In previous years, the "As-Built" statistics for each FHA Project were listed in the Bluebook. Beginning with the 11/1/1987 Bluebook, the figures listed for the FHA Houses, reflect the number of FHA Houses currently owned by NYCHA. This change was made in order to present a more accurate picture of the FHA Houses owned by NYCHA.

The Project HOME Program (Home Ownership Made Easy) in which tenants residing in Public Housing have the opportunity to purchase single family homes acquired and operated by the Authority from the FHA, commenced on 7/9/1980. Since then all houses which became available, either through move out or rehabilitation have been sold. In addition, some tenants in residence have been buying the the houses they occupy. We are continuing to sell houses as they become available. Also a number of FHA Houses have been sold by auction and other means. These dwelling units (FHA Repossessed Houses - X) are included in the Annual Contributions Contract with HUD. Between 7/9/1980 and 12/31/1999, 430 houses have been sold.

The following lists the number of acquired buildings for each group which have been subsequently sold through Project HOME, by auction and other means.

The Multi Family Home Ownership Program (MHOP) will provide the residents of Public Housing and other eligible families the opportunity to purchase an apartment in a limited equity cooperative at an affordable price based on a percentage of each family's income. The Housing Authority will work with the residents of these developments on time to form and manage a cooperative corporation. Upon formation of the cooperative the Housing Authority will sell the development to the resident shareholders.

Development Costs for the eleven developments listed on pages 50-51 were funded by utilizing the Program Reservations for Federal Developments NY36P005314, 317, 318, 321 and 322. In addition, NYCHA has received HOPE I Implementation Grant Awards which include operating subsidies to be provided to each development upon its conversion to a cooperative.

Nine of these eleven developments (all except for Samuel III) were part of the New York City Department of Housing and Preservation Department's (HPD) Special Initiative (SI) Program, for which the Housing Authority serves as Construction Manager. Samuel (MHOP) I & II were part of the Housing Authority's Samuel (City) Part VI Development.

In June 1992 the Housing Authority acquired from the City of New York four MHOP sites and in June 1993 an additional five sites were acquired. Madison Avenue and Samuel (MHOP) II were acquired in June 1993.

It has been decided (due to funding decisions) to utilize several Bronx MHOP buildings for Conventional Public Rental Housing. These buildings are no longer part of the MHOP Program. In addition the names and addresses of the Housing Development Fund Corporations (HDFCs - Cooperatives) do not always match those of the Acquired Developments. In order to present a complete picture of these changes, the entire MHOP Program is detailed by Development, HDFC name and address on pages 52 and 53.

* MORE THAN 8 PERSON FAMILIES

For Families larger than 8 persons, for Admission to all Programs and for the Section 8 Program, Income Limits are determined by adding eight (8) percent of the four-person income limit base to the eight (8) person limit for each person in excess of eight (8). The limits calculated by the use of this factor are rounded to the nearest \$50.

** SECTION 8 HOUSING ASSISTANCE PROGRAM
(EXISTING HOUSING)

As of 12/31/1999, in accordance with Annual Contributions Contracts with the United States Department of Housing and Urban Development, the Authority made subsidy payments for 73,916 dwelling units under Section 8 Housing Assistance Payments Contracts with 26,923 different landlords.

EXPLANATORY NOTES

METHOD

Conventional Method:

The Authority acquires the land and lets separate contracts for General Construction, Heating and Ventilation, Electric, Plumbing and Elevators.

Turnkey Method:

The Developer buys the land, constructs the Development and sells it to the Authority.

NUMBER OF APARTMENTS

A separate entry for Current Apartments has been added to the Development Data Booklet. All other figures are "as-built" meaning that they do not reflect any alterations made since the buildings were turned over to Management for occupancy. Figures for the number of Current Apartments and the Estimated Population do not reflect apartments temporarily vacant due to 504 (disabled accessible) or other renovation.

NUMBER OF RENTAL ROOMS

Rental Room count per apartment is equal to 2 1/2 plus the number of bedrooms, except in the Federally aided program a zero bedroom apartment is equal to 3 rental rooms. Rental room counts are as-built figures.

POPULATION

Population figures represent the legally know population at each Development. Population figures do not include doubled up families or any other residents not officially listed in Housing Authority statistics. At Developments where the number of families

is less than 95% full occupancy due to renovation, Development population is estimated at a 95% occupied level.

TOTAL AREA

Includes land acquired and developed as part of the Development for a park or playground to be operated and maintained by the NYC Department of Parks. At State and City Developments the park or playground is ceded to the City of New York. At Federal Developments it is leased to the City.

CONSTRUCTION COSTS

For Conventional Developments:

Includes foundations, Superstructures, Plumbing, Heating, Electrical, Elevators, Refrigerators, Ranges, Testing Concrete, Fuel for Temporary Heat and a percentage of contingencies if required.

For Turnkey Developments:

Reflects the total acquisition price paid to the Developer.

AVERAGE MONTHLY RENT PER RENTAL ROOM

The rents shown are the average monthly rents currently received and include gas and electricity. At Developments starred (*) tenants pay for electricity. At First Houses and Fenimore-Lefferts tenants pay for electricity and gas. Specific rents vary in accordance with incomes of resident families.

COMPLETION DATE

Date of 95% to 100% availability or occupancy of dwelling units. At Redfern Houses 456 dwelling units were completed on May 1, 1953 and 148 units were completed on June 1, 1959.
