

Project # SANDTWOB | Borough: Manhattan | Date Issued: 12/23/2022

The Brooklyn Bridge – Montgomery Street Coastal Resilience (BMCR)

Project is an initiative to provide long-term flood protection on the south side of Manhattan.

Mobilization begins on the Brooklyn Bridge - Montgomery Street Coastal Resiliency Project

Beginning week of January 9, 2023

Contractor will mobilize equipment and start their survey of the project area to prepare for upcoming construction along South Street. Construction staging area will be installed under the FDR Drive between Dover Street and Catherine Slip. Site survey work will commence at Clinton and South Streets and then continue throughout the project area.

The project will provide floodwalls, deployable gates, and flip-up barriers to protect the community from future flooding. Work also includes upgrades to water mains, sewers, and waterfront amenities.
