## Introduction

This report describes the City's efforts to ensure minority and women owned businesses have greater access to public contracting opportunities. The reporting period covers program accomplishments for the first quarter of Fiscal Year 2014 (July 1, 2013 – September 30, 2013). As per the New York City Administrative Code §6-129(I)1, the report is jointly submitted by the Director of the Mayor's Office of Contract Services (MOCS), as City Chief Procurement Officer, and by the Commissioner of the Department of Small Business Services (SBS).

This report summarizes program activity, prime contract and subcontract utilization data for City-certified Minority and Women-Owned Business Enterprises (M/WBE) and Emerging Business Enterprises (EBE), as well as additional data specified in Local Law 1 (LL 1) of 2013. The report covers contracts that were registered in the first quarter of FY 2014 subject to LL 1, and procurements that were solicited before LL 1 became effective and subject to LL 129.<sup>1</sup>

State law requires that a majority of contracts be awarded to responsible vendors that submit the lowest responsive bids or the best proposal. Despite these limitations, the City continues to make great strides in contracting areas where agencies have most discretion and flexibility. These are contracts that are valued at less than \$100,000 (small purchases) and less than \$20,000 (micro purchases). During the first quarter of FY 2014, M/WBE vendors were awarded 25% of the City's micro purchases and 30% of small purchases under the M/WBE program. In addition, M/WBEs won 45% of all subcontracts subject to the M/WBE program.

SBS continues to work aggressively to expand opportunities for minority and women-owned firms by connecting them to a comprehensive range of programs that provide management training, procurement technical assistance and other resources to help them navigate and compete in city contracting.

## Changes to the M/WBE Program

LL 1 strengthened the City's M/WBE program by eliminating the \$1 million cap on contracts to which participation goals will apply, significantly increasing the overall number and value of contracts subject to

<sup>&</sup>lt;sup>1</sup> LL 1 amended the law that created the City's M/WBE program, LL 129 of 2005. The new law took effect on July 1, 2013.

participation goals. Additional changes include: changes to goals in certain ethnic and gender categories (see Appendix – Tables A, B); the establishment of M/WBE participation goals on all services contracts (construction, professional and standard services); the elimination of goals for goods over \$100,000; the elimination of the Target Subcontracting Percentage (TSP) for the purposes of goal setting; and the establishment of participation goals for women in construction services. As the TSP was eliminated, under LL 1 agencies establish one M/WBE participation goal on eligible contracts after determining availability of M/WBEs to perform the work in question.

The new law also increased accountability for City agencies to meet their contracting participation goals, including: quarterly reporting requirements; the creation of an M/WBE Director position that will oversee agency compliance with M/WBE utilization goals and who will convene quarterly meetings with M/WBE officers to discuss agency performance in attaining such goals; and the creation of Performance Improvement Plans for agencies that fail to achieve their annual utilization goals. Finally, the law requires SBS to expand the online directory of certified firms and to perform site visits in connection with certification.

Though LL 1 became effective on July 1, 2013, it applied to new solicitations issued after that date. Procurements issued prior to July 1 are subject to the requirements of LL 129. As it may take several months for the procurement process to complete and this report presents data on registered contracts during the first quarter of FY 2014, the data in this report primarily pertains to contracts that were subject to LL 129.

## **Expanding the Base of Certified Firms**

SBS continues to increase the participation of M/WBE firms in City contracting by expanding its base of certified firms. During the certification process, a company's ownership and management structure is thoroughly reviewed to ensure the applicant performs the key functions of the business. Minority-owned and women-owned firms who choose not to certify with the City are neither tracked, nor measured, in the City's performance reporting. To that end, SBS has worked hard to simplify certification without compromising review standards. Businesses can apply for M/WBE certification online and track the status of their application using the NYC Business Express website available at <a href="http://nyc.gov/BusinessExpress">http://nyc.gov/BusinessExpress</a>. SBS also regularly conducts classes to educate small businesses on the certification process and application

requirements. During the first quarter of FY 2014, SBS conducted 7 certification workshops for 105 businesses. As part of new LL 1 requirements, SBS will be conducting site visits at firms seeking certification, to support the review process and ensure compliance with certification eligibility criteria.

