(2)	7,234,514	91.6	1,179,413	2,288,807	1,457,879	1,943,568	364,847
1985(2)	7,274,054	92.1	1,187,894	2,304,368	1,464,286	1,949,579	367,927
1986(2)	7,319,246	92.7	1,198,837	2,320,507	1,475,202	1,953,616	371,084
1987(2)	7,342,476	93.0	1,210,712	2,324,361	1,481,531	1,952,640	373,232
1988(2)	7,353,719	93.1	1,215,834	2,326,439	1,484,183	1,951,557	375,706
1989(1)	7,344,175	93.0	1,213,675	2,316,966	1,486,046	1,950,425	377,063
1990(1)	7,322,564	92.7	1,203,789	2,300,664	1,487,536	1,951,598	378,977
1991(1)	7,320,510	92.7	1,197,523	2,292,394	1,494,082	1,951,928	384,583

⁽¹⁾ Final census count, which may reflect an undercount of a significant number of persons and is subject to modification as a result of certain litigation with the Census Bureau.

Note: Does not include an undetermined number of undocumented aliens.

Economic Activity, 1969-1991

For at least a decade prior to the end of the fiscal crisis in the mid-seventies, New York City's economy lagged behind the national economy, as evidenced by certain of the broad economic indicators. The City's economy improved after that crisis, and through 1987 certain of the key economic indicators posted steady growth. From 1987 to 1991 the rate of economic growth in the City slowed substantially as a result of the 1987 stock market crash and the beginning of the national recession. Trends of certain major economic indicators for the City and the nation are shown in the following table.

Trends of Major Economic Indicators 1969-91

	Levels				Average Annual Percent Change

Employment Trends

From 1969 to 1977, economic activity in the City declined sharply while the U.S. economy expanded, despite two national recessions (1969 to 1970 and 1973 to 1975) during this period. Locally, total employment dropped 16.1 percent, from 3,798,000 jobs to 3,188,000 jobs, or 2.2 percent per year over the eight-year period. A loss of 287,000 jobs, or 5.2 percent per year, to 539,000 jobs in the manufacturing sector accounted for nearly half of the City's total employment loss during this period. Employment in the finance, insurance and real estate ("FIRE") sector declined by 50,000 jobs, or 1.4 percent per year, to 414,000 jobs, while service sector employment remained relatively constant at 783,000 jobs.

The ripple effects of the decline in the manufacturing and FIRE sectors of the City's economy, along with stagnation in the services sector, caused declines during the 1969 to 1977 period in other sectors sensitive to the health of the rest of the local economy. In particular, government employment fell 0.9 percent per year to 508,000 jobs; transportation and public utilities employment dropped 2.8 percent per year to 258,000 jobs; wholesale and retail trade employment declined 2.3 percent per year to 620,000 jobs; and construction employment decreased 6.0 percent per year to 64,000 jobs.

Conversely, from 1969 to 1977, U.S. real GDP rose on average 2.6 percent per year and employment increased at an average annual rate of 2.0 percent. Thus, as the nation emerged from the OPEC-induced recession in 1973 to 1975, a continuing local economic decline plunged the City into a fiscal crisis that led it to the brink of bankruptcy.

The City's economy during the period from 1977 to 1987 contrasts sharply with the 1969 to 1977 period. During the 1977 to 1987 period, the City's economy expanded along with that of the nation. From the late 1970s to the late 1980s, U.S. real GDP rose 2.5 percent per year, despite a severe recession from 1980 to 1982. But unlike growth in the 1969 to 1977 period when U.S. inflation accelerated and interest rates rose, in the 1977 to 1987 period, inflation generally decelerated and interest rates dropped by 50 percent from their

⁽⁴⁾ In average dollars for 1982-1984.

1981 peak. This provided a powerful impetus to the financial markets and the result was a bull market which nearly tripled stock prices and increased the volume of shares traded by 800 percent. As a consequence, the City's FIRE sector employment grew dramatically and carried the rest of the local economy along with it.

Due to the strong growth in the FIRE and service sectors, total City employment rose 1.2 percent a year to reach 3,590,000 in 1987, the highest level in a decade and a half. More specifically, during the 1977 to 1987 period, FIRE employment grew 2.9 percent per year to 550,000 jobs; service sector employment rose 3.5 percent per year to 1,108,000 jobs; wholesale and retail trade employment increased 0.3 percent per year to 638,000 jobs; government employment grew 1.3 percent per year to 580,000 jobs; and construction employment increased 6.3 percent per year to 119,000 jobs. Meanwhile, manufacturing employment continued its long-term decline, dropping 3.4 percent per year to 380,000 jobs, and transportation and public utilities employment also continued to decline, decreasing nearly 1.8 percent per year to 215,000 jobs.

Another turning point in the City's economy was the October 1987 stock market crash. During 1988, the U.S. economy boomed with real GDP growth of 3.9 percent and an increase in employment of 3.2 percent, both above their average annual growth rates for the period from 1969 to 1987 of 2.6 and 2.1 percent, respectively. The City's economy, however, stagnated, and the ripple effects of job losses resulting from post-crash layoffs of more than 20,000 employees in the FIRE sector, where wages are 50 percent above the City average, caused City growth in 1988 essentially to disappear. After increases of 35,000 jobs a year from 1977 to 1987, City employment increased by only 15,000 jobs, or 0.4 percent, in 1988. All of that increase was attributable to government employment, which added 15,800 jobs. Service sector employment added 14,600 jobs, less than half its average annual growth in the 1977 to 1987 period, and such growth was more than offset by declines in employment in the FIRE and manufacturing sectors.

During 1989, the U.S. economy grew moderately with an increase in real GDP of 2.5 percent and an increase in employment of 2.6 percent. The City's economy, however, continued to stagnate, with continued declines in employment in the FIRE and manufacturing sectors and very weak growth in government employment.

The national economic downturn which began in July 1990 adversely affected the local economy, which had been declining since late 1989. As a result, the City experienced significant job losses in 1990 with total employment declining by 1.2 percent or 42,000 jobs. Employment increased only in the service, transportation and public utilities and government sectors, at rates of 0.2 percent, 5.1 percent (due to a strike in 1989) and 1.0 percent, respectively. These increases were, however, more than offset by the job losses in the other major sectors, specifically, the FIRE, wholesale and retail trade, manufacturing and construction sectors which experienced decreases of 2.1 percent, 3.5 percent, 6.1 percent and 4.9 percent, respectively.

During 1991, both the national and local economies continued to decline, with the City declining at a faster rate than the nation. Local employment decreased by 191,000 jobs, or 5.3 percent, and the nation experienced job losses totalling 1.2 million, or 1.1 percent. In 1992, job losses moderated in the City, with employment in the City decreasing by 90,000 jobs, or 2.7 percent, and employment in the U.S. increased by 0.2 percent. As of June 1993, employment in the U.S. had increased by 1.6 million jobs and employment in the City decreased by 28,000 jobs from June 1992.

Certain City employment information is presented in the tables below. These tables are derived from the Establishment Survey and the Current Population Survey which use significantly different estimation techniques that are not comparable.

Non-Agricultural Payroll Employment: Establishment Survey

Non-agricultural payroll employment trends in the City are shown in the table below.

Consumer Prices and Wage Rates

The City's economic growth during 1977 to 1987, fueled by the boom in the financial sector, aggravated local inflationary pressures. Since 1983, the local Consumer Price Index increased more than the national average, rising 4.6 percent per year on average through 1989 versus 3.6 percent per year for the nation. This was a reversal of the trend in the 1970s and early 1980s, when local inflation lagged the national rate by a percentage point. In 1988, local prices rose 4.9 percent, or 0.8 percentage points faster than the national rate, and in 1989, local inflation measured 5.6 percent compared to the national 4.8 percent rate. In 1990, prices at the local and national levels experienced a sharp increase over 1989, climbing 6.1 percent and 5.4 percent, respectively. Largely responsible for the surge in prices in 1990 was a steep upturn in energy prices created by an OPEC agreement and the Middle East crisis. In 1991, the local inflation rate was 4.5 percent, which was 0.3 of a percentage point higher than the national rate of 4.2 percent. In 1992, inflation was generally subdued both locally and nationally with prices in the New York area rising 3.6 percent compared to 3.0 percent nationally. The premium of the New York area inflation rate over the national rate was 0.1 percentage points in June 1993, with local inflation running at a rate of 3.1 percent and national inflation running at a rate of 3.0 percent.

⁽²⁾ Percentage of civilian labor force unemployed: excludes those persons unable to work and discouraged workers (i.e., persons not actively seeking work because they believe no suitable work is available).

⁽³⁾ From April 1988 through October 1989, the monthly Current Population Survey was discontinued. The annual 1989 employment information for the City represents year-end (December) data.

The growth in the financial sector in the 1980s accelerated wage rate increases in the City, which had run at about the national average of 7.6 percent per year from 1975 to 1981, a period of double-digit inflation. Inflation has subsided since 1981; however, bolstered by high bonus payments in the financial sector, with its multiplier effects on other industries, overall wage rates climbed 7.1 percent per year from 1982 to 1988, or approximately 2.5 percentage points above the U.S. rate. In 1988, the premium over the national wage rate increased to nearly 4 percentage points, as local wages, boosted by record bonus payments on Wall Street for 1987, rose 8.5 percent compared to 4.6 percent for the nation.

In 1989, given the sharp decrease in FIRE sector bonus payments and base compensation, local wage rates rose only 3.4 percent, versus the national increase of 3.1 percent. As the stock market stabilized, local wage rates increased 6.6 percent versus 4.6 percent for the nation in 1990. In 1991, local wage rates increased 4.0% versus 3.6% for the nation. In 1992, boosted by FIRE sector bonus payments, local wage rates increased 11.3% versus 3.5% for the nation.

The following table presents information on consumer price trends for the New York-Northeastern New Jersey and four other metropolitan areas, and the nation.

⁽²⁾ Since January 1987, the New York area coverage has been expanded. The New York-Northeastern New Jersey area comprises the five boroughs of New York City, Nassau, Suffolk, Westchester, Rockland, Putnam, and Orange Counties in New York State; Bergen, Essex, Hudson, Hunterdon, Middlesex, Monmouth, Morris, Ocean, Passaic, Somerset, Sussex, and Union counties in New Jersey; and Fairfield County and parts of Litchfield and New Haven Counties in Connecticut.

⁽³⁾ The Consumer Price Index for San Francisco-Oakland was reported bi-monthly prior to 1987.

Personal Income

While per capita personal income for City residents, unadjusted for the effects of inflation and the differential in living costs, has increased in recent years and remains higher than the average for the United States, it fell from 1950 through 1979 as a proportion of both the national and New York metropolitan area levels. This relative decline in per capita income of City residents was partially because the incomes of households moving into the City were substantially lower than those of departing households, which relocated mostly to the City's suburbs. As a result of the surge in wage rates and employment, growth in personal income in New York City also increased in the mid-1980s. From 1971 to 1981, income growth in the City was below the U.S. rate by nearly four percentage points, as U.S. employment grew and City employment for most of that period declined. From 1982 to 1991 (the most recent year for which local personal income data are available), New York City personal income averaged 6.7 percent growth, the same as in the nation. The following table sets forth recent information regarding personal income in the City.

PERSONAL INCOME IN NEW YORK CITY(1)

	Pers	onal Income)	Per Capita Personal Income								
	NYC	Average	Annual hange			Annual		York City as a I	Percent of

Sectoral Distribution of Employment and Income

Data on the sectoral distribution of employment and income reflect a growing concentration of FIRE and services employment and a shrinking manufacturing base in the City relative to the nation. Within FIRE and services, the expanding trend is especially more marked in finance, business and related professional services. There are important implications of this structural shift from the manufacturing to the FIRE and services sectors. First, average employee income in finance and related business and professional services has been considerably higher than in manufacturing. Although the employment share of the FIRE sector increased by 2 percentage points during 1977 to 1989, its earnings share increased by about 9 percentage points, which reflects its high per employee income. However, the sudden shock in the financial industry of the October 1987 stock market crash had a disproportionally adverse effect on the City's employment and income relative to the nation. Payroll employment data indicates that through December 1991 the City's FIRE sector lost 71,000 jobs since the October 1987 crash, significantly offsetting the employment gains in other sectors. The City's and the nation's employment and income by industry sector are set forth in the following table.

⁽²⁾ Suburban Counties consists of the counties of Nassau, Putnam, Rockland, Suffolk, and Westchester in New York State.

⁽³⁾ Based on Primary Metropolitan Statistical Area ("PMSA") which includes New York City, Putnam, Rockland and Westchester counties.

SECTORAL DISTRIBUTION OF EMPLOYMENT AND EARNINGS(1)

		Employ	ment	Earnings(2)

Total Non-Agricultural	100.0	100.0	100.0	100.0	100.0	100.0	100.0	100.0	

⁽¹⁾ The sectoral distributions are obtained by dividing each industry's employment or earnings by total non-agricultural employment or earnings.

Sources: The two primary sources of employment and earnings information are U.S. Dept. of Labor, BLS, and U.S. Dept. of Commerce, Bureau of Economic Analysis ("BEA"), respectively.

Public Assistance

Between 1960 and 1972, the number of persons in the City who were recipients of some form of public assistance more than tripled from 324,200 to 1,265,300. The bulk of the long-term increase occurred in the Aid to Families with Dependent Children ("AFDC") program, which more than quadrupled during that period.

Between 1972 and 1982, the number of recipients, including those in the Supplemental Security Income ("SSI") program, declined fairly steadily, except for temporary increases noted in 1975 and 1976, when the City was experiencing the effects of a national recession. From 1983 until 1987, the number of recipients increased, reflecting lingering effects of the 1982 recession. While figures for 1988 and 1989 indicate a decrease in public assistance recipients, the number of recipients has increased throughout 1990, 1991 and thus far in 1992.

Public assistance and SSI recipients rose as a proportion of total City population from 4.2% in 1960 to 16.5% in 1975. Between 1975 and 1985, that proportion decreased to 15.8% of total population.

⁽²⁾ Includes the sum of wage and salary disbursements, other labor income, and proprietors' income. The latest information available for New York City is 1991 preliminary data.

⁽³⁾ Excludes military establishments.

The following tables set forth the number of persons receiving public assistance in the City.

PERSONS RECEIVING PUBLIC ASSISTANCE IN NEW YORK CITY (Annual Averages in Thousands)

Year(1)	Total	Average Annual Change (%)	Home Relief	AFDC	AFDC Unemployed Parent	AFDC Predetermination Grant
1986	911.5	(1.6)	174.3	717.6	19.6	
1987	871.5	(4.4)	162.0	694.2	15.3	
1988	840.1	(3.6)	155.8	671.2	13.0	_
1989	817.9	(2.6)	149.3	642.0	12.0	14.6(2)
1990	858.3	4.9	139.7	641.4	12.8	64.5
1991	939.4	9.5	166.5	677.5	15.0	80.4
1992	1,007.7	7.3	189.3	710.1	15.9	92.3

⁽¹⁾ Figures do not include aged, disabled or blind persons who were transferred from public assistance to the SSI program, which is primarily Federally funded. According to the U.S. Department of Health and Human Services, the SSI program supported, as of December of each year, a total of 227,068 persons in 1979; 223,934 persons in 1980; 217,274 persons in 1981; 207,484 persons in 1982; 206,330 persons in 1983; 211,728 persons in 1984; 217,852 persons in 1985; 223,404 in 1986 and 227,918 in 1987.

Note: Due to a change in statistical measurements, the decline in public assistance recipients for 1987 may be slightly overstated.

RECENT MONTHLY TRENDS (Total Recipients In Thousands)

Retail Sales

The City is a major retail trade market, and has the greatest volume of retail sales of any city in the nation. After a very large increase in 1980, retail sales growth in New York City moderated in 1981. Between 1984 and 1986, retail sales, particularly of durable goods, grew at an increased rate, outpacing the nation in 1985 and 1986. Retail sales increased slightly by 0.2 percent in 1987 mainly because consumers shifted their purchases into 1986 (sales increased 17.3%) to take advantage of the expiring sales tax deductibility on federal income tax returns. The October 1987 stock market crash had a temporary dampening effect on retail sales, but in 1988, sales increased by 10.8 percent. By 1989 and 1990, however, the local recession became apparent as retail sales in the City increased only slightly by 0.4% and then declined by 0.8%, respectively, over the previous years' figures. Retail sales decreased in 1991 by 4.4% and by 3.4% in 1992. The May 1993 figures indicate a decrease of 4.3 percent over May 1992. The retail sales figures for 1992 are based on a different sample of data than for 1991; therefore, year over year comparisons for 1992 may be distorted. Retail sales figures prior to 1992 were based, and, for 1993 and thereafter will be based, on the same sample of data as the prior year figures. Trends in the City's retail sales are shown in the table below.

⁽²⁾ Figure comprises persons receiving public assistance as predetermination grant recipients pending AFDC eligibility for only October through December of 1989.

Business Activity Index

The City has a highly diversified economic base, and sustains a substantial volume of business activity in the service, wholesale and retail trade and manufacturing industries.

The largest aggregate of economic activity in the City is the corporate headquarters complex, together with ancillary services. The City is the location of a large number of major securities, banking, law, accounting and advertising firms. While the City had experienced a substantial number of business relocations during the previous decade, the number of relocations declined significantly after 1976, although declines in back office employment continued. Most of the corporations which relocated moved to sites within the City's metropolitan area, and continue to rely in large measure on services provided by businesses which are still located in the City.

The City is a leading center for the banking and securities industry, life insurance, communications, publishing, fashion design and retailing, among other fields. The City is a major seaport and focal point for international business. Many of the major corporations headquartered in the City are multinational in scope and have extensive foreign operations. Numerous foreign-owned companies in the United States are also headquartered in the City. These firms, which have increased in number substantially over the past decade, are found in all sectors of the City's economy, but are concentrated in trade, manufacturing sales offices, tourism and finance. Foreign banking activities have increased significantly since the early 1970s and continued to grow rapidly through the 1980s. Real estate dollar value purchases in the United States disclosed by foreigners are heavily concentrated in the City in terms of dollar value. The City is the location of the headquarters of the United Nations, and several affiliated organizations maintain their principal offices in the City. A large diplomatic community exists in the City to staff the 157 missions to the United Nations and the 88 foreign consulates.

The Business Activity Index ("BAI") for the City, which is a measure of the overall health of the economy, reflects both long-term trends in the City's economic base and short-term fluctuations in the performance of the national economy. Due to a partial erosion of its economic base, the City was particularly vulnerable to national economic downturns, while lagging behind in times of national expansion during the 1970s. The impact of the national economic recession of 1974-1975 was particularly severe. From a peak of 111 early in 1973, the BAI for the City declined to a low of 96 during the spring of 1975. The effects of the 1980 and 1981-1982 national recessions were less severe to the City's economy. The table below shows the City and State BAI for the past several years.

⁽²⁾ Includes building materials, hardware, garden supply and mobile home dealers, automotive dealers, and furniture, home furnishings and equipment stores.

BUSINESS ACTIVITY INDEX (Annual Average, 1977=100)

	1984	<u>1985</u>	<u>1986</u>	1987	1988	1989	1990	1991	1992	1993(1)
New York City	109	112	116	121	124	125	126	122	120	121
New York State	114	119	124	129	135	137	137	135	135	136

⁽¹⁾ January 1993.

Source: State of New York, Department of Commerce, Division of Economic Research and Statistics.

Note: The Business Activity Index comprises eight basic business activities, which include: factory output; retail; service; wholesale; construction; transportation; communications and public utilities; and finance, insurance and real estate.

Many factors have been cited as placing the City during the early 1970s at a competitive disadvantage as a business location in relation to its suburbs and the Sunbelt region and contributing to the erosion of the City's economic base. Among these factors were the City's tax burden, energy costs, labor costs, office space market and cost of living.

The combined state and local tax burden on residents of the City is one of the highest among all cities in the United States. In the 1988 fiscal year, average per capita City taxes were \$1,812 and average per capita State taxes paid by residents of the State were \$1,462, a combined tax burden of \$3,274 per capita. Nationwide, per capita local taxes averaged \$698 and per capita state taxes averaged \$1,074 for the 1988 fiscal year for a combined tax burden of \$1,772.

The cost of energy in the City is one of the highest in the nation, particularly for electricity. In May 1991, electric costs in the City for industrial users was ranked the third highest among electric utility service areas in the nation.

During certain prior periods, in particular the mid-1960s and from 1977 through most of 1982, the demand for office space in the City greatly exceeded the available supply, and as a result, the rental cost of available space escalated sharply. However, at the end of 1982 and in early 1983, construction activity increased and the office market softened. Recent data from Cushman & Wakefield indicate that the office market in the City, particularly in the downtown area where older, poorly maintained buildings have been vacated, has been softening due to an increased availability of office space, with the overall vacancy rate in Manhattan at approximately 18.4%.

Hotel Occupancy Rate

A major world center for culture and the arts, the City is the nation's leading tourist center, and tourism is a major revenue producing industry in the City. In 1979, the City hosted a record number of tourist and business visitors, 17.5 million, who injected nearly \$2.3 billion into the local economy and filled the City's hotels to 81 percent of capacity. Despite current economic conditions worldwide, tourism continues as one of the City's major economic strengths. Based on revised estimates, during 1988, 25.5 million people visited the City, a sharp rise over 1987, and they spent a total of \$9.76 billion, a 9.7 percent increase from 1987. A significant rise in overseas visitor business occurred, with the number of foreign visitors increasing to almost 4.6 million in 1988, a 15 percent increase from 1987. In 1988, overseas visitors continued to increase for the fourth consecutive year after three years of declines in visitor business from abroad. The number of conventions increased to 973 in 1988 from 965 in 1987, and the number of delegates attending stood at 3.0 million in 1988. The table below shows the number of visitors to the City and the City's hotel occupancy rate for each year since 1980.

NUMBER OF VISITORS AND HOTEL OCCUPANCY RATE IN NEW YORK CITY

Year	Visitors(1) (In Millions)	Hotel Occupancy Rate(2) Annual Average of Monthly Rates
1980	17.1	78.4%
1981	17.0	72.8
1982	16.9	69.7
1983	17.1	71.9

Infrastructure

The physical infrastructure of a city, its systems of water supply, sewers, bridges, streets and mass transit, is the underlying component of its economic base and is vital to its economic health.

The City owns and operates an upstate reservoir system covering in excess of 1,950 square miles. Water is carried to the City by a transmission system, consisting of three aqueducts, two tunnels and over 5,700 miles of trunk and distribution lines. The City has undertaken construction of a third water tunnel project to enhance the delivery capabilities and proper maintenance of the City's distribution system. In addition to supplying the needs of its residents and businesses, the City is required by State law to sell water to municipalities in counties where its water supply facilities are located. The City and its upstate watershed areas are subject to periodic drought conditions, which led the City to impose mandatory water conservation measures during 1965, 1981 and 1985.

The sewer system contains approximately 6,300 miles of sewer lines and the City's water pollution system includes 14 operating treatment facilities. The City's road network consists of some 6,200 miles of streets and arterial highway, and more than 1,300 bridges and tunnels.

The Department of Sanitation operates the City's one landfill. The capacity of the Fresh Kills landfill is expected to last until approximately 2015. The City's Ten-Year Capital Strategy reflects the estimated costs of capital improvements necessary to maximize current waste disposal capacity and to provide for the construction of six resource recovery plants at an estimated cost of \$2.4 billion. The City has also entered into an administrative settlement with the State Department of Environmental Conservation which will require the City to spend approximately \$200 million over ten years to install pollution control systems at the Fresh Kills landfill.

The City's mass transit system includes a subway system which covers over 238 route-miles with 469 stations and is the most extensive underground system in the world. The concentration of employment in the City and its metropolitan area in the Manhattan central business district increases the importance of the City's mass transit system to the City's economy. Two-fifths of all workers residing in the New York area use public transportation to reach their workplace, the largest proportion among 26 large areas surveyed. New York City's subway system continues to undergo its most extensive overhaul since it was completed 50 years ago.

The City has developed a ten-year capital program, the Ten-Year Capital Strategy, for fiscal years 1994-2003 which projects available capital funds over this period of \$51.6 billion, of which approximately 93% will be financed with City sources. A portion of these funds is for rehabilitation or replacements of various elements of the infrastructure.

 ¹⁹⁸⁷ through 1990 figures have been revised and are inconsistent with the rest of this series.

Housing

The housing stock in the City in 1987 consisted of 2,840,257 housing units, excluding units in special places, primarily institutions such as hospitals and universities. The 1987 housing inventory represented an increase of 36,988 units, or 1.3%, since 1984. While the total population of the City declined by 10.4% between 1970 and 1980, housing in the City remains in short supply. A concurrent trend toward smaller sized households resulted in a decrease during the 1970s of only 1.7% in the total number of resident households. The following table presents the housing inventory in the City.

HOUSING INVENTORY IN NEW YORK CITY (Housing Units in Thousands)

Ownership/Occupancy Status	1981	1984	1987
Total Housing Units	2.792	2,803	2,840

Pontos Osamis d	1,934	1,901	1,884
Vacant for Rent	42	40	47
Vacant Not Available For Sale Or Rent(2)	62	56	72

⁽¹⁾ Includes condominiums.

Sources: Stegman, Michael A., Housing and Vacancy Report: New York City, The City of New York Department of Housing Preservation and Development (New York: April 1988).

The 1987 Housing and Vacancy Report indicates that rental housing units predominate in the City. Of all occupied housing units in 1987, 30.2% were conventional home-ownership units, cooperatives or condominiums and 69.8% were rental units. Most of the recent growth in owner-occupied units has come from the conversion of existing rental units to cooperatives rather than through the new construction of housing for sale to occupants in the City. The vacancy rate for rental housing was 2.46% in 1987, and median rent consumed 29% of the gross income of tenants. The housing condition of occupied rental units improved greatly since 1984, with a decrease in the proportion of rental units in dilapidated or deficient condition. Only 2% of renter-occupied housing units were located in dilapidated structures, and 14% were in structures with at least three serious maintenance deficiencies.

After a significant decline during the early 1970s, a slight recovery in housing construction occurred between 1975 and 1979. However, in 1980, new housing construction declined again. Of all new housing units constructed in the City between 1975 and 1978, over two-thirds were government financed or government aided; of privately financed housing units, nearly half received full or partial tax exemptions. Rehabilitation of existing housing units and conversion of housing units from other uses, through private financing and City-administered Federal funds or tax abatement programs, has increased substantially in recent years, and is now a significant segment of the City's housing market.

Construction

Office building construction in the Manhattan Central Business District is currently undergoing a substantial decline after experiencing significant growth during the 1980s. Between 1954 and 1968, an annual average of more than 4.7 million square feet of new office space was completed. An unusual surge of construction activity occurred between 1969 and 1972, when 61 new office building completions added a total of 51.2 million square feet of office space to the market, during a period of substantial decline in employment in the City. Construction activity declined after 1972 and by 1979 only 110,000 square feet of office space entered the market as a result of building completions. However, in 1980, new office building

⁽²⁾ Vacant units that are dilapidated, intended for seasonal use, held for occasional use, held for maintenance purposes or other reasons. Note: Details may not add up to totals due to rounding.

completions in the Manhattan Central Business District increased the level of rentable space by 412,000 square feet, and construction was started on a number of new projects, raising the value of all new construction in the City to over \$1 billion, then the largest amount since 1973.

During the late 1970s demand for office space, as a result of increased employment in the service and finance sectors of the City's economy and an increase in office space per employee, reduced the vacancy rate in the office space market from an estimated 15% in 1972 to 2% in 1981. The vacancy rate rose to 5.4% in 1983, 7.1% in 1984 and 8.2% in 1985 due to the strong upswing in construction activity. This trend continued during 1986 indicating a vacancy rate of 8.4%. In 1987, construction in the City had increased while commercial rents declined. Vacancy rates have continued to rise as a result of the 1987 stock market crash and subsequent retrenchment of the FIRE sector. By the end of 1990, vacancy rates for the Manhattan commercial market were close to 17%, as office construction continued and very little new space was occupied. As of August 1992, the overall office vacancy rate in Manhattan was 18.4%.

