Resolution to Approve a Temporary Program to Resolve Outstanding Environmental Control Board Judgments

By the Environmental Control Board Be it resolved this September 24, 2026:

Pursuant to Local Law 147 of 2026 (Int. No. 1002-2026), which establishes a temporary program to resolve outstanding judgments imposed by the Environmental Control Board, the Board hereby concurs with the Commissioner of Finance establishing a temporary program to resolve eligible judgments for a 90-day period to be effective during the fiscal year that commenced on July 1, 2026, provided that such period may be extended for an additional period of 90 days by rule of the Commissioner of Finance if such commissioner determines that such an extension would encourage further resolution of eligible judgments, generate revenue for the City and reduce the amount of outstanding debt owed to the City. This temporary program will permit respondents who are subject to eligible judgments resulting from a default decision and order to resolve those judgments by payment of base penalties without payment of default penalties and accrued interest. It will also permit respondents subject to eligible judgments entered after an adjudication and finding of violation to resolve those judgments by payment of 75 percent of imposed penalties without payment of accrued interest.
