**5. Re: Miller Highway 72<sup>nd</sup> Street Off-Ramp Closure.**

**Full Board Vote: 33 In favor 2 Against 0 Abstentions 0 Present**

WHEREAS, late on Friday, January 9, 2004, the New York City Department of Transportation ("DOT") approved a request by Hudson Waterfront Associates, developer of the project commonly known as Riverside South (the "Developer"), for the closure of the 72<sup>nd</sup> Street off-ramp from the Miller Highway, and

WHEREAS, DOT failed to appear before, or otherwise meet with, the community until January 13, 2004, four (4) days *after* such approval was granted, rather than *before* the matter was determined (so that the community's views could be properly taken into account), and

WHEREAS, there is substantial disagreement as to whether the applicable final environmental impact statement (FEIS) *required* the closure of the off-ramp, or merely identified closure as an *option*, and

WHEREAS, DOT has not committed to awaiting the completion of a series of actions in addition to certain West End Avenue traffic mitigation measures – including particularly: (i) construction and completion of the full length of Riverside Boulevard (through to 59<sup>th</sup> Street); and (ii) improvement of the West Side Highway's 79<sup>th</sup> Street (northbound) off-ramp – *before* the 72<sup>nd</sup> Street off-ramp is closed, and

WHEREAS, the necessity of closing the 72<sup>nd</sup> Street off-ramp, but even more importantly, the necessity of closing it *now*, merely because of the imminent completion by the Developer of its Building "A" (between 71<sup>st</sup> and 72<sup>nd</sup> Street at Riverside Boulevard) – rather than in 2011 or whenever, if ever, the balance of the Riverside South Project, and the remainder of Riverside Boulevard, are completed – is in substantial doubt, and

WHEREAS, DOT's action, and particularly its taking of such action now, appear to be simply an accommodation of the Developer, even if that is not actually the case,

BE IT RESOLVED THAT Community Board 7/Manhattan:

- (a) **opposes** the Department of Transportation's grant of approval of the closure;
- (b) urges DOT to immediately withdraw such approval;
- (c) recommends that any further consideration of the matter be postponed until the balance of the Riverside South project, and particularly Riverside Boulevard, are completed; and further
- (d) urges the Department of Transportation to reconsider the traffic, parking and quality-of-life effects of the 72<sup>nd</sup> Street off-ramp closure in a much more comprehensive way, including specifically in face-to-face consultations with the community, before the matter is *ever* considered again.