With respect to housing construction between 1975 and 1979, the number of building permits for new housing units and the value of all new construction increased, indicating that a partial recovery in construction activity in the City occurred, although at a level much reduced from the 1962 peak. During 1980, permits were issued for 7,800 new housing units, compared to 14,524 issued in 1979, and the value of all new construction rose to \$1.063 billion, up from \$589 million in 1979.

Since 1988, office building and housing construction activity has slowed substantially.

Real Estate Valuation

The following tables present data on a fiscal year basis regarding recent trends in the assessed valuation of taxable real property in the City. For further information regarding assessment procedures in the City, see "SECTION IV: FINANCIAL INFORMATION—Sources of City Revenues—Real Estate Tax."

No single taxpayer accounts for 10% or more of the City's real property tax. For the 1994 fiscal year, the assessed valuation of real estate of utility corporations is \$6.3 billion. The following table presents the 40 non-utility, non-residential properties having the greatest assessed valuation in the 1994 fiscal year as indicated in the tax rolls.

REPORT OF INDEPENDENT AUDITORS

THE PEOPLE OF THE CITY OF NEW YORK

We have audited the accompanying general purpose financial statements of The City of New York ("The City") as of and for the years ended June 30, 1992 and 1991, as listed in the accompanying index. These general purpose financial statements are the responsibility of the City's management. Our responsibility is to express an opinion on these financial statements based on our audits. We did not audit the financial statements of the entities disclosed in Note B. Those financial statements were audited by other auditors whose reports have been furnished to us, and our opinion on the general purpose financial statements, insofar as it relates to the amounts included for such entities, is based solely on the reports of the other auditors.

We conducted our audits in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits and the reports of other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audits and the reports of the other auditors, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of The City of New York at June 30, 1992 and 1991, and the results of its operations and cash flows of its proprietary fund type for the years then ended in conformity with generally accepted accounting principles.

As discussed in Note Q to the financial statements, in 1992 The City changed the asset valuation method utilized for determining pension contributions.

THE CITY OF NEW YORK NOTES TO FINANCIAL STATEMENTS JUNE 30, 1992 and 1991

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying general purpose financial statements of The City of New York (City) are presented in conformity with generally accepted accounting principles (GAAP) for governments as prescribed by the Governmental Accounting Standards Board (GASB). The amounts shown in the "Total (Memorandum Only)" column of the accompanying combined financial statements are presented only to facilitate financial analysis and are not the equivalent of consolidated financial statements. Reclassification of certain prior year amounts have been made to conform with the current year presentation.

The following is a summary of significant accounting policies and reporting practices of the City:

Reporting Entity

The financial statements present the accounts of the City, including the Board of Education and the community colleges of the City University of New York, and the financial statements of those separately administered organizations that provide services within the geographic boundaries of the City and where the City exercises oversight responsibility, including the appointing of the majority of the Boards of Directors, has special financing relationships and those whose scope of service benefits primarily the City or its residents.

Manifestations of oversight responsibility include:

- Financial interdependency,
- Selection of the governing authority,
- Designation of management,
- Ability to significantly influence operations, and
- Accountability for fiscal matters.

The scope of public service criterion considers whether the activity of the potential component unit is for the benefit of the City and/or its residents and whether the activity is conducted within the geographic boundaries of the City and is generally available to City residents.

Those organizations include the following:

Municipal Assistance Corporation For The City of New York (MAC)

New York City Health and Hospitals Corporation (HHC)

New York City Off-Track Betting Corporation (OTB)

New York City Educational Construction Fund (ECF)

City University Construction Fund (CUCF)

New York City School Construction Authority (SCA)

Housing and Economic Development Enterprise Funds:

- New York City Housing Development Corporation (HDC)
- New York City Rehabilitation Mortgage Insurance Corporation (REMIC)
- New York City Industrial Development Agency (IDA)
- New York City Economic Development Corporation (EDC—formerly New York City Public Development Corporation and Financial Services Corporation of New York City)
- Brooklyn Navy Yard Development Corporation (BNYDC)
- Business Relocation Assistance Corporation (BRAC)

Water and Sewer System:

- New York City Municipal Water Finance Authority (Water Authority)
- New York City Water Board (Water Board)

Expendable Trust Funds:

- New York Police Department Police Officers' Variable Supplements Fund
- New York Police Department Police Superior Officers' Variable Supplements Fund
- New York Fire Department Firefighters' Variable Supplements Fund
- New York Fire Department Fire Officers' Variable Supplements Fund
- Transit Police Officers' Variable Supplements Fund
- Transit Police Superior Officers' Variable Supplements Fund
- Housing Police Officers' Variable Supplements Fund
- Housing Police Superior Officers' Variable Supplements Fund

Pension Trust Funds:

- New York City Employees' Retirement System (NYCERS)
- New York City Teachers' Retirement System—Qualified Pension Plan (TRS)
- New York City Board of Education Retirement System—Qualified Pension Plan (BERS)
- New York Police Department Pension Fund—Subchapter 2 (POLICE)
- New York Fire Department Pension Fund—Subchapter 2 (FIRE)

Deferred Compensation Plan for Employees of The City of New York and Related Agencies and Instrumentalities (DCP)

Significant accounting policies and other matters concerning the financial status of these organizations are described elsewhere in the notes to the financial statements.

The City's operations also include those normally performed at the county level and, accordingly, transactions applicable to operations of the five counties which comprise the City are included in these financial statements.

The New York City Transit Authority is an affiliated agency of the Metropolitan Transportation Authority of the State of New York which is a component unit of New York State and therefore is excluded from the City's reporting entity.

Fund Accounting

The City uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. An account group, is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources.

Funds are classified into three categories: governmental, proprietary and fiduciary. Each category, in turn, is divided into separate "fund types."

Governmental Fund Types

General Fund

The General Fund is the general operating fund of the City. Substantially all tax revenues, Federal and State aid (except aid for capital projects) and other operating revenues are accounted for in the General Fund. This fund also accounts for expenditures and transfers as appropriated in the Expense Budget, which provides for the City's day-to-day operations, including transfers to Debt Service Funds for payment of long-term obligations.

Capital Projects Fund

The Capital Projects Fund accounts for resources used to construct or acquire fixed assets and capital improvements. Such assets and improvements include substantially all land, buildings, equipment, water and sewage systems and other elements of the City's infrastructure having a minimum useful life of five years, having a cost of more than \$15,000 and having been appropriated in the Capital Budget (see Budgets). The Capital Projects Fund includes the activities of SCA. Resources of the Capital Projects Fund are derived principally from proceeds of City bond issues, payments from the Water Authority, and from Federal, State and other aid. The cumulative deficit of \$364 million and \$718 million at June 30, 1992 and 1991, respectively, represents the amount expected to be financed from future bond issues or intergovernmental reimbursements. To the extent the deficit will not be financed or reimbursed, a transfer from the General Fund will be required.

Debt Service Funds

The Debt Service Funds account for the accumulation of resources for payment of principal and interest on long-term obligations. Separate funds are maintained to account for transactions relating to: (i) the City's General Debt Service Funds including its sinking funds and the debt service funds required by state legislation; (ii) certain other public benefit corporations whose indebtedness has been guaranteed by the City, or with whom the City has entered into lease purchase and similar agreements; (iii) MAC; and (iv) ECF and CUCF as component units of the City.

Proprietary Fund Type

Enterprise Funds

The Enterprise Funds account for the operations of HHC, OTB, HDC and other component units comprising the Housing and Economic Development Funds, and the Water and Sewer System. These activities are accounted for in a manner similar to private business enterprises, in which the focus is on the periodic determination of revenues, expenses, and net income.

Fiduciary Fund Types

Trust and Agency Funds

The Trust and Agency Funds account for the assets and activities of the Expendable Trust Funds, Pension Trust Funds, and the Agency Fund.

The Expendable Trust Funds account for the operations of the Police Officers' Variable Supplements Fund, Police Superior Officers' Variable Supplements Fund, Firefighters' Variable Supplements Fund, Fire Officers' Variable Supplements Fund, Transit Police Officers' Variable Supplements Fund, Transit Police Superior Officers' Variable Supplements Fund, Housing Police Officers' Variable Supplements Fund, and the Housing Police Superior Officers' Variable Supplements Fund and are accounted for in essentially the same manner as governmental funds.

The Pension Trust Funds account for the operations of NYCERS, TRS, BERS, POLICE, and FIRE employee retirement systems. These activities are accounted for in essentially the same manner as proprietary funds where the focus is on the periodic determination of revenues, expenses, and net assets available for pension benefits.

The Agency Fund accounts for the operations of DCP, which was created in accordance with Internal Revenue Code Section 457. The Agency Fund is custodial in nature and does not involve measurement of results of operations.

Account Groups

General Fixed Assets Account Group

The General Fixed Assets Account Group accounts for those fixed assets which are used for general governmental purposes and are not available for expenditure. Such assets include all capital assets, except for the City's infrastructure elements that are not required to be capitalized under generally accepted accounting principles. Infrastructure elements include the roads, bridges, curbs and gutters, streets and sidewalks, park land and improvements, and subway tracks and tunnels. The fixed assets of SCA are included in the City's General Fixed Assets Account Group. The fixed assets of the water distribution and sewage collection system are recorded in the Water and Sewer System Enterprise Fund under a lease agreement between the City and the Water Board.

General Long-term Obligations Account Group

The General Long-term Obligations Account Group accounts for unmatured long-term bonds payable which at maturity will be paid through the Debt Service Funds. In addition, the General Long-term Obligations Account Group includes other long-term obligations for: (i) capital leases; (ii) judgments and claims; (iii) real estate tax refunds; (iv) unpaid vacation and sick leave; (v) certain unfunded pension liabilities; and (vi) certain unpaid deferred wages.

Basis of Accounting

The accounting and financial treatment applied to a fund is determined by its measurement focus. The measurement focus of the Governmental Fund Types and the Expendable Trust Funds is on the flow of current financial resources. This focus emphasizes the determination of, and changes in financial position, and only current assets and current liabilities generally are included on the balance sheet. These Funds use the modified accrual basis of accounting, whereby revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the fiscal period. Expenditures are recorded when the related liability is incurred, except for interest on long-term obligations and certain estimated liabilities recorded in the General Long-term Obligations Account Group.

The measurement focus of the Enterprise Funds and the Pension Trust Funds is on the flow of economic resources. This focus emphasizes the determination of net income and financial position. With this measurement focus, all assets and liabilities associated with the operation of these funds are included on the balance sheet. These funds use the accrual basis of accounting whereby revenues are recognized in the accounting period in which they are earned, and expenses are recognized in the period incurred.

The Agency Fund uses the modified accrual basis of accounting, and does not involve the measurement of operations.

Budgets and Financial Plans

Budgets

Annual Expense Budget appropriations, which are prepared on the modified accrual basis, are adopted for the General Fund and lapse at fiscal year-end. The City also makes appropriations in the Capital Budget to authorize the expenditure of funds for various capital projects. Capital appropriations, unless modified or rescinded, remain in effect until the completion of each project.

The City is required by State Law to adopt and adhere to a budget that would not have General Fund expenditures in excess of revenues.

Expenditures made against the Expense Budget are controlled through the use of quarterly spending allotments and units of appropriation. A unit of appropriation represents a subdivision of an agency's budget and is the level of control within each agency's budget at which expenditures may not legally exceed the appropriation. The number of units of appropriation and the span of operating responsibility which each unit represents, differs from agency to agency depending on the size of the agency and the level of control required. Transfers between units of appropriation and supplementary appropriations may be made by the Mayor subject to the approval provisions set forth in the City Charter. Supplementary appropriations increased the Expense Budget by \$851 million and \$364 million subsequent to its original adoption in fiscal years 1992 and 1991, respectively.

Financial Plans

The New York State Financial Emergency Act for The City of New York, as amended in 1978, requires the City to operate under a "rolling" Four-Year Financial Plan (Plan). Revenues and expenditures, including operating transfers, of each year of the Plan are required to be balanced on a basis consistent with generally accepted accounting principles. The Plan is broader in scope than the Expense Budget; it comprehends General Fund revenues and expenditures, Capital Projects Fund revenues and expenditures, and all short and long-term financing.

The Expense Budget is generally consistent with the first year of the Plan and operations under the Expense Budget must reflect the aggregate limitations contained in the approved Plan. The City reviews its Plan periodically during the year and, if necessary, makes modifications to incorporate actual results and revisions to assumptions.

Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for expenditures are recorded to reflect the use of the applicable spending appropriations, is used by the General Fund during the fiscal year to control expenditures. The cost of those goods received and services rendered on or before June 30 are recognized as expenditures. Encumbrances not resulting in expenditures by year-end, lapse.

Cash and Investments

The City considers all highly liquid investments (including restricted assets) with a maturity of three months or less, when purchased, to be cash equivalents.

Cash and cash equivalents include compensating balances maintained with certain banks in lieu of payments for services rendered. The average compensating balances maintained during fiscal years 1992 and 1991 were approximately \$368 million and \$221 million, respectively.

Investments in marketable fixed income securities are recorded at cost or amortized cost, plus accrued interest. Securities purchased pursuant to agreements to resell are carried at the contract price, exclusive of interest, at which the securities will be resold. Marketable equity securities are carried at market in the Pension Trust Funds and cost in the Expendable Trust Funds. Realized gains or losses on sales of securities are based on the average cost of securities.

Investments of DCP are reported at market value.

Inventories

Materials and supplies are recorded as expenditures in governmental funds at the time of purchase. Inventories on hand at June 30, 1992 and 1991 (estimated at \$213 million and \$203 million, respectively, based on average cost) have not been reported on the Governmental Funds balance sheets.

Restricted Cash and Investments

Certain proceeds of Enterprise Fund bonds, as well as certain resources set aside for their repayment, are classified as restricted cash and investments on the balance sheet because their use is limited by applicable bond covenants.

Fixed Assets

Fixed assets are generally stated at historical cost, or at estimated historical cost based on appraisals or on other acceptable methods when historical cost is not available. Donated fixed assets are stated at their fair market value as of the date of the donation. Capital leases are classified as fixed assets in amounts equal to the lesser of the fair market value or the present value of net minimum lease payments at the inception of the lease (see Note F).

Accumulated depreciation and amortization are reported as reductions of fixed assets. Depreciation is computed using the straight-line method based upon estimated useful lives of 40 to 50 years for buildings and 5 to 35 years for equipment. Capital lease assets and leasehold improvements are amortized over the term of the lease or the life of the asset, whichever is less.

See Notes J,K, and M for fixed asset accounting policies used by HHC, OTB, and the Water and Sewer System, respectively.

Allowance for Uncollectible Mortgage Loans

Mortgage loans and interest receivable in the General Debt Service Fund are net of an allowance for uncollectible accounts of \$997.5 million and \$969.2 million for fiscal years 1992 and 1991, respectively. The allowance is composed of the balance of first mortgages one or more years in arrears and the balance of refinanced mortgages where payments to the City are not expected to be completed for approximately 25 to 30 years.

Vacation and Sick Leave

Earned vacation and sick leave is recorded as an expenditure in the period when it is payable from current financial resources. The estimated value of leave earned by employees which may be used in subsequent years or paid upon termination or retirement, and therefore payable from future resources, is recorded in the General Long-term Obligations Account Group, except for leave of the employees of the Enterprise Funds which is accounted for in those funds.

Treasury Obligations

Bonds payable included in the General Long-term Obligations Account Group and investments in the Debt Service Funds are reported net of "treasury obligations." Treasury obligations represent City bonds held as investments of the Debt Service Funds which are offset and reported as if these bonds had been redeemed.

Judgments and Claims

The City is uninsured with respect to most risks including, but not limited to, property damage, personal injury, and workers' compensation. Expenditures for judgments and claims (other than workers' compensation and condemnation proceedings) are recorded on the basis of settlements reached or judgments entered within the current fiscal year. Expenditures for workers' compensation are recorded when paid. Settlements relating to condemnation proceedings are reported in the Capital Projects Fund when the liability is estimable. The estimated liability for judgments and claims which have not been adjudicated, settled or reported at the end of a fiscal year is recorded in the General Long-term Obligations Account Group. The current liability for settlements reached or judgments entered but not yet paid is recorded in the General Fund.

General Long-term Obligations

For general long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund. The remaining portion of such obligations is reported in the General Long-term Obligations Account Group. Long-term liabilities expected to be financed from proprietary fund operations are accounted for in those funds.

Real Estate Tax

Real estate tax payments for the fiscal year ended June 30, 1992 were due July 1, 1991 and January 1, 1992 except that payments by owners of real property assessed at \$40,000 or less and cooperatives whose individual units on average are valued at \$40,000 or less were due in quarterly installments on the first day of each quarter beginning on July 1.

The levy date for fiscal year 1992 taxes was July 1, 1991. The lien date is the date taxes are due.

Recognized real estate tax revenue represents payments received during the year and payments received within the first two months of the following fiscal year (against the current fiscal year and prior years' levies) reduced by tax refunds.

An allowance for estimated uncollectible real estate taxes is provided against the balance of the receivable. Delinquent real estate taxes receivable that are estimated to be collectible but which are not collected in the first two months of the next fiscal year are recorded as deferred revenues.

The City is permitted to levy real estate taxes: (i) for general operating purposes in an amount up to 2.5% of the average full value of taxable real estate in the City for the last five years; and (ii) in unlimited amounts for the payment of principal and interest on long-term City debt. Amounts collected for payment of principal and interest on long-term debt in excess of that required for that purpose in the year of the levy must be applied towards future years' debt service. For the fiscal year ended June 30, 1992, an excess amount of \$47 million was transferred to the Debt Service Fund. For the fiscal year ended June 30, 1991, no such excess amount was available to be transferred to the Debt Service Fund.

Other Taxes and Other Revenues

Sales, income, and other taxes are recognized based on payments received during the current fiscal year and represent amounts, net of estimated refunds, collected by the State in the current fiscal year on behalf of the City but received by the City in the next fiscal year.

Licenses, permits, privileges and franchises, fines, forfeitures, and other revenues are recorded when received in cash. The City receives revenue from the Water Board for operating and maintenance costs and rental payments for use of the water and sewer system. These revenues are recorded when the services are provided by the City for the Water Board.

Federal, State and Other Aid

Categorical aid, net of a provision for estimated disallowances, is reported as revenue when the related reimbursable expenditures are incurred. Unrestricted aid is reported as revenue in the fiscal year of entitlement.

Bond Discounts/Issuance Costs

In governmental fund types, bond discounts and issuance costs are recognized as expenditures in the period incurred. Bond discounts and issuance costs in the Proprietary Fund Type are deferred and amortized over the term of the bonds using the bonds-outstanding method, which approximates the effective interest method. Bond discounts are presented as a reduction of the face amount of bonds payable, whereas issuance costs are recorded as deferred charges.

Transfers

Payments from a fund receiving revenue to a fund through which the revenue is to be expended are reported as operating transfers. Such payments include transfers for debt service, OTB net revenues, and Expendable Trust Funds.

Subsidies

The City makes various payments to subsidize a number of organizations which provide services to City residents. These payments are recorded as expenditures in the year paid.

Pensions

The provision for pension costs is recorded on the accrual basis (see Note Q). The provision includes normal costs, interest on pension costs previously accrued but not funded, and amortization of past service costs as determined by the actuary employed by the Boards of Trustees of the City's major actuarial pension systems.

Comparative Data

Comparative total data for the prior year have been presented in the accompanying combining and individual fund and account group financial statements in order to provide an understanding of changes in the City's financial position and operations.

Pronouncements Issued But Not Yet Effective

In May, 1990, the GASB issued Statement No. 11, Measurement Focus and Basis of Accounting—Governmental Fund Operating Statements. The Statement establishes an accrual basis of accounting with a financial resources measurement focus for governmental funds. The operating results expressed using the financial resources measurement focus show the extent to which financial resources obtained during a period are sufficient to cover claims against financial

resources incurred during that period. The City currently follows the modified accrual basis. Using the modified accrual basis, revenues are recognized in the accounting period in which they become measurable and available and expenditures are recognized when the fund liability is incurred, if measurable, except for unmatured interest on general long-term debt, which is recognized when due. The City will be required to comply with Statement No. 11 no earlier than the fiscal year ending June 30,1995. Early implementation of Statement No. 11 is not permitted. The City has not yet completed the complex analysis required to estimate the financial statement impact of Statement No. 11.

In June, 1991, the GASB issued Statement No. 14, The Financial Reporting Entity. This Statement establishes standards for reporting on the financial reporting entity. The entity, currently reported on by the City, is based upon National Council On Governmental Accounting (NCGA) Statements 3 and 7 and NCGA Interpretation 7. The application of the standards in Statement No. 14 may result in changes in the entities included in the City's financial statements as well as changes in the manner in which such entities are reported. The City will first be required to comply with Statement No. 14 for the fiscal year ending June 30, 1994. The City has not yet completed the analysis required to assess the financial statement impact of Statement No. 14.

B. AUDIT RESPONSIBILITY

In fiscal years 1992 and 1991, respectively, the most significant separately administered organizations included in the financial statements of the City audited by auditors other than Ernst & Young and Mitchell, Titus & Co., the City's auditors, are the Municipal Assistance Corporation For The City of New York, the New York City Health and Hospitals Corporation, the major entities comprising the Housing and Economic Development Funds, the New York City Municipal Water Finance Authority, and the New York City Water Board.

The following describes the proportion of certain key financial information that is audited by other auditors in fiscal years 1992 and 1991:

•			Fund Types									Account Groups			
	General		Capital Projects		Debt Service		Enterprise		Trust and Agency		General Fixed Assets		General Long-term Obligations		
	1992	1991	1992	1991	1992	1991	1992 (per	1991 cent)	1992	1991	1992	1991	1992	1991	
Total assets/liabilities	0	0	9	12	73	85	99	99	0	1	16	10	18	24	
Operating revenues and other financing sources.	0	0	15	13	25	48	96	95	0	0	NA	NA	NA	NA	

NA: Not Applicable

C. MUNICIPAL ASSISTANCE CORPORATION FOR THE CITY OF NEW YORK (MAC)

MAC is a corporate governmental agency and instrumentality of the State constituting a public benefit corporation. MAC was created in June, 1975 by the Municipal Assistance Corporation For The City of New York Act (Act) to assist the City in providing essential services to its inhabitants without interruption and in reestablishing investor confidence in the soundness of City obligations. Pursuant to the Act, MAC is empowered to issue and sell bonds and notes, pay or loan to the City funds received from such sales, and exchange its obligations for those of the City. Also pursuant to the Act, MAC provides certain oversight of the City's financial activities.

MAC has no taxing power. All outstanding bonds issued by MAC are general obligations of MAC and do not constitute an enforceable obligation or a debt of either the City or the State and neither the City nor the State is liable thereon. Neither the City nor a creditor of the City has any claim to MAC's revenues and assets. Debt service requirements and operating expenses are funded by allocations from the State's collection of certain sales and compensating use taxes (imposed by the State within the City at rates formerly imposed by the City), the stock transfer tax and certain per capita aid, subject in each case to appropriation by the State Legislature. Net collections of taxes and per capita aid are returned to the City by the State after MAC debt service requirements are met. The MAC bond resolutions provide for liens by bondholders on certain monies received by MAC from the State.

MAC was authorized by the Act to issue, until January 1, 1985, obligations in an aggregate principal amount of \$10 billion, of which MAC issued approximately \$9.445 billion, exclusive of obligations issued to refund outstanding obligations of MAC and of notes issued to enable the City to fulfill its seasonal borrowing requirements. In July, 1990, State legislation was enacted which, among other things, authorized MAC to issue up to an additional \$1.5 billion of bonds and notes to fund a portion of the capital programs of the New York City Transit Authority and SCA. This legislation also provides for a reduction in the July, 1990 issuance authority to the extent that the transit and schools capital programs are funded by the City. As of June 30, 1992 and 1991, the City has funded \$440 million and \$290 million of these programs, respectively.

MAC continues to be authorized to issue obligations to renew or refund outstanding obligations, without limitation as to amount. No obligations of MAC may mature later than July 1, 2008. MAC may issue new obligations provided their issuance would not cause certain debt service limitations and debt service coverage ratios to be exceeded.

As indicated in Note A, the MAC transactions and account balances are included in the accompanying financial statements because MAC's financing activities are considered an essential part of the City's financing activities. In order to include the financial statements of MAC with those of the City, the following eliminations were made: (i) July 1st bond redemptions and interest on bonds payable which are reflected on MAC's statements at June 30; and (ii) certain City obligations purchased by MAC (see Note G). MAC account balances and transactions are shown in the Debt Service Funds and General Long-term Obligations Account Group; revenues appropriated and paid by the State of New York to MAC are first included in General Fund revenues and then transferred to the Debt Service Fund in the fiscal year of such payments.

D. DEPOSITS AND INVESTMENTS

Deposits

The City's bank depositories are designated by the Banking Commission consisting of the Comptroller, the Mayor, and the Finance Commissioner. Independent bank rating agencies are used to determine the financial soundness of each bank, and the City's banking relationships are under periodic operational and credit reviews.

The City Charter limits the amount of deposits at any time in any one bank or trust company to a maximum of one-half of the amount of the capital and net surplus of such bank or trust company. Component units included in the City's reporting entity maintain their own banking relationships which generally conform with the City's. Bank balances are currently insured up to \$100,000 in the aggregate by the Federal Deposit Insurance Corporation (FDIC) for each bank for all funds other than monies of the retirement systems, which are insured by the FDIC up to \$100,000 per retirement system member. At June 30, 1992 and 1991, the carrying amount of the City's cash and deposits was \$533 million and \$518 million, respectively, and the bank balances were \$667 million and \$439 million, respectively. Of the bank balances, \$265 million and \$134 million, respectively, were covered by federal depository insurance or collateralized with securities held by the City's agent in the City's name, and \$402 million and \$305 million, respectively, were uninsured and uncollateralized.

The uninsured and uncollateralized cash balances carried during the year did not fluctuate appreciably as they represent primarily the compensating balances required to be maintained at banks for services provided. It is the policy of the City to invest all funds in excess of compensating balance requirements.

Investments

The City's investment of cash in its Governmental Fund Types is limited to U.S. Government securities purchased directly and through repurchase agreements from primary dealers. The repurchase agreements must be collateralized by U.S. Government securities in a range of 100 to 103% of the matured value of the repurchase agreements.

The investment policies of the component units included in the City's reporting entity generally conform to those of the City's. The criteria for the Pension Trust Funds' investments are as follows:

1) Fixed income investments may be made in U.S. Government securities, securities of government agencies backed by the U.S. Government, securities of companies rated single A or better by both Standard & Poor's

Corporation and Moody's Investors Service, and any bond on the Legal Investments for New York Savings Banks list published annually by the New York State Banking Department.

- 2) Equity investments may be made only in those stocks that meet the qualifications of The State Retirement and Social Security Law.
 - 3) Short-term investments may be made in the following:
 - (a) U.S. Government securities or government agencies' securities fully guaranteed by the U.S. Government.
 - (b) Commercial paper rated A1 or P1 by Standard & Poor's Corporation or Moody's Investors Service, Inc., respectively.
 - (c) Repurchase agreements collateralized in a range of 100 to 103% of matured value, purchased from primary dealers of U.S. Government securities.
- 4) Investments in bankers' acceptances and certificates of deposit may be made with any of the 10 largest banks with either the highest or next to the highest rating categories of the leading independent bank rating agencies.
- 5) Investments up to $7\frac{1}{2}$ % of total pension fund assets in instruments not specifically covered by the State Retirement and Social Security Law.

All securities are held by the City's custodial bank (in bearer or book-entry form) solely as agent of the Comptroller of The City of New York on behalf of the various accounts involved. Payments for purchases are not released until the purchased securities are received by the City's custodial bank.

Investments of the City and its component units are categorized by level of credit risk (the risk that a counterparty to an investment transaction will not fulfill its obligations). Category 1, the lowest risk, includes investments that are insured or registered or for which the securities are held by the entity or its agent in the entity's name. Category 2 includes uninsured and unregistered investments for which the securities are held by the counterparty's trust department or agent in the entity's name. Category 3, the highest risk, includes uninsured and unregistered investments for which the securities are held by the counterparty, or by its trust department or agent but not in the entity's name.

