

Project # SANDTWOBOR | Borough: Manhattan Date Issued: 04/17/2026
 The Brooklyn Bridge - Montgomery Coastal Resilience (BMCR) Project is an initiative to provide long-term flood protection on the south side of Manhattan.

Esplanade Restoration from Market Slip to Pier 35

Beginning May 4, 2026, ongoing through mid-autumn 2026

To accommodate the final restoration of the esplanade, access to portions of the East River waterfront will be unavailable. This 24-hour-per-day esplanade closure allows for the completion of an enhanced finished product, including an expanded scope of landscaping & a variety of new amenities that will be open to the public once complete. Access to the waterfront remains available from Catherine Slip to Market Slip & at Pier 35 via Rutgers Slip. For your safety, please follow on-site signage & flaggers.