Various community partners help extend the reach of SBS's certification outreach efforts. Businesses can rely on these organizations, including the City Council-funded community-based groups that comprise the M/WBE Leadership Association, and the SBS network of Business Solutions Centers located throughout the five boroughs, for assistance in applying for certification. These efforts ensure a higher quality application, making the submission and the certification review process easier and simpler. Between July and September, SBS certified 101 new M/WBEs and recertified 112 M/WBEs, bringing the number of Citycertified companies to 3,656 as of October 1, 2013. Our community partners help support the business growth of M/WBEs with marketing workshops, networking events, and business development services. During the reporting period, SBS collaborated with local development corporations, trade associations, industry membership organizations and local chambers of commerce on 26 events to spread the word about the benefits of certification and the range of capacity-building services available citywide to help businesses grow.

## **Emerging Business Enterprise Program**

In 2005, the Council introduced legislation to create a disadvantaged business enterprise program for the City called the "Emerging Business Enterprise program" (or "EBE program") and was signed into law by Mayor Bloomberg as Local Law 12 of 2006 ("LL 12"). Although similar outreach approaches and capacity building initiatives were and continue to be undertaken by SBS to successfully implement the M/WBE and EBE Programs (SBS often targets potential M/WBE and EBE groups simultaneously), the outcomes of such measures are quite different. Consistent with the federal DBE program, eligibility for EBE certification under the City's program requires that applicants satisfy a two prong test of economic disadvantage and social disadvantage. Where social disadvantage is presumed for M/WBEs and further evaluation of social or economic disadvantage criteria is not required for those individuals, the City's EBE program criteria relies on individual and specific determinations of an applicant's disadvantage.

Since inception of the program, 25 applications have been received, and a total of three firms are currently certified as EBEs. Unlike the M/WBE program, limited participation in the EBE Program has made it difficult

for City agencies to set goals on contracts. Nevertheless, two contracts (one prime contract and one subcontract) were awarded to an EBE certified firm for a total of \$23,695 during the reporting period.

SBS continues to strive towards increasing participation in the EBE program through a wide range of outreach efforts regularly conducted with businesses and community partners. Once increased participation in the EBE program is achieved, City agencies will have sufficient availability of certified firms needed to set feasible goals on their contracts.

## **Selling to Government**

SBS offers M/WBEs selling to government services that help them navigate the City's procurement system. Services are provided through a combination of workshops, courses and one-on-one assistance. To be an effective bidder on City contracts, M/WBEs need to understand the City's procurement rules and maintain the most up-to-date information on their profile in SBS' Online Directory of Certified Businesses (www.nyc.gov/buycertified) and other City procurement systems. In the first quarter of FY 2014, SBS worked with 56 certified companies to help them understand the City's procurement process and to update their contact information and business profiles. In addition, SBS conducted 57 one-on-one sessions with M/WBEs to provide assistance for responding to contract opportunities, and contract management assistance, including resolution of payments issues. For M/WBEs, it is vital to find the agencies that buy their products and services. In the first quarter of FY 2014, SBS informed and connected over 720 M/WBEs to contracting opportunities.

During the reporting period, 45 companies attended SBS' regularly scheduled workshop "Selling to Government" — a monthly workshop open to the public that provides firms with the basic concepts of government contracting. SBS also works with the City Council through the M/WBE Leadership Association to provide certified firms with more capacity-building services, including help applying for loans and surety bonds, preparing bids and proposals, and marketing to both the public and private sector. In the first quarter of FY 2014, member organizations sponsored 21 events and hosted 437 one-on-one technical assistance sessions.

As part of technology enhancements to support implementation of LL 1, SBS has been updating the Online Directory of certified businesses. Agencies and prime contractors can now see union affiliations and bonding levels of certified firms. Searching by company name has been made more flexible, and buyers can

also search for firms that are certified as both minority and women owned. In addition, SBS will be able to collect and display more work experience information for certified companies, including the percent of work was that was self-performed and specific data pertaining to construction companies.

## **Program Expansion**

In February 2012, SBS launched "Compete to Win", a new set of capacity building programs for Minority-and Women-Owned Business Enterprises (M/WBEs) and small businesses. This set of services is designed to help M/WBEs win more contracts with the City and consists of the following services: Technical Assistance, Upfront Capital Loan, Bond Readiness, NYC Construction Mentorship and NYC Teaming.