The City's investments, including those of the component units, as of June 30, 1992 and 1991 are classified as follows:

ionows.	1992				
	С	ategory		Total Carrying	Market
	1	2	3	Amount	Value
			(in millio	ons)

International Investment Fund—Equity (1)				1,359	1,359
Guaranteed investment contracts (1)				996	996
Total investments				\$51,532	\$53,074

⁽¹⁾ These securities are not categorized because they are not evidenced by securities that exist in physical or book entry form.

In fiscal year 1992, the restricted cash and investments include \$56 million of cash, of which the repayment of \$49.1 million was insured and collateralized and \$6.9 million was uninsured and uncollateralized. Restricted investments, principally in U.S. Government securities with a cost and approximate market value of \$798.7 million are fully collateralized with securities held by the trustee in the entity's name of which \$386.7 million has maturities of three months or less.

In fiscal year 1991, the restricted cash and investments include \$45.4 million of cash, of which the repayment of \$500 thousand was insured and \$44.9 million was uninsured and uncollateralized. Restricted investments, principally in U.S. Government securities with a cost and approximate market value of \$723.3 million are fully collateralized with securities held by the trustee in the entity's name of which \$346.7 million has maturities of three months or less.

For purposes of the statements of cash flows, the City's Enterprise Fund considers all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased to be cash equivalents.

E. GENERAL FIXED ASSETS ACCOUNT GROUP

The following is a summary of changes in general fixed assets for the fiscal years ended June 30, 1991 and 1992:

· ·	June 30, 1990	Additions	Deletions	June 30, 1991 (in thousands)	Additions	<u>Deletions</u>	June 30, 1992
Land	\$ 546,681	\$ 738	s —	\$ 547,419	\$ 2,018	\$ —	\$ 549,437
Buildings	5,457,782	231,718	· <u>—</u>	5,689,500	178,683	26,034	5,842,149
Equipment	2,752,397	267,047	113,553	2,905,891	187,640	284,326	2,809,205
Construction work-in- progress	2,482,436	944,612	231,718	3,195,330	1,005,726	178,683	4,022,373
Total	11,239,296	1,444,115	345,271	12,338,140	1,374,067	489,043	13,223,164
Less accumulated							
depreciation and amortization	3,815,553	294,310	91,596	4,018,267	299,931	246,202	4,071,996
Net fixed assets .	\$ 7,423,743	\$1,149,805	<u>\$253,675</u>	\$ 8,319,873	<u>\$1,074,136</u>	<u>\$242,841</u>	<u>\$ 9,151,168</u>

The following are the sources of funding for the general fixed assets at June 30, 1992 and 1991. Sources of funding for fixed assets are not available prior to fiscal year 1987.

	1992	<u> 1991</u>
	(in tho	usands)
Capital Projects Fund: Prior to fiscal year 1987 City bonds Federal grants State grants Private grants Total	\$ 6,820,286 6,151,461 177,393 59,992 14,032 \$13,223,164	\$ 6,810,757 5,280,357 176,816 57,547 12,663 \$12,338,140

At June 30, 1992 and 1991, the General Fixed Assets Account Group includes approximately \$1.4 billion, of City-owned assets leased for \$1 per year to the New York City Transit Authority which operates and maintains the assets. Those assets leased to HHC and to the Water and Sewer System are excluded from the General Fixed Assets Account Group and are recorded in the respective Enterprise Funds.

Included in land and buildings at June 30, 1992 and 1991 are leased properties capitalized at \$135 million and \$161 million with related accumulated amortization of \$68 million and \$88 million, respectively.

Certain categories of the City's infrastructure are not required to be capitalized in the General Fixed Assets Account Group under generally accepted accounting principles although the acquisition and construction of such items are expenditures of the Capital Projects Fund (see Note A). For this reason, expenditures of the Capital Projects Fund for the fiscal years ended June 30, 1992 and June 30, 1991 exceed the \$1.374 billion and \$1.444 billion increases recorded as general fixed assets by \$2.519 billion and \$2.789 billion, respectively.

F. LEASES

The City leases a significant amount of property and equipment from others. Leased property having elements of ownership are classified as capital leases in the General Fixed Assets Account Group. The related obligations, in amounts equal to the present value of minimum lease payments payable during the remaining term of the leases, are recorded in the General Long-term Obligations Account Group. Other leased property not having elements of ownership are classified as operating leases. Both capital and operating lease payments are charged to expenditures when payable. Total expenditures on such leases for the fiscal years ended June 30, 1992 and June 30, 1991 were approximately \$305 million and \$282 million, respectively.

As of June 30, 1992, the City (excluding Enterprise Funds) had future minimum payments under capital and operating leases with a remaining term in excess of one year as follows:

	Capital Leases	Operating Leases (in thousands)	Total
Fiscal year ending June 30:		•	
1993	\$ 58,394	\$133,107	\$ 191,501
1994	55,285	112,491	167,776
1995	53,635	96,561	150,196
1996	55,156	90,113	145,269
1997	57,173	78,111	135,284
Thereafter until 2086	681,902	442,904	1,124,806
Future minimum payments	961,545	\$953,287	\$1,914,832
Less interest	460,236		
Present value of future minimum payments	\$501,309		

The City also leases City-owned property to others, primarily for markets, ports, and terminals. Total rental receipts on these operating leases for the fiscal years ended June 30, 1992 and June 30, 1991 were approximately \$158 million and \$170 million, respectively. As of June 30, 1992, the following future minimum rentals are provided for by the leases:

	_	
Fiscal year ending June 30:	(in t	thousands)
1993	\$	49,566

The average (weighted) interest rates for outstanding City term and serial bonds as of June 30, 1992 and 1991 were 7.6% (range 2.5% to 13.6%) and 7.8% (range 2.5% to 13.6%), respectively, and the interest rates on outstanding MAC bonds as of June 30, 1992 and 1991 ranged from 3.0% to 8.5% and 5.3% to 8.5%, respectively. The last maturity of the outstanding City debt is in the year 2147.

In fiscal year 1992, the City issued \$1.695 billion of general obligation bonds to advance refund general obligation bonds of \$1.650 billion aggregate principal amount issued during the City's fiscal years 1983 through 1991. The net proceeds from the sales of the refunding bonds were irrevocably placed in escrow accounts and invested in United States Government securities. As a result of providing for the payment of the principal and interest to maturity, and any redemption premium, the advance refunded bonds are considered to be defeased and, accordingly, the liability is not reported in the General Long-term Obligations Account Group. The refunding transactions will increase the City's aggregate debt service payments by \$112 million but create an economic gain of \$1.5 million. At June 30, 1992, \$3.334 billion of the City's outstanding general obligation bonds were considered defeased.

In fiscal year 1992, bonds issued for refunding purposes by MAC reduced debt service payments by \$99.8 million during the calendar years 1992 through 1995, producing present value savings of \$52.9 million. At June 30, 1992, \$1,688.5 million of MAC bonds which have been advance refunded were considered defeased.

Annual payments by the City into the General Sinking Fund must be sufficient to provide for the scheduled redemption of the principal of the term bonds. As of June 30, 1992 and 1991, the City had deposited the required installments of \$1.2 million and \$1.1 million, respectively, into the General Sinking Fund.

The State Constitution requires the City to pledge its full faith and credit for the payment of the principal and interest on City term and serial bonds and guaranteed debt. The general debt-incurring power of the City is limited by the Constitution to 10% of the average of five years' full valuations of taxable real estate. Additional debt may be incurred for housing purposes and is limited to 2% of the average of five years' assessed valuations. Excluded from these debt limitations is certain indebtedness incurred for water supply, certain obligations for transit, sewage, and other specific obligations which exclusions are based on a relationship of debt service to net revenue.

As of June 30, 1992, the 10% general and 2% additional limitations were approximately \$47.780 billion and \$1.477 billion, respectively, of which the remaining debt-incurring amounts within such limits were \$14.907 billion and \$1.326 billion, respectively. See Note C for information related to MAC debt authorization and issuance limitations.

Pursuant to State legislation on January 1, 1979, the City established a General Debt Service Fund administered and maintained by the State Comptroller into which payments of real estate taxes and other revenues are deposited in advance of debt service payment dates. Debt service on all City notes and bonds is paid from this fund.

Subsequent to June 30, 1992, the City completed the following long-term financing:

On August 14, 1992, the City sold in the public credit market \$1.168 billion of general obligation bonds for advance refunding purposes.

On October 22, 1992, the City sold in the public credit market \$1.054 billion aggregate issuance amount of general obligation bonds consisting of \$689 million of fixed rate current interest bonds, \$39 million of indexed/fixed rate bonds, \$50 million of short RITES bonds, \$75 million of fixed rate capital appreciation bonds, and \$201 million of adjustable rate bonds. The proceeds from the sale of the bonds are to be used for various municipal capital purposes and for loan programs.

Judgments and Claims

The City is a defendant in lawsuits pertaining to material matters, including those claims asserted which are incidental to performing routine governmental and other functions. This litigation includes but is not limited to, actions commenced and claims asserted against the City arising out of alleged torts, alleged breaches of contracts, alleged violations of law and condemnation proceedings. As of June 30, 1992 and 1991, claims in excess of \$341 billion and \$322 billion, respectively, were outstanding against the City for which the City estimates its potential future liability to be \$2.3 billion and \$2.1 billion, respectively.

As explained in Note A, the estimate of the liability for unsettled claims has been reported in the General Long-term Obligations Account Group. The liability was estimated by categorizing the various claims and applying a historical average percentage, based primarily on actual settlements by type of claim during the preceding ten fiscal years, and was supplemented by information provided by the New York City Law Department with respect to certain large individual claims and proceedings. The recorded liability is the City's best estimate based on available information and application of the foregoing procedures.

In addition to the above claims and proceedings, numerous real estate tax certiorari proceedings are presently pending against the City on grounds of alleged overvaluation, inequality and illegality of assessment. In response to these actions, in December, 1981, State legislation was enacted which, among other things, authorizes the City to assess real property according to four classes and makes certain evidentiary changes in real estate tax certiorari proceedings. Based on historical settlement activity, the City estimates its potential liability for outstanding certiorari proceedings to be \$242 million as reported in the General Long-term Obligations Account Group.

Wage Deferral

In fiscal year 1991, the Board of Education entered into an agreement whereby teachers would defer a portion of their fiscal year 1991 salary. The City will repay the deferred wages in two installments: (i) one-half to be repaid on September 1, 1995; and (ii) the second half plus interest at 9% per annum on the unpaid balance from September 1, 1995 to be repaid on September 1, 1996.

Changes In Certain Long-term Obligations

In fiscal years 1991 and 1992, the changes in long-term obligations other than for bonds were as follows:

	Balance June 30, 1990	Additions	<u>Deletions</u>	Balance June 30, 1991 (in thousands)	Additions	<u>Deletions</u>	Balance June 30, 1992

J. NEW YORK CITY HEALTH AND HOSPITALS CORPORATION (HHC)

General

HHC, a public benefit corporation, assumed responsibility for the operation of the City's municipal hospital system in 1970. HHC's financial statements include the accounts of HHC and its wholly-owned subsidiaries, HHC Nurse Referrals, Inc., and Outpatient Pharmacies, Inc. All significant intercompany accounts and transactions have been eliminated.

The City provides funds to HHC for care given to uninsured indigent patients, members of the uniformed services and prisoners and for other costs and expenses not covered by other payors. In addition, the City has paid the corporation's costs for settlements of claims for medical malpractice, negligence and other miscellaneous torts and contracts, as well as certain other corporation costs including interest on capital acquisitions, and on those assets acquired through lease purchase arrangements. HHC does not reimburse the City for such costs. HHC records both a revenue and an expense in an amount equal to expenditures made on its behalf by the City. For fiscal years 1992 and 1991, the City's cash subsidy was \$112 million and \$213 million, respectively; the payments made by the City on behalf of HHC was \$170 million and \$247 million for fiscal years 1992 and 1991, respectively.

Revenues

Patient service accounts receivable and revenues are reported at estimated collectible amounts. Substantially, all direct patient service revenue is derived from third-party payors. Generally, revenues from these sources are based upon cost reimbursement principles and are subject to routine audit by applicable payors. HHC records adjustments resulting from audits and from appeals when the amount is reasonably determinable. Included in other revenues are transfers from donor restricted funds of \$41 million and \$28 million in fiscal years 1992 and 1991, respectively.

Fund Accounting

HHC maintains separate accounts in its financial records to assure compliance with specific restrictions imposed by the City and other grantors or contributors.

Plant and Equipment

All facilities and equipment are leased from the City at \$1 per year. In addition, HHC operates certain facilities which are financed by the New York State Housing Finance Agency (HFA) and leased to the City on behalf of HHC. HHC records as revenue and as expense the interest portion of such lease purchase obligations paid by the City. Because HHC is responsible for the control and maintenance of all plant and equipment, and because depreciation is a significant cost of operations, HHC capitalizes plant and equipment at cost or estimated cost based on appraisals. Depreciation is computed for financial statement purposes using the straight-line method based upon estimated useful lives averaging 10 years. As a result of modernizing programs and changes in service requirements, HHC has closed certain facilities and portions of facilities during the past several years. It is the policy of HHC to reflect the financial effect of the closing of facilities or portions thereof in the financial statements when a decision has been made as to the disposition of such assets. HHC records the cost of construction that it controls as costs are incurred. Costs associated with facilities constructed by HFA are recorded when the facilities are placed in service.

Donor Restricted Assets

Contributions which are restricted as to use are recorded as donor restricted funds.

Pensions

Substantially all HHC employees are eligible to participate in NYCERS (see Note Q). The provisions for pension costs were actuarially determined and amounted to \$52 million and \$57 million for fiscal years 1992 and 1991, respectively. These amounts were fully funded.

Affiliation Expenses

Affiliation expenses represent contractual expenses incurred by affiliated institutions and charged to HHC for participation in patient service programs at HHC's facilities.

Debt Service

HHC has outstanding revenue bonds, Series A, secured by letters of credit, collateralized by nonmedicare/non-medicaid revenues.

The following table summarizes future debt service requirements as of June 30, 1992:

	Principal	Interest (in thousands)	Total
Fiscal year ending June 30:	\$ 8,540	\$2,099	\$10,639
1994	9,175 9,870	1,467 770	10,642 10,640
Total	\$27,585	\$4,336	<u>\$31,921</u>

The interest rates on the bonds as of June 30, 1992 and 1991 ranged from 7.4% to 7.8% and from 7.2% to 7.8%, respectively.

Changes in Fund Equity

Presented below are the changes in Fund Equity for the fiscal years ended June 30, 1991 and 1992:

	Unreserved Retained Earnings	Contributed Capital Plant and Equipment (in thous	Reserve for Donor Restrictions ands)	Total Fund Equity

K. New York City Off-Track Betting Corporation (OTB)

General

OTB was established in 1970 as a public benefit corporation to operate a system of off-track betting in the City. OTB earns: (i) revenues on its betting operations ranging between 17% and 25% of wagers handled, depending on the type of wager; (ii) a 5% surcharge and surcharge breakage on pari-mutuel winnings; (iii) a 1% surcharge on multiple, exotic, and super exotic wagering pools; and (iv) breakage, the revenue resulting from the rounding down of winning payoffs. Pursuant to State law, OTB: (i) distributes various portions of the surcharge and surcharge breakage to other localities in the State; (ii) allocates various percentages of wagers handled to the racing industry; (iii) allocates various percentages of wagers handled and breakage together with all uncashed pari-mutuel tickets to the State; and (iv) allocates the 1% surcharge on exotic wagering pools for the financing of capital acquisitions. All remaining net revenue is distributable to the City. In addition, OTB acts as a collection agent for the City with respect to surcharge and surcharge breakage due from other community off-track betting corporations.

Property and Equipment

Property and equipment is recorded at cost. Depreciation and amortization is computed using the straight-line method based upon estimated useful lives ranging from three to ten years. Leasehold improvements are amortized principally over the term of the lease.

Rental expense for leased property for the fiscal years ended June 30, 1992 and 1991 was approximately \$11.4 million and \$11.2 million, respectively. As of June 30, 1992, OTB had future minimum rental obligations on noncancelable operating leases as follows:

	Amount
Fiscal year ending June 30:	(in thousands)
1993	\$10,409
1994	9,007
1995	8,076
1996	7,098
1997	6,982
Thereafter until 2004	17,055
Total	\$58,627

Pensions

Substantially all full-time employees of OTB are members of NYCERS (see Note Q). The provisions for pension costs were actuarially determined and amounted to \$3.1 million and \$3.6 million, for fiscal years 1992 and 1991, respectively. These amounts were fully funded.

L. HOUSING AND ECONOMIC DEVELOPMENT ENTERPRISE FUNDS

General

The Housing and Economic Development Enterprise Funds are comprised of six separate public corporations: the New York City Housing Development Corporation (HDC), the New York City Rehabilitation Mortgage Insurance Corporation (REMIC), the New York City Economic Development Corporation (EDC) which resulted from merging the New York City Public Development Corporation and the Financial Services Corporation of New York City in fiscal year 1992, the Brooklyn Navy Yard Development Corporation (BNYDC), the Business Relocation Assistance Corporation (BRAC), and the New York City Industrial Development Agency (IDA), the largest of which is HDC.

BNYDC had deficit retained earnings of \$2.0 million and \$4.1 million, respectively, for fiscal years 1992 and 1991.

HDC

HDC was established in 1971 to encourage private housing development by providing low interest mortgage loans. The combined financial statements include the accounts of HDC and its wholly-owned subsidiaries, Housing Assistance Corporation, and Housing New York Corporation. HDC finances multiple dwelling mortgages substantially through issuance of HDC bonds and notes, and also acts as an intermediary for the sale and refinancing of certain City multiple dwelling mortgages. HDC has a fiscal year ending October 31.

HDC is authorized to issue bonds and notes for any corporate purpose in a principal amount outstanding, exclusive of refunding bonds and notes, not to exceed \$2.8 billion and certain other limitations.

HDC is supported by service fees, investment income, and interest charged to mortgagors and has been self-sustaining. Mortgage loans are carried at cost. Mortgage loan interest income, fees, charges, and interest expense are recognized on the accrual basis. HDC maintains separate funds in its financial records to assure compliance with specific restrictions of its various bond and note resolutions.

Substantially all HDC employees are eligible to participate in NYCERS. The provisions for pension costs were actuarially computed, determined, and funded by HDC.

The future debt service requirements on HDC bonds and notes payable at October 31, 1991, its most recent fiscal year-end, were as follows:

		(in thousands)	
Fiscal year ending October 31: 1992 \$ 1993	27,842 31,577 34,371 37,165 ,756,939	\$ 134,709 131,743 129,754 127,474 124,993 2,283,444 \$2,932,117	\$ 232,983 159,585 161,331 161,845 162,158 4,040,383 \$4,918,285

The bonds and notes will be repaid from assets and future earnings of the assets. The interest rates on the bonds and notes as of October 31, 1991 range from 1.00% to 11.125%.

HDC had \$285.6 million and \$288.1 million, respectively, of General Obligation bonds and notes outstanding at October 31, 1991 and 1990 for which HDC is required to maintain a capital reserve fund equal to one year's debt service. State law in effect provides that the City shall make up any deficiency in such fund. There have not been any capital reserve fund deficiencies.

The following is a summary of bond transactions of HDC for the fiscal years ended October 31, 1990 and 1991:

.	Balance October 31, 1989	Issued	Retired_	Balance October 31, 1990	Issued	Retired	Balance October 31, 1991
General Obligation Revenue Total	\$ 292,670 1,778,795 \$2,071,465	\$ — 122,815 \$122,815	\$ 4,610 133,948 \$138,558	(in thousands) \$ 288,060 1,767,662 \$2,055,722	\$ — 160,560 \$160,560	\$ 2,430 227,684 \$230,114	\$ 285,630 1,700,538 \$1,986,168

M. WATER AND SEWER SYSTEM

General

The Water and Sewer System, consisting of two legally separate and independent entities, the New York City Municipal Water Finance Authority (Water Authority) and the New York City Water Board (Water Board), was

established on July 1, 1985. The Water and Sewer System provides for water supply and distribution, and sewage collection, treatment and disposal for the City. The Water Authority was established to issue debt to finance the cost of capital improvements to the water and sewer system. The Water Board was established to lease the water and sewer system from the City and to establish and collect fees, rates, rents, and other service charges for services furnished by the system to produce cash sufficient to pay debt service on the Water Authority's bonds and to place the Water and Sewer System on a self-sustaining basis.

Under the terms of the Water and Sewer System General Revenue Bond Resolution, which covers all outstanding bonds of the Water Authority, operations are required to be balanced on a cash basis. At June 30, 1992 and 1991, the Water Authority has a cumulative deficit of \$701 million and \$469 million, respectively, which is more than offset by a surplus in the Water Board.

Financing Agreement

As of July 1, 1985, the City, the Water Board and the Water Authority entered into a Financing Agreement. The Agreement, as amended, provides that the Water Authority will issue bonds to finance the cost of capital investment in the water and sewer system serving the City. It also sets forth the funding of the debt service costs of the Water Authority, operating costs of the water and sewer system, and the rental payment to the City.

Lease Agreement

As of July 1, 1985, the City entered into a long-term lease with the Water Board which transferred all the water and sewer related real and personal property valued at historical cost, net of depreciation and all work-in-progress, at cost, to the Water Board for the term of the lease. The City administers, operates, and maintains the water and sewer system. The lease provides for payments to the City to cover the City's cost for operation and maintenance, capital costs not otherwise reimbursed, rent, and for other services provided.

Contributed Capital

City financed additions for the fiscal years ended June 30, 1992 and 1991 amounted to \$85.5 million and \$97.6 million, respectively, and are recorded by the Water Board as contributed capital.

Utility Plant-in-Service

All additions to utility plant-in-service are recorded at cost. Depreciation is computed on all utility plant-in-service using the straight-line method based upon estimated useful lives as follows:

	1 ears
Buildings	40-50
water supply and wastewater deathlent systems	15-50
water distribution and sewage collection systems	15-75
Equipment	5-35

Depreciation on contributed utility plant-in-service is allocated to contributed capital after the computation of net income.

Debt Service

During fiscal years 1992 and 1991, the Water Authority issued Series A revenue bonds in the aggregate principal amount of \$583.2 million and \$300.2 million, respectively, which include capital appreciation bonds at the matured value, and Series B revenue bonds in the aggregate principal amount of \$332.1 million and \$336.4 million, respectively; Series C revenue bonds were issued in the aggregate principal amount of \$200 million and \$354.6 million, respectively. Outstanding revenue bonds at June 30, 1992 and 1991 totaling \$4.3 billion and \$3.4 billion, respectively, which include capital appreciation bonds at their matured value.

The following table summarizes future debt service requirements as of June 30, 1992:

	Principal	Interest (in thousands)	Total
Fiscal year ending June 30:	\$ 66,979	\$ 267,577	\$ 334,556
1994	72,038	263,637	335,675
1995	77,800	258,927 253,730	336,727 336,965
1996 1997	83,235 88,936	248,072	337,008
Thereafter until 2021	3,879,487	3,591,138	7,470,625
Total	\$4,268,475	\$4,883,081	\$9,151,556

The interest rates on the outstanding bonds as of June 30, 1992 and 1991 ranged from 4.9% to 8.9% and from 51/4% to 9.0%, respectively.

The following is a summary of revenue bond transactions of the Water Authority for the fiscal years ended June 30, 1991 and 1992:

	Balance June 30, 1990	Issued	Retired	Balance June 30, 1991 (in thousands)	Issued	Retired	Balance June 30, 1992
Revenue bonds	 \$2,520,209	\$968,240	\$42,080	\$3,446,369	\$1,115,296	\$293,190	\$4,268,475

In fiscal year 1987, the Water Authority defeased in substance \$162.2 million of revenue bonds. As of June 30, 1992 and 1991, respectively, none of the defeased bonds had been retired from the assets of the escrow account.

In fiscal year 1992, the Authority sold \$276.9 million aggregate principal amount of revenue bonds to refund certain revenue bonds of \$247.5 million aggregate principal amount issued during fiscal years 1987 and 1988, respectively. The proceeds from the sale, after payment of certain expenses incurred in connection with the issuance and sale of the bonds, have been placed in an irrevocable escrow account and invested in U.S. Treasury obligations. As a result of providing for the payment of the principal, redemption premiums, and interest due on the bonds at various dates from June 15, 2008 through June 15, 2017, the refunded bonds are considered to be defeased, and the liability has been removed from the Authority's Long-term Obligations. The refunding transaction will decrease the Authority's aggregate debt service payments by \$29.7 million and provide an economic gain of \$21.3 million over the life of this issue.

The loss based upon the defeasance of these bonds was \$26 million and is shown as an extraordinary item.

On August 13, 1992, the Water Authority sold fiscal 1993 Series A Water and Sewer System revenue bonds in the aggregate principal amount of \$1.041 billion to pay cost of issuance and to advance refund bonds of \$893.4 million aggregate principal amount. The refunding bonds are as follows: fiscal 1986 Series B bonds maturing on June 15, 2002, fiscal 1988 Series B bonds maturing on June 15, 2009, fiscal 1989 Series B bonds maturing on June 15, 2007, fiscal 1991 Series A bonds maturing on June 15, 2016, and fiscal 1991 Series C bonds maturing on June 15, 2008.

On October 15, 1992, the Water Authority issued \$125 million fixed rate fiscal 1993 Series B revenue term bonds and \$100 million adjustable rate fiscal 1993 Series C revenue term bonds to finance a capital renovation and improvement program of the System, to fund certain reserves, and to pay costs of issuance.

Restricted Assets

Proceeds from the issuance of debt and funds set aside for the operation and maintenance of the water and sewer system are classified as restricted assets since their use is limited by applicable bond indentures.

Changes in Contributed Capital

Changes in contributed capital for the fiscal years ended June 30, 1992 and 1991 are as follows:

	(in thousand	
	(m moasim	ds)
	,511	\$5,224,112 97,591
Allocation of depreciation to contributed capital (98 Balances, June 30 \$5,239	,304) ,175	(69,735) \$5,251,968

Operating Revenues

Revenues from metered customers who represent 53% of water customers are based on billings at rates imposed by the Water Board that are applied to customers' consumption of water and sewer service and include accruals based upon estimated usage not billed during the fiscal year.

Commitments and Contingencies

Legal Contingencies

The City is a defendant in a number of lawsuits pertaining to the Water and Sewer System. As of June 30, 1992, claims in excess of \$2.7 billion were outstanding against the City for which the City estimates its potential future liability to be \$407 million. Accordingly, this amount is included in the City's General Long-term Obligations Account Group.

Construction

The Water and Sewer System has contractual commitments of approximately \$1.5 billion at June 30, 1992, for water and sewer projects.

N. EXPENDABLE TRUST FUNDS

The New York Police Department maintains the Police Officers' Variable Supplements Fund and the Police Superior Officers' Variable Supplements Fund. These Funds operate pursuant to the provisions of Title 13, Chapter 2, of the Administrative Code of The City of New York.

The Police Officers' Variable Supplements Fund provides supplemental benefits to retirees who retired for service as police officers of the New York Police Department Pension Fund—Subchapter 1 or Subchapter 2, and who retired on or after October 1, 1968.

The Police Superior Officers' Variable Supplements Fund provides supplemental benefits to retirees of the uniformed force of the New York Police Department who retired holding the rank of sergeant or higher, or detective, and is a service retiree of the New York Police Department Pension Fund—Subchapter 1 or Subchapter 2, and retired on or after October 1, 1968.

The New York Fire Department maintains the Firefighters' Variable Supplements Fund and the Fire Officers' Variable Supplements Fund. These Funds operate pursuant to the provisions of Title 13, Chapter 3, of the Administrative Code of The City of New York.

