

New York City Deferred Comp Plan Small Cap Opps

INVESTMENT SUMMARY

Objective

The Small Cap Opportunities approach seeks to provide long-term returns in excess of the Russell 2000 Index by investing in stocks of high-quality small companies.

Philosophy

Our investment philosophy is based on the core belief that the stock markets are less than completely efficient. Superior information and insights, plus the conviction to act are the requirements for active management to successfully and consistently add value. The portfolio has no systematic bias toward growth or value names but will, at times, be tilted in either direction based on available opportunities.

Process

Our approach emphasizes fundamental research and bottom-up stock selection. The Team leverages the firm's research resources to scour the small capitalization investment universe for what they believe to be the best companies. The Team identifies companies with key success factors including top market share, substantial insider ownership and fully funded business plans. Next, the Team performs detailed fundamental analysis and independent reviews of these names in order to generate a diversified portfolio. The majority of the work involves management visits, and strong consideration is given to those names with buy recommendations from the global industry analysts.

STRATEGY DETAILS

Inception date	31 October 2002

ABOUT WELLINGTON MANAGEMENT

Tracing our roots to 1928, Wellington Management is one of the largest independent investment management firms in the world. We are a private firm whose sole business is investment management, and we serve as investment adviser for institutional clients in over 50 countries. Our most distinctive strength is our commitment to proprietary, independent research – the foundation upon which our investment approaches are built. Our commitment to investment excellence is evidenced by our significant presence and long-term track records in nearly all sectors of the liquid, global securities markets. We offer an extensive array of investment approaches across a broad range of equity, fixed income, currency, specialty, alternative, and multi-asset strategies.

PAST PERFORMANCE DOES NOT PREDICT FUTURE RETURNS. AN INVESTMENT CAN LOSE VALUE. Gross performance results are net of commissions and other direct expenses, but before (gross of) advisory fees, custody charges, withholding taxes, and other indirect expenses, and include reinvestment of dividends and other earnings. Net performance results are based on the highest published US advisory fee for this product, include reinvestment of dividends and other earnings, and are net of advisory fees, commissions, and other direct expenses, but before custody charges, withholding taxes, and other indirect expenses. | Portfolio characteristics data may be sourced internally or externally depending on the specific approach, availability of internal data, underlying holdings characteristics, and other factors. Additional information regarding this data and projected or forward looking characteristics are available upon request. | If access products are held by the portfolio they may not be included in the calculation of characteristic data. Access products are instruments used to gain access to equity markets not otherwise available and may include (but are not limited to) instruments such as warrants, total return swaps, p-notes, or zero strike options.