Through **Technical Assistance**, firms receive assistance on submitting bids and proposals for City contracts through workshops and one-on-one assistance. Firms receive an introduction to specific industry requirements and standards for the submission of bids and proposals. One-on-one assistance provides firms with guidance on how to improve unsuccessful submissions. SBS has worked with several City agencies, including the HPD, DPR, HRA and DCAS to help M/WBEs submit stronger bids and proposals to increase certified firms' chances of winning. SBS assisted 73 firms in the reporting period.

**Upfront Capital Loan** helps address the challenge that small businesses have in funding initial expenses, or mobilization costs, relating to City contracts (regardless of industry), such as labor and equipment costs. Short-term working capital loans are made available to firms that are awarded City contracts through partnerships with New York Business Development Corporation and Business Outreach Center Capital. One firm was awarded \$152,340 during the reporting period.

**Bond Readiness** provides construction companies with financial management skills to help them secure surety bonds necessary to compete on City contracts. The service consists of classroom training and one-on-one assistance. During the reporting period, SBS recruited 38 firms to participate in the 2013 - 2014 class that started in October.

**NYC Construction Mentorship** provides certified construction firms with greater access to City construction opportunities. Firms receive a customized curriculum of classroom instruction, one-on-one assistance, an assessment to help them grow their business, and contracting opportunities with participating agencies. In the reporting period, firms won five contracts with DPR valued at \$6.5 million and 25 contracts with HPD

valued at \$162,000. During this period, SBS also recruited 48 firms to participate in the 2013 - 2014 class, which started in October.

Through **NYC Teaming**, M/WBEs and other small businesses learn how to partner with other firms to bid on larger or new markets contract opportunities. In partnership with American Express OPEN, the division of American Express that provides assistance to small business owners, SBS offers a series of workshops and webinars that cover topics such as different types of teaming arrangements, financial and legal issues, responding to RFPs and bids and marketing to potential partners. The series culminates in a matchmaking event that facilitates industry-specific networking, brings firms together with City agency procurement representatives and prime contractors, and provides open RFPs and bids for participants to review with potential partners. NYC Teaming did not have programming activities in the reporting period.

The **Corporate Alliance Program (CAP)** helps connect firms with contracting opportunities in the private sector in collaboration with eleven corporate partners. Becoming a supplier to a large corporation is a major step forward for any small business, providing not only income but credibility, stability, and business relationships that come with experience. With its CAP partners, SBS launched a training series that addresses key issues small businesses face when trying to break into the corporate supply chain. Since the program launched, CAP has held fourteen workshops on "Navigating the Corporate Supply Chain" attended by more than 500 minority and women-owned businesses. 77 firms have graduated from the CAP/Columbia University Construction Mentorship Program launched in 2008.

Strategic Steps for Growth is a nine-month executive education program designed for M/WBEs, offered in partnership with the Berkley Center for Entrepreneurship & Innovation at the NYU Stern School of Business. An industry-specific class is also offered for business owners in the media & entertainment fields. The program provides participants with a new professional network, including business experts, university professors, and other business owners, and offers support for every aspect of business operations as well as a focus on capacity-building for City and government contract opportunities for the enrolled M/WBEs and on private-sector opportunities for the enrolled media & entertainment firms. Participants learn the strategic skills needed to run a growing company, and create a custom, three-year growth plan for their businesses. Since the program began in 2010, based on self-reported data from an annual survey conducted each calendar year, 55 M/WBE graduates of four classes have collectively reported securing \$6.4

million in new financing (including loans and lines of credit), creating over 330 new jobs and winning more than \$92 million in government contract awards (City, state and federal) as of December 31, 2012.

## **Program Compliance**

SBS is currently conducting a compliance audit of 5% of FY 2012 prime contracts with target subcontracting percentage, and 5% of subcontracts awarded to M/WBE firms. 14 prime contracts and 12 subcontracts are being audited for the covered period. The findings from the FY 2012 audit will be reviewed and shared with the participating agencies, to promote compliance with the program requirements, both by City agencies and prime contractors.

