

NOFO Pathways for Renewal Projects

4.13.26

The graphic below is intended to represent the array of options available to existing CoC grantees as they navigate the NOFO process, with a focus on potential "transitions" between project types that may be advantageous given HUD's current priorities. The list of options is not exhaustive, nor is it meant to take the place of project-specific guidance.

*In past NOFOs, DV Bonus renewals have been ineligible for the transition grant process. YHDP renewals have also been ineligible for transition grants but have instead had the option of applying for *YHDP Replacement* funding. If any transition grant or YHDP Replacement guidance changes for the 2026 NOFO, this document will be updated to reflect that shift.