The Firefighters' Variable Supplements Fund provides supplemental benefits to retirees who retired for service as firefighters of the New York Fire Department Pension Fund—Subchapter 1 or Subchapter 2, and who retired on or after October 1, 1968.

The Fire Officers' Variable Supplements Fund provides supplemental benefits to retirees of the uniformed force who retired holding the rank of lieutenant or higher and all pilots and marine engineers (uniformed) who are service retirees of the New York Fire Department Pension Fund—Subchapter 1 or Subchapter 2, and who retired on or after October 1, 1968.

The New York City Employees' Retirement System ("NYCERS") maintains the Transit Police Officers' Variable Supplements Fund, the Transit Police Superior Officers' Variable Supplements Fund, the Housing Police Officers' Variable Supplements Fund, and the Housing Police Superior Officers' Variable Supplements Fund. These funds operate pursuant to the provisions of Title 13, Chapter 1 of the Administrative Code of The City of New York.

The Transit Police Officers' Variable Supplements Fund provides supplemental benefits to retirees, who retired for service as transit police officers and who retired on or after July 1, 1987. The first supplemental benefit payment is due in December, 1992. Prior to the year 2007 when this plan converts to a defined benefits plan, supplemental benefits cannot exceed the assets of the fund.

The Transit Police Superior Officers' Variable Supplements Fund, the Housing Police Officers' Variable Supplements Fund, and the Housing Police Superior Officers' Variable Supplements Fund provide supplemental benefits to retirees as designated by their Boards of Trustees. No benefits have yet been authorized. The supplemental benefits cannot exceed the assets of the fund.

The supplemental benefits provided to the Police Officers', Firefighters', and Transit Police Officers' Variable Supplements Funds participants, (other than wipers in Firefighters') are based on a fixed annual payment.

The Board of Trustees of the Police Superior Officers' and Fire Officers' Variable Supplements Fund periodically determine the benefit payments that the participants shall receive. The supplemental benefits cannot exceed the assets of the Funds.

The Administrative Code provides that the New York Police Department Pension Fund—Subchapter 2 (Police), the New York Fire Department Pension Fund—Subchapter 2 (Fire), and NYCERS pay to the respective variable supplements funds an amount equal to certain excess earnings on equity investments. The excess earnings are the earnings on equity investments which exceed what the earnings might have been had such funds been hypothetically invested in fixed income securities, less any cumulative deficiencies. For fiscal year 1991, there were no excess earnings on equity investments. For fiscal year 1992, there were \$87.6 million in excess earnings on equity investments.

The excess earnings payable from Police, Fire, and NYCERS as of June 30, 1992 to the Variable Supplements Fund were as follows:

Variable Supplements Funds	Payable to June 30, 1992 (in millions)
Police Officers	
Police Superior Officers	
Firefighters	1.7
Fire Officers	14.2
Transit Police Officers	11.9
Transit Police Superior Officers	4.4
Housing Police Officers	5.1
Housing Police Superior Officers	111
Total	<u>\$87.6</u>

Chapter 247 of the Laws of 1988 and Chapter 583 of the Laws of 1989 made substantial changes to the calculation of transfers to the Police Officers' Variable Supplements Fund and Firefighters' Variable Supplements Fund, respectively.

These laws mandated that, for purposes of calculating transfers to the Police Superior Officers' Variable Supplements Fund and the Fire Officers' Variable Supplements Fund, a "scientific method" would be devised by the Actuary which would calculate the transfers to the Police Superior Officers' Variable Supplements Fund and the Fire Officers' Variable Supplements Fund and the Fire Officers' Variable Supplements Fund and the Fire Officers' Variable Supplements Fund had not been modified by Chapter 247 and Chapter 583. Transfers to the Police Superior Officers' Variable Supplements Fund and the Fire Officers' Variable Supplements Fund were thus assumed to be made as if Chapter 247 and Chapter 583 had never existed.

The "scientific method" used in the above calculations cannot be finalized, as per Section 13-232.2b.4.(g) of the Administrative Code of The City of New York for transfers from FIRE, until approved by such Board of Trustees.

As a result of labor negotiations, legislation effective July 1, 1988 pertaining to the Police Officers' Variable Supplements Fund and the Firefighters' Variable Supplements Fund provides, among other things, for a fixed annual supplemental benefit payment and a change in the way excess earnings or losses are computed. Consequently, the payments to the funds will be affected. The revisions to these variable supplements funds will initiate a City guaranteed payment which is estimated to be offset over time by future excess earnings from police and fire pension plans. The present value of accumulated benefits as of June 30, 1992 and 1991 is as follows:

	1992	1991
		llions)
Police Officers' Variable Supplements Fund	\$572	\$608
Firefighters Variable Supplements Fund	_280	_292
Total	\$852	\$900

As a result of labor negotiations, Chapter 577 of the Laws of 1992 effective July 24, 1992 pertaining to the Transit Police Officers' Variable Supplements Fund, provides, among other things, for potential supplemental benefit payments and the way excess earnings or deficiencies are computed. The revisions to this variable supplements fund will initiate a City-guaranteed liability. As a result of this change beginning in calendar year 1992, actuarial calculations are required by statute to determine commencement of the guarantee of benefits. The guarantee of the defined benefit schedule does not become effective during calendar year 1992.

Chapter 577 modified the potential supplemental benefits to be paid from this fund to any transit police officer of the New York City Transit Police Department who retires for service as a Transit Police Officer on or after July 1, 1987.

The guarantee of benefits comes into effect prior to calendar year 2007 if the market value of assets of the Transit Police Officers' Variable Supplements Fund exceeds the actuarial present value of the defined schedule of benefits payable through the year 2006 plus 15% of the Fund assets at that time.

Chapter 577 also provides that whenever the guarantee of the defined schedule of benefits comes into effect, the fund will then transfer 15% of the market value of its assets to the City's General Fund.

The present value of accumulated benefits as of June 30, 1992 is as follows:

	(= -:11/2
To be off the to the terms of t	(in millions)
Transit Police Officers' Variable Supplements Fund	\$21

O. DEFERRED COMPENSATION PLAN FOR EMPLOYEES OF THE CITY OF NEW YORK AND RELATED AGENCIES AND INSTRUMENTALITIES (DCP)

The City offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. DCP is available to certain employees of The City of New York and related agencies and instrumentalities. It permits them to defer a portion of their salary until future years. The compensation deferred is not available to employees until termination, retirement, death, or unforeseen emergency (as defined by the Internal Revenue Service).

All amounts of compensation deferred, all property and rights purchased with those amounts, and all income attributable to those amounts, are (until paid or made available to the employee or beneficiary) solely the property and rights of the City (without being restricted to the provisions of benefits under DCP), subject to the claims of the City's general creditors. Participants' rights under the DCP are equal to the fair market value of the deferred account for each participant.

It is the opinion of the City's legal counsel that the City has no liability for losses under the DCP but does have the duty of due care that would be required of an ordinary prudent investor. The City believes that it is unlikely that it will use the assets to satisfy the claims of general creditors in the future.

Investments are managed by the DCP's trustee under one of four investment options or a combination thereof. The choices of the investment options are made by the participants.

The following is a summary of the increases and decreases of the fund for the fiscal years ended June 30, 1992 and 1991:

	1992	1991
	(in thou	ısands)
Fund assets at beginning of fiscal year	\$466,614	\$328,608
Deferrals of compensation	154,711	122,545
Earnings and adjustment to market value		33,396
Payments to eligible participants and beneficiaries		(16,581)
Administrative expenses		(1,354)
Fund assets at end of fiscal year	<u>\$647,326</u>	<u>\$466,614</u>

P. OTHER POSTEMPLOYMENT BENEFITS

In accordance with collective bargaining agreements, the City provides Other Postemployment Benefits (OPEB) which include basic medical and hospitalization (health care) benefits to eligible retirees and dependents at no cost to 92.0% of the participants. Basic health care premium costs which are partially paid by the remaining participants vary according to the terms of their elected plans. To qualify, retirees must: (i) have worked for the City with at least five years of credited service as a member of an approved pension system (requirement does not apply if retirement is as a result of accidental disability); (ii) have been employed by the City or a City related agency prior to retirement; (iii) have worked regularly for at least twenty hours a week prior to retirement; and (iv) be receiving a pension check from a retirement system maintained by the City or another system approved by the City. The City's OPEB expense is recorded on a pay-as-you-go basis.

The amounts expended for health care benefits for fiscal years 1992 and 1991 are as follows:

	. 19	92	1991		
	Active	Retired	Active	Retired	
Number of employees	333,302	156,371	337,363	149,846	
Cost of health care (in thousands)	\$899,722	\$296,169	\$850,481	\$254,029	

In addition, the City sponsors a supplemental major medical benefit plan for City managerial employees to refund medical and hospital bills that are not reimbursed by the regular health insurance carriers.

The amounts expended for Superimposed major medical benefits for fiscal years 1992 and 1991 are as follows:

	19	92	1991		
	Active	Retired	Active	Retired	
Number of claims	17,516	4,163	19,474	3,803	
(in thousands)	\$3,364	\$420	\$2,889	\$462	

Q. PENSION SYSTEMS

Plan Descriptions

The City sponsors or participates in pension systems providing benefits to its employees. The pension systems function in accordance with existing State statutes and City laws. Each system combines features of a defined benefit pension plan with those of a defined contribution pension plan. Contributions are made by the employers and the employees.

The majority of City employees are members of one of the following five major actuarial pension systems:

- 1. New York City Employees' Retirement System (NYCERS), a cost-sharing multiple-employer public employee retirement system, for employees of the City not covered by one of the other pension systems and employees of certain component units of the City and certain other government units.
- 2. New York City Teachers' Retirement System—Qualified Pension Plan (TRS), a cost-sharing multiple-employer public employee retirement system for teachers in the public schools of the City and certain other specified school and college members.
- 3. New York City Board of Education Retirement System—Qualified Pension Plan (BERS), a cost-sharing multiple employer public employee retirement system, for non-pedagogical employees of the Board of Education and certain employees of SCA.
- 4. New York Police Department Pension Fund—Subchapter 2 (POLICE), a single employer public employee retirement system, for full-time uniformed employees of the Police Department.
- 5. New York Fire Department Pension Fund—Subchapter 2 (FIRE), a single employee public employee retirement system, for full-time uniformed employees of the Fire Department.

At June 30, 1992 and 1991, the pension systems membership consisted of:

			1	992		
	NYCERS	TRS	BERS	POLICE	FIRE	TOTAL
Retirees and beneficiaries currently receiving						
benefits	122,403	45,662	4,484	29,970	11,607	214,126
Terminated but not receiving benefits	4,185	1,663	86	52	48	6,034
Total	126,588	47,325	4,570	30,022	11,655	220,160
Current employees:						
Vested Nonvested	76,317	46,477	3,248	5,192	4,192	135,426
	117,362	<u>38,637</u>	20,358	22,472	7,266	206,095
Total	<u>193,679</u>	<u>85,114</u>	23,606	27,664	11,458	341,521
			19	991		
	NYCERS	TRS	BERS	POLICE	FIRE	TOTAL
Retirees and beneficiaries currently receiving						
benefits	119,411	40,722	4,364	29,557	11,463	205,517
Terminated but not receiving benefits	1,843	1,621	102	51	8	3,625
Total	121,254	42,343	4,466	29,608	11,471	209,142
Current employees:						
Vested	76,165	49,427	3,106	5,805	3,817	138,320
Nonvested	120,932	38,553	19,698	22,071	7,836	209,090
Total						
Total	197,097	87,980	22,804	27,876	11,653	347,410

The pension systems provide pension benefits to retired employees based on salary and length of service. In addition, the pension systems provide cost-of-living and other supplemental pension benefits to certain retirees and beneficiaries. In the event of disability during employment, participants may receive retirement allowances based on satisfaction of certain service requirements and other provisions. The pension systems also provide death benefits.

Subject to certain conditions, members become fully vested as to benefits upon the completion of 10 or 15 years of service. Permanent, full-time employees are required to become members of the pension systems upon employment with the exception of NYCERS. Permanent full-time employees who are eligible to participate in NYCERS are required to become members within six months of their employment but may elect to become members earlier. Other employees who are eligible to participate in NYCERS may become members at their option. Upon termination of employment before retirement, certain members are entitled to refunds of their own contributions including accumulated interest less any loans outstanding.

The City's annualized covered and total annualized covered payroll for each system at June 30, 1992 and 1991 are as follows:

	19	992	19	91
	City's Annualized Covered Payroll	Total Annualized Covered Payroll	City's Annualized Covered Payroll	Total Annualized Covered Payroll
		(in m	illions)	
NYCERS	\$3,382	\$ 6,179	\$3,374	\$ 6,119
TRS	2,884	2,989	3,002	3,122
BERS	424	434	430	439
POLICE	1,333	1,333	1,295	1,295
FIRE	598	598	596	596
Total	\$8,621	\$11,533	\$8,697	<u>\$11,571</u>

The annualized covered payrolls were reduced by excluding all pending withdrawals (five year outs, et al). In addition, salaries were increased for some members to reflect overtime earnings. No salaries are included for other members not on the payroll at June 30, 1992 and 1991, who are valued for accrued benefits only.

Substantially all of the collective bargaining agreements with employees expired between June and September, 1990. The salary data upon which actuarial computations are based generally do not include contractual salary increases for employees whose unions are still in the process of negotiating collective bargaining agreements with their employers.

June 30, 1992 and 1991 salaries were adjusted by the Actuary to be consistent with labor settlements that had been reached and/or estimated to be achieved.

The City's total current year payroll at June 30, 1992 was approximately \$10.6 billion.

Funding Status and Progress

The amount shown as "pension benefit obligation" (PBO) is a standardized disclosure measure of the present value of pension benefits, adjusted for the effects of projected salary increases and any step rate benefits, estimated to be payable in the future as a result of employee service-to-date. The measure is the actuarial present value of credited projected benefits, prorated on service, and is intended to help users assess the pension systems' funding status on a going-concern basis, assess progress made in accumulating sufficient assets to pay benefits when due, and make comparisons among public employee retirement systems. The measure is independent of the actuarial funding method used to determine contributions to the pension systems.

An actuarial valuation, including a review of the continued reasonableness of the actuarial assumptions, is performed annually as of June 30, for each of the five major actuarial systems. The latest valuation to determine the PBO was made as of June 30, 1992.

The more significant assumptions used in the June 30, 1992 and June 30, 1991 calculations of the PBOs are as follows:

Assumed rate of

return on investments	9.0% for NYCERS, TRS, and BERS (4.0% per annum for benefits payable under the variable annuity programs), and 8.5% for POLICE and FIRE.				
Mortality basis	Tables based on current experience.				
Turnover	Tables based on current experience.				
Retirement	Tables based on aumout auro-in-				

Tables based on current experience, varies from earliest age a member is eligible to retire until age at end of tables.

Salary In general, merit and promotion component averages 1% per year plus assumed general wage increase of 5.5% per year.

The following outlines significant funding changes:

Chapter 221 of the Laws of 1992 amended the Administrative Code of The City of New York, in relation to treatment of surplus, deficits, and investment earnings of the Tax-Deferred Annuity Program administered by the retirement board of the TRS.

The following is a comparison of the PBO and net assets available for benefits for the five major actuarial pension systems as of June 30, 1992 and 1991:

				1992			
	PBO Retirees and beneficiaries currently	PI	30 Current Employe	ස			
	receiving benefits and terminated vested participants not yet receiving benefits	Accumulated employee contributions including allocated investment income	Employer- financed vested	Employer- financed nonvested	Total pension benefit obligation	Net assets available for benefits	Unfunded (Overfunded) pension benefit obligation
NYCERS	\$10,737.9	\$1,447.0	\$ 4,329.7	\$3,134.4	\$19,649.0	\$20,103.7	\$ (454.7)
TRS	8,101.2	1,433.6	4,805.1	2,247.2	16,587.1	16,150.7	436.4
BERS	331.8	94.9	166.0	151.3	744.0	740.7	3.3
POLICE	5,334.1	385.0	1,291.0	1,804.7	8,814.8	7,251.0	1,563.8
FIRE	2,339.4	77.7	872.7	770.7	4,060.5	2,938.3	1,122.2
Total	\$26,844.4	\$3,438.2	\$11,464.5	\$8,108.3	<u>\$49,855.4</u>	<u>\$47,184.4</u>	<u>\$2,671.0</u>
				1991			·
NYCERS	\$ 9,862.2	\$1,454.4	\$ 4,621.6	\$3,067.5	\$19,005.7	\$18,486.9	\$ 518.8
TRS	6,087.6	1,469.8	5,656.1	2,342.1	15,555.6	14,882.2	673.4
BERS	308.9	89.1	170.3	129.6	697.9	661.8	36.1
POLICE	5,019.9	351.6	1,342.9	1,575.8	8,290.2	6,605.6	1,684.6
FIRE	2,238.2	80.3	814.6	769.9	3,903.0	2,652.1	1,250.9
Total	\$23,516.8	\$3,445.2	\$12,605.5	\$7,884.9	<u>\$47,452.4</u>	<u>\$43,288.6</u>	<u>\$4,163.8</u>

The PBO for the active participants is based on current salaries with projected increases to retirement.

For the above investments in marketable fixed income securities are recorded at cost or amortized cost, plus accrued interest, securities purchased pursuant to agreements to resell are carried at the contract price, exclusive of interest, at which the securities will be resold, marketable equity securities are carried at market, and realized gains or losses on sales of securities are based on the average cost of securities.

The market value of net assets available for benefits as of June 30, 1992 and 1991 is as follows:

	1992	1991
	(in mi	llions)
NYCERS	\$21,416.0	\$18,563.4
TRS	17,083.9	14,947.7
BERS	806.5	664.0
POLICE		6,618.9
FIRE	3,130.8	2,660.7
Total	\$50,298.8	\$43,454.7

The City also has three pension systems closed to active members, whose retirees and beneficiaries are not covered by any of the five major actuarial pension systems. The PBO for these three pension systems as of June 30, 1992 and 1991 is approximately \$346 million and \$388 million, respectively, and exceeded their respective net assets of \$10 million by \$336 million and \$378 million, respectively. These three pension systems are funded by the City on a pay-as-you-go basis. The City's contribution for these three pension systems for fiscal years 1992 and 1991 amounted to \$71 million and \$77 million, respectively.

The net assets for benefits shown in the City's financial statements as of June 30, 1992 and 1991 exclude the accrued pension contribution of \$2.627 billion and \$2.687 billion, respectively, for amortization of the two-year payment lag reported in the General Long-term Obligations Account Group, \$115 million and \$117 million, respectively, reported in the Enterprise Funds and \$391 million and \$400 million, respectively, from other government units. Prior to fiscal year 1981, pension contributions had been made on a statutory basis which reflected pension costs incurred two years earlier and a phase-in of certain actuarial assumptions. The City's liability resulting from the two-year lag was being amortized over 40 years. As of June 30, 1990, legislation changed the amortization period from 40 years to 20 years. The City's expenditure for pension costs for the fiscal year ended June 30, 1992, included the second contribution to amortize this liability over the 20 year period.

Contributions Required and Contributions Made

The City's funding policy is to provide for periodic employer contributions at actuarially determined rates that, expressed as percentages of annualized covered payroll, are designed to accumulate sufficient assets to pay benefits when due.

The actuarial cost method used to determine both the fiscal year 1992 and 1991 pension expense and the employer contributions to the five major actuarial systems is the Frozen Entry Age actuarial cost method.

Under this method, the excess of the actuarial present value of projected benefits of members of the retirement system as of the valuation date, over the sum of the actuarial value of assets plus the unfunded actuarial accrued liability, is allocated on a level basis over the future earnings of members who are on payroll as of the valuation date. Actuarial gains and losses are reflected in the employer normal contribution rate.

Contributions are accrued by the pension systems and are funded by the employers on a current basis and amounted to \$1.6 billion and \$1.9 billion at June 30, 1992 and 1991, respectively.

Unfunded actuarial accrued liabilities are amortized as follows for June 30, 1992 and June 30, 1991:

Unfunded Accrued Liabilities ("UAL") and the Balance Sheet liabilities ("BSL") as of June 30, 1990 are being amortized over 20 years using schedules of payments for the UAL and BSL components combined, comparable in pattern to the previous schedules of payments for the first five years, with the balances of the UAL and BSL components at the end of five years being amortized over the remaining 15 years. The BSL components are being amortized using level payments over 20 years from June 30, 1990.

Actuarial assumptions used to compute the PBO are the same as those used to compute the contribution requirements.

The actuarial asset valuation method utilized to determine the fiscal year 1992 employer contributions differed from that used to determine the fiscal year 1991 employer contributions. The fiscal year 1992 employer contributions decreased by approximately \$186 million (approximately \$145 million relates to the General Fund) compared to what it would have been utilizing the former actuarial asset valuation method. The change in actuarial asset valuation method was adopted to reflect on a more current basis market fluctuations of investments held by the City's pension systems. In addition, the fiscal year 1992 employer contributions decreased by approximately \$38 million on account of Chapter 221 of the Laws of 1992 which amended the Administrative Code of The City of New York in relation to treatment of surplus, deficits and investment earnings of the Tax Deferred Annuity Program administered by the Retirement Board of the TRS. The decrease in the fiscal year 1992 employer contribution requirements by each pension system are as follows:

	Amount
	(in millions)
NYCERS	\$ 98
TRS	70
BERS	1
POLICE	40
FIRE	15
Total	\$224

The City's expenditures for pension costs, for the fiscal years ended June 30, 1992 and 1991 were approximately \$1.5 billion and \$1.6 billion, respectively, and were equal to the amounts recommended by the pension systems' actuary.

The City's pension expenditures recommended by the actuary for June 30, 1992 were as follows:

the only a possession (Expenditures for		percentag	tures as a ge of City's ed payroll
	Normal cost	Amortization of actuarial accrued liability (in millions)	Total	Normal cost	Amortization of actuarial accrued liability
*NYCERS *TRS *BERS POLICE FIRE OTHER Total	\$217.0 233.0 24.6 279.8 114.8 NA	\$126.4 93.5 9.7 152.4 126.2 NA	\$ 343.4 326.5 34.3 432.2 241.0 99.6 \$1,477.0	6.4% 8.1 5.8 21.0 19.2	3.7% 3.2 2.3 11.4 21.1

^{*} NYCERS, TRS, and BERS are cost-sharing multiple-employer public employee retirement systems. The City's total actuarial determined contributions as a percent of contributions for all employers to NYCERS, TRS, and BERS were 61.17%, 95.30%, and 97.93%, respectively.

NA: Not Available.

Included in the above total is approximately \$41.1 million of payments (net of revenue received from the State as reimbursement) for State employees in the City's pension systems and payments made on behalf of certain employees in the New York City Transit Authority and the New York City Housing Authority. These payments and the related reimbursements are recorded as either expenditures or revenues in individual program categories rather than as pension expenditures in the Combined Statement of Revenues, Expenditures and Changes in Fund Balance.

The City's pension expenditures recommended by the actuary for June 30, 1991 were as follows:

	Expenditures for			Expenditures as a percentage of City's annualized payroll	
	Normal cost	Amortization of actuarial accrued liability (in millions)	Total	Normal cost	Amortization of actuarial accrued liability
*NYCERS *TRS *BERS POLICE FIRE OTHER Total	\$241.9 245.8 25.5 283.9 127.1 NA	\$142.1 112.0 10.3 159.7 129.2 NA	\$ 384.0 357.8 35.8 443.6 256.3 106.0 \$1,583.5	7.2% 8.2 5.9 21.9 21.3	4.2% 3.7 2.4 12.3 21.7

^{*} NYCERS, TRS, and BERS are cost-sharing multiple-employer public employee retirement systems. The City's total actuarial determined contributions as a percent of contributions for all employers to NYCERS, TRS, and BERS were 60.12%, 95.95%, and 99.12%, respectively.

NA: Not Available.

Included in the above total is approximately \$48.2 million of payments (net of revenue received from the State as reimbursement) for State employees in the City's pension systems and payments made on behalf of certain employees in the New York City Transit Authority and the New York City Housing Authority. These payments and the related reimbursements are recorded as either expenditures or revenues in individual program categories rather than as pension expenditures in the Combined Statement of Revenues, Expenditures and Changes in Fund Balance.

Other pension expenditures represent contributions to other actuarial and pay-as-you-go pension systems for certain employees, retirees and beneficiaries not covered by any of the five major actuarial pension systems. The City also contributes per diem amounts into certain union-administered annuity funds. Employee contributions for fiscal years 1992 and 1991 amounted to:

	1992		1991	
	Employee contributions (Net of Loans to Members)	Employee contributions as a percentage of total annualized covered payroll	Employee contributions (Net of Loans to Members)	Employee contributions as a percentage of total annualized covered payroli

⁽a) The PBO is the actuarial present value of credited projected benefits produced by the credited projected benefit attribution approach prorated on service as required by GASB Statement No. 5.

Ten-year historical trend information is presented in the pension systems' separately issued publicly available financial statements. The information is presented to enable the reader to assess the progress made by the pension systems in accumulating sufficient assets to pay pension benefits as they become due. Selected ten-year historical trend information on the pension systems is also presented in the statistical section of the City's Comprehensive Annual Financial Report.

The trend information included in Note Q and the statistical section of the City's Comprehensive Annual Financial Report differs from the trend information for those years shown in the pension systems financial statements. The trend information for net assets shown in the City's Comprehensive Annual Financial Report excludes the long-term Employer Contribution Receivable.

Other

On August 1, 1975, Women in City Government United, representing all retired and active female employees of the City and certain Covered Organizations, commenced a class action in the United States District Court for the Southern District of New York (the "Southern District") against the City, NYCERS and its officers and trustees, and others. Plaintiffs alleged that certain retirement plans discriminate against female employees in violation of the United States Constitution and certain Federal statutes and regulations. On April 24, 1981, the Southern District granted plaintiffs' motion for summary judgment in regard to liability on their Federal statutory claim, but deferred judgment, pending a trial, as to appropriate relief to be granted. Through a combination of state legislation, administrative action, and a

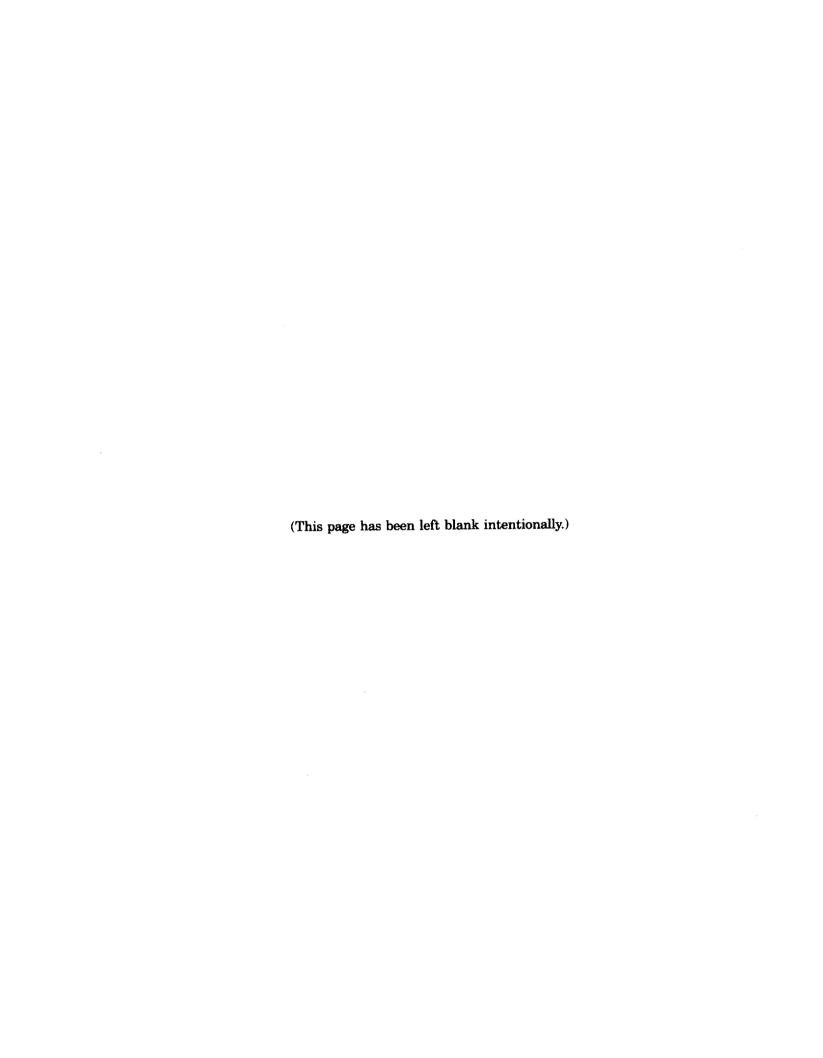

court-approved consent decree, all claims of class members who retired on or after August 1, 1983 were settled, and mortality tables were revised to achieve gender neutrality and to reflect modern mortality experience. However, certain other issues concerning class members who retired prior to August 1, 1983 remained pending. The 1985 Consent Decree applied only to NYCERS members who retired on or after August 1, 1983, because that was the effective date of a decision by the Supreme Court of the United States holding that Title VII of the Civil Rights Act of 1964 requires employer-sponsored pension plans to provide equal benefits for male and female employees (Arizona v. Norris). By Stipulation of Settlement and Dismissal signed January 9, 1989, the parties settled the remainder of the case, i.e., all issues concerning plaintiffs who retired on or before July 31, 1983 for the sum of \$19 million. The Stipulation was approved by the Court, following distribution of notice of the settlement agreement and a hearing, on December 12, 1989. Final Judgment was entered on April 25, 1990. The settlement fund, including interest, was paid by the City (not NYCERS) in September, 1990 to a Settlement Administrator. In October, 1991, the Settlement Administrator distributed the Fund to the individual retirees and their estates pursuant to a complex formula approved by the Court. The issue of payment of attorneys' fees to plaintiffs' attorneys remains to be resolved.