LL 1 establishes the designation of a "Director", to perform enhanced oversight functions. Deputy Mayor Caswell Holloway was appointed the first Director. As required by the law, he convened agency M/WBE officers and commissioners to the first quarterly M/WBE compliance meeting to discuss FY 2013 M/WBE utilization and agency performance. The meeting took place on October 23, and was attended by 41 staff members representing 19 agencies.

## **Qualified Joint Venture Agreements**

There were no contracts awarded to qualified joint ventures in the first quarter of FY 2014.

## **Efforts to Reduce or Eliminate Barriers to Competition**

Since the implementation of the M/WBE program, the City has undertaken a number of efforts to reduce barriers for M/WBEs and small businesses that are competing for contracts and currently doing business with the City. As mentioned above, SBS launched a bond readiness program to help firms secure surety bonds for larger City construction projects, and enrolled the second class for this program in the reporting period.

In July 2013, the City raised the dollar limit from \$5,000 to \$20,000 for micro purchases, a type of procurement under which agencies may buy goods, services or construction from any available vendor at a fair price, without formal competition. Micro purchases are an area where agencies have consistently achieved high M/WBE utilization, and this change will make procuring from qualified certified firms easier.

To make it easier to do business with the City, agencies are required to post all solicitation materials through the City Record Online, allowing vendors to identify opportunities and download relevant materials from one convenient, online location. SBS also continues to assist companies in expediting their payment requests from prime contractors and City agencies.

#### **Prime Contracts**

Table 1 below summarizes prime contracts awarded by City agencies' during the first quarter of FY 2014. M/WBEs were awarded almost \$110 million in prime contracts in this reporting period. The prime contracts in this table include industries and awards pursuant to methods subject to the M/WBE program.

Certain procurement methods are excluded from the M/WBE program – i.e., emergency procurements, intergovernmental procurements, interagency and government-to-government procurements, and sole source procurements. See, NYC Administrative Code § 6-129(q) (iii)-(vi). In addition, all human services contracts, contracts to non-profit organizations and procurements where state or federal funding restrictions either preclude the imposition of local goals or override local goals by imposing analogous state or federal goals are also excluded. See § 6-129(q)(i)-(ii). The subsequent discussion of M/WBE performance only includes contracts subject to the M/WBE Program.

As required by LL 1, the M/WBE performance data (see Appendix – Tables C - L) is summarized separately for each of the following categories: MBE, WBE, minority women (both MBE and WBE certified), and total M/WBE. MBEs include all minority owned businesses, regardless of gender. WBEs include all womenowned businesses regardless of race.

In those areas of procurement where agencies have greater discretion to target procurements to M/WBEs, (i.e., micro purchases and small purchases) M/WBE utilization remains strong. As already described, during the reporting period, changes to the Procurement Policy Board (PPB) rules concerning the micro purchase threshold became effective. Specifically, the micro purchase level was increased from \$5,000 to \$20,000, increasing the value of contracts that agencies may award without competition. In the first quarter of FY 2014, M/WBEs were awarded almost \$8 million worth of micro purchases, or 25% of the dollar value of all

such awards. Additionally, for small purchases (purchases valued between \$20,000 and \$100,000) the M/WBE utilization rate was 30% (over \$7 million awarded).<sup>2</sup>

2

<sup>&</sup>lt;sup>2</sup> The strong and continuing improvement in small purchase participation correlates with a policy change promulgated in the City's Procurement Policy Board (PPB) rules in FY 2009. This change enhanced M/WBEs' ability to compete effectively for small purchases by increasing the number of small purchases that were solicited solely from competitors (M/WBE and non-M/WBE) drawn randomly from City bidder lists.

For contracts valued at more than \$100,000, but below one million dollars, the M/WBE utilization rate was 6% (valued at over \$3.6 million) during the reporting period. For contracts valued at one million dollars or more, the M/WBE utilization rate was 2% (valued at over \$91 million). There were few contracts in those ranges - 8 M/WBE awards for contracts valued above \$100,000 and below one million dollars and 23 awards for contracts valued at or above one million dollars. Agency-by-agency and certification categories details corresponding to each of the above tables are included in the Appendix to this report (Tables C - F).

