Plans to manage vehicular traffic and crowds on the sidewalk

I plan to operate an establishment that will not negatively impact our neighbors. I am an experienced operator and am confident this will be an establishment that CB3 will be proud to call its own.

I do not anticipate large crowds on the street. I will ensure that the premises are maintained in an orderly fashion at all times. I will designate an employee to make sure that a crowd of patrons will not form in front of or adjacent to my establishment as I do not want to disturb the quality of life of my fellow neighbors.

I will have signs visibly posted inside and on the storefront reminding patrons to be courteous of the neighborhood and to keep noise to a minimum. However, should a crowd form in front of or adjacent to our establishment, I will immediately inform the crowd that they are not able to congregate in front of the establishment.

I understand that parking is limited in the area. I anticipate that the overwhelming majority of my patrons will be walking; I plan to serve a community that lives and works in the immediate vicinity.

Plans to manage noise inside and outside of the premises

I plan to install soundproofing at my establishment so that the conversations of patrons and music will not emanate to the residential apartments surrounding my establishment. My plans are to run a friendly neighborhood establishment. The entertainment to be provided will be for quality and not for volume with a set compressor limiter for a predetermined sound level that will be tested inside the residential units above and outside of the establishment. A sound level control instrument will be placed inside of the establishment as a warning to the staff should the noise become too loud. The cell number of myself as well as the manager I hire will also be given to the residents of the building should they feel the need to call immediately if any noise is disturbing their quality of life. I plan on keeping any noise to a minimum.
