

Community Board 1 Child Population Update

Diana Switaj

Executive Committee

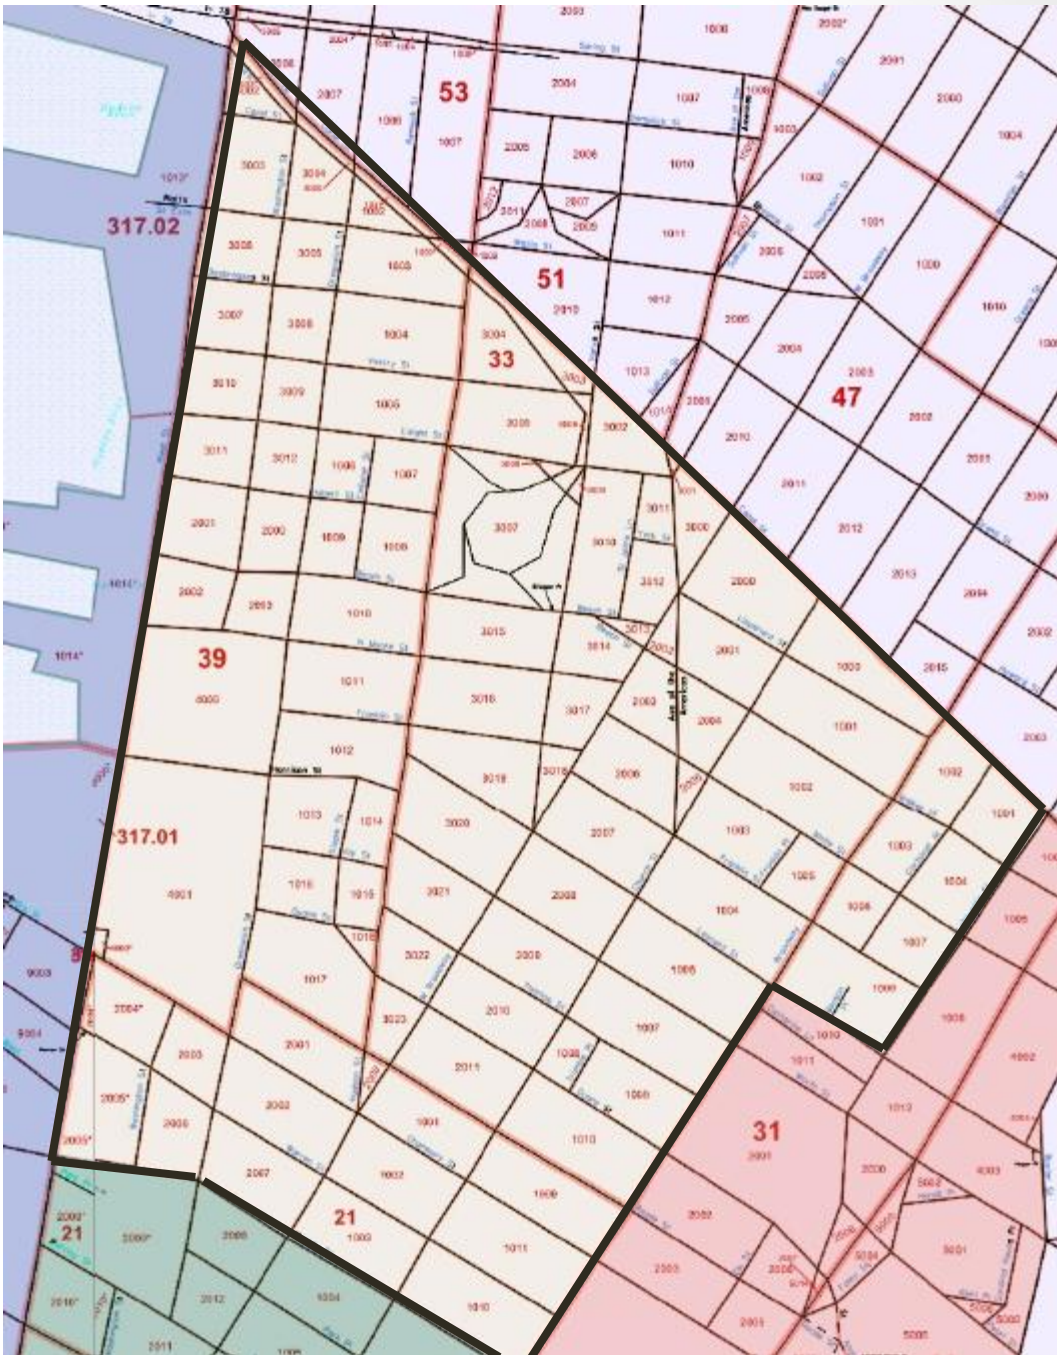

March 20, 2013

Methodology

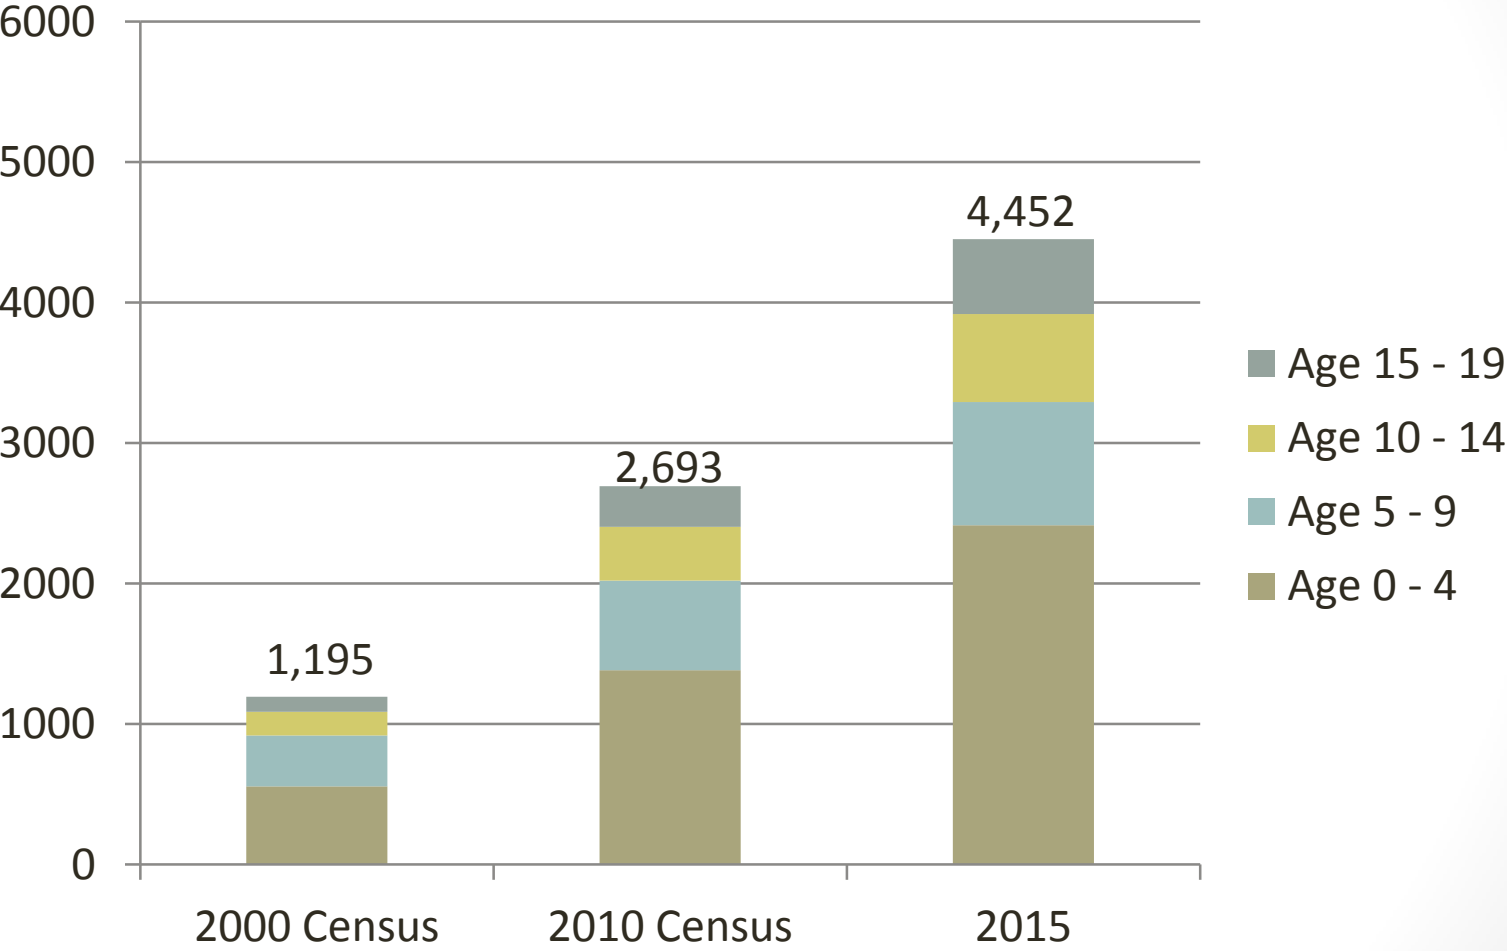

- U.S. Census population data examined between 2000 and 2010 for children 0 – 19
- Used Census Blocks rather than Census Tracts to get the most accurate counts by neighborhood
- 2015 projections are based on the rate of change between 2000 and 2010*

*2015 projections do not account for other factors such as birth/death rates, in/out migration and future available residential units