R. CONTRACTUAL COMMITMENTS

At June 30, 1992, the outstanding contract commitments relating to projects of the Capital Projects Fund amounted to approximately \$6.1 billion.

Capital Requirements

To address the need for significant infrastructure and public facility capital investments, the City has prepared a ten-year capital spending program which contemplates expenditures of \$42.1 billion over fiscal years 1993 through 2002. To help meet its capital spending program, the City borrowed \$3.4 billion in the public credit market in fiscal year 1992. The City plans to borrow \$3.2 billion in the public credit market in fiscal year 1993.

ADJUSTABLE RATE BONDS

The Adjustable Rate Bonds are subject to the provisions summarized below. Capitalized terms used in this "APPENDIX C—ADJUSTABLE RATE BONDS" which are not otherwise defined in the Official Statement are defined in "APPENDIX D—ADJUSTABLE RATE BONDS—Definitions".

The Adjustable Rate Bonds shall bear interest at a Daily Rate from their dates of issuance as described below in "Interest on Adjustable Rate Bonds". Each maturity of each Subseries of Adjustable Rate Bonds is subject to Conversion from a Variable Rate Period to a different Variable Rate Period, to the Money Market Mode or to a Fixed Rate Period, or from the Money Market Mode to a Variable Rate Period or to a Fixed Rate Period. The rate of interest for any Rate Period shall be determined as described below, and each determination of rate or period shall be conclusive and binding upon the Remarketing Agent, the City, the applicable Subseries Bank (each a "Bank"), the Fiscal Agent, the Tender Agent and the Bondholders. Computations of interest shall be based on 365-day or 366-day years for the actual number of days elapsed; except that interest at Semiannual, Term or Fixed Rates shall be computed on the basis of a year of 360 days and twelve 30-day months.

The Adjustable Rate Bonds (i) bearing a Money Market Municipal Rate, a Daily Rate, a Weekly Rate, a Monthly Rate or a Quarterly Rate shall be fully registered Adjustable Rate Bonds in the denomination of \$100,000 or any integral multiple thereof, and (ii) bearing a Semiannual Rate, a Term Rate or a Fixed Rate shall be fully registered Adjustable Rate Bonds in the denomination of \$5,000 or any integral multiple thereof (in each case, an "Authorized Denomination").

Interest on Adjustable Rate Bonds

Interest payments on each Interest Payment Date for Adjustable Rate Bonds will include accrued interest from and including their dates of issuance or from and including the last date in respect of which interest has been paid, as the case may be, to, but excluding, such Interest Payment Date, except as provided below with respect to a delayed Interest Payment Date. The interest payment dates for the Adjustable Rate Bonds shall be: (a) the first day of each calendar month, in the case of interest payable at Daily or Weekly Rates; (b) the first day of each calendar month, in the case of interest payable at Monthly Rates; (c) the first day of the third calendar month following a Conversion to a Quarterly Rate Period and the first day of each third calendar month thereafter, in the case of interest payable at Quarterly Rates; (d) the first day of the sixth calendar month following a Conversion to a Semiannual Rate Period or Term Rate Period and the first day of each sixth calendar month thereafter, in the case of interest payable at Semiannual or Term Rates; (e) the 15th day of each February and August, in the case of interest payable at a Fixed Rate, or in any case not otherwise specified; (f) the first Business Day following an MMMR Period, in the case of interest payable at Money Market Municipal Rates; (g) the date of any redemption or mandatory tender of Adjustable Rate Bonds for purchase and (h) the date of maturity ("Interest Payment Dates"). If any Interest Payment Date for any Adjustable Rate Bond would otherwise be a day that is not a Business Day, such Interest Payment Date shall be postponed to the next day that is a Business Day, and no additional interest shall accrue as a result of such delayed Interest Payment Date. Interest shall be payable on each Interest Payment Date by check mailed to the registered owner at his address as it appears on the registration books of the City as of the close of business on the appropriate Record Date; provided, that (i) while a securities depository is the registered owner of all the Adjustable Rate Bonds of a Subseries and maturity, all payments of principal of and interest on such Adjustable Rate Bonds shall be paid to the securities depository or its nominee by wire transfer, (ii) prior to and including the Fixed Rate Conversion Date, interest on the Adjustable Rate Bonds shall be payable to any registered owner of at least \$1,000,000 aggregate principal amount of Adjustable Rate Bonds by wire transfer, upon written notice received by the Fiscal Agent at least five days prior to the Record Date from such registered owner containing the wire transfer address (which shall be in the continental United States) to which such registered owner wishes to have such wire directed and (iii) following an MMMR Period, interest shall be payable on the Adjustable Rate Bonds only upon presentation thereof to the Tender Agent upon purchase thereof and if such presentation is made by 10:00 a.m. (New York City time) such payment shall be by wire transfer.

Variable Rates

Variable Rates shall be determined on the following dates (the "Rate Determination Dates"): (i) not later than 9:30 a.m., New York City time, on the commencement date of each Daily Rate Period, except that the final Rate Determination Date for each interest payment shall occur no less than two Business Days prior to the Interest Payment Date, (ii) not later than 9:00 a.m., New York City time, on the commencement date of each Weekly Rate Period (or, if such date is not a Business Day, on the immediately succeeding Business Day); and (iii) not later than 4:00 p.m., New York City time, on the Business Day immediately preceding the commencement date of each Monthly, Quarterly, Semiannual or Term Rate Period. The interest rate in effect for each day of any Rate Period shall be the interest rate set on the Rate Determination Date relating to such Rate Period.

Each Variable Rate Period shall commence: (a) initially, on the effective date of a Conversion to such Variable Rate Period; and (b) thereafter (i) on each Business Day following such Conversion, in the case of Daily Rate Periods, (ii) on Wednesday of each week commencing after such Conversion, in the case of Weekly Rate Periods, (iii) on the first day of each calendar month commencing after such Conversion, in the case of Monthly Rate Periods, (iv) on the first day of each third calendar month commencing after such Conversion in the case of Quarterly Rate Periods, (v) on the first day of each sixth calendar month commencing after such Conversion, in the case of Semiannual Rate Periods, and (vi) on the first day of the calendar month that is twelve (or an integral multiple of twelve, as the case may be) months from the calendar month of such Conversion, in the case of Term Rate Periods. Each such Variable Rate Period shall end on the last day preceding the earliest of the commencement date of the next Rate Period, the date of maturity and the date of any mandatory tender.

Each Variable Rate shall be determined by the Remarketing Agent and shall represent the rate which, in the judgment of the Remarketing Agent, is the lowest rate of interest which would cause the Adjustable Rate Bonds to have a market value equal to the principal amount thereof, plus accrued interest (if any), under prevailing market conditions on the commencement date of the applicable Rate Period. In the event that the Remarketing Agent no longer determines, or fails to determine when required, any Variable Rate for any Adjustable Rate Bond in a Variable Rate Period, or if for any reason such manner of determination shall be determined to be invalid or unenforceable, the Variable Rate for such Period shall be a Daily Rate equal to 80% of the 30-day Dealer Commercial Paper Rate set forth in Federal Reserve Board Statistical Release H.15 (519) as of such day.

Notice of each Variable Rate shall be given by the Remarketing Agent by telephone promptly confirmed in writing to the City, the Subseries Bank, the Tender Agent and the Fiscal Agent, on the Rate Determination Date (except that the Remarketing Agent shall give such notice on each Tuesday (or, if not a Business Day, on the next succeeding Business Day) of the Daily Rate applicable to each day of the previous week), and the Tender Agent (or the Remarketing Agent in the case of Daily Rates) shall make such rate or rates available from the time of notification to the owners of the Adjustable Rate Bonds upon request for such information. Notice of interest rates shall be given (a) in the case of Daily Rates and Weekly Rates, by the Fiscal Agent to the owners of Adjustable Rate Bonds which bear interest at Daily Rates or Weekly Rates on each Interest Payment Date with the distribution of interest on such Adjustable Rate Bonds and (b) other than for Daily Rates and Weekly Rates, by mail by the Tender Agent by the third Business Day following the applicable Rate Determination Date.

Money Market Mode

For Adjustable Rate Bonds bearing interest in the Money Market Mode, the Money Market Municipal Rate for each MMMR Period for each Adjustable Rate Bond shall be determined as follows:

(i) Establishment of MMMR Periods. At or prior to 12:00 noon, New York City time, on any Conversion Date upon which Adjustable Rate Bonds will begin to bear interest in the Money Market Mode and on any day immediately after the end of a MMMR Period, the Remarketing Agent shall establish MMMR Periods in accordance with instructions from the City with respect to Adjustable Rate Bonds for which no MMMR Period is currently in effect. Any MMMR Period may not exceed 180 days

and may not extend beyond any applicable Conversion Date or the day prior to the maturity date of the Adjustable Rate Bond, and the maximum length of the MMMR Period shall not exceed the number of days of interest coverage under the Credit Facility minus 5 days of interest coverage.

(ii) Setting of Rates. On the first Business Day of each MMMR Period (the "Rate Determination Date"), the Remarketing Agent shall set a rate (a "Money Market Municipal Rate") by 12:00 noon, New York City time, for each MMMR Period. For each MMMR Period, the Money Market Municipal Rate shall be the rate of interest which, if borne by the Adjustable Rate Bonds, would, in the judgment of the Remarketing Agent, having due regard to the prevailing market conditions as of the Rate Determination Date, be the lowest rate of interest necessary to enable the Remarketing Agent to remarket such Adjustable Rate Bonds at a price of par on the commencement date of the applicable MMMR Period.

The City may change its instructions about the establishment of MMMR Periods pursuant to the preceding paragraph (i) in a written direction from the City, which direction must be received by the Remarketing Agent prior to 10:00 a.m., New York City time, on the day prior to any Rate Determination Date to be effective on such date, but only if the City receives an opinion of Bond Counsel to the effect that such action is authorized by law and will not have an adverse effect on the exclusion of interest on the Adjustable Rate Bonds from gross income for Federal income tax purposes.

Notice of each Money Market Municipal Rate and MMMR Period for each Adjustable Rate Bond shall be given by the Remarketing Agent to the City, the Subseries Bank, the Fiscal Agent and the Tender Agent not later than 1:00 p.m., New York City time, on the Rate Determination Date, and the Tender Agent shall make such rate and period available from the time of notification to the owners of Adjustable Rate Bonds upon request for such information.

In the event that the Remarketing Agent no longer determines, or fails to determine when required, any MMMR Period or any Money Market Municipal Rate for any Adjustable Rate Bond in the Money Market Mode, or if for any reason such manner of determination shall be determined to be invalid or unenforceable, the MMMR Period for any such Adjustable Rate Bond shall automatically extend from the day after the next preceding MMMR Period to but not including the 31st day thereafter (or, if such 31st day is not a Business Day, to but not including the next succeeding Business Day) and the Money Market Municipal Rate for each such MMMR Period shall automatically be equal to 80% of the average of the yields to maturity of all United States Treasury securities having maturity dates which occur in the same month as the day following the last day of such MMMR Period, as such yields to maturity are published on the effective date of such Money Market Municipal Rate in *The Wall Street Journal* or, if *The Wall Street Journal* is not then published, in a financial newspaper selected by the Tender Agent.

Fixed Rates

The Fixed Rate to be effective to maturity upon a Conversion to such rate shall be determined by the Remarketing Agent on the date (the "Rate Determination Date") specified in the notice of mandatory tender related to such Conversion (which Rate Determination Date shall be the fifth Business Day prior to the Fixed Rate Conversion Date unless the City receives an opinion of Bond Counsel to the effect that use of another Rate Determination Date will not have an adverse effect on the exclusion of interest on the Adjustable Rate Bonds from gross income for Federal income tax purposes) and shall represent the lowest rate which, in the judgment of the Remarketing Agent, would cause the Adjustable Rate Bonds being Converted to have a market value equal to the principal amount thereof on the commencement date of the applicable Rate Period under prevailing market conditions.

Conversions

Upon the direction of the City, the Adjustable Rate Bonds of a Subseries and maturity may be Converted from one Variable Rate Period to a different type of Variable Rate Period (including a change from one Term Rate Period to a Term Rate Period equal or approximately equal in length to a different number of years from the preceding Term Rate Period) or to the Money Market Mode or to a Fixed Rate, or from the Money Market Mode to a Variable Rate Period or to a Fixed Rate; in each case on, if from a Variable Rate Period other than a Term Rate Period, a regularly scheduled Interest Payment Date for the Rate Period from which the Conversion is to be made; if from a Term Rate Period, only on a date on which a

new Term Rate Period would have commenced; and if from the Money Market Mode, only on the first regularly scheduled Interest Payment Date on which interest is payable for any MMMR Periods theretofore established for the Adjustable Rate Bonds to be Converted which is at least 30 days after notice of mandatory tender upon Conversion is given to the Bondholders.

Not later than the 15th day prior to the Conversion Date (or the immediately succeeding Business Day, if such 15th day is not a Business Day), the City may irrevocably withdraw its election to Convert the Adjustable Rate Bonds by giving written notice of such withdrawal to the Tender Agent, the Fiscal Agent, the Remarketing Agent and the Subseries Bank. In the event the City gives such notice of withdrawal (or upon failure to meet the conditions specified below), (i) the Tender Agent shall promptly give Written Notice to the owners of all Adjustable Rate Bonds that were to be Converted and (ii) such Adjustable Rate Bonds shall continue to bear interest at a Variable Rate or a Money Market Municipal Rate, as the case may be. Failure by the Tender Agent to provide such notice to the owners of the Adjustable Rate Bonds shall not affect the validity of the notice of withdrawal given by the City.

Each Conversion is conditioned upon the Remarketing Agent's determination of the new rate or rates of interest and upon the City's receipt (not later than 10:00 a.m. on the Conversion Date) of (a) an opinion of Bond Counsel to the effect that such Conversion is authorized by law and will not have an adverse effect on the exclusion of interest on the Adjustable Rate Bonds from gross income for Federal income tax purposes and (b) in the case of Conversion to a Variable Rate, evidence that the Credit Facility for the Bonds being converted provides for coverage of interest for a period at least 5 days longer than the period that will extend between Interest Payment Dates after such Conversion.

Purchased Bonds

Any Adjustable Rate Bond purchased by a Bank (a "Purchased Bond") shall bear interest at the rates, payable on the dates, described in the Adjustable Rate Bonds. Purchased Bonds may be sold when and as provided in the Credit Facility for such Adjustable Rate Bond, and if remarketed at a Variable Rate, a Money Market Municipal Rate or a Fixed Rate will no longer bear interest as Purchased Bonds. In no event shall the rate of interest on the Adjustable Rate Bonds exceed 25% per annum.

Tender of Adjustable Rate Bonds

Each Adjustable Rate Bond of a Subseries bearing interest at a Variable Rate or a Money Market Municipal Rate shall be subject to tender for purchase by the Tender Agent or (if not defeased) by the Subseries Bank on or prior to the Fixed Rate Conversion Date. In each case, such purchases shall be made at a purchase price (the "Purchase Price") equal to 100% of the principal amount to be purchased, plus all accrued and unpaid interest thereon to the date of purchase thereof (the "Purchase Date"), which principal and interest components shall be applied to the purchase of the rights to receive such principal and interest, when and as the same is or becomes due, from the owner or owners of such rights.

Tenders for purchase at the option of the Bondholders shall be permitted (a) on any Business Day during a Daily or Weekly Rate Period and (b) on any Interest Payment Date following a Monthly, Quarterly, or Semiannual Rate Period. All Adjustable Rate Bonds or portions thereof tendered or retained shall be in Authorized Denominations.

Mandatory tender for purchase of an Adjustable Rate Bond bearing interest at a Variable Rate or a Money Market Municipal Rate shall occur (a) on the commencement date of an MMMR Period but only with respect to the Adjustable Rate Bond to which such Period relates, (b) on the commencement date of a Term Rate Period for such Adjustable Rate Bond, (c) on the effective date of any Conversion of such Adjustable Rate Bond, and (d) as described below under "Mandatory Tender to Banks" and "Credit Facilities".

The owners of the Adjustable Rate Bonds may not elect to retain their Adjustable Rate Bonds upon any mandatory tender for purchase.

In the case of any tender for purchase at the option of a Bondholder, irrevocable notice of the exercise of such option, specifying the Purchase Date and the principal amount to be purchased, shall be required to be given to the Tender Agent: (a) by telephone not later than 9:00 a.m., New York City time, on the Purchase

Date, in the case of any Adjustable Rate Bond bearing interest at a Daily Rate; or (b) in writing delivered to the designated office of the Tender Agent not later than 5:00 p.m., New York City time, on a Business Day which is not less than (i) seven days prior to the Purchase Date, in the case of any Adjustable Rate Bond bearing interest at a Weekly or Monthly Rate or (ii) 15 days prior to the Purchase Date, in the case of any Adjustable Rate Bond bearing interest at a Quarterly or Semiannual Rate.

The Remarketing Agent will remarket tendered Adjustable Rate Bonds as described therein. The City may, but is not obligated to, purchase tendered Adjustable Rate Bonds. Each Bank agrees in the Credit Facility to which it is a party to purchase tendered Adjustable Rate Bonds of the stated Subseries (if not defeased) upon timely delivery by the Tender Agent of a Notice demanding such purchase. See below "Credit Facilities".

The Purchase Price shall be payable, if an Adjustable Rate Bond is delivered to the Tender Agent not later than the specified time on the Purchase Date, by the Tender Agent by wire transfer or at its designated office in immediately available funds (or by check or draft drawn on or by a New York Clearing House bank and payable in next-day funds in the case of purchases following a Semiannual or Term Rate Period), on the Purchase Date.

By acceptance of an Adjustable Rate Bond, each Bondholder irrevocably agrees that, if an Adjustable Rate Bond is to be purchased on any date and sufficient funds are duly deposited for all purchases to be made on such date, then such Adjustable Rate Bond shall be deemed to have been purchased for all purposes thereunder and under the Certificate and, thereafter the Bondholder shall have no further rights thereunder or under the Certificate with respect to such Adjustable Rate Bond, except to receive the Purchase Price from the funds so deposited upon surrender thereof.

If the funds available for purchases of a Subseries of Adjustable Rate Bonds are inadequate for the purchase of all Adjustable Rate Bonds of a Subseries tendered on any Purchase Date, all undefeased Adjustable Rate Bonds of that Subseries theretofore bearing interest at a Variable Rate or a Money Market Municipal Rate shall bear interest from such date at the highest rate provided by law for interest on accrued claims against municipalities and shall no longer be subject to optional or mandatory tender for purchase; and the Fiscal Agent or Tender Agent shall immediately: (i) return all undefeased tendered Adjustable Rate Bonds of that Subseries to the owners thereof; (ii) return all money received for the purchase of such Adjustable Rate Bonds to the persons providing such money; and (iii) give Written Notice to all Bondholders of that Subseries.

Mandatory Tender to Banks

Each of the Adjustable Rate Bonds of a Subseries bearing interest at a Variable Rate or a Money Market Municipal Rate (and not defeased) is subject to mandatory tender for purchase by the Subseries Bank pursuant to its Credit Facility, on the Purchase Date following a Notice from the Fiscal Agent to such Subseries Bank, at the applicable Purchase Price. If (x) there is on a payment date for principal of or interest on such Adjustable Rate Bonds an insufficiency of funds for such payment, the Fiscal Agent shall give the Notice to the Subseries Bank by a specified time on that day, (y)(i) on the 20th day prior to the Credit Facility Scheduled Expiration Date, Adjustable Rate Bonds are bearing interest at a Variable Rate or a Money Market Municipal Rate and the City has not given Written Notice to the Fiscal Agent of the extension or replacement of the Credit Facility or (ii) the Fiscal Agent receives a Termination Notice from a Subseries Bank, the Fiscal Agent shall give the Notice to such Bank on that day (or, at latest, by a specified time on the next Business Day); and the Fiscal Agent shall promptly notify the registered owners of such Adjustable Rate Bonds, by certified mail, postage prepaid, return receipt requested, of its Notice. Such notice to registered owners shall also state the Purchase Date; that such Adjustable Rate Bonds shall be required to be surrendered to the Fiscal Agent on the Purchase Date (which, for any purchase of Adjustable Rate Bonds pursuant to clause (x) above shall be the Business Day on which the Notice is received by the Subseries Bank, if received not later than the specified time, or if received thereafter, the next Business Day; provided that the Purchase Date is prior to the termination of the applicable Credit Facility for such Adjustable Rate Bond; and, for any purchase of Adjustable Rate Bonds pursuant to clause (y) above shall, unless the Purchase Date has theretofore occurred pursuant to clause (x), be a Business Day that is at least 5 days prior to the termination of the applicable Credit Facility; that if any such Adjustable Rate Bond is not so tendered, it

shall be deemed to have been tendered on the Purchase Date; and that upon deposit by the Fiscal Agent of sufficient money in a special custody account for the payment of the Purchase Price of such Adjustable Rate Bond, interest on such Adjustable Rate Bond shall cease to accrue to the former owner and such Adjustable Rate Bond shall be deemed purchased by the Subseries Bank. All Adjustable Rate Bonds purchased pursuant to this paragraph shall be paid for from funds furnished under the applicable Credit Facility upon presentation and surrender thereof, together with an instrument of transfer thereof, in form satisfactory to the Fiscal Agent, executed in blank by the registered owner thereof, at the office of the Fiscal Agent. If Notice is not given as specified in clause (y) above, the termination of the Credit Facility shall nonetheless take effect and, beginning on the Termination Date, such Adjustable Rate Bonds bearing interest at a Variable Rate or a Money Market Municipal Rate shall bear interest at the highest rate provided by law for interest on accrued claims against municipalities and shall not be subject to optional or mandatory tender for purchase.

Redemption

Adjustable Rate Bonds are subject to redemption prior to maturity at the option of the City, in whole or in part, (a) if bearing interest at a Variable Rate or a Money Market Municipal Rate, on any potential Conversion Date after defeasance of such Adjustable Rate Bonds, or (b) if bearing interest as Purchased Bonds or at the highest rate provided by law for interest on accrued claims against municipalities on any date, in each case on 30 days' notice to Bondholders at the principal amount thereof plus any interest accrued and unpaid thereon. The City may select amounts, Subseries and maturities of Adjustable Rate Bonds to be redeemed in its sole discretion. In the event that less than all Adjustable Rate Bonds of a Subseries and maturity subject to redemption are to be redeemed, Adjustable Rate Bonds shall be selected for redemption in the following manner: (i) first, from Adjustable Rate Bonds, if any, of any Subseries and maturity subject to such redemption which are held by or for the Subseries Bank, (ii) second, from other Adjustable Rate Bonds bearing interest as Purchased Bonds or at the highest rate provided by law for interest on accrued claims against municipalities, and (iii) third, by lot.

Following a Fixed Rate Conversion, the Adjustable Rate Bonds of a Subseries and maturity will be subject to redemption at the option of the City, beginning on the tenth anniversary of the Fixed Rate Conversion Date, in whole or in part, by lot within each maturity, on any date upon 30 days' notice to Bondholders, at a redemption price of $101\frac{1}{2}$ %, which price shall decline annually by $\frac{3}{4}$ % per annum, until reaching a price of 100% on the twelfth anniversary, to remain in effect thereafter; plus accrued interest to the date of redemption. The City may select amounts and maturities of such Bonds for redemption in its sole discretion. Prior to Conversion to a Fixed Rate, such optional redemption provisions may be amended if the City receives an opinion of Bond Counsel to the effect that such amendment is authorized by law and will not adversely affect the exclusion of interest in the Adjustable Rate Bonds from gross income for Federal income tax purposes.

Defeasance

For the purpose of determining whether Adjustable Rate Bonds shall be deemed to have been defeased, the interest to come due on such Adjustable Rate Bonds shall be calculated at the maximum applicable rate; and if, as a result of such Adjustable Rate Bonds having borne interest at less than the maximum rate for any period, the total amount on deposit for the payment of interest on such Adjustable Rate Bonds exceeds the total amount required, the balance shall be paid to the City. In addition, Adjustable Rate Bonds shall be deemed defeased only if there shall have been deposited money in an amount sufficient for the timely payment of the maximum amount of principal of and interest on such Adjustable Rate Bonds that could become payable to the Bondholders upon the exercise of any applicable optional or mandatory tender for purchase.

Credit Facilities

Prior to and including the Fixed Rate Conversion Date for each Subseries and maturity of Adjustable Rate Bonds that is not defeased and is subject to optional or mandatory tender for purchase, the City (a) shall, as required by law, keep in effect one or more letter of credit agreements or liquidity facility agreements for the benefit of the Bondholders of such Subseries and maturity, which shall require a financially responsible party or parties other than the City to purchase all or any portion of such Adjustable

Rate Bonds tendered by the holders thereof for repurchase prior to the maturity of such Adjustable Rate Bonds, and (b) shall also provide for the purchase of such Adjustable Rate Bonds by a financially responsible party or parties upon any failure of the City to make timely payment of principal or interest thereon. A financially responsible party or parties, for the purposes of this paragraph, shall mean a person or persons determined by the Mayor and the Comptroller of the City to have sufficient net worth and liquidity to purchase and pay for on a timely basis all of the Adjustable Rate Bonds which may be tendered for repurchase by the holders thereof.

Each Registered owner of an Adjustable Rate Bond bearing interest at a Variable Rate or a Money Market Municipal Rate (and not defeased) will be entitled to the benefits and subject to the terms of the Credit Facility for such Bond. Under such Credit Facility, the Subseries Bank agrees to make available to the Tender Agent or the Fiscal Agent, upon receipt of an appropriate demand for payment, the Purchase Price for Adjustable Rate Bonds of the stated Subseries. Each Bank's commitments under the Credit Facilities will be sufficient to pay a Purchase Price equal to the principal of and up to 185 days' interest on the Adjustable Rate Bonds at an assumed rate of 9% as follows:

Bank	Subseries	Principal	Interest	Due August 15	Credit Facility Scheduled Expiration Date August 18
The Dai-Ichi Kangyo Bank, Limited, New York Branch The Sanwa Bank, Limited, New York Branch Union Bank of Switzerland, New York Branch	D 2	\$50,000,000 10,000,000 50,000,000	462,500	2018-2021 2017-2018 2021-2023	1996

No Bank is responsible for any of the other Banks' performance of their obligations under the Credit Facilities.

