NYC Facilitated Enrollment Program for the Aged, Blind and Disabled

Public Health Solutions

Single Stop

Department for the Aging

The Facilitated Enrollment
Program for the Aged, Blind, and
Disabled program helps New
Yorkers enroll in Medicaid and
programs to help pay for Medicare.
Sponsored by the NY State
Department of Health, the Program
is administered by Public Health
Solutions, working closely with
HRA's Office of Citywide Health
Insurance Access.

People who are 65 and older, and those who are living with a disability and/or blindness can get free in-person help at a network of community-based organizations including certain Senior Centers and Health Centers around NYC.