Example:
2000 Tribeca Census
Blocks

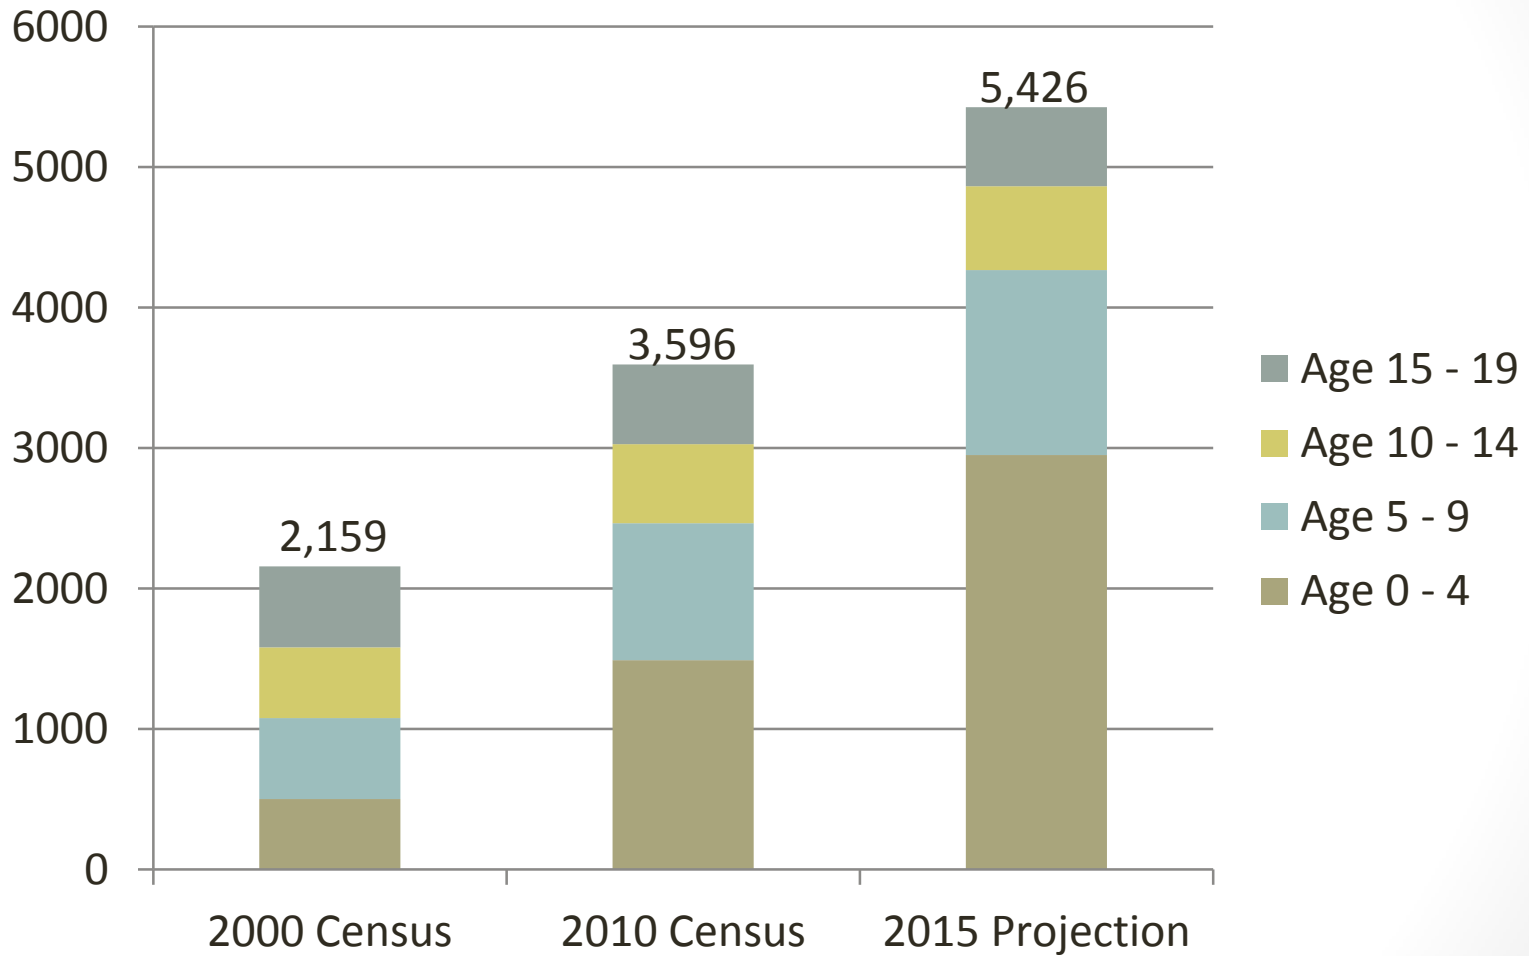