Of the total of 8,317 prime contracts awarded during the first quarter of FY 2014, 7,705 were subject to LL 1, though the vast majority (7,705) were micro purchases and therefore, valued at \$20,000 or less. Although these contracts represent 93% of all contracts awarded in the reporting period, they only represent 1% of the total dollar value. Only 2 contracts above \$100,000 were awarded.

Table 2 – FY 2014, 1 <sup>st</sup> Quarter Utilization – Prime Contracts Subject to the M/WBE Program and Solicited

<sup>&</sup>lt;sup>3</sup> The prime contract awards in this table are also included in Table 1, which includes all prime contract awards regardless of when solicited.

Most prime contracts reflected in the data (except the professional services contracts, for example) are required by New York State law to be procured via competitive sealed bid. Under General Municipal Law (GML) § 103, agencies must, for the overwhelming majority of the contracts covered by LL 129, accept the lowest responsible bid and may not give a bidder preference because of its M/WBE status. City agencies' efforts to achieve their prime contract M/WBE participation goals are thus limited to such means as increased outreach and training, aimed at encouraging M/WBEs to bid successfully on various procurements. Even for work not covered by GML § 103, such as professional services contracts, GML § 104-b precludes agencies from pursuing social policy goals unrelated to the procurement of goods and services, including M/WBE status. Thus, the City wide goals for prime contract awards must be viewed as aspirational, and agencies' performance may only be evaluated in terms of their efforts to make progress toward achieving the goals in light of the limited tools available to them for that purpose.

The M/WBE program does not cover all of the City's procurements. In keeping with Federal constitutional case law, the program is "narrowly tailored" to address the gender and race/ethnic-based disparities identified in a study commissioned by the City Council and released in 2005 (and later updated by the City in 2011 to support the changes codified in LL 1). For procurements with Federal and State funding, agencies must comply with either the Federal Disadvantaged Business Enterprise (DBE) program or the Empire State M/WBE program.

#### Prime Contracts with M/WBE Participation Goals

Under the M/WBE program, larger prime contracts with anticipated subcontracting are subject to participation goals. During the reporting period, agencies awarded 66 new prime contracts subject to M/WBE participation requirements (under either LL 129 or LL 1). Of the 66 prime contracts subject to M/WBE goals, 16 contracts were awarded to M/WBEs for a total value of \$38 million. Though most of the contracts with M/WBE participation goals registered during the reporting period were subject to the requirements of LL 129,<sup>4</sup> there were ten smaller contracts subject to LL 1 participation goals, with a

-

<sup>&</sup>lt;sup>4</sup> LL 129 sets subcontracting goals for prime contracts in the construction and professional services areas only. These goals apply to prime contracts regardless of value, but may only be set for subcontracts valued below one million dollars. Subcontractor participation goals are set for three groups (Black American, Hispanic American and women owned firms) in the professional services area, but not for Asian American firms. Similarly, in construction, goals are set for three groups (Black American, Hispanic American and Asian American owned firms), but not for women owned firms. Each of these exclusions stems from the City's 2005 disparity study, which failed to identify any statistically significant procurement disparities in those areas. Similarly, the study did not find statistically significant disparity for M/WBEs in subcontracts for standardized services.

cumulative value of \$747,000. Three of those contracts, valued at almost \$200,000 were awarded to M/WBEs. See Appendix – Tables G, H, and I.

#### **Subcontracts**

During the first quarter of FY 2014, there were no subcontracts approved on prime contracts subject to LL 1. As shown in the Table 3 below, the 66 prime contracts registered in the first quarter of FY 2014 that were subject to M/WBE participation goals have thus far yielded 82 subcontract awards<sup>5</sup>. Thirty-five of the 82 approved subcontracts (51% of the value) were awarded to M/WBE firms. Looking at construction in particular and not including subcontracts that were awarded to certified WBEs, a category for which LL 129 does not set subcontracting goals, M/WBEs were awarded 37% of the qualifying subcontracts - well above the LL 129 total goals of approximately 31%. The value of subcontracts awarded to M/WBEs on prime contracts with LL 129 subcontracting goals in the first quarter of FY 2014 was \$5.7 million.