Mandatory purchase by the Subseries Bank of Adjustable Rate Bonds bearing interest at a Variable Rate or a Money Market Municipal Rate (and not defeased) shall occur under the circumstances described in the Adjustable Rate Bonds, including failure to extend or replace the Credit Facility relating to such Subseries of Adjustable Rate Bonds, a failure of the City to make timely provision for interest or principal due on any such Adjustable Rate Bond of the Subseries and (at the option of the Subseries Bank) other events, including without limitation breaches of covenants, defaults on other bonds of the City or other entities, and events of insolvency. Notwithstanding the other provisions of the Adjustable Rate Bonds and the Certificate, upon the purchase of an Adjustable Rate Bond by the Subseries Bank, all interest accruing thereon from the last date for which interest was paid shall accrue for the benefit of and be payable to the Subseries Bank.

If a Credit Facility is to be extended or replaced, the City shall, not later than 20 days before the effective date of such extension or replacement, deliver to the Fiscal Agent and the Tender Agent Written Notice of the extension or replacement, which shall include (i) copies of the related documentation and (ii) Rating Confirmation with respect thereto. The City shall give Written Notice to each affected Bondholder at least 15 days prior to any extension, replacement or substitution.

The obligation of each Subseries Bank to purchase Adjustable Rate Bonds pursuant and subject to the terms and conditions of the Credit Facility for such Bonds is irrevocable and constitutes an extension of credit to the City for the benefit of the Bondholders of such Subseries at the time such Credit Facility becomes effective, and the obligation of the City to repay amounts advanced by the Bank such Credit Facility in respect of such Bank's purchase of Adjustable Rate Bonds shall be evidenced by the Bonds so purchased by such Bank.

To the extent described in the Adjustable Rate Bonds and the Credit Facilities, if any decrease in the ratings applicable to debt of any Bank adversely affects the interest rate payable by the City on any Adjustable Rate Bonds, the City shall have the right to seek a substitute bank or banks to assume the rights and obligations of such Bank. The holders of the affected Adjustable Rate Bonds shall be notified of any assumption of a Bank's rights and obligations.

The preceding is a summary of certain provisions expected to be included in the Credit Facilities and the proceedings under which the Adjustable Rate Bonds are to be issued, and is subject in all respects to the

underlying documents, copies of which will be available for inspection during business hours at the office of the Fiscal Agent. Information regarding the Banks is included herein as "APPENDIX E—THE BANKS". Neither the City nor the Underwriters make any representation with respect to the information in "APPENDIX E—THE BANKS".

ADJUSTABLE RATE BONDS—DEFINITIONS

As used in "APPENDIX C—ADJUSTABLE RATE BONDS", the following terms have the meanings set forth below:

Bond Counsel: Any nationally recognized bond counsel retained by the City.

Bondholder or Owner: The person in whose name any Adjustable Rate Bond is registered on the books of the City.

Business Day: A day (i) other than a day on which banks located in the City are required or authorized by law or executive order to close and (ii) on which the New York Stock Exchange is not closed.

Conversion: A change in the type of Rate Period applicable to Adjustable Rate Bonds of any Subseries and maturity to a Fixed Rate Period, the Money Market Mode or a Variable Rate, including a change to a different type of Variable Rate Period and including a change from a Term Rate Period to a Term Rate Period equal (or approximately equal) in length to a different number of years from the preceding Term Rate Period.

Conversion Date: The effective date of a Conversion.

Credit Facilities: The several Letters of Credit and Reimbursement Agreements, between the City and each of the Banks.

Credit Facility Scheduled Expiration Date: The Letter of Credit Scheduled Expiration Date, as such term is defined in each Credit Facility.

Daily Rate: The interest rate that may be determined for Adjustable Rate Bonds of a Subseries and maturity on each Business Day pursuant to the applicable provisions of the Certificate.

Fixed Rate: The rate at which Adjustable Rate Bonds of any Subseries and maturity shall bear interest from and including the Fixed Rate Conversion Date therefor to the maturity date thereof.

MMMR Period: The period during which a specific Money Market Municipal Rate applies.

Money Market Mode: The Period or sequence of Periods during which a maturity of a Subseries of Tax-Exempt Adjustable Rate Bonds bears interest at Money Market Municipal Rates.

Money Market Municipal Rate: The interest rate that may be separately determined for each Adjustable Rate Bond of a Subseries and maturity pursuant to the applicable provisions of the Certificate. The Money Market Municipal Rate shall not exceed 9% per annum.

Monthly Rate: The interest rate that may be determined for Adjustable Rate Bonds of a Subseries and maturity on a monthly basis pursuant to the applicable provisions of the Certificate.

Notice: A notice of purchase, pursuant to each Credit Facility.

Quarterly Rate: The interest rate that may be determined for Adjustable Rate Bonds of a Subseries and maturity on a quarterly basis pursuant to the applicable provisions of the Certificate.

Rate Period or Period: With respect to a Money Market Municipal Rate, a Daily Rate, a Weekly Rate, a Monthly Rate, a Quarterly Rate, a Semiannual Rate, a Term Rate or a Fixed Rate, the period during which a specific rate of interest determined for any Adjustable Rate Bonds of any Subseries and maturity will remain in effect.

Rating Agency: Each of Moody's Investors Service and Standard & Poor's Corporation that has a rating in effect for a Subseries of Adjustable Rate Bonds.

Rating Confirmation: Evidence from each Rating Agency that its applicable rating will not be reduced or withdrawn solely as a result of an action to be taken by the City.

Record Date: With respect to each Interest Payment Date, (i) during a Daily, Weekly or Monthly Rate Period, the last day of the calendar month next preceding such Interest Payment Date; (ii) during a Quarterly, Semiannual or Term Rate Period, the fifteenth day of the calendar month next preceding such Interest Payment Date; and (iii) during a Fixed Rate Period, the last business day of the calendar month next preceding such Interest Payment Date.

Remarketing Agent: Lehman Brothers Inc.

Semiannual Rate: The interest rate that may be determined for Adjustable Rate Bonds of a Subseries and maturity on a semiannual basis pursuant to the applicable provisions of the Certificate.

Subseries Bank: The Bank providing a Credit Facility for a Subseries of Bonds.

Tender Agent: The Chase Manhattan Bank, N.A., New York, New York, or any successor appointed pursuant to the Certificate. The Tender Agent's designated office is, if by hand, One Chase Manhattan Plaza—Level 1B, New York, New York 10081, Attn: Municipal Bond Redemption Window; if by mail, 4 Chase Metrotech Center, Brooklyn, New York 11245, Attn: Box 2020.

Term Rate: The interest rate that may be determined for Adjustable Rate Bonds of any Subseries and maturity for a Period that is equal or approximately equal to (but not more than) one year or any whole multiple thereof.

Termination Notice: A Termination Notice, as defined in the Credit Facilities.

Variable Rate: As the context requires, the Daily Rate, Weekly Rate, Monthly Rate, Quarterly Rate, Semiannual Rate or Term Rate applicable to Adjustable Rate Bonds of any Subseries and maturity. No Variable Rate shall exceed 9% per annum.

Weekly Rate: The interest rate that may be determined for Adjustable Rate Bonds of a Subseries and maturity on a weekly basis pursuant to the applicable provisions of the Certificate.

Written Notice: Notice in writing which may be delivered by hand, first class mail, facsimile transmission (such as telecopy), telegram or telex.

THE BANKS

The information with respect to each Bank contained in this Appendix relates to and has been obtained from such Bank. The City makes no representation as to the accuracy or adequacy of such information. The delivery of the Official Statement shall not create any implication that there has been no change in the affairs of any of the Banks since the date hereof, or that the information contained or referred to in this Appendix is correct as of any time subsequent to the date of such information. For information concerning the Credit Facilities between the City and the Banks, see "APPENDIX C—ADJUSTABLE RATE BONDS—Credit Facilities".

The Dai-Ichi Kangyo Bank, Limited, New York Branch

The Dai-Ichi Kangyo Bank, Limited ("DKB" or the "Bank") is organized and operates under the Banking Law of Japan, with its headquarters in Tokyo, Japan. The Bank is the largest of the 152 commercial banks in Japan, on the basis of both total assets and deposits. *American Banker* published statistics in July 1993 showing the Bank to be the world's largest in terms of total assets (as it has been since 1983) and total deposits (as it has been since 1984).

DKB has an extensive nationwide network in Japan with 403 branch offices. As of June, 1993, the Bank operated 19 branches and agencies, 20 representative offices, 23 subsidiaries, 9 affiliated companies, and 1 loan production office outside Japan. On March 31, 1993 the Bank had 18,849 employees. Domestically, DKB offers a full range of commercial banking services including current, ordinary deposit and time deposit accounts, foreign currency accounts, loans, domestic money transfers and securities custody and proxy services. DKB's Tokyo-based international activities are centered around the financing of the overseas projects and trade of its client companies and foreign exchange operations. The Bank's agencies, branches and subsidiary banks conduct operations, primarily commercial banking, in North America, Central America, Europe, Asia and Australia. Affiliated and associated companies provide these services in South America, Europe and Asia. The Bank is an authorized foreign exchange bank under Japanese law.

Intense competition from banks, financial institutions, financial services and, in some instances, government agencies exists in virtually all activities in which the Bank and its subsidiaries are engaged. In Japan, DKB competes with city banks and other financial institutions in the banking system. In international markets, the Bank and its subsidiaries compete with other Japanese banks having foreign operations, major foreign banks and financial institutions, and with local banks and financial institutions.

The Bank, its branches, agencies, and subsidiaries are subject to extensive regulation, which limits their activities and affects their financial condition and operating results, both in Japan, and overseas.

DKB is licensed by the Superintendent of Banks of the State of New York to conduct a banking business through its New York Branch, which was converted from an Agency in 1977. The New York Branch engages in a wide range of banking activities, including lending to financial, corporate and institutional customers, issuing letters of credit, buying and selling foreign exchange and originating banker's acceptances.

As of March 31, 1993, the Bank had total assets of 56,301 billion yen (\$484 billion) and deposits of 40,397 billion yen (\$347 billion). Net income of the Bank for the fiscal year ended March 31, 1993 was 46,500 million yen (\$400 million). Copies of the Bank's Annual Report for the fiscal year ended March 31, 1993 may be obtained on written request from The Dai-Ichi Kangyo Bank, Limited, New York Branch, Suite 4911, One World Trade Center, New York, New York 10048.

The Sanwa Bank, Limited, New York Branch

The Sanwa Bank, Limited (the "Bank") is one of Japan's leading financial institutions. As of March 31, 1993 (the latest date for which audited financial statements are available) the Bank, on a non-consolidated basis, had total assets of approximately U.S. \$452.55 billion, aggregate deposits of approximately U.S. \$320.29 billion, and total stockholders' equity of approximately U.S. \$16.31 billion (based on the effective exchange rate of \frac{116.30}{16.30} = 1 U.S. as of March 31, 1993).

Headquartered in Tokyo, the Bank provides a wide range of international banking services through more than one hundred (100) offices outside of Japan, including branches, offices of subsidiaries and affiliates. The Bank commenced banking operations in the United States in 1953, and currently has offices in New York City, Atlanta, Boston, Chicago, Cleveland, Dallas, Houston, Lexington (Ky.), Los Angeles and San Francisco. In addition, the Bank has three wholly-owned U.S. subsidiaries: Sanwa Bank California, having a network of over one hundred (100) offices in the State of California; Sanwa Business Credit Corporation; and Sanwa Bank Trust Company of New York. The Bank also owns a 99% interest in Sanwa-BGK Securities Co., L.P., a primary dealer in U.S. Government securities.

Additional information relating to the Bank is on file at the offices of the Bank at Park Avenue Plaza, 55 East 52nd Street, New York, New York 10055, Attention: Public Finance Department.

Union Bank of Switzerland, New York Branch

Union Bank of Switzerland ("UBS"), a Swiss banking corporation, was chartered as a bank located in Zurich in 1912. UBS's principal executive offices are located at Bahnhofstrasse 45, Zurich. The New York Branch of UBS is licensed by the New York Superintendent of Banks (the "Superintendent") to conduct a banking business as a branch of a foreign bank. The office of the New York Branch is located at 299 Park Avenue, New York, New York 10171.

UBS has approximately 322 branches and banking subsidiaries throughout Switzerland. UBS also has United States branches, agencies, representative offices and subsidiaries in New York, Chicago, Houston, Los Angeles and San Francisco and other foreign offices including branches, representative offices and subsidiaries, in Beijing, Frankfurt, Hong Kong, London, Luxemburg, Panama, Singapore, Sydney, Taipei, Tokyo and Toronto, for a total of 48 business offices abroad. In addition to the receipt of deposits and the making of loans and advances, UBS engages in other banking and bank-related activities typical of the world's major international banks, including fiduciary, investment advisory and custodial services, foreign exchange and underwriting in the United States, Swiss and Euro-capital markets.

As a Swiss bank, UBS is subject to regulation by the Swiss Federal Banking Commission (the "Swiss Commission") and the Swiss National Bank, and its business is subject to inspection by an independent auditing firm. The auditors review compliance with the Swiss Banking Law and are required to report uncured violations or irregularities to the Swiss Commission, which is authorized to enforce compliance with the Swiss Banking Law. The Swiss National Bank oversees the financial condition and liquidity of Swiss banks. UBS is required to file with the Swiss National Bank annual statements of condition, monthly interim balance sheets, quarterly liquidity statements and other information regarding its financial condition. Information provided to the Swiss Commission and the Swiss National Bank is not available to the general public.

In addition to regulation by the Swiss banking authorities, UBS is subject to regulatory oversight in the United States. The scope of UBS's activities (directly or through subsidiaries) in the United States is limited by the International Banking Act of 1978 and the Bank Holding Company Act of 1956. The New York Branch is licensed by the Superintendent, pursuant to a Certificate of Authority issued under the New York Banking Law, to conduct a banking business as a branch of a foreign bank. It is required to make periodic reports to, and is subject to examination by, the Superintendent and the Board of Governors of the Federal Reserve.

At December 31, 1992, UBS had total assets of Sfr. 206.1 billion, total deposits (including due to banks) of Sfr. 156.1 billion, notes, bonds and other liabilities of Sfr. 35.4 billion and equity capital and reserves of Sfr. 14.4 billion. At December 31, 1991, foreign (i.e. non-Swiss) business accounted for approximately 51% of UBS's assets and 49% of its liabilities. Such amounts are as reflected in UBS's 1992 Annual Report to Shareholders and do not include UBS's consolidated subsidiaries. The accounting principles applied in the preparation of its financial statements (and therefore reflected herein) may not conform to generally accepted accounting principles applied by United States banks.

Copies of UBS's annual reports to shareholders are available from the New York Branch on request at the address in New York set forth above.

INVERSE FLOATING RATE NOTES

The Inverse Floating Rate Notes are subject to the provisions summarized below. Capitalized terms used under this caption "Inverse Floating Rate Notes" which are not otherwise defined in the Official Statement are defined in "APPENDIX G — Inverse Floating Rate Notes — Definitions".

The Inverse Floating Rate Notes will be executed and delivered as fully registered Bonds in Authorized Denominations of: (1) until the Scheduled Conversion Date indicated on the inside cover page of this Official Statement (the "Scheduled Conversion Date") or the optional conversion thereof on the Optional Conversion Date, if any, described below under the caption "The Inverse Floating Rate Notes" (collectively, the "Conversion Dates"), \$100,000 or any integral multiple thereof, and (2) thereafter, \$5,000 or any integral multiple thereof. Ownership interests may be acquired in book-entry form only. See "SECTION II: THE BONDS — Book-Entry Only System".

Interest on the Inverse Floating Rate Notes will be payable in arrears on February 15 and August 15 of each year commencing February 15, 1994 to the Owners thereof as of the last Business Day of the month preceding each February 15 and August 15. From the Effective Date through the day prior to the applicable Conversion Date interest, calculated on the basis of a 360-day year consisting of twelve 30-day months, will accrue for each Calculation Period at a per annum rate equal to the IFRN Pre-Conversion Fixed Level indicated on the inside cover page of this Official Statement (the "IFRN Pre-Conversion Fixed Level"), calculated on the basis of a 360-day year of twelve 30-day months, minus a variable rate (the "Variable Rate"), computed using a year of 360 days and actual days elapsed, provided, that the rate so determined shall not be less than the Minimum Inverse Floating Rate indicated on the inside cover page of this Official Statement (the "Minimum Inverse Floating Rate"). From and after the Interest Payment Date next preceding the Optional Conversion Date, if any, through the Scheduled Conversion Date therefor, the interest rate on the Inverse Floating Rate Notes will be the applicable Adjusted Rate, with interest calculated on the basis of a 360-day year consisting of twelve 30-day months. From and after the Scheduled Conversion Date, the interest rate on the Inverse Floating Rate Notes will be the Conversion Fixed Rate indicated on the inside cover page of this Official Statement (the "Conversion Fixed Rate") and will be computed using a year of 360 days comprising twelve 30-day months.

Interest shall be payable on the Inverse Floating Rate Notes on each Interest Payment Date by check mailed to the registered owner at his or her address as it appears on the registration books of the City as of the close of business on the appropriate Record Date; provided, that (i) while a securities depository is the registered owner of all of the Inverse Floating Rate Notes, all payments of principal of and interest on such Inverse Floating Rate Notes shall be paid to the securities depository or its nominee by wire transfer and (ii) interest on the Inverse Floating Rate Notes shall be payable to any registered owner of at least \$1,000,000 principal amount of Inverse Floating Rate Notes by wire transfer, upon written notice received by the Fiscal Agent at least 5 days prior to the Record Date from such registered owner containing the wire transfer address (which shall be in the continental United States) to which such registered owner wishes to have such wire directed.

Any Owner of the Inverse Floating Rate Notes may elect, subject to certain conditions, prior to the Scheduled Conversion Date to convert the interest rate on such Owner's Inverse Floating Rate Notes to the applicable Adjusted Rate, as described below under the caption "The Inverse Floating Rate Notes".

Optional Conversion of the Inverse Floating Rate Notes".

The Variable Rate for each Calculation Period shall be equal to the Factor times the LIBOR Rate computed using a year of 360 days and actual days elapsed. The Variable Rate for any Calculation Period may not exceed the Maximum Variable Rate.

Prospective Owners of the Inverse Floating Rate Notes should note that because the interest rate on the Inverse Floating Rate Notes prior to the applicable Conversion Date will be determined by subtracting the Variable Rate from a fixed amount, the interest rate on the Inverse Floating Rate Notes prior to the applicable Conversion Date will:

decrease as the Variable Rate increases, and

increase as the Variable Rate decreases.

In addition, as a result, the interest rate with respect to the Inverse Floating Rate Notes prior to the applicable Conversion Date will equal the Minimum Inverse Floating Rate if the Variable Rate is equal to or greater than the Maximum Variable Rate.

The Inverse Floating Rate on the Inverse Floating Rate Notes shall not exceed the IFRN Pre-Conversion Fixed Level.

LBSF Facilitation Agreement. Simultaneously with, and as a condition to, the delivery of the Inverse Floating Rate Notes, the City will enter into an Agreement to Facilitate the Issuance, Sale and Payment of Bonds (the "LBSF Facilitation Agreement") and pursuant thereto will enter into a series transaction supplement (the "Series Transaction Supplement") with Lehman Brothers Special Financing Inc. ("LBSF"), an affiliate of Lehman Brothers Inc., an underwriter of the Bonds and the Inverse Floating Rate Market Agent, on a notional amount equal to the principal amount of Inverse Floating Rate Notes, for the period to the Scheduled Conversion Date. The LBSF Facilitation Agreement is not a contract for the benefit of bondholders. Owners of the Inverse Floating Rate Notes, or of other Bonds, should not assume that any such agreement will be in effect at any time.

The Inverse Floating Rate Notes will be subject to optional redemption as described in "SECTION II: THE BONDS — Optional Redemption".

Additional Considerations

Prospective Owners of the Inverse Floating Rate Notes should note that the prices at which leveraged instruments, such as the Inverse Floating Rate Notes prior to the applicable Conversion Date, may trade in secondary markets can be expected to fluctuate more in relation to general changes in the interest rates for long-term fixed rate securities than prices of conventional interest bearing securities of comparable maturities. Thus increases or decreases in the general level of interest rates can be expected to result in greater movements in the prices of the Inverse Floating Rate Notes than in the prices of conventional securities.

Optional Conversion of the Inverse Floating Rate Notes

On any Business Day prior to the Scheduled Conversion Date, an Owner of Inverse Floating Rate Notes may elect, subject to certain conditions, to convert the interest rate payable on not less than \$500,000 principal amount of such Inverse Floating Rate Notes to the applicable Adjusted Rate.

Such election shall be made by delivery by the Owner of such Inverse Floating Rate Note of notice, which notice may be in writing or telephonically communicated, to the Inverse Floating Rate Market Agent by 11:00 A.M., New York City time, on the Business Day prior to the proposed Optional Conversion Date (the "Notice Date") specifying (i) the principal amount of Inverse Floating Rate Notes to be converted, (ii) the proposed Optional Conversion Date, (iii) the method by which the Inverse Floating Rate Market Agent will be able to contact such Owner between 11:00 A.M. and 2:00 P.M., New York City time, on the Notice Date and (iv) evidence satisfactory to the Inverse Floating Rate Market Agent that such Owner is the Owner of the Inverse Floating Rate Notes being converted.

Prior to 2:00 P.M., New York City time, on the Notice Date, the Inverse Floating Rate Market Agent shall determine (i) whether the conditions for the conversion of Inverse Floating Rate Notes have been met, (ii) the Optional Conversion Date and (iii) the applicable Adjusted Rate, and shall make reasonable efforts to advise the Owner using the method specified in the notice, as to such determinations. Any determination made by the Inverse Floating Rate Market Agent pursuant to this paragraph shall be binding, until 3:00 P.M., New York City time, on the Notice Date, provided there shall have been no material adverse change in the market for interest rate exchange agreements prior to such time. If, in the exclusive judgment of the Inverse

Floating Rate Market Agent, which judgment may not be exercised arbitrarily, such material adverse change shall have occurred, the Inverse Floating Rate Market Agent shall rescind such determination by not providing the telephonic confirmation referred to in the following paragraph.

The Owner shall provide telephonic notice to the Inverse Floating Rate Market Agent of its offer to convert its Inverse Floating Rate Notes to the Adjusted Rate so determined not later than 3:00 P.M., New York City time, on the Notice Date. Such notice shall be irrevocable; provided that, the conversion shall be effective only if the Inverse Floating Rate Market Agent shall, by telephone, confirm its acceptance of the Adjusted Rate. Immediately following such confirmation, the Owner shall, in the event that the Inverse Floating Rate Notes are registered in the name of Cede & Co., as nominee for DTC, provide the Participant through which such Owner holds such Inverse Floating Rate Notes, irrevocable written notice to convert the interest rate on such Inverse Floating Rate Notes.

Not later than 5:00 P.M., New York City time, on the Notice Date, the Owner shall provide to the City, the Fiscal Agent and the Inverse Floating Rate Market Agent irrevocable written notice (i) specifying the converted Inverse Floating Rate Notes, (ii) acknowledging that such Inverse Floating Rate Notes bear interest at the Adjusted Rate, and (iii) providing evidence satisfactory to the Inverse Floating Rate Market Agent (x) that such Owner is the Owner of the converted Inverse Floating Rate Notes and (y) in the event that the Inverse Floating Rate Notes are registered in the name of Cede & Co., as nominee for DTC, that there shall have been provided to the Participant through which such Owner holds such Inverse Floating Rate Note, irrevocable written notice to convert the interest rate on such Inverse Floating Rate Note or authorizing the Inverse Floating Rate Market Agent, to provide such notice, or in any other event, that the Owner shall surrender for conversion its Inverse Floating Rate Note. Failure by the Owner to deliver the notice described in the preceding sentence shall not affect the conversion made in the telephonic notice provided by the Owner in the next preceding paragraph.

Notwithstanding anything to the contrary contained under this caption "Optional Conversion of the Inverse Floating Rate Notes," the Optional Conversion Date for any Inverse Floating Rate Note for which the Owner has provided notice of conversion during the period beginning on the Record Date and ending on the next succeeding Interest Payment Date shall be a date not earlier than such next succeeding Interest Payment Date.

In addition, no Inverse Floating Rate Note shall be converted to the applicable Adjusted Rate at the election of the Owner thereof if (i) the Rate Adjustment cannot be determined because (A) in the event that the related Series Transaction Supplement, or a Substitute Series Transaction Supplement, is in effect, the City and LBSF, or the City and the relevant financial institution with respect to a Substitute Series Transaction Supplement, fail to agree to the termination of a ratable portion of the related Series Transaction Supplement or (B) in the event that the related Series Transaction Supplement, or a Substitute Series Transaction Supplement, is not in effect, the City is unable to determine the Market Quotation or (ii) prior to such conversion there shall have occurred the enactment, promulgation, execution or ratification of, or any change in or amendment to, any law, regulation or ruling (or in the application or official interpretation of any law, regulation or ruling) as a result of which the City shall no longer be in receipt of an opinion of nationally recognized bond counsel to the effect that a conversion of any Inverse Floating Rate Note would not cause the interest payable on any of the Bonds to cease to be excludable from gross income for federal income tax purposes. The City shall immediately notify the Inverse Floating Rate Market Agent if no Inverse Floating Rate Notes shall be converted because of the satisfaction of the condition described in clause (ii) of the preceding sentence. Bond Counsel have no obligation to update their opinions given at the delivery of the Bonds.

The Internal Revenue Service has issued proposed regulations, which were published in the Federal Register on December 2, 1992, that may, if adopted in their current form, restrict the right of Owners to convert Inverse Floating Rate Notes in certain circumstances. The regulations, if adopted, would apply only to conversions occurring 30 days or more after publication of the regulations as final. Under the proposed regulations, significant alterations to any debt instrument may cause it to be treated as a reissued debt instrument for federal income tax purposes. Although it is not clear, it is possible that the exercise of the option to convert an Inverse Floating Rate Note may cause it to be treated as reissued under the proposed

regulations. If the converted Inverse Floating Rate Note were considered to be reissued, the Owner would recognize gain or loss measured by the market value of the converted Inverse Floating Rate Note. In addition, if the treatment of the converted Inverse Floating Rate Note as a reissued obligation would cause interest on the Bonds to be includable in gross income for federal income tax purposes, e.g., if there were a change in law adversely affecting the reissuance of the Bonds, the conversion would not be permitted. For additional information that may affect certain Owners of the Inverse Floating Rate Notes, see "SECTION IX: OTHER INFORMATION—Tax Exemption."

The City and LBSF have agreed, pursuant to the LBSF Facilitation Agreement, to terminate the Series Transaction Supplement in a notional principal amount corresponding to the face amount of the Inverse Floating Rate Notes being converted. Any such termination of such portion of such Series Transaction Supplement is expressly conditioned on the following:

- (a) LBSF is actively involved in the business of executing interest rate swap transactions;
- (b) LBSF arranges, in light of then current market conditions, terms for such termination financially and otherwise acceptable to the City and LBSF, and the City consents to such terms, which consent shall not be unreasonably withheld; and
 - (c) such other factors as affect LBSF's willingness to enter into Series Transaction Supplements.

There can be no assurance that any substitute facilitation agreement will contain the same conditions as the LBSF Facilitation Agreement or that the City will be able to obtain any quotations from Reference Market-makers to determine the Market Quotation.

Prospective Owners of the Inverse Floating Rate Notes should note that it is not possible to determine at this time the amount of the Adjusted Rate or the Rate Adjustment. Both are subject to conditions in the market for interest rate exchange transactions at the time of conversion. The Rate Adjustment is expected, however, to approximate the replacement cost for LBSF and the City of the notional amount of the Series Transaction Supplement being adjusted in conjunction with such conversion. Such replacement cost is expected to be approximately equal to the cost of preserving for LBSF and the City the economic equivalent of the payment obligations of LBSF and the City following the Optional Conversion Date. If a Rate Adjustment is positive, the Adjusted Rate will be in excess of the Conversion Fixed Rate; however, if the Rate Adjustment is negative, the Adjusted Rate will be less than the Conversion Fixed Rate.

