LPC DESIGNATION REPORT EXCERPT:

FIFTH AVENUE between 68th Street and 69th Street

No. 870 (1383/1)

	Date	Architect	Owner
Erected	1948-49 by	William I. Hohauser	for Simon Brothers Partnership

ARCHITECTURE

Style	Modern
Elements	Twenty-one story apartment house on corner site; stone at first three stories; brick above; square-headed tripartite windows; triple window bays at each floor at the outside angles of the shallow entrance court; set backs begin above the thirteenth floor.

HISTORY

The building replaced the Robert L. Stuart Mansion (1882) by William Schickel and R. H. Robertson's townhouse (Nos. 874) for M.C. Inman, completed in 1893. The Stuart Mansion was acquired by financier and sportsman William C. Whitney in 1897 and then extensively altered by McKim, Mead & White.

Herbert Kunstadt, Vice President
870 Fifth Avenue Corp.
870 Fifth Avenue
New York, NY 10021

Dear Mr. Kunstadt:

Pursuant to Section 25-307 of the Administrative Code of the City of New York, the Landmarks Preservation Commission, at the Public Meeting following the Public Hearing of February 27, 1990 voted to grant a Certificate of Appropriateness for a master plan for window replacement as put forward in your application completed on January 26, 1990, and as you were notified in a Status Update Letter (LPC#90-1583, SUL#90-0048), dated February 27, 1990.

The proposal consists of a master plan for replacement of the original steel windows and later replacement windows with new aluminum casement windows with a factory applied painted finish on the west and south facades and a portion of the east facade. The proposal specifies Designline-90 Casement windows, types A, D, F, H and I, and a beige painted finish (Benjamin Moore #ET-53). The proposal is documented in drawings 1, 2, 3 and 14, dated November 15, 1988 and revised October 17, 1990, 4 and 7 through 13, dated November 15, 1988, 5, dated November 15, 1989, and 6, dated November 13, 1989, in drawings labelled "West Elevation", "South Elevation", and "East Elevation", in photographs, in a color sample, and in a report titled "870 Fifth Avenue Conditions Report", dated February 26, 1990, all submitted by Skyline Windows as components of the application.

In reviewing this proposal, the Commission noted that the Upper East Side Historic District Designation Report states that 870 Fifth Avenue is a 21-story modern style brick apartment building with a three-story stone base constructed in 1948-49; and that the building's style, design, materials and scale are among the features which enable it to contribute to the special historic and architectural character of the Upper East Side Historic District. The Commission also noted that the building's original windows are steel casements with transoms and lower ventilation hoppers; that the building's curved bays contain tripartite polygonal windows; that the complexity of the original window configurations provide texture and ornament to the otherwise