Table 3 – I	Table 3 – FY 2014, 1 <sup>st</sup> Quarter - Approved Subcontracts on FY 2014 Registered Primes Subject to  Participation Goals													
Prime (	Contra	acts		Subcontracts										
Industry	#	\$	Subcontract		M/WBE		Total							
,		,	Industry	#	\$	% of total value	#	\$						
A/E	3	\$2,477,610	Prof. Serv.	4	\$515,617	100%	4	\$515,617						
			A/E	2	\$5,500	100%	2	\$5,500						
Const. Serv.	21	\$114,083,546	Const. Serv.	28	\$5,038,157	48%	73	\$10,475,917						
			Prof. Serv.	1	\$94,038	100%	3	\$94,368						
Total	24	\$116,561,156	Total	35	51%	82	\$11,091,402							

It is worth noting that for many of the covered contracts, especially in the construction arena, considerable subcontracting activity occurs in later phases of projects. Longer term trends can be derived from a review of the 957 active prime contracts registered during FY 2007 and the first quarter of FY 2014 that contained M/WBE goals for construction and / or professional services. Seventy-nine of all open contracts with M/WBE participation goals yielded a total of 193 subcontracts valued below \$1 million during the reporting period. Seventy-six of these subcontracts were awarded to M/WBEs. Among such subcontracts, the share

<sup>&</sup>lt;sup>5</sup> All of the subcontracts approved during the reporting period were on prime contracts subject to LL 129 as they were solicited prior to July 1, 2013.

of the total dollar value awarded to certified M/WBE subcontractors was approximately 45%, surpassing the citywide goal.

Total	79	\$703,473,103	Total 76 \$9,773,200 45% 193 \$21,												

#### Waivers

During the reporting period, vendors sought a total of 73 requests for waivers of the TSP requirements (for procurements subject to LL 129) and of M/WBE participation requirements (for procurements subject to LL 1). Of those requests, 9 were denied, while 38 were approved as full waivers and 26 were approved as partial waivers. Since waivers may be granted only to vendors that demonstrate both the capacity to perform the prime contract without subcontracting and with a prior contracting history of doing similar work without subcontracting, some of the waivers that were granted involved repeated requests from the same firms, as they sought multiple bidding opportunities. Thus, the 64 full and partial waivers were granted to a total of only 26 individual firms. Waivers are determined during the pre-bid stage of the procurement. Thus, most of the vendors that received waivers did not ultimately win the contracts for which they were competing.

During the reporting period, 6 contracts were registered where a winning vendor obtained either a full or partial waiver of the TSP.

- VERNON HILLS CONTRACTING CORP. received a partial waiver from the 31% TSP originally specified by the Department of Parks and Recreation (DPR) to 17%. This contract was registered on July 5, 2013 (Registration number CT184620131429117).
- A RUSSO WRECKING INC received a partial waiver from the 16% TSP originally specified by the Department of Housing and Preservation and Development (HPD) to 11%. This contract was registered on October 9, 2013 (Registration number CT180620141406033).
- A RUSSO WRECKING INC received a partial waiver from the 10% TSP originally specified by the HPD to 3%. This contract was registered on December 10, 2013 (Registration number CT180620141410582).
- HALCYON CONSTRUCTION CORP received a partial waiver from the 30% TSP originally specified by the DPR to 12%. This contract was registered on July 11, 2013 (Registration number CT182620131430258).
- EN-TECH CORP received a full waiver from the 3% TSP originally specified by the Department of Design and Construction. This contract was registered on July 11, 2013 (Registration number CT185020131429778).
- NEDERMAN, LLC received a partial waiver from the 10% TSP originally specified by the Fire Department to 5%. This contract was registered on November 21, 2013 (CT105720141404833 Registration number).

## **Large-Scale Procurement Approvals**

Prior to soliciting procurements with an anticipated value of over \$10 million, City agencies are required to seek MOCS approval to determine whether it is practicable to divide the proposed contract into smaller contracts and whether doing so would enhance competition among M/WBEs. During the reporting period, there were 31 registered contracts for which MOCS conducted large-scale procurement reviews. A full list is shown below. The value of the 31 approved contracts shown in the table below is almost \$3.6 billion dollars.

Approximately 82% of the large scale approvals in the first quarter of FY 2014 fell into one category: unique/unusual good or service. These approvals were for projects in which separate and smaller contracts would not enhance M/WBE opportunities.
