81 Barrow Street

81 Barrow Street

“This small three-story brick Italianate House, over a rusticated basement, was erected in 1852-53 by James Vandenberg, a well-established builder who had been active in The Village for several decades and had been the master mason in charge of construction at Trinity Church. This house is the lone survivor of a row of three built on trinity church land. Vandenberg’s own residence was on the site of the apartment building, no.79. Although the long parlor floor windows of No.81 have been raised to sill height, the house still retains its typical bracketed and paneled roof cornice and Italianate ironwork at the stoop. The cornice above the parlor floor windows lend a note of elegance to this otherwise quite modest house, which is the only reminder of an earlier age on the block.”