Generally, upon the conversion of an Inverse Floating Rate Note, (i) the Adjusted Rate will exceed the Conversion Fixed Rate if fixed payor rates in the market for interest rate exchange transactions are less than the result obtained by dividing the difference obtained by subtracting the Conversion Fixed Rate from the IFRN Pre-Conversion Fixed Level for such Inverse Floating Rate Note by the Factor and (ii) the Adjusted Rate will be less than the Conversion Fixed Rate if fixed payor rates in the market for interest rate exchange transactions exceed the result obtained by dividing the difference obtained by subtracting the Conversion Fixed Rate from the IFRN Pre-Conversion Fixed Level for such Inverse Floating Rate Note by the Factor.

In no event shall the rate of interest on the Inverse Floating Rate Notes exceed the IFRN Pre-Conversion Fixed Level.

In addition, Prospective Owners of the Inverse Floating Rate Notes should note that:

- (i) pursuant to the LBSF Facilitation Agreement, LBSF and the City have agreed that if the conditions specified above with respect to the termination of the Series Transaction Supplement are satisfied, they will arrange for such termination on a best efforts basis; and
- (ii) although the Rate Adjustment applicable upon an Optional Conversion of any Inverse Floating Rate Note to the applicable Adjusted Rate cannot be determined at this time, such adjustment could, under certain market conditions described above, be substantial.

Prospective Owners of the Inverse Floating Rate Notes should consult their financial advisors regarding the consequences of conversion.

Defeasance

For the purpose of determining whether the Inverse Floating Rate Notes shall be deemed to have been defeased, the interest to come due on such Inverse Floating Rate Notes shall be calculated at the maximum applicable rate; and if, as a result of such Inverse Floating Rate Notes having borne interest at less than the maximum rate for any period, the total amount on deposit for the payment of interest on such Inverse Floating Rate Notes exceeds the total amount required, the balance shall be paid to the City. In addition, the Inverse Floating Rate Notes shall be deemed defeased only if there shall have been deposited money in an amount sufficient for the timely payment of the maximum amount of principal of and interest on such Inverse Floating Rate Notes that could become payable to the Owners thereof upon the exercise of any election to convert the interest rate payable on such Inverse Floating Rate Notes to the Adjusted Rate.

Termination or Substitution of Series Transaction Supplement

The City agrees that it will not terminate the Series Transaction Supplement or allow LBSF to terminate the Series Transaction Supplement other than (i) in the case of LBSF, upon the exercise of its rights pursuant to the terms of the LBSF Facilitation Agreement or (ii) upon an optional conversion of the Inverse Floating Rate Notes, unless the City shall have received an opinion of nationally recognized bond counsel to the effect that such termination will not cause interest on the Bonds to be includable in gross income for federal income tax purposes.

In the event of an early termination of the Series Transaction Supplement, the City agrees to make Reasonable Efforts to obtain a substitute series transaction supplement (a "Substitute Series Transaction Supplement") which shall be on substantially the same terms and conditions as the terminated Series Transaction Supplement. No assurance can be given that a Substitute Series Transaction Supplement will be obtained. The Inverse Floating Rate Notes will continue to bear interest as set forth above following such termination without regard for whether the City obtains a Substitute Series Transaction Supplement.

"Reasonable Efforts" by the City to find a Substitute Series Transaction Supplement shall mean that no later than two Business Days following the termination, the City shall distribute or cause to be distributed by mail or facsimile transmission a request for a Substitute Series Transaction Supplement to at least four financial institutions whose credit standing is acceptable to the City and which are known to be active in the swap market, such notice requiring that such institutions respond to the City within 5 days from the date on which such notice was sent by the City with quotations to provide a Substitute Series Transaction Supplement.

If the City receives at least one quotation for a Substitute Series Transaction Supplement at a cost that will not exceed the termination payment to be received by the City as a result of the early termination of the prior Series Transaction Supplement, the City will be obligated to take the necessary action to implement such Substitute Series Transaction Supplement as soon as practicable. If the City does not receive at least one quotation for a Substitute Series Transaction Supplement at a cost that will not exceed the termination payment to be received by the City as a result of the early termination of the prior Series Transaction Supplement, the City will either (i) replace the Series Transaction Supplement with a Substitute Series Transaction Supplement that will cost more than any termination payment to be received by the City or (ii) elect not to replace the Series Transaction Supplement.

If the City replaces the terminated Series Transaction Supplement, but the cost of any Substitute Series Transaction Supplement is less than the amount received on the termination of the prior Series Transaction Supplement, the City shall be entitled to keep the difference, provided that, within 30 days of the receipt of such payment the City shall have received an opinion of counsel nationally recognized on the subject of municipal bonds to the effect that such retainage will not cause interest on the Bonds to be includable in gross income for federal income tax purposes. If the City cannot obtain such opinion then it may elect to seek a private letter ruling from the Internal Revenue Service to the effect that such retainage will not cause interest on the Bonds to be includable in gross income for federal income tax purposes. If the City cannot obtain such private letter ruling within one year of the receipt of such payment, or if the City elects not to seek or pursue such private letter ruling, then the City shall pay to the Owners of the Inverse Floating Rate Notes, as additional interest, on the interest payment date next succeeding the earlier of (i) the date on

which the City elected not to seek or pursue such private letter ruling or (ii) the date that is one year after the receipt of the termination payment, the amount of any such savings, together with any investment earnings thereon.

In the event the City elects not to replace the terminated Series Transaction Supplement, any termination payment received by it from LBSF, together with any investment earnings thereon, shall be held by the City and shall be used to pay interest on the Inverse Floating Rate Notes to the extent the interest rate on the Inverse Floating Rate Notes exceeds the Conversion Fixed Rate at any time after the termination of the Series Transaction Supplement. On the Scheduled Conversion Date, the City shall be entitled to keep any remaining portion of the termination payment or the investment earnings thereon provided that the City shall have received an opinion of counsel nationally recognized on the subject of municipal bonds or a private letter ruling from the Internal Revenue Service to the effect that such retainage will not cause interest on the Bonds to be includable in gross income for federal income tax purposes. If the City has not obtained such opinion or private letter ruling on or before the Scheduled Conversion Date, any such remaining moneys including any investment earnings thereon, shall be paid to the Owners of the Inverse Floating Rate Notes, as additional interest, on the Scheduled Conversion Date.

INVERSE FLOATING RATE NOTES—DEFINITIONS

As used in "APPENDIX F—INVERSE FLOATING RATE NOTES", the following terms have the meanings set forth below:

Adjusted Rate: The interest rate on any Inverse Floating Rate Notes converted on an Optional Conversion Date for the period beginning on the Interest Payment Date next preceding such Optional Conversion Date (or, (i) if the Optional Conversion Date occurs prior to the Record Date immediately preceding the first Interest Payment Date, the Effective Date or (ii) if the Optional Conversion Date is an Interest Payment Date, such Interest Payment Date) and ending on, but not including, the Scheduled Conversion Date, which interest rate shall equal the Conversion Fixed Rate plus the Rate Adjustment for such Inverse Floating Rate Note.

Authorized Denomination: The authorized denominations of the Inverse Floating Rate Notes which shall be \$100,000 or any integral multiple thereof during the period commencing on the Effective Date and ending on the Conversion Date and shall be \$5,000 or any integral multiple thereof during the period after the Conversion Date.

Business Day: Any day other than a Saturday, a Sunday, a day on which commercial banks in New York City are required to be closed or a day on which the New York Stock Exchange is closed.

Calculation Period: Each period from, and including, one Interest Payment Date for the Inverse Floating Rate Notes to, but excluding, the next following Interest Payment Date therefor, except that the initial Calculation Period will commence on and include the Effective Date and end on, but exclude, the first Interest Payment Date for the Inverse Floating Rate Notes.

Conversion Date: For each Inverse Floating Rate Note, the Scheduled Conversion Date or the Optional Conversion Date on which the interest rate on such Inverse Floating Rate Note is converted to the Conversion Fixed Rate or the applicable Adjusted Rate, as the case may be.

Conversion Fixed Rate: For the Inverse Floating Rate Notes, the interest rate on the Inverse Floating Rate Notes on and after the Scheduled Conversion Date, as indicated on the inside of the cover page of this Official Statement.

Effective Date: The first date from which the Inverse Floating Rate Notes bear interest, which shall be the date of their respective original issuance and delivery.

Factor: For the Inverse Floating Rate Notes, the factor on the Inverse Floating Rate Notes, as indicated on the inside of the cover page of this Official Statement.

IFRN Pre-Conversion Fixed Level: For the Inverse Floating Rate Notes, the interest rate per annum indicated on the inside of the cover page of this Official Statement.

Inverse Floating Rate: For the Inverse Floating Rate Notes, a per annum rate equal to the IFRN Pre-Conversion Fixed Level minus the Variable Rate.

Inverse Floating Rate Market Agent: Initially Lehman Brothers Inc. (Attention: Municipal Bond Department, American Express Tower, 8th Floor, World Financial Center, New York, New York 10285, Senior Manager, Municipal Bond Trading, Telephone: (212) 528-1061, Telecopy: (212) 528-0821, or such other number as Lehman Brothers Inc. shall designate to the City), or any successor thereto, or any successor Inverse Floating Rate Market Agent appointed by the City and, if there are no Series Transaction Supplements in effect, the City.

Inverse Floating Rate Note: Any Bond that bears interest at the Inverse Floating Rate to the applicable Conversion Date and at the Conversion Fixed Rate thereafter.

LBSF: Lehman Brothers Special Financing Inc., a corporation duly organized and existing under the laws of the State of Delaware.

LBSF Facilitation Agreement: The Agreement to Facilitate the Issuance, Sale and Payment of Bonds, dated as of August 12, 1993, between the City and LBSF.

LIBOR Rate: The per annum rate determined in accordance with the following:

- (i) The rate for a Reset Date will be the rate for deposits in U.S. Dollars for a period of three months which appears on the Telerate Page 3750 as of 11:00 a.m., London time, on the day that is two Reset Business Days preceding that Reset Date. If such rate does not appear on the Telerate Page 3750, the rate for that Reset Date will be determined as described in paragraph (ii) below.
- (ii) If such rate does not appear on the Telerate Page 3750, the rate for that Reset Date will be determined on the basis of the rates at which deposits in U.S. Dollars are offered by the Reference Banks at approximately 11:00 a.m., London time, on the day that is two Reset Business Days preceding that Reset Date to prime banks in the London interbank market for a period of three months commencing on that Reset Date and in an amount that is representative for a single transaction in such market at such time. The Inverse Floating Rate Market Agent will request the principal London office of each of the Reference Banks to provide a quotation of its rate. If at least two such quotations are provided, the rate for that Reset Date will be the arithmetic mean of the quotations. If fewer than two quotations are provided as requested, the rate for that Reset Date will be the arithmetic mean of the rates quoted by major banks in New York City, selected by the Inverse Floating Rate Market Agent, at approximately 11:00 a.m., New York City time, on that Reset Date for loans in U.S. Dollars to leading European banks for a period of three months commencing on that Reset Date and in an amount that is representative for a single transaction in such market at such time.

Market Quotation: With respect to that portion of a transaction supplement with the same terms as the related Series Transaction Supplement, or Substitute Series Transaction Supplement, in a notional amount equal to the principal amount of the Inverse Floating Rate Notes being converted (the "Terminated Portion"), an annual percentage determined on the basis of quotations from Reference Market-makers. Each quotation will be for a percentage equal to (i) the amount, if any, that would be paid semiannually on each Interest Payment Date on or prior to the Scheduled Conversion Date to the City (expressed as a negative number) or by the City (expressed as a positive number) in consideration of an agreement between the City and the quoting Reference Market-maker to enter into a transaction (the "Replacement Transaction") that would have the effect of preserving for the City the economic equivalent of any payment by the parties under the Terminated Portion that would, but for the occurrence of such Optional Conversion Date, have been required after that date, divided by (ii) the notional amount of the Terminated Portion. For this purpose, unpaid amounts in respect of the Terminated Portion are to be excluded but, without limitation, any payment or delivery that would, but for the Optional Conversion Date, have been required thereafter is to be included. The Replacement Transaction would be subject to such documentation as the City and the Reference Market-maker may, in good faith, agree. The City (or its agent) will request each Reference Market-maker to provide its quotation to the extent reasonably practicable as of the same day and time (without regard to different time zones) on the Optional Conversion Date. The City shall obtain such quotations no later than 2:00 P.M., New York City time, on the Notice Date. If more than three quotations are provided, the Market Quotation will be the arithmetic mean of the quotations, without regard to the quotations having the highest and lowest values. If exactly three such quotations are provided, the Market Quotation will be the quotation remaining after disregarding the highest and lowest quotations. For this purpose, if more than one quotation has the same highest value or lowest value, then one of such quotations shall be disregarded. If fewer than three quotations are provided, the Market Quotation shall be the arithmetic mean of the quotations provided, if two quotations are provided, or the quotation, if one quotation is provided.

Maximum Variable Rate: For the Inverse Floating Rate Notes, the IFRN Pre-Conversion Fixed Level minus the Minimum Inverse Floating Rate.

Minimum Inverse Floating Rate: For the Inverse Floating Rate Notes, the minimum rate payable on such Inverse Floating Rate Notes, as indicated on the inside of the cover page of this Official Statement.

Optional Conversion Date: Any Business Day prior to the Scheduled Conversion Date on which the interest rate payable on any Inverse Floating Rate Note is converted to the applicable Adjusted Rate.

Owner: The owner of an Inverse Floating Rate Note, and for so long as a securities depository is the registered owner of the Inverse Floating Rate Notes, the beneficial owner of an Inverse Floating Rate Note.

Participant: Direct participants in DTC and such securities brokers and dealers, banks, and trust companies that, either directly or indirectly, clear through or maintain a custodial relationship with such direct participants.

Rate Adjustment: In respect of any Inverse Floating Rate Note converted on an Optional Conversion Date to the Adjusted Rate, the fixed per annum rate, as determined by the Inverse Floating Rate Market Agent, (A) if the related Series Transaction Supplement, or Substitute Series Transaction Supplement, is in effect, applied to calculate the amount payable by LBSF to the City (a positive rate) or by the City to LBSF (a negative rate) on each payment date under the related Series Transaction Supplement, or Substitute Series Transaction Supplement, in consideration of the reduction in the notional amount of the related Series Transaction Supplement, or Substitute Series Transaction Supplement, as a result of such conversion or (B) if the related Series Transaction Supplement, or Substitute Series Transaction Supplement, is not in effect, equal to the Market Quotation.

Record Date: The last Business Day of the calendar month next preceding the Interest Payment Date.

Reference Banks: Four major banks in the London interbank market.

Reference Market-makers: Four leading dealers in the dollar rate swap market selected by the City determining a Market Quotation in good faith from among dealers having a credit standing which satisfies all the criteria that the City applies generally at the time in deciding whether to offer or to make an extension of credit.

Reset Business Day: Any day on which commercial banks are open for business (including dealings in foreign exchange and foreign currency deposits) in the City of London.

Reset Date: Each Reset Business Day (and, if the Effective Date is a day other than a Reset Business Day, the Reset Business Day next preceding the Effective Date), except that the LIBOR Rate for each Reset Business Day occurring during the period commencing on the day five (5) days before (or if such day is not a Reset Business Day, the first preceding Reset Business Day)(the "Rate Cut-off Date"), and ending on the day prior to any Interest Payment Date will (solely for purposes of calculating the LIBOR Rate on the next Interest Payment Date) be deemed to be the LIBOR Rate in effect on the Rate Cut-off Date.

Scheduled Conversion Date: The date as of which the Inverse Floating Rate Notes cease bearing interest at the Inverse Floating Rate and commence bearing interest at the Conversion Fixed Rate, as indicated on the inside cover page of this Official Statement.

Series Transaction Supplement: The transaction entered into between the City and LBSF, dated August 12, 1993, pursuant to the LBSF Facilitation Agreement, allocated to the Inverse Floating Rate Notes, with a notional amount equal to the principal amount of Inverse Floating Rate Notes.

Telerate: The display page so designated on the Dow Jones Telerate Service (or such other page as may replace that page on that service, or such other service as may be nominated as the information vendor, for the purpose of displaying rates or prices comparable to the LIBOR Rate).

Variable Rate: In respect of any Calculation Period, a per annum rate equal to the Factor times the arithmetic mean of the LIBOR Rate in effect for each Reset Date in that Calculation Period, provided that the Variable Rate for any Calculation Period shall not exceed the Maximum Variable Rate.

INDEXED INVERSE FLOATER SECURITIES

The Indexed Inverse Floater Securities are subject to the provisions summarized below. Capitalized terms used under this caption "INDEXED INVERSE FLOATER SECURITIES" which are not otherwise defined in the Official Statement are defined in "APPENDIX I—INDEXED INVERSE FLOATER SECURITIES—DEFINITIONS".

The Indexed Inverse Floater Securities will be executed and delivered as fully registered Bonds in Authorized Denominations of: (1) until the Scheduled Conversion Date indicated on the inside cover page of this Official Statement (the "Scheduled Conversion Date") or the optional conversion thereof on the Optional Conversion Date, if any, described below under the caption "The Indexed Inverse Floater Securities" (collectively, the "Conversion Dates"), \$100,000 and any integral multiple of \$5,000 in excess thereof, and (2) thereafter, \$5,000 or any integral multiple thereof. Ownership interests may be acquired in book-entry form only. See "Section II: The Bonds—Book-Entry Only System".

Interest on the Indexed Inverse Floater Securities will be payable in arrears on February 15 and August 15 of each year commencing February 15, 1994 to the Owners thereof as of the last Business Day of the month preceding each February 15 and August 15. From the Effective Date through the day prior to the applicable Conversion Date interest, calculated on the basis of a 360-day year consisting of twelve 30-day months, will accrue for each Calculation Period at a per annum rate equal to the IIFS Pre-Conversion Fixed Level indicated on the inside cover page of this Official Statement (the "IIFS Pre-Conversion Fixed Level"), calculated on the basis of a 360-day year of twelve 30-day months, minus a variable rate (the "Variable Rate"), computed using a year of 365 or 366 days and actual days elapsed, provided, that the rate so determined shall not be less than the Minimum Indexed Floater Rate indicated on the inside cover page of this Official Statement (the "Minimum Indexed Floater Rate"). From and after the Interest Payment Date next preceding the Optional Conversion Date, if any, through the Scheduled Conversion Date therefor, the interest rate on the Indexed Inverse Floater Securities will be the applicable Adjusted Rate, with interest calculated on the basis of a 360-day year consisting of twelve 30-day months. From and after the Scheduled Conversion Date, the interest rate on the Indexed Inverse Floater Securities will be the Conversion Fixed Rate indicated on the inside cover page of this Official Statement (the "Conversion Fixed Rate") and will be computed using a year of 360 days comprising twelve 30-day months.

Interest shall be payable on the Indexed Inverse Floater Securities on each Interest Payment Date by check mailed to the registered owner at his or her address as it appears on the registration books of the City as of the close of business on the appropriate Record Date; provided, that (i) while a securities depository is the registered owner of all of the Indexed Inverse Floater Securities, all payments of principal of and interest on such Indexed Inverse Floater Securities shall be paid to the securities depository or its nominee by wire transfer and (ii) interest on the Indexed Inverse Floater Securities shall be payable to any registered owner of at least \$1,000,000 principal amount of Indexed Inverse Floater Securities by wire transfer, upon written notice received by the Fiscal Agent at least 5 days prior to the Record Date from such registered owner containing the wire transfer address (which shall be in the continental United States) to which such registered owner wishes to have such wire directed.

Any Owner of the Indexed Inverse Floater Securities may elect, subject to certain conditions, prior to the Scheduled Conversion Date to convert the interest rate on such Owner's Indexed Inverse Floater Securities to the applicable Adjusted Rate, as described below under the caption "THE INDEXED INVERSE FLOATER SECURITIES—Optional Conversion of the Indexed Inverse Floater Securities".

The Variable Rate for each Calculation Period shall be equal to the Factor times the weighted daily average of the Kenny Index Rate computed using a year of 365 or 366 days and actual days elapsed. The Variable Rate for any Calculation Period may not exceed the Maximum Variable Rate.

The Kenny Index Rate shall be the index generally made available each Tuesday by Kenny Information Systems or any successor indexing agent (the "Indexing Agent"). The Kenny Index Rate shall be based upon

30-day yield evaluations at par of bonds, the interest on which is exempt from federal income taxation, of not less than five "high grade" component issuers selected by the Indexing Agent which shall include, without limitation, issuers of general obligation bonds. The specific issuers included among the component issuers may be changed from time to time by the Indexing Agent in its discretion. The bonds on which the Kenny Index Rate is based shall not include any securities the interest on which is subject to a "minimum tax" or similar tax under the Internal Revenue Code, unless all tax-exempt securities are subject to such tax.

In the event that the Indexing Agent no longer publishes an index satisfying the definition of the Kenny Index Rate or if the Indexed Floater Rate Market Agent, initially Artemis Capital Group, Inc., reasonably concludes that the Kenny Index Rate will not be announced in a timely manner, then the Indexed Floater Rate Market Agent shall announce a rate, determined in its sole discretion, equal to the prevailing rate determined by the Indexed Floater Rate Market Agent for bonds rated in the highest short-term rating category by Moody's Investors Service and Standard & Poor's Corporation in respect of issuers resembling the component issuers selected by Kenny Information Systems that are subject to tender by holders thereof for purchase on not more than 7 days' notice and the interest on which is (a) variable on a weekly basis, (b) excludable from gross income for federal income tax purposes, and (c) not subject to a "minimum tax" or similar tax unless all tax-exempt bonds are subject to such tax.

Prospective Owners of the Indexed Inverse Floater Securities should note that because the interest rate on the Indexed Inverse Floater Securities prior to the applicable Conversion Date will be determined by subtracting the Variable Rate from a fixed amount, the interest rate on the Indexed Inverse Floater Securities prior to the applicable Conversion Date will:

decrease as the Variable Rate increases, and

increase as the Variable Rate decreases.

In addition, as a result, the interest rate with respect to the Indexed Inverse Floater Securities prior to the applicable Conversion Date will equal the Minimum Indexed Floater Rate if the Variable Rate is equal to or greater than the Maximum Variable Rate for such maturity.

The Indexed Floater Rate on the Indexed Inverse Floater Securities shall not exceed the IIFS Pre-Conversion Fixed Level.

SBCM Facilitation Agreement. Simultaneously with, and as a condition to, the delivery of the Indexed Inverse Floater Securities, the City will enter into an Agreement to Facilitate the Issuance, Sale and Payment of Bonds (the "SBCM Facilitation Agreement") and pursuant thereto will enter into a series transaction supplement (the "Series Transaction Supplement") with Sumitomo Bank Capital Markets, Inc. ("SBCM"), a wholly owned subsidiary of The Sumitomo Bank, Limited, on a notional amount equal to the principal amount of Indexed Inverse Floater Securities, for the period to the Scheduled Conversion Date. The SBCM Facilitation Agreement is not a contract for the benefit of bondholders. Owners of the Indexed Inverse Floater Securities, or of other Bonds, should not assume that any such agreement will be in effect at any time.

The Indexed Inverse Floater Securities will be subject to optional redemption as described in "SECTION II: THE BONDS—Optional Redemption".

Additional Considerations

Prospective Owners of the Indexed Inverse Floater Securities should note that the prices at which leveraged instruments, such as the Indexed Inverse Floater Securities prior to the applicable Conversion Date, may trade in secondary markets can be expected to fluctuate more in relation to general changes in the interest rates for long-term fixed rate securities than prices of conventional interest bearing securities of comparable maturities. Thus increases or decreases in the general level of interest rates can be expected to result in greater movements in the prices of the Indexed Inverse Floater Securities than in the prices of conventional securities.

Optional Conversion of the Indexed Inverse Floater Securities

On any Business Day prior to the applicable Scheduled Conversion Date, an Owner of Indexed Inverse Floater Securities may elect, subject to certain conditions, to convert the interest rate payable on not less than \$3,000,000 principal amount of such Indexed Inverse Floater Securities to the applicable Adjusted Rate.

Such election shall be made by delivery by the Owner of such Indexed Inverse Floater Security of notice, which notice may be in writing or telephonically communicated, to the Indexed Floater Rate Market Agent by 11:00 A.M., New York City time, on the Business Day prior to the proposed Optional Conversion Date (the "Notice Date") specifying (i) the principal amount of Indexed Inverse Floater Securities to be converted, (ii) the proposed Optional Conversion Date, (iii) the method by which the Indexed Floater Rate Market Agent will be able to contact such Owner between 11:00 A.M. and 2:00 P.M., New York City time, on the Notice Date and (iv) evidence satisfactory to the Indexed Floater Rate Market Agent that such Owner is the Owner of the Indexed Inverse Floater Securities being converted.

Prior to 2:00 P.M., New York City time, on the Notice Date, the Indexed Floater Rate Market Agent shall determine (i) whether the conditions for the conversion of Indexed Inverse Floater Securities have been met, (ii) the Optional Conversion Date and (iii) the applicable Adjusted Rate, and shall make reasonable efforts to advise the Owner using the method specified in the notice, as to such determinations. Any determination made by the Indexed Floater Rate Market Agent pursuant to this paragraph shall be binding, until 3:00 P.M., New York City time, on the Notice Date, provided there shall have been no material adverse change in the market for interest rate exchange agreements based on tax-exempt market interest rates prior to such time. If, in the exclusive judgment of the Indexed Floater Rate Market Agent, which judgment may not be exercised arbitrarily, such material adverse change shall have occurred, the Indexed Floater Rate Market Agent shall rescind such determination by not providing the telephonic confirmation referred to in the following paragraph.

The Owner shall provide telephonic notice to the Indexed Floater Rate Market Agent of its offer to convert its Indexed Inverse Floater Securities to the Adjusted Rate so determined not later than 3:00 P.M., New York City time, on the Notice Date. Such notice shall be irrevocable; provided that, the conversion shall be effective only if the Indexed Floater Rate Market Agent shall, by telephone, confirm its acceptance of the Adjusted Rate. Immediately following such confirmation, the Owner shall, in the event that the Indexed Inverse Floater Securities are registered in the name of Cede & Co., as nominee for DTC, provide the Participant through which such Owner holds such Indexed Inverse Floater Securities, irrevocable written notice to convert the interest rate on such Indexed Inverse Floater Securities.

Not later than 5:00 P.M., New York City time, on the Notice Date, the Owner shall provide to the City, the Fiscal Agent and the Indexed Floater Rate Market Agent irrevocable written notice (i) specifying the converted Indexed Inverse Floater Securities, (ii) acknowledging that such Indexed Inverse Floater Securities bear interest at the Adjusted Rate, and (iii) providing evidence satisfactory to the Indexed Floater Rate Market Agent (x) that such Owner is the Owner of the converted Indexed Inverse Floater Securities and (y) in the event that the Indexed Inverse Floater Securities are registered in the name of Cede & Co., as nominee for DTC, that there shall have been provided to the Participant through which such Owner holds such Indexed Inverse Floater Security, irrevocable written notice to convert the interest rate on such Indexed Inverse Floater Security or authorizing the Indexed Floater Rate Market Agent, to provide such notice, or in any other event, that the Owner shall surrender for conversion its Indexed Inverse Floater Security. Failure by the Owner to deliver the notice described in the preceding sentence shall not affect the conversion made in the telephonic notice provided by the Owner in the next preceding paragraph.

Notwithstanding anything to the contrary contained under this caption "Optional Conversion of the Indexed Inverse Floater Securities," the Optional Conversion Date for any Indexed Inverse Floater Security for which the Owner has provided notice of conversion during the period beginning on the Record Date and ending on the next succeeding Interest Payment Date shall be a date not earlier than such next succeeding Interest Payment Date.