BATTERY PARK CITY CHILD POPULATION

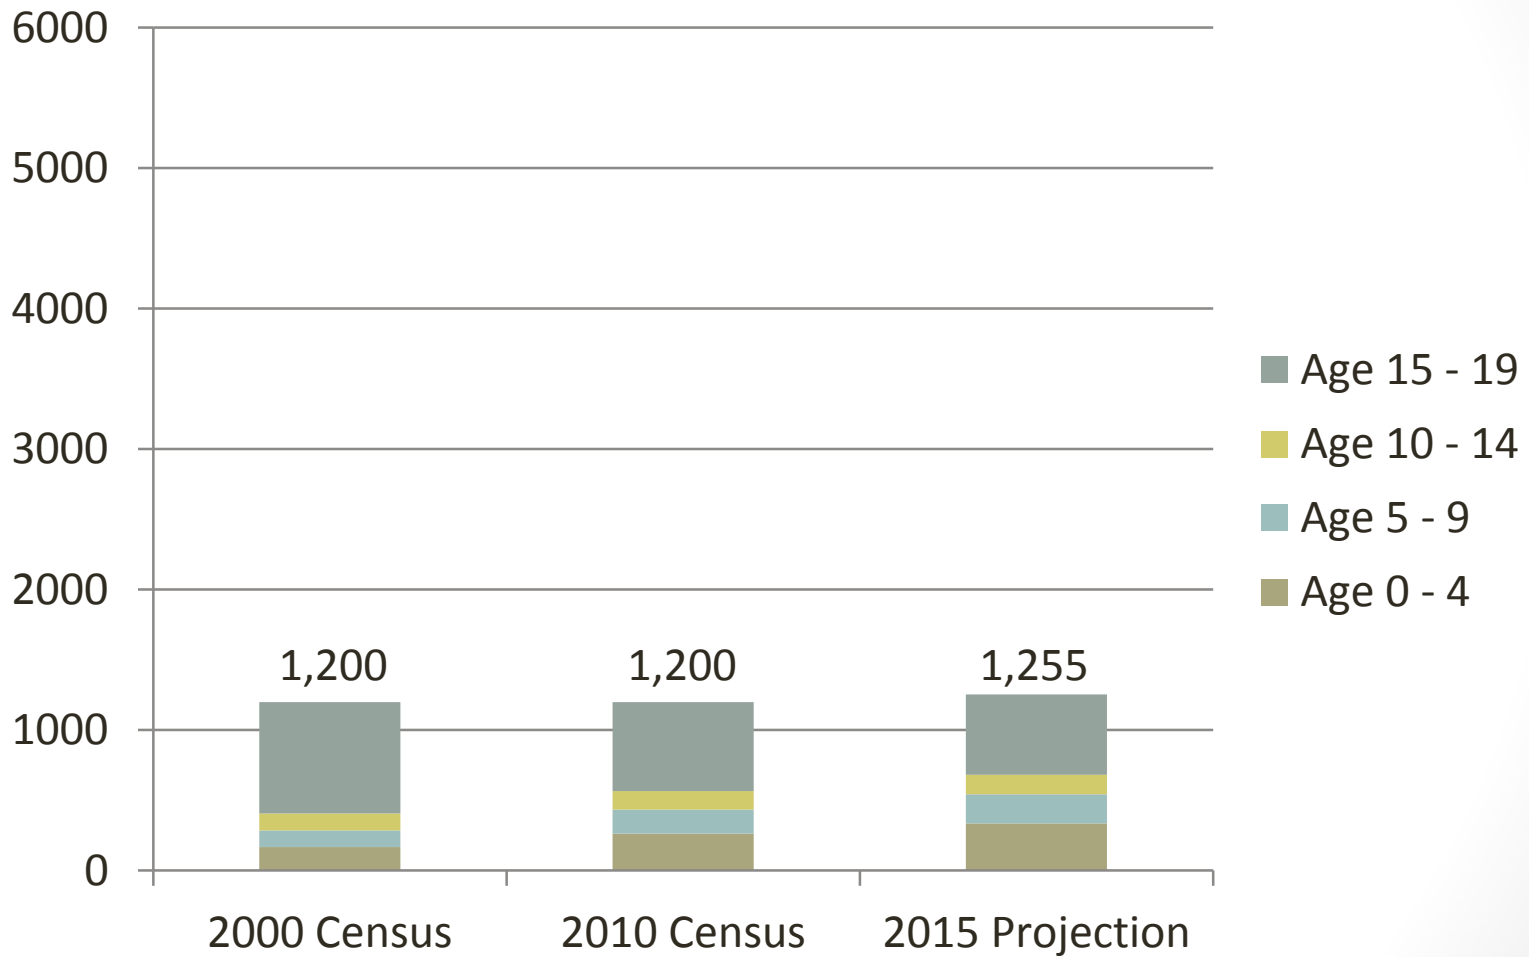

-Available residential units increased from 5,382 in 2000 to 7,785 in 2010.