In addition, no Indexed Inverse Floater Security shall be converted to the applicable Adjusted Rate at the election of the Owner thereof if (i) the Rate Adjustment cannot be determined because (A) in the event that the related Series Transaction Supplement, or a Substitute Series Transaction Supplement, is in effect, the City and SBCM, or the City and the relevant financial institution with respect to a Substitute Series Transaction Supplement, fail to agree to the termination of a ratable portion of the related Series Transaction Supplement or (B) in the event that the related Series Transaction Supplement, or a Substitute Series Transaction Supplement, is not in effect, the City is unable to determine the Market Quotation or (ii) prior to such conversion there shall have occurred the enactment, promulgation, execution or ratification of, or any change in or amendment to, any law, regulation or ruling (or in the application or official interpretation of any law, regulation or ruling) as a result of which the City shall no longer be in receipt of an opinion of nationally recognized bond counsel to the effect that a conversion of any Indexed Inverse Floater Security would not cause the interest payable on any of the Bonds to cease to be excludable from gross income for federal income tax purposes. The City shall immediately notify the Indexed Floater Rate Market Agent if no Indexed Inverse Floater Securities shall be converted because of the satisfaction of the condition described in clause (ii) of the preceding sentence. Bond Counsel have no obligation to update their opinions given at the delivery of the Bonds.

The Internal Revenue Service has issued proposed regulations, which were published in the Federal Register on December 2, 1992, that may, if adopted in their current form, restrict the right of Owners to convert Indexed Inverse Floater Securities in certain circumstances. The regulations, if adopted, would apply only to conversions occurring 30 days or more after publication of the regulations as final. Under the proposed regulations, significant alterations to any debt instrument may cause it to be treated as a reissued debt instrument for federal income tax purposes. Although it is not clear, it is possible that the exercise of the option to convert an Indexed Inverse Floater Security may cause it to be treated as reissued under the proposed regulations. If the converted Indexed Inverse Floater Security were considered to be reissued, the Owner would recognize gain or loss measured by the market value of the converted Indexed Inverse Floater Security. In addition, if the treatment of the converted Indexed Inverse Floater Security as a reissued obligation would cause interest on the Bonds to be includable in gross income for federal income tax purposes, e.g., if there were a change in law adversely affecting the reissuance of the Bonds, the conversion would not be permitted. For additional information that may affect certain Owners of the Indexed Inverse Floater Securities, see "SECTION IX: OTHER INFORMATION—Tax Exemption".

The City and SBCM have agreed, pursuant to the SBCM Facilitation Agreement, to terminate the Series Transaction Supplement in a notional principal amount corresponding to the face amount of the Indexed Inverse Floater Securities being converted. Any such termination of such portion of such Series Transaction Supplement is expressly conditioned on the following:

- (a) SBCM is actively involved in the business of executing interest rate swap transactions on the basis of tax-exempt market interest rates;
- (b) SBCM arranges, in light of then current market conditions, terms for such termination financially and otherwise acceptable to the City and SBCM, and the City consents to such terms, which consent shall not be unreasonably withheld; and
 - (c) such other factors as affect SBCM's willingness to enter into Series Transaction Supplements.

There can be no assurance that any substitute facilitation agreement will contain the same conditions as the SBCM Facilitation Agreement or that the City will be able to obtain any quotations from Reference Market-makers to determine the Market Quotation.

Prospective Owners of the Indexed Inverse Floater Securities should note that it is not possible to determine at this time the amount of the Adjusted Rate or the Rate Adjustment. Both are subject to conditions in the market for interest rate exchange transactions based on tax-exempt market interest rates at the time of conversion. The Rate Adjustment is expected, however, to approximate the replacement cost for SBCM and the City of the notional amount of the Series Transaction Supplement being adjusted in conjunction with such conversion. Such replacement cost is expected to be approximately equal to the cost of preserving for SBCM and the City the economic equivalent of the payment obligations of SBCM and the

City following the Optional Conversion Date. If a Rate Adjustment is positive, the Adjusted Rate will be in excess of the Conversion Fixed Rate; however, if the Rate Adjustment is negative, the Adjusted Rate will be less than the Conversion Fixed Rate.

Generally, upon the conversion of an Indexed Inverse Floater Security, (i) the Adjusted Rate will exceed the Conversion Fixed Rate if fixed payor rates in the market for interest rate exchange transactions based on tax-exempt market interest rates are less than the result obtained by dividing the difference obtained by subtracting the Conversion Fixed Rate from the IIFS Pre-Conversion Fixed Level for such Indexed Inverse Floater Security by the Factor and (ii) the Adjusted Rate will be less than the Conversion Fixed Rate if fixed payor rates in the market for interest rate exchange transactions based on tax-exempt market interest rates exceed the result obtained by dividing the difference obtained by subtracting the Conversion Fixed Rate from the IIFS Pre-Conversion Fixed Level for such Indexed Inverse Floater Security by the Factor.

In no event shall the rate of interest on the Indexed Inverse Floater Securities exceed the IIFS Pre-Conversion Fixed Level.

In addition, Prospective Owners of the Indexed Inverse Floater Securities should note that:

- (i) pursuant to the SBCM Facilitation Agreement, SBCM and the City have agreed that if the conditions specified above with respect to the termination of the Series Transaction Supplement are satisfied, they will arrange for such termination on a best efforts basis; and
- (ii) although the Rate Adjustment applicable upon an Optional Conversion of any Indexed Inverse Floater Security to the applicable Adjusted Rate cannot be determined at this time, such adjustment could, under certain market conditions described above, be substantial.

Prospective Owners of the Indexed Inverse Floater Securities should consult their financial advisors regarding the consequences of conversion.

Defeasance

For the purpose of determining whether the Indexed Inverse Floater Securities shall be deemed to have been defeased, the interest to come due on such Indexed Inverse Floater Securities shall be calculated at the maximum applicable rate; and if, as a result of such Indexed Inverse Floater Securities having borne interest at less than the maximum rate for any period, the total amount on deposit for the payment of interest on such Indexed Inverse Floater Securities exceeds the total amount required, the balance shall be paid to the City. In addition, the Indexed Inverse Floater Securities shall be deemed defeased only if there shall have been deposited money in an amount sufficient for the timely payment of the maximum amount of principal of and interest on such Indexed Inverse Floater Securities that could become payable to the Owners thereof upon the exercise of any election to convert the interest rate payable on such Indexed Inverse Floater Securities to the Adjusted Rate.

Termination or Substitution of Series Transaction Supplement

The City agrees that it will not terminate the Series Transaction Supplement or allow SBCM to terminate the Series Transaction Supplement other than (i) in the case of SBCM, upon the exercise of its rights pursuant to the terms of the SBCM Facilitation Agreement or (ii) upon an optional conversion of the Indexed Inverse Floater Securities, unless the City shall have received an opinion of nationally recognized bond counsel to the effect that such termination will not cause interest on the Bonds to be includable in gross income for federal income tax purposes.

In the event of an early termination of the Series Transaction Supplement, the City agrees to make Reasonable Efforts to obtain a substitute series transaction supplement (a "Substitute Series Transaction Supplement") which shall be on substantially the same terms and conditions as the terminated Series Transaction Supplement. No assurance can be given that a Substitute Series Transaction Supplement will be obtained. The Indexed Inverse Floater Securities will continue to bear interest as set forth above following such termination without regard for whether the City obtains a Substitute Series Transaction Supplement.

"Reasonable Efforts" by the City to find a Substitute Series Transaction Supplement shall mean that no later than two Business Days following the termination, the City shall distribute or cause to be distributed by mail or facsimile transmission a request for a Substitute Series Transaction Supplement to at least four financial institutions whose credit standing is acceptable to the City and which are known to be active in the swap market, such notice requiring that such institutions respond to the City within 5 days from the date on which such notice was sent by the City with quotations to provide a Substitute Series Transaction Supplement.

If the City receives at least one quotation for a Substitute Series Transaction Supplement at a cost that will not exceed the termination payment to be received by the City as a result of the early termination of the prior Series Transaction Supplement, the City will be obligated to take the necessary action to implement such Substitute Series Transaction Supplement as soon as practicable. If the City does not receive at least one quotation for a Substitute Series Transaction Supplement at a cost that will not exceed the termination payment to be received by the City as a result of the early termination of the prior Series Transaction Supplement, the City will either (i) replace the Series Transaction Supplement with a Substitute Series Transaction Supplement that will cost more than any termination payment to be received by the City or (ii) elect not to replace the Series Transaction Supplement.

If the City replaces the terminated Series Transaction Supplement, but the cost of any Substitute Series Transaction Supplement is less than the amount received on the termination of the prior Series Transaction Supplement, the City shall be entitled to keep the difference, provided that, within 30 days of the receipt of such payment the City shall have received an opinion of counsel nationally recognized on the subject of municipal bonds to the effect that such retainage will not cause interest on the Bonds to be includable in gross income for federal income tax purposes. If the City cannot obtain such opinion then it may elect to seek a private letter ruling from the Internal Revenue Service to the effect that such retainage will not cause interest on the Bonds to be includable in gross income for federal income tax purposes. If the City cannot obtain such private letter ruling within one year of the receipt of such payment, or if the City elects not to seek or pursue such private letter ruling, then the City shall pay to the Owners of the Indexed Inverse Floater Securities, as additional interest, on the interest payment date next succeeding the earlier of (i) the date on which the City elected not to seek or pursue such private letter ruling or (ii) the date that is one year after the receipt of the termination payment, the amount of any such savings, together with any investment earnings thereon.

In the event the City elects not to replace the terminated Series Transaction Supplement, any termination payment received by it from SBCM, together with any investment earnings thereon, shall be held by the City and shall be used to pay interest on the Indexed Inverse Floater Securities to the extent the interest rate on the Indexed Inverse Floater Securities exceeds the Conversion Fixed Rate at any time after the termination of the Series Transaction Supplement. On the Scheduled Conversion Date, the City shall be entitled to keep any remaining portion of the termination payment or the investment earnings thereon provided that the City shall have received an opinion of counsel nationally recognized on the subject of municipal bonds or a private letter ruling from the Internal Revenue Service to the effect that such retainage will not cause interest on the Bonds to be includable in gross income for federal income tax purposes. If the City has not obtained such opinion or private letter ruling on or before the Scheduled Conversion Date, any such remaining moneys including any investment earnings thereon, shall be paid to the Owners of the Indexed Inverse Floater Securities, as additional interest, on the Scheduled Conversion Date.

INDEXED INVERSE FLOATER SECURITIES—DEFINITIONS

As used in "Appendix H—INDEXED INVERSE FLOATER SECURITIES", the following terms have the meanings set forth below:

Adjusted Rate: The interest rate on any Indexed Inverse Floater Securities converted on an Optional Conversion Date for the period beginning on the Interest Payment Date next preceding such Optional Conversion Date (or, (i) if the Optional Conversion Date occurs prior to the Record Date immediately preceding the first Interest Payment Date, the Effective Date or (ii) if the Optional Conversion Date is an Interest Payment Date, such Interest Payment Date) and ending on, but not including, the Scheduled Conversion Date, which interest rate shall equal the Conversion Fixed Rate plus the Rate Adjustment for such Indexed Inverse Floater Security.

Authorized Denomination: The authorized denominations of the Indexed Inverse Floater Securities which shall be \$100,000 and any integral multiple of \$5,000 in excess thereof during the period commencing on the Effective Date and ending on the Conversion Date and shall be \$5,000 or any integral multiple thereof during the period after the Conversion Date.

Business Day: Any day other than a Saturday, a Sunday, a day on which commercial banks in New York City are required to be closed or a day on which the New York Stock Exchange is closed.

Calculation Period: Each period from, and including, one Interest Payment Date for the Indexed Inverse Floater Securities to, but excluding, the next following Interest Payment Date therefor, except that the initial Calculation Period will commence on and include the Effective Date and end on, but exclude, the first Interest Payment Date for the Indexed Inverse Floater Securities.

Conversion Date: For each Indexed Inverse Floater Security, the Scheduled Conversion Date or the Optional Conversion Date on which the interest rate on such Indexed Inverse Floater Security is converted to the Conversion Fixed Rate or the applicable Adjusted Rate, as the case may be.

Conversion Fixed Rate: For the Indexed Inverse Floater Securities, the interest rate on the Indexed Inverse Floater Securities on and after the Scheduled Conversion Date, as indicated on the inside of the cover page of this Official Statement.

Effective Date: The first date from which the Indexed Inverse Floater Securities bear interest, which shall be the date of their respective original issuance and delivery.

Factor: For the Indexed Inverse Floater Securities, the factor on the Indexed Inverse Floater Securities, as indicated on the inside cover page of this Official Statement.

IIFS Pre-Conversion Fixed Level: For the Indexed Inverse Floater Securities, the interest rate per annum indicated on the inside cover page of this Official Statement.

Indexed Floater Rate: For the Indexed Inverse Floater Securities, a per annum rate equal to the IIFS Pre-Conversion Fixed Level minus the Variable Rate.

Indexed Floater Rate Market Agent: Initially Artemis Capital Group, Inc. (Attention: Municipal Bond Department, 65 East 55th Street, 9th Floor, New York, New York 10022, Senior Manager, Municipal Bond Trading, Telephone: (212) 593-2317, Telecopy: (212) 593-2326, or such other number as Artemis Capital Group, Inc. shall designate to the City), or any successor thereto, or any successor Indexed Floater Rate Market Agent appointed by the City and, if there are no Series Transaction Supplements in effect, the City.

Indexed Inverse Floater Security: Any Bond that bears interest at the applicable Indexed Floater Rate to the applicable Conversion Date and at the Conversion Fixed Rate thereafter.

Kenny Index Rate: For any day, a per annum rate equal to:

- (a) (i) If such day is a Reset Date, the index generally made available by Kenny Information Systems or any successor indexing agent hereunder (the "Indexing Agent"). The Kenny Index Rate shall be based upon 30-day yield evaluations at par of bonds, the interest on which is excludable from gross income for federal income tax purposes under the Internal Revenue Code, of not less than five "high grade" component issuers selected by the Indexing Agent which shall include, without limitation, issuers of general obligation bonds. The specific issuers included among the component issuers may be changed from time to time by the Indexing Agent in its discretion. The bonds on which the index is based shall not include any bonds the interest on which is subject to any "minimum tax" or similar tax, unless all tax-exempt bonds are subject to such tax.
- (ii) If the Indexing Agent no longer publishes an index satisfying the requirements of the preceding paragraph, the Indexed Floater Rate Market Agent shall be appointed as the successor Indexing Agent hereunder and shall determine, in its sole discretion, the Kenny Index Rate on each Reset Date. The Kenny Index Rate so determined shall equal the prevailing rate determined by the Indexing Agent for bonds that are rated in the highest short-term rating category by Moody's Investors Service and Standard & Poor's Corporation in respect of issuers resembling the component issuers to have been selected by Kenny Information Systems pursuant to clause (i) above and that are subject to tender by holders thereof for purchase on not more than seven (7) days' notice and the interest on which is (a) variable on a weekly basis, (b) excludable from gross income for federal income tax purposes, and (c) not subject to a "minimum tax" or similar tax unless all tax-exempt bonds are subject to such tax.
- (iii) If such day is not a Reset Date, the Kenny Index Rate determined pursuant to clauses (i) or (ii) above for the next preceding Reset Date.
- (b) If the Indexing Agent fails or is unable to make available the Kenny Index Rate for any Reset Date or the Indexed Floater Rate Market Agent reasonably concludes that the Kenny Index Rate will not be announced in a timely manner, the Indexed Floater Rate Market Agent shall determine the Kenny Index Rate for each day in the manner specified in clause (a) (ii) above until the Indexing Agent makes available the Kenny Index Rate.

Market Quotation: With respect to that portion of a transaction supplement with the same terms as the related Series Transaction Supplement, or Substitute Series Transaction Supplement, in a notional amount equal to the principal amount of the Indexed Inverse Floater Securities being converted (the "Terminated Portion"), an annual percentage determined on the basis of quotations from Reference Market-makers. Each quotation will be for a percentage equal to (i) the amount, if any, that would be paid semiannually on each Interest Payment Date on or prior to the Scheduled Conversion Date to the City (expressed as a negative number) or by the City (expressed as a positive number) in consideration of an agreement between the City and the quoting Reference Market-maker to enter into a transaction (the "Replacement Transaction") that would have the effect of preserving for the City the economic equivalent of any payment by the parties under the Terminated Portion that would, but for the occurrence of such Optional Conversion Date, have been required after that date, divided by (ii) the notional amount of the Terminated Portion. For this purpose, unpaid amounts in respect of the Terminated Portion are to be excluded but, without limitation, any payment or delivery that would, but for the Optional Conversion Date, have been required thereafter is to be included. The Replacement Transaction would be subject to such documentation as the City and the Reference Market-maker may, in good faith, agree. The City (or its agent) will request each Reference Market-maker to provide its quotation to the extent reasonably practicable as of the same day and time (without regard to different time zones) on the Optional Conversion Date. The City shall obtain such quotations no later than 2:00 P.M., New York City time, on the Notice Date. If more than three quotations are provided, the Market Quotation will be the arithmetic mean of the quotations, without regard to the quotations having the highest and lowest values. If exactly three such quotations are provided, the Market Quotation will be the quotation remaining after disregarding the highest and lowest quotations. For this purpose, if more than one quotation has the same highest value or lowest value, then one of such

quotations shall be disregarded. If fewer than three quotations are provided, the Market Quotation shall be the arithmetic mean of the quotations provided, if two quotations are provided, or the quotation, if one quotation is provided.

Maximum Variable Rate: For the Indexed Inverse Floater Securities, the IIFS Pre-Conversion Fixed Level minus the Minimum Indexed Floater Rate.

Minimum Indexed Floater Rate: For the Indexed Inverse Floater Securities, the minimum rate payable on such Indexed Inverse Floater Securities, as indicated on the inside cover page of this Official Statement.

Optional Conversion Date: Any Business Day prior to the Scheduled Conversion Date on which the interest rate payable on any Indexed Inverse Floater Security is converted to the applicable Adjusted Rate.

Owner: The owner of an Indexed Inverse Floater Security, and for so long as a securities depository is the registered owner of the Indexed Inverse Floater Securities, the beneficial owner of an Indexed Inverse Floater Security.

Participant: Direct participants in DTC and such securities brokers and dealers, banks, and trust companies that, either directly or indirectly, clear through or maintain a custodial relationship with such direct participants.

Rate Adjustment: In respect of any Indexed Inverse Floater Security converted on an Optional Conversion Date to the Adjusted Rate, the fixed per annum rate, as determined by the Indexed Floater Rate Market Agent, (A) if the related Series Transaction Supplement, or Substitute Series Transaction Supplement, is in effect, applied to calculate the amount payable by SBCM to the City (a positive rate) or by the City to SBCM (a negative rate) on each payment date under the related Series Transaction Supplement, or Substitute Series Transaction Supplement, in consideration of the reduction in the notional amount of the related Series Transaction Supplement, or Substitute Series Transaction Supplement, as a result of such conversion or (B) if the related Series Transaction Supplement, or Substitute Series Transaction Supplement, is not in effect, equal to the Market Quotation.

Record Date: The last Business Day of the calendar month next preceding the Interest Payment Date.

Reference Market-makers: Four leading dealers in the dollar rate swap market selected by the City determining a Market Quotation in good faith from among dealers having a credit standing which satisfies all the criteria that the City applies generally at the time in deciding whether to offer or to make an extension of credit.

Reset Date: Each Tuesday (and, if the Effective Date is a day other than a Tuesday, the Tuesday next preceding the Effective Date) or, if any Tuesday is not a Business Day, the first succeeding Business Day, except that the Kenny Index Rate for each Reset Date occurring during the period commencing seven (7) days before (the "Rate Cut-off Date") and ending on the day prior to any Interest Payment Date will (solely for purposes of calculating the Kenny Index Rate on the next Interest Payment Date) be deemed to be the Kenny Index Rate in effect on that Rate Cut-off Date.

SBCM: Sumitomo Bank Capital Markets, Inc., a wholly owned subsidiary of The Sumitomo Bank, Limited, a corporation organized and existing under the laws of Japan.

SBCM Facilitation Agreement: The Agreement to Facilitate the Issuance, Sale and Payment of Bonds, dated as of August 12, 1993, between the City and SBCM.

Scheduled Conversion Date: The date as of which the Indexed Inverse Floater Securities cease bearing interest at the Indexed Floater Rate and commence bearing interest at the Conversion Fixed Rate, as indicated on the inside cover page of this Official Statement.

Series Transaction Supplement: The transaction entered into between the City and SBCM, dated August 12, 1993, pursuant to the SBCM Facilitation Agreement, allocated to Indexed Inverse Floater Securities, with a notional amount equal to the principal amount of the Indexed Inverse Floater Securities.

Variable Rate: In respect of any Calculation Period, a per annum rate equal to the Factor times the arithmetic mean of the Kenny Index Rate in effect for each day in that Calculation Period, calculated by multiplying the Factor times each such Kenny Index Rate by the number of days such Kenny Index Rate is in effect, determining the sum of such products and dividing such sum by the number of days in the Calculation Period, provided that the Variable Rate for any Calculation Period shall not exceed the Maximum Variable Rate.

August 18, 1993

HONORABLE ELIZABETH HOLTZMAN Comptroller The City of New York Municipal Building New York, New York 10007

Dear Comptroller Holtzman:

We have acted as bond counsel in connection with the issuance on this date by The City of New York (the "City"), a municipal corporation of the State of New York (the "State"), of \$410,000,000 General Obligation Bonds, Fiscal 1994 Series B (the "Bonds").

The Bonds are issued pursuant to the provisions of the Constitution of the State, the Local Finance Law of the State, and the Charter of the City, and in accordance with a certificate (the "Certificate") of the Acting Deputy Comptroller for Finance of the City dated the date hereof.

Based on our examination of existing law, such legal proceedings and such other documents as we deem necessary to render this opinion, we are of the opinion that:

- 1. The Bonds have been duly authorized, executed and issued in accordance with the Constitution and statutes of the State and the Charter of the City and constitute valid and legally binding obligations of the City for the payment of which the City has validly pledged its faith and credit, and all real property within the City subject to taxation by the City is subject to the levy by the City of ad valorem taxes, without limit as to rate or amount, for payment of the principal of and interest on the Bonds.
- 2. Interest on the Bonds is exempt from personal income taxes imposed by the State or any political subdivision thereof, including the City.
- 3. Except as provided in the following sentence, interest on the Bonds is not includable in the gross income of the owners of the Bonds for purposes of Federal income taxation under existing law. Interest on the Bonds will be includable in the gross income of the owners thereof retroactive to the date of issue of the Bonds in the event of a failure by the City to comply with the applicable requirements of the Internal Revenue Code of 1986, as amended (the "Code"), and the covenants regarding use, expenditure and investment of bond proceeds and the timely payment of certain investment earnings to the

United States Treasury; and we render no opinion as to the exclusion from gross income of interest on the Bonds for Federal income tax purposes on or after the date on which any action is taken under the Certificate upon the approval of counsel other than ourselves.

- 4. Interest on the Bonds is not a specific preference item for purposes of the Federal individual or corporate alternative minimum tax. The Code contains other provisions that could result in tax consequences, upon which we render no opinion, as a result of ownership of such Bonds or the inclusion in certain computations (including without limitation those related to the corporate alternative minimum tax and environmental tax) of interest that is excluded from gross income.
- 5. The difference between the principal amount payable at maturity of the Bonds that bear interest at fixed rates and mature in 1998 and thereafter and the initial offering price of such Bonds to the public, represents original issue discount which is excluded from gross income for Federal income tax purposes to the same extent as interest on the Bonds. The Code further provides that such original issue discount excluded as interest accrues in accordance with a constant interest method based on the compounding of interest, and that a holder's adjusted basis for purposes of determining a holder's gain or loss on disposition of such Bonds will be increased by the amount of such accrued interest.

The opinions expressed herein are based on an analysis of existing laws, regulations, rulings and court decisions. Such opinions may be adversely affected by actions taken or events occurring, including a change in law, regulation or ruling (or in the application or official interpretation of any law, regulation or ruling) after the date hereof. We have not undertaken to determine, or to inform any person, whether such actions are taken or such events occur and we have no obligation to update this opinion in light of such actions or events.

The rights of the owners of the Bonds and the enforceability thereof may be subject to bankruptcy, insolvency, reorganization, moratorium and other similar laws affecting creditors' rights heretofore or hereafter enacted, to the extent constitutionally applicable, and the enforcement of related contractual and statutory covenants of the City and the State may also be subject to the exercise of the State's police powers and of judicial discretion in appropriate cases.

Very truly yours,

BARNES, McGHEE, NEAL, POSTON & SEGUE

HONORABLE ELIZABETH HOLTZMAN Comptroller The City of New York Municipal Building New York, New York 10007

Dear Comptroller Holtzman:

We have acted as bond counsel in connection with the issuance on this date by The City of New York (the "City"), a municipal corporation of the State of New York (the "State"), of \$410,000,000 General Obligation Bonds, Fiscal 1994 Series B (the "Bonds").

The Bonds are issued pursuant to the provisions of the Constitution of the State, the Local Finance Law of the State, and the Charter of the City, and in accordance with a certificate (the "Certificate") of the Acting Deputy Comptroller for Finance of the City dated the date hereof.

Based on our examination of existing law, such legal proceedings and such other documents as we deem necessary to render this opinion, we are of the opinion that:

- 1. The Bonds have been duly authorized, executed and issued in accordance with the Constitution and statutes of the State and the Charter of the City and constitute valid and legally binding obligations of the City for the payment of which the City has validly pledged its faith and credit, and all real property within the City subject to taxation by the City is subject to the levy by the City of ad valorem taxes, without limit as to rate or amount, for payment of the principal of and interest on the Bonds.
- 2. Interest on the Bonds is exempt from personal income taxes imposed by the State or any political subdivision thereof, including the City.
- 3. Except as provided in the following sentence, interest on the Bonds is not includable in the gross income of the owners of the Bonds for purposes of Federal income taxation under existing law. Interest on the Bonds will be includable in the gross income of the owners thereof retroactive to the date of issue of the Bonds in the event of a failure by the City to comply with the applicable requirements of the Internal Revenue Code of 1986, as amended (the "Code"), and the covenants regarding use, expenditure and investment of bond proceeds and the timely payment of certain investment earnings to the

United States Treasury; and we render no opinion as to the exclusion from gross income of interest on the Bonds for Federal income tax purposes on or after the date on which any action is taken under the Certificate upon the approval of counsel other than ourselves.

- 4. Interest on the Bonds is not a specific preference item for purposes of the Federal individual or corporate alternative minimum tax. The Code contains other provisions that could result in tax consequences, upon which we render no opinion, as a result of ownership of such Bonds or the inclusion in certain computations (including without limitation those related to the corporate alternative minimum tax and environmental tax) of interest that is excluded from gross income.
- 5. The difference between the principal amount payable at maturity of the Bonds that bear interest at fixed rates and mature in 1998 and thereafter and the initial offering price of such Bonds to the public, represents original issue discount which is excluded from gross income for Federal income tax purposes to the same extent as interest on the Bonds. The Code further provides that such original issue discount excluded as interest accrues in accordance with a constant interest method based on the compounding of interest, and that a holder's adjusted basis for purposes of determining a holder's gain or loss on disposition of such Bonds will be increased by the amount of such accrued interest.

The opinions expressed herein are based on an analysis of existing laws, regulations, rulings and court decisions. Such opinions may be adversely affected by actions taken or events occurring, including a change in law, regulation or ruling (or in the application or official interpretation of any law, regulation or ruling) after the date hereof. We have not undertaken to determine, or to inform any person, whether such actions are taken or such events occur and we have no obligation to update this opinion in light of such actions or events.

The rights of the owners of the Bonds and the enforceability thereof may be subject to bankruptcy, insolvency, reorganization, moratorium and other similar laws affecting creditors' rights heretofore or hereafter enacted, to the extent constitutionally applicable, and the enforcement of related contractual and statutory covenants of the City and the State may also be subject to the exercise of the State's police powers and of judicial discretion in appropriate cases.

Very truly yours,

		·
